

Program Overview: Bachelor of Fine Arts, Art Studio Art Concentration

About This Major . . .

The BFA degree in Art with a concentration in Studio Art is designed to give students strong technical skills and a art history background while developing an individual focus in their art. Students develop skills and aesthetic judgment in the materials, tools and techniques within drawing, painting, printmaking, ceramics, or sculpture studio arts. Art history studies engage students in historic and contemporary artists, and art movements and styles. A background in the visual arts can provide a variety of opportunities in the areas of studio art, art galleries, and applied design. The degree culminates in a senior gallery exhibition in the CMU Art Gallery.

Students must participate in and complete a sophomore portfolio review for entry into the program (Sophomore Seminar). A BFA with a concentration in Studio Art prepares the student to pursue a career as an artisan or continue with graduate studies in art.

All CMU baccalaureate graduates are expected to demonstrate proficiency in critical thinking, communication fluency, quantitative fluency, and specialized knowledge/applied learning.

In addition to these campus-wide student-learning outcomes, graduates of this major will be able to:

1. interpret and apply formal elements and principles of design. (Critical Thinking)
2. demonstrate application of tools, materials, techniques, and proper use and care for equipment through quality craftsmanship. (Applied Learning)
3. generate individual response through concept and theory beyond formal elements to create personal content. (Communication Fluency)
4. communicate clearly regarding the critical analysis of art and design both historical and contemporary. (Specialized Knowledge/ Communication Fluency)
5. create and sustain a body of work through self-directed research, experimentation, risk-taking, and reflective analysis. (Applied Learning)
6. justify critical analysis of artwork based on material, conceptual, and critical analysis. (Critical Thinking)

Program Requirements

A student must follow CMU graduation requirements by completing 120 semester credit hours, including 40 credits of coursework at the 300+ level. See the “Undergraduate Graduation Requirements” in the catalog for additional graduation information. Students should work closely with a faculty advisor when selecting and scheduling courses prior to registration. In general, CMU’s programs of study are based on two curriculum groups:

1. Essential Learning

CMU’s Essential Learning program provides the foundation of skills and information that cuts across all fields of study and the support for advanced concepts that students will later encounter in their majors. Before moving into work at the 300+ level, students complete the Maverick Milestone and its co-requirement, Essential Speech. This pair of courses is a capstone experience where students integrate what they have learned from their foundation courses by making connections among diverse areas of knowledge. The capstone is also an opportunity for students to work with disparate ideas, a critical skill expected of all CMU graduates that will aid them in solving the complex and unscripted problems they will encounter in their personal, professional, and civic lives.

2. What You Will Study in This Major. . .

Foundational Courses

These courses provide you with a general background in art theory and application including vocabulary, art methods/practice, and a broad overview of 40,000 years of art history to prepare you for more intensive study in the arts.

- ARTE 101 Two-Dimensional Design
- ARTE 102 Three-Dimensional Design
- ARTE 118 History of Art, Prehistory to Renaissance
- ARTE 119 History of Art, Renaissance to Present
