FOREWORD

The Grand Junction State Junior College, established by legislative enactment in 1925, was started by men who wished to bring opportunities for higher education to the youth of Western Colorado and Eastern Utah. From the beginning it has appealed to those young men and women who desired the benefits of college but could not afford the expense attendant upon traveling to a distant institution and maintaining a standard of dress and social life beyond their means.

Due to the rapid advance made during the last twenty-five years in almost every field of human endeavor, it now seems necessary to spend a longer period in securing an introduction to these life activities. It is a well-recognized fact that some training beyond the high school is becoming almost essential for life in modern America.

A democracy such as ours is constantly in need of intelligent leadership. Our greatest leaders in the past have not always come from families which could afford to educate their young men and women. Some of our greatest men and women have come from homes which were "poor" from the standpoint of material wealth.

The Junior College movement is an attempt to make available opportunities for at least a part of the higher education course, in the hope that promising students, having completed one-half of the courses, will find it possible to complete it.

JUNIOR COLLEGE CALENDAR

1932-33

September 22, Thursday Registration begins.
September 23, Friday Registration continues.
September 24, Saturday Registration closes at 5 P. M.
September 26, Monday Classes begin.
September 30, Friday Assembly of all students.
November 11, Friday Armistice Day, holiday.
November 24, Tuesday Thanksgiving Day, holiday.
November 25, Wednesday Holiday.
December 17, Saturday Winter vacation begins.
January 3, Tuesday Classes begin.
March 18, Saturday Spring vacation begins.
March 27, Friday Registration for spring quarter.
March 28, Tuesday Classes begin.
May 19, Tuesday Memorial Day, holiday.
June 9, Friday Commencement exercises.

REQUIREMENTS FOR ADMISSION

Applicants for admission must be graduates of a standard four-year high school. They must present fifteen acceptable units, of which at least three must be English. Since Junior College students finish their college courses at various institutions elsewhere, applicants for admission will be held to the requirements of the college or university at which they expect to graduate. Applicants must send in their transcripts of high school credits, accompanied by a letter in which they state the name of the college, or at least the type of college at which they expect to graduate. Applicants must realize that the college from which they graduate will require certain high school units, regardless of whether the Junior College has accepted them.

The faculty of the Junior College strongly recommends that applicants for admission present the fifteen units prescribed by the University of Colorado for admission to the College of Arts and Sciences, the College of Engineering, the College of Music, and the College of Pharmacy. Below is given the requirements for the

COLLEGE OF ARTS AND SCIENCES

The fifteen acceptable units must be distributed as follows:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English Language (Grammar, spelling, composition, vocabulary, etc.)</td>
<td>13</td>
</tr>
<tr>
<td>English Literature</td>
<td>12</td>
</tr>
<tr>
<td>Mathematics (1 unit algebra, 1 unit plane geometry)</td>
<td>2</td>
</tr>
<tr>
<td>Laboratory Science (1 unit to either physics or chemistry; see note below)</td>
<td>2</td>
</tr>
<tr>
<td>History (1 unit may be civic)</td>
<td>2</td>
</tr>
<tr>
<td>Language other than English</td>
<td>2</td>
</tr>
<tr>
<td>Electives (from any units regularly accepted for graduation by English)</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td>Total 15 units</td>
</tr>
</tbody>
</table>

NOTE: All entering students must present the fifteen acceptable units specified above, except that those who do not offer two units of foreign language or science may be admitted if they present equivalent additional units in English, mathematics, history, science, or foreign language. Those who do not offer two units of foreign language or science will be required to take, in college, courses in subjects in which they were deficient. Fifteen college hours in such course being equivalent to two high school units.

Students who expect to enter the Junior College must send in their transcripts of high school credits in time so that they may be received not later than September 20, 1933.

TUITION AND FEES

The tuition and fees for the year are as follows:

<table>
<thead>
<tr>
<th></th>
<th>Per Quarter</th>
<th>Per Three Quarters</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition</td>
<td>$45</td>
<td>$135</td>
</tr>
<tr>
<td>Student activity fee</td>
<td>2</td>
<td>6</td>
</tr>
<tr>
<td>Chemical fees for those taking chemistry</td>
<td>5</td>
<td>15</td>
</tr>
<tr>
<td>Chemistry equipment, breakage deposit, to be paid once</td>
<td>5</td>
<td>5</td>
</tr>
</tbody>
</table>

Not all students are required to take chemistry. Only those who expect to attend the State University and wish to fulfill their basic requirements in this manner are required to take it.

The total fees and tuition for those not taking chemistry are $81 for the year. The total for those taking chemistry is $101 for the year, of which $5 is a breakage deposit.

BOOKS

The college maintains a book store for the purpose of selling books to students at cost plus a slight amount for transportation. The complete cost of books for the college year usually averages from $12 to $20 per student.

