

2016-2017 PETITION/PROGRAM SHEET
Degree: Bachelor of Arts
Major: Sociology

About This Major . . .

Sociology is the scientific study of social life, social change, social organization, and the complex social causes and consequences of human behavior. Since all human behavior is social, the subject matter of sociology covers a broad array of topics, including family, religion, crime, politics, life course, race, gender, and social class. Sociology provides many distinctive perspectives on the social world, as well as a range of research methodologies that can be applied to virtually any aspect of social life, from corporate downsizing to problems of peace and war to the expression of emotion and beyond. Because sociology addresses the most challenging issues of our time, it is an expanding field increasingly tapped by those who craft policies and create social programs (www.asanet.org/public/what.html).

Sociology majors gain important skills in critical thinking, research methods and responsible citizenship. Sociology majors are prepared for future graduate work in sociology and related disciplines, as well as for a wide variety of careers in such sectors as business, the health professions, the criminal justice system, social services, human resources and government.

For more information on what you can do with this major, go to <http://www.coloradomesa.edu/career/whatmajor.html>.

All CMU baccalaureate graduates are expected to demonstrate proficiency in critical thinking, communication fluency, quantitative fluency, specialized knowledge, and applied learning. In addition to these campus-wide student learning outcomes, graduates of this major will be able to:

1. Articulate the reciprocal relationship between individuals and society (Specialized Knowledge);
2. Interpret published statistical findings on social problems or issues (Quantitative Fluency);
3. Frame and answer complex questions about social issues using theoretical perspectives and the scholarship from the field of sociology (Specialized Knowledge, Critical Thinking);
4. Write a fully developed and empirically supported research paper in standard American Sociological Association (ASA) format (Communication Fluency);
5. Describe ways in which theories and research from the discipline of sociology are applied in real-world organizational and clinical settings (Applied Learning).
