

2012-2013 PETITION/PROGRAM SHEET

Degree: Associate of Arts

Major: Liberal Arts

Emphasis: Business Computer Information Systems

About This Emphasis . . .

The Associate of Arts (A.A.) degree is designed for students who intend to continue their education and obtain a baccalaureate degree. The A.A. is the appropriate choice for students who will take upper division coursework in the arts, humanities, or social and behavioral sciences. The degree program includes the Colorado Statewide General Education Core and meets the lower-division general education requirements at most public institutions in Colorado.

The CIS A.A. degree, in addition to providing students with all of their general education is useful in giving students a working knowledge of computer hardware and software. Common productivity tools such as presentation software, spreadsheets and database management software used in businesses are presented. This skill set will give students an edge in most future classes they intend to pursue. If a student stops with only an associate's degree, the CIS A.A. provides skills that can be used in the workplace immediately.