BOARD AND ROOM

Out-of-town students usually can be placed in private homes for board or room, or both. The residents of Grand Junction are very anxious to help deserving students who need to help pay their own way. Many students work in restaurants, cafes, or boarding houses for their board. Others care for furnaces and lawns for their room. The dean of the college and the athletic coach attempt to place all of the young men. Young women can be placed in good homes where they may earn their board and room by caring for children or doing light duties about the house. The dean of women carefully supervises such placement of girls.

CLOTHING

Expenses for clothing are very small for students here. Very plain and inexpensive clothing is quite satisfactory.

SOCIAL ACTIVITIES AND SPENDING MONEY

The social activities of the Junior College students are inexpensive "mixers"; parties or dances never cost more than thirty-five cents, with the exception of the "Soiree," the most formal affair of the year, which costs one dollar per couple.

It has been estimated that the average college student here spends no more than $150 per year, which includes tuition, fees, books, and spending money, exclusive of board and room.

Prospective students are not advised to expect to be able to earn...
REQUIREMENTS FOR ADMISSION

Applicants for admission must be graduates of a standard four-year high school. They must present fifteen acceptable units, of which at least three must be English. Since Junior College students finish their college courses at various institutions elsewhere, applicants for admission will be held to the requirements of the college or university at which they expect to graduate. Applicants must send in their transcripts of high school credits, accompanied by a letter in which they state the name of the college, or at least the type of college at which they expect to graduate. BOOKS

The college maintains a book store for the purpose of selling books to students at cost plus a slight amount for transportation. The complete cost of books for the college year usually averages from $12 to $20 per student.

BOARD AND ROOM

Out-town students usually can be placed in private homes for board or room, or both. The residents of Grand Junction are very anxious to help deserving students who need to help pay their own way. Many students work in restaurants, cafeterias, or boarding houses for their board. Others care for furnaces and lavas for their room. The dean of the college and the athletic coach attempt to place all of the young men. Young women can be placed in good homes where they may earn their board and room by caring for children or doing light duties about the house. The dean of women carefully supervises such placement of girls.

CLOTHING

Expenses for clothing are very small for students here. Very plain and inexpensive clothing is quite satisfactory.

SOCIAL ACTIVITIES AND SPENDING MONEY

The social activities of the Junior College students are inexpensive “mixers”; parties or dances never cost more than thirty-five cents, with the exception of the “Boone,” the most formal affair of the year, which costs one dollar per couple.

It has been estimated that the average college student here spends no more than $150 per year, which includes tuition, fees, books, and spending money, exclusive of board and room.

Prospective students are not advised to expect to be able to earn
all of their expenses while in college. They may be able to earn
board or room, or both, or tuition; but very few are able to earn
board, room and tuition.

LOAN FUNDS

Two organizations in Grand Junction loan money to outstanding,
deserving women students. One organization loans money to promis-
ing young men.

AWARDS

One organization gives a cash prize each year to the Sophomore
who has made the highest grades in history courses for the two-year
period. Another organization gives an award to the Sophomore stu-
dent who makes the highest grades in English for two years.

GRADING, CREDITS AND SCHOLARSHIP

The same system is employed here as that in use at the Univer-
sity of Colorado. "The standing of students is indicated on a basis
of 100, with 70 as a minimum passing grade; conditionally, 60-70;
'not passed' below 60."

The majority of courses are "three-hour courses," which means
that the student spends three fifty-minute periods per week in class.
It is expected that a student will spend two hours in preparation
per week for each credit hour carried. A three-hour course would
involve six hours preparation per week.

The average load carried per quarter is about fifteen or sixteen
hours. Students may carry less than that if they are in poor physi-
cal condition. Students may carry more than sixteen hours only
by special permission, which is granted only to those students who
have made a scholastic average of 80 or above during the preceding
quarter.

Courses may be dropped only by permission of the dean, and that
must be done within a period of three weeks after the time of regis-
tration for the quarter. The dropping of a course after that time
is equivalent to receiving a "technical failure" in that course.

Members of the faculty of the Junior College constantly attempt
to maintain the same high level of scholarship which is maintained
at the University of Colorado. Students who expect to enter the
Junior College with the expectation of "getting by as easily as pos-
sible" are not desired.

Freshman students who fail to pass an average of eight quarter
hours during each of the first two quarters will be dropped from
the college.

CURRICULUM

Courses of study are offered which include the following general
curricula: Liberal arts and sciences, pre-legal, pre-medical, pre-
nursing, pre-pharmacy, commerce, engineering, and teacher training.

COURSES

The courses offered are standard university courses. They are as
nearly identical as possible in number and outline to the same
courses offered at the University of Colorado.

Chemistry
1 (a, b, c). General Inorganic Chemistry. Lectures and labora-
tory. 4 hrs.

