**About This Degree . . .**

The Registered Nurse to Baccalaureate of Science in Nursing (BSN) Program is accredited by the Colorado State Board of Nursing and the Commission on Collegiate Nursing Education (CCNE).. This program is designed for Associate degree and Diploma RNs. The two-year program provides educational experiences to prepare a professional nurse generalist to practice in a variety of health care settings. The program integrates nursing theory, practice, and science with a broad liberal arts education. The program has been developed to prepare a highly competent professional with the education necessary to meet the increasing need for quality health care in society today and provides students with the foundation for graduate study in nursing.

Mesa State's BSN nursing program started in 1988 and has been fully accredited since its inception. The RN-BSN program began originally in 1979; the new program provides all nursing courses in an online format to provide better access to registered nurses.
