Lost in Space; Not If They Are Engaged

By Dr. Cynthia Chovich
Associate Professor of
Teacher Education

Effective learner engagement is not limited to traditional classrooms. Instructors can create enriching adaptive strategies for online courses to promote student-student, student-content, and student-instructor interactions. This presentation will share several examples of engaging strategies you can use for online discussions so that your students are not "lost in space".

ONLINE DISCUSSION

Please come with your lunch and
bring your colleagues.