"A course of lectures, laboratory work, and recitations deal-
ing with the laws and theories of chemistry, together with the
study of the elements and their most important compounds."
21 (a, b, c). Organic Chemistry. Lectures and laboratory. 5 hrs.

"A study of the methods of preparation and properties of the
more important organic compounds. Special stress is laid upon
the theories underlying the subject and the proof of the consti-
tution of most of the compounds studied."

Economics
2 (a, b, c). Economic History of England and the United States.
3 hrs. Reading, recitations, lectures.

"Traces the growth of industry, agriculture, commerce, trans-
portation, population and labor from the simple, isolated, agricul-
tural communities at the time of the Norman Conquest of Eng-
land to the complex industrial and commercial society of today."

Education
3 (a, b). Principles of Education. 3 hrs.

The study of the educational process in general as it is af-
fected by economic, political, and social conditions, as well as
presentation of the formal and informal agencies of education.
The educative process is analyzed according to the nature of the
individual and the educative agencies affecting it. The aims of
education are presented along with the reasons for their impor-
tance. The first quarter deals with education as a life process;
the second, as a school process.

The study of classroom organization, constructive discipline,
various plans of class work, plans of study and recitation are
presented. This course follows Principles of Education and pre-
sents the practical applications, through method, of the theories
presented in the principles course.

Education 3 a, b pre-requisite.
all of their expenses while in college. They may be able to earn board or room, or both, or tuition; but very few are able to earn board, room and tuition.

21 (a, b, c). Organic Chemistry. Lectures and laboratory. 5 hrs.

"A study of the methods of preparation and properties of the more important organic compounds. Special stress is laid upon the theories underlying the subject and the proof of the constitution of most of the compounds studied."

Economics

2 (a, b, c). Economic History of England and the United States. 3 hrs. Reading, readings, lectures.

"Traces the growth of industry, agriculture, commerce, transportation, population and labor from the simple, isolated, agricultural communities of the time of the Norman Conquest of England to the complex industrial and commercial society of today."

Education

3 (a, b). Principles of Education. 3 hrs.

The study of the educational process in general as it is affected by economic, political, and social conditions, as well as presentation of the formal and informal agencies of education. The educative process is analyzed according to the nature of the individual and the educative agencies affecting it. The aims of education are presented along with the reasons for their importance. The first quarter deals with education as a life process; the second, as a school process.

The study of classroom organization, constructive discipline, various plans of class work, plans of study and recitation are presented. This course follows Principles of Education and presents the practical applications, through method, of the theories presented in the principles course.

Education 3 a, b pre-requisite.
5. Principles and Practice of Teaching. Spring quarter, 3 hrs.
   A course in the theory and practice of instruction. The cadet
   teacher must teach three half-day periods per week in the public
   schools of Grand Junction. The student must observe the work
   of a qualified teacher of a given grade or subject and must then
   teach independently. This laboratory work is supplemented by
   discussions, lectures, excursions, and visits.

English
1 (a, b, c). Freshman English. 3 hrs.
   A course in college English composition in which themes and
   other exercises must be written, textbooks must be used, assigned
   readings done.
2 (a, b, c). Survey of English Literature. 3 hrs.
   A course which is designed to give a general knowledge of
   literary types and movements, and of the chief writers of each
   period; and a more detailed knowledge of selected masterpieces.

French
1 (a, b, c). Beginning French. 5 hrs.
   Grammar, pronunciation, translation and dictation are studied.
2 (a, b, c). Second-year French Reading. 3 hrs.
   Modern French stories and plays are read. Selected poems and
   the history of French literature are studied.

History
1 (a, b, c). Modern European History. 3 hrs.
   By means of lectures, discussions, textbook and assigned read-
   ings the outline of the history of modern Europe is presented.
2 (a, b, c). History of the United States. 3 hrs.
   "A general survey of the political, economic, and social his-
   tory of the United States."

Mathematics
1. College Algebra. Fall quarter. 3 hrs.
   For students entering liberal arts college.
3. College Algebra. Fall quarter. 5 hrs.
   For students entering engineering college.
   For students entering liberal arts college.
   For students entering engineering college.
19. Analytical Geometry. Spring quarter. 3 hrs.
   For students entering liberal arts college. Algebra or tri-
   gonometry prerequisite.
23. Analytical Geometry. Spring quarter. 5 hrs.
   For students entering engineering college. Algebra or tri-
   gonometry prerequisite.

Mechanical Drawing
1. Engineering Drawing. Fall quarter. 3 hrs.
3 hrs.
4. Engineering Drawing. Spring quarter. 3 hrs.

Physical Education
1 (a, b, c). Freshman Physical Education. 1 hr.
2 (a, b, c). Sophomore Physical Education. 1 hr.

Political Science
1 (a, b, c). American Government. 3 hrs.
   A beginning course in the principles of government dealing
   with the fundamental principles upon which the American gov-
   ernment is founded, the organization and services of the national,
   state, and local governments, and current political problems con-
   fronting these units.

