Mesa State College does not discriminate on the basis of race, color, creed, national origin, sex, age, or handicap in admission or access to, or treatment or employment in, its educational programs or activities. Inquiries concerning Title VI, Title IX, and Section 504 may be referred to the Affirmative Action Office at Mesa State College, P. O. Box 2647, Grand Junction, CO.

Mesa State College is a Drug-Free Workplace. All employees and students of the College agree to abide by the requirements in the Federal Drug-Free Workplace Act and the policies stated in the brochure entitled "Drug-Free Schools, Campuses and Workplaces, State Colleges in Colorado, Drug Use and Alcohol Abuse Prevention Program." All employees and students are provided with copies.

As required by the Campus Security Act, Mesa State College publishes campus safety policies and statistics annually. Copies of the annual report are available upon request.

FOREWORD

MESA STATE COLLEGE is a comprehensive coeducational institution operated under the governance of the Trustees of the State Colleges in Colorado.

This catalog is intended for the guidance of students and faculty but does not constitute a guarantee that all courses listed will actually be offered during any particular academic year. Mesa State College reserves the right to withdraw or add courses prior to the beginning of any semester or summer term. In some programs certain courses may be offered on an alternate-year basis or as determined by apparent demand. All program offerings are contingent upon adequate appropriations by the Colorado General Assembly.
GENERAL INFORMATION

How to Use This Catalog:
The table of contents lists each section of the catalog and the information contained within each section. For information on a specific topic, refer to the table of contents or the subject index in the back of the catalog. For additional information, contact the College toll free in Colorado at 1-800-982-MESA (outside Colorado 970-248-1376).

This catalog is divided into several sections in the following order:

General Information about Mesa State College
Included is a brief list of degrees and programs offered, admission requirements, registration procedures, expenses, financial aid, student services, academic regulations, and honors, and graduation requirements.

Instructional Programs
Academic programs offered by the College are listed separately for each of the three schools, followed by (1) the baccalaureate degrees and (2) the associate degrees and certificates offered. Both sub-sections are in alphabetical order, with the general requirements for earning each degree or certificate included. The next sub-sections are (3) Teacher Licensure and (4) Electives and/or Minors. Vocational degrees and certificates offered at the Tilman M. Bishop Unified Technical Education Campus (UTEC) can be found in supplemental form as the last section of the catalog.

Course Descriptions
A brief description of each course at Mesa State College is listed alphabetically by prefix. (Courses at UTEC are a part of the UTEC supplement.)

Class schedules are published before each semester and are available from the Records Office. Not all classes described in this catalog are offered every semester or every year.

Campus Personnel
The governing board, administrative staff, and faculty are listed.

UTEC
Program and course information at the Tilman M. Bishop Unified Technical Education Campus is provided in a supplement form, along with a UTEC index.

Index
This is the catalog index.

Policy Statement:
The programs, policies, statements, and procedures contained in this catalog are subject to change by the College without prior notice. Mesa State College reserves the right to, at any time, withdraw courses or modify the rules, calendar, curriculum, graduation procedures, and any other requirements affecting students. While the information contained in this catalog is current and correct insofar as possible at the time of printing, students are advised to check with appropriate College officials and current program sheets for up-to-date information.

Mesa State College Role and Mission
The threefold mission of the College is in accord with the statement of the Colorado Legislature C.R.S. 23-53-101:
There is hereby established a College at Grand Junction, to be known as Mesa State College, which shall be a general baccalaureate and specialized graduate institution with moderately selective admissions. Mesa State College shall offer liberal arts and sciences programs and a limited number of professional, technical, and graduate programs. Mesa State College shall also maintain a community college role and mission, including vocational and technical programs. Mesa State College shall receive resident credit for two-year course offerings in its commission-approved service area.

The Mesa State College community aspires to provide an environment which promotes a wellness lifestyle free of addictive behaviors. It shall be a goal of Mesa State College to maintain a healthy campus atmosphere conducive to learning and personal safety.

**Background on Mesa State College**

Mesa State College was founded in 1925 as Grand Junction State Junior College and on July 1, 1974, was authorized to offer baccalaureate degree programs as an institution under the State Colleges in Colorado. Beginning July 1, 1996, Mesa State is authorized to offer graduate courses in business and may offer other graduate programs. Enrollment, now over 4,700, provides a favorable student-faculty ratio and a high-quality learning environment.

Mesa State College is a democratic center of learning dedicated to the improvement of human capability. The College extends its services to anyone regardless of age, race, color, national origin, sex, or handicap. Committed first to instruction, as well as service and research, the College seeks to improve the unique talents and sense of social responsibility of each student.

By promoting the acquisition of skills as well as the discovery and application of knowledge, the College develops the intellectual, ethical, and aesthetic sensibilities that enable a student to pursue a rewarding career and assume a responsible and productive role in society.

The College seeks to liberate persons from narrow interests and prejudices, to help them observe reality precisely, to judge opinions and events critically, to think logically, and to communicate effectively.

The College offers programs of value in areas of civic and cultural life, research, and recreation and desires to play a constructive role in improving the quality of human life and the environment.

In order to implement this philosophy, the College shall offer:

1. Programs leading to baccalaureate degrees and associate degrees in liberal arts, sciences, business, and professional areas;
2. Vocational technical programs leading to certificates and associate degrees;
3. Continuing education programs directed toward personal, civic, vocational, and professional self-improvement;
4. A sufficiently wide range of lower division courses to assure smooth, successful transfer by students to other institutions with programs not offered by Mesa State College;
5. Community services, including intellectual, civic, and cultural activities, advisory services, and research programs;
6. Sufficient courses in all undergraduate degree programs in general education areas to insure that students can be conversant in areas of general knowledge.

**Accreditation**

Mesa State College is accredited by the North Central Association of Colleges and Schools. Accreditation by this agency places credits earned at Mesa State College on a par with those earned at other similarly accredited institutions throughout the United
States. Various programs at Mesa are approved by appropriate state and national agencies, including the Colorado Board of Nursing, National League for Nursing, Colorado State Board of Accountancy, and the Committee on Allied Health Education of the American Medical Association (Radiologic Sciences).

Location
The Mesa State College campus is located within the city limits of Grand Junction, the largest city in western Colorado with an area population of approximately 100,000. The campus is bordered by an attractive and modern residential neighborhood. Stores and other conveniences are located within walking distance of the campus. Mall shopping and the Main Street shopping district are both nearby.

Grand Junction has been noted for having more opportunities for outdoor recreation within a 100 mile radius of its boundaries than any other city in the Western U.S. The climate is one of the mildest in Colorado, with fewer days below 32 degrees than cities in the front and central ranges of Colorado. Powderhorn ski resort (1,600 feet vertical, 220 inches annual snow fall) is located 35 miles from campus and offers season passes at a discount to students in addition to instructional ski courses offered in conjunction with the Human Performance and Wellness department.

Lincoln Park, across from the campus, features a nine-hole golf course, swimming pool, tennis courts, track, football and baseball stadiums, and tennis courts. All are available to students.

College Community Relations
Located in the center for business, government, and medicine in western Colorado, Mesa State students have access to an outstanding variety of hands-on learning experiences offered through many academic departments in cooperation with community businesses and public agencies. Faculty members are available for lectures and discussions of interest to the community, and student groups appear before both public and private audiences for information or entertainment programs. The artistic, cultural, and athletic programs conducted by Mesa State College together with those devoted to public affairs and international relations enjoy broad community interest and support. Special programs of community-wide interest are presented in College facilities from time to time by community groups.

Wayne N. Aspinall Foundation
In cooperation with the Wayne N. Aspinall Foundation, Inc., Mesa State College students have an opportunity to participate in several cooperative programs. These include a course and public lecture offered by a distinguished visiting lecturer honored as the occupant of the Wayne N. Aspinall Chair of History, Political Science and Public Affairs; and a number of scholarships are awarded to students whose courses of study are directed toward careers in public affairs. Details of these programs may be obtained from the Dean, School of Humanities and Social Sciences.

The State Colleges in Colorado
The institutions governed by the Trustees of the Office of State Colleges in Colorado (OSC), Adams State College, Mesa State College, Metropolitan State College of Denver, and Western State College, are joined to identify and facilitate cooperative efforts among the institutions.

Mesa State College is also authorized to enter into consortium agreements with other public institutions of higher education in the state to make additional programs and services available to students. For details about these programs, contact the Continuing Education office at Mesa State College.
Inter-Institutional Students

One purpose of the OSC is to establish procedures for facilitating superior programs through shared resources—physical, professional, organizational, and curricular.

A student in good standing at any of the four OSC schools will be accepted as a student at any of the other three colleges. The Registrar's office at each college can provide a form for the student to use for inter-institutional registration. Before a student registers at another school, agreements must be reached by the home and host schools concerning the exact application of earned credits toward degrees, majors, and electives. A student should contact the home institution registrar to obtain further information on arrangements.

The terms "home institution" and "host institution" are defined as follows:

1. Each student shall have a "home institution," which is defined as that institution at which the student has matriculated, has earned academic credit, and is classified as a student in good standing. The home institution shall maintain all educational records and administer all student services, including financial aid. The home institution shall have responsibility for academic advising.

2. A "host institution" is defined as any of the four institutions, other than the home institution, at which a student enrolls in courses.

Institutions of the OSC have agreed on the following:

1. Credit for inter-institutional courses as defined above shall be treated as resident course credit and not as transfer credit for purposes of fulfilling program requirements and for graduation.

2. Grades shall be awarded by host institution faculty in the normal manner. The host institution shall provide the grades of students to the home institution registrar for posting to students’ educational records.

National Student Exchange

Mesa State College is a member of the National Student Exchange Program. NSE is a consortium of over 125 colleges and universities in the United States and its territories. Mesa State students participate in this program at in-state tuition rates and receive full credit for coursework completed while on exchange. For further information, contact the Coordinator of Academic Advising/NSE Coordinator in the Student Life Center or telephone (970) 248-1177.

Continuing Education and Extended Studies

The Extended Studies program offered through the Mesa State College Continuing Education Center is part of a state-wide outreach education program sponsored by the Colorado Commission on Higher Education. The system, which consists of public colleges and universities, encourages development of instructional programs to meet the needs of Colorado citizens who cannot regularly enroll in classes on a college campus. Mesa State College's program currently offers both credit and non-credit classes and programs on campus and in several neighboring cities. The program is entirely self-funded by the fees charged for the classes.

Continuing Education is defined as "learning efforts undertaken by persons whose principal occupations are no longer as students, but who see learning as a means of developing their potential or resolving problems." The continuing education program addresses five areas of adult learning needs: (1) Basic and secondary educational skills required for high school equivalency for those lacking them, (2) Job-level entry and skill upgrading occupational and vocational courses for individuals seeking employment, upgrading their competencies, changing employment, or attempting to enter the work force for the first time, (3) Workshops, teleconferences, and seminars for professionals who need to upgrade their knowledge and skills to remain in good standing in
their professions. (4) Programs for adults seeking self-enrichment/liberal arts/leisure time skills and activities. (5) Credit classes for working persons who cannot take classes at regular daytime hours.

Most of the Continuing Education classes are scheduled in the evenings and non-credit offerings are usually less than a semester in length. Registration is conducted through the Office of Continuing Education Center, phone (970) 248-1476 or FAX (970) 248-1923. The Continuing Education Center is open Monday through Thursday from 8:00 a.m. until 7:30 p.m. On Friday the office is open from 8:00 a.m. until 5:00 p.m.

The Continuing Education Center provides several special offerings. Among these are a summer dance program, Elderhostel, teleconferences, classes for children, graduate programs, the hot line school, and agricultural programs through the Lathrop Center for Agriculture.

**Mesa State College Montrose Center**

Located at 2233 East Main in Montrose, the Center houses two classrooms, a microcomputer lab, a conference room, a reception area, and offices. The Center is open from 9:00 a.m. to 4:30 p.m. Monday through Thursday. The telephone number for the Center is (970) 249-7009. Due to the high demand for evening classes, some classes are held at Montrose High School and Centennial Junior High School. The Center offers credit and non-credit classes.

The focus of the Center is on general education requirements that can be transferred to the main campus or another institution as a beginning toward a degree. Students can also work toward an associate or baccalaureate degree by taking classes at the Montrose Center.

**Academic Services**

For information about Academic Services, see the Student Services section of this catalog.

**Educational Access Services**

Information regarding Mesa State College services for the physically or learning disabled student is found in the Student Services section of this catalog.

**Summer Session**

Mesa State College offers a summer program based upon needs and wishes expressed by students and residents of the community. Typical offerings in previous summers have included courses in biology, business, data processing, engineering, fine arts, humanities, mathematics, physical education, physical science, social science, and occupational education.

---

**FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT OF 1974**

Mesa State College's practice in regard to student record keeping is based on the provisions of the Educational Privacy Act of 1974 (the Buckley Amendment). Intended to be a safeguard against the unauthorized release of information, this act applies to all enrolled students, former students, and alumni. For details, see the Mesa State College Student Handbook.
DEGREES AND PROGRAMS

Mesa State College grants the Bachelor of Business Administration, Bachelor of Science in Nursing, Bachelor of Arts and Bachelor of Science degrees. The College awards Associate of Arts and Associate of Science degrees as well as Associate of Applied Science degrees and certificates of proficiency in occupational (vocational-technical) areas. General requirements for each degree and certificate program are listed in the Graduation Requirements section as well as in the text devoted to each degree. While these general requirements are as correct and current as possible at the time of publication, some changes may occur. Each degree or certificate seeking student must obtain a program sheet from the appropriate School detailing specific and current requirements for the degree or certificate sought and is responsible for meeting these requirements.

The three academic schools at Mesa State College and their respective subject matter areas are:

School of Humanities and Social Sciences—Administration of Justice; Anthropology; Counseling Psychology; Criminology; English; Fine and Performing Arts: Art, Music, Music Theatre, Theatre; Foreign Languages; General Social Science; Graphic Art; History; Human Services; Liberal Arts; Mass Communications; Philosophy; Political Science; Psychology; Sociology; Speech.

School of Natural Sciences and Mathematics—Biology; Chemistry; Computer Science; Environmental Restoration Engineering Technology; Environmental Restoration and Waste Management; Geology; Mathematics; Pre-Engineering; Pre-Forestry; Pre-Health Professions (Pre-Dentistry, Pre-Medicine, Pre-Medical Technology, Pre-Optometry, Pre-Pharmacy, Pre-Physical Therapy, Pre-Veterinary Medicine); Physics; Statistics.

School of Professional Studies—Accounting; Administrative Office Management; Business Administration; Business Computer Information Systems; Business Economics; Early Childhood Education; Economics; Finance; Human Performance and Wellness; Human Resources Management; Management; Marketing; Nursing; Office Administration; Office Supervision and Management; Accounting Technician, Administrative Secretary, Legal Secretary, Medical Secretary; Parks and Recreation Management, Radiologic Technology, Teacher Education and Licensure; Travel, Recreation, and Hospitality Management.

Other Mesa State College service areas include:

Tilman M. Bishop Unified Technical Education Center (UTEC)—Coordinates various secondary, post-secondary and occupational programs. See Unified Technical Education Center (UTEC) section in this catalog for further information.

Continuing Education—Coordinates credit and non-credit adult education classes, off-campus classes, and graduate courses/programs from other institutions which are delivered on the Mesa State College campus.

Degrees and Programs of Study

Studies undertaken by a student at Mesa State College depend upon career plans and educational objectives. The College offers baccalaureate degrees, associate degrees and certificates.

Baccalaureate degrees offered by Mesa State College are the listed B.A., B.B.A., B.S. and B.S.N. degrees below. Concentrations and options available within the baccalaureate degrees are indicated under the degrees.

Associate of Arts or Associate of Science (A.A., A.S.) degrees are available in a number of emphases at Mesa State College. Students enrolling in these degrees may
be preparing for immediate employment upon graduation or they may expect the two-year degree to be the first phase of their total educational goals. All A.A. and A.S. degrees include the state-wide common core of general education curriculum and, when completed successfully, will thus meet the lower-division general education requirements of most baccalaureate degree programs in Colorado.

Mesa State College also offers a variety of occupational education programs. These Associate of Applied Science (A.A.S.) degrees and certificates of occupational proficiency are of a terminal, technical, or semi-professional nature and are normally chosen by students whose immediate plans do not include completion of a baccalaureate degree. They are designed to help students develop the specific skills required for employment in various technical occupations. Also see the section on UTEC in this catalog.

Certificate of Completion
  Legal Assistant Program (offered through Continuing Education, requires a baccalaureate degree or three years related work experience).

Teacher Licensure in elementary, secondary and K-12 in certain academic disciplines.
ADMISSION INFORMATION

General Admission Procedures

How to Apply

To be considered for admission, applicants should submit the application attached at the back of this catalog along with a $30 non-refundable application fee. The application deadline is one month prior to the beginning of the fall semester and two weeks prior to the spring semester or summer term. Upon receipt, the application will be processed immediately, and the applicant will be notified of his or her admission status, once all credentials have been received. Applications may also be obtained from the Office of Admission at Mesa State College or from any Colorado high school counselor. To request an application from Mesa State, call toll free 1-800-982-MESA (in Colorado) or 970-248-1376 (outside Colorado).

High school students may apply as early as the completion of their junior year. In general, applicants applying for a baccalaureate program having earned a minimum grade point average of 2.60, a composite score of 21 on the ACT, or 940 combined on the SAT, may be admitted to Mesa State.

Admission does not assure acceptance of an individual student in a particular course or program. Admission to the College does not, therefore, imply entry into any program which has selective admission standards. Some students may be requested to enroll in special courses for correction of scholastic or other deficiencies. Minimum skill levels are required for admission to even basic courses.

Students not accepted into a baccalaureate program may be admitted into a Mesa State associate degree or certificate program for which they qualify. Students may reapply for admission into a baccalaureate degree program after completing 12 semester hours of college level course work with a cumulative grade point average of 2.00 or better or after earning an associate degree.

Students who are not accepted into a baccalaureate program may be conditionally accepted into MAAP (Mesa Academic Achievement Program). If selected for MAAP, students will be registered in specific courses designed to promote academic success. This program is not optional and students who elect not to enter MAAP will not be eligible to register/attend Mesa State College. Please contact the Office of Admission for further information.

Probationary Status

Any student admitted to Mesa State College on probationary status must earn a minimum 2.0 GPA his/her first semester or he/she will be placed on academic suspension and will not be eligible to return to Mesa State College as stated under the academic suspension guidelines.

Orientation and Registration for Classes

New students are required to meet with an adviser in the Academic Advising Center, who will register the new student for classes. This may be done with an individual appointment or at a scheduled orientation session. Information on both will be mailed to students when they are admitted to Mesa State College, along with step-by-step procedures. See section on Academic Advising.

New students are encouraged to attend the orientation program. The student-run orientation program is held prior to the beginning of both fall and spring semester.

A $75 non-refundable confirmation deposit must be received, by the published deadline, for the student’s schedule to be retained. (The deposit applies in full towards tuition costs.)
Degree-seeking students who have not completed the admission process will not be allowed to register for classes. (To be considered for admission students must, before the published deadline, complete an application for admission, submit the application fee, and have all credentials on file, including transcripts and test scores.) Non-degree status is not an option for degree seeking students. First-time freshman students and students transferring to Mesa State with fewer than 30 semester credit hours are required to have ACT or SAT scores and high school transcripts on file before their file is considered complete.

All new students will take the COMPASS placement examination before registering for classes. COMPASS is a self-paced, computerized placement examination designed to provide additional information about the students academic skill level. Results are used for placement only and do not affect admission decisions. Please contact the Academic Advising Center for information on COMPASS.

Admission Procedures by Student Classifications

Specific admission procedures for high school students, GED certificate students, transfer students, and other student classifications are as follows:

High school students
1. Obtain and complete an application for admission to Mesa State College.
2. Request that a high school counselor complete and sign the high school information section of the application.
3. Submit the completed application along with a non-refundable $30 application fee.
4. Request that the high school counselor forward official transcripts directly to the Mesa State College Office of Admission. Mesa State College requires a final high school transcript showing a graduation date.
5. Take either the American College Test (ACT) (preferred) or Scholastic Aptitude Test (SAT) and have the results sent directly to Mesa State College.

General Educational Development (GED) Certificate Students
1. Obtain and complete an application for admission to Mesa State College.
2. Submit the application along with a non-refundable $30 application fee.
3. Submit a copy of the GED test scores.
4. Take the American College Test (ACT) or Scholastic Aptitude Test (SAT) and have the results sent directly to Mesa State College.

Applicants who successfully complete the GED with a minimum score of 45 and appropriate ACT or SAT test scores may be admitted to Mesa State College. Admission to particular programs is contingent on meeting specific admission requirements for those programs.

Transfer Students
1. Obtain and complete an application for admission to Mesa State College.
2. Submit the application along with a non-refundable $30 application fee.
3. Request that each previously attended college or university send official transcripts to the Mesa State College Office of Admission. Mesa State College will not accept any transcripts from applicants under any circumstances. All transcripts must be sent from the issuing institution to Mesa State College.
4. If transferring fewer than 30 semester hours of college coursework,
   (a) request that the high school send official transcripts directly to the Mesa State College Office of Admission. (GED scores will be required if applicant did not graduate from high school.)
   (b) ACT or SAT test scores must be on file before the admission process is complete.

Transfer students may be admitted into most baccalaureate degree programs if they are in good standing at another regionally accredited college or university and have a
minimum cumulative grade point average of 2.00 for 12 or more semester credit hours
or an associate degree.

Transfer students who are on probation or suspension from another college or uni-
versity will not be admitted into a baccalaureate degree program. Transfer students
who are on probation or suspension from another college will automatically be
placed on probation at Mesa State College, if admitted.

Students may request an evaluation of transfer courses to determine applicability
toward their degree program. General education evaluations are completed in the
Records Office; specific degree requirements are determined by the faculty adviser.

It is Mesa State College's policy to accept academic credits from:
1. All public colleges and universities in the state of Colorado, provided they are
currently accredited. This applies regardless of the institution's accreditation
status at the time the credit was earned.
2. Private and out-of-state colleges and universities, provided the institution is
currently accredited and was accredited or was a candidate for accreditation at
the time the credit was earned.
3. Accredited two-year community or junior colleges.
4. Institutions that award "S" or "P" grades, if the granting institution states that
such grade is equal to a grade of "C" or better.

Only credits with a grade of "C" or better are eligible to be used toward a degree or
certificate.

Mesa State College reserves the right to evaluate, on a course-by-course basis, any
credits earned 15 years prior to enrollment. Initially only courses used to fulfill gen-
eral education requirements will be accepted in transfer. Other courses will be trans-
ferred upon acceptance by the adviser or dean.

Returning Students
A returning student (any student who has previously attended Mesa State College
and has been out for at least one semester, summer term excluded, is a returning stu-
dent) must complete a returning student application form along with a $30 application
fee. The form may be obtained at the Mesa State College Office of Admission. If the
student has attended another institution since last attending Mesa State College, official
transcripts of all work must be sent directly to Mesa State College from each
institution attended. See "Catalog Under Which A Student Graduates" section to deter-
mine the catalog to be followed for graduation.

Students wishing to return after being on suspension must file an appeal with the
Director of Admission at Mesa State College to be considered for re-admission.

Academic Renewal
A student who re-enrolls at Mesa State College following an absence of at leastive years may be eligible for "academic renewal." If "academic renewal" is approved, none
of the course credits and grades earned at Mesa State College prior to the five-
year minimum absence will be used for meeting graduation requirements or in deter-
mining the student's grade point average.

Among the requirements to be eligible to apply/petition for "academic renewal" is
that the student must have completed 24 academic course credits at Mesa State Col-
lege, excluding PE activity courses and remedial courses below the 100 level, with a
minimum grade point average of 3.0. The student must apply/petition no later than the
semester following the completion of these 24 credit hours. Matriculation and/or course
completion at other institutions during the five year period of absence has no bearing
on the application/petition.

Non-Degree Seeking Students
Students who do not wish to pursue a degree or certificate at Mesa State College
may register without being formally admitted to the College. Students wishing to enter
Mesa State College as non-degree seeking must be at least 20 years of age and cannot have been enrolled at Mesa State College previously as a degree seeking student. Non-degree seeking students must consistently earn a minimum semester grade point average of 2.00. Students who fail to achieve the minimum must apply for admission as a degree seeking student to continue taking classes. Non-degree seeking students working to become degree seeking or non-degree seeking students who earn thirty semester hours must apply for admission to Mesa State College. A non-degree seeking student must complete the Non-Degree Seeking Student application along with a $30 application fee.

Non-degree seeking students have not been admitted to Mesa State College and are not guaranteed admission should they later make formal application. Once non-degree seeking students apply for formal admission to Mesa State College, the admission policies in effect at the time of application will be used to determine admissibility into the college in general and/or specific academic programs. This includes satisfying all requirements for Admission Assessment tests such as the ACT or SAT or, for certificate students, the alternative assessment test. Non-degree seeking students are not eligible for financial aid and will not be assigned an advisor. Degree seeking students will have priority over non-degree seeking students regarding registration.

Concurrent Students
High school students in the eleventh or twelfth grades who attend a high school within commuting distance to Mesa State College may be eligible to take one or more classes at Mesa State College. High school students interested in enrolling for classes at Mesa State College must first contact their individual high school counselors. Concurrent students must submit the following before they will be allowed to register for classes:

1. A Concurrent enrollment form.
2. A $30 non-refundable application fee.
3. An official high school transcript. (ACT or SAT scores are preferred at this time, but not required), sent directly from the high school.

Concurrent students are not admitted to Mesa State College. When concurrent students wish to become degree seeking students at Mesa State College, they must complete the admission process and will be subject to the admission policies in effect at the time of application. Students seeking concurrent student status and seeking financial support from their school district must begin the procedure 60 days prior to the term in which they wish to enroll.

International Students
To be considered for admission, students who are not U.S. citizens must complete and submit the following to the Admission Office at Mesa State College prior to May 1 for fall semester and at least by September 1 prior to spring semester:

1. Application form with $30 non-refundable application fee.
2. Copy of their American College Test (ACT) scores or Scholastic Aptitude Test (SAT) scores and results from the Test of English as a Foreign Language (TOEFL).
3. High school transcript (must be translated into English).
4. Transcripts from all other colleges or universities attended (must be translated into English).
5. Affidavit of financial support.
6. Evidence of medical insurance. Students who do not have proof of medical insurance will be required to purchase Mesa State College student health and accident insurance.
7. For registration purposes, all international students are required to comply with the Colorado law on measles, mumps and rubella. A Mesa State College official form must be completed and returned to the Office of Admission.
Prospective international students whose primary language is not English, seeking regular admission to Mesa State College, must provide documented evidence of ability to read, write, speak, and understand the English language. This requirement may be fulfilled in one of the following ways:
1. Submission of scores of Test of English as a Foreign Language (TOEFL) with an average of 525 or higher.
2. Submission of results of Michigan Test of English Language with a minimum score of 80.
3. An international student who has been enrolled as a full-time student at another college or university in the United States may request consideration of fulfillment of this requirement on an individual basis.
4. Successful completion of an intensive English program (signature of director required).
5. Other evidence will be considered on an individual basis.

Before admission is granted, an international student must provide proof of financial ability to meet cost of tuition, fees, books, living accommodations, and incidental expenses for at least one full year. The total cost per student is approximately $13,000 per calendar year (12 months).

Additional information and forms may be obtained from the Admission Office.

Admission to Specific Programs

Certain baccalaureate, associate, and certificate programs may have specific entrance requirements in addition to general college admittance. Prospective students should check with the Dean of the School in which the desired program is offered for special requirements or call 1-800-982-MESA in Colorado or (970) 248-1376 outside Colorado. Two examples follow:

Nursing and Radiologic Science Programs

Students applying to the Nursing and Radiologic Sciences programs must submit additional material. ACT or SAT scores are required for all Nursing and Radiologic Sciences applicants. The only students for whom the ACT/SAT requirement is waived are those applying to the B.S.N. program who have earned 60 or more college level credit hours. Students applying for admission into the programs of Nursing and Radiologic Sciences must be admitted into the general College. Admission to Mesa State College does not guarantee admission into the Nursing or Radiologic Science program, which requires a separate application. Please contact Nursing and Radiologic Sciences for additional information by calling toll free 1-800-982-MESA in Colorado or 970-248-1398 outside Colorado.

Accounting Program

Entering freshmen are not eligible for admission to the Accounting Program but students wishing to major in accounting must be admitted into the general College. Admission to Mesa State College does not guarantee admission into the Accounting program.

Once a student has completed forty-five credit hours with a 2.75 GPA or higher and has met the other specific criteria for admittance, he or she may apply to the Accounting Program Admissions Committee. Specific admission information may be obtained from the Department of Accounting and Information Technology in the School of Professional Studies. More information is also available in this catalog under Accounting in the Baccalaureate Programs section.

Selective Service

Any male student born on or after January 1, 1960 wishing to attend classes at Mesa State College must attest to his registration or exemption from registration with the Selective Service. This attestation must be done prior to initial registration.
Immunization Policy for Measles, Mumps, and Rubella

Colorado State Immunization Law states that after July 1, 1995 all college students (now including those students over twenty) born since January 1, 1957 must have two (2) measles, two (2) mumps, and two (2) rubella doses. If the student received a second measles dose prior to July 1, 1992 the second mumps and rubella are not required.

Written evidence of titer showing immunity to measles, mumps, and rubella is acceptable. If the student completes an exemption form and an outbreak occurs, the student will be subject to exclusion from school.

Students must prove compliance within 60 days from the beginning of classes the first term they attend or they will not be allowed to register for the next term.

Veterans

Programs offered by Mesa State College, with certain exceptions, are approved by the Community College and Occupational Education System for the education and training of those veterans and dependents of veterans eligible under applicable public laws. A veteran or dependent planning a course of training in a special program not described in the College catalog or identified as approved for veterans' benefits should check with the veterans certification officer before enrolling in such a program, if benefit assistance is desired.

Veterans and dependents who plan to apply for VA benefits while attending Mesa State College should contact the Office of Veterans Affairs as soon as the decision to enroll is made. Application for benefit assistance must be made at least two months prior to initial registration if the advance benefit check is to be received on the first day of class. Without this advance application, the student must make other financial arrangements and be prepared to finance tuition and fees, books, supplies, and living expenses for at least two months. Six weeks is the normal processing time required for Veteran's Administration to establish an applicant's file. Further information may be obtained from the Office of Veterans Affairs in the Office of the Director of Academic Records.

Credit may be granted for experience and training gained during active duty in the armed forces. Students must submit appropriate discharge papers and certificates of completion to the Office of the Director of Academic Records. All credit granted will be lower division credit.

Admission Assessment and Counseling Tests

ACT or SAT

Scores from either the ACT (preferred) or the SAT are required of all degree-seeking students attending Mesa State College. Test scores must be on file in the Admission office before official acceptance is granted. Certificate seeking students are required to have ACT or SAT scores on file or to have taken the alternative assessment test (see "Alternative Admission Assessment Device" section). A student's attainment of a certain ACT composite score, or SAT combined score is one of several criteria considered for admission. Certain other programs, including programs offered in Nursing and Radiologic Sciences, have a minimum ACT or SAT score requirement. For specific requirements, inquire of the Dean of the appropriate school. ACT and SAT test results also are used by the student and advisor as the basis for planning a course of study and as an aid in academic placement. Supplemental academic assistance is provided on a limited basis for those whose test scores indicate weaknesses or deficiencies in certain areas such as English and mathematics. ACT and SAT scores also may be used for scholarship consideration and institutional research.

The only exemptions to this admission requirement are for:

1. Students enrolled only in non-credit classes offered through Continuing Education.

2. Transfer students to Mesa State College from other accredited colleges or universities with 30 or more semester hours of credit. This does not apply to
applicants to the Nursing and Radiologic Sciences programs and any other programs that may require a specified ACT or SAT score as an entrance requirement.

3. Students who have already earned an associate or baccalaureate degree at another accredited institution.

4. Non-degree seeking students.

Prospective students are encouraged to take the ACT or SAT during their high school senior year. Transfer students (unless exempt) are required to have their ACT or SAT scores on file in the Office of Admission prior to registration. ACT or SAT scores from a previous college or university are acceptable. **Students are required to retake the ACT/SAT test if their scores are three or more years old.**

A special residual ACT test is scheduled prior to registration each semester for applicants seeking admission to Mesa State College who did not take the ACT on one of the national test dates. A testing fee of approximately $40.00 will be collected from the student immediately prior to taking the test. Test results will be available to the student’s adviser during registration. Contact the Testing Office for further details (970) 248-1215.

**Alternative Admission Assessment Device**

Assessment tests are required of students before they may enroll: (1) in certificate programs of one year or less or (2) as non-degree seeking students. These students may choose:

1. The ACT or SAT.
2. An alternative assessment device. Certificate and non-degree seeking students who wish to use this alternative must contact UTEC for details and cost information.

Should a certificate-seeking student want to become a degree-seeking student, he or she must comply with all entrance requirements for the new program. This will include taking the ACT or SAT if the student has not done so.

**Assessment and Evaluation after Enrollment**

Students are required to participate in testing and other programs necessary for evaluation and assessment purposes. Please see the “Evaluation” section of “General Academic Requirements” in this catalog.

**Non-Traditional Credit**

Non-traditional credit can be earned from sources such as the following:

**Advanced Placement/Credit Program**

Students wishing academic credit or advanced placement for college level work done while in high school should take the appropriate College Board Advanced Placement examination. These examinations are administered several times each year at numerous locations throughout the United States. College Board Advanced Placement examination scores currently accepted at Mesa State are American history; art; history; art: studio; biology; chemistry; computer science; English language and composition; English literature and composition; European history; French language*; French literature; German language*; mathematics: calculus AB; mathematics: calculus BC; music listening and literature; music theory; physics B; physics C: mechanics; physics C: electricity and magnetism; Spanish language*; Spanish literature*. The Admission Office will supply information concerning the scores required for earning academic credit or advanced placement in the various subject areas.

College Board Advanced Placement credit will not be entered on a student’s transcript until the student has achieved 12 hours of credit at Mesa State College.

* Level 3
College Credit by Examination and Department Challenge Examinations

Students attending Mesa State College may earn college credit by examination in certain subject areas on the College Level Examination Program (CLEP). Credit may also be earned by subject matter tests offered through various departments at Mesa State College (Department Challenge examinations). Students must have completed 12 credit hours of course work at Mesa State College before challenge credits will be recorded on a transcript.

Registered Nurse (RN) students seeking credit for prior nursing learning experiences see the Bachelor of Science in Nursing in the "Programs of Study" section of this catalog.

For more information contact the appropriate Dean or the College Testing office at (970) 248-1215.

Limitation on Non-Traditional Credit

The faculty and dean of each school determine if and under what conditions non-traditional credit is allowed. If allowed, the following limits apply:

1. Military credits—maximum of 20 lower division credit hours.
2. CLEP and credit by examination/department challenge examinations—maximum of 20 credit hours for a baccalaureate degree or an Associate of Applied Science degree, a maximum of 12 credit hours for an Associate of Arts or an Associate of Science degree and a maximum of six credit hours for a certificate of occupational proficiency. Students may not earn CLEP credit in a class in which they have been previously enrolled including a class from which the student withdrew, so the transcript shows a- “W,” “WP,” or “WF.” Students must receive approval and follow the procedure to challenge a course, including enrolling in that course. See the Records Office for a copy of the procedure.
3. Advanced placement—maximum of 30 credit hours for a baccalaureate degree, 15 credit hours for an associate degree or a maximum of six credit hours for a certificate of occupational proficiency.
4. Competency credit—maximum of 30 credit hours towards a baccalaureate degree or 25 percent of the total credits required for the program towards an associate degree or a certificate of occupational proficiency at the prerogative of the Dean of the School. Further restrictions apply. See the Director of Academic Records for details and guidelines.
5. Cooperative Education, Internships, Practicums, etc.—non-classroom oriented courses such as cooperative education, internships, practicums and other courses determined to be of this type are subject to the following limits: a maximum of 12 semester hours of credit may be used to satisfy the required academic semester credits for a baccalaureate degree. A maximum of 6 semester hours may be used to satisfy the academic semester hours for an A.S. or A.A. degree. The maximum of 12 semester hours may apply toward the 40 upper division hour requirement. No restriction on the maximum number of credits above and beyond any degree requirement is intended. These restrictions do not apply to the A.A.S. degree or certificate programs.

The total combination of any non-traditional credit cannot exceed:

1. Baccalaureate—30 credits
2. Associate of Science or Associate of Arts—15 credits
3. Associate of Applied Science—20 credits
4. Certificate—twenty-five percent of the credits required in the program

Acceleration of College Study

It is possible for students to satisfy requirements for baccalaureate degrees in less than the traditional four years (eight regular academic year semesters). Ways of accomplishing this include: enrolling in college classes while a senior in high school; exceeding the normal course load at Mesa State College or elsewhere; challenging by examination courses in which competence has previously been attained; earning credit
by testing through the College Level Examination Program (CLEP), obtaining credit
for work experience (competency credit). Additional information may be obtained from
faculty advisers and the Testing office.

No-Credit-Desired/Audit Courses
A student who desires to attend certain classes regularly, but does not wish to re-
ceive grades or credit, should register for "no credit desired" in those classes.
Tuition charges for classes taken under the "no-credit desired" category are the
same as for classes taken for credit. Exceptions to this policy will be made for senior
citizens.
The deadline for a student to change from no-credit desired/audit, to credit is the
same as the deadline to add a class. The last day for a student to change from credit to
"no-credit desired/audit" is the same as the deadline to drop a class.

Senior Passport to Education Program
Mesa State College provides individualized support, including academic and sched-
uling decisions, for persons 60 years and older.

Classes for No Credit
Persons 60 years of age or older who do not wish to earn college credit may attend
resident instruction classes, on a space-available, instructor-approved basis, at Mesa
State College without paying tuition or fees. (This policy does not apply to laboratory,
Continuing Education and certain other courses for which special charges normally
are assessed.)
Interested persons should obtain a registration form from the Continuing Educa-
tion Center at 1170 Elm Avenue or telephone (970) 248-1476 or (970) 248-1847. The
registration form must be signed by the instructor granting approval and returned to
the Coordinator of Non-Traditional Adult Students. No Mesa State College records of
participation will be maintained.

Classes for Credit
Persons 60 years or older who wish to enroll for credit must submit required admi-
sion and registration materials to the Office of Admission. The same deadlines, costs,
etc., as for other students will apply.
EXPENSES AT MESA STATE COLLEGE

Mesa State College reserves the right to adjust any and all charges, including fees, tuition, and room and board, at any time deemed necessary by the Trustees.

Determination of Residence Status for Tuition Purposes

A person moving to Colorado must be domiciled in the state for 12 continuous months before being eligible to apply for in-state resident status. To qualify for in-state tuition, however, a person must do more than merely reside in Colorado for the preceding 12 months. "Residency" in this context means "legal domicile" which requires intent to remain in Colorado indefinitely, regardless of enrollment at Mesa State College. For a student under the age of 21, the residency classification is based on the parents' residency unless the student can prove emancipation. Students 21 years of age or under, if emancipated, must demonstrate that they themselves have met the residency requirements.

