

## TRANSFER GUIDE AND PLANNING WORKSHEET

### Mesa State College Colorado Community Colleges Bachelor of Science Degree – Athletic Training

This planning worksheet represents a guide for community college students transferring to Mesa State College and majoring in Athletic Training. This transfer guide can be used in two ways:

- If the student completes an Associate of Arts degree or an Associate of Science degree at a Colorado community/junior college, this Transfer Guide identifies the courses a student needs to complete (with a C- or higher) at the community/junior college in order to be able to finish the designated baccalaureate degree in no more than 60 credits beyond the 60 credits required to complete the Associate degree. In this role, the planning worksheet serves as a “60+60” transfer guide. Under Colorado policy, students who complete an Associate of SCIENCE or an Associate of Science degree at a Colorado community/junior college and are admitted to a public 4-year college or university within Colorado are also guaranteed: the full transfer of a minimum of 60 credits toward a baccalaureate degree at a Colorado institution of higher education, completion of the lower-division component of the receiving institution’s core curriculum, and junior standing. If more than 60 college-level credits are taken at the community/junior college, some loss of transfer credit may occur and students may not be able to complete this baccalaureate degree in 120 credits.
- If the student intends to transfer prior to completing an Associate of Arts or an Associate of Science degree, this Transfer Guide should still be used to identify the courses that can most effectively prepare them for efficiently completing the designated major at the institution to which they are transferring. While not completing the required Associate degree eliminates the guarantees described above, all the individual general education courses identified below in Section I are guaranteed to transfer and to count toward fulfilling the receiving institution’s lower division general education requirements.

Community college students seeking to transfer under the CCHE ‘60+60’ guaranteed graduation policies described above must complete all required courses (listed as only option or as required) within the first 60 semester hours at the community college and complete an Associate of SCIENCE or an Associate of Science degree. Completion of an associate degree does not assure admission to any Mesa State College degree program.

For additional information on CCHE transfer policies and GT-Pathways guaranteed transfer of general education credit, visit <http://highered.colorado.gov/Academics/Transfers/>

#### **ASSOCIATE OF SCIENCE REQUIREMENTS (60 Credits):**

Where possible, choose ‘Required’ (Sections I and II) and ‘Best Choice’ (Section III) courses to apply toward associate degree general education and electives course work.

#### **I. Associate of Science General Education Courses**

<b>Communication</b> (6 credit hours)	<b>Cr-Hrs</b>	<b>Grade</b>
ENG 121 – English Comp I	3	C
ENG 122 English Comp II	3	C

<b>Mathematics</b> (3 credit hours)	<b>Cr-Hrs</b>	<b>Grade</b>
