About This Major . . .

The Bachelor of Science in Sport Management serves our students in their chosen profession so that they will be better prepared to enter the world of sport business or pursue a graduate degree. The Sport Management major enhances curriculum offerings for students desiring a career in one of the many segments of the sport and fitness business communities. Sport in America is the 15th largest industry in the United States with the Gross National Sports Product nearing \$115 billion annually. Opportunities for college graduates with sport management education and experience are very diverse and challenging. As sport has evolved into an integral part of the American culture, the operations of sports programs have become more sophisticated and complex. Individuals assigned the responsibility for the management of sport programs and facilities must be familiar with the intricacies of sport activities while possessing effective skills as business professionals.