Examples of actions which can establish residency intent are: payment of Colorado state income tax, registration of a vehicle in Colorado, and possession of a Colorado driver's license. The final decision regarding tuition status rests with Mesa State College. Questions regarding residence (tuition) status should be referred only to the Director of Admission. Opinions of other persons are not official or binding upon the College.

Tuition and fees for the 1996-97 academic year had not been determined when this catalog was printed. The following estimated rates are presented for planning purposes only. Students are invited to write for the most current rates, available in July each year.

Part-Time Students, Regular Academic Year:

Colorado Residents (enrolled in 9 or fewer hours)

|                      | $74.00  |
|                      | 19.36   |
| Total                | $93.36  |

Non-Colorado Residents (enrolled in 9 or fewer hours)

|                      | $262.00 |
|                      | 19.36   |
| Total                | $281.36 |

* Student services fees are $18.86 per credit hour and include a 50 cent per semester per student charge.

A surcharge equal to the appropriate credit hour tuition rate will be assessed per semester for each credit hour over 21.
Non-Refundable Confirmation Deposit
A $75 confirmation deposit is required prior to the beginning of fall and spring semesters in order for the registered student's class schedule to be retained. The deposit applies, in full, to tuition and fees. It is not refundable.

Summer Session
Students confirm their class schedules upon registration. No confirmation fee is required for summer session and tuition and fees are due in full on the first day of class. Tuition charges equal those for the regular fall or spring semesters; however, student services fees are $12.47 per semester hour regardless of the number of hours taken. The computer lab fee is $1.30 per semester hour up to a maximum of $13.00. Please note that summer term follows a separate policy regarding refunds. Pre-registration is held at the same time as pre-registration for fall term.

Payment of Tuition and Fees
Students, by the act of registration and confirmation, automatically incur a financial obligation to the College. This means that students who register for one or more classes (unless they officially withdraw from the College within the time specified for a partial refund), are obligated to pay the full amount of their tuition and fees, whether or not they attend class. Tuition and fees are due in full on or before the 12th day of classes. A late fee of $50 will be assessed if this payment is not made. No student having unpaid financial obligations of any nature due Mesa State College will be allowed to register for classes, graduate, or receive a transcript of credits.

In addition, students are liable for reasonable collection costs, including attorney fees and other charges necessary for collections of any financial obligation not paid when due. Billing statements are processed the 15th of every month. An interest rate of 1% per month is charged on all unpaid balances.

Refunds of Tuition and Fees
Beginning with the first day of classes and continuing through the sixth day, if students officially withdraw, the College will retain 25% of their tuition and fees; if tuition and fees have been paid, the remainder will be refunded; if tuition and fees have not been paid, the student's record will be held for 25% of their incurred debts.

From the 7th through the 12th day of classes, students who choose to withdraw will forfeit 50% of tuition and fees.

From the 13th through the 20th day of classes, students who choose to withdraw will forfeit 75% of tuition and fees.

There are no refunds for withdrawals after the 20th day of classes.

There is a separate refund policy for students receiving Title IV funds (Financial Aid). Contact the Financial Aid office for more information.

Please note: Summer term refund policy for students who withdraw is as follows: 1st-3rd day of class student is responsible for 25% of tuition and fees; 4th-6th day is 50%, and the 7th-10th day student is responsible for 75% of tuition and fees. There are no refunds for withdrawals after the 10th day of classes.

The Continuing Education operates under a different refund policy. Please contact that office for specific information.

Housing and Meal Plans
Freshman and sophomore students who are under 21 years of age and not residing with their parents in Mesa County are required to live on campus. However, space is limited and priority is based on the date the complete housing application and deposit are received in the Housing Office. A student may qualify for exemption from the on-campus requirement for definite reasons expressed in writing and approved by the Director of Housing and Auxiliaries if he or she is:
1. Married; or
2. 21 years of age or older; or
3. A part-time student (enrolled for less than 12 hours per semester); or
4. Residing at the permanent address of his/her parents or step-parents; or
5. Of junior class standing at the beginning of the semester; or
6. Not of junior standing, but has resided in the Mesa State College residence halls for four semesters; or
7. Medically excused (with written documentation from a medical doctor); or
8. Placed on a waiting list due to limited space on campus.

On-campus living offers many advantages. Its location, just steps away from classrooms, student services, and the library, makes on-campus living very convenient for Mesa State students. In addition, living on campus relieves the students of many time-consuming chores such as preparing meals, washing dishes, and driving to and from the campus. With this extra time, students are able to devote more energy to their studies, to recreational activities, and to making new friends.

Upon acceptance to Mesa State College, a packet of information, which will include a Student Housing Contract and Application Card, will be mailed to all students who are under 21 as of November 1, 1996 and who live outside of Mesa County. Students who do not meet the above criteria must call or write the Housing and Residence Life Office to request that a packet be sent to them.

Each residence hall and apartment complex is staffed with a resident director, assistant director, and resident assistants who are trained to assist students. These staff members aid residents in adjusting to residence life, explaining policies, answering questions, solving problems and anything else associated with college life.

The Housing and Residence Life Center is available to help students make arrangements for residency and meal plans, answer questions, receive suggestions, and assist students with any housing-related concerns or interests.

The Facilities

There are two types of on-campus housing available: (1) residence halls which require a meal plan (most rooms are designed for double occupancy, although there are a limited number of single rooms); (2) apartments, available for sophomores, juniors, and seniors.

Student Housing Contract

Students who wish to apply for accommodations on campus are required to submit a $150 deposit with their signed contracts and completed application cards. On-campus housing is not guaranteed, as availability is limited to 743 students. The deposit includes a $25 non-refundable application fee. Rooms/apartments will be assigned in the summer and each student will be notified by late July as to assignment.

The Student Housing Contract is a legal agreement between the student and Mesa State College regarding residency and meal plans on campus. Both parties assume the rights and responsibilities outlined in the Student Housing Contract and all supporting documents upon acceptance of the contract by Mesa State College.

Questions concerning housing on campus should be directed to the Housing and Residence Life Office located in the Student Life Center at 1152 Elm, across from the W.W. Campbell College Center.

Off-Campus Housing

The College has no jurisdiction over off-campus housing but attempts to assist students in locating housing.

Food Service

Marriott Corporation offers food service to students at Mesa State College which includes a choice of two meal plans: Plan A, unlimited meals between 6:45 a.m. and 6:45 p.m., or Plan B, unlimited meals between 10:30 a.m. and 6:45 p.m. Multiple
entrees are served with unlimited seconds. Only two meals are served on Saturday and Sunday (brunch and dinner). Both meal plans have full access to brunch and dinner 11:00 a.m. to 1:00 p.m. and 5:00 p.m. to 6:45 p.m. Meals are planned with special needs in mind also, such as for the weight conscious or vegetarian.

Students living in the residence halls may select the meal plan of their choice but are required to choose one. Students not living in the residence halls may, if they wish, purchase meal plans and/or munch money (prepaid coupon books with savings on snacks and various meals on campus). Meals are served seven days a week during the academic year but are not served during Thanksgiving, Christmas and spring break when classes are not in session.

Call (970) 248-1742 for more information on dining services at Mesa State College.

**Payment of Housing and Meal Plans**

The Student Housing Contract is in effect for the entire year, however, these services are billed and payable by semester. The total charge for the academic year for the residence hall or apartment is divided into 60% for the fall semester, or the first term of attendance within an academic year, and 40% for the spring semester (if it is the second semester of attendance within an academic year). Housing and meal plan rates for the 1996-97 academic year had not been determined when this catalog was published. The following schedule reflects estimated rates for 1996-97.

*A $30 per semester/per person charge will be added for phone service for the residence halls; a $20 per semester/per person charge will be added for phone service for the apartments. A $15 charge per semester will be added to all residents' accounts for housing activity fee. The phone and activity fees are NON-REFUNDABLE.

**Room Refunds**

The schedule for room refunds is outlined in the Student Housing Contract.

**Meal Plan Refunds**

Students withdrawing from Mesa State College are charged thirty (30) percent of the cost of the total meal plan plus meals through the week in which formal check-out occurs. Students leaving the last four weeks of the semester are charged the full semester rate for meals.
Other Fees and Expenses

Books and Supplies
Required textbooks and supplies are sold at the College Bookstore, located in the W. W. Campbell Center. Other items sold at the bookstore include general books, art and engineering supplies, basic school supplies, calculators, imprinted and non-imprinted clothing, magazines, non-prescription medicine, and gift items.

The approximate cost of textbooks for a single semester is $280 but varies with the program of study. Supply costs vary depending upon student preference and course requirements.

Textbooks may be returned during the first four weeks of the fall semester and the first three weeks of spring semester, provided the cash register receipt is shown as proof of purchase and the books have not been defaced.

The bookstore sponsors a book buy-back program which is conducted during the final examination week of fall and spring semesters only. Used books may be available for some classes.

The College bookstore hours are:
- Monday, Tuesday and Thursday ..................... 7:45 a.m. to 4:30 p.m.
- Wednesday ........................................... 7:45 a.m. to 6:30 p.m.
- Friday .............................................. 7:45 a.m. to 4:00 p.m.
- Saturday and Sunday ................................ Closed

Personal Computer Recommendation
Mesa State College recognizes the importance of computers as educational tools to be used in the pursuit of higher education. Students are strongly encouraged, to the extent possible, to have a personal computer for their use while attending Mesa State College.

Students who will be purchasing a personal computer should consider the following specifications. By doing so, students will be able to complete most coursework in the privacy of their own room/home.

Suggested specifications: (These specifications and costs could be different for 1997 and beyond. Please direct questions regarding the computer specifications to the Management Information Service Office prior to purchasing a computer).

- 486 dx2 40MH; 8Mb RAM; 420 Mb hard drive; 5 1/4" and 3 1/2" floppy drives; 0.28 pitch SVGA 14" color monitor; 1 Mb Bus video card; VL Bus HD controller; 101 keyboard; 2 serial, 1 parallel and 1 joystick ports; DOS (latest version); modem; Windows (latest version); two year warranty; laser jet or good letter quality printer.
- Approximate cost for system: $1000-$1400.

Software: students may be required to purchase specific software for specific courses.
In some cases, students will purchase software along with the textbook used for the class at a nominal cost. Students should not purchase software until advised by individual faculty.

Private and Special Instructional Fees
When certain private and special instructional services are required, additional charges will be incurred by the student. Fees vary with the nature of the instruction. Private instruction in applied music is available from instructors approved by the College. Cost of this instruction is $140 per semester for one thirty minute lesson each week and is offered through Continuing Education. Other special instructional services available to students for extra fees may include lab and transportation fees, human performance and wellness classes with locker and towel facilities and classes such as bowling, skiing and golf.
Application and Evaluation Fees
  Application and Evaluation Fee (non-refundable) $ 30.00
  Valid only for the semester for which the student makes application.

Add/Drop Fees $ 5.00 per add or drop
  Students processing schedule changes after classes begin will be charged a $5 add/drop fee for each add or drop transaction processed.

Miscellaneous Fees
  Graduation (diploma, application processing) $ 20.00
  Non-refundable housing application fee $ 25.00
  Room reservation deposit $125.00
  Parking permit, non-reserved (per year) $ 25.00
  Student health insurance per semester (subject to change) $235.00
  I.D. card (Gold card) fee $ 15.00

Student Health Insurance
  Student health insurance (major medical) is available each semester. Students must complete an enrollment form and submit it with payment to the Accounting Office by the established deadline each semester. Additional coverage is available for spouse and children.
FINANCIAL AID

Financial aid at Mesa State College consists of a balanced program of scholarships and grants-in-aid awarded for outstanding academic achievement or outstanding performance in special skill areas including vocational skills, athletics, drama, music, etc. Mesa State College also participates in federal and state programs of grants, loans, and student employment, the awarding of which is based primarily on need as determined by a needs analysis system approved by the federal government. The application used to determine need is the Free Application for Federal Student Aid.

Financial aid awards that are based on the needs analysis system consider family resources as the primary source of funding for education, with federal and state sources considered secondary and supplemental. Because prospective students always apply for more financial aid than there is money available, the following priority order is used:

1. As stated in federal law, a parent is primarily responsible for payment of educational expenses of a child. Thus, parents of students attending college are expected to make every effort to assist the student financially.
2. The student, as the benefactor of the educational experience, is the next most responsible person for payment of educational expenses.
3. The third level of responsibility is from outside sources such as communities, clubs, corporations, etc.
4. The last resort is federal and state financial aid programs. There has never been enough funding to assist all needy students. Therefore, students should make every effort to obtain assistance at one of the three levels listed above.

Accurate and timely information from the student and parents to the Financial Aid office is the responsibility of the student. Failure on the part of the student to supply all required information on the application may result in reduction or total loss of aid.

Colorado Student-Aid Programs

(Available to full-time, half-time and part-time students. Part-time students will be considered for assistance if funds are available and only for the amount of tuition and fees.)
1. Colorado Grants—Grants, usually amounting to $1,000, are awarded to Colorado resident students on the basis of documented financial need. Financial aid packages which include Colorado Grants may not exceed the documented financial need of the student.
2. Colorado Work-Study—The Work-Study program is designed to provide employment on campus, for students with documented need and who meet the residency requirement for tuition purposes.
3. Colorado Student Incentive Grant (CSIG)—This is a program wherein half of the grant to a student is provided by the state of Colorado and the other half by the federal government. Awards are made only to Colorado resident students with extreme need, and the average CSIG awarded is $1000.
4. Diversity Grant—Mesa State College will consider a student for this grant if the student meets at least one of the following five criteria: first generation student, handicapped student, ethnic minority student, dependent student from low income family, or single parent. The recipients must be Colorado residents, accepted for enrollment under a degree-seeking program, and be enrolled full-time. A cumulative GPA of 2.00 or better is required. Financial need is also used as a consideration and the average Diversity Grant awarded is $1000.

Mesa State College Foundation Programs

The Mesa State College Foundation is a non-profit organization comprised of prominent citizens of the area who wish to aid deserving students at Mesa State College.
This group, which functions independently of the College, conducts an annual drive to raise funds for scholarships and student loans. The organization also serves as a receiving and clearing agency for many established scholarships and for those received from clubs and organizations. All scholarships are designed to apply toward tuition and fees.

1. **Community Clubs and Organizations Scholarships**—In addition to the institutional scholarships described above, many scholarships and awards have been established for students of the College by individuals and organizations in the Grand Junction area. The amounts of these awards vary but all are designed to be applied toward tuition and fees.

2. **Student Loans**—Mesa State College provides emergency short-term loan funds from which students may borrow to help meet obligations if an unforeseen situation may arise. By definition, short-term loans are repayable within 90 days or by the end of the semester, whichever comes first. Inquire at the Financial Aid Office for applications and additional information.

3. **Deferred Payment Plan**—Mesa State College will provide an alternative means of payment of tuition and fees for students. The payments can be made over four months and the balance of the account must be paid in full before the next term begins. Please contact the Financial Aid office for more details.

**Scholarships**

Scholarships represent an effort by the state of Colorado and Mesa State College to recognize resident and non-resident students for outstanding achievement in academic and talent areas. The awards will vary. Need is not a factor in determining recipients. However, students who receive scholarships are also encouraged to submit a financial aid application.

**Non-Resident Scholarship**

In an effort to encourage outstanding students from states other than Colorado to attend Mesa State College, a non-resident scholarship equal to one-half the non-resident tuition may be available to students who have achieved a cumulative minimum grade point average of at least 3.00 and an additional $250 per semester if the minimum grade point average is 3.20 or higher. Students will be required to live in Mesa State College housing in order to qualify for one of these grants unless permission is granted to live off campus by the Housing and Auxiliaries Director.

The grade point average achieved while in high school will be used to determine eligibility if the applicant is a first time college student. If the applicant is a transfer student, the cumulative grade point average of all college hours completed will be used to determine eligibility. After the first semester, eligibility is determined by MSC cumulative grade point average.

**Federal Student-Aid Programs**

1. **Federal Pell Grant Program**—This is a grant program available to needy students enrolling in an eligible institution of post-secondary education. Application forms are available from high schools or the financial aid office at any eligible post-secondary institution. The student applies by completing a Free Application for Federal Student Aid (FAFSA) and submitting it to an approved analysis agency. The information is either electronically provided to the college or the student may submit a valid Student Aid Report (S.A.R.) to the college for grant determination. The Pell Grant Program is the base program for financial aid at Mesa State College.

2. **College Based Programs**—Mesa State College participates in many other federal student aid programs. These include the: (1) Federal Perkins Loan Program, (2) Federal Supplemental Educational Opportunity Grant Program, (3) Federal College Work Study Program, (4) Federal Family Educational Loan Program (formerly the Guaranteed Student Loan Program) consisting of the Federal
Stafford Student Loan Program, the Unsubsidized Federal Stafford Student Loan Program, and the Federal Parent Loan for Undergraduate Students (PLUS). Details concerning these programs may be obtained from the Financial Aid office.

**General Guidelines**

Financial need for educational expenses is an essential requirement to qualify for assistance from most programs. Students who must have financial aid in order to secure a college education are encouraged to contact the Financial Aid Office of the College for necessary information and application forms. Both full-time and less than full-time students will receive consideration.

Since financial need is the primary requirement for determining eligibility for assistance under any of the federal student aid programs, Mesa State College requires that the student applicant submit the proper application to the federal processor as soon as possible after January 1. This form should be available at either the high school principal's or counselor's office, or may be obtained by writing the Office of Financial Aid at Mesa State College.

Stafford Student Loans are obtained in the same manner as other campus based aid and require a separate application which is available from participating banks, savings and loan associations, credit unions, and the Office of Financial Aid.
STUDENT SERVICES

Mesa State College has an environment that encourages and allows students to develop socially as well as educationally. Learning is not confined to the classroom and the library. Student Services provides quality opportunities for students to increase skills and competencies in academic and vocational areas as well as areas related to developing and improving self-understanding, interpersonal relations, realistic decision-making, value clarification abilities, and the establishment of life goals.

Orientation

New students to Mesa State may participate in one of the college orientation programs offered at the beginning of fall and spring semester. The program is organized by upperclass Mesa State students who will introduce new students to the campus, fellow classmates, and the College's programs and facilities. Students attending an orientation program are permitted to register for classes during their orientation. Parents of graduating high school students are encouraged to attend the orientation program. Upon acceptance to Mesa State College, students will receive further details of the orientation being held for them. For more information contact the Office of Admission.

Academic Advising

The Academic Advising Center is staffed primarily with student advisers. The Center's purpose is to assist new freshmen, returning and transfer students plan their class schedules and register for classes.

The Academic Advising Center is located in the Student Life Center and is open Monday through Friday from 8:00 am - 4:00 pm and by appointment. Phone (970) 248-1177 or (970) 248-1926 for an appointment.

Faculty advisers are assigned to students on the basis of their program interest. Students who know what major they wish to pursue are assigned a faculty adviser in the spring of their freshman year. All freshman who have not yet decided on a major are advised by the Academic Advising Center. Once students choose a major, they are assigned a faculty adviser. Faculty advisers provide each student with a program sheet which details requirements of the degree or certificate program the student is working towards. The student should work closely with the faculty adviser throughout enrollment at Mesa State, keeping the program sheet up to date as the student progresses toward graduation.

Adult Re-entry Program

This program, coordinated by the Continuing Education Center, provides adults a one-stop center for coordinating all the necessary steps to enroll at Mesa State College including academic advising, financial aid, and course registration. For more information, contact the Continuing Education Center at (970) 248-1847.

John U. Tomlinson Library

The John U. Tomlinson Library supports the educational mission of the College by providing a diverse collection of materials for use by the students and faculty.

The library collection contains over 200,000 volumes which includes books, periodicals, nonprint materials, maps, newspapers, audio and video cassettes, slides, records, CD ROM discs, films, software and other items. The library is a selected depository for federal government documents and also contains special collections which include the College archives, manuscripts and papers, and book collections in the areas of western Colorado history and other subjects.
Services provided by the library include reference and information desk assistance, quiet group study rooms, photocopy and microform machines, and library instruction to classes. The Media Center provides a TV studio, instruction materials consultation, equipment distribution, and media production services to students and faculty.

Access to the collection is through the MARMOT on-line catalog which is composed of the holdings of the Tomllinson Library, and includes holdings in other libraries throughout Colorado and the United States. Should materials not be available locally, the Interlibrary Loan Department obtains needed materials for students and faculty from other libraries.

Academic Services
The Academic Services Department (ASD) houses a variety of programs that are designed to assist students in their academic endeavors. The Peer Tutoring program provides peer tutoring in open study session format for students who need extra help in a course that is difficult for them. Qualified tutors, recommended by faculty, are trained to work with groups of students in a particular course or general subject area. Tutors operate open study sessions (such as a Math Lab) where students can attend as often as they wish. The sessions are available at varying times and locations.

College Success Strategies (DEVL 090) is a preparatory course offered by ASD, for three credit hours, that teaches academic skills needed by college students. Learning successful techniques such as note taking, time management, and mnemonics help the student in the achievement of his/her immediate academic goals, as well as emphasizing skills necessary for lifelong learning. This course consists of three classes per week, and the hours and grades are factored into overall GPA; these hours, however, do not count toward degree or graduation requirements.

Testing and Assessment services include examinations required for admission to graduate and professional schools, examinations for proficiency and certification in nursing and teaching, and the credit by examination program. Assessment of academic skills in college level English, mathematics, and writing are provided through the Testing Center for potential students, as well as those who have already been admitted.

The Academic Improvement Series (AIMS) is offered at the start of each semester. These free, one hour study skills workshops and seminars help students with goal setting, time management, note taking, and other skills necessary for academic success.

Educational Access Services
Support services for students with documented physical or learning disabilities are available through Educational Access Services, an Academic Services Program. Several services are available, depending upon the documented disability. Services can include volunteer note takers, monitored testing, and taped textbooks (eight weeks notice required). Prospective students are encouraged to contact the office of the Coordinator of Educational Access Services to discuss special needs.

Writing Center
Students can improve their writing skills through one-on-one assistance from the staff of the Writing Center.

Career Counseling Services
Staff is available to provide counseling and referral services to students seeking personal, career or substance abuse counseling and resources (248-1366), and is located in the Campbell College Center.

1. Counseling. Psychological counseling services and academic supportive counseling is available to all students. Assessment and referral to the PsychHealth Center is provided for those students requiring more extensive counseling.
2. Career/Placement. Career development services are provided for those students needing assistance in choosing a career. Various career inventories are used to help the student assess his/her job-related strengths. Skill development workshops are available to help students wanting assistance with resume writing, interviewing and job application procedures. A job placement file service is available for graduates. Listings for part-time job employment, summer employment and full-time employment are available for all enrolled students seeking employment.

3. Alcohol/Drug Education (AWARE Program). Counseling services, in partnership with PsychHealth Center, provides alcohol and drug education presentations for staff, faculty and students. The AWARE program staff is available to make presentations to student groups, classes, and faculty or departments, on topics related to substance abuse.

Little Mavericks Learning Center

Day care is available for children of Mesa State College students on a limited basis. A minimum fee is charged by the hour or by the day for children two and a half to five years of age. For further information, contact the Center Director at (970) 248-1318.

Student Activities

To broaden students' educational experience and to enrich the campus environment, the college offers a wide variety of student activities available for student involvement.

Over fifty student organizations exist at Mesa State College. The student activities brochure, available at the College Center Information Desk, contains a detailed listing of student organizations at Mesa State.

Student organizations include professional and academic clubs (e.g., accounting club, math club, geology club, Phi Beta Lambda) which allow students to explore their interests beyond the classroom as well as to interact with their professors and other professionals in their fields of interest.

There are over twenty special interest student organizations at Mesa State, including sports clubs (such as soccer, rugby, and rodeo), support groups, and religious organizations which allow students to meet other students who share similar interests.

A number of funded campus organizations are administered by Mesa State students including the following:

Student Body Association (SBA)—SBA is the representative body and official voice of the students. The SBA operates through the General Assembly, a legislative body composed of students elected by the student body. Students involved in SBA have an opportunity to gain leadership skills by representing student opinion and organizing student services such as reviewing student fee requests, printing the student handbook, and assisting in student orientation programs.

Mesa State Activities Council (MSAC)—MSAC is responsible for organizing entertainment activities including concerts, films, speakers and dances. Events have included musicians, comedians, jazz artists, and speakers.

Fine Arts Organizations—All Mesa State College students are encouraged to audition to join a musical group, participate in theatre or be a part of a dance performance. Performances in the arts are highly regarded at Mesa State and are well-attended by students and the community.

Media Organizations—These organizations include the student newspaper, The Criterion, the student radio station, KMSA 91.3 FM, and the literary and art publication, Literary Review and The Journal of the Western Slope. Each of these groups is professionally advised by campus faculty members and utilizes the latest equipment employed in their fields.
Outdoor Program—This student group organizes trips and classes including whitewater rafting, rock climbing, and skiing. The rental center, located in the College Center, rents mountain bikes, canoes, kayaks, cross-country skis, backpacks and other gear.

Cultural Diversity Board—This student organization offers leadership experiences for students and organizes programs to educate students regarding multi-cultural concerns and issues. Member groups include the African American Collegiate Alliance, La Raza Cosmica and the Native American Council.

Intramural-Recreation Services

The Intramural-Recreational Sports program at Mesa State College offers the student a variety of organized activities ranging from competitive and non-competitive team and individual sports (including soccer, flag football, tennis, basketball, softball, racquetball, ultimate frisbee, inner tube water polo, and volleyball) to group and individual fitness activities (including aerobics and fitness program design). In addition, non-organized recreational activities, such as swimming and weight lifting are provided. Many other activities are offered and students are encouraged to suggest new activities.

Participation in the program is a key to positive growth experiences at Mesa State College and to acquiring skills and knowledge that will be of value throughout life. In addition to opportunities for physical activity and fitness, other benefits include social interaction with friends and fellow students of both sexes as well as work-study job opportunities for those with experience in recreation. All students who are currently enrolled in credit courses at Mesa State College are eligible for all activities within the Intramural-Recreational Sports program.

A yearly calendar of intramural and recreational sports activities is available at the Intramural Office located in the Student Recreation Center (248-1592).

Student Health Center

Good health, both physical and emotional, is an important factor in successful college work. It is the goal of the Mesa State College Student Health Center to provide competent, accessible medical care. Similar to the family physician, the Student Health Center provides a source of basic medical assistance for the student who is away from home.

Out-patient health services are provided for registered fee-paying students who have a valid student I.D. card regardless of the number of credit hours carried or insurance status. Students are required to pay a $5.00 co-pay for all services received at the Student Health Center. The primary services provided are: first aid, dispensing of simple medications, assessment and referral to specialty physicians and dentists, providing counsel for personal health problems, simple physicals, and limited lab tests for a nominal fee.

Services include a full-time registered nurse, with a part-time physician and practitioner providing a complement of health care, Monday-Friday. The physician/practitioner provides students with an initial health assessment and evaluation, treats minor illnesses, and refers students for hospitalization or specialized treatment as needed. A registered nurse is available to answer questions and provide medical information. The Student Health Center is a contracted service with an off-campus provider. The Center is located within easy walking distance, across Orchard Avenue, from Mesa State College.

For emergency illnesses or accidents which occur after the Centers hours, or on weekends, students should report to the Emergency Care Center at Community Hospital. For immediate emergency, help should be obtained by dialing 911.
The College Center

Located in the main artery of the campus, and recently remodeled, the W. W. Campbell College Center serves as a meeting place for students, faculty, and staff members.

The College Center houses the bookstore, art gallery, outdoor program, student government offices, radio station, school paper, gameroom, snack bar, information desk, dining hall, student lounges, and meeting rooms. The gameroom includes pool tables and video games. Luff Auditorium is the center of many of the entertainment programs organized by the student-run Activities Council.

Student organizations may arrange for the use of the College Center meeting room facilities through the College Center Scheduling Office.

Campus Parking

Students and College staff members who wish to park on campus may purchase parking permits for designated areas. A parking sticker does not guarantee a parking space, but permits on-campus parking when such space is available.
GENERAL ACADEMIC REGULATIONS

System of Grades
Grades at Mesa State College are as follows: A, excellent to superior; B, good to excellent; C, satisfactory; D, passing but not satisfactory; F, failed; I, incomplete; IP in progress; W, withdrawn; NC, no credit.

Academic Standards
The scholastic standing of a student at Mesa State College is computed on the basis of all courses attempted (unless Academic Renewal has been approved—see “Admission Information”). This includes only those grades earned at Mesa State College. Grades awarded from any other institution will not be utilized in the grade point average calculation. A student must achieve a cumulative grade-point average of 2.00 (C) or higher, to graduate at the certificate, associate or baccalaureate level.

Mesa State College uses the four point system in computing the grade-point average (GPA) of its students. Under this system, a student receives four quality points for each semester hour of A; three points for each semester hour of B; two points for each semester hour of C; one point for each semester hour of D; and no quality points for an F. An example follows:

<table>
<thead>
<tr>
<th>3 Semester Hours of</th>
<th>A = 12 points</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 Semester Hours of</td>
<td>B = 9 points</td>
</tr>
<tr>
<td>3 Semester Hours of</td>
<td>C = 6 points</td>
</tr>
<tr>
<td>3 Semester Hours of</td>
<td>D = 3 points</td>
</tr>
<tr>
<td>3 Semester Hours of</td>
<td>F = 0 points</td>
</tr>
<tr>
<td>15 Semester Hours</td>
<td>30 points</td>
</tr>
</tbody>
</table>

30 points divided by 15 semester hours = 2.00 GPA

Minimum GPA
Students are considered to be making “satisfactory progress” toward a degree if they attain a cumulative GPA consistent with the table listed below. Incomplete (“I”) and In Progress (“IP”) grades are tentative grades and until changed are not considered in computing either the cumulative grade-point average or the grade-point average for the particular semester concerned. “W” hours do not count as hours attempted or in the GPA.

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 - 15</td>
<td>1.70</td>
</tr>
<tr>
<td>16 - 30</td>
<td>1.80</td>
</tr>
<tr>
<td>31 - 45</td>
<td>1.90</td>
</tr>
<tr>
<td>46 and above</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Students failing to achieve the minimum GPAs listed above will be placed on academic probation. The student will remain on probation until the minimum GPA is achieved, providing the student earns a minimum semester GPA of 2.00. If a student already on academic probation fails to earn a semester GPA of 2.00, the student will be placed on academic suspension. The student will be prohibited from further attendance at Mesa State College for a minimum of one semester; i.e., those suspended following fall semester may not attend Mesa State College until the subsequent fall; those suspended following spring semester will not be allowed to attend Mesa State College until the subsequent spring. (See “Academic Probation and Suspension”)

A student must achieve a cumulative grade point average of 2.00 (C) or higher to graduate at the certificate, associate, or baccalaureate level. Some programs have
additional GPA requirements to remain in and graduate from that program. See “Programs of Study” section and Program sheet for specifics.

Grade Improvement

Any course which is taken more than once for academic credit at Mesa State College is done so only for “grade improvement” (i.e., academic credit is awarded only once and the last grade received is that used to compute the student’s cumulative grade point average and to fulfill requirements for the degree). The only exceptions to this policy are MUSL (music lessons) and MUSP (performing music) classes, each of which may be taken twice for academic credit; Independent Studies (a maximum of six credit hours may be taken for credit—see “Independent Study” in the “Program” section of this catalog); and in some cases Topics, Practicums, Seminars, Internships, and Cooperative Education (see program sheets and the appropriate dean for these exceptions).

The option of repeating a course for grade improvement is available to a student only if the course he or she wishes to repeat is still offered at Mesa State and is scheduled to be offered in the semester in which the student wishes to take it. If a student wishes to repeat a course for grade improvement, a “Grade Improvement” form must be filed with the Director of Academic Records after repeating the class. The last grade earned will be the grade used [whether better or worse than the earlier grade(s)].

Courses taken at Mesa State College may not be repeated at another college for improvement of the original grade and courses taken at another college may not be repeated at Mesa State College for improvement of the original grade.

Incomplete and In-Progress Grades

Incomplete (“I”) grades are temporary grades given to a student only in an emergency case and at the discretion of the instructor. In Progress (“IP”) grades are temporary grades given to a student in the case of a course which, because of its nature, cannot be completed by the end of the semester of enrollment (some internships and cooperative education classes are examples).

At the end of the semester following the one in which an “I” is given, the “I” becomes the grade that is submitted by the instructor to the Records Office. If the instructor does not submit a grade by the deadline for that semester, the grade becomes an “F.” An “I” grade given spring semester becomes a permanent grade at the end of the following fall term.

At the end of two semesters following the one in which the “IP” grade is given, the grade that is submitted by the instructor to the Records office replaces the “IP.” If the instructor does not submit a grade by the deadline for that semester, the grade becomes an “F.” An “IP” grade given spring semester becomes a permanent grade at the end of the following spring semester.

Extension of the time to complete work may be made in exceptional circumstances at the discretion of the instructor. A student with an “I” or “IP” grade, however, may not change the “I” or “IP” by enrolling in the same course another semester.

Honor Lists

The President’s List is made up of those students who earn a GPA of 4.00 while enrolled in a minimum of 12 semester hours for a particular fall or spring semester.

The Dean’s List includes students who achieve a grade point average of between 3.50 and 3.99 while enrolled in a minimum of 12 semester hours for a particular fall or spring semester.

The lists are based on semester grades, not cumulative grade point averages. Regardless of grade point average, a student who receives a failing grade (F) in any course is not eligible for the Dean’s List.
Honor Societies

Membership in Alpha Chi is the highest academic honor which Mesa State College can bestow upon its scholars. To be eligible for election, students must have completed at least 75 semester hours toward the baccalaureate degree with a GPA of 3.75 or better and be fully recognized by their faculty and deans as having the qualities of character pertaining to the true scholar. Alpha Chi is the second oldest and second largest of those national scholastic honoraries which elect from all fields.

The National Honor Society in Biology at Mesa State College is Beta Beta Beta. For full membership in Beta Beta Beta, a biology major must have completed at least three classes in biology and have a minimum GPA of 3.00. With these qualifications, a student may be nominated to membership.

Kappa Mu Epsilon is an honor society for students of mathematics. Its chapters are located in colleges and universities of recognized standing which offer a strong mathematics major. The nominated and inducted members are selected from students of mathematics and other closely related fields who have maintained high standards of scholarship, have professional merit, and have attained academic distinction. The local chapter, Colorado Delta, is a working organization throughout the academic year. It functions as an integral part of the Computer Science, Mathematics, and Statistics Department of Mesa State College.

Nu Kappa Chapter, Sigma Theta Tau International, recognizes achievement in nursing. The purposes of the society are to recognize superior achievement and leadership qualities, foster high professional standards, encourage creative work and strengthen commitment to the ideals and purposes of the profession. Students must have a minimum GPA of 3.00 and rank in the upper 35 percent of their class to be eligible for membership. Nurses from the community may also be nominated for membership if they have demonstrated marked achievement in nursing education, practice, research or publication.

Phi Alpha Theta is the International Honor Society in History. The objective of this professional honor society is the promotion of the study of history through the encouragement of research, good teaching, publication, and the exchange of learning and thought among historians. To be eligible for membership, a student must have completed twelve or more hours of history with a minimum GPA in history of 3.10 and a minimum overall GPA of 3.00. The Mesa State Phi Alpha Theta Chapter is a co-sponsor of the Journal of the Western Slope.

Psi Chi, the National Honor Society in Psychology, is open for membership to the undergraduate student who meets certain minimum qualifications and for whom the study of psychology is a major interest. The purpose of Psi Chi is to promote and maintain excellence in scholarship in the field of psychology and to advance the science of psychology.

Sigma Gamma Epsilon, a National Honor Society for the Earth Sciences, has for its objectives the scholastic and scientific advancement of its members and the extension of friendship and assistance among colleges, universities, and scientific schools for the advancement of the Earth Sciences. Membership in Zeta Nu Chapter of Sigma Gamma Epsilon is open to continuing Earth Science majors with at least twelve credit hours of Earth Science coursework completed with a minimum GPA of 3.00. Qualified students are reviewed and may be nominated each semester.
The National Honor Society in Physics is Sigma Pi Sigma. For membership in Sigma Pi Sigma, a physics major or other student who has completed at least three classes in physics must maintain an overall GPA of 3.00 and a 3.25 GPA in physics. A qualifying student may then be nominated for membership by the combined physics faculty.

Sigma Tau Delta, the National English Honor Society, endeavors to encourage, promote, and recognize scholarship and achievement in English language and literature. Membership is open to sophomore, junior, and senior English majors with a minimum GPA of 3.00 in English.

Graduation with Honors
To graduate with Honors or Distinction, a student must be awarded credit hours from Mesa State College that amount to at least 51 percent of the credits used for meeting degree requirements. Only Mesa State College credits will be used for calculation of the grade point average used in the recognition of honors. Each year during formal commencement ceremonies Mesa State College recognizes the following categories of academic achievement:

With Distinction—Associate degree graduates with cumulative grade point averages of 3.50 to 3.74.

With High Distinction—Associate degree graduates with cumulative grade point averages of 3.75 to 4.00.

Cum Laude—Baccalaureate degree graduates with cumulative grade point averages of 3.50 to 3.74.

Magna Cum Laude—Baccalaureate degree graduates with cumulative grade point averages of 3.75 to 3.89.

Summa Cum Laude—Baccalaureate degree graduates with cumulative grade point averages of 3.90 to 4.00.

Registration Procedure
Once admitted to Mesa State College, a student will meet with a registration advisor (see Academic Advising section). Not all courses available in this catalog are offered every semester or every year. Schedules of course offerings for the upcoming semester are available in the Records Office, along with step-by-step registration procedures.

Each student must obtain, from his or her faculty advisor or from the Dean of the School, a program sheet detailing requirements of the program of study the student is beginning. The program sheet is used throughout the student’s enrollment by the faculty advisor and student to track the student’s progress towards the degree or certificate the student is pursuing. The student is responsible for fulfilling all requirements of the program sought.

Schedule Adjustments—Add/Drops
Students may make adjustments to their schedules according to specified deadlines and procedures as announced in each semester’s published course schedule. Students dropping all of their courses should refer to the “Withdrawal” section of this catalog.

Student Load and Limitations
The normal student load is 15 semester hours (some disciplines require a higher number). The minimum load required for a student to be recognized as a full-time student is 12 semester hours. If students register for fewer than 12 semester hours, they are classified as part-time students.
Students receiving scholarships and/or financial aid are generally expected to complete 12 hours of credit courses each semester. In order to receive full Veteran's Administration financial benefits, veterans must be enrolled in 12 or more semester hours each semester of attendance.

It is recommended that students limit their academic load to 21 semester hours or less. Students should consult with their advisers before attempting an overload of more than 21 semester hours in a regular semester or more than 9 semester hours in summer term. A surcharge, equal to the appropriate credit hour rate per semester, will be assessed for each credit hour over 21.

Grade Reports
Individual grade reports are mailed to the permanent home address of every student at the end of each semester. Special reports may be obtained at any time upon request by the student to the Records Office. An official grade report is withheld, however, until all fees owed the College are paid.

Evaluation
The evaluation of a student's learning progress in a course is considered to be a planned and continuous process and consists of a variety of activities including judgment, observation, testing, etc. Final examinations are a part of the evaluation process. Article 13 of House Bill 1187, enacted in July of 1985 by the Colorado General Assembly, established that institutions of higher education in Colorado are to be held accountable for demonstrable improvements in student knowledge, capacities, and skills between entrance and graduation.

