**DEMYSTIFYING THE FACULTY-LED**  
**INTERNATIONAL TRAVEL PROCESS**

Have you always wanted to lead a study abroad trip but are unsure of the process? Are you eager to travel abroad post-COVID for a conference or research, but unclear on how to get started? Please join a panel of travel facilitators from Purchasing, International Student Admissions and Programs, Academic Affairs, and faculty who have successfully lead a study abroad trip to learn about the process and ask questions you may have. We will also be discussing best practices for leading a student information session, fundraising opportunities, and ongoing process improvement for international travel.
