

THE COLORADO ENERGY SCHOLAR AWARD SERIES

Recognizing Colorado's most outstanding energy student

OVERVIEW

In partnership with *West Slope Colorado Oil & Gas Association*, *The Colorado Mesa University Foundation* created a new endowment that will provide an annual scholarship award to Colorado's most outstanding student pursuing a future career in Western Colorado's diverse energy industries.

WHO IS ELIGIBLE

To be eligible for the scholarship award, a Colorado student must demonstrate through essay, extracurricular activities and academic performance the skills necessary to become a high performing future energy professional. A student needn't be enrolled to apply for the scholarship but the scholarship applies only to CMU programs. Campus energy related programs include Landman/energy management, mechanical engineering, environmental science, geology, machining, welding or process systems technology.

WHAT BENEFITS DOES THE SCHOLARSHIP PROVIDE?

The scholarship will be awarded to a full-time student pursuing a degree in an energy related field who is attending or planning to attend Colorado Mesa University. The award amount will be \$4,000 per semester and is good for one academic year. The award will be presented each year at the West Slope Colorado Oil & Gas Association Annual Banquet in February hosted by Colorado Mesa University.

APPLICATION DEADLINE

Applications will be accepted October 1, 2016 – January 31, 2017

THE COLORADO ENERGY SCHOLAR AWARD SERIES

Essay Questions

The Colorado Energy Scholar Essay Questions:

Colorado Mesa University and the West Slope Colorado Oil & Gas Association seek an outstanding student who demonstrates via essay the life experience, travels, extracurricular activities and academic performance demonstrating why they should be recipient of the energy scholar award.

Essay Guidelines

- **Choose the format that works for you.** Feel free to submit a traditional essay, slide presentation, video or any format that you feel best captures your response. Please use the format you are most comfortable with, the scholarship Committee has no preference.
- **Determine your own length.** There is no prescribed minimum or maximum length. Use your best judgment in determining how long your submission should be. We recommend that you think strategically about a length and format that shows your aptitude for science and energy. Be creative!

Technical Guidelines

- **Accepted Upload Formats:** Acceptable formats are PDF, Word, and PowerPoint. We strongly recommend converting your piece to a PDF file prior to submitting.
- **Multimedia Restrictions:** We will be viewing your submission electronically and in full color, but all submissions will be converted to PDF files, so animation, video, music, etc. will not translate over.
- **Essay Videos:** Will be accepted via YouTube but must be accompanied by a written version as well. The committee recommends using your video essay as a supplement.

1. Describe the person who most influenced your interest in energy?
2. In your view why is energy important to humanity and what should our energy future look like?
3. Why is energy production important to our world, country, state and local communities?
4. What experiences, projects, extracurricular activities or personal hobbies best demonstrate your interest in an energy related fields such as math, science, geology or environmental issues?

What are your long- and short-term goals at University and life?

Additional Documents

- **Letter of Recommendation:** Please submit at least one letter of recommendation.
- **Transcripts:** Please include your high school transcript.

Important: Remember, this completed application and all related essay materials must be emailed to Carley Maher (c.maher@wscoga.org) before January 31st.