Students are required by Mesa State College to take part in testing and other programs deemed necessary for compliance with this legislation. Students who do not abide by these requirements may be denied registration and/or graduation privileges. Portions of the assessment process may require time outside the normal class periods.

Attendance
Students are expected to attend all sessions of each course in which they are enrolled. Failure to do so may result in a lowered grade or exclusion from class at the discretion of the instructor. At any time during a semester, a student who fails to attend regularly may be dropped from class rolls. An instructor may initiate a drop or withdrawal for a student who fails to attend classes regularly. ("Drops" are up to 15% of class elapsed; "withdrawals" are up to the mid-point of the class.)

Attendance during the first two class periods is required. Any instructor has the option of dis-enrolling from class any student who fails to attend the first two class meetings so that other students may enroll. Not all instructors will exercise this option; therefore, a student should not assume that non-attendance will result in automatic dis-enrollment from a class.

It is the responsibility of the student to arrange in advance with instructors for the making up of missed classwork, assignments or tests incurred because of a student's participation in required field trips, intercollegiate sports, or other trips. The coach, instructor, or other official whose activities require students to be absent from classes should give each participating student an "official" roster and schedule of events for the semester or other appropriate time span which may result in classes being missed. The student is responsible for contacting the instructor of each of his/her classes affected at least 24 hours in advance of each class that will be missed.

Absences due to serious illness or strictly unavoidable circumstances may be excused if the instructor in charge of the course is satisfied as to the cause. In the case of an emergency, the student may contact the Office of the Vice President of Student Services and that office will contact the student's instructors to let them know of the emergency.
Being excused for an absence in no way relieves the student of responsibility for completing all work associated with the course to the satisfaction of the instructor in charge.

Being late to a class or leaving a class early is disruptive and is not acceptable except in extreme circumstances or with prior approval of the instructor. Prior approval is also required of the instructor if a student wishes to bring a guest (or a child) to class.

**Late Registration**

Late registering students must check with the Accounting Office for their Statement of Account before registration is considered to be complete. Late fees will be charged on the same schedule as for all other students.

Students who register late (after classes begin) must complete all work missed. Students who register after the first week of classes are advised to enroll for less than a normal 15 semester-hour load.

**Student Conduct**

Mesa State College is a community consisting of students, faculty, support staff, and administrators. The College does not attempt to define all "student conduct." It relies on students to assume the responsibility and obligation of conducting themselves in a manner compatible with the purpose of the College as an educational institution and the community as a place of residence. In addition to College rules and regulations, all students are subject to the same local, state, and federal laws as non-students and are beneficiaries of the same safeguards of rights as non-students.

The academic community has a long and cherished tradition of expecting its members to conduct themselves in accordance with the highest standards of personal behavior. The following are among those acts of misconduct which are not consistent with the educational goals of Mesa State College or with the traditions of the academic community.

1. Academic dishonesty, such as cheating, plagiarism, or knowingly furnishing false information to the College.
2. Forger, alteration, misuse or mutilation of College documents, records, identification materials, or educational materials.
3. Obstruction or disruption of teaching, research, administrative, or public service functions of the College.
4. Intentional interference with an individual’s rights to free speech, freedom to make academic inquiry, or freedom of conscience.
5. Aiding, abetting or inciting others to commit any act of misconduct set forth in 1 through 4 above.

Penalties for acts of misconduct including, but not limited to, those set forth above can range from official warning to expulsion from College, depending upon the seriousness of the misconduct. Detailed disciplinary procedures are available from the Office of the Vice President of Student Services.

**Withdrawal Procedures**

**Withdrawal from One or More Classes**

Withdrawal from classes (full semester duration, modular, and summer) is permitted up to the mid-point of those classes. Proper forms and signatures are required and must be submitted to the Academic Records Office. Forms are available at the Office of the Director of Academic Records or the Deans' Offices. Students who officially withdraw from class(es), in which they are passing, by the deadline receive a "W" grade (withdrawn). Withdrawals after the deadline are automatically "F."
In addition to regular withdrawal from class(es) by the student, an instructor may initiate a withdrawal from his or her class for failure to attend class, failure to turn in assignments over an extended period of time, or for disciplinary reasons. In such cases, the instructor must observe regular withdrawal deadlines.

**Withdrawal from the College**

Students who desire to withdraw totally from Mesa State College should notify their faculty advisers and report to the Records Office. (See refund policy.) The necessary withdrawal papers must be filled out by the student and officially signed by the appropriate staff. Such withdrawal may be made up to the mid-point of the term of classes being taken. Grades of "W" will be given if all withdrawal procedures have been satisfied for courses in which the student has not already received a grade (including F). Students totally withdrawing after the deadline will receive grades of "F." Exceptions to the withdrawal deadline are possible only in the case of true, documented emergencies, presented to the Director of Academic Records.

**Academic Probation and Suspension**

"Good Standing" signifies that the student is making satisfactory academic progress (see "Academic Standards") and is eligible to continue studies at Mesa State College.

"Academic Probation" indicates a student is not in good standing and constitutes a warning to the student that the student's scholastic achievement needs improvement or suspension will result. Students will be placed on academic probation if their cumulative grade point averages at Mesa State fall below the minimums listed under "Academic Standards" in this catalog.

Upon being placed on academic probation, students are permitted to continue studies for one term, during which time they are expected to improve their cumulative grade point averages to the minimum required levels. Those who succeed will be removed from academic probation.

Students on academic probation will remain on academic probation until they raise their cumulative grade point averages to the required level. Once on probation, a student must maintain a minimum semester grade point average of 2.00 to avoid being placed on academic suspension.

"Academic Suspension" indicates the student is not in good standing and represents a temporary, involuntary separation of the student from the College for a minimum of one semester for failure to meet minimum academic standards.

Following an Academic Suspension, a student must apply for readmission to Mesa State College. For degree programs that do not have separate admission policies, the readmission to Mesa State College is also readmission to the degree program. For degree programs having admission policies over and above admission to Mesa State College, the student must also reapply to the degree program.

A student may be suspended from and readmitted to Mesa State College a maximum of two times. Academic suspension, when imposed, becomes effective immediately upon the recording of grades at the end of the semester or summer term.

The first suspension shall be for a period of one semester; i.e., a student suspended at the end of fall semester may not attend the following spring semester; a student suspended at the end of spring semester may not attend the following fall semester. A student suspended at the end of summer term may not attend the following fall semester.

The second suspension shall be for a period of two semesters; i.e., a student suspended at the end of fall semester may not attend the next spring or fall semester; a student suspended at the end of spring semester may not attend the following fall or spring semester. A student suspended at the end of summer term may not attend the following fall or spring semester.

Students may not enroll in any credit classes whatsoever (including Continuing Education and summer term) during the period of suspension.
GRADUATION REQUIREMENTS

Students are expected to assume responsibility for planning their academic programs in accordance with College and department policy. Each student is responsible for obtaining a program sheet, available from the appropriate School, at the beginning of his or her work detailing the exact requirements for the degree or certificate being pursued. Students are urged to consult with their advisers. The College assumes no responsibility for difficulties arising when a student fails to establish and maintain contact with his or her faculty adviser and department chairperson.

THE STUDENT IS ULTIMATELY AND SOLELY RESPONSIBLE FOR KNOWING THE REQUIREMENTS FOR A PARTICULAR DEGREE AND FOR FULFILLING THOSE REQUIREMENTS.

Requirements for All Degrees
Some requirements may vary with the program and School. Each student must abide by the rules set forth in the program sheet which may be obtained from the School offering the degree he or she is seeking. Candidates for all degrees must accomplish or be governed by, as appropriate, the following:

Petition
A completed petition to graduate and the program sheet with appropriate signatures must be filed with the Director of Academic Records before the beginning of the semester in which final requirements are to be met.

Deficiencies
All academic and financial deficiencies must be removed (i.e., incomplete grades and/or unpaid financial obligations).

Transferring in Final Credit Requirements from Another College
Mesa State College generally accepts academic credits from regionally accredited colleges and universities. When a student intends to earn a Mesa State College degree and the final credits for completing that degree program are earned at another institution, the following restrictions apply:
1. No more than 15 semester hours of credit will be accepted in transfer.
2. Credit must be earned in no more than one calendar year immediately following final enrollment at Mesa State College.
3. Specific approval of the proposed institution and courses must be given by the appropriate Dean and the Director of Academic Records at Mesa State College during the time of the student’s last enrollment at Mesa State College, and the student must receive a grade of “C” or higher in each course.

Human Performance and Wellness
Classes with “HPWE” prefix are human performance and wellness activity classes. Each course is scheduled for an eight-week module and includes lectures on the history, rules, techniques and strategies of the activity and participation in the activity. Students are examined both on knowledge of the activity and proficiency in the activity. Prerequisites for all “Intermediate” or Part II classes: the corresponding beginning course or consent of instructor.
1. To graduate with a baccalaureate degree, a student must earn three semester credit hours in Human Performance and Wellness. Each student must take HPWA 100 together with two activity courses: one course from the list entitled “Aerobic/Fitness Activity” and one additional course either from the list entitled “Aerobic/Fitness Activity” or “Lifetime Activity.”
To graduate with an associate degree, a student must earn two semester credit hours in Human Performance and Wellness. Each student must take HPWA 100 together with one activity course from the list entitled “Aerobic/Fitness Activity.” The only exception to taking HPWA 100 will be for those who request and pass a proficiency test at least at the 75 percent level. Contact the Department Chair for additional information.

2. A course may be taken for credit only once, except for “grade improvement.”

3. No more than a total of eight HPWE classes of any kind may be taken for credit. Any HPWE classes taken beyond the eight for which credit is received must be taken for no credit. There is no limit to the number of HPWE classes a student may take for “no credit.” Should a student take more than eight HPWE classes for credit, at the time he/she petitions to graduate, all HPWE courses taken after the eighth course will be excluded to calculate the student’s graduation GPA.

4. HPWE classes may not be used to satisfy elective course requirements for any degree program.

See the next pages for the lists of courses from which to choose for the HPWE Aerobic/Fitness Activity courses and the HPWE Lifetime Activity courses.

**Varsity Athletics**

HPWE 180-189 designates the first year of varsity athletics; 280-289, the second; 380-389, the third; and 480-489, the fourth. These courses must be taken in sequence. In addition to the rules above for all HPWE courses, the following apply:

Only one varsity sport activity course, numbered HPWE 180-189, may be used to meet the baccalaureate HPWE Aerobic/Fitness activity requirement.

A student may elect to register for a particular varsity sports class for credit as many as four times (once at each level).

Varsity sports activity credit at the 300 and 400 level may not be counted towards the 40 credit hour upper division requirement for graduation unless they are a required part of a degree program.

Preparatory Courses

Preparatory courses are available in several subjects at Mesa State. Numbers of such courses are below the 100 level (e.g., DEV L 090). These courses are designed for students needing to strengthen their backgrounds before entering college level classes, and are not intended for transfer purposes. They will not usually fulfill degree requirements. Students are urged to consult their advisers about the need to register in these classes.

Students who have passed any ENGL class numbered 100 or above will not be permitted to register for credit in any ENGL class numbered below 100.

Students who have passed any MATH class numbered 100 or above will not be permitted to register for credit in any MATH class numbered below 100.

Catalog under which Student Graduates

Anyone admitted to a baccalaureate major at Mesa State College after fall semester of 1992 must choose a program beginning with 1993-94 or from a current catalog. Because of a change in baccalaureate degree structure, the degrees offered in previous years are not available to new students or continuing students changing majors. A student currently declared in and working on a baccalaureate degree offered prior to 1993-94 may complete that degree provided he or she remains "continuously enrolled" (excluding summer session) until graduation and completes all requirements for graduation by May of 1999. A student shall be considered to be "continuously enrolled" if he or she does not have an interruption in enrollment of more than one contiguous semester (excluding summers).

The requirements for graduation with an associate degree or certificate are those stated in the Mesa State College catalog which is in effect at the time the student first registers at a Colorado public institution of higher education. This is true provided (1) a student remains continuously enrolled (as defined above) until graduation, and (2) the associate degree, emphasis or certificate area is still accepting students into the program.

If an interruption in enrollment occurs so that the student is no longer "continuously enrolled" as described above, all requirements applicable at the time of re-enrollment shall apply and the student will be governed by the then current catalog. If any requirements change while a student is enrolled, the student may elect to meet the new requirements. However, the old and the new requirements cannot be combined; one complete set or the other must be elected.

If a candidate for a degree is unable to meet requirements because of an event such as the removal of a required course from the offerings of the College or some other unforeseen academic change, it shall be the candidate's responsibility to arrange an exception or understanding approved by the Director of Academic Records and the appropriate dean.

Calculation of Grade Point Average for Graduation

Only the grades and credits awarded at Mesa State College will be used in calculating the student's grade point average for graduation. Grades awarded from any other institution will not be utilized in the grade point average calculation.
Baccalaureate Degree Requirements

Mesa State College offers baccalaureate degrees in the traditional liberal arts and sciences disciplines, professional fields of study, and interdisciplinary fields. Candidates for baccalaureate degrees must accomplish or be governed by, as appropriate, the following:

Credit Hour Requirements
A minimum of 123 semester credit hours is required in every baccalaureate degree program. The distribution of the 123 minimum credit hour requirement is:

<table>

</tr>
</tbody>
</table>

*Some professional programs may exceed 60 hours.

Students need to work closely with their faculty advisers and obtain a program sheet from that faculty adviser or the dean at the time they begin their baccalaureate degree program at Mesa State College. The student is ultimately and solely responsible for knowing the requirements for a particular degree and for fulfilling those requirements.

The program sheet lists all requirements for the degree program for the catalog under which the student is working. It is to be kept up-to-date by the student and adviser as the student progresses in meeting requirements.

At least 40 semester hours must be earned in courses numbered 300 or higher. A cumulative grade point average of 2.00 or higher for all courses taken and for the courses which comprise the area of the major field of study must be achieved. Each student who receives a baccalaureate degree from Mesa State College must have at least one college mathematics course on his or her transcript with a grade earned of "C" or higher. Some baccalaureate degree programs have additional GPA and other requirements. See a faculty adviser for a program sheet listing specific requirements for the degree and major sought.

Degree Distinctions
The six semester credit hour degree distinction for the B.A. and the B.S./B.B.A. degrees MUST be outside the general education requirements.

**Bachelor of Arts Distinction.** Candidates for the B.A. degree shall complete at least six semester hours of one modern foreign language which may include:

FLAF 111, FLAF 112
FLAG 111, FLAG 112
FLAS 111, FLAS 112
FLAS 117, FLAS 118

(FLAS 114 AND 115 will not fulfill this requirement)

Students may not satisfy this requirement by taking two beginning level courses in the same language (e.g., FLAS 111 and FLAS 117).

The department may approve courses in other modern languages than those listed. Students must complete the courses with a grade of "C" or higher. At the discretion of the foreign language faculty, the requirement may be satisfied by demonstration of equivalent competency. Students who have completed four semesters of a single high school language with a grade of "C" or higher may have their language requirement waived by the Dean of the School of Humanities and Social Sciences.

**Bachelor of Science/Bachelor of Business Administration Distinction.** Candidates for the B.S. and B.B.A degrees shall complete at least six semester hours of the following: any college mathematics (MATH) course at or above the college algebra (MATH 113) level and one additional course chosen from any computer science (CSCI) course, any statistics (STAT) course or another college mathematics (MATH) course considered higher level than college algebra (MATH 113). The candidate must com-
plete each of these courses with a grade of "C" or higher. At the discretion of the mathematics and computer science faculty, the requirement may be satisfied by a demonstration of equivalent competency.

The above requirements are separate from and in addition to the General Education requirements (i.e., the same course cannot be used for general education, degree distinction and/or major requirements.)

Major

The specific discipline area program requirements must be completed as required by the appropriate academic school with a grade point average of 2.00 or higher.

English and Mathematics Requirement

Mesa State College students are required to satisfy the following English and mathematics courses before they exceed sixty semester credit hours. Students should take the courses as freshmen. Those who need preparatory courses before they are ready to enroll in the required courses should enroll in the preparatory courses their first semester at Mesa State. Students who are completing sixty hours of course work will not be permitted to enroll in any additional courses until they have passed the required courses. Exceptions to the policy for a student requires the written permission of the Department Chairperson.

English Requirement

Mesa State College requires that English Composition (ENGL 111 and ENGL 112) or approved substitutes be completed successfully before a student can exceed sixty accumulated credit hours. The courses must be taken in sequence, and students are encouraged to take them in consecutive semesters. A "C" or higher must be earned in ENGL 111 before a student can take ENGL 112 and a "C" or higher must be earned in ENGL 112 to satisfy this requirement.

Mathematics Requirement

Mesa State College requires that the mathematics competency/requirement be completed before students accumulate more than sixty credit hours. Students working towards a baccalaureate degree in nursing are exempt from satisfying this requirement before they reach sixty credit hours.

Students seeking the B.A. degree must complete MATH 110 or a higher level mathematics course to fulfill their mathematics competency under general education; students seeking the B.S. or B.B.A degree must complete MATH 113 or a higher level mathematics course to fulfill their degree distinction.

Residency

A minimum of 28 semester hours credit must be earned in no fewer than two semesters of study at Mesa State College with at least 15 semester hours in major discipline courses numbered 300 or higher taken at Mesa State College.

Diversity Statement

Following is the statement of philosophy on diversity which has been adopted by the faculty at Mesa State College:

Mesa State College is a community of scholars in the liberal arts tradition. As faculty we believe that all people, regardless of origin, gender, religion, or linguistic heritage, have something worthwhile to contribute and that these contributions benefit us all. Therefore, we intend that within our academic community all cultural differences will be treated with equal respect and tolerance. We desire that our students have the opportunity to appreciate the diversity of our modern world, and we encourage them to partake of the resources available within our community. As faculty we pledge ourselves to provide as many divergent cultural experiences for our students as the resources of the college and the needs of our disciplines allow.

"To further tolerance and appreciation of our society's diversity, Mesa State requires that all graduates fulfill the following General Education requirements. In doing so we honor the validity of a liberal education. We hope that the experience will
help our students understand how to appreciate the true diversity of the world. Because diversity promotes multiple opinions, techniques, viewpoints and approaches, it is not the individual courses within the General Education program which we believe will further the above-stated goals, but the whole experience of the program itself.”

Statement of Philosophy and Goals of Baccalaureate Education

The avowed hope of institutions of higher learning is that students will emerge with well-developed faculties for critical judgment, analytical thought, and an awareness of their world. In the college environment, students are expected to embrace some of the great ideas and expressions of creative energy which characterize the human condition. Specifically, a baccalaureate education emphasizes four areas of cultural achievement:

1. The origins and structure of modern society;
2. The enduring ideas which have inspired mankind through the ages;
3. The scientific world view and its impact on technology, and
4. The expression of the creative spirit in literature and fine arts.

Mesa State College reaffirms these ideals. They are ancient goals tested through the centuries in a tradition which harks back to the earliest universities. Their contemporary expression at Mesa State College will strengthen the foundation of all academic programs.

Educated men and women share a basic body of perception and knowledge. This heritage is at the core of the mission of a baccalaureate college. Other aspects of a student’s curriculum reflect particular talents and career aspirations, but this statement builds upon universals—the acknowledged foundations of the arts, letters, social and natural sciences in our civilization.

The design of general education has been guided by a ninefold set of objectives. A Mesa State College baccalaureate graduate should:

1. Be able to communicate effectively in the English language;
2. Possess mathematical skills;
3. Be aware of the great moral, ethical, and philosophical questions which have endured through the ages;
4. Have some knowledge of the origins of our own culture and the existence of others;
5. Be able to think critically and recognize issues across a broad spectrum of subjects;
6. Understand the complexities of our social, economic and political environment;
7. Have a familiarity with the scientific approach to the biological, psychological, and physical universe;
8. Appreciate the contributions of literature to our perception of ourselves and our world;
9. Appreciate the aesthetic spirit of mankind through a study of some aspect of the performing and visual arts.

General Education

Each student must complete the 33 semester credit hour general education requirement as specified by the Mesa State College faculty. See the following for specific course requirements and choices.

Any college-wide general education course required in a student’s major will be replaced with a general education course from some other discipline. The same course may not be counted to satisfy both requirements. Students may select their general education courses from the designated list according to their own preference. The following are guidelines for General Education:

1. Those students who qualify may substitute Honors English (ENGL 129) for ENGL 111 and ENGL 112. When Honors English is substituted for the ENGL 111 and ENGL 112, only ten General Education courses would be required (30 credit hours).
2. The math competency is required of B.A. students only. It may be satisfied by completing any college mathematics course at or above the MATH 110 level with a grade of "C" or higher. Students may challenge MATH 110 for the purpose of proving competency. Also, students will be deemed mathematically competent if they receive at least a "4" on the Advanced Placement examination in calculus given by the College Entrance Examination Board.
3. Each student who receives a baccalaureate degree from Mesa State College must have at least one college level mathematics course on his or her transcript with a grade of "C" or higher. (B.A. students, see no. 2 above; B.S. and B.B.A. students, see "Degree Distinctions").

4. A student may satisfy a General Education requirement with an appropriate CLEP test, if a CLEP is available for the course and the department at Mesa State approves.

5. No General Education course, except sequential courses, can have a specific course as a prerequisite or co-requisite, unless the prerequisite or co-requisite is in a different discipline.

**General Education Requirements for Baccalaureate Students**

**English**
- 6 semester hours

**Mathematics**
- 3 semester hours (for B.A. students—B.S., and B.B.A. students, see "Degree Distinction")

**Humanities**
- 6 semester hours chosen from history, literature, philosophy

**Social and Behavioral Science**
- 6 semester hours chosen from anthropology, economics, geography, political science, sociology, psychology

**Science**
- 6 semester hours chosen from biology, chemistry, geology, physics.

NOTE: B.S. and B.B.A. students must choose three additional semester hours from either the Humanities or the Social/Behavioral Sciences.

**Fine Arts**
- 3 semester hours chosen from art, dance, music, theatre

**Natural Sciences**
- 6 semester hours chosen from biology, chemistry, geology, physics. (At least one of the two courses must have an associated lab or field component and both the lecture and laboratory must be taken in all courses listed which have both if general education credit is to be received. Courses which fit this lecture and laboratory requirement are marked with an asterisk in the Natural Sciences general education list.)

**Applied Studies**
- 3 semester hours chosen from foreign language, computer science, business, applied fine arts, speech, occupational courses.

Minimum number of general education credit hours: 33 (except when Honors English is taken)

However, at the present time, each science class with a laboratory totals at least 4 credit hours. Since any combination of classes that satisfy the natural sciences requirement will total at least 7 credit hours, the baccalaureate general education requirement is, in effect, 34 credit hours.

**Courses Approved for General Education Baccalaureate General Education Requirements**

**English**
- ENGL 111 English Composition and
- ENGL 112 English Composition or
- ENGL 129 Honors English

**Mathematics**
- MATH 110* College Mathematics

*NOTE: This requirement is for B.A. students only. All B.A. students must complete MATH 110 or a higher level math class with a grade of "C" or better. Students may challenge MATH 110 for the purpose of proving competency. Also, students will be deemed mathematically competent if they receive at least a "4" on the Advanced Placement examination in calculus given by the College Entrance Examination Board. Each student who receives a baccalaureate degree from Mesa State College will have at least one college level mathematics course with a grade of "C" or higher on his or her transcript (for B.S./B.B.A. degrees, see Degree Distinction).
### Humanities
- **ENGL 131, 132, 133** Survey of Western World Literature I, II, and III
- **ENGL 150** Introduction to Literature
- **ENGL 222** Mythology
- **ENGL 254, 255** Survey of English Literature I and II
- **ENGL 261, 262** Survey of American Literature I and II
- **HIST 101, 102** Western Civilization
- **HIST 131, 132** United States History
- **PHIL 110** Introduction to Philosophy

### Social and Behavioral Sciences
- **ANTH 201** Cultural Anthropology
- **ANTH 222** World Prehistory
- **ECON 201** Principles of Macroeconomics
- **ECON 202** Principles of Microeconomics
- **GEOG 103** World Regional Geography
- **POLS 101** American Government
- **POLS 261** Comparative Politics
- **PSYC 150** General Psychology
- **PSYC 233** Human Growth and Development
- **SOCO 144** Marriage and the Family
- **SOCO 260** General Sociology
- **SOCO 264** Social Problems

### Fine Arts
- **ARTE 101** Two-Dimensional Design
- **ARTE 102** Three-Dimensional Design
- **ARTE 115** Art Appreciation
- **ARTE 211** Art History: Ancient-1300
- **ARTE 212** Art History: Europe 1300-1900
- **DANC 115** Dance Appreciation
- **FINE 101** Man Creates
- **MUSA 110** Standard Notation
- **MUSA 220** Music Appreciation
- **MUSA 266** History of Popular Music
- **MUSP 101, 201** Music Performance Experience
- **THEA 117, 118** Play Production
- **217, 218** Technical Performance
- **THEA 119, 120** Theatre Appreciation
- **219, 220** Introduction to Dramatic Literature
- **THEA 141** Oral Interpretation
- **THEA 145**
### Natural Sciences

In addition, the Human Performance and Wellness requirement must be met—see “Human Performance and Wellness” under this “Graduation Requirements” section.

**Second Baccalaureate Degrees and Concentrations Within One Degree**

Mesa State College offers 19 baccalaureate degrees. Students who meet the requirements may earn any one or more of these baccalaureate degrees. (See “Second Baccalaureate Degree” below.)

Under several of the 19 baccalaureate degrees, concentrations and options are available. Before graduating with a baccalaureate degree offering concentrations and options, a student may complete requirements for one or several of the concentrations and options as desired. However, after a degree has been granted, if courses are taken that would have satisfied requirements for an additional concentration or option, the additional concentration or option cannot be added to the degree already granted. The course work will, of course, show on the student’s transcript. (See “Double Concentration within a Degree” below.)

**Second Baccalaureate Degree**

A student seeking a second baccalaureate degree at Mesa State College must earn a minimum of 30 additional semester hours of credit, at least 18 of which must be in courses numbered 300 and higher (none of these 30 credits may have been used toward another baccalaureate degree, and all must be earned at Mesa State College). In addition, the student must satisfy all specific program requirements of the new degree and concentration as well as any graduation requirements not previously met (e.g., the degree distinction).

**Double Concentration Within a Degree**

Students wishing to receive a double concentration or option within one degree must satisfy all the requirements for each concentration or option. Only one degree will be awarded. All concentrations and options desired must be declared on the petition to graduate.
Requirements for all Associate Degree Programs:
Associate of Arts (A.A.), Associate of Science (A.S.),
Associate of Applied Science (A.A.S.)

Credit
A minimum of 60 semester credit hours in approved course work plus HPWA 100
and one HPWE class from the Aerobic/Fitness list must be earned. Only the one re-
quired HPWE class may be counted toward an associate degree. A cumulative grade
point average of 2.00 or higher for all courses taken and for the courses which com-
prise the area of emphasis or specialization must be achieved. Some programs have
additional GPA requirements.

Residency
A minimum of 16 semester hours credit must be earned in no fewer than two
semesters of study at Mesa State College.

Double Emphasis Within a Degree
Students wishing to receive a double emphasis within one degree must satisfy all
the requirements for each emphasis. Only one degree will be awarded. All emphases
desired must be declared on the petition to graduate.

Second Associate Degree
A minimum of 15 semester hours of credit beyond that required for the first associate
degree must be earned by a student seeking a second associate degree at Mesa State College.
A minimum of one semester of residency at Mesa State College is also necessary. In addition,
the student must satisfy all specific requirements for the new degree. Only one A.A. and
only one A.S. degree may be granted to any student, according to state guidelines.

Associate of Arts (A.A.) and Associate of Science (A.S.),
General Degree Requirements
A.A. and A.S. degree programs are designed to prepare students for upper division
collegiate work (junior level) in colleges and universities granting the Bachelor of Arts
(B.A.) or Bachelor of Science (B.S.) degree. All A.A. and A.S. degree programs include
the Colorado Core Transfer Consortium Program which is the state-wide common core
of general education curriculum and will thus meet the lower-division general education
requirements of most baccalaureate degree programs in Colorado. A grade of “C” or
higher is required in EACH core course in order to be accepted for transfer under the
Core Transfer agreements. Course work for the A.A. or A.S. degree, then, includes:

1. General Education Core Transfer Curriculum
2. Discipline area classes (emphasis), as detailed in the “Program of Study” section
   of this catalog or as developed in consultation with a faculty adviser and indicated
   on the program sheet.
3. Human Performance and Wellness requirement
4. Electives

The A.A. degree is designed for transfer into a baccalaureate degree program, with
junior standing, in the arts, humanities, social or behavioral sciences, or one of the
professional fields with such disciplines as its base. The A.S. degree is designed for
transfer into a baccalaureate degree program, with junior standing, in one of the math-
ematical, biological, or physical sciences, or in one of the professional fields with such
disciplines as its base.
Students should consult with their faculty advisers to assure that the emphasis and electives chosen will satisfy requirements of the particular baccalaureate programs to which they plan to transfer. A.A. and A.S. degrees in emphases not described in this catalog may be developed in consultation with the faculty adviser. An A.A. or A.S. degree indicates that the holder has developed proficiencies sufficient to prepare for upper-division collegiate work and is awarded only for completion of a coherent program of study designed for a specific purpose.

Once a student has decided upon a program of study, he or she needs to obtain a program sheet from the faculty adviser. All degree requirements, as agreed upon, will be included on the program sheet.

In addition, the Human Performance and Wellness requirements must be met—see “Human Performance and Wellness” under this “Graduation Requirements” section.

**Non-Degree Transfer Programs:**

In addition to programs of study leading to the A.A. and A.S. degrees, other one- and two-year programs of study specifically tailored to meet students’ needs in transferring to another institution may be developed through consultation with a faculty adviser.

**Associate of Applied Science (A.A.S.) Degree Requirements**

A.A.S. degree programs are intended to prepare individuals to enter skilled and/or para-professional occupations or to upgrade/stabilize their employment. These programs are not intended for transfer to baccalaureate degree programs; however, certain courses may be accepted toward a baccalaureate degree at some institutions. Under the “Programs of Study” section of this catalog, and in the UTEC section, the A.A.S. degrees available at Mesa State College are listed, along with the courses required to complete each degree.

Students are urged to consult with a faculty adviser and to obtain from the adviser a program sheet for the degree sought. Requirements for each A.A.S. degree will include:

1. **General Education:** Social and Behavioral Science or Literature—six semester hours
   
   See the General Education lists in this catalog for baccalaureate degrees, and for the Associate of Arts degree and Associate of Science degree. The six hours required here may be chosen from Social or Behavioral Science or Literature from any of the three lists, unless specified under the degree.

2. **English**—six semester hours, as set forth in the specific A.A.S. program requirements.
3. Human Performance and Wellness requirement.
4. The remaining requirements and electives found under the specific program in the "Programs of Study" section of this catalog.
5. Additional requirements apply for some degrees. See specific program requirements and the program sheet.

Certificate of Occupational Proficiency Requirements

Candidates for the Mesa State College Certificate of Occupational Proficiency must satisfy all requirements specified for the certificate with a cumulative grade point average of 2.00 or higher for all courses. A grade lower than "C" in the discipline field will not be counted toward satisfying certificate requirements.

Teacher Licensure

Students preparing to teach in the public schools (elementary, secondary, K-12) must confer with the Mesa State College Director of Teacher Education and Licensure regarding state licensure requirements and with the chair of the appropriate department regarding program requirements for the major. It is imperative that students seeking teacher licensure plan their schedules with the advisor mentioned early in their academic careers, preferably the first semester of their work at Mesa State College.

Teacher licensure is a separate process and must be pursued in addition to a baccalaureate degree. See Teacher Licensure in the "Programs of Study" section of this catalog.
PROGRAMS OF STUDY

Organization of this Section
This section consists of:
1. General information
2. Schools
   Programs of study are offered by three Schools at Mesa State College. These
   Schools, along with their personnel and programs of study offered, are described
   herein.
3. Degrees and Certificates
   All degrees and certificates offered by Mesa State College, (except those at
   UTEC) are shown in this portion, with a brief summary of course and other
   requirements to earn each degree. (See UTEC section for degrees and certificates
   offered at the Unified Technical Education Center.)
   This portion of the section is divided into (1) baccalaureate degrees offered and
   (2) associate degrees and certificates offered. Each of the two portions is
   alphabetical by degree name.
4. Teacher Licensure
5. Electives and/or Minors

General Information

Program Sheet
A program sheet has been prepared for each degree major, concentration, minor or
certificate offered at Mesa State College specifying in detail the exact course require-
ments for each. Individual schools maintain program sheets for the degrees, minors
and certificates offered in their school. Each student is urged to consult his or her
adviser to obtain a program sheet for the major chosen (and minor, if applicable), upon
enrolling at Mesa State College. It is the student’s responsibility to maintain the pro-
gram sheet(s) demonstrating compliance with the degree and minor requirements. The
completed program sheet(s), with appropriate signatures, must accompany the peti-
tion to graduate and be filed with the Director of Academic Records in order for a
student to be considered for graduation. Refer to the Graduation Requirements section
of this catalog for further details.

Overload
Occasionally students desire to take more than 21 credit hours during a semester.
Students wishing to take such an overload are strongly encouraged to consult with
their advisers prior to registration.

Independent Study
Independent study permits the motivated student an opportunity to expand his or
her body of knowledge beyond the scope of the standard curriculum. It endeavors to
foster qualities of self initiative, organizational skills, self discipline and independent
thinking. It is expected that the student will engage in intensive study and research of
the topic.

Independent study satisfies neither general education requirements nor specific
course requirements. Independent study hours may be taken as elective hours only.
Independent study is available only to students at the junior and senior levels ex-
cept in certain certificate and AAS programs and only in those disciplines listed in the
"Course Descriptions" section of this catalog.
To be eligible for Independent Study, a student must have a minimum of eight semester credit hours in the discipline of the Independent Study area, as well as a minimum GPA of 2.75 within that discipline area. The work is to be completed within one semester from the initiation date and is limited to a total of six or fewer semester credit hours taken at Mesa State College. The Dean of the School issuing credit must approve any exceptions.

A written contract is to be initiated by the student desiring Independent Study and approved by appropriate faculty and chairperson. The contract must include justification, description, monitoring, and evaluation procedures.

Students may take regular classes and do the work independently (with permission of the instructor). This is not the same as “Independent Study,” and in such cases the student should not sign up for Independent Study but should register for the regular course, by prior arrangement with the instructor.

Further restrictions apply in some disciplines. One example is the requirement that an application for Independent Study be completed in advance—in some cases six weeks prior to the end of the semester preceding the one in which the student wishes to take the Independent Study. Students wishing to take an Independent Study should check with the appropriate instructor and/or dean well in advance.

Special Topics

Topics courses are offered from time to time and contain material of special interest within a specific discipline not considered elsewhere in the curriculum. Prerequisites vary with course material, and enrollment requires consent of the instructor.

Cooperative Education

According to the National Commission for Cooperative Education, “Cooperative Education is a working partnership in which an educational institution joins with an employer in a structured relationship. The basic purpose is that of providing a means whereby a student can combine study at the institution with a work experience which is under the supervision of the employer in order to fulfill the total requirements of a particular educational program.”

Cooperative Education is a three-way partnership involving the student, the employer, and the college. There is a great deal of difference between Cooperative Education and simply holding a job. Cooperative Education is based on learning objectives which are related to the student’s academic discipline and are established in cooperation with the student, the employer, the faculty advisor, and others at Mesa State College.

Typically, Cooperative Education is open to junior and senior students. Interested students should consult with their faculty advisor and dean. There are limits in the amount of credit which will apply towards a degree. See “Non-Traditional Credits” in this catalog.

Preparatory Courses

Preparatory courses are available in several subjects at Mesa State College. Numbers of such courses are below the 100 level (e.g., DeVU 090, College Success Strategies). These courses are designed for students needing to strengthen their backgrounds before entering college level classes. All courses numbered 001-099 are preparatory in nature, not intended for transfer purposes, and will not usually fulfill degree requirements. Students are encouraged to consult with their advisers about the need to register into these classes.

Students who have passed any ENGL class numbered 100 or above will not be permitted to register for credit in any ENGL class numbered below 100. Students who have passed any MATH class numbered 100 or above will not be permitted to register for credit in any MATH class numbered below 100.

</tbody>
</table>

Each student seeking a degree or certificate must obtain a program sheet from his or her faculty adviser or from the Office of the Dean of the School of Natural Sciences and Mathematics listing specific requirements for the degree sought. In some courses in the School of Natural Sciences and Mathematics, a grade of "D" is unacceptable. The program sheet for each program specifics such requirements and restrictions.

The School of Natural Sciences and Mathematics offers academic programs leading to baccalaureate (4-year) degrees, and associate (2-year) degrees in areas of study as indicated below. It should be noted that some of the areas of emphasis listed for study are the first two years of baccalaureate degree studies and require transfer to other institutions for completion. A student wishing to receive a double concentration or emphasis must satisfy all of the requirements for each concentration or emphasis.

**BACHELOR OF SCIENCE IN BIOLOGICAL SCIENCES**

Areas of Concentration: Biology
- Biology with Teaching (Elementary or Secondary)

**BACHELOR OF SCIENCE IN COMPUTER SCIENCE**

**BACHELOR OF SCIENCE IN ENVIRONMENTAL RESTORATION AND WASTE MANAGEMENT**

**BACHELOR OF SCIENCE IN MATHEMATICS**

Areas of Concentration: Mathematics with Teaching (Elementary or Secondary)
- Statistics
BACHELOR OF SCIENCE IN PHYSICAL SCIENCE
Areas of Concentration: Chemistry
Geology
Geology with Teaching (Elementary or Secondary)
Environmental Geology
Physics
Physics with Teaching (Elementary or Secondary)

ASSOCIATE OF SCIENCE
Associate of Science (A.S.) degrees are available in most disciplines in the School of
Natural Sciences and Mathematics. Completion of these degrees requires close coordi-
nation with an adviser and attention to the general education core curriculum re-
quirements previously described. In most cases the number of hours that are required
for completion of the Associate of Science degree will exceed the minimum of 60
semester hours.
Areas of Emphasis: Biology
Computer Science
Engineering
Geology
Mathematics
Physics

It is strongly recommended that students planning careers in Forestry, Medical Tech-
nology, or Pharmacy complete an associate's degree in one of the areas of emphasis
listed above. Two additional years of study must be completed at another university,
but the courses from Mesa State College are readily transferable when the applicant
holds an Associate of Science degree.

ASSOCIATE OF APPLIED SCIENCE
Environmental Restoration Engineering Technology

For more details, see "Degrees" in the following section of this catalog. The baccalaure-
ate degrees are alphabetical by title within the baccalaureate section and the associ-
ate degrees are alphabetical within that section.

General Information

Pre-Health Science Preparation
Admission to the study of dentistry, medicine, optometry, physical therapy, and veteri-
nary medicine usually requires the completion of a bachelor's degree in an appropriate
discipline. Pre-health science is not a major at Mesa State College. Students preparing
to enter the fields listed above must declare a major in one of the sciences or another
appropriate area. Since admission to the medical, dental and other professional schools
is very competitive, students are encouraged to carefully select majors and/or minors
which will prepare them for other career alternatives in the event that they are unable
to gain admission to the professional school of their choice.

