Internship – KINE 499

I. THE INTERNSHIP

Every Sport Management major shall complete an internship in an area related to his/her career goals. Explanations and examples of internship processes and procedures are provided in this manual.

It is important for students to recognize, however, that an internship is a privilege that carries distinct responsibilities. Sport Management internships are available only to seniors (90 credit hours or more) in the Sport Management major. Students shall only be placed in positions if they have demonstrated maturity, competence, and reliability, both in the classroom and in experiential learning activity. Students MUST finish a MINIMUM of 540 documented hours for the 12-hour internship before an internship requirements are met (students may divide the internship into segments for credit with the approval of their faculty advisor). Finally, because of the competitive selection process, students must realize that they may not secure their top choices of internships. Specific details on the internship application process are available from Sport Management faculty members.

Students serving an internship must remember that performance on the job can either enhance or hinder their career objectives. Eagerness, reliability, and responsibility shall always be in demand. An internship presents the opportunity to establish a reputation for these qualities. Recent years have clearly shown that students who carefully plan and successfully complete meaningful internships have much more positive results in launching their career in the sport industry.

II. INTERNSHIP OPPORTUNITIES IN VARIOUS INDUSTRY SEGMENTS

Requirements and compensation can vary dramatically; therefore, it is critical that the student identify areas of interest early and then carefully secure an internship in consultation with a member of the Sport Management faculty. See Appendix B for helpful websites.

III. ENROLLMENT AND ACADEMIC CREDIT

Eligible students must complete a minimum of 12 credits of internship (KINE 499). It should be noted that, depending upon the nature of the position, the time period of the internship could transcend the traditional academic calendar. For example, an internship with a professional baseball team could begin as early as January and last through the conclusion of the season (late August). An internship with a professional basketball team usually begins in September or October and runs until May or the completion of the season. Also, there are times in which a student may not be able to finish the required 540 documented hours at the internship site. Keeping these situations in mind, the prospective interns need to plan their academic schedule and resources accordingly. A 4 ½ year program is not out of the ordinary. Careful planning can prove to be to the student’s advantage. For example, a student wishing to enter a career in professional baseball should plan ahead to enable the student to secure an internship in January through August and complete coursework in the fall of the senior year. The student then can attend winter baseball meetings for a career placement in December. At any rate, the enrollment consideration and use
of the academic credit requires a great deal of thought and must be contemplated on an individual basis.

IV. DEADLINES

Advance paperwork, as described in section XIV, must be submitted and approved before the student begins work as an intern. Since the formal affiliation agreement requires multiple signatures, students are advised to submit the required paperwork at least two weeks in advance of their projected start date.

V. FINANCIAL CONSIDERATION

Students need to plan ahead financially as well as academically. While there are many internships that provide a salary or hourly wage, there are also many excellent opportunities that provide no compensation. Internships need to be considered on the merits and opportunities of potential learning experiences. More important than the immediate financial rewards, an internship is an investment in the future. The skills learned, contacts, and references should be the prime consideration in the selection of an internship. For these reasons, financial planning is very important before a student does an internship. Under most circumstances it is not suggested that a student work another job while completing an internship.

VI. INTERNSHIP PHILOSOPHY

The purposes of an internship are as follows:
A. Provide the student insight into possible requirements and opportunities.
B. Provide the student with practical work experience.
C. Provide the student with a laboratory for application of academic coursework.
D. Provide the student with an opportunity to develop leadership, responsibility, self-confidence, and self worth.
E. Provide the Internship Coordinator with information about student performance and degree program strengths and weaknesses.

VII. PROCEDURES, REQUIREMENTS AND RESPONSIBILITIES FOR STUDENTS

A. The student must have completed 90 credit hours of coursework.
B. The student shall engage in a series of advising meetings with the internship director to determine career aspirations and possible appropriate internship placement.
C. The student shall prepare a cover letter, and mail appropriate materials to prospective internship employers.
D. The student shall complete and submit an Internship Information Form complete with the site supervisor’s signature and the Internship Placement Application. Forms may be printed from this manual or picked up from the departmental secretary or a faculty member, or on-line at http://www.coloradomesa.edu/kinesiology.
E. The student must secure appropriate forms from the Sport Management Office or at the Departmental Website: http://www.coloradomesa.edu/kinesiology.
1. Bi-Weekly Log Sheets
2. Mid-Term and Final Evaluation forms
3. 5-10 pages review of internship. (See Bi-Weekly Log/Summary – See page 18)

VIII. GUIDELINES FOR SITE ORGANIZATIONS

Introduction

The purpose of this section is to assist the site organizational personnel employing the intern, in guiding the student throughout their internship assignment. The movement of the student from the academic and university-oriented lifestyle into a community agency is challenging to the university, student and the agency or organization. There is a need for careful planning and communication. Students shall be moving from patterns of student life (related to professors and peer groups) into an agency or organization where they shall be working with professionals and dealing with the public at large.

Site Organization Selection

The student has indicated a professional area of interest in Sport Management, and in the opinion of the student and his/her faculty advisor, the placement in the site organization is representative of that area of interest. Every effort is made to match students to the agency that can best fulfill his/her present and future needs.

