**Lessons from the Field: a
Nurse's Story**

Beverly A. Lyne, RN, MSN
Assistant Professor of Nursing

Uganda! Haiti! Nicaragua! Three of the poorest countries in the world...each suffering from natural disasters and political unrest. Each offering its own beauty, warmth, hospitality even in the face of such dire needs we cannot even comprehend. Beverly Lyne has traveled to remote areas of each country, delivering nursing care, managing cholera treatment units, vaccinating children, teaching nurses and doctors, developing friendships. She will share highlights from trips to Nicaragua since 1988, Uganda since 2005 and Haiti following the earthquake in 2010 (including teaching cello in the midst of the rubble in Port au Prince!).

Please come with your lunch, your faculty and staff colleagues and enjoy the first presentation of the fall Colloquium series