Engineering and Forestry
A student can profitably begin the baccalaureate study of engineering or forestry with
two years at Mesa State College. The subsequent transfer to other appropriate state
institutions is facilitated by one of the various transfer agreements between Mesa State
College and these institutions. Programs should be carefully designed in consultation
with an adviser.
Teacher Licensure

Licensure to teach mathematics or science in the secondary schools and licensure to teach in elementary schools is available through Mesa State College. This can be done by earning a baccalaureate degree with an appropriate major or concentration while also earning credit in prescribed professional courses. Interested students should contact the Teacher Education and Licensure Department.

Licensure to teach mathematics is obtained with a Bachelor of Science in Mathematics with a concentration in teacher licensure degree as described in this catalog and the program sheet. Licensure to teach science, however, is somewhat complicated by the fact that science is not an academic emphasis in itself. A student wishing such licensure should plan to earn a Bachelor of Science in Biological Sciences degree with a concentration in Teacher Licensure or a Bachelor of Science in Physical Sciences degree with a concentration in chemistry, geology or physics with teacher licensure as described in the appropriate sections of this catalog. For information about elementary and secondary teacher licensure the student should contact the Teacher Education and Licensure Department.

Laboratories

Many courses in the School of Natural Sciences and Mathematics include laboratory work. The class and laboratory portions of them are technically treated as different courses with distinctive numbers and individual grades. A student is usually required to be concurrently enrolled in both class and laboratory. Credit toward graduation cannot be earned for a class or laboratory unless credit is earned in both.
SCHOOL OF PROFESSIONAL STUDIES

David Rogers, Acting Dean

Departments and Faculty

Accounting and Information Technology
  J. Buckley, T. Capps, M. Green, D. McGinnis,

Human Performance and Wellness and Recreation
  D. Funk, J. Giarratano, H. Heaps, J. Hood, S. Kirkham,
  J. Krauss, G. Leadbetter, B. Maring, D. Peterson,
  K. Perrin (Chair), D. Schakel, T. Swanson, S. Vessup,
  B. Wiehe, S. Yeager

Nursing and Radiologic Sciences
  H. Covington, S. Dickson, S. Forrest (Chair),
  J. Goodhart (BSN Director), P. Feely, C. Hines,
  J. Mayfield, B. Hoffman, A. Lambeth, K. Reuss,
  C. Roy (ADN Director), B. Schans (Radiologic
  Technology Director), L. Stahl, S. Stanton,
  M. Suedekum, E. Williams

Each student seeking a degree or certificate must obtain a program sheet from his or her faculty adviser or from the Office of the Dean of the School of Professional Studies listing specific requirements for the degree or certificate sought.

Nursing and Radiologic Sciences

Each program requires a separate admission application; deadlines vary according to the degree sought. For more specific information, see the following or contact the Department of Nursing and Allied Health. Each new applicant must obtain from Nursing and Radiologic Sciences written guidelines explaining specific program requirements. All programs are fully accredited by the appropriate source including the National League for Nursing, and the Committee of Allied Health Education and Accreditation of the American Medical Association.

Students in most programs offered through the Department of Nursing and Radiologic Sciences will be required to participate in clinical situations, etc., at hospitals and other facilities in the community as a part of their program of study. It is understood that these experiences are an integral and essential part of the programs and that all students must participate in them as required by their programs of study. Therefore, should a hospital or other facility deny permission to any student to work at or participate in a required experience at such hospital or other facility, that student may not be allowed to continue his or her program of study. It is the student’s responsibility to obtain and maintain the permission of the clinical facilities utilized.

The School of Professional Studies offers academic programs leading to the following baccalaureate (4-year) degrees, associate (2-year) degrees, and certificate programs with the majors or areas of study indicated:
BACHELOR OF BUSINESS ADMINISTRATION
Areas of Concentrations: Administrative Office Management
   Business Economics
   Business Computer Information Systems
   Finance
   Human Resources Management
   Management
   Marketing
   Parks and Recreation Management

BACHELOR OF ARTS IN ECONOMICS
Area of Concentration: Applied Economics: Administration

BACHELOR OF ARTS IN HUMAN PERFORMANCE AND WELLNESS
Areas of Concentration: Adapted Physical Education

School of Professional Studies

Bachelor of Science

1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)

a. General Education
b. B.S. Distinction (Math/Computer Science)
   - MATH 113  College Algebra or higher level math
   - STAT 214  Business Statistics

2. Requirements specific to this degree

a. Required courses
   - ACCT 201  Principles of Financial Accounting  (3)
   - ACCT 202  Principles of Managerial Accounting  (3)
   - ACCT 321  Intermediate Accounting I  (4)
   - ACCT 322  Intermediate Accounting II  (4)
   - ACCT 331  Cost Accounting I  (3)
   - ACCT 332  Cost Accounting II  (3)
   - ACCT 401  Governmental Accounting  (3)
   - ACCT 402  Advanced Accounting  (3)
   - ACCT 411  Auditing I  (3)
   - ACCT 412  Auditing II  (3)
   - ACCT 441  Individual Income Tax  (5)
   - ACCT 442  Advanced Tax and Tax Research  (5)
   - BUGB 351  Business Law I  (3)
   - BUGB 352  Business Law II  (3)
   - CISB 101  Business Data Processing  (2)
   - CISB 105  Introduction to Business Software  (1)
   - CISB 205  Advanced Business Software  (3)
   - ECON 201  Principles of Macroeconomics  (3)
   - ECON 202  Principles of Microeconomics  (3)
   - FINA 339  Managerial Finance  (3)
   - MANG 201  Principles of Management  (3)
   - MANG 491  Business Policies and Management  (3)
   - MARK 231  Principles of Marketing  (3)

b. Concentrations
   There are no concentrations currently available under this degree.

c. See faculty adviser for a program sheet detailing exact and complete requirements for the major.

d. Electives (unrestricted)  9
   If desired, a student may use electives toward satisfying requirements for a minor.

3. Special requirements:

a. In order to be admitted to the accounting emphasis, certain prerequisites must be satisfied. To be eligible for admission, a student must have successfully completed and/or be currently enrolled in the following:
   (1) 45 credit hours with a 2.75 GPA or higher,
   (2) ACCT 201 and ACCT 202 with a 2.5 minimum GPA and ACCT 321 with at least a grade of "C",
   (3) MATH 113 or higher numbered MATH class,
   (4) STAT 200 or STAT 214,
(5) CISB 101 and CISB 105,
(6) MANG 201,
(7) ENGL 111 and 112 or ENGL 129,
(8) 15 credit hours of general education requirements.

b. Applications for admission to the accounting emphasis must be submitted to the Department Admission Committee by the tenth week of the semester preceding such admission.

c. Acceptance into the accounting emphasis is contingent upon successful completion of courses in progress.

d. Only students admitted to the accounting major may take any upper division ACCT classes, except they will be allowed to take Managerial Accounting and/or Cost Accounting.

e. A grade of "D" is not acceptable in any of the courses identified in this requirement.

f. Only the Department Admissions Committee may make exceptions to any of these requirements.

BIOL 403  Evolution (3)
BIOL 414, 414L Aquatic Biology and Lab (4)
BIOL 415  Tropical Ecosystems (2)

(5) At least fifty percent of the total BIOL credit hours must be at the 500 level or above.

(6) With prior departmental approval, courses such as special topics, senior research, independent research, and/or independent study may be substituted for course work in the four areas listed above or for the thesis requirement. These substitutions cannot exceed six credit hours.

b. Concentrations—see below
c. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.
d. Electives (unrestricted) 22
   If desired, a student may use electives towards satisfying requirements for a minor.

3. Special requirements and recommendations
   a. Biological Sciences majors are encouraged to choose a minor from among those offered within the School of Natural Sciences and Mathematics. Minors most closely associated with the Biological Sciences are chemistry, physics, mathematics, statistics, computer sciences, and geology.
   b. At least ten hours of chemistry courses and one physics course must be taken. Students planning to attend professional schools and some graduate schools are advised to take one year of physics and at least two years of chemistry courses. Mathematics, statistics, and/or computer science courses are requirements for the Bachelor of Science Degree Distinction. It is recommended that courses be taken in all these areas. Students planning to complete graduate or professional degrees are strongly encouraged to work closely with their adviser in planning their curriculum.
   c. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.

CONCENTRATION
Bachelor of Science
BIOLOGICAL SCIENCES

Biology with Teaching (Elementary or Secondary)

Requirements may vary if a concentration is selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.

Students seeking a degree in Biology with Teaching should see their faculty advisers in both Biology and Teacher Licensure.
BUSINESS ADMINISTRATION
School of Professional Studies

d. Concentrations

There are no concentrations currently available under this degree.
e. Electives (unrestricted)

ERWM majors will be encouraged to concentrate on a focused area of study, with at least 10 credits in upper division courses. Each student will be required to submit a plan of study within their electives to his/her adviser before the end of their sophomore year. By taking a few additional courses, students may choose to receive a formal minor in the area of specialization.

3. Special Requirements

a. Grades of less than "C" are not accepted in required courses.

b. Students must pass a comprehensive/practical exercise within ENGS 492 as a partial graduation requirement.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
FINE AND PERFORMING ARTS
School of Humanities and Social Sciences
Bachelor of Arts
1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)
   a. General Education 33
   b. B.A. Distinction (Foreign Language) 6
   c. Human Performance and Wellness 3
2. Requirements specific to this degree
   a. Required courses (all concentrations except Music with Teaching)
      FINE 494 Seminar in Critical Analysis of the Arts (all concentrations except Music with Teaching) (3)
      Fine and Performing Arts course(s) outside the concentration. (Music Theatre Concentration students are exempt from this requirement and take only FINE 494) (3)
   b. Concentrations—see below (students must choose one) 47-70
   c. Electives (unrestricted) 7-28
   If desired, a student may use electives towards satisfying requirements for a minor.
3. Special Requirements and Recommendations
   a. Students must receive a grade of "C" or better in Fine and Performing Arts Core Requirements, particular emphasis core requirements, and courses in the specific options. General Education, support courses, and electives are excluded from the minimum "C" requirements.
   b. It is recommended that students who are interested in pursuing graduate programs and/or teaching licensure programs maintain at least an overall 3.2 GPA with "A's" in the major courses.
   c. Fine and Performing Arts students should see their adviser each semester before registering for classes.
   d. It is advisable for each student to choose a minor in consultation with his/her adviser.

| MUSP XXX                   | Performance Ensembles  | (8)  

Options:
Each music student must choose one of the following options and take specific courses required for that option in:

- 8.25
Music Performance (Instrumental, Keyboard, Vocal) (8-10)
Music with Teaching (K-12) (8-25)

Students who want the option in Music with Teaching should see their faculty advisers in both Music and in Teacher Licensure and refer to the program sheets detailing requirements.

1. Special Requirements
Each music student must attend weekly recitals and required concerts and pass basic proficiencies, undergo a sophomore review, and successfully complete a public senior recital after completing all other required music lessons and courses.

2. Additional expenses
Approximately $100.00 is required for materials and equipment in addition to the cost of textbooks.

All Theatre students must complete THEA 160, Theatre Studies, their first year. Options
Specific courses are required for options available under this degree
Acting/Directing
Design/Technical

Choose three hours from courses listed in Acting/Directing Program Sheets
Requirements may vary with the concentration and option selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major, concentration and option chosen.

1. Additional expenses
   Approximately $100.00 in addition to the cost of textbooks may be required for purchase of supplies and materials.
HISTORY

School of Humanities and Social Sciences
Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)

   a. General Education  33
   b. B.A. Distinction (Foreign Language)  6
   c. Human Performance and Wellness  3

2. Requirements specific to this degree

   a. Required courses  45
      HIST 101 Western Civilization  (3)
      HIST 102 Western Civilization  (3)
      HIST 131 United States History  (3)
      HIST 132 United States History  (3)
      HIST 404 Introduction to Historical Research  (3)

   21 upper division credit hours as follows:

   European History, select one course from:
      HIST 301 History of England Since 1485  (3)
      HIST 330 History of 19th Century Europe  (3)
      HIST 331 The 20th Century  (3)
      HIST 400 The Soviet Union and Eastern Europe  (3)
      HIST 430 The Ancient Mediterranean World  (3)

   United States History, select one course from:
      HIST 342 The Age of Jefferson and Jackson  (3)
      HIST 344 The Age of Industry in America  (3)
      HIST 346 History of Modern America  (3)
      HIST 420 Civil War and Reconstruction  (3)

   Third World History, select one course from:
      HIST 306 History of South and Southeast Asia  (3)
      HIST 310 Latin American Civilization  (3)
      HIST 401 History of the Islamic World  (3)
      HIST 403 East Asia: The Formative Period  (3)
      HIST 403 East Asia and the Modern World  (3)

   Topical History, select one course from:
      HIST 304 History of Colorado  (3)
      HIST 315 American Indian History  (2)
      HIST 320 The American West  (3)
      HIST 332 History of Modern Warfare  (3)
      HIST 405 Public History  (3)
      HIST 410 Environmental History  (3)
      ECON 312 Economic History of the U.S.  (3)

   Three additional courses must be selected from those listed above.  (9)
   9 upper division credit hours selected from the following disciplines:
   Anthropology, Economics, English, Literature, Philosophy, Political Science,
   and Sociology

   b. Concentrations
      There are no concentrations currently available under this degree.

   c. See faculty adviser for a program sheet detailing exact and complete requirements
      for the major.

   d. Electives  36
      If desired, a student may use electives to satisfy requirements for a minor.

3. Special recommendations
   All history majors are encouraged to take an additional six hours of a language
   beyond the six required for the B.A. degree distinction.
HUMAN PERFORMANCE AND WELLNESS

School of Professional Studies

Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)

   a. General Education  Cr. Hrs.  33
   b. B.A. Distinction (Foreign Language)  6
   c. Human Performance and Wellness  3

2. Requirements specific to this degree

   a. Required courses  35
      - BIOL 141  Human Anatomy and Physiology (3)
      - BIOL 141L  Human Anatomy and Physiology Lab (2)
      - HPWA 200  Introduction to Human Performance and Wellness (2)
      - HPWA 213  Methods of Physical Fitness (2)
      - HPWA 233  Methods of Weight Training (1)
      - HPWA 234  Prevention and Care of Athletic Injuries (2)
      - HPWA 260  School and Personal Health (3)
      - HPWA 301  Tests and Measurements (2)
      - HPWA 309  Anatomical Kinesiology (2)
      - HPWA 350  Motor Development (3)
      - HPWA 370  Biomechanics (2)
      - HPWA 370L  Biomechanics Lab (1)
      - HPWA 380  Adapted Physical Education (3)
      - HPWA 401  Legal Considerations (2)
      - HPWA 403  Exercise Physiology (3)
      - HPWA 403L  Exercise Physiology Lab (1)
      - HPWA 494  Senior Seminar (Capstone) (1)

   b. Concentrations—see below (students must choose one)

   c. Electives (unrestricted)

   If desired, a student may use electives to satisfy requirements for a minor.

   d. Special requirements

   Red Cross Standard First Aid/CPR certification is required.

CONCENTRATIONS

Bachelor of Arts

HUMAN PERFORMANCE AND WELLNESS

Adapted Physical Education
Corporate Fitness
Exercise Science
Human Performance and Wellness with Teaching (K-12)

Requirements vary, depending upon the concentration selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.

Students seeking a degree in Human Performance and Wellness with Teaching should see their faculty advisers in both Human Performance and Wellness and Teacher Licensure.
LIBERAL ARTS (Interdisciplinary Major) 
School of Humanities and Social Sciences
Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)  
   a. General Education  
      Cr. Hrs.  
      33  
   b. B.A. Distinction (Foreign Language)  
      6  
   c. Human Performance and Wellness  
      3

2. Requirements specific to this degree
   a. Required courses  
      Cr. Hrs.  
      18  
      ARTE 115 Art Appreciation (3)  
      ENGL 150 Introduction to Literature (3)  
      MUSA 220 Music Appreciation (3)  
      THEA 141 Theatre Appreciation (3)  
   
   One of the following sequences
   (1) Select two courses from:  
      ENGL 131 World Literature I (3)  
      ENGL 132 World Literature II (3)  
      ENGL 133 World Literature III (3)  
      (2) ENGL 254 English Literature I (3)  
      ENGL 255 English Literature II (3)  
      (3) ENGL 261 United States Literature I (3)  
      ENGL 262 United States Literature II (3)  
      (4)*ARTE 211 Art History, Ancient-1300 (3)  
      ARTE 212 Art History, Europe 1300-1900 (3)  
   
   *Students choosing the Art primary area may not make this selection.
   (5) MUSA 266 History of Popular Music (3)  
      THEA 145 Introduction to Dramatic Literature (3)
   
   b. Required Primary and Secondary Areas of Study
   (1) Students select one Primary Area of Study from among the following and choose courses from a list for that Primary area (15 credit hours must be upper division*):  
      Cr. Hrs.  
      18-21  
      (a) Art (18)  
      (b) English (18)  
      (c) Music (21)  
      (d) Philosophy (18)  
      (e) Theatre (18)  
   
   *In philosophy only twelve hours must be upper division.  
   (2) Students select one Secondary Area of Study (different from the Primary Area) from among the following and choose courses from a list for that Secondary area (9 credit hours must be upper division):  
      Cr. Hrs.  
      12-15  
      (a) Art (12)  
      (b) English (12)  
      (c) Music (15)  
      (d) Philosophy (12)  
      (e) Theatre (12)
   
   c. Concentrations
   There are no concentrations currently available under this degree.
d. See faculty adviser for a program sheet detailing exact and complete requirements for the major.

e. Electives (unrestricted)

3. Special requirements

Students will select both a Primary and a Secondary area of study from the lists shown; these areas may not be from the same discipline.
MASS COMMUNICATION

School of Humanities and Social Sciences

Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on “Degree Requirements” in this catalog).

   a. General Education
   b. B.A. Distinction (Foreign Language) (6)
   c. Human Performance and Wellness (3)

2. Requirements specific to this degree

   a. Required courses
      MASS 101 Mass Media in America (3)
      MASS 231 News Writing and Reporting (3)
      MASS 307 Practicum (1)
      MASS 421 Journalism Law and Ethics (3)
      MASS 494 Senior Seminar (3)
      MASS 499 Internship (8)

   b. Concentrations—see below (students must choose one) (18)

   c. Electives (unrestricted) (42)

   If desired, a student may use electives to satisfy requirements for a minor.

3. Special requirements

   (1) Continuance in the program after the sophomore year will be contingent upon the student’s satisfying the following requirements:

      (a) Completion of the English Composition sequence, with at least a 2.5 GPA average and no grade of “D” or “F”.

      (b) Completion of the two introductory courses (MASS 101 and MASS 231) in Mass Communications, with at least a 2.5 average and no grade of “D” or “F”.

      (c) Maintenance of at least a 2.5 GPA in MASS courses, in addition to at least a 2.0 GPA overall, is necessary for Mass Communications majors to proceed to graduation.

CONCENTRATIONS

Bachelor of Arts

MASS COMMUNICATIONS

News/Editorial
Broadcasting
Public Relations

Requirements vary with the concentration selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.
MATHMATICS
School of Natural Science and Mathematics

Bachelor of Science

1. Baccalaureate graduation requirements (for further information, see section on “Degree Requirements” in this catalog)

   a. General Education 33
   b. B.S. Distinction (Math/Statistics/Computer Science) 6
   c. Human Performance and Wellness 3

2. Requirements specific to this degree

   a. Required courses 42
      MATH 151 Calculus I (5)
      MATH 152 Calculus II (5)
      MATH 253 Calculus III (4)
      MATH 260 Differential Equations (3)
      MATH 265 Linear Algebra (3)
      MATH 310 Number Theory (3)
      MATH 361 Numerical Analysis (4)
      MATH 369 Math Logic and Discrete Structures (3)
      MATH 390, 391 Abstract Algebra, or
      MATH 452, 453 Advanced Calculus (6)
      MATH 450 Complex Variables (3)

      One of the following:
      STAT 311 Statistical Methods (3)
      STAT 312 Correlation and Regression (3)
      STAT 313 Sampling Techniques (3)
      CSCI 445 Computer Graphics (3)

   b. Concentrations — see below

   c. Electives (unrestricted) 39
      If desired, a student may use electives to satisfy requirements for a minor.

3. Additional expenses
   TI-82 or TI-85 (preferred) or equivalent calculator is recommended for mathematics and statistics courses. Cost is approximately $70.00-125.00.

CONCENTRATIONS
Bachelor of Science
MATHMATICS

Statistics
Mathematics with Teaching (Elementary or Secondary)

Requirements may vary if a concentration is selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.

Students seeking a degree in Mathematics with elementary or secondary teaching should see their faculty advisers in both Mathematics and Teacher Licensure.
NURSING
School of Professional Studies
Bachelor of Science (B.S.N.)

1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)

   a. General Education
      Required General Education Courses
      PSYC 150 General Psychology (3)
      PSYC 233 Human Growth and Development (3)

   b. B.S. Distinction (Math, Statistics and Computer Science)
      MATH XXX Mathematics course at or above MATH 113 level (3)
      STAT 200 Probability and Statistics (3)

   c. Human Performance and Wellness
      (3)

2. Requirements specific to this degree
   a. Required courses
      BIOL 141, 141L Human Anatomy and Physiology and Lab (5)
      BIOL 203 Human Nutrition (3)
      BIOL 241 Pathophysiology (4)
      BIOL 250, 250L General Microbiology and Lab (5)
      NURS 245, 245L Fundamentals of Nursing and Lab (6)
      NURS 325 Pharmacology in Nursing (3)
      NURS 335 Health Assessment (3)
      NURS 345, 345L Nursing Process I: The Adult and Lab (8)
      NURS 355, 355L Nursing Process II: Expanding Family and Lab (5)
      NURS 365, 365L Nursing Process III: The Child and Lab (4)
      NURS 425, 425L Nursing Process IV: Community Health and Lab (5)
      NURS 435, 435L Nursing Process V: Mental Health and Lab (5)
      NURS 445, 445L Nursing Process VI: Advanced Nursing Process Lab (7)
      NURS 455, 455L Leadership Process: Theory and Practice and Lab (6)
      NURS 475 Research Process (2)

   b. There are no concentrations available under this major.

   c. See faculty adviser for a program sheet detailing exact and complete requirements for the major.

   d. Electives (upper division)
      (1) Any upper division courses (6)
      (2) Upper division NURS courses (4)
      (3) Additional Nursing Courses Required for Advanced Placements: for RN’s and LPN’s (consult adviser for requirements)
         NURS 314 Professional Transitions (3)
         NURS 335L Health Assessment Laboratory (1)
      (4) If desired, a student may use electives towards satisfying requirements for a minor.
3. Special requirements
The BSN program is designed for individuals who desire a professional degree in nursing. The four-year program provides educational experiences to prepare a professional nurse generalist to practice in a variety of health care settings. Advanced placement is available for RN's and LPN's. Contact the Nursing Department for specific information and curriculum plan.

a. Admission requirements include: satisfactory scores on the Scholastic Aptitude Test (SAT), 850 or above, or a composite American College Testing (ACT) score of 21 or better (scores of SAT 810 and ACT 19 will be accepted if the test was taken before October, 1989). High school courses in biology, chemistry and algebra are recommended. All first year college courses must be completed or in progress before a student can be admitted to the BSN program. An admissions committee selects students from applicants who best meet requirements. In addition, anatomy and physiology and microbiology, each with the lab, and a math course at least at college algebra level are required for admission into the program. All admission materials must be on file in the office of the Nursing Department prior to October 1 for consideration for admission into the following spring semester. Application for advanced placement must be on file in the office of the Nursing Department prior to March 1.

b. Registered Nurse students seeking credit for prior nursing learning experiences will follow “The Colorado Nursing Articulation Model” and will be required to take and successfully complete a nursing course specifically designed for RNs entering the program for degree completion.

c. Students transferring in credit for Human Anatomy and Physiology and/or Microbiology courses taken at out-of-state accredited colleges/universities must provide evidence that these courses had separate laboratory components before the course can be accepted to fulfill program requirements. This will not necessarily appear on the transcript.

d. Any RN who desires to enroll in a nursing course for personal enrichment only, must secure permission from the course instructor and must register for “No Credit Desired”. If credit is desired, students must be officially accepted into the nursing program prior to enrolling in the nursing courses to receive credit.

e. Progression requirements: All nursing courses must be completed in sequence. All required 200 level courses (with the exception of BIOL 241 and STAT 200) must be completed before 300 level nursing courses may be taken. BIOL 241 must be successfully completed by the end of the semester when the first 300 level nursing courses are taken. The student may not continue the nursing courses until BIOL 241 is successfully completed. All required 300 level courses must be completed before 400 level nursing courses may be taken. Students must complete all 200 level nursing courses or be an (RN) advanced placement student to enroll in the nursing elective courses. (Students may take any two nursing elective topics in any sequence.)

f. Students must have a 2.0 ("C") on a 4.0 scale or higher grade for all courses required for completion of the Baccalaureate Degree in nursing. This policy applies regardless of when the course was taken. A "D" grade or lower in any required course is not acceptable.

g. Students enrolled in nursing courses having both theory and clinical components must take these components concurrently. If a student receives a grade of less than "C", 2.0 on a 4.0 scale, in either component (theory and/or clinical) both components must be repeated. Certain courses have separate sections, each with theory and clinical, so all sections of the course must be successfully completed to pass the course. The student may not progress to the next nursing course and will have to retake both components the next semester that the course is offered as space is available.
h. Faculty members of a program may withdraw a student due to unsafe clinical practice or behavior jeopardizing professional practice at any time during the semester.

i. Any basic science courses required by the program must have been taken within the last five (5) years to fulfill graduation requirements. These include BIOL 141 and 141L, BIOL 241, BIOL 250 and 250L. If the course was not taken within the last five (5) years, the course must be re-taken or competency proven by a challenge examination. The challenge examination process may only be accomplished if a college-level course has been successfully completed previously with a letter grade of “C” or higher awarded. The five year requirement is waived for RN’s who have been working in the Nursing field since taking courses. The final approval for all accepted support course requirements and/or challenge examination will be made by the Department of Nursing and Radiologic Sciences.

4. Additional expenses
Students will be required to purchase additional supplies and material (i.e., medical equipment and uniforms). Approximate cost will be $300-$500. See adviser for specific requirements.
PHYSICAL SCIENCES

School of Natural Science and Mathematics

Bachelor of Science

1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)

   a. General Education
   
   Cr. Hrs.
   
   b. B.S. Distinction (Math/Computer Science)
   
   (1) In Chemistry, the degree distinction should be satisfied by taking Calculus I and II (MATH 151, 152) for 10 credit hours.
   
   (2) In Geology, the degree distinction should be satisfied by taking Calculus I (MATH 151) and Probability and Statistics (STAT 200) for 8 credit hours.
   
   (3) In Physics, the degree distinction should be satisfied by taking Calculus I and II (MATH 151 and 152) for 10 credit hours.
   
   c. Human Performance and Wellness
   
   3

2. Requirements specific to this degree

   (a) Concentrations—see below (students must choose one)

   (b) Electives (unrestricted)

   If desired, a student may use electives to satisfy requirements for a minor. Minors which complement a student's professional studies are mathematics, computer science, chemistry, biology and geology. Some minors which broaden a student's cultural perspective are history, literature, and fine arts.

3. Special requirements

   Grades of less than "C" are not accepted in required courses in the major.

CONCENTRATIONS

Bachelor of Science

PHYSICAL SCIENCES

CHEMISTRY

Required courses:

- CHEM 131, 131L General Chemistry & Lab (5)
- CHEM 132, 132L General Chemistry & Lab (5)
- CHEM 211, 211L Quantitative Analysis & Lab (4)
- CHEM 311, 311L Organic Chemistry & Lab (5)
- CHEM 312, 312L Organic Chemistry & Lab (5)

Required Mathematics Courses
MATH 253  Calculus III  (4)
MATH 260  Differential Equations  (3)
MATH 360  Methods of Applied Mathematics  (3)
At least three hours of required Mathematics electives selected from:
MATH 265  Linear Algebra  (3)
MATH 361  Numerical Analysis  (4)
MATH 390  Abstract Algebra  (3)
MATH 450  Complex Variables  (3)
MATH 452  Advanced Calculus  (3)

Options:
Specific courses are required for the option of Physics with Teaching which is available under this degree. Students who want the option in Physics with Teaching should see their faculty advisers, both in Physics and Teacher Licensure.

Requirements may vary according to the concentration and option selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major, concentration and option chosen.
POLITICAL SCIENCE

School of Humanities and Social Sciences

Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)

   a. General Education  33
   b. B.A. Distinction (Foreign Language)  6
   c. Human Performance and Wellness  3

2. Requirements specific to this degree

   a. Required courses  48
      POLS 101  American Government  (3)
      POLS 236  State and Local Government  (3)
      POLS 261  Comparative Politics  (3)
      POLS 452  Political Theory: Classical/Medieval  (3)
      POLS 453  Political Theory: Modern  (3)
      POLS 490  Senior Seminar: Political Science  (3)
      SOCI 310  Methods of Social Research  (3)
      STAT 200  Probability and Statistics  (3)

18 credit hours selected as follows:

   American Government: 2 courses selected from:
      POLS 310  Development of U.S. Constitution  (3)
      POLS 325  The American Presidency  (3)
      POLS 424  The Legislative Process  (3)
      POLS 428  The American Court System  (3)

   American Politics: 2 courses selected from:
      POLS 342  Public Administration  (3)
      POLS 345  Political Parties and Interest Groups  (3)
      POLS 350  American Political Thought  (3)
      POLS 412  Constitutional Law  (3)

   World Politics: 2 courses selected from:
      POLS 365  European Government and Politics  (3)
      POLS 370  World Politics  (3)
      POLS 475  American/Foreign National Security  (3)

6 upper division credit hours selected from the following disciplines: Anthropology, Economics, History, Philosophy, Psychology, or Sociology.

b. Concentrations—see below
c. See faculty adviser for a program sheet detailing exact and complete requirements for the major.
d. Electives  33
   If desired, a student may use electives to satisfy requirements for a minor.

3. Special recommendations:

   Students are encouraged to complete an internship as part of the program. See "Course Description" section for a description of the internships offered.
CONCENTRATIONS
Bachelor of Arts
POLITICAL SCIENCE

Administration of Justice
Requirements may vary if a concentration is selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.
PSYCHOLOGY

School of Humanities and Social Sciences

Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on “Degree Requirements” in this catalog)

   a. General Education 33
   b. B.A. Distinction (Foreign Language) 6
   c. Human Performance and Wellness 3

2. Requirements specific to this degree

   a. Required courses 47
      PSYC 150 General Psychology (3)
PSCY 311 Quantitative Research or
SOCI 310 Methods of Social Research (3)
PSYC 312, 312L Experimental Psychology and Lab (4)
PSYC 314, 314L Psychology of Learning and Lab (4)
PSYC 320 Social Psychology (3)
PSYC 414 Systems and Theories of Psychology (3)
STAT 200 Probability and Statistics (3)

   24 upper division credit hours selected from the following: (24)
   ANTH 340 Ethnopsychology (3)
   PSYC 310 Child Psychology (3)
   PSYC 322 Motivation (3)
   PSYC 330 Psychology of Adolescents and Young Adults (3)
   PSYC 335 Psychology of Women (3)
   PSYC 340 Abnormal Psychology (3)
   PSYC 350 Psychology of Adulthood (3)
   PSYC 395 Independent Study (1-3)
   PSYC 396 Topics (1-3)
   PSYC 400 Psychological Testing (3)
   PSYC 412 Industrial and Organizational Psychology (3)
   PSYC 416 Memory and Cognition (3)
   PSYC 420 Personality (3)
   PSYC 422 Sensation and Perception (3)
   PSYC 430 Biopsychology (3)
   PSYC 495 Independent Study (1-3)
   PSYC 496 Topics (1-3)

   b. Concentrations—see below
   c. Electives 34

   If desired, a student may use electives to satisfy requirements for a minor.

3. Special requirements

   To pursue the Psychology major a student must have completed with at least a "C" grade the following:
   ENGL 111 and 112, English Composition (or the equivalent)
   MATH 110, College Mathematics, or MATH 113, College Algebra
   or have established mathematics competency
   PSYC 150, General Psychology
   STAT 200, Probability and Statistics
CONCENTRATIONS
Bachelor of Arts
PSYCHOLOGY

Counseling Psychology
Requirements may vary if a concentration is selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.

The courses required for the concentration in Counseling Psychology can be found in the course listings and descriptions in the back of this catalog under the heading Psychology—Counseling (PSYP).
SOCILOGY
School of Humanities and Social Sciences
Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on “Degree Requirements” in this catalog)
   a. General Education 33
   b. B.A. Distinction (Foreign Language) 6
   c. Human Performance and Wellness 3

2. Requirements specific to this degree
   a. Required courses
      ANTH 201 Cultural Anthropology 3
      SOCI 310 Methods of Social Research 3
      SOCO 260 General Sociology 3
      SOCO 264 Social Problems 3
      SOCO 400 History of Sociology 3
      SOCO 410 Contemporary Social Theory 3
      STAT 200 Probability and Statistics 3
      15 upper division hours selected from the following:
      SOCO 300 Political Sociology 3
      SOCO 310 Sociology of Religion 3
      SOCO 312 Collective Behavior and Popular Culture 3
      SOCO 314 Population Impact Problems and Urbanization 3
      SOCO 316 Social Stratification 3
      SOCO 330 Crime and Delinquency 3
      SOCO 350 Sociology of Death and Dying 3
      SOCO 360 Social Influences of Small Groups 3
      12 upper division hours selected from the following:
      ANTH 310 Ethnographic Methods 3
      HSER 301 Introduction to Human Services 3
      HSER 310 Sex Role Identification 3
      PSYC 320 Social Psychology 3
      Or any upper division course from the following disciplines:
      Economics, History, or Political Science
   b. Concentrations—see below
   c. Electives 33
      If desired, a student may use electives to satisfy requirements for a minor.

CONCENTRATIONS
Bachelor of Arts
SOCILOGY

Anthropology
Criminology
Human Services

Requirements may vary if a concentration is selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.
SOCIAL SCIENCE (Interdisciplinary Major)  
School of Humanities and Social Sciences

Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on “Degree Requirements” in this catalog)

   a. General Education  33
   b. B.A. Distinction (Foreign Language)  6
   c. Human Performance and Wellness  3

2. Requirements specific to this degree

   a. Required courses for all majors  33

      ANTH 201  Cultural Anthropology  (3)
      ECON 201  Principles of Macroeconomics, or
      ECON 202  Principles of Microeconomics  (3)
      GEOG 103  World Regional Geography  (3)
      HIST 101  Western Civilization  (3)
      HIST 102  Western Civilization  (3)
      HIST 131  United States History  (3)
      HIST 132  United States History  (3)
      POLS 101  American Government  (3)
      PSYC 150  General Psychology  (3)
      SOCO 260  General Sociology or
      SOCO 264  Social Problems  (3)

      International subject to be selected from:
      ANTH 330, ANTH 410, ECON 320, ECON 420, HIST 331,
      HIST 332, POLS 365, POLS 370  (3)

   b. Required Primary and Secondary Areas of Study  27

      (1) Primary and Secondary Requirements
          Complete the Primary Area and Secondary Area requirements by selecting two academic disciplines from the following: Anthropology, Economics, History, Political Science, Psychology, Sociology

      (2) Primary Area Requirements
          18 credit hours, 15 of which are upper division. Any courses offered under the selected discipline may be chosen.

      (3) Secondary Area Requirements
          9 upper division credit hours in the discipline selected. Any courses offered under the selected discipline may be chosen.

   c. See faculty adviser for a program sheet detailing exact and complete requirements for the major.

   d. Electives  21

      If desired, a student may use electives towards satisfying requirements for a minor.
ASSOCIATE DEGREES OFFERED
AT MESA STATE COLLEGE

Associate degrees offered at Mesa State College are the Associate of Arts (A.A.), Associate of Science (A.S.), and Associate of Applied Science (A.A.S.) degrees. As prescribed by the state, only one A.A. and one A.S. degree105(282,154),(910,924)(321,14),(900,928) may be earned by a student. The various emphases currently defined and available for the student to choose under the A.A. and the A.S. degrees are listed below. A.A.S. degrees are also listed, as well as a certificate of completion. Other associate degrees and certificates are available through UTEC and may be found in the last section of this catalog.

Associate of Arts (A.A.)
  Liberal Arts
    Business Administration
    Business Computer Information Systems
    Early Childhood Education
    English
    Fine Arts
    Art
    Music
    Theatre
    Humanities
    Office Administration
    Social Science

Associate of Science (A.S.)
  Biology
  Computer Science
  Engineering
  Geology
  Mathematics
  Physics

Environmental Restoration Engineering Technology (A.A.S.)
Legal Assistant (Certificate of Completion) Program requirements not listed; offered through Continuing Education - contact that office with questions.

Office Supervision and Management (A.A.S.)
  Accounting Technician
  Administrative Secretary
  Legal Secretary
  Medical Secretary

Radiologic Technology (A.A.S.)
Travel, Recreation, and Hospitality Management (A.A.S.)
ART
School of Humanities and Social Sciences

Associate of Arts

1. Associate of Arts graduation requirements (for further information, see section on “Degree Requirements” in this catalog).

Minimum semester hours required: 63-66

2. Course requirements specific to this degree

| ARTE 101 | Two-Dimensional Design | (3) |
| ARTE 102 | Three-Dimensional Design | (3) |
| ARTE 151 | Basic Drawing | (3) |
| ARTE 211, 212 | Art History | (6) |
| ARTE 2XX | 200 level studios | (6) |
| b. Electives | 9 |

Nine hours of electives chosen in consultation with art adviser.

c. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
BIOLOGY

School of Natural Science and Mathematics

Associate of Science

Emphasis Requirements:
Study directed toward the Associate of Science degree will serve as a basis for the Bachelor of Science degree with the same discipline and also for other programs at Mesa State College and at other colleges. Faculty advisers will assist students in planning programs to meet requirements. Programs of study in the sciences are very sequential and advanced planning for the transition from an associate program to a baccalaureate program is imperative for economy of time and effort.

Minimum semester hours required: 62

1. Associate of Science graduation requirements (for further information, see section on “Degree Requirements” in this catalog)

   a. General Education ........................................... 33
   b. Human Performance and Wellness ....................... 2

2. Course requirements specific to this degree

   a. Required courses
      BIOL 105, 105L Attributes of Living Systems and Laboratory (5)
      BIOL 106, 106L Principles of Animal Biology and Laboratory (5)
      BIOL 107, 107L Principles of Plant Biology and Laboratory (5)
      ......................................................... 15
   b. Additional courses in biology specialization should be selected in consultation with adviser ........................................... 12

3. Special requirements
   General Education and course requirements in discipline area plus electives chosen in consultation with the student’s adviser up to the minimum of 62 credit hours comprise the requirements for this emphasis.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
BUSINESS ADMINISTRATION
School of Professional Studies
Associate of Arts

1. Associate of Arts graduation requirements (for further information, see section on “Degree Requirements” in this catalog)

   a. General Education
      ENGL 111 and 112  (6)
      SPCH 102  (3)

      CSCI 242 Computer Architecture II ......................... (3)
      CSCI 250 Data Structures .................................... (3)

3. Special requirements and recommendations

   a. It is recommended that a strong background in mathematics (at least Calculus sequence) be completed simultaneously.
   b. General Education and course requirements in discipline area plus electives chosen in consultation with the student's adviser up to the minimum of 65 credit hours comprise the requirements for this emphasis.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
## EARLY CHILDHOOD EDUCATION

School of Professional Studies

### Associate of Arts

This curriculum will meet the needs of those presently employed in nursery schools or daycare centers and/or those contemplating work in early childhood education. Students will increase their understanding of the education and care of children. Successful students may find employment in private and cooperative daycare centers, nursery schools, children's homes, hospitals, etc. Students will have laboratory experience in the campus Early Childhood Education Center and other similar community facilities.

