

2014-2015 PETITION/PROGRAM SHEET
Award: Technical Certificate
Program of Study: Technology Integration
Specialization: Certified Network Technician

About This Certificate . . .

Students enrolled in Technology Integration learn a multitude of skills to help prepare them to enter a variety of careers related to computer systems, computer system administration and networking, and Cisco Systems Network training. This certificate program prepares students with the entry level skills and knowledge requisite to work on networks in a CISCO environment. Through this certificate, students have the opportunity to obtain the skills necessary to test for the industry certification CCNA. In addition, the courses are part of the AAS TECI Networking Emphasis degree. The CISCO program provides students with a skill set sought by employers hiring network engineer technicians.

The coursework in this certificate is aligned with national and international certifications including Cisco (CCENT/ICND1/ICND2/CCNA), A+/N+. Program content has been structured to give an entry level education to all graduates entering this field. Emphasis has been placed on providing a common core of training for all students due to the convergence of the communication industries.

The Cisco CCNA certification for network associates validates the ability to install, configure, operate, and troubleshoot medium-sized routed and switched networks, and implement and verify connections to remote sites in a wide-area network (WAN) Network technician coursework teaches students valuable Internet technology skills, including networking, IT Essentials, Cabling. The curriculum covers a broad range of topics from basics on how to build a network, and more complex IT concepts such as applying advanced troubleshooting tools.
