Dr. Futhey updated the group regarding Federal Compliance:

- It was noted that parts of the report will be sent out to this committee possibly as early as next week; all were asked to read those items and look at resources for each, and send any feedback as soon as possible to Dr. Futhey.
- Students are being asked for their input through a survey to be sent to them on September 5th.
- Dr. Bridge will be visiting with ASG regarding student involvement and participation; anyone from this committee is welcome and encouraged to accompany her.

Steering Committee members received drafts of 2-3 subcomponents of various criteria of the Assurance Argument for their review regarding content changes or deletions, summaries, and possible topics for campus highlights. (Send non-substantive changes to Annette.) The designated reviewer of each sub-component led the group in discussion of suggested changes.