1. Associate of Arts graduation requirements (for further information, see section on "Degree Requirements" in this catalog)

<table>
<thead>
<tr>
<th>Cr. Hrs.</th>
</tr>
</thead>
<tbody>
<tr>
<td>34</td>

</tbody>
</table>

   a. General Education

      The following courses satisfy those requirements and meet the needs of the Early Childhood Education program. Where no course is specified, students may select from the list of Associate of Arts general education requirements.

      - ENGL 111 and 112 (6)
      - SPCH 102 (3)
      - Mathematics (MATH 113 recommended; only courses listed under general education for the Associate of Arts degree satisfy the requirement) (3-4)
      - Science with lab (4)
      - Social and Behavioral Sciences (3)
      - Humanities (9)
      - SOCO 260 or SOCO 264 or ANTH 201 (3)

   b. Human Performance and Wellness

      2

2. Course requirements specific to this degree

   a. Required courses

      | Cr. Hrs. |
      |----------|
      | 34       |

      - ARTE 210 Early Childhood Art (2)
      - BIOL 203 Human Nutrition (3)
      - EDEC 110 Infant and Toddler Development and Curriculum (2)
      - EDEC 211 Curriculum in Early Education (3)
      - EDEC 220 Foundations and Legal Aspects of Early Education (3)
      - EDEC 299 Student Teaching in EE (5)
      - ENGL 240 Children's Literature (3)
      - HPWA 256 Creative Play Activities in Dance (2)
      - MUSA 241 Music and Methods in Early Childhood Education (2)
      - PSYC 233 Human Growth and Development (3)
      - THEA 213 Creative Play Activities—Drama (2)

3. Special requirements and recommendations

   a. First Aid may be taken through the Red Cross or Mesa State College

   b. Placement in the program depends on individual maturity and professional growth. A physical exam is required to enter. General education requirements are standard and listed under Graduation Requirements in this catalog.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
ENGINEERING

School of Natural Science and Mathematics

Associate of Science

Study directed toward the Associate of Science degree will serve as a basis for the Bachelor of Science degree with the same discipline and also for other programs at Mesa State College and at other colleges. Faculty advisers will assist students in planning programs to meet requirements. Programs of study in the sciences are very sequential and advanced planning for the transition from an associate program to a baccalaureate program is imperative for economy of time and effort.

Minimum semester hours required: 64

1. Associate of Science graduation requirements (for further information, see section on "Degree Requirements" in this catalog)

   a. General Education
      b. Human Performance and Wellness

   2. Course requirements specific to this degree

      a. Required courses

         ENGR 111 Engineering Graphics and Design
         ENGR 240 Statics
         ENGR 241 Dynamics
         ENGR 251 Circuit Analysis I
         ENGR 251L Circuit Analysis I Lab

   b. Additional engineering courses coordinated with the branch of engineering to be studied. Students should consult their adviser for transfer agreements.

3. Special requirements and recommendations

   General Education and course requirements in discipline area plus electives chosen in consultation with the student's adviser up to the minimum of 64 credit hours comprise the requirements for this emphasis.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

b. Human Performance and Wellness ....................... 2

2. Course requirements specific to this degree 27

a. Twenty-seven credits must be earned in a balanced program drawn from at least three of the following areas, but with not more than 12 credits from any single area (other allied or supporting areas may also be drawn upon):
   Literature, Philosophy, Foreign Languages, Mass Communications, Speech, The Arts, and History of the Arts.

b. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
MATHEMATICS  
School of Natural Science and Mathematics  

Associate of Science  

Study directed toward the Associate of Science degree will serve as a basis for the Bachelor of Science degree with the same discipline and also for other programs at Mesa State College and at other colleges. Faculty advisers will assist students in planning programs to meet requirements. Programs of study in the sciences are very sequential and advanced planning for the transition from an associate program to a baccalaureate program is imperative for economy of time and effort.  

Minimum semester hours required: 64  
1. Associate of Science graduation requirements (for further information, see section on “Degree Requirements” in this catalog)  
   a. General Education  
   b. Human Performance and Wellness  
   
2. Course requirements specific to this degree  
   a. Required courses  
      MATH 151 Calculus I  
      MATH 152 Calculus II  
      MATH 253 Calculus III  
      MATH 250 Differential Equations  
      MATH 255 Linear Algebra  
   
3. Electives  
4. Special requirements and recommendations  
   a. Recommendation  
      CSCI 120 and STAT 200 are highly recommended to be included.  
   b. Requirements  
      General Education and course requirements in discipline area plus electives  
      chosen in consultation with the student’s adviser up to the minimum of 64 credit  
      hours comprise the requirements for this emphasis.  
5. See faculty adviser for a program sheet detailing exact and complete requirements  
   for this degree.  
6. Additional expenses  
   TI-82 or TI-85 (preferred) or equivalent calculator is recommended or required for  
   mathematics courses. Cost is approximately $70.00-125.00.
MUSIC

School of Humanities and Social Sciences

Associate of Arts

1. Associate of Arts graduation requirements (for further information, see section "Degree Requirements" in this catalog).

Minimum requirements: 63

a. General Education
   Cr. Hrs. 34
b. Human Performance and Wellness
   2

2. Course requirements specific to this degree

a. Required courses

   MUSA 114*, 115  Theory I and II  (6)
   MUSA 116, 117  Ear Training and Sightsinging I & II  (4)
   MUSA 130  Class Piano I
   or
   MUSA 137  Class Voice I  (2)
   MUSA 220  Music Appreciation  (3)
   MUSP XXX  Vocal or Instrumental Ensembles  (4 total)

   *NOTE: MUSA 110 (Standard Notation) must be taken if the student is not
   ready for 114.

b. Electives:

   Eight hours of approved electives must be chosen in consultation with
   the adviser.

2. Special requirements and recommendations

a. Application must be made for admission into the program. Admissions are limited. Students are selected on the basis of academic preparation, ACT/SAT scores, aptitude for service within the field, and the number of positions available in the program.

b. BIOL 141 and BIOL 141L are required courses that must be completed prior to admission into Radiologic Technology Program. Credit hours earned are not applied toward the degree requirements. A program applicant will have completed these prerequisite courses (or a program approved transfer equivalent) or may be enrolled in these courses when making application. If program admission is granted, it is contingent upon completion of BIOL 141 and BIOL 141L prior to beginning the program. Failure to complete this prerequisite course with a 2.0 or higher will terminate acceptance into the program.

c. RADT classes must be completed in sequence and may only be taken after acceptance into the program. General education requirements may be taken previously or simultaneously with program courses.

d. BIOL 141, BIOL 141L, and CSCI 100 must have been completed no more than 5 years prior to admission into the program. Any of the above courses not completed within the preceding 5 year period, must be reattempted or competency proven by a challenge examination. Final approval of transfer and challenge examination courses is at the discretion of the Department of Nursing and Radiologic Sciences.

e. In order to continue in the program, students must have a 2.0 ("C") on a 4.0 scale or higher for all courses required for completion of the Radiologic Technology Program.

Recommendations:

a. High school coursework in biology, physics, chemistry, algebra, geometry, or their college equivalent is recommended.

b. A pre-admission interview with a Radiologic Technology adviser is recommended.

3. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
SOCIAL SCIENCE (GENERAL)

School of Humanities and Social Sciences

Associate of Arts

Study directed toward the Associate of Arts degree will serve as a basis for the Bachelor of Arts in Social and Behavioral Sciences and also for programs offered in other schools at Mesa State College. Students should consult faculty advisers to plan specific programs that will prepare them for further study in disciplines of their choice.

Minimum semester hours required: 62

1. Associate of Arts graduation requirements (for further information, see section on "Degree Requirements" in this catalog)

<table>

   ECON 202 Principles of Microeconomics (3)

3. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
TEACHER EDUCATION
AND
EDUCATOR LICENSURE

Licensure to teach in public schools in the state of Colorado requires that a baccalaureate degree be earned and, additionally, that licensure be obtained. At Mesa State College, a student may prepare for licensure by earning a baccalaureate degree from among the discipline areas specified below for elementary, secondary, or K-12 licensure. In addition, a series of education courses must be completed, along with certain requirements of the state and the Mesa State College Teacher Education and Licensure Program. Students seeking licensure must:

1. Contact the secretary in the Teacher Education and Licensure Office, Albers Hall, to obtain an education information packet and to arrange for an initial interview with an education adviser. During the initial interview students will receive an overview program which must be signed by all advisers and students.

Teacher licensure is a separate process from the degree, although both may be pursued at the same time. The assistance of an adviser in the Teacher Education and Licensure Program is vital and the student needs to contact the department the first semester in his or her degree work. Following semesters require frequent visits to an education adviser to assure that requirements are being met, and/or to be registered for education courses.

2. Visit an academic adviser and obtain a program sheet for their academic baccalaureate degree from the appropriate School or department adviser. (Examples: B.S. in Mathematics with Elementary Teacher Licensure or B.A. in English with Teacher Licensure.) This program sheet should be obtained before the student begins work on his or her degree. The requirements on the program sheet must be met for the degree to be granted.

Information concerning requirements and courses of study are based upon current requirements of the State of Colorado and Mesa State College. Requirements are subject to frequent modification, therefore, students are advised to consistently maintain contact with the Teacher Education and Licensure Office.

ELEMENTARY EDUCATOR LICENSURE PROGRAM

Colorado Teacher Licensure and Elementary Education Endorsement (Kindergarten through Sixth Grade)

Following are the four components of the Mesa State College elementary teacher licensure program:

I. Professional Sequence of Coursework for Elementary Teacher Licensure

Total Hours Required for Teacher Licensure 42
II. Academic Disciplines Approved for Elementary Teacher Licensure

- English
- Liberal Arts
- Mathematics
- Psychology
- Science
- Social Science

Refer to specific program sheets and consult with the appropriate major adviser and with the Teacher Licensure Department.

III. Requirements Specific to Elementary Teacher Licensure

All students are required to complete the general education requirements of Mesa State College. Following are specific courses necessary to satisfy requirements for teacher licensure:

- ENGL 111 English Composition
- ENGL 112 English Composition
- MATH 105 Elements of Mathematics I
- MATH 205 Elements of Mathematics II
- HPWA 260 School and Personal Health
- PSYC 233 Human Growth and Development
- SPCH 102 Speechmaking

IV. Additional Requirements for Teacher Licensure

Eligibility requirements for entry and formal admission to the Mesa State College Teacher Licensure Program are prescribed by the Colorado Department of Education and Mesa State College. Such requirements are generic in that all students seeking licensure and endorsement must complete them regardless of major, program area or chosen specialty. Examples of such requirements include a minimum grade point for English Composition and Speech, taking and passing the PLACE assessments experience, with youth, and a letter of reference. Each interested student should consult with advisers in both Teacher Licensure and his or her major area.
SECONDARY EDUCATOR LICENSURE PROGRAM

Colorado Teacher Licensure at the Secondary Level (Grades Seven through Twelve)

Students may seek licensure at the secondary level in the following endorsement areas: English, mathematics, science, and social studies. Consultation with advisers in both Teacher Licensure and in the major area is required to establish a comprehensive program.

**ELECTIVES AND/OR MINORS**

The unrestricted elective hours within the degree are selected by the student from the academic courses at or above the 100 level. These elective hours may be used to fulfill or partially fulfill requirements for a minor. Minors consist of 15-24 semester hours.

There may be prerequisites for the courses required for the minor which will increase the total number of credit hours for a student who has not already taken those prerequisites. It is required that a minor, if selected, be outside the major so as to encourage a secondary focus to broaden the scope of the educational experience.

A course taken to satisfy either a general education requirement or a major requirement cannot be counted toward the minimum 15 credit hour requirement for a minor. In such cases, the student, in consultation with the department offering the minor, must choose a course substitution within the minor discipline. Mesa State College shall allow double counting of courses in achieving minor(s). The number of minors a student may receive at Mesa State College shall not exceed two.

At least 33 percent of the credit hours required for the minor must be in courses numbered 300 or above.

Program sheets detailing requirements for the approved minors at Mesa State College are available from the office of the dean of the school in which the minor is offered.

Minors currently approved, along with the school in which they are offered, are:

COURSE DESCRIPTIONS

The course descriptions in this catalog indicate the content of the course and the prerequisites when applicable. Courses are listed in alphabetical order, by their four-letter prefix code, followed by a number and title. The number in parentheses at the end of the course title indicates the credit granted, in terms of semester hours, for each course. Generally, the number of semester hours is the number of hours a class will meet each week. Exceptions are noted in individual course descriptions and, in most cases, prerequisites and/or corequisites stated. In the detailed course descriptions, the course number after the prefix indicates the college year in which the courses should ordinarily be taken.

100-199 ........................................ Freshman year
200-299 ........................................ Sophomore year
300-399 ........................................ Junior year
400-499 ........................................ Senior year

Courses numbered 001-099 are preparatory in nature, not intended for transfer purposes, and may not be used to fulfill baccalaureate, associate of arts or associate of science degree requirements or electives. Preparatory courses may not be used to meet elective requirements in Associate of Applied Science or Certificate programs.

Many courses in the School of Natural Sciences and Mathematics include laboratory work. The class and laboratory portions of them are technically treated as different courses with distinctive numbers and individual grades. A student is usually required to be concurrently enrolled in both class and laboratory. Credit toward graduation cannot be earned for a class or laboratory unless credit is earned in both.

Courses identified as "Independent Study" are those beyond the scope of the required curriculum. General restrictions and regulations may be found under the Program section of this catalog (see "Independent Study" in the index). Specific regulations apply in certain disciplines, as well. Arrangements and permission must be obtained from the appropriate instructor and dean well in advance.

"Topics" courses are offered from time to time and contain material of special interest within a specific discipline not considered elsewhere in the curriculum. Prerequisites vary with course materials, and enrollment requires consent of the instructor.

Some courses/programs have additional expenses (i.e., calculator, medical equipment, etc.) above the standard cost of tuition, fees, and textbooks. Courses or programs with additional expenses will show the approximate cost in the program description or above the course description. Courses/programs with additional expenses less than $50.00 will not be included.

Mesa State College reserves the right to withdraw any program or course which is not justified due to lack of enrollment or availability of instructors. Other courses may be added if there is sufficient demand. In some programs, certain courses may be offered on an alternate year basis or as determined by demand.

Discipline Index

Subjects (disciplines) offered by Mesa State College are listed below alphabetically followed by the current course prefix, the page number of the individual course descriptions, and the school holding academic responsibility for the subject.

ACCOUNTING

School of Professional Studies

ACCT 201  Principles of Financial Accounting  (3)
A basic course that introduces the concepts of bookkeeping, generally accepted accounting principles, and financial statements. (Fall/Spring)

ACCT 202  Principles of Managerial Accounting  (3)
A basic course that introduces the use of accounting information in managerial decision making, control, and planning. Prerequisite: ACCT 201. (Fall/Spring)

ACCT 205  Ten-Key Operations  (1)
Skill development essential to accountants in the operation of the ten-key electric calculator with emphasis on both speed and accuracy. Prerequisite: ACCT 201. (Fall/Spring)

ACCT 311  Advanced Managerial Accounting  (3)
An advanced course primarily for non-accounting majors that provides in-depth coverage on the application of accounting information in decision making, organization, control, and planning. Prerequisite: ACCT 202 and CISB 105. (Spring)

ACCT 321  Intermediate Accounting I  (4)
Development of a foundational understanding of Generally Accepted Accounting Principles and their application to external financial statements. Prerequisite: ACCT 202. (Fall)

ACCT 322  Intermediate Accounting II  (4)
Continuation of ACCT 321. Prerequisite: ACCT 321. (Spring)

ACCT 331  Cost Accounting I  (3)
Costs and their relationship to planning, controlling, inventory valuation, and decision making. Prerequisite: ACCT 202, CISB 105. (Fall)

ACCT 332  Cost Accounting II  (3)
Continuation of ACCT 331. Prerequisite: ACCT 331. (Spring)

ACCT 395  Independent Study  (1-3)

ACCT 396  Topics  (1-3)

ACCT 401  Governmental Accounting  (3)
Accounting principles as they apply to governmental units and non-profit operations. Prerequisite: ACCT 322 or consent of instructor. (Spring)

ACCT 402  Advanced Accounting  (3)
The course provides coverage of consolidated financial statements, partnership accounting, bankruptcy, estates, trusts, and international operations. Prerequisite: ACCT 322. (Fall)

ACCT 411  Auditing I  (3)
This course provides coverage of the scope and purposes of the work of a certified public accountant, including study of the theory of auditing, professional ethics, legal liability of the auditor, and internal control. Prerequisites: ACCT 322, STAT 214, and senior standing. (Fall)

ACCT 412  Auditing II  (3)
Continuation of ACCT 411. This course provides coverage of the application of auditing theory to financial statements, including examination of the audit programs, procedures, and work papers used in each phase of an audit. Prerequisite: ACCT 411. (Spring)
ACCT 421 CPA Review and Professional Preparation I (1)
Professional resume preparation and job interviewing skills through mock interviews performed by community professionals utilizing the media studio to videotape and critique the interview and resume. Prerequisite: senior standing. (Fall)

ACCT 422 CPA Review and Professional Preparation II (2)
Concentrated review of accounting subjects in preparation for the CPA exam. Utilizing self-study techniques. Prerequisite: ACCT 322 and 332. (Spring)

ACCT 441 Individual Income Tax (5)
Individual Income Tax designed for BS in accounting degree candidates. Covers the Federal Income Tax Law in-depth as it relates to individual taxpayers. Introduction to various tax reference resources that deal with the subject. Limited enrollment. Prerequisite: ACCT 402, senior standing or consent of instructor. (Fall)

ACCT 442 Advanced Tax and Tax Research (5)
Federal Income Tax Law for corporations, partnerships, estates, trusts, and gifts. In-depth experience with tax research resources, research methodologies and related projects. The student will be required to participate in the Volunteer Income Tax Assistance (VITA) program in order to acquire practical experience in communication with taxpayers and preparation of tax returns. Prerequisite: ACCT 441. (Spring)

ACCT 495 Independent Study (1-3)

ACCT 496 Topics (1-3)

ADMINISTRATION OF JUSTICE
School of Humanities and Social Sciences

ADJU 201 Introduction to the Administration of Justice (3)
Philosophy, history and development of the American criminal justice system. Survey of the role of law enforcement agencies, the courts, jails, prisons, probation and parole in both juvenile and adult systems. Prerequisites: sophomore standing. (Fall)

ADJU 301 Justice Procedures (3)
Analysis of landmark U.S. Supreme Court cases and their impact on operating procedures of law enforcement, the courts, jails, prisons, and allied agencies. Prerequisites: ADJU 201 and junior standing, and/or consent of instructor. (Spring)

ADJU 320 Treatment of Offenders (3)
The philosophy, history and development of treatment approaches in the criminal justice system including community correctional, probation, institutional and aftercare programs. Prerequisite: ADJU 201, junior standing and/or consent of instructor. (Fall)

ADJU 395 Independent Study (1-3)

ADJU 396 Topics (1-3)

ADJU 420 Criminal Law (3)
Philosophy, history and current state of criminal law with emphasis on analysis and application of Colorado Statutes and the American Law Institute Model Penal Code. Prerequisite: ADJU 201, and junior standing. (Spring)

ADJU 424 Probation and Parole (3)
Evaluation of theories of crime and delinquency and their application to treatment approaches utilized in probation and parole. Prerequisites: ADJU 201 and junior standing.
ADJU 495 Independent Study (1-3)
ADJU 496 Topics (1-3)
ADJU 499 Internship (1-4)
Provides the student with opportunities to apply theoretical principles in a structured organizational or work environment. Student must have prior instructor and site approval at least one semester in advance of the internship. The student must complete 45 clock hours for each one hour of credit. Prerequisites: senior status in Criminal Justice, GPA in Criminal Justice of 3.0, overall GPA of 2.75 and consent of instructor. (Fall)

ANTHROPOLOGY

ANTH 201 Cultural Anthropology (3)
Basic concepts of cultural anthropology including the theoretical perspectives, social and political institutions, ceremonies, and linguistics. Cultural change and cultural destruction are also included. (Fall/Spring)

ANTH 222 World Prehistory (3)
Basic theory and method will be described. Prehistory includes human origins, Stone Age hunters, domestication of animals, the rise of agriculture and the emergence of civilizations. (Fall)

ANTH 301 The North American Indian (3)
Cultural systems of the North American Indian including ideology, revitalization political history, and contemporary conditions. Case studies of selected groups will be emphasized. Prerequisites: ANTH 201. (Fall)

ANTH 310 Ethnographic Methods (3)
Theoretical, descriptive, and instructive aspects of qualitative social research including theoretical perspectives, field journalism, participant observation, interviewing, ethics, and research design. Students will conduct and discuss brief fieldwork in the community. Prerequisite: ANTH 201. (Spring)

ANTH 330 Religion and Culture (3)
Comparison of organized beliefs in the spiritual world and their relationship to the cultures in which they are practiced. Several theoretical perspectives will be emphasized. Prerequisite: ANTH 201. (Alternate Spring)

ANTH 340 Ethnopsychology (3)
Study of indigenous theories about emotions and cognition and a functionalist analysis relating traditional healing methods to the social and psychological aspects of illness. Prerequisites: ANTH 201 and PSYC 150. (Alternate Fall)

ANTH 350 Regional Study (3)
Specific geographical region will be described. History, politics, economics, ideologies, cultural traditions, and contemporary conditions will be discussed. Prerequisites: ANTH 201. (Alternate Fall)

ANTH 360 Gender and Culture (3)
Study of culturally ascribed roles based on sex, their symbolic basis, and the functionalist and conflict theory explanations for the forces giving rise to them. Prerequisites: ANTH 201. (Alternate Spring)
ANTH 370  Applied Anthropology  (3)
Study of the application of anthropological principles in a holistic approach to technological development in other cultures. Topics include sustainable development, cultural preservation, advocacy, ethical and epistemological issues. Prerequisite: ANTH 201, 310. (Alternate Fall)

ANTH 380  Language and Culture  (3)
Social, psychological, and epistemological aspects of language. Critical assessment of the use of language in writing about anthropology. Prerequisite: ANTH 201. (Alternate Fall)

ANTH 395  Independent Study  (1-3)

ANTH 396  Topics  (1-3)

ANTH 405  Global Systems  (3)
Analyses from several perspectives of the effect of global systems on cultural change, particularly in non-state cultures. It emphasizes the significance of economy, polity, and ideology in both the global system and the non-state societies. Prerequisite: ANTH 201. (Spring)

ANTH 410  World Cultures  (3)
Study of band, tribal, chiefdom, and state societies from a variety of theoretical perspectives, also includes the study of contemporary cultural change in non-state societies. Prerequisite: ANTH 201. (Alternate Spring)

ANTH 495  Independent Study  (1-3)

ANTH 496  Topics  (1-3)

ART

School of Humanities and Social Sciences

The Mesa State College Art Department maintains and periodically displays a collection of student art work and reserves the right to retain one piece of work from each student enrolled in a studio class.

ARTE 101  Two Dimensional Design  (3)
The principles of form and function in two dimensional design with emphasis on color theory and use. (Fee charged for some of the materials used.) Two hours of lecture and two hours of studio per week. (Fall/Spring)

ARTE 102  Three Dimensional Design  (3)
The principles of form and function in sculpture and other three dimensional design areas. (Fee charged for some of the materials used.) Two hours of lecture and two hours of studio per week. (Fall/Spring)

ARTE 115  Art Appreciation  (3)
Some of the hows, whys, and whos of painting, sculpture, and functional design in selected periods and places. (Fall/Spring)

ARTE 121  Basic Photography  (1)
Principles and techniques of photography, including the functions of camera parts and accessories. Two hours lecture per week; seven and one-half weeks. Prerequisite: consent of instructor. (Fall)

ARTE 122  Basic Darkroom Techniques  (1)
Techniques and skills for darkroom procedures as related to black and white film processing and print making, including enlarging. Prerequisite: ARTE 121 and consent of instructor. (Fall)
ART SAMPLER COURSES
These courses offer brief (sometimes on modular scheduling) introductions to one art medium. (2 hours studio, except ARTE 193).

Individual experimentation and exploration of the media is encouraged within assignments to develop analytic skills and the capacity for creative growth and personal experiment. Prerequisites: ARTE 102, 211, 212, 261 and at least 3 hours of Process and Media at the 200 level, or consent of instructor. One hour lecture and four-hour studio per week. (Spring)</td>
<td></td>
</tr>
</tbody>
</table>
ADVANCED STUDIOS
Specific media to be studied in a structured class, or a general studio including a variety of media and individually contracted work. One hour of lecture and four hours of studio per week. Prerequisites: ARTE 101, 102, 151, 211, 212, and at least three hours of the same Processes and Media at the 200 level.

ARTE 321  Metalsmithing
Prerequisites: ARTE 151, 221. (On demand)  (3)

ARTE 341  Pottery Production
Prerequisites: ARTE 241 or 102 and 242. (Fall/Spring)  (3)

ARTE 342  Intermediate Ceramics
Prerequisites: ARTE 241, 242. (Fall/Spring)  (3)

ARTE 351  Drawing
Prerequisites: ARTE 101, 251  (3)

ARTE 371  Printmaking
Prerequisites: ARTE 271. (Fall)  (3)

ARTE 372  Printmaking
Prerequisites: ARTE 272. (Spring)  (3)

ARTE 381  Sculpture - Modeling and Moldmaking
Prerequisites: ARTE 281. (On demand)  (3)

ARTE 382  Sculpture - Foundry
Prerequisites: ARTE 282. (Fall)  (3)

ARTE 383  Sculpture - Carving and Construction
Prerequisites: ARTE 283.  (3)

ARTE 384  Ceramic Sculpture
Prerequisites: ARTE 102, 241 (does not require prerequisites listed above). (Fall)  (3)

ARTE 391, 392  Painting
Prerequisites: ARTE 291. (Fall/Spring)  (3, 3)

ARTE 395  Independent Study
Prerequisites: ARTE 291. (Fall/Spring)  (1-3)

ARTE 396  Topics
Prerequisites: ARTE 291. (Fall/Spring)  (1-3)

ARTE 410  Elementary Art Education Methods
Theory, methods and materials for teaching art to children, K-5. (Fall)  (2)

ARTE 412  Secondary Art Education Methods
Theory, methods, and materials for teaching art in middle schools and senior high schools. Prerequisite: consent of instructor. (Fall)  (2)

ADVANCED STUDIOS
Specialized studio problems contracted by senior-level students preparing for graduate schools, culminating in a faculty examination of each student's portfolio and an exhibition of the student's work. Prerequisite: at least three hours in the same Advanced Studios at the 300 level. (6 hours studio)

ARTE 421  Metalsmithing
Prerequisite: ARTE 321. (On demand)  (3)

ARTE 441  Glaze Calculation
Prerequisite: ARTE 341. (On demand)  (3)
ARTE 442 Kiln Construction
Prerequisites: ARTE 341 or 342. (On demand)
(3)

ARTE 451 Drawing
Prerequisites: ARTE 351 or 352.
(3)

ARTE 471 Printmaking
Prerequisites: ARTE 371. (Fall)
(3)

ARTE 472 Printmaking
Prerequisites: ARTE 372. (Spring)
(3)

ARTE 481 Sculpture - Modeling and Moldmaking
Prerequisites: ARTE 381. (On demand)
(3)

ARTE 482 Sculpture - Foundry
Prerequisites: ARTE 382. (Fall)
(3)

ARTE 483 Sculpture - Carving and Construction
Prerequisites: ARTE 383. (Fall/Spring)
(3)

ARTE 484 Ceramic Sculpture
ARTE 384 (One hour lecture, four hours studio per week)
(3)

ARTE 491, 492 Painting
Prerequisites: ARTE 315 or 316, and 391, and 392. (Fall/Spring)
(3,3)

ARTE 455 Visual Art Workshop
Advanced study of a selected art medium. Thirty hours of studio work. Prerequisite: permission of instructor. (Summer, on demand)
(1)

ARTE 461 Advanced Computer Art - Video Production
Concepts explored in previous classes will be more specifically focused on. The student will be producing a short animated video from computer generated images expressing this chosen concept. This will enable the student to participate in an internship with local TV stations. Prerequisites: ARTE 251, 261, 315, 316, and at least 6 hours of upper division studio, or consent of instructor. One hour lecture and four hours laboratory per week. (Spring)
(3)

ARTE 494 Senior Seminar and Portfolio
Capstone course with topics related to art criticism, history, aesthetics and current art developments. Preparation of portfolios and a professional resume. Students are required to take a comprehensive assessment to be compared with the test they took in basic drawing. Prerequisite: senior standing or consent of instructor. (Spring)
(3)

ARTE 495 Independent Study
(1-3)

ARTE 496 Topics
(1-3)

BIOLOGY

School of Natural Sciences and Mathematics

BIOL 101, 102 General Biology
(3,3)

BIOL 101L, 102L General Biology Laboratory
(1,1)

Ecology, pollution, drugs, sex education, disease problems, body structure and function, phylum relationships, plant growth and development. A student with a biology major will not receive graduation or general education credit for any of these courses. Two lectures and one two-hour laboratory per week. (Fall/Spring)
BIOL 105 Attributes of Living Systems
BIOL 105L Attributes of Living Systems Laboratory
Cell structure and function, cell energetics and biochemistry genetics, ecology and evolution. Four lectures and one two-hour laboratory per week. High school chemistry recommended. (Fall/Spring)

BIOL 106 Principles of Animal Biology
BIOL 106L Principles of Animal Biology Laboratory
Broad morphological, physiological, and ecological features of principal phyla of animals and relationships between them. Three lectures and two two-hour laboratories per week. Prerequisite: BIOL 105 or consent of instructor. (Spring)

BIOL 107 Principles of Plant Biology
BIOL 107L Principles of Plant Biology Laboratory
Organisms traditionally assigned to the plant kingdom: bacteria, fungi, green protists, algae, and true plants. Morphology, reproductive biology, anatomy, and phylogeny of each group. Three lectures and two two-hour laboratories per week. Prerequisite: BIOL 105 or consent of instructor. (Fall)

BIOL 113 Outdoor Survival
Involves vigorous physical activity relating to survival in diverse situations including wilderness survival and survival of biological, nuclear, and chemical warfare. Excellent attendance is required. Three one-hour lectures per week, three overnight weekend field trips and several Saturday trips. (Fall)

BIOL 141 Human Anatomy and Physiology
BIOL 141L Human Anatomy and Physiology Laboratory
Introduction to form and function of the human body. For students in human performance and wellness, nursing, paramedical students, and biology majors. Three lectures and two two-hour laboratories per week. (Fall)

BIOL 202 Cellular Biology
BIOL 202L Cellular Biology Laboratory
Form, function, and bioenergetics of the cell. Three lectures and one two-hour laboratory per week. Prerequisites: BIOL 106, 107, or consent of instructor. (Spring)

BIOL 203 Human Nutrition
Introduction to the science of the effects of food on the body and the body's need for and utilization of essential nutrients. (Fall/Spring)

BIOL 211 Ecosystem Biology
BIOL 211L Ecosystem Biology Laboratory
Ecological studies utilizing the concepts of population biology: energetics, dynamics, distribution, and sociology. Overnight and/or weekend field trips may be required. Four lectures and one three-hour laboratory per week. (Fall)

BIOL 221 Plant Identification
BIOL 221L Plant Identification Laboratory
Identification of flowering plants through the use of regional floras and recognition of common plant families. Plant collection and herbarium techniques. Two lectures and two two-hour laboratories per week. Prerequisites: BIOL 107. (Fall)

BIOL 231 Invertebrate Zoology
BIOL 231L Invertebrate Zoology Laboratory
Invertebrate phyla structure, physiology, classification, and life history. Work on an independent project is required. Three lectures and one two-hour laboratory per week. (Alternate Spring)

BIOL 241 Pathophysiology
Function of the human body with emphasis on interpretation of those functions in relation to disease processes. Prerequisite: BIOL 141 or 341. (Fall)

</table>

Microorganisms, especially the procaryotic bacteria; culture techniques, biochemical identification, and infectious human diseases. Three lectures and two two-hour laboratories per week. (Spring)

Principles of genetics at the organismal, cellular, and molecular level dealing with the genetics of prokaryotic and eukaryotic organisms and viruses. Three lectures and two two-hour laboratories per week. Prerequisites: BIOL 105 and MATH 113; BIOL 202 recommended. (Fall)

Embryonic growth and development of plants and animals. Also errors in normal development, cancer, aging, and related topics. Three lectures and two two-hour laboratories per week. (Alternate Spring).

Characteristic patterns of communicable disease occurrence as related to individuals, geographic location, and time; factors affecting disease occurrence: the nature of viral statistics, sampling procedures, and study design. An independent project is required. (Alternate Fall)

Systematic botany encompassing principles of classification, nomenclature, and evaluation of current classifications of angiosperms. Prerequisites: BIOL 221. (Alternate Spring)

A study of the grass family and grass-like plants (sedges and rushes) dealing with the evolution, classification, and identification of these plants. Two lectures and two two-hour laboratories per week. Prerequisite: BIOL 107 or consent of instructor. (Alternate Spring)

Insect taxonomy, structure and function, relationships, ecology, physiology, and reproduction with emphasis placed on the role of insects in the biosphere. Insect collection required. Three lectures and one two-hour laboratory per week. Prerequisites: BIOL 106. (Alternate Fall)

Function of the circulatory, nervous, respiratory, digestive, urinary, reproductive, and endocrine systems of the human body. Three lectures and one two-hour laboratory per week. Prerequisite: BIOL 106 or consent of instructor. (Alternate Fall)

Microscopic study of tissues and organs. Two lectures and two two-hour laboratories per week. Prerequisites: BIOL 106 or BIOL 107 and consent of instructor. (Alternate Fall)

Immune system of animals with emphasis on human immune response. Includes the immune organs and both cellular and humoral responses. An independent research project is required. Three lectures and one two-hour laboratory per week. (Alternate Spring)

Independent research beyond the scope of the published curriculum. Designed for advanced sophomore and junior level students to participate in research activities under the direction of a specific faculty member. Prerequisites: sophomore or junior standing, or consent of instructor. (Fall/Spring)
BIOL 388  Teaching Science in the Secondary School  
Methods of teaching and construction of lessons and curricula. To be taken not more than two semesters before student teaching. Lesson presentation and numerous papers required. Required for secondary certification. (Spring)

BIOL 395  Independent Study  
(1-3)

BIOL 396  Topics  
(1-3)

BIOL 403  Evolution  
(3)
Organismal and molecular evolution emphasizing its importance as the unifying theory in biology. Evolution of natural selection on genetic structure of populations. Prerequisites: BIOL 106, 107, 301, and senior standing. (Spring on demand)

BIOL 411  Mammalogy  
(2)

BIOL 411L  Mammalogy Laboratory  
(1)
Classification, life histories, and ecology of mammals. Overnight and/or weekend field trips may be required. Two lectures and one two-hour laboratory or three-hour field trip per week. Prerequisites: upper division standing or consent of instructor. (Alternate Fall)

BIOL 412  Ornithology  
(3)

BIOL 412L  Ornithology Laboratory  
(1)
Classification and life history of birds, including field identification. Overnight and/or weekend field trips may be required. Three lectures and one two-hour laboratory or three-hour field trip per week. Prerequisite: upper division standing or permission of instructor. (Alternate Spring)

BIOL 413  Herpetology  
(3)

BIOL 413L  Herpetology  
(1)
Classification, evolution, morphology and ecology of amphibians and reptiles. Overnight or weekend field trips may be required. Three lectures and one two-hour laboratory per week. Prerequisites: upper division standing or consent of instructor. (Alternate Spring)

BIOL 414  Aquatic Biology  
(3)

BIOL 414L  Aquatic Biology Laboratory  
(1)
Classification, life history, and ecology of aquatic animals. Overnight and/or weekend field trips may be required. Three lectures and one two-hour laboratory or three-hour field trip per week. Prerequisite: upper division standing or permission of instructor. (Alternate Spring)

BIOL 415  Tropical Ecosystems  
(2)
Coral reef, rain forest, and arid desert ecosystems on Carribean islands. Ten two-hour lectures, ten two-hour laboratories, and ten six-hour field trips conducted at the marine station and private colony of the University of Puerto Rico. Prerequisites: one year of biological sciences and consent of instructor. (Semester break on demand)

BIOL 416  Ethology  
(3)

BIOL 416L  Ethology Laboratory  
(1)
Mechanisms and evolution of behavior utilizing captive animals and field trips. Overnight field trips may be required. Three lectures and one two-hour laboratory per week and several field trips, possibly overnight. Prerequisites: BIOL 106, 107, and consent of instructor. (Alternate Spring)

BIOL 421  Plant Physiology  
(3)

BIOL 421L  Plant Physiology Laboratory  
(2)
Plant-water relationships, plant mineral nutrition, photosynthesis, plant growth and development at the molecular and cellular level to account for plant growth at the organismal level. Three lectures and two two-hour laboratories per week. Prerequisites: BIOL 107, CHEM 121 and also recommended CHEM 122. (Alternate Spring)
Biol 423  Plant Anatomy (3)
Biol 423L Plant Anatomy Laboratory (2)
Form, variability, and structure of the tissues comprising the body of the higher plant. Three lectures and two two-hour laboratories per week. Prerequisites: Biol 107, 107L. (Alternate Spring)

Biol 425  Molecular Genetics (3)
Nature and expression of genetic information at the molecular level in prokaryotic and eukaryotic organisms. Prerequisite: Biol 301. (Alternate Spring)

Biol 431  Animal Parasitology (3)
Biol 431L Animal Parasitology Laboratory (1)
Common and important parasites of domestic animals and man. Ecology, epidemiology, diagnosis, and control are discussed with examples from the Protozoa, Trematoda, Cestoda, Nematoda, and Arthropoda. An independent research project is required. Three lectures and one two-hour laboratory per week. (Alternate Fall)

Biol 441  Endocrinology (3)
Biol 441L Endocrinology Laboratory (1)
Anatomy and physiology of the endocrine system of vertebrates. Laboratory: emphasis on normal and abnormal endocrine functions. Three lectures and one two-hour laboratory per week. Prerequisite: Biol 106 or consent of instructor. (Alternate Fall)

Biol 442  Pharmacology (3)
Principles underlying absorption, distribution, metabolism, and excretion of drugs with emphasis on mechanisms of action and physiological responses. Prerequisite: Biol 141 or consent of instructor. (Alternate Spring)

Biol 450  Mycology (2)
Biol 450L Mycology Laboratory (2)
Fungi, with emphasis on comparative morphology and development, classification, physiology, genetics, and ecological relationships. Emphasis will also be placed on the importance of fungi in industry, agriculture, and medicine. Two lectures and two two-hour laboratories per week. Prerequisites: Biol 107 or consent of instructor. (Fall)

Biol 482  Senior Research (2)
Designed to introduce students to appropriate procedures for conducting literature reviews, designing experiments, collecting and analyzing data, and preparing written and oral presentations of such experiments. Two lectures per week or equivalent. Prerequisites: senior standing. 2.80 GPA, and consent of instructor. (Fall)

Biol 483  Senior Thesis (2)
Students prepare an in-depth thesis elaborating on a major conceptual issue(s) in biology. The purpose of the thesis is to ascertain the student's ability to collect a broad array of information and integrate this into a logical conceptual framework that traverses organizational levels of living systems. The thesis topic must be approved by the instructor. Prerequisites: senior standing and consent of instructor. (Spring)

Biol 487  Independent Research (2)
Designed to provide students with research experience on a topic of their choice that can be completed in one semester. A detailed report in the form of a scientific journal article must be provided to the instructor. Topic must be approved and directed by a specific faculty member. Corequisites: Biol 387 highly recommended. Prerequisites: Biol 482 and consent of instructor. (Spring)

Biol 495  Independent Study (1-3)
Biol 496  Topics (1-3)
BIOL 494  Seminar (1)
Current problems, topics, and research procedures in biological sciences and medicine. Topics announced each semester. Prerequisites: sophomore standing and consent of instructor. (Alternate Fall)

BIOL 499  Internship (2,4,6,8,10)
Work experience obtained on a job where assignments are primarily biological projects. The amount of credit award is determined by the school based on the nature of the assignment. Prerequisites: biology major, senior standing with either a 2.80 GPA in major courses, completion of BIOL 482, or consent of instructor. (Fall/Spring/Summer)

BUSINESS

School of Professional Studies

BUGB 101  Introduction to Business (3)
American business system operations in the economy, business functions, and interrelations between the businessman and his environment. Prerequisites: Can be taken for credit only by students who have completed fewer than 15 credit hours of BUGB, ACCT, MANG, MARX, OFAD, TRAY, CISB, or FINA courses. (Fall/Spring)

BUGB 141  Business Mathematics (3)
Fundamental review of whole numbers, decimals, and fractions. Emphasis is placed on percentage applications to solving various business problems in the areas of buying and selling merchandise, inventory computations, interest computations on notes and savings, consumer credit and installment computation, home mortgage loans, and business depreciation computations. (Fall/Spring)

BUGB 211  Business Communications (3)
Development of a non-defensive, supportive, communication system effectively applied to interpersonal and written transactions within the business organization. Prerequisite: ENGL 111. (Fall/Spring)

BUGB 221  Insurance (3)
Common types of protection offered by insurance, including fire, theft, comprehensive, life, automobile, accident, and health. Emphasis on application of insurance to individuals and small business firms. (Spring)

BUGB 231  Survey of Business Law (3)
Application of law as it applies to employees and individuals not dealing with legal matters of organizations. Topics include contracts, agency law, personal property, business organizations and form, and commercial paper. Especially suited for non-business majors. Students contemplating or enrolled in a four year degree program should take BUGB 349. No credit allowed if credit already established in BUGB 351. (Spring)

BUGB 241  Income Tax (3)
Personal income tax, including filling out personal tax returns, exemptions, determining taxable income, adjustments to gross income, itemized deductions, rental income, depreciation, capital gains and losses. Not for students with an accounting emphasis. (Spring)

BUGB 249  Personal Finance (3)
Personal finance management, including income, personal budgeting, taxes, securing loans, consumer credit, insurance, buying a home, and an introduction to investment. (Spring)

BUGB 349  Legal Environment of Business (3)
Legal framework of business including foundations of the American legal system, anti-trust law, property law, contracts and sales, negotiable instruments, agency relationships, torts, labor law, international business law and the social environment of business. Prerequisites: junior or senior standing or consent of instructor. (Fall)
BUGB 351  Business Law I  (3)
Contracts (formation, requirements, interpretation, discharge, and enforcement), agency law, and other contracting parties. Includes analysis of the concept of personal property and an introduction to the partnership form of ownership. Prerequisite: junior or senior standing or consent of instructor. (Fall)

BUGB 352  Business Law II  (3)
Corporate form of ownership as artificial persons doing business; Uniform Commercial Code as the primary law covering sales (terms of sales contracts, product liability, performance, and breach); commercial paper (instruments used as a monetary substitute, such as checks, drafts, and promissory notes); credit (security interests in real and personal property); and real property. Prerequisite: BUGB 351 or consent of instructor. (Spring)

BUGB 393  Cooperative Education  (3-12)
Cooperative Education provides students an opportunity to put their education to practical use in the workplace under the joint supervision of an employer participating in the Cooperative Education program and a faculty member designated by the institution. (See "Cooperative Education" in this catalog.)