IX. INTERNSHIP PROGRAM CONDITIONS

The Site Organization shall:

A. Provide Colorado Mesa University with an Internship job title or position description into which a CMU intern is to be placed.
B. Assign an Organization Internship Supervisor who shall schedule work assignments that coincide with the Internship Job Description(s) provided by the Organization.
C. If financial compensation is provided, pay the intern the amount indicated on the Internship Job Description form. Notify the student’s faculty supervisor of any changes concerning an Internship Agreement or Job Description form, if the changes take place while an intern is serving at the Organization.
D. Inform the intern of all organization rules or regulations concerning health and safety, and any other relevant policies or procedures.
E. Allow the intern to attend, without penalty, any mandatory meetings, seminars, lectures, etc., scheduled by the University, unless a written agreement otherwise is made between the University and the Organization. (When Applicable)

The University shall:

A. Screen all academic interns placed with the Organization.
B. Provide the intern with a copy of the Internship Information Form and the Internship Placement Application applicable to the internship position.
C. Orient the Organization to the nature and purpose of the internship requirements set forth for any intern placed with the Organization.
D. Provide the Organization with a copy of the Internship Information Form once it has been signed by all required parties.

X. GENERAL REMARKS

The internship program should be utilized by an agency/organization in several ways:

A. As an opportunity to provide input into the training of future professionals in the field.
B. As a way to inject enthusiasm and new ideas into current operations.
C. As an opportunity to undertake projects, valuable to the agency/organization operations, that may have not yet been undertaken.

XI. RESPONSIBILITIES OF SITE ORGANIZATION TO THE STUDENT

A. The site organization shall provide all necessary forms to be completed by the student (ID, auto-registration, etc. where applicable). Provide any necessary materials needed for the work assignment.
B. The site organization shall inform student of operational procedures through any brochures, etc.
C. The site organization should be prepared for the arrival of the student by having in place temporary delegated duties.
D. The site organization shall familiarize the student with the agency, its objectives, philosophy, policies, and all regulations.
E. The site organization shall familiarize the student with minor duties, gradually adding more as the student’s ability permits.
F. The site organizations shall familiarize the student with resources and materials used by the agency: books, pamphlets, audio-visual aids, reports, releases, etc.
G. The site organization should evaluate constructively, objectively, and tactfully and carefully analyze strength and weaknesses.
H. The site organization supervisor shall return an evaluation form to the student’s faculty supervisor. This information shall be made available to the student who was evaluated, unless specifically requested by the site supervisor.

XII. RESPONSIBILITIES OF THE STUDENT TO THE SITE ORGANIZATION

A. Discuss assignment possibilities with the site organization director. If the student is accepted, a mutual understanding has begun.
B. Perform the duties in a legal and faithful manner and work with the best interest of all concerned.
C. Be responsible for transportation between the University and home or place of work.
D. Solicit input from the site organization regarding their performance.
E. Evaluate the entire assignment. Guiding principles for evaluation:
   1. A cooperative process, joint conferences are necessary.
   2. A continuous process, continuous awareness of quality and quantity of work is helpful.
   3. The student should be led to analyze their strengths and weaknesses.
XIII. HOW INTERNSHIPS ARE SELECTED

Role of the Student
A. The student should first determine career objectives, such as: what field they would wish to pursue if given the opportunity free of all restrictions. In other words, if a person could be anything they wanted, what would they be? This encourages the student to set and pursue high goals. The student should then investigate all relevant situations that fit their aspirations.
B. The student shall complete an informational survey for the purpose of beginning a file. The student shall complete all forms required by Colorado Mesa University (see Section VII).
C. Upon acceptance of an internship, the student shall perform any and all tasks assigned by the site organization, and be an exemplary representative for their own sake, the employer, and the University.

Role of the Faculty Supervisor
A. The Faculty Supervisor’s role is that of an advisor and evaluator. This is done on an on-site basis whenever possible and practical, but if not, through periodic telephone/e-mail conversations with the site supervisor.
B. The faculty supervisor shall advise students with regard to their own career aspirations, and help students secure internships that the students feel are meaningful and beneficial to their future careers.
C. During the period of the internship, the faculty supervisor shall attempt to communicate with the student for the purposes of advising and feedback. This provides another opportunity for ensuring the success of the placement.

Internship Coordinator

Dear Internship Coordinator:

I recently telephoned your office to inquire about the NFL internship program. The person that I spoke with recommended that I submit a resume to be added to your files. With this letter, I wish to apply for an internship position with your program.

I have been involved in sports ever since I was very young. During my high school education I had the opportunity to volunteer with our football team coaching staff. I started out doing whatever odd jobs were needed and by my senior year I was helping in the ticket office. I learned a lot from this position and am thankful for the opportunity that the coaches gave me. This work experience also convinced me that this was the field that I wanted to enter. When I entered college it was not difficult for me to choose a major and I decided on the Sport Management program at Colorado Mesa University.

As part of my education, I am required to do a 12-credit hour internship. I know that the NFL has a strong internship program, and I would like to be a part of that program.

Thank you for accepting my enclosed resume. Please feel free to request further information from me by contacting me at the above address or at (970) 248-5678. I sincerely appreciate any consideration you might give me to participate in the NFL’s internship program.

Sincerely,

Mary Smith
