

Program Overview: Bachelor of Arts, Spanish Literature and Language Concentration

About This Major . . .

Spanish majors at Colorado Mesa University choose from one of three concentrations: Applied Professional, Secondary Teaching Licensure, and Literature and Language. Classes provide knowledge and skills related to effective communication in Spanish as well as an understanding of the relationship of the Spanish language and its cultures to the world in which we live.

Spanish Language and Literature majors gain valuable insights into Peninsular and Latin-American language and literature as well as their histories and cultures. Students are provided with an intensive examination of literature as seen through the various genres (poetry, narrative, theatre, and film). Students are also introduced to the linguistic properties of the Spanish language.

All CMU baccalaureate graduates are expected to demonstrate proficiency in critical thinking, communication fluency, quantitative fluency, and specialized knowledge/applied learning.

With a Spanish Literature and Language major in hand, you will be able to:

1. express yourself coherently when you speak and write Spanish.
2. demonstrate a good sense of sentence structure, pronunciation, and word formation when you speak and write.
3. discuss important literary and artistic movements and works, and show that you are aware of a wide range of cultural elements in the Spanish-speaking world.
4. develop a research project that analyzes significant literary figures, movements, and works.
5. identify variations in the way Spanish speakers express themselves.

Program Requirements

A student must follow CMU graduation requirements by completing 120 semester credit hours, including 40 credits of coursework at the 300+ level. See the “Undergraduate Graduation Requirements” in the catalog for additional graduation information. Students should work closely with a faculty advisor when selecting and scheduling courses prior to registration. In general, CMU’s programs of study are based on two curriculum groups:

1. Essential Learning

CMU’s Essential Learning program provides the foundation of skills and information that cuts across all fields of study and the support for advanced concepts that students will later encounter in their majors. Before moving into work at the 300+ level, students complete the Maverick Milestone and its co-requirement, Essential Speech. This pair of courses is a capstone experience where students integrate what they have learned from their foundation courses by making connections among diverse areas of knowledge. The capstone is also an opportunity for students to work with disparate ideas, a critical skill expected of all CMU graduates that will aid them in solving the complex and unscripted problems they will encounter in their personal, professional, and civic lives.

2. What You Will Study in This Major. . .