BUGB 395  Independent Study  (1-3)

BUGB 396  Topics  (1-3)

BUGB 401  International Business  (3)
Current international topics in the disciplines of finance, management, and marketing. Concepts, analytical tools, and models are introduced to help explain the diversity and complexity of the international business environment. Prerequisite: senior standing. (Spring)

BUGB 493  Cooperative Education  (3-12)
See description of BUGB 393.

BUGB 495  Independent Study  (1-3)

BUGB 496  Topics  (1-3)

CHEMISTRY  School of Natural Sciences and Mathematics

CHEM 100  Chemistry and Society  (3)
Introduction to selected topics in chemistry. Nonmathematical approach with frequent lecture demonstrations and particular attention to chemical technology and its impact on society. (On demand)

CHEM 121  Principles of Chemistry  (4)
CHEM 121L  Principles of Chemistry Lab  (1)
Introduction to fundamental principles of chemistry. Designed for students planning a major in science as well as students with a non-science major. Topics include atomic structure, bonding, periodic table, gas laws, mass relationships, solution theory, oxidation-reduction, electrochemistry, and ionic equilibrium. Four lectures and one three-hour lab per week. Prerequisite: mastery of high school algebra. (Fall/Spring)

CHEM 122  Principles of Organic Chemistry  (4)
CHEM 122L  Principles of Organic Chemistry Laboratory  (1)
Introduction to the chemical and physical properties of selected classes of organic compounds. Four lectures and one three-hour laboratory per week. Prerequisite: CHEM 121 or 131 or one year of high school chemistry and consent of instructor. (Spring)
CHEM 131, 132  General Chemistry  (4,4)
CHEM 131L, 132L  General Chemistry Laboratory  (1,1)
Fundamental principles of chemistry. Designed for students planning a major in science. Topics include atomic structure, bonding, periodic law, kinetic theory, gas laws, stoichiometry, phase relationships, solutions, oxidation-reduction, electrochemistry, and equilibrium. Four lectures and one three-hour laboratory per week. Prerequisite: one year of high school chemistry and mastery of high school algebra. (Fall/Spring)

CHEM 151  Engineering Chemistry  (4)
CHEM 151L  Engineering Chemistry Laboratory  (1)
Selected fundamentals of inorganic chemistry. Topics include stoichiometry, periodic law, bonding, gas laws, phase relations, solutions, electrochemistry, and equilibrium. Designed for students of physics and engineering (except chemical engineering). Four lectures and one three-hour laboratory per week. Corequisite: MATH 113. Prerequisites: high school chemistry and satisfactory entrance examination scores or CHEM 121. (On demand)

CHEM 211  Quantitative Analysis  (3)
CHEM 211L  Quantitative Analysis Laboratory  (1)
Classical methods of analysis, treatment of experimental data, and the underlying logic of quantitative methods. Topics include gravimetric, volumetric, and potentiometric methods. Three lectures and one three-hour laboratory per week. Prerequisite: CHEM 132. (Fall)

CHEM 311, 312  Organic Chemistry  (4,4)
CHEM 311L, 312L  Organic Chemistry Laboratory  (1,1)
Chemical and physical properties of the major classes of organic compounds. Three lectures and two three-hour laboratories per week. Prerequisite: CHEM 132 or consent of instructor. (Fall/Spring)

CHEM 315  Biochemistry  (3)
CHEM 315L  Biochemistry Laboratory  (1)
Classical biochemistry concerned with the control of metabolism, the production of energy, the relationship of structure to function, carbohydrates, lipids, proteins, and nucleic acids. Three lectures and one three-hour laboratory per week. Prerequisite: CHEM 312/312L. (Spring)

CHEM 321  Physical Chemistry I  (3)
CHEM 322  Physical Chemistry II  (3)
Application of methods of physics to chemistry. Study of equilibrium properties of bulk matter, quantum theory with applications to molecular structure. Statistical mechanics used to understand the microscopic origin of thermodynamic laws. Calculations of macroscopic thermodynamic properties made from molecular properties. Connection made in kinetics between thermodynamics, quantum theory and statistical mechanics for study of time-dependent processes. Prerequisites: CHEM 132, PHYS 122 and MATH 152. (Fall/Spring)

CHEM 341  Advanced Laboratory I  (2)
CHEM 342  Advanced Laboratory II  (2)
Experiments from analytical, inorganic, organic, physical, and biological chemistry designed to show the application of theory to chemical problems. In addition to a list of possible core experiments, each student chooses other experiments according to individual interests. Two three-hour laboratories per week. Prerequisites: CHEM 211/211L; 312/312L; and 321. (Spring)

CHEM 395  Independent Study  (1-3)
CHEM 396  Topics  (1-3)
CHEM 411  Main Group Elements  (3)
A study of the periodic trends in non-transition elements. Topics include atomic and molecular structure, periodicity, acid-base relationships, and the descriptive chemistry of non-transition elements. Prerequisite: CHEM 322. (Alternate Fall)

CHEM 412  Transition Elements  (3)
A study of the periodic trends in transition elements. Topics include coordination compounds, symmetry and group theory, spectroscopy, and the descriptive chemistry of the transition elements. Prerequisite: CHEM 411. (Alternate Fall)

CHEM 421  Advanced Organic Chemistry I  (3)
Selected topics in organic chemistry are discussed in detail. Prerequisites: CHEM 312, 322. (Fall)

CHEM 422  Advanced Organic Chemistry II  (3)
Similar in content to CHEM 421, but without overlap in topics. CHEM 421 is not a prerequisite for 422. Prerequisites: CHEM 312, 322. (Spring)

CHEM 482  Senior Research I  (2)
CHEM 483  Senior Research II  (2)
A formal research project undertaken with the guidance of a faculty member. The results will be presented as a formal scientific paper in a format suitable for publication. (Fall/Spring)

CHEM 494  Seminar  (1)
Student, faculty, and other speakers present a variety of topics in chemistry and related fields. Prerequisites: Chemistry major with senior standing or consent of instructor. (Fall/Spring)

CHEM 495  Independent Study  (1-3)
CHEM 496  Topics  (3)

COMPUTER INFORMATION SYSTEMS

School of Professional Studies

CISB 101  Business Data Processing  (2)
Basic concepts of computers with focus on terminology, hardware, software, and implication of computers in today's world. Business use of computers including discussion of computer security, privacy of information, future implications, purchasing computers and software, and business application. (Fall/Spring)

CISB 104  BASIC Programming  (1)
Basic concepts of programming through use of BASIC language. Several BASIC programs will be written. Prerequisite: CISB 101 or equivalent. (Fall/Spring)

CISB 105  Introduction to Business Software  (1)
Current business software. Electronic spreadsheets, word processing, and data base software at a beginning level. (Fall/Spring)

CISB 131  COBOL Programming  (3)
Writing programs in COBOL using modern methods of top-down, structured design. Emphasis placed on traditional business applications such as payroll, accounts receivable, and inventory control. Students learn to debug and document programs. Prerequisite: CISB 104 or consent of instructor. (Fall)
CISB 205  Advanced Business Software
Students become proficient through a combination of lecture, demonstration, and projects in the advanced use of electronic spreadsheets, word processing, and database management software. Prerequisites: CISB 105, ACCT 202. (Fall/Spring)

CISB 295  Independent Study
(1-3)

CISB 321  Assembler Language
See CSCI 321 for course description.

CISB 392  Management Information Systems
Use of computers by management as a tool to run businesses more effectively with particular attention to the advantages of using computers in each functional area of business, problems associated with computerized processing, and the systems approach to problem solutions. An in-depth look at various types of information systems as well as the latest concepts, such as database management, decision support and end user programming. Allows the student to see the practical application of a computer based information system. Appropriate for all business majors. Prerequisites: ACCT 202. (Fall/Spring)

CISB 395  Independent Study
(1-3)

CISB 396  Topics
(1-3)

CISB 400  Data Communications and Network Management
Current technology in data communications and networks used in a business organization, including management of data communications and networks; hardware, media, and software; LANs, distributed data processing, telecommunications, current issues and future trends. Prerequisite: CISB 392 or consent of instructor. (Spring)

CISB 442  Systems Analysis and Design
Basic systems analysis tools and the procedures for conducting a systems analysis, including systems requirements, initial analysis, general feasibility study, structured analysis, detailed analysis, logical design, and the general systems proposal. Students gain practical experience through projects and/or case studies. Prerequisite: ACCT 202 and at least two programming courses or consent of instructor. (Fall)

CISB 451  Database Administration
Covers design and implementation of a Database Management System from a non-technical viewpoint. Recommended for business students with focus on business users in the design of the DBMS, control integrity, and security. DBMS implementation will be through hands-on use of an actual DBMS. Prerequisites: CISB 105, 442, ACCT 202. (Spring)

CISB 471  Advanced Information Systems
Follows CISB 442 and will integrate management information needs, decision making criteria, and design of manager/computer interactive systems. Computerized management control systems for all major functional modules of an organization will be investigated as well as computer simulations, data base management systems, distributed processing, and structured systems development. Prerequisites: ACCT 311 or 331. (Spring)

CISB 495  Independent Study
(1-3)

CISB 496  Topics
(1-3)
COMPUTER SCIENCE

School of Natural Sciences and Mathematics

CSCI 100  Computers in Our Society  (3)
The impact of computers on society and individuals; purpose and use of software integrated systems. Intended for students in disciplines outside the natural sciences and mathematics. (Fall/Spring)

CSCI 111  Computer Science I  (4)
Introduction to problem solving techniques with emphasis on modularity, abstraction, analysis, and correctness of algorithm design. Using C/C++ language as a tool, topics covered include the full range of data types and control structures; text and binary file I/O; procedures and functions; stacks and lists as abstract data types. Corequisite: MATH 119 or consent of instructor. (Fall/Spring)

CSCI 112  Computer Science II  (4)
Continuation of CSCI 111 with emphasis on algorithm design and analysis, procedural abstraction, data abstraction, and quality programming style. Topics covered include distinction between dynamic and static variables; various implementations of elementary stacks, queues, trees, and lists; comparison of recursive and iterative algorithms; program correctness; and hierarchical design principles. Programming exercises will focus on modularity of design and data abstraction. Prerequisite: CSCI 111. (Fall/Spring)

CSCI 120  Technical Software  (3)
Microcomputer software used primarily for engineering. Introduction to symbolic mathematics language, word processing, spread sheet, database management, and graphics. Prerequisite: MATH 113. (Fall/Spring)

CSCI 131  FORTRAN Programming  (3)
CSCI 131L  FORTRAN Programming Laboratory  (1)
FORTRAN language emphasizing structured programming. Sub-programs, sequential files, direct access files, and FORTRAN data structures are stressed in programs written. Three lectures and two one-hour laboratories per week. Prerequisite: Math 113 or consent of instructor. (Fall/Spring)

CSCI 133  PASCAL Programming  (3)
CSCI 133L  PASCAL Programming Laboratory  (1)
PASCAL and the concepts of structured programming. Includes programming topics and techniques such as character manipulation, arrays, modular programming, searching and sorting techniques, files and records, and data structures. Three lectures and two one-hour laboratories per week. Prerequisite: MATH 113. (Fall/Spring)

CSCI 180  C as a Second Language  (4)
An introduction to the C programming language for students who are already experienced with another programming language. Basic syntax and semantics of C data types, control structures, file I/O, and library routines. Prerequisites: CSCI 111 or CSCI 131/131L or consent of the instructor. (Spring)

CSCI 241  Computer Architecture I  (3)
Architecture of a representative processor and its assembly language, introduction to hardware description language, register transfers and sequence control, realization of fetch, address, branch and execute cycles, start, stop and reset the computer, interrupt and memory mapped input-output, peripherals and interfacing. Prerequisite: CSCI 112. (Fall)

CSCI 242  Computer Architecture II  (3)
Computer classes and description using PMS or ISPS, description of a few commercial computers, computer arithmetic, binary/octal/hexadecimal number system, hardware for arithmetic operations including floating-point type, processor management, memory organization and schemes, input-output management, control unit and microprogramming, multi- and parallel processors. Prerequisite: CSCI 241. (Spring)
CSCI 250  Data Structures
Information representation, relationships between forms of representations and processing techniques, transformation between storage media, referencing of information as related to the structure of its representation, concepts of arrays, records, files, trees, lists and list structure, sorting and search techniques. Prerequisite: CSCI 112. (Fall)

CSCI 321  Assembly Language Programming
Introduction to assembler, creating and executing assembly language program, organization of machine under study, data definition, addressing techniques, data movement instruction, branching instructions, flag and PSW registers, arithmetic instructions, macros and their implementation, hardware and software interrupts, storing instructions, typical applications. Prerequisites: CSCI 112. (Fall)

CSCI 330  Programming Languages
Algorithmic languages, declarations, storage allocation, subroutines, co-routines, and tasks. The principles and concepts which characterize various classes of high-level, computer-programming languages are covered as well as list-processing language development and use. Analyzes strengths and weaknesses of list processors: SNOBOL, IPLV, LISP, etc. Prerequisites: CSCI 250, 321. (Fall/Spring)

CSCI 336  C++ Programming Language
Introduction to C++ with focus on the underlying language concepts and realistic programming situations. Also emphasized are C++ iostreams, information hiding, operator and function overloading, classes, and inheritance. Prerequisites: CSCI 112 or 180. (Fall)

CSCI 350  Software Engineering
Covers philosophy of software engineering, software project planning, requirement analysis, software system design and strategies, software design tools, program and system testing, system maintenance, and economics. Prerequisite: CSCI 111, 112, 290. (Spring)

CSCI 375  Object Oriented Programming in C++
Advanced programming techniques using the object-oriented paradigm, with emphasis on abstractness of design, encapsulation, inheritance, and polymorphism. Additional topics include design tools and methodologies for determining classes, responsibilities, collaborations, and hierarchies. Prerequisites: CSCI 250, 355. (Spring)

CSCI 380  Operations Research
Methods of linear and dynamic programming, inventory and replacement models, queuing theory, game theory, FERT, CPM, and simulation. Prerequisites: MATH 152, STAT 200, CSCI 111. (Spring, odd years only)

CSCI 395  Independent Study
(1-3)

CSCI 396  Topics
(1-3)

CSCI 445  Computer Graphics
Use of the computer to produce images; one, two, and three, dimensional graphics; algorithms and data structures for hidden lines and surfaces; shading; and reflections. Prerequisites: MATH 265 and CSCI 250. (Fall)

CSCI 450  Compiler Structure
Structures and techniques used in compiler writing are discussed with emphasis on scanners, symbol tables, parsers and code generation. The front end of a recursive descent parser is written for the semester project. Error analysis and code optimization are discussed as time permits. Prerequisites: CSCI 241, 330. (Fall/Spring)

CSCI 460  Data Base Design
Design and implementation of data base systems. The network, hierarchical, and relational approaches to design, and the problems of security and integrity will be discussed. Prerequisite: CSCI 250. (Spring)
CSCI 470 Operating Systems Design (3)
Aspects of computer operating system design and implementation including memory management, processor management, device management, information management and performance evaluation methods. Some knowledge of C is required. Prerequisite: CSCI 250, 321. (Spring)

CSCI 480 Theory of Algorithms (3)
Techniques for analyzing time and space requirements of computer algorithms. Models are set up for analysis and techniques are applied to algorithms related to sorting and searching, pattern-matching, graph problems and other selected problems. The notion of NP-hard problems is introduced and related problems are discussed. Prerequisites: MATH 152, CSCI 250. (On demand)

CSCI 482 Theory of Computation (3)
Computability and automata theory introduced. Regular expressions, finite and pushdown automata, Turing machines, grammars and their relationship to automata, Church-Turing hypothesis, incomputable and undecidable functions and equivalence of computability models are covered. Prerequisites: MATH 369, CSCI 250. (On demand)

CSCI 484 Computer Networks (3)
Topics include: hardware technology for local and long haul networks, circuit and packet switching, interface between computer and network hardware, network architectures and protocols, routing, congestion and flow problems, queuing theory, and reliability issues. Instructors may choose to implement a sample network in which case the contents may be particularized to that network. (On demand)

CSCI 486 Artificial Intelligence (3)
Introduction to artificial intelligence programming with study of topics such as knowledge representation, expert systems, solution space search, non-deterministic algorithms (neural nets, genetic algorithms), etc. Programs will be written in a selected AI programming language such as Lisp or Prolog. Prerequisites: CSCI 250, MATH 369. (Alternate Spring)

CSCI 494 Seminar (1, 2)
Discussions of specialized topics by students, faculty, or visiting professors. One or two one-hour meetings per week. (Fall/Spring)

CSCI 495 Independent Study (1-3)

CSCI 496 Topics (1-3)

DANCE School of Humanities and Social Sciences

DANC 115 Dance Appreciation (3)
Exploration of the roots and trends of the art of dance from the primitive to the contemporary. Introduction of esthetic guidelines for looking at dance as it relates to America and the world. (Spring)

DANC 157 Repertory Dance (1)
Student participation in the production of dance work supervised by faculty or guest artist. Students must audition. Corequisite: one dance technique class. (Fall/Spring)

DANC 170 Theory and Practice Modern Dance (1)
Theory and practice of modern dance. Prerequisites: HPWE 170 or consent of instructor. (Fall/Spring)

DANC 175 Theory and Practice Modern Jazz Dance (1)
Intermediate principles of modern jazz dance including theory and technique. Prerequisite: HPWE 175 or consent of instructor. (Spring)

DANC 176 Theory and Practice Ballet (1)
Theory and practice of ballet. Prerequisite: HPWE 176 or consent of instructor. (Fall)
DANC 178 Theory and Practice Tap Dance (1) Theory and practice of tap. (Fall/Spring)
DANC 253 Beginning Improvisation and Composition in Dance (3) Theory and practice in basic principles of dance composition. (Alternate spring)
DANC 257 Repertory Dance (1) Student participation in the production of a dance supervised by faculty or guest artist. Prerequisite: Audition or consent of instructor. Corequisite: one technique class. (Fall/Spring)
DANC 270 Theory and Practice Modern Dance (1) Intermediate work in theory and practice of modern dance. Prerequisite: DANC 170 or consent of instructor. (Fall)
DANC 271 Fundamentals of Modern Dance (2) Exploration of the elementary principles of modern dance through the technical and academic process. Prerequisite: DANC 170 or consent of instructor. (Fall)
DANC 276 Theory and Practice Ballet (1) Intermediate work in theory and practice of ballet. Prerequisite: DANC 176 or consent of instructor. (Fall)
DANC 277 Fundamentals of Ballet (2) Elementary principles of ballet through the technical and academic process. Prerequisite: DANC 176 or consent of instructor. (Spring)
DANC 297 Choreography Practicum I (1) Student practice in choreography and producing an original dance work. Prerequisite: DANC 253 or consent of instructor. (Fall/Spring)
DANC 326 Methods of Teaching Ballet and Modern Dance (3) Theory and application of methods of teaching ballet and modern dance. Prerequisite: DANC 270, 276, or consent of instructor. (Alternate spring)
DANC 357 Repertory Dance (1) Student participation in the production of a dance supervised by faculty or guest artist. Students must audition. Corequisite: one technique class in ballet, modern, jazz, or tap dance. (Spring)
DANC 372 Theory and Practice Modern Dance (1) Advanced theory and practice of modern dance. Prerequisite: DANC 270 or consent of instructor. (Fall)
DANC 376 Theory and Practice Ballet (1) Advanced work in theory and practice of ballet. Prerequisite: DANC 276 or consent of instructor. (Fall)
DANC 397 Choreography Practicum II (1) Student practice in choreographing and producing an original dance work. Prerequisite: DANC 297 or consent of instructor. (Fall/Spring)
DANC 457 Repertory Dance (1) Student participation in the production of a dance supervised by faculty or guest artist. Students must audition. Corequisite: one dance technique class from ballet, modern, jazz, or tap. (Spring)
DANC 497 Choreography Practicum (1-2) Student practice in choreographing and producing original dance work. Prerequisite: DANC 297 or consent of instructor. (Fall/Spring)
**DEVELOPMENTAL COURSES**

DEVL 090  College Success Strategies  (3)
Instruction in effective study strategies for college such as note taking, test taking, critical reading, memory and concentration, time management, controlling math anxiety, examining individual learning styles, and goal setting. For students who need and/or desire strategies and techniques designed to foster and promote successful independent college level learning. (Fall/Spring)

<td>Political economy of economic organization and public policy including analysis of the structure/conduct dimensions of industry and government institutions and their effects on resource allocation, income distribution, and economic performance. Antitrust, regulation, and other policies are treated concurrently. Counts as a management course for BBA candidates. Prerequisites: ECON 201, 202 or equivalent. (Spring)</td>
<td></td>
</tr>
</tbody>
</table>
ECON 410  Public Sector Economics  (3)
Political economy of government finance including analysis of the effects of government revenue and expenditure policies on resource allocation, income distribution and economic performance. Counts as a management course for BBA candidates. Prerequisites: ECON 201, 202, or equivalent. (Fall)

ECON 420  International Economics  (3)
International trade theory and policy such as balance of payments analysis, international investment flows, and the position of the dollar in foreign exchange transactions. Prerequisites: ECON 201, 202, or equivalent. (On demand)

ECON 495  Independent Study  (1-3)

ECON 496  Topics  (1-3)

EDUCATION, EARLY CHILDHOOD  
School of Professional Studies

EDEC 100  Parent Education and Preschool  (1)
Parenting skills in a preschool situation. Enrollment of both parent and child is required. (Fall/Spring)

EDEC 110  Infant and Toddler Development and Curriculum  (2)
Curriculum for the age group 0-2 1/2 years. Places emphasis on maintaining healthful, safe environmental activities to stimulate social, language, emotional, intellectual, and physical development. Should be taken in the first semester in which a student is enrolled in the program. (Fall)

EDEC 196  Topics  (1)

EDEC 211  Curriculum for Early Education  (3)
Methods of creating a curriculum and maintaining a classroom atmosphere and environment that allows for developmentally appropriate activities to occur for children ages 2-6 years. Methods for meeting children's individual and group needs from diverse ethnic, cultural, and economic backgrounds will be addressed. Field experience will include observation, participation, and evaluation. Prerequisites: ARTE 210, MUSA 241, EDEC 110, 220. (Fall/Spring)

EDEC 220  Foundations and Legal Aspects of Early Education  (3)
An overview of history, philosophy, current and legal issues, licensing and health regulations, facilities, and programming for young children. Provides prospective teachers opportunity to assess roles played in dealing with children of diverse ethnic, cultural, and economic backgrounds. Field experience includes observation and participation in school settings three hours/week. Prerequisites: ENGL 111, 112, PSYC 233, SPCH 102. (Fall)

EDEC 261  Administration and Parenting Issues in Early Childhood Education  (4)
An overall view of management concepts applicable in a variety of early childhood settings, as well as issues involving parents and parent involvement in the early childhood program. Course content focuses on management of programs and personnel, program development, fiscal administration, and current concepts of parent education and involvement. Prerequisites: EDEC 110, 211, 220. (Spring)

EDEC 297  Practicum  (1,2)
Supervised experience working with children in child-care and day-care settings or in the Early Childhood Education Center. Accepted by the State Department of Social Services for licensing purposes. Scheduling is flexible. Prerequisite: consent of instructor. (Fall/Spring)

EDEC 299  Student Teaching in Early Education  (5)
A full time supervised teaching experience which allows the Early Education student the opportunity to apply previous course work, observations, and philosophies already gained. The student assumes the responsibility of teaching young children in a college lab setting. Daily evaluation and twice weekly seminars are required. Prerequisites: ARTE 210, EDEC 211, 220, 261, ENGL 240, HPWA 256, MUSA 241, THEA 213. (Fall/Spring)
EDUC 300  Foundations and Legal Aspects of Education  
A standards-based overview of history, philosophy, finance, organizational and curriculum patterns, and current and legal issues appropriate for the beginning education student. Three hours lecture per week plus three to four hours field experience for 15 weeks during semester. Prerequisites: PSYC 233, SPCH 102. (Fall/Spring)

EDUC 310  Teaching Diverse Populations  
Interdisciplinary, standards-based curriculum course focused on the socialization processes in pre-K-12 classrooms. Multicultural likenesses/differences which affect learning are explored through the use of multicultural teaching strategies and group discussions. Clinical observations as well as research investigations are expected for upper division credit as are investigations into the ethical/moral component of public school teaching. Prerequisites: consent of an education adviser may be taken concurrently with EDUC 300. (Fall/Spring)

EDUC 311  Creative and Physical Expression for Children  
Facilitation of children's creative and physical expression and problem solving in music, art, drama, games, movement and dance. Prerequisites: EDUC 300; with consent of an education adviser may be taken with EDUC 310. (Fall/Spring)

EDUC 320  The Developing Child in the School  
Standards-based applied educational psychology, preprimary through 12th grade. Prerequisites: EDUC 300; with consent of education adviser may be taken concurrently with EDUC 310 and 311. (Fall/Spring)

EDUC 325  Orientation to Educational Technology  
Study of the role of technology in standards-based classrooms. Through active participation in lab and field based activities, students will understand the integration of appropriate technology into the learning environment. Prerequisites: EDUC 300; with consent of an education adviser may be taken concurrently with EDUC 310, 311, 320, or 350. (Fall/Spring)

EDUC 350  Exceptionality in the Classroom  
Coursework providing information about various exceptionaldities which include gifted and talented, abused children, ethnicity as it relates to exceptionaldities. Prerequisites: EDUC 300; with consent of an education adviser may be taken concurrently with EDUC 310, 311, 320, or 325. (Fall/Spring)

EDUC 360  Teaching and Learning in the Secondary School  
Comprehensive coursework in secondary (middle school and high school) standards-based curriculum and classroom management. Provides the opportunity to associate theoretical approaches in teaching through reflective teaching, cooperative learning, case studies, modeling and/or microteaching. Prerequisites: EDUC 300, 310, 320, 325, 350 or consent of an education adviser. (Fall/Spring)

EDUC 380  Current Issues in Curriculum Development  
Interdisciplinary, standards-based curriculum course focused on the primary components of elementary level teaching. Prerequisites: EDUC 300, 310, 311, 320, 325, 350 or consent of an education adviser. (Fall/Spring)

EDUC 390  The Comprehensive Elementary Language Program  
A broad, in-depth view of the reading-language program in a standards-based curriculum. Three hours lecture per week and five hours field experience per week for ten weeks during semester. Corequisites: EDUC 400, 401, and 404. Prerequisites: EDUC 300, 310, 311, 320, 325, 350 or consent of an education adviser. (Fall/Spring)

EDUC 395  Independent Study  
(1-3)

</table>
EDUC 499D  Teaching Internship and Colloquium: Elementary  (6)
A supervised teaching experience available for students who are pursuing K-12 licensure and standards-based education: an eight week experience. Five colloquia are included in the eight week experience. Prerequisites: completion of all coursework and requirements in the professional education sequence, all general education requirements, all academic requirement coursework and the approval of the Director of Teacher Education. All PLACE assessments must be completed. (Fall/Spring)

EDUC 499G  Teaching Internship and Colloquium: Secondary  (12)
A full-time supervised teaching experience designed to allow the intern the opportunity to apply standards-based education and the theories and philosophies acquired in the professional education coursework. Five colloquia are included during this 15-week experience. Prerequisites: completion of all coursework and requirements in the professional education sequence, all general education requirements, all academic coursework and the approval of the Director of Teacher Education. All PLACE assessments must be completed. (Fall/Spring)

EDUC 499H  Teaching Internship and Colloquium: Secondary  (6)
A supervised teaching experience available for students who are pursuing K-12 licensure and standards-based education: an eight-week experience. Prerequisites: completion of all coursework and requirements in the professional education sequence, all general education requirements, all academic requirement coursework and the approval of the Director of Teacher Education. All PLACE assessments must be completed. (Fall/Spring)

ENGINEERING
School of Natural Sciences and Mathematics

TI-82 or TI-85 (preferred) or equivalent calculator is recommended or required for engineering classes. Cost is approximately $70.00–125.00.

ENGR 105  Basic Engineering Drawing  (3)
Fundamentals of drawing including instrumental and computer-aided drafting. Corequisite: CSCI 100 or 120. Prerequisites: MATH 091 or three years high school mathematics. (Fall/Spring)

ENGR 106  Computer Aided Drafting  (3)
Basic principles of computer aided drafting through the development of practical drawing problems using a computer. Prerequisites: ENGR 105 or consent of instructor. (Spring)

ENGR 111  Engineering Graphics and Design  (3)
Basic problem-solving techniques used in engineering and the sciences. Topics include graphics, modeling, experimental methods, data analysis, value judgments, design processes, and decision making in realistic engineering situations. Prerequisites: MATH 130 and ENGR 105 or equivalents. (Spring)

ENGR 131  Mapping and Technical Graphics  (2)
ENGR 131L  Mapping and Technical Graphics Laboratory  (2)
Introduction to reading and interpreting maps and graphic documents used in technical fields. Also, students are provided with an introduction to modern concepts of surveying and data gathering methods. Two lectures and two two-hour laboratories per week. Prerequisites: MATH 091 or three years high school mathematics. (Fall)

ENGR 149  Introduction to Spaceflight  (3)
Introduction into the science of spaceflight, primarily from a descriptive point of view with emphasis placed on obtaining understanding and appreciation of problems, rewards and excitement associated with space studies and spaceflight. Sample topics: history of space-flight, mechanics of propulsion and of satellites, living in space, the space shuttle. Some algebra will be used. Prerequisite: MATH 113 or consent of instructor. (Spring)
ENGR 230  Topographical Surveying (2)  
ENGR 230L  Topographical Surveying Laboratory (1)  
Fundamentals of mapmaking including the use of plane table and alidade, basic control, contour mapping, and map reading. Primarily for non-engineering students in related fields (forestry, geology, archaeology). Two lectures and one three-hour laboratory per week. Prerequisite: MATH 130 or consent of instructor. (Fall)

ENGR 231  Surveying I (2)  
ENGR 231L  Surveying I Laboratory (1)  
Principles of surveying and mapping, familiarity with the basic instruments and their use. Includes calculations and field procedures for surveying circular, spiral, and parabolic curves and route planning. Two lectures and one three-hour laboratory per week. Prerequisite: MATH 130 or consent of instructor. (Spring)

ENGR 240  Statics (3)  
Principles of statics, study of vectors, forces, couples, force systems and their resultants, force systems of equilibrium (truss analysis, flexible cables, cranes), static friction (pivot and belt), centroids, radii of gyration of areas and masses, and moments of inertia. Prerequisites: MATH 152 and PHYS 121. Corequisites: MATH 253 and PHYS 122. (Fall)

ENGR 241  Dynamics (3)  
Angular and linear displacement, velocity and acceleration of particles, rigid bodies in motion, simple vibrations, applications of Newton's laws of motion and the laws of conservation of energy and momentum to solution of problems involving moving particles and rigid bodies subject to external forces. Prerequisites: ENGR 240 and MATH 253. (Spring)

ENGR 251, 252  Circuit Analysis I, II (3,3)  
ENGR 251L, 252L  Circuit Analysis I, II Laboratory (1,1)  
Fundamental principles of electrical engineering, such as electronics, electromechanics, and instrumentation. Basic analysis techniques applied to linear, lumped parameter, and time invariant circuits. Three lectures and two one-hour laboratories per week. Prerequisite: MATH 152 and PHYS 121 with concurrent enrollment in MATH 253 and PHYS 122. (Fall/Spring)

ENGR 253  Electromechanical Devices (3)  
Operating principles and analysis of electromechanical devices including transformers, motors, and generators. Prerequisite: ENGR 251. (Spring)

ENGR 255  Thermodynamics (3)  
First and second laws of thermodynamics, properties of pure substances, energy in open systems, control volume, steady flow, engineering applications. Prerequisites: PHYS 122 and MATH 152, or consent of instructor. (Spring)

ENVIRONMENTAL RESTORATION

School of Natural Sciences and Mathematics

ENGS 101  Introduction to Environmental Science (3)  
Impact of pollution on the earth's environment and biota. The basic scientific approach to solving environmental problems and the impact of politics upon this approach will be examined. General environmental awareness and literacy will also be emphasized. (Spring)

ENGS 110  Introduction to Environmental Restoration/Waste Management (3)  
Introduction to the source, characteristics, and concerns of hazardous and radioactive materials in environmental systems. Examination of general approaches toward site assessment, risk analysis, site remediation, mine-land reclamation, and other issues pertinent to hazardous waste management. Development of environmental literacy is emphasized. Prerequisites: One year of high school chemistry and high school algebra or equivalent. (Fall)
ENGS 211 Hazardous/Radioactive Waste Management (3)
Handling, treatment, storage, disposal and minimization of hazardous/radioactive wastes. Also, provides an overview of the environmental fate of contaminants along with their potential impact on ecosystems and human health via risk assessment. Prerequisites: ENGS 110 and CHEM 121 or consent of instructor. (Fall)

ENGS 212 Environmental Health and Safety (2)
ENGS 212L Environmental Health and Safety Laboratory (1)
Examination of environmental health and safety issues, risk assessment, control strategies, and implementation. Includes basic toxicology, personal risk assessment, and meets 40-hour OSHA training requirements for working on hazardous waste sites. Requires development of a site safety plan and use of personal protective equipment. Two lectures and one two-hour laboratory per week. Prerequisite: ENGS 110; sophomore standing (AAS degree); senior standing (BS degree) or consent of instructor. (Spring)

ENGS 213 Site Characterization (4)
ENGS 213L Site Characterization Laboratory (1)
Develop knowledge and understanding of the site characterization process, field and laboratory instrumentation, sampling procedures, data interpretation, and analytical laboratory operation methods. Requires hands-on experience and characterization of an environmental system. Three 70-minute lectures and one three-hour laboratory per week. Prerequisites: ENGS 110, STAT 200. (Fall)

ENGS 214L OSHA Health and Safety Update (1)
Update of the 40-hour OSHA hazardous waste site certification and includes the OSHA supervisor training certification for hazardous waste sites. Prerequisite: ENGS 212L. (On demand)

ENGS 216 Risk Assessment and Site Remediation (3)
Examination of the overall remediation process. Topics include relationship of risk assessment to remediation, the overall approach towards selection and implementation of remedial technologies, available technologies and their effectiveness, and regulatory impact. Prerequisite: ENGS 211. (Spring)

ENGS 217 Environmental Law and Regulations (3)
A comprehensive course in environmental law and regulations, regulatory agencies, and how they influence the approaches to environmental restoration and waste management. Prerequisite: ENGS 110. (Spring)