Psychology
1 (a, b, c). General Psychology. 3 hrs.
   A course intended to give a general survey of the psychologi-
   cal factors of human behavior.
2. Comparative Psychology. Spring quarter. 3 hrs.
   A comparative study of animal behavior for the purpose of a
   better understanding of human behavior.
115. Educational Psychology. 3 hrs.
   In this course students are introduced to the factors involved
   in effective learning. The psychological factors involved in the
   learning process are studied in their relation to individual dif-
   ferences as caused by heredity and environment.

**College of Engineering**

**Pre-Graduate Permit to Teach**

The State Superintendent of Public Instruction will, upon the recommendation of the dean of the college, grant the pre-graduate permit to those students who have satisfactorily completed the ninety-three quarter hours required (of which thirty hours must be in professional training). The thirty hours of professional training must be presented in the following courses:

- General Psychology: 6 hrs.
- Educational Psychology: 3 hrs.
- Principles of Education: 3 hrs.
- Methods of Elementary Instruction: 3 hrs.
- History of Education: 9 hrs.
- Practice Teaching: 2 hrs.

30 hrs.

These permits are good for one year of teaching only. After that time a young teacher may take the state teachers' examination.

The Junior College has no desire to add to the already overcrowded condition of the teaching profession. It desires to be of service to worthy young men and women who intend to enter that profession, but it must be understood that only those students doing thoroughly satisfactory work will be recommended for the pre-graduate permit.

**Student Activities**

All students are encouraged to engage in a worth-while activity.

**Student Council**

This council is made up of representatives from the freshman and sophomore classes and faculty. The council plans the activities of the students and acts in an advisory capacity to the administration of the college.

**Assemblies**

Assemblies are held weekly. Student attendance is required. The programs are planned by the student council and faculty. An attempt is made to offer a variety of programs of a cultural, enjoyable nature.

**Dramatics**

A dramatic club is formed each year which studies and produces plays.

**Publications**

A newspaper, "The Campus Criterion," is published weekly by the newspaper staff.
PRE-GRADUATE PERMIT TO TEACH

The State Superintendent of Public Instruction will, upon the recommendation of the dean of the college, grant the pre-graduate permit to those students who have satisfactorily completed the ninety quarter hours required (of which thirty hours must be in professional training). The thirty hours of professional training must be presented in the following courses:

- General Psychology - 6 hrs.
- Educational Psychology - 3 hrs.
- Principles of Education - 6 hrs.
- Methods of Elementary Instruction - 3 hrs.
- History of Education - 9 hrs.
- Practice Teaching - 3 hrs.

These permits are good for one year of teaching only. After that time a young teacher may take the state teachers' examination.

The Junior College has no desire to add to the already overcrowded condition of the teaching profession. It desires to be of service to worthy young men and women who intend to enter that profession, but it must be understood that only those students doing thoroughly satisfactory work will be recommended for the pre-graduate permit.

STUDENT ACTIVITIES

All students are encouraged to engage in a worth-while activity.

STUDENT COUNCIL

This council is made up of representatives from the freshman and sophomore classes and faculty. The council plans the activities of the students and acts in an advisory capacity to the administration of the college.

ASSEMBLIES

Assemblies are held weekly. Student attendance is requested. The programs are planned by the student council and faculty. An attempt is made to offer a variety of programs of a cultural, enjoyable nature.

DRAMATICS

A dramatic club is formed each year which studies and produces plays.

PUBLICATIONS

A newspaper, "The Campus Criterion," is published weekly by the newspaper staff.
MUSIC
A college band was started in 1931. During the year 1931-32 it had twenty-eight members. During the year 1932-33 it had increased to become a very fine musical organization. A girls glee club has long been enjoyed by young women of the college. During 1932-33 a mixed chorus is to be developed.

ATHLETICS
The Junior College encourages all men students to engage in some form of athletics. Football, basketball, and baseball are enjoyed by many young men each year.

SOCIAL ACTIVITIES
There are several social affairs conducted by the student body during each quarter. Parties, dances, picnics, matinee dances, etc., are very popular. The "Soiree," a formal party, is given during the winter quarter.
Most of the parties and dances are "mixers" where all students have an excellent opportunity to meet a large number of students. Since the student body is small, it is possible for every one to form many pleasant associations and friendships.

INTERNATIONAL RELATIONS CLUB
Students who are interested in the problems facing nations will want to attend the monthly meetings of the club.

CONCLUDING STATEMENT
The Grand Junction Junior College offers to the high school graduate two years of rich college work. The student is offered not only standard college courses, but he has also opportunities to engage in valuable extra-curricular activities, as diversified in nature as those found in many larger colleges. All of these advantages are offered at a minimum of expense.