ENGS 220 Environmental Field Instrumentation (2)
ENGS 220L Environmental Field Instrumentation Laboratory (1)
Practical aspects concerning the proper use of instrumentation commonly used in environmental assessments and for personal protection with emphasis on correct calibration procedures, routine maintenance and trouble-shooting, limitation and capabilities of instruments, applied theory of operation, quality control and data interpretation. Brief introduction to analytical methods and selection criteria. Two lectures and one three-hour laboratory per week. Prerequisites: ENGS 110, CHEM 121, and STAT 200 or consent of instructor. (Spring)

ENGS 250 Environmental Compliance (3)
Identification of specific and detailed environmental regulatory requirements for a variety of real-world situations including industrial production facilities, waste management facilities, release site cleanups, and federally funded activities. Administrative and technical aspects of achieving and maintaining environmental compliance examined. Roles played by regulators and private sector discussed. Case studies examined. Prerequisites: ENGS 217. (Fall)

ENGS 292 Capstone in Environmental Restoration (2)
Designed to evaluate and strengthen the student's knowledge of environmental restoration/waste management issues and refine communication skills. Major presentation required on a real environmental project. Employment opportunities also explored. Prerequisites: Sophomore standing (AAS) and one term prior to graduation. (Spring)

ENGS 296 Topics (1-3)
ENGS 312  Soil Properties and Characterization  (3)
ENGS 312L Soil Properties and Characterization Laboratory  (1)
General physical, chemical and biological properties of soils. The formation, characterization, and classification of soils will be presented. Applied discussions concerning environmental problems. Prerequisites: CHEM 132 and one semester of biology or consent of instructor. (Alternate Fall)

ENGS 315  Disturbed Land Rehabilitation  (2)
Mining techniques, other sources of land disturbances, reclamation legislation, reclamation techniques and other practical considerations. The interface of hazardous waste sites and land rehabilitation will be discussed. Prerequisites: GEOL 111 and ENGS 312 or consent of instructor. (Alternate Spring)

ENGS 331  Water Quality  (3)
ENGS 331L Water Quality Laboratory  (1)
Examination of physical, chemical, and biological properties of aquatic systems and the effects of common pollutants. Prerequisites: BIOL 105/105L, CHEM 132/132L, STAT 200, or consent of instructor. (Fall)

ENGS 340  Air Quality and Pollution Control  (3)
Examination of the fundamental principles that govern air quality, its pollution, and its management. Students develop an air emissions inventory using mass balance and emission factors methodologies. Prerequisites: CSCI 120, ENGS 217, MATH 113, or consent of instructor. (Fall)

ENGS 395  Independent Study  (I-3)
ENGS 396  Topics  (I-3)

ENGS 413  Environmental Fate and Transport of Contaminants  (4)
Factors influencing the transport of contaminants in the environment, how to predict their partitioning, and important parameters which can be used to diagnose its fate. Overview of environmental chemistry, physical influence, and waste properties. Usefulness and limitations of predictive models examined, along with simulation experiments. Requires use of computers. Prerequisites: ENGS 312, 312L, CSCI 120, MATH 119 or higher. (Alternate Spring)

ENGS 420  Environmental Instrumentation and Analytical Methods  (3)
ENGS 420L Environmental Instrumentation and Analytical Methods Laboratory  (1)
Examination of analytical instrumentation and methods used to characterize environmental systems; fundamental theory of operation, limitations, and applicability of analytical instrumentation and methods. Emphasizes on data interpretation, regulatory implications and QAQC concepts. Three lectures and one-three hour laboratory per week. Prerequisites: CHEM 132, 311, STAT 200 or consent of instructor. (Spring)

ENGS 431  Water and Wastewater Treatment  (3)
Examination of water and wastewater treatment processes including physical, chemical, and biological treatment technologies. Emphasis on unit process design and modeling. Prerequisite: ENGS 331. (Spring)

ENGS 492  Capstone in Environmental Restoration/Waste Management  (2)
Current environmental restoration/waste management issues. Refinement of students' communication skills. Intended to broaden students' perspectives and knowledge using guest speakers and class discussions. Requires independent study to be presented in class. Prerequisites: senior standing or consent of instructor. (Spring)

ENGS 495  Independent Study  (I-3)
ENGS 496  Topics  (I-3)

ENGS 499  Internship  (3-9)
Work experience on a job directly related to environmental restoration projects or hazardous waste management. Requires a term paper, oral presentation describing the experience and at least 225 contact hours. Prerequisites: junior or senior standing in the Environmental Restoration/Waste Management program or consent of instructor. (On demand)

ENGL 222  Mythology  (3)
Basic myths of the Greeks and Romans, the cultures that produced them and/or the Northern and Medieval myths of Europe, their backgrounds in classical culture and native folklore. (Fall/Spring)

ENGL 240  Children's Literature  (3)
History of children's literature. A survey of contemporary authors and illustrators of picture books, stories, and poetry, and the criteria to evaluate literature for pre-school through early elementary ages. (Fall)

ENGL 250  Introduction to Creative Writing  (3)
An introduction to the theory and practice of producing original works of poetry, fiction, and non-fiction prose. Prerequisite: ENGL 111 (Fall/Spring)

ENGL 254  Survey of English Literature I  (3)
English literature from its beginnings, including major works and writers, through the early 18th century. (Fall)

ENGL 255  Survey of English Literature II  (3)
English literature, including major writers and works from mid-18th century to present day. (Spring)

ENGL 261  Survey of American Literature I  (3)
Beginning with the Puritans and writers of the Revolution as a background to the works of the Romantics and Transcendentalists such as Bryant, Irving, Cooper, Poe, Melville, Emerson, Thoreau, Longfellow, and Whitman. (Fall)

ENGL 262  Survey of American Literature II  (3)
Principal modern authors such as Dickinson, Clemens, Crane, Frost, Sandburg, Anderson, Lewis, Eliot, Faulkner, Hemingway, and Stevens. (Spring)

ENGL 301  Classical Greek and Latin Literature  (3)
Readings in English of outstanding Greek and Roman authors, exploring major classical genres and emphasizing the development of epic, comedy, tragedy, and lyric poetry against the background of Greek history, philosophy, and religion. Prerequisites: 100 or 200 level literature course. (Alternate Spring)

ENGL 311  English Medieval Literature  (3)
Major works of the medieval period including Chaucer. Prerequisites: 100 or 200 level literature course. (Alternate Fall)

ENGL 313  English Renaissance Literature  (3)
Major writers of the seventeenth century, emphasizing Milton, including the metaphysical and Caroline poets. Prerequisites: 100 or 200 level literature course. (Alternate Spring)

ENGL 314  American Literature to 1835  (3)
An introduction to the major texts of the colonial and early national period. (Alternate Fall)

ENGL 315  American Romanticism  (3)
Major writers from the Romantic Age of America. Prerequisites: 100 or 200 level literature course. (Alternate Spring)

ENGL 316  American Realism and Naturalism  (3)
Distinctive American novels from the beginning of Realism and Naturalism to the present. Prerequisites: 100 or 200 level literature course. (Alternate Fall)

ENGL 330  Women in World Thought and Literature  (3)
Readings in world literature by and about women; interdisciplinary study of feminist theories and women's contributions to world thought. (Alternate Fall)

ENGL 335  The Bible as Literature  (3)
The Old Testament as a literary masterpiece. (Fall)
ENGL 355  Shakespeare  (3)
Early and mature plays, including genres of comedy, history, tragedy, and romance, emphasizing close textual reading in conjunction with cultural and intellectual contexts. (Fall/Spring)

ENGL 365  Adolescent Literature  (3)
Past and present adolescent literature including analysis of fiction, non-fiction, drama, and poetry, with a focus on contemporary themes, issues, and trends. (Spring)

ENGL 370  Major Author:  (3)
In-depth study of one or two important writers, with attention to the writer's distinctive style and subject matter, the range of the writer's career, and the influence of the writer's work. (Fall/Spring)

ENGL 380  Creative Writing: Non-Fiction  (3)
Theory and practice of producing original works or non-fiction. Prerequisite: ENGL 250. (Spring)

ENGL 381  Creative Writing: Fiction  (3)
Theory and practice of producing original works of fiction. Prerequisites: ENGL 250 or consent of instructor. (Fall)

ENGL 382  Creative Writing: Advanced Fiction  (3)
Advanced study in the theory and practice of producing original works of fiction. Prerequisites: ENGL 250 or consent of instructor. (Spring)

ENGL 383  Creative Writing: Poetry  (3)
Theory and practice of producing original works of poetry. Prerequisites: ENGL 250 or consent of instructor. (Spring)

ENGL 384  Expository and Persuasive Writing  (3)
Analyses of and practice in expository and persuasive writing, with emphasis on style, structure, organization and audience. Focuses on writing professional, academic and/or political essays. (Alternate Fall)

ENGL 385  Advanced Technical Writing  (3)
Writing for the technical world including computer writing. Prerequisites: ENGL 112 or ENGL 115. (Spring)

ENGL 386  Roots of Modern Rhetoric  (3)
A survey of the history of rhetoric from classical Greece to the present with emphasis on the Greco-Roman tradition. Prerequisites: 200 level writing course. (Alternate Fall)

ENGL 395  Independent Study  (1-3)

ENGL 396  Topics  (1-3)

ENGL 415  American Folklore  (3)
American folklore with an emphasis on collecting Colorado and especially Western Colorado lore. (Alternate Fall)

ENGL 421  History of Literary Criticism  (3)
Development of literary criticism from the Classical period through the 19th Century, emphasizing the relationship between criticism and tradition in developing the art and substance of Western literature. (Spring)

ENGL 423  Short Story  (3)
History and examples of short stories which reveal the development of plot, setting, character, symbol, point of view, theme, humor, satire, and fantasy. Prerequisites: 100 or 200 level literature course. (Spring)

ENGL 424  Literature and Science  (3)
Literature's relationship with science affecting the fine arts, social thought, and human value. (On Demand)

ENGL 435  20th Century American Literature  (3)
Major works from 20th Century American writers. Prerequisites: 100 or 200 level literature course. (Alternate Spring)
ENGL 438  U.S. Minority Literature  (3)
Survey of literary works written throughout United States history by African-American, Hispanic-American, Native American and Asian American authors, as well as by authors from other underrepresented cultural communities. Prerequisite: 100 or 200 level literature class. (Alternate Fall)

ENGL 440  History of the English Language  (3)
Historical development of the English language; its internal formation as shaped by external political, social, and intellectual forces. Indo-European roots and the Germanic, Norman, French, and Latin influences are considered. (Fall)

ENGL 451  Structure of the English Language  (3)
Study of modern English through the use of structural techniques and linguistic principles. Prerequisite: Junior or senior standing or consent of the instructor. (Fall)

ENGL 455  Methods of Teaching English  (3)
Theory and practice of teaching English in the junior and senior high schools; current techniques, materials, and media for the teaching of composition, literature, and the English language. Prerequisite: junior standing in the teacher certification program. (Spring)

ENGL 470  18th Century British Literature  (3)
Conceptual framework of the Enlightenment in England's representative essayists, poets, novelists, and playwrights: Goldsmith, Wycherley, Dryden, Congreve, Steele, Sheridan, Gay, Pope, Swift, Defoe, and Johnson. Prerequisites: 100 or 200 level literature course. (Alternate Fall)

ENGL 471  British Romanticism  (3)
Humanity's deepest personal feelings as expressed by writers attempting to discover a higher reality than that offered by materialism or rationalism. Authors represented are Blake, Coleridge, Wordsworth, Byron, Shelley, and Keats. Prerequisites: 100 or 200 level literature course. (Alternate Spring)

ENGL 475  Victorian Literature  (3)
Nineteenth century British literature based upon representative works of major poets, novelists, and prose writers. Prerequisites: 100 or 200 level literature course. (Alternate Fall)

ENGL 478  20th Century British Literature  (3)
Major works from 20th Century British writers. Prerequisites: 100 or 200 level literature class. (Alternate Spring)

ENGL 492  Advanced Writing  (3)
Professional writing of fiction, non-fiction, and analysis through the role of writer-as-artist, scholar, freelancer, editor, book reviewer, and critic. Prerequisites: 200 level writing course. (Fall/Spring)

ENGL 494  Seminar in Literature  (3)
Requiring an evaluation of an important literary work or works and requiring students to interpret, analyze, criticize, and present research. Prerequisites: senior standing, consent of instructor. (Fall/Spring)

ENGL 495  Independent Study  (1-3)
ENGL 496  Topics  (1-3)

FINANCE

School of Professional Studies

FINA 338  Fundamentals of Investments  (3)
Analytical approach to the investment environment, valuation of equity securities, portfolio theory and the analysis of investments other than equity securities. Prerequisite: MATH 121; junior standing or consent of instructor. (Fall)
FINA 339 Managerial Finance (3)
Acquisition, allocation, and management of funds within the business enterprise. Financial goals, funds flow, valuation, capital budgeting, and financing strategies. Prerequisite: ACCT 202, MATH 121, STAT 214. (Fall)

FINA 395 Independent Study (1-3)
FINA 396 Topics (1-3)

FINA 439 Problems in Managerial Finance (3)
Case studies and readings in financial management involving concepts, practices and techniques introduced and developed in FINA 339. Prerequisite: FINA 339. (Spring)

FINA 441 Theory of Financial Management (3)
Financial theory pertaining to capital structure, dividend policy, valuation, cost of capital, and capital budgeting. Prerequisite: FINA 339. (Spring)

FINA 495 Independent Study (1-3)
FINA 496 Topics (1-3)

FINE ARTS
School of Humanities and Social Sciences

FINE 101 Man Creates (3)
An interdisciplinary survey of human creative efforts as they relate to each other. Art, drama, and music are compared with similarities stressed. (Fall/Spring)

FINE 395 Independent Study (1-3)
FINE 396 Topics (1-3)

FINE 494 Seminar in Critical Analysis of the Arts (3)
Theory and practice of arts criticism. (Fall)

FINE 495 Independent Study (1-3)
FINE 496 Topics (1-3)

FINE 499 Internship (8,15)
Part or full-time work in various aspects of arts management. Sites may include galleries, musical, theatrical, or other performing organizations, arts centers, or other situations that meet the instructor’s approval. Half-time equals eight semester hours credit; full-time equals 15 semester hours credit. Prerequisite: junior standing in visual or performing arts. May also require selected courses in business, social science, etc. as appropriate to the internship sought. (Summer/Fall/Spring)

FOREIGN LANGUAGES
School of Humanities and Social Sciences

FRENCH

FLAF 111 First-Year French I (3)
FLAF 112 First-Year French II (3)
Introduction to the French language and culture. (Fall/Spring)

FLAF 251 Second-Year French (3)
FLAF 252  Second-Year French II  
Grammar review, vocabulary distinction, and readings in the French language. Prerequisites: two years of high school French. FLAF 111 and 112, or consent of instructor. (On demand)

GERMAN

FLAG 111  First-Year German I  
(3)
FLAG 112  First-Year German II  
(3)
Introduction to the German language. (Fall/Spring)

FLAG 251  Second-Year German I  
(3)
FLAG 252  Second-Year German II  
(3)
Grammar review, vocabulary distinction, and readings in the German language. Prerequisites: two years of high school German, FLAG 111 and 112, or consent of instructor. (On demand)

FLAG 290  Special Studies: German  
(1,2)
Study beyond the scope of the existing curriculum.

SPANISH

FLAS 111  First-Year Spanish I  
(3)
FLAS 112  First-Year Spanish II  
(3)
Basic competency in understanding, speaking, reading, and writing. (Fall/Spring)

FLAS 114  Conversational Spanish I  
(3)
FLAS 115  Conversational Spanish II  
(3)
A beginning level class for adult students who wish to develop a basic vocabulary for speaking and understanding Spanish socially, on the job or south of the border. (Fall/Spring)

FLAS 117  Career Spanish I  
(3)
FLAS 118  Career Spanish II  
(3)
For students with or without prior knowledge of Spanish who wish to speak and understand the vocabulary and phrases most frequently encountered in the fields of air transportation, agriculture, automotive services, business, child care, education, engineering, geology, hotel, motel, restaurant and resort management, law enforcement, pre-dentistry, nursing, pre-medicine, ranching, retail sales, social work, and travel, recreation, and hospitality management. (Fall/Spring)

FLAS 251  Second-Year Spanish I  
(3)
FLAS 252  Second-Year Spanish II  
(3)
Reinforces and expands the four basic language skills developed in the first-year course and provides exposure to a wider variety of cultural materials and situations. Prerequisites: two years of high school Spanish, FLAS 111 and 112, or consent of instructor. (Fall/Spring)

FLAS 311  Third-Year Spanish I  
(3)
FLAS 312  Third-Year Spanish II  
(3)
Continuation of the study of Spanish with emphasis on improving speaking, reading, and writing skills. Reading content will include the literature, culture and history of Spain. Prerequisites: FLAS 251 and 252 or consent of instructor.

FLAS 336  Introduction to Hispanic Literature  
(3)
An introduction to the concepts and principles found in Hispanic literature with an emphasis on culture, linguistic, and literary differences. Prerequisites: FLAS 252. (Alternate Spring)
FLAS 385 Advanced Grammar and Composition (3)
A study of the specific components of Spanish grammar with particular emphasis on editing
tools, stressing the actual writing of compositions, journals, letters, and some creative writing.
Prerequisites: FLAS 252. (Alternate Fall)

OTHER LANGUAGES

FLAV 290, 390 Special Studies in Foreign Languages (1,2,3)
These courses are currently offered through Outreach: Ancient Greek, Latin, Advanced French,
German, Spanish and other Classical and Modern Languages as permitted by interest and in-
structor availability.

FLAV 395 Independent Study (1-3)
FLAV 396 Topics (1-3)
FLAV 495 Independent Study (1-3)
FLAV 496 Topics (1-3)

GEOGRAPHY

School of Humanities and Social Sciences

GEOG 103 World Regional Geography (3)
Survey of world geography by major world regions including an analysis of the physical ele-
ments, the inhabitants, and human occupancy patterns and an evaluation of the potential of each
region for sustaining human populations. (Fall/Spring)

GEOLOGY

School of Natural Sciences and Mathematics

GEOL 100 Survey of Earth Science (3)
Physical makeup of the earth, its history, and geology. One field trip is required. Intended for
students with majors other than one of the sciences. (Fall/Spring)

GEOL 103 Weather and Climate (3)
Non-mathematical introduction to elements of local and global weather: the atmosphere, cloud
formation, precipitation, seasons, optical phenomena and violent storms. Students practice mak-
ing 24-hour weather forecasts. (Fall)

GEOL 105 Geology of Colorado (3)
Introduction to minerals, rocks, geologic time scale and basic geologic terms, followed by geology
of Colorado taught with the aid of movies and slides. A one-day field trip is required. (Fall/Spring)

GEOL 111 Principles of Physical Geology (3)
GEOL 111L Principles of Physical Geology Laboratory (1)
Materials that make up the earth and surface and interior processes that interact to produce the
present features of the earth. Laboratory: minerals, rocks, topographic maps, earthquakes, and
landforms. Three lectures and one two-hour laboratory per week. (Fall/Spring)

GEOL 112 Principles of Historical Geology (3)
GEOL 112L Principles of Historical Geology Laboratory (1)
Origin of the earth and life, changes recorded in rocks and fossils using the geologic time scale
and techniques of dating to place events in sequence. Laboratory: topographic and geologic maps,
hand samples of rocks, reconstruction exercises, and fossils to interpret regional and general
geologic history. One all-day field trip is required. Four lectures and one two-hour laboratory per
week. Prerequisite: GEOL 111 or consent of instructor. (Spring)
GEOL 202  Introduction to Field Studies  (3)
Mapping of several small areas using plane table and alidade, transit, and pace and compass
methods. Profiles, cross-sections, and maps are prepared. Three lectures per week and some
unscheduled time is required to do mapping projects. Prerequisite: consent of instructor. (Spring)

GEOL 203  Introduction to Environmental Geology  (3)
Relationship of man to the geological environment through consideration of population, pollution,
waste disposal, resource depletion, land use, governmental policy and natural hazards. One
field trip required. (Fall/Spring)

GEOL 301  Earth Tectonics  (3)
GEOL 301L  Earth Tectonic Laboratory  (1)
Descriptive geometry, occurrences of rock structures, principles of rock deformation, and origin
of stresses. Laboratory: stereographic and graphical solution of structural problems, the study of
maps and cross sections, and some field problems. Three lectures and one two-hour laboratory
per week. Prerequisites: GEOL 111 and Math 130. (Fall)

GEOL 325  Introduction to Engineering Geology  (3)
Geologic principles applied to construction problems; case histories of major projects. Field
trips and term project required. Prerequisite: GEOL 111 or consent of instructor. (On demand)

GEOL 331  Mineral Studies  (3)
GEOL 331L  Mineral Studies Laboratory  (1)
Morphology and classification of crystals; chemistry and genesis of minerals. Laboratory: identification
of minerals and crystals by spectroscope, X-ray diffraction, and hand specimens. Three lectures
and one two-hour laboratory per week. Prerequisite: CHEM 131 or consent of instructor. (Fall)

GEOL 333  Geology of the Grand Canyon  (1)
Three two-hour evening lectures with films and slides used to preview the Grand Canyon and
surrounding area. A strenuous backpacking trip is required to the bottom and out of the canyon.
Prerequisites: GEOL 100, 105 or 112. (Spring break/on demand)

GEOL 340  Petrology  (3)
GEOL 340L  Petrology Laboratory  (1)
Origin, composition, and classification of igneous, sedimentary, and metamorphic rocks. Laboratory:
identification of rocks in hand specimens and some thin sections, and some analytical techniques.
Three lectures and one two-hour laboratory per week. Prerequisite: GEOL 331. (Spring)

GEOL 351  Applied Geochemistry  (3)
Geochemistry and its relationship to weathering and soils, geochemical surveys and prospecting
techniques, reactions of contaminants with earth materials, and methods of reducing environmental
degradation. Prerequisites: GEOL 111, 111L, CHEM 121, 121L, 122 and 122L. (On demand)

GEOL 359  Non-Metallic Mineral Deposits  (3)
Origin, location, and economics of non-metallic geologic commodities, including phosphates, evaporites,
oil, gas, coal, and sedimentary uranium deposits. Students give oral and written reports on two
localities. Prerequisites: CHEM 131, 131L, 132, 132L, or consent of instructor. (Alternate Spring)

GEOL 361  Metallic Mineral Deposits  (3)
Ore genesis, mineral associations, alterations, residual deposits, and placer deposits of minerals.
Students give oral and written reports on two deposits. Prerequisites: GEOL 331, 331L, CHEM
131, 131L, 132, 132L, or consent of instructor. (Alternate Spring)

GEOL 380  Field Studies  (6)
Techniques used by the field geologist including section measuring, use of aerial photographs,
plane table and alidade, and collection of samples. Data used to prepare geologic maps and
reports. Students will camp out approximately three weeks during this course. Five eight-hour
days per week. Prerequisites: GEOL 111, 112, 301, 331, 340. (Summer, alternate years)
GEOL 390  Computer Applications in Geology  (3) Quantitative methods of geologic data analysis with the data manipulated on the computer. Methodical approach with limited theoretical emphasis; statistical concepts; special programs for graphical presentation and analysis. Three lectures per week and computer laboratory time to complete exercises are required. Prerequisite: GEOL 111, 111L, 112, 112L, STAT 200 or consent of instructor. (Fall)

GEOL 395  Independent Study  (1-3)

GEOL 396  Topics  (1-3)

GEOL 402  Applications of Geomorphology  (3)

GEOL 402L  Applications of Geomorphology Laboratory  (1)

Knowledge of landform genesis and shaping processes is applied to solve modern problems with emphasis on local soils, slopes, rivers, erosional surfaces, and structural framework. Laboratory and field studies used to explore frost, running water, slope movement, ground water, wind, and glaciers which have affected the local environment. Practical techniques of measurement and interpretation, including statistical and computer techniques, used to produce models of landscape development. A term project must be completed. Two major field trips are required. Four lectures and one two-hour laboratory per week. Prerequisite: consent of instructor. (Fall)

GEOL 404  Geophysics  (3)

GEOL 404L  Geophysics Laboratory  (1)

Exploration for mineral and petroleum and preliminary investigation of sites for engineering and environmental projects with emphasis on refraction and reflection seismic, gravity, magnetic, electrical, electromagnetic ground-penetrating radar and radioactive methods. Laboratory: interpretation of data, computer applications, and field trips. Four lectures and one two-hour laboratory per week. Prerequisites: GEOL 111, 111L, PHYS 112, (calculus is recommended but not required) or consent of instructor. (Fall)

GEOL 405  Solid Earth Geophysics  (3) Classical physics applied to the study of the earth with emphasis on the origin of the earth, its gravitational, geomagnetic, and geothermal characteristics, seismicity, the dynamics of the earth's crust, plate tectonics, and continental drift. One field trip required. Prerequisites: GEOL 404 or consent of instructor. (On demand)

GEOL 411  Paleontology  (3)

GEOL 411L  Paleontology Laboratory  (1)

Taxonomy, morphology, ecology, and geologic range of most groups of invertebrate fossils. Laboratory: field identifications of guide fossils. A one-day field trip is required. Two lectures and one two-hour laboratory per week. Prerequisite: beginning Biology course or consent of instructor. (Spring)

GEOL 415  Introduction to Ground Water  (3)

GEOL 415L  Introduction to Ground Water Laboratory  (1)

Relationships of ground water to other water sources, hydrologic cycle, water balance, hydrologic characteristics of rocks, hydraulics and equations defining flow, ground water quality, and contamination, exploration and measurement techniques (including geophysical procedures), state and federal regulations, and computer modeling. Laboratory: Acquisition, analysis, and interpretation of ground water data. Prerequisites: GEOL 111, 111L, MATH 151, and at least high school level biology, chemistry and physics. Three lectures and one two-hour laboratory per week. (Fall)

GEOL 444  Stratigraphy and Sedimentation  (3)

GEOL 444L  Stratigraphy and Sedimentation Laboratory  (1)

Sequences of sedimentary rocks with emphasis on rock classification and the correlation between the local section and nearby areas, including the Grand Canyon. Sedimentary environments are stressed. Laboratory: field identification of sedimentary rocks using laboratory samples and local outcrops. Two one-day field trips are taken. Three lectures and one two-hour laboratory per week. (Fall)
GEOL 476  Optical Mineralogy and Petrography (2)
GEOL 476L  Optical Mineralogy and Petrography Laboratory (2)
Theories and principles of optical mineralogy and the microscope descriptions of rocks are applied to their classifications. Laboratory: study of thin sections. Two lectures and two two-hour laboratories per week. Prerequisites: GEOL 331, 340, PHYS 112. (On demand)

GEOL 490  Seminar (3)
Well logging techniques and characteristics of well logs; recent developments, concepts, and theories relating to petroleum, mineral deposits, tectonics; and other topics of current interest are discussed by students in a seminar setting. Prerequisites: upper division standing and consent of instructor. (Spring)

GEOL 495  Independent Study (1-3)

GEOL 496  Topics (1-3)

GRAPHIC ART

School of Humanities and Social Sciences

GRAR 215  Fundamentals of Computer Graphics (3)
Basic use and operation of graphics computer, exclusively Macintosh, with focus on terminology, hardware, peripheral devices, system management, and software (systems and applications). Including establishment of operation files, job information files, information capture and placement, and maintenance. Note: GRAR 221 shall be taken concurrently with GRAR 215. (Fall)

GRAR 221  Graphic Layout and Design (3)
Principles of design and layout techniques, including thumbnails, rough, and comprehensive layouts; work planning and preparation of artwork with focus on computer and hand generated images. Note: GRAR 215 shall be taken concurrently with GRAR 221. Prerequisites: ARTE 101, 102, 151. (Fall)

GRAR 301  Computer Illustration Techniques (3)
Focus on developing knowledge and skills to produce computer generated artwork, both black/white and color, including color separation camera ready art using software application programs primarily on Macintosh computers. Prerequisite: GRAR 215. (Spring)

GRAR 320  Letterforms and Typography (3)
Study of letterforms and typography including terminology, type style identification and design, use of type within a design, composition, copyfitting, and basic principles of pattern and spatial design. Prerequisite: GRAR 221. (Fall)

GRAR 337  Applied Illustration (3)
Using both computer and hand generated images, the focus will be on creating images that will solve client communications problems, including story, advertising, and specialty illustrations. Prerequisite: GRAR 221. (Spring)

GRAR 338  Advertising Design I (3)
Advanced study and production of designs and layouts with emphasis on advertising art; including computer generated images, selection of design elements with focus on color choice, image choice, and copy choice; client presentations and camera-ready images. Prerequisite: GRAR 221. (Fall)

GRAR 339  Advertising Design II (3)
Advanced study and production of designs and layouts with emphasis on corporate art; including image, forms, and signage created with computer generated applications, selection of design elements with focus on color choice, image choice, and copy choice; client presentations and camera-ready images. Prerequisite: GRAR 338. (Spring)
GRAR 437  Applied Illustration II  (3)
Advanced study using both computer and hand generated images, the focus will be on creating images that will solve client communications problems, advertising, and specialty illustrations. Prerequisite: GRAR 337. (Spring)

GRAR 439  Advertising Design III  (3)
Further study of advanced design and layouts with emphasis on corporate art; including image, forms, and signage created with computer generated applications, selection of design elements with focus on color choice, image choice, and portfolio quality pieces. Prerequisite: GRAR 339. (Spring)

GRAR 493  Portfolio Construction  (3)
Assigned designed problems and development of items for assembly into a portfolio to be used as employment material. Prerequisite: GRAR 337, GRAR 338, GRAR 339. (Spring)

GRAR 499  Internship  (3)
Placement in an agency or corporate department to provide an enhanced transition from the classroom to the work setting through first-hand experience. The student is expected to complete 135 clock hours. (Fall/Spring)

HISTORY

School of Humanities and Social Sciences

HIST 101, 102  Western Civilizations  (3,3)
Political, social, economic, and cultural history of Western mankind from ancient times to modern times. (Fall/Spring)

HIST 131, 132  United States History  (3,3)
History of the United States from Colonial period to modern times. (Fall/Spring)

HIST 136  Introduction to the Afro-American Experience  (3)
Afro-American experience from beginnings in Africa to the present. (On demand)

HIST 137  Introduction to the Chicano Experience  (3)
Spanish and Indian backgrounds and the social, cultural, economic, and political roles of Chicanos in the United States since 1848. (On demand)

HIST 301  History of England Since 1485  (3)
England, Great Britain and the Empire/Commonwealth from the first Tudor to the present. Prerequisites: HIST 101, 102. (On demand)

HIST 304  History of Colorado  (3)
History of the state from pre-historic to modern times. (Fall/Spring)

HIST 306  History of South and Southeast Asia  (3)
History of those areas of Asia within the influence of Indic Civilization, with emphasis on the roles of Hindu, Buddhist, and Muslim religions. Prerequisites: HIST 101, 102. (On demand)

HIST 310  Latin American Civilization  (3)
Historical development of Latin America from pre-Columbian times to the present. Prerequisite: HIST 102 or consent of the instructor. (Fall)

HIST 315  American Indian History  (3)
American Indian history from pre-Columbian America to the present with an emphasis on federal Indian policy. Case studies will also address the adaptation of Indian people to changing social and economic conditions. Prerequisites: HIST 131 and 132. (Fall)
HIST 320  The American West
The American West from pre-Columbian times through the Twentieth Century with special emphasis on the diverse cultures and ecological factors which have defined the region. Prerequisites: HIST 131, 132, or consent of instructor. (Fall)

HIST 330  History of 19th Century Europe
Political, social, intellectual, and diplomatic forces operating in Europe between the French Revolution and World War I. Prerequisites: HIST 101, 102. (Spring)

HIST 331  The 20th Century
Investigation of the development of our modern world since World War I with emphasis on Europe and its role in that process. Prerequisites: HIST 101, 102 or consent of the instructor. (Fall)

HIST 332  History of Modern Warfare
War, its causes, consequences, and impact on history from the 18th century to the present. Prerequisites: HIST 101, 102. (Fall)

HIST 340  History of the Islamic World
The origins, spread, and influence of the Islamic world, including the Middle East and North Africa with emphasis on its position in modern world affairs. Prerequisites: HIST 101, 102. Prerequisites: HIST 101, 102. (Spring)

HIST 342  The Age of Jefferson and Jackson
The social and intellectual developments in America from 1800-1850 with special emphasis on the influences of Presidents Thomas Jefferson and Andrew Jackson. Prerequisites: HIST 131, 132, or consent of instructor. (Fall)

HIST 344  The Age of Industry in America
The social, intellectual, and political events in the United States from the end of the Civil War to the beginning of the Great Depression. Prerequisites: HIST 131, 132, or consent of instructor. (Fall)

HIST 346  History of Modern America
The social, intellectual, and political events in the United States from the Great Depression to the present. Prerequisites: HIST 131, 132, or consent of instructor. (Spring)

HIST 350  Renaissance and Reformation
Examines the political and social context of the Renaissance and Reformation. Prerequisites: HIST 101. (Alternate Fall)

HIST 360  Medieval Europe
Examines the political, social, and religious institutions of Medieval Europe (300-1475). Prerequisites: HIST 101, 102. (Alternate Spring)

HIST 395  Independent Study
(1-3)

HIST 396  Topics
(1-3)

HIST 400  The Soviet Union and Eastern Europe
Imperial Russia, the Soviet Union, and Eastern Europe from 1900 to the present. Prerequisite: HIST 101, 102 or consent of instructor. (Spring)

HIST 401  East Asia: The Formative Period
China, Japan, Korea, and Vietnam before the coming of the West. Prerequisites: HIST 101, 102. (Fall)

HIST 403  East Asia and the Modern World
China, Japan, Korea, and Vietnam since 1840. Prerequisite: consent of instructor. Prerequisites: HIST 101, 102. (Spring)
HIST 404  Introduction to Historical Research (3)
History-specific research with emphasis on utilization of primary documents and practice in conducting research and reporting results. Prerequisite: twelve hours college history courses or consent of instructor. (Fall)

HIST 405  Introduction to Public History (3)
Exploration of non-academic historical skills employed in museum work, archival management, and positions with historical societies and historic preservation agencies. Career opportunities will be examined. Prerequisites: HIST 131, 132, or consent of instructor. (Spring, alternate years)

HIST 410  Environmental History of the U.S. (3)
The evolution of public attitudes and governmental policies and practices relative to the wilderness, natural-resource development, and the natural environment from colonial times to the present. Prerequisites: HIST 131, 132, or consent of instructor. (Spring)

HIST 420  Civil War and Reconstruction (3)
The causes and outcomes of the American Civil War and Reconstruction periods. Prerequisites: HIST 131, 132, or consent of instructor. (Spring)

HIST 430  The Ancient Mediterranean World (3)
The Mediterranean world from pre-classical times to the fall of the Roman Empire. Prerequisites: HIST 101, 102, or consent of instructor. (Fall)

HIST 435  Classical Archaeology (3)
Examines the archaeological evidence for some of the ancient Mediterranean civilizations and how the historian uses archaeology to better understand the ancient world. Prerequisite: HIST 101. (Alternate Fall)

HIST 440  Early and Medieval Christianity (3)
Examines the historical development of Christianity through the middle ages, focusing on the social (marriage and family) and political (kingship) consequences of Christianity. Prerequisites: HIST 101. (Alternate Spring)

HIST 495  Independent Study (1-3)

HIST 496  Topics (1-3)

HUMAN PERFORMANCE AND WELLNESS
School of Professional Studies

ACADEMIC

HPWA 100  Health and Wellness (1)
The presentation of information concerning the benefits, positive effects, assessment, and implementation of healthy life styles. (Fall/Spring)

HPWA 200  Introduction to Human Performance and Wellness (2)
An orientation to the breadth, scope, nature, and history of the professional program in human performance and wellness. (Fall)

The following series of courses is designed to acquaint prospective physical educators and recreators with the skills, instructional procedures, techniques, progressions and officiating of selected sports normally taught in the public schools and played in recreational facilities.

HPWA 210  Methods of Archery (On demand) (1)
Prerequisite: HPWE 119 or consent of instructor.
HPWA 213 Methods of Physical Fitness (Spring)
Prerequisite: HPWA 100

HPWA 215 Methods of Softball (Alternate spring)
Prerequisite: HPWE 152 or consent of instructor.

HPWA 216 Methods of Flag Football (Alternate fall)
Prerequisite: HPWE 166 or consent of instructor.

HPWA 217 Methods of Handball and Racquetball (Alternate fall)
Prerequisite: HPWE 123 or consent of instructor.

HPWA 219 Methods of Ballroom Dancing (Alternate fall)

HPWA 220 Methods of Folk and Square Dance (Alternate fall)

HPWA 222 Methods of Basketball (Alternate fall)
Prerequisite: HPWE 164 or 165 or consent of instructor.

HPWA 223 Methods of Volleyball (Alternate fall)
Prerequisite: HPWE 162 or 163 or consent of instructor.

HPWA 224 Methods of Golf (Alternate spring)
Prerequisite: HPWE 115 or 116 or consent of instructor.

HPWA 225 Methods of Tennis (Alternate fall)
Prerequisite: HPWE 121 or 122 or consent of instructor.

HPWA 226 Methods of Badminton (Alternate spring)
Prerequisite: HPWE 117 or consent of instructor.

HPWA 227 Methods of Track and Field (Spring)

HPWA 228 Methods of Soccer (Alternate spring)
Prerequisite: HPWE 136 or consent of instructor.

HPWA 229 Methods of Gymnastics, Stunts, and Tumbling (Fall)

HPWA 230 Methods of Aerobics Training (Alternate Spring)

HPWA 231 Methods of Bowling (Alternate fall)
Prerequisite: HPWE 113 or 114 or consent of instructor.

HPWA 232 Methods of Wrestling (On demand)
Prerequisite: HPWE 145 or consent of instructor.

HPWA 233 Methods of Weight Training (Spring)
Prerequisites: HPWE 129 or HPWE 128 or consent of instructor.

HPWA 234 Prevention and Care of Athletic Injuries
Procedures and techniques involved in preventing and treating common injuries associated with competitive athletics. (Fall)

HPWA 250 Lifeguard Training
An American Red Cross course leading to certification of qualified students. (Fall)

HPWA 251 Water Safety Instructors Course
An American Red Cross course leading to certification of qualified students. (Spring)

HPWA 256 Creative Play Activities in Dance
Emphasizes creative movement exploration for children in dance through the Laban theories of body, effort, space, and relationship. (Fall/Spring)
HPWA 260 School and Personal Health (3)
School and personal health problems with emphasis on the development of proper health attitudes and practices, and application of health knowledge and practice in school situations. Prerequisites: HPWA 100. (Fall/Spring)

HPWA 265 Standard First Aid and Cardio-Pulmonary Resuscitation (2)
Knowledge and skills required to meet the needs of most emergency first aid and CPR situations. (Fall/Spring)

HPWA 297 Practicum (1,2)
Supervised assistantship with physical educators or recreation practitioners. (Fall/Spring)

HPWA 301 Tests and Measurements in Physical Education (2)
Modern testing and evaluation programs applied to physical education including biological, neuromuscular, personal, social, and interpretive development. Prerequisite: HPWA 200. (Spring)

HPWA 302 Advanced Athletic Training Principles (3)
Lectures and laboratory presentations relative to physical aspects of Sports Training; rehabilitation, nutrition, prevention, evaluation and injury management. The medical aspects of sports are emphasized. Prerequisites: HPWA 234, and BIOL 141 or consent of instructor. (Spring)

HPWA 307 Philosophy and Psychology of Coaching (2)
Fundamental philosophical and psychological principles related to coaching competitive athletic teams. (Alternate spring)

HPWA 309 Anatomical Kinesiology (2)
The mechanics of sport-related human movement through a study of selected physical, anatomical, and physiological factors affecting human performance. Prerequisites: BIOL 141, 141L, HPWA 200. (Fall)

The following is a series of courses designed to acquaint students with fundamental techniques, movements, strategies, patterns, officiating, and ethics of selected competitive athletics. Prerequisites: comparable methods course for each or consent of instructor.

HPWA 310 Sports Theory/Officiating - Football (Alternate Fall) (2)
HPWA 311 Sports Theory/Officiating - Basketball (Alternate Fall) (2)
HPWA 313 Sports Theory/Officiating - Baseball and Softball (Alternate Spring) (2)
HPWA 314 Sports Theory/Officiating - Track and Field Events (Alternate Spring) (2)
HPWA 315 Sports Theory/Officiating - Volleyball (Alternate Fall) (2)

HPWA 320 Elementary School Physical Education (3)
The selection and instruction of physical activities for children including movement exploration and fundamentals, rhythms, stunts and tumbling, creative dance, low key and classroom games, and physical fitness. (Fall)

HPWA 350 Motor Development (3)
Study of life span motor development, age changes, maturity, gender, and individual differences. Prerequisites: HPWA 200. (Fall)

HPWA 365 Advanced First Aid (3)
Advanced knowledge and skills required to meet the needs of most emergency situations. Includes monitoring vital signs, CPR for professional rescuer, childbirth, triage, and transport of victims. (Alternate Spring)

HPWA 495  Independent Study  (1-3)
HPWA 496  Topics  (1-3)
HPWA 499  Internship  (3-12)

Work experience obtained on a job where assignments are related to the student's specific concentration area within the Human Performance and Wellness degree. Prerequisites: Human Performance and Wellness major, senior standing. (Summer/Fall/Spring)
ACTIVITY

The following courses meet the physical education requirement for graduation. All students seeking a baccalaureate must take HPWE 100 along with one course from the Aerobic Fitness list below and one additional course from either the Aerobic Fitness list or the Lifetime Activity list. All students seeking an associate degree must take HPWE 100 plus one course from the Aerobic Fitness list. Each activity course is scheduled for an eight-week module and includes lectures on the history, rules, and techniques of the activity and participation in the activity. Students are examined both on knowledge of the activity and proficiency in the activity. No HPWE courses may be used as electives toward any degree or certificate.

Physical education courses numbered 180-189 designates the first year of varsity athletics; 280-289, the second; 380-389, the third; and 480-489, the fourth. These courses must be taken in sequence. In addition to the rules above for HPWE courses, the following apply:

- Only one varsity sport activity course, numbered HPWE 180-189, may be used to meet the College physical education activity requirement.
- A student may elect to register for a particular varsity sports class for credit as many as four times (once at each level).
Varsity sports activity credit at the 300 and 400 level may not be counted towards the forty (40) credit hour upper division requirement for graduation unless they are a required part of a degree program.

**Lifetime Activity Courses** (1 each)

Regular weekly meetings on campus with a faculty supervisor in addition to an off-campus internship. Prerequisites: senior standing in the Bachelor of Arts program in Social and Behavioral Sciences and consent of instructor. Internship must be arranged for the semester prior to enrollment. (Fall/Spring)
HUMANITIES

School of Humanities and Social Sciences

HUMA 200 History and Development of Books (3)
History and development of the book from hieroglyphic texts to the present viewed in the context of changing technologies and various social, cultural, and economic influences. (Spring)

HUMA 201 Field Studies in Humanities (1)
Study/travel tours of varying lengths in the United States and foreign countries to acquaint students in some depth with particular aspects of world culture (language, the arts, literature, etc.) both contemporary and historical. (On demand)

HUMA 301 Field Studies in Humanities (3)
Prerequisite: junior or above standing. (On demand)

HUMA 395 Independent Study (1-3)

HUMA 396 Topics (1-3)

HUMA 495 Independent Study (1-3)

HUMA 496 Topics (1-3)

HUMA 499 Internship (8)
See faculty adviser for details. (On demand)

INTERDISCIPLINARY STUDY

School of Humanities and Social Sciences

INTR 400 San Juan Symposium (6)
An interdisciplinary study of regional biology, geology, and history, combining classroom study on campus with field study in the San Juan Mountains of Colorado. Elective credit only; may not be used to meet requirements of a discipline in Mesa State College degree programs. Prerequisites: upper division standing and consent of instructor. Not open to freshmen and sophomores. (Summer on demand)

LEGAL ASSISTANT

School of Professional Studies

LEGA 198 Introduction to Legal Assistant (3)
Techniques and procedures needed by Legal Assistants nationwide. Provides a perspective of the person in the profession, seeks to develop ethics, moral, and professional standards, and enthusiasm and loyalty between employer and employee. Prerequisite: admission to the Legal Assistant Program. (Fall)

LEGA 200 Real Property (3)
Ownership and interests in land, including security interests; methods of determining who has an interest in property, such as title examination; types of interests which may attach other than complete ownership; documents relating to property interests and their preparation; and pleading, practice, and procedure. Prerequisite: admission to the Legal Assistant Program.

LEGA 202 Business Organizations (2)
Basic types or forms of businesses and advantages and disadvantages of each, including the documents and forms necessary to form each type of business organization. Organizations studied include proprietorships, partnerships, and corporations. Prerequisite: admission to the Legal Assistant Program.
LEGA 204  Deedrent Estates  (2)
Passage of title to property at death, by will, or otherwise. Estate planning and preparation of the basic document of transfer—the will; intestate succession; planning of estates, tax matters, probate, will contests, and the necessary pleadings, practice, and procedure. Prerequisite: admission to the Legal Assistant Program.

LEGA 206  Creditor's Rights  (3)
Methods of debt collection and enforcement of judgments and basic practice in Federal Bankruptcy Court. Areas covered: bills, notes, and other debts securing judgments; enforcement of money judgments, liens, garnishments, Federal Bankruptcy, and necessary pleadings, practice, and procedure. Prerequisite: admission to the Legal Assistant Program. (Fall)

LEGA 207  Introduction to Law and Legal Research  (3)
Theories of constitutional law, civil and criminal, statutory, court systems, pleadings, and forms; methods of research to locate written laws and court decisions; theories of tort, agency, contracts, and personal property. Preparation and pleadings for court use; legal ethics, general practice, and procedure. Prerequisite: admission to the Legal Assistant Program. (On demand)

LEGA 210  Litigation  (3)
Introduction to the adversary system of justice and preparation for the graduate to assist attorneys in all aspects of civil litigation, including family law, from the initial client interview through pre-trial discovery and motions practice to trial and post-trial motions and appeals. Students taking this course must be in the Legal Assistant Program. (On demand)

MANAGEMENT  School of Professional Studies

MANG 121  Human Relations in Business  (3)
Human side of organizations: morale, motivation, human needs, minorities as working partners, leadership styles, organizational environment, and other human forces having an impact on business structures. (Fall/Spring)

MANG 201  Principles of Management  (3)
Management as the process of achieving organizational goals or objectives by and through others. Emphasizes functions performed by managers and how they are influenced by forces both within and outside the organization. Managers' use of resources will be investigated. (Fall/Spring)

MANG 221  Supervisory Concepts and Practices  (3)
For practicing or potential supervisors and managers who hold or will hold first-line to middle-level management positions. Focuses on the management functions of planning, organizing, staffing, directing, and controlling and their relation to the daily job of the supervisor. (On demand)

MANG 300  Small Business Management  (3)
Aspects of management uniquely important to small business firms; the economic and social environment in which they function. Prerequisite: MANG 201 or consent of instructor. (Fall)

MANG 301  Organizational Behavior  (3)
Human behavior, its causes and effects in organizational settings. Description of and development of an understanding of human behavior in such settings. Prerequisite: MANG 201 or consent of instructor. (Fall)

MANG 302  Problems in Small Business Operations  (3)
Analysis of managerial problems of small business; preparing a business plan, case studies, outside speakers, and individual reports of local small business enterprises. Students must have an understanding of elementary accounting, finance, and business law. Prerequisites: MANG 201, 300, MARK 231, or consent of instructor, and three hours of ACCT courses beyond 202. (Spring)
MANG 331  Quantitative Decision-Making  (3)
Application of inferential statistics to realistic business situations; use of quantitative tools to enhance business decision-making ability. Descriptive statistics for data summarization, probability theory, distributions, estimation, and index numbers with emphasis on hypothesis testing, analysis of variance, regression/correlation, time series, and introduction to operations research and linear programming. Prerequisites: MATH 121 or 127, STAT 214. (Spring)

MANG 371  Human Resource Management  (3)
Effective use and adaptation to the human resources of an organization through the management of people-related activities including interface activities forming the core of personnel management: work, staffing, compensation, appraisal, training, development, organizational maintenance, and unions. Prerequisites: MANG 201, junior or senior standing, or consent of instructor. (Fall/Spring)

MANG 372  Employment Assessment  (3)
Legal and ethical issues in the pre-employment assessment and screening process. Topics include developing the job profile, developing the application form, developing the structured interview, interviewing techniques, and questioning techniques. Prerequisite: MANG 372. (Fall)

MANG 395  Independent Study  (1-3)

MANG 396  Topics  (1-3)

MANG 401  Advanced Problems in Small Business Operations I  (6)
A Small Business Institute program sponsored by the School of Business and Small Business Administration enables students to furnish management assistance to members of the small business community. Practical training, supplementing academic theory by handling problems in a real business environment. Students must apply at least six weeks before the end of the semester preceding the semester in which they wish to participate. Credit not available through competency or challenge. Prerequisite: MANG 302 and/or consent of instructor. (Fall)

MANG 402  Advanced Problems in Small Business Operations II  (6)
Continuation of MANG 401. Prerequisites: MANG 302 and/or consent of instructor. (Spring)
(Not necessary to complete MANG 401 before 402.)

MANG 421  Credit and Collection Management  (3)
Consumer and commercial credit in relationship to the management of credit by business firms, legal aspects of credit extension and current legislation. Information on credit operations of business for both students of business and practicing businessmen. Prerequisites: ACCT 202, MANG 201 or consent of instructor. (Spring)

MANG 431  Total Quality Management  (3)
Study of Total Quality Management as it is used in public and private organizations, including theory and practice, teamwork, continuous quality improvement, and statistical process control. Prerequisites: MANG 201, MANG 301, and senior standing. (Fall)

MANG 451  Career Research and Development  (3)
Principles and techniques involved in a job search with emphasis on conducting career research, identification of goals, preparing a job campaign, and elements of a job interview. Preparation of a job kit including a prospect list, resume, cover letter, advertisements, prospect letters, and sales and follow-up letters which can be used in a job search. Prerequisite: senior standing or consent of instructor. (Fall/Spring)

MANG 471  Production/Operations Management  (3)
The use of resources in producing goods and services; concepts of planning, scheduling, and controlling productive activities and physical resources. Prerequisites: MANG 331, FINA 339. (Fall/Spring)
MANG 491  Business Policies and Management  (3)
Duties and responsibilities of top management in establishing policies, objectives, and future plans for business organizations. Includes complex cases taken from actual experiences in situations involving policy decisions. Required of all BBA and BS accounting students. Prerequisites: all required core and emphasis concentration courses must be completed or concurrently enrolled and senior standing. (Fall/Spring)

MANG 495  Independent Study  (1-3)

MANG 496  Topics  (1-3)

MANG 499  Internship  (3-12)
Opportunity to learn more about management functions and activities through exposure to an actual business or agency environment. Observation and participation in management activities enable students to relate classroom theory to on-the-job experiences. Students must apply for this course at least six weeks prior to the end of the semester preceding the semester in which they wish to take the course. Credit not available through competency or challenge. Prerequisites: BBA major, second semester junior or senior, and consent of instructor. (Fall/Spring/Summer)

MARTKETING

MARK 231  Principles of Marketing  (3)
Use and development of marketing strategy and the effects of buyer motivation. Major functions of marketing, buying, selling, distribution, pricing, advertising, and storage are studied. A contrast is made between the two marketing institutions: wholesaling and retailing. (Fall)

MARK 232  Advertising  (3)
Modern advertising principles including advertising practices, terminology, the communication process, advertising agencies, media, and methods. Advertising from the business viewpoint, its importance to the consumer and the economy. (Spring)

MARK 235  Principles of Selling  (3)
The salesperson as a counselor whose role is to help buyers make better decisions. Professional salesmanship is recognized as an integral function in modern society with basic sales techniques studied and practiced in sales presentations. Prerequisites: MARK 231. (Fall/Spring)

MARK 325  Retailing  (3)
The retailing environment including retail opportunities, sales stimulation, operating policies and practices, control and service. Case studies and outside speakers supplement class lectures. Prerequisite: MARK 231. (Fall)

MARK 395  Independent Study  (1-3)

MARK 396  Topics  (1-3)

MARK 432  Advanced Marketing  (3)
In-depth complex marketing problems confronting modern business. Development of marketing strategy to allow the firm to progress toward its corporate objectives. Prerequisites: MARK 231. (Fall)

MARK 433  Marketing Research  (3)
Marketing research theory and techniques designed to educate the student in the use of the scientific method, develop analytical ability, present basic marketing research tools, and develop proficiency in the art of writing research reports. Cases and actual research projects will be utilized. Prerequisites: MANG 331, MANG 432. (Spring)

**MASS COMMUNICATIONS**

School of Humanities and Social Sciences

**MASS 101**  
**Mass Media in America**  
(3)  
The role played by media in the everyday lives of citizens, and the economic impact on society.  
(Fall)

**MASS 221**  
**Radio Production and Announcing**  
(3)  
Theory and operation of all technical equipment in a radio control room and studio. Develops voice and reading for broadcasting. (On demand)

**MASS 231**  
**News Writing and Reporting**  
(3)  
Fundamentals of news gathering and writing, interviewing, reporting and writing of newsworthy events and personalities. Work begins on computer VDTs. Stories are submitted for publication and broadcast. Prerequisite: MASS 101 or consent of instructor.

**MASS 302**  
**Photojournalism**  
(3)  
Photojournalism techniques to develop skills, comparable to that of the professional in Mass Media. Each student will develop a portfolio demonstrating a variety of photojournalism skills and prepare pictures for a story. Student furnish 35mm single lens reflex camera and materials. Prerequisites: MASS 101 and 231. (Fall)

**MASS 321**  
**Broadcast Writing**  
(3)  
Techniques and practice in writing broadcast scripts, including news, advertising and documentary. Prerequisite: MASS 231 or consent of instructor. (Spring)

**MASS 335**  
**Public Relations Concepts**  
(3)  
Historical and theoretical approach to contemporary public relations with emphasis on the persuasion process and ethic propaganda, and advertising techniques in the media. Prerequisites: MASS 231 or consent of instructor. (Fall)

**MASS 341**  
**Editing, Layout and Design**  
(3)  
News evaluation, copy reading, headline writing, page make-up, and similar duties of a publication copy editor using computer editing and make-up. Prerequisite: MASS 231 or consent of instructor. (Fall)

**MASS 351**  
**Public Affairs and Feature Reporting**  
(3)  
Reporting on governmental agencies, including courts, police, city and county governments, school boards, and legislatures with emphasis on interpretive skills. Includes feature reporting, sports, human interest, and series articles. Prerequisite: MASS 231 or consent of instructor. (Spring/alternate years)

**MASS 361**  
**Television Production**  
(3)  
Studio and control room operation as well as out-of-studio production, emphasizing video console equipment, cameras, microphones, and video editing. Prerequisite: MASS 221 or consent of instructor. (Spring/alternate years)

**MASS 371**  
**Mass Media Advertising**  
(3)  
Designed to acquaint students with principles of mass media advertising. Study of advertising in perspective, advertising barriers, propaganda techniques, layout and design, and actual production for major media: newspapers, radio, and television. Includes work on computer. Prerequisites: MASS 231, 335. (Alternate Spring)
MASS 395  Independent Study (1-3)
MASS 396  Topics (1-3)
MASS 397  Practicum (1)
Experience with campus media including publications and/or radio station under faculty supervision. Prerequisite: MASS 121, or consent of instructor. (Fall/Spring)

MASS 421  Journalism Law and Ethics (3)
Ethical principles and state and federal laws affecting the reporting of news, expression of opinion, news photos, advertising, and publication of newspapers. Prerequisite: upper class standing or consent of instructor. (Fall)

MASS 435  Public Relations Campaigns (3)
Campaigns and case histories presenting the scope of PR, research methodology, and audience targeting. Practical application of PR theory. Prerequisite: MASS 335 or consent of instructor. (Spring)

MASS 461  Advanced Television Production (3)
Advanced techniques in television production with an emphasis on using ENG/EPF cameras in out-of-studio situations and in video editing. Production of short videos as well as studio productions required. Prerequisites: MASS 221, 321, 361. (Fall, on demand)

MASS 462  Advanced Producing Techniques (3)
Study of the techniques of the video and television producer with hands-on experience in producing industry videos as well as programs for public and commercial television. Prerequisites: MASS 361, 461. (Spring, on demand)

MASS 494  Seminar (1-3)
Major issues of the media in modern culture and media criticism. Prerequisite: Upper division standing. (Spring)

MASS 495  Independent Study (1-3)
MASS 496  Topics (1-3)
MASS 497  Practicum (1)
See MASS 397 course description.

MASS 499  Internship (8,12,15)
Work in newspapers, radio, television, advertising or public relations positions, or other situations that meet instructor's approval. Prerequisite: MASS 231 and 421, plus either MASS 341 and 351, or 361. (Fall/Spring/Summer)

MATHEMATICS

School of Natural Sciences and Mathematics

TI-82 or TI-85 (preferred) or equivalent calculator is recommended or required for mathematics classes. Cost is approximately $70.00 - 125.00.

MATH 090  Introductory Algebra (4)
Introduction to algebra with a review of basic arithmetic. Includes decimals, fraction, percentage, ratio, proportion, signed numbers, algebraic expressions, factoring, exponents and radicals, linear equations, functions and graphs. (Fall/Spring)
MATH 091  Intermediate Algebra  (3)
Further study in topics of algebra. Includes properties of real and complex numbers; laws of
exponents and radicals; factoring polynomials; solving linear and quadratic equations and in-
equalities; rational expressions and complex fractions; introduction to functions and relations;
applications. Prerequisites: one year high school algebra or MATH 090. (Fall/Spring)

MATH 105  Elements of Mathematics I  (3)
Problem solving, sets, numeration systems, integers, number theory and rational numbers. The
underlying mathematical processes and mathematical reasoning are stressed. Designed for the
prospective elementary teacher. Prerequisite: interview and consent of instructor. (Fall/Spring)

MATH 110  College Mathematics  (3)
Essential concepts of mathematics for students in social sciences, psychology, nursing, etc. Top-
ics include solving equations, graphing, sets, calculators, counting, probability, logic, geometry,
summations, interest, annuities, and descriptive statistics. Prerequisites: two years of high school
math at the algebra level or higher, or Math 091 or equivalent. (Fall/Spring)

MATH 113  College Algebra  (4)
Systems of integers, rational numbers, real numbers, complex numbers, conic sections, linear
and quadratic relations, exponential and logarithmic functions, functions and their graphs, sys-
tems of equations, higher-degree equations, and inequalities. Prerequisite: MATH 091 or two
years of high school algebra. (Fall/Spring)

MATH 119  Precalculus Mathematics  (5)
Polynomials, exponential and circular functions, inverse functions, conditional equations, matrices,
determinants, systems of equations, complex numbers, vectors, theory of equations, binomial theorem, and trigonometric functions. Prerequisite: MATH 113 or three years of high school
mathematics or consent of instructor. Trigonometry recommended. (Fall/Spring)

MATH 121  Calculus for Business  (3)
Current college algebra skills are required. Linear and quadratic functions, limits and continuity, differ-
ential calculus, exponential and logarithmic functions and their derivatives, integral calculus, and partial
derivatives. Applications in business and economics are emphasized for each major topic. All students
will be required to have a graphing calculator as approved by the Department. Mathematical software
such as MAPLE will be used where applicable. Prerequisite: MATH 113. (Fall/Spring)

MATH 127  Mathematics of Finance  (3)
Simple interest, simple discount, compound interest, continuously compounded interest, annuities,
perpetuities, capitalization, determining payment size, determining outstanding principle, and con-
structing amortization schedules, including the derivation of mathematical formulas and the meth-
ods for solving many financial problems. Prerequisites: MATH 113 or consent of instructor. (Fall)

MATH 130  Trigonometry  (3)
Trigonometric and circular functions, their graphs, triangle solution techniques, identities, solv-
ing trigonometric equations and inequalities and vectors. Prerequisite: MATH 113 or consent of
instructor. (Fall/Spring)

MATH 141  Analytical Geometry  (3)
Cartesian coordinates, distances, parallels, perpendiculars, locus of an equation, general line
forms, general plane forms, general quadratic forms, polar coordinates, vectors in two and three
dimensions, and other selected topics. Prerequisites: MATH 130 or consent of instructor. (Spring)

MATH 146  Calculus for Biological Sciences  (5)
Sets, functions, derivatives, integrals, trigonometry, series, exponential and logarithmic func-
tions, partial derivatives, and multiple integration taught from an intuitive point of view with
many examples from the biological sciences. Prerequisite: MATH 113 or consent of instructor.
(On demand)
MATH 151  Calculus I
Functions, limits of functions, derivatives, definite integral, antiderivatives, applications, trigonometric exponential and logarithmic functions. Prerequisite: MATH 119 or consent of instructor. (Fall/Spring)

MATH 152  Calculus II
Trigonometric and hyperbolic functions, techniques of integration, series, conics, polar coordinates, and parametric equations. Prerequisite: MATH 151. (Fall/Spring)

MATH 205  Elements of Mathematics II
Decimal numbers, probability, statistics, geometry, and the metric system. A continuation of MATH 105 designed for the prospective elementary teacher. Prerequisite: MATH 105 or consent of instructor. (Fall/Spring)

MATH 253  Calculus III
Vectors in three-dimensional space, vector functions, partial derivatives, directional derivative and multiple integrals. Prerequisite: MATH 152. (Fall/Spring)

MATH 260  Differential Equations
Techniques of solving differential equations of order one, linear differential equations, linear equations with constant coefficients, non-homogeneous equations, variation of parameter techniques, and Laplace transforms methods. Prerequisite: MATH 253 or consent of instructor. (Spring)

MATH 265  Linear Algebra
Matrices, solving systems of equations, determinants, vectors, vector spaces, linear transformations and eigenvalues. Prerequisite: MATH 253 or consent of instructor. (Fall/Spring)

MATH 305  Euclidean Geometry
Development of Euclidean Geometry including basic concepts of logic, axiomatic proofs, inductive reasoning, analytic Geometry, applications of technology, and van Hiele levels of learning. Intended for students seeking teacher licensure. Prerequisites: MATH 152 or consent of instructor. (Spring)

MATH 310  Number Theory
Classical number theory including the fundamental theorem of arithmetic, congruences, and linear diophantine equations. Prerequisite: MATH 152. (On demand)

MATH 347  Methods of Teaching Secondary Mathematics
Methods and techniques of teaching mathematics at the secondary education level. Presentation of short lessons by students will constitute a major part of the course. Prerequisite: consent of instructor. (Fall)

MATH 360  Methods of Applied Mathematics
Selection of advanced mathematical techniques of particular use to scientists and engineers including the theory of linear spaces, transform techniques and harmonic analysis, partial differential equations, and tensor analysis on manifolds. Applications are stressed. Prerequisite: MATH 260. (Spring)

MATH 361  Numerical Analysis
Elementary numerical analysis using the hand-held programmable calculator including Taylor's theorem, truncating errors, iteration processes, least squares methods, numerical solution of algebraic and transcendental equations, systems of equations, ordinary and partial differential equations, integral equations, interpolation, finite differences, eigenvalue problems, relaxation techniques, approximations, and error analysis. Prerequisite: MATH 152. (Fall)

MATH 365  Mathematical Modeling
A bridge between calculus and the application of mathematics. Investigation of meaningful and practical problems chosen from experiences, encompassing the disciplines of mathematical sciences, operations research, engineering, management sciences and life sciences. Prerequisites: MATH 265, STAT 200. (On demand)
MATH 369  Mathematical Logic and Discrete Structures  (3)
Elementary logic, induction, recursion, recurrence relations, sets, combinatorics, relations, functions, graphs, trees, and elementary abstract structures. Prerequisites: MATH 121 or 151, MATH 265 or consent of instructor. (Fall)

MATH 370  Discrete Mathematics  (3)
Applications of logic, Boolean algebra and computer logic, abstract structures, coding theory, finite-state machines, and computability. Prerequisites: MATH 369 or MATH 265 and consent of instructor. (Spring)

MATH 380  History of Mathematics  (3)
History of mathematics from antiquity to the present with emphasis upon the development of mathematics concepts and the people involved. Prerequisite: MATH 152. (Spring)

MATH 385  Modern Geometry  (3)
Classical Euclidean geometry of polygons and circles, synthetic geometry, constructions, inversive geometry, finite geometry, geometric transformations, and convexity. Prerequisites: MATH 253. (Fall)

MATH 390  Abstract Algebra  (3)
Mathematical induction, equivalence relations, classical group theory—including quotient groups and group isomorphisms and homomorphisms—and an introduction to rings and fields. Prerequisite: MATH 265. (Alternate Fall)

MATH 391  Abstract Algebra II  (3)
Topics in algebraic structures on groups, rings, fields, and modules. Prerequisites: MATH 390. (Alternate Spring)

MATH 395  Independent Study  (1-3)

MATH 396  Topics  (1-3)

MATH 420  Introduction to Topology  (3)
Important as preparation for graduate work in many areas of mathematics and theoretical physics. An introduction to general topology, topics normally covered include: metric spaces, connectedness, compactness, the separation axioms and the Tychonoff theorem. Intended for mathematically mature students. Prerequisite: MATH 265 or consent of instructor. (On demand)

MATH 450  Complex Variables  (3)
Algebra of complex numbers, analyticity, differentiation and integration of complex functions, Cauchy's integral formulae, and series. Prerequisite: MATH 253. (Fall)

MATH 452  Advanced Calculus  (3)
Sequences, Euclidean spaces, limits of functions, continuity, differentiation, and integration. Prerequisite: MATH 253. (Alternate Fall)

MATH 453  Advanced Calculus II  (3)
Uniform continuity, topology in metric spaces, normed linear spaces, the differential and Ra, Stone-Weierstrass Theorem, connectedness, compactness, complete metric spaces. Prerequisite: MATH 452. (Alternate Spring)

MATH 460  Linear Algebra II  (3)
Characteristics and minimal polynomial, Cayley-Hamilton Theorem, invariant subspaces, bilinear forms, primary decomposition theorem, dual vector spaces. Prerequisite: MATH 265. (Spring)

MATH 495  Independent Study  (1-3)

MATH 496  Topics  (1-3)
### MUSIC

**School of Humanities and Social Sciences**

#### ACADEMIC

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUSA 110</td>
<td>Standard Notation</td>
<td>2</td>
<td>Basic components of written music: note reading, scales, key signatures, intervals, and fundamental rhythm and chord structures. Open to all students. May be required of music majors as prerequisite to MUSA 114. (Fall/Spring)</td>
</tr>
<tr>
<td>MUSA 114</td>
<td>Theory I—Introduction</td>
<td>3</td>
<td>Harmonic principles of the &quot;common-practice&quot; period including scales, intervals, triads and 7th chords. Introduction to part writing and voice leading. Prerequisite: satisfactory score on theory placement examination; concurrent enrollment in MUSA 116; concurrent enrollment in MUSA 130 or prior knowledge of the keyboard. (Fall)</td>
</tr>
<tr>
<td>MUSA 115</td>
<td>Theory II—Diatonic Concepts</td>
<td>3</td>
<td>Continuation of MUSA 114, extending to all types of diatonic 7th chords, and their usages. Includes advanced rules of tonal harmonization. Prerequisite: MUSA 114 or consent of instructor; concurrent enrollment in MUSA 117. Concurrent enrollment in MUSA 131 or prior knowledge of the keyboard is required. (Spring)</td>
</tr>
<tr>
<td>MUSA 116</td>
<td>Ear Training and Sightsinging I</td>
<td>2</td>
<td>Skills developed in reading rhythms, sightsinging, and listening. Emphasis on beginning melodic, harmonic, and rhythmic dictation. To be taken concurrently with MUSA 114. (Fall)</td>
</tr>
<tr>
<td>MUSA 117</td>
<td>Ear Training and Sightsinging II</td>
<td>2</td>
<td>Further development of skills in sightsinging, rhythmic recognition, advanced listening abilities, including dictation of melodic and harmonic intervals, chord progressions, and two, three, and four-part chorales. To be taken concurrently with MUSA 115. Prerequisite: MUSA 116. (Spring)</td>
</tr>
<tr>
<td>MUSA 128</td>
<td>Workshop in Music</td>
<td>1,2,3</td>
<td>Consists of specialized workshops in various aspects of music made possible by visiting artists and/or lecturers. (Fall/Spring, on demand)</td>
</tr>
<tr>
<td>MUSA 130</td>
<td>Class Piano I</td>
<td>2</td>
<td>For major and non-major students. Application of scales, chords and elements of music at the keyboard and development of repertoire. Recommended for all elementary, early childhood majors and music theatre majors. Prerequisite: MUSA 110 (music majors only). (Fall/Spring)</td>
</tr>
<tr>
<td>MUSA 131</td>
<td>Class Piano II</td>
<td>2</td>
<td>The student gains further expertise at the keyboard. Prerequisite: MUSA 130 or consent of instructor. (Fall/Spring)</td>
</tr>
<tr>
<td>MUSA 137</td>
<td>Class Voice I</td>
<td>2</td>
<td>Fundamentals of singing, interpretation and solo repertoire for beginning voice students. (Fall)</td>
</tr>
<tr>
<td>MUSA 138</td>
<td>Class Voice II</td>
<td>2</td>
<td>Concepts of phonetics, language (diction for singers), and solo repertoire. Prerequisite: MUSA 137. (Spring)</td>
</tr>
<tr>
<td>MUSA 214</td>
<td>Theory III—Chromatic Concepts</td>
<td>2</td>
<td>The full use of chromaticism through secondary dominants, altered chords, Neapolitan and augmented sixth chords, and modulation techniques. Continues into 20th Century including the use of advanced chromaticism, serialism, and atonality. Prerequisite: MUSA 115. (Fall)</td>
</tr>
<tr>
<td>Course Code</td>
<td>Course Title</td>
<td>Units</td>
<td>Description</td>
</tr>
<tr>
<td>------------</td>
<td>--------------------------------------------------</td>
<td>-------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>MUSA 215</td>
<td>Theory IV—Twentieth Century Form and Analysis</td>
<td>2</td>
<td>Study of various compositional approaches and techniques of the 20th Century, and correlated with the study of musical form. (Spring)</td>
</tr>
<tr>
<td>MUSA 216</td>
<td>Keyboard Harmony</td>
<td>2</td>
<td>Keyboard and theory skills applied to perform harmonization of a given line, transposition at sight, and open score realization and sightreading at the keyboard. Prerequisite: MUSA 214 and 230. (Spring)</td>
</tr>
<tr>
<td>MUSA 220</td>
<td>Music Appreciation</td>
<td>3</td>
<td>Masterpieces of music, composers, and performers useful for the music student who has a weak background in the Masters. (Fall/Spring)</td>
</tr>
<tr>
<td>MUSA 228</td>
<td>Workshop in Music</td>
<td>1,2,3</td>
<td>Consists of specialized workshops in various aspects of music made possible by visiting artists and/or lecturers. (Fall/Spring, on demand)</td>
</tr>
<tr>
<td>MUSA 230</td>
<td>Class Piano III</td>
<td>2</td>
<td>A concentrated study of repertoire in preparation for the piano proficiency exam. Maximum keyboard time will develop coordination and flexibility. Prerequisites: MUSA 130,131, or consent of instructor. (Fall)</td>
</tr>
<tr>
<td>MUSA 232</td>
<td>String Techniques and Materials</td>
<td>2</td>
<td>Study of violin, viola, cello, and string bass in a class situation. Emphasis is on fundamentals of playing techniques at an elementary level. (Alternate Fall)</td>
</tr>
<tr>
<td>MUSA 233</td>
<td>Woodwind Instruments Techniques and Materials</td>
<td>2</td>
<td>Study of flute, oboe, clarinet, bassoon, and saxophone in a class situation. Emphasis is on fundamentals of playing techniques at an elementary level. (Alternate Fall)</td>
</tr>
<tr>
<td>MUSA 234</td>
<td>Brass Instrument Techniques and Materials</td>
<td>2</td>
<td>A concentrated course to develop a knowledge of the brass instruments and to acquire sufficient skill to demonstrate good tone, technique, and breath control. (Alternate Spring)</td>
</tr>
<tr>
<td>MUSA 235</td>
<td>Percussion Instrument Techniques and Materials</td>
<td>2</td>
<td>The study of methods and materials for teaching beginning percussion in the public school. Includes practical instruction on the instruments utilized in the marching band, orchestra, and stage band. (Alternate Spring)</td>
</tr>
<tr>
<td>MUSA 236</td>
<td>Electronic Instrument Techniques and Materials</td>
<td>2</td>
<td>The study of methods and materials for the introduction to the use of electronic instruments, including the areas of sound reinforcement (microphones and amplification) and sound generation (synthesis) by electronic means. (Alternate Spring)</td>
</tr>
<tr>
<td>MUSA 241</td>
<td>Music and Methods in Early Childhood Education</td>
<td>2</td>
<td>For students who will be working with preschoolers and kindergarten-age students. Through the creative process students develop simple tunes and gain knowledge and appreciation of music. (Fall/Spring)</td>
</tr>
<tr>
<td>MUSA 266</td>
<td>History of Popular Music</td>
<td>3</td>
<td>Differences in style, musical elements, lyrical content, and outstanding artists/writers in the areas of popular, rock, Country Western, and jazz idioms. Evolutionary aspects and social significance are introduced as background references. Guest lectures, class listening sessions, film strips, and music video augment the lecture sessions. Open to all students. (Fall/Spring)</td>
</tr>
<tr>
<td>MUSA 268</td>
<td>Improvisation</td>
<td>3</td>
<td>Materials and techniques for improvisation, including chord and scale construction, modality, harmonic patterns, linear concepts, with emphasis on technique, style and idiomatic usage. (Fall)</td>
</tr>
</tbody>
</table>
MUSA 302  Keyboard Literature (3)
Survey of keyboard music from early Baroque composers such as John Bull to present day composers. Emphasis on composers' styles, various editions, performers, and performance practice. Prerequisites: MUSA 230 or consent of instructor. (Alternate Spring)

MUSA 303  Symphonic Literature (3)
Survey of music from early instrumental to present-day compositions. Emphasis on composers’ styles, orchestras, conductors; chamber orchestra music also included. Prerequisites: MUSA 215. (Alternate Fall)

MUSA 310  Accompanying Techniques (2)
Development of accompanying proficiency, including listening skills, form, and analysis of the music to be performed; rehearsing techniques; accompanying repertoire for vocal; instrumental; and ensemble playing. Prerequisites: MUSA 214, 215 or consent of instructor. (Alternate Fall)

MUSA 316  Counterpoint (2)
Study and writing of 18th Century counterpoint, analysis of contrapuntal forms including two- and three-part inventions and fugue. Prerequisite: MUSA 215. (Alternate Fall)

MUSA 317  Orchestration (2)
Choral and instrumental arranging; instrumentation, scoring, and analysis of harmonic styles of various composers. Students are required to compose and arrange original works. Prerequisite: MUSA 215. (Spring)

MUSA 319  Choral Literature (3)
Historical, analytical, and interpretive study of choral literature spanning the Renaissance through the 20th Century. Important course for those planning to direct choirs. Prerequisite: previous or concurrent enrollment in a Mess State choir or consent of the instructor. (Alternate Fall)

MUSA 318  Vocal Literature (3)
Follows the changing patterns, styles, and fashions of the secular art-song from medieval Europe to Europe and America of the day. Prerequisites: MUSA 137, 138 or concurrent enrollment in private vocal studies. (Alternate Spring)

MUSA 326  Music History and Literature I (3)
Literature and styles of the master composers of music through Ancient, Medieval, Renaissance, and Baroque music. Course work is designed for the fine arts major, utilizing a lecture and listening laboratory format and one scholarly research paper of the student's choice. Open to any student with sufficient background. Prerequisite: consent of instructor. (Fall)

MUSA 327  Music History and Literature II (3)
Literature and styles of the master composers of music through the Classic, Romantic, and Modern ages. Course work is designed for the fine arts major, utilizing a lecture and listening laboratory format and one scholarly research paper of the student's choice. Open to any student with sufficient background. Prerequisite: consent of instructor. (Spring)

MUSA 328  Workshop in Music (1,2,3)
Consists of specialized workshops in various aspects of music made possible by visiting artists and/or lecturers. (Fall/Spring, on demand)

MUSA 337  Diction for Singers (3)
Pronunciation of Italian, German, and French as applied to the performance of vocal literature. (Alternate Fall)

MUSA 340  Teaching Elementary and General Music: Methods, Principles and Materials (3)
For Music Education Majors: The course is designed for standards-based curriculum for elementary and general music classes. Weekly laboratory experiences will be focused on course content dealing with teaching competencies of general music methods and materials. Prerequisites: MUSA 115, 220. (Alternate Spring)
MUSA 360  The Music Business  
Designed to facilitate entry into the professional music arena by providing a background in the business aspects of the profession. Includes contracts, marketing, recording, TV, radio, film, the Musician’s Union, AFTRA, royalties, managers, agents, club owners, and alternate careers. Recommended prerequisite: MUSA 256. (Alternate Fall)

MUSA 361  Songwriting  
Basic skills for the songwriter including correct notation techniques, phrasing, line and climax, standard forms, harmonic and rhythmic idioms, lyrics and content, and preparation of lead sheets. Recommended prerequisite: MUSA 114, 266. (Alternate Fall)

MUSA 362  Commercial Arranging  
Elementary arranging skills including instrumentation, basic problems and principles of orchestration for various groups and functions, standard musical textures, standard voicing techniques, special harmonic practices and analysis of professional arrangements. Prerequisites: MUSA 236, 266. (Alternate Spring)

MUSA 395  Independent Study  
(1-3)

MUSA 396  Topics  
(1-3)

MUSA 410  Vocal Pedagogy  
The physiology of the human vocal mechanism, various teaching styles, vocal problems related to various age groups, and vocal repertoire pertinent to all age groups and levels of development. Prerequisites: MUSA 171, 173 or previous or concurrent enrollment in private vocal studies. (Alternate Spring)

MUSA 428  Workshop in Music  
Consists of specialized workshops in various aspects of music made possible by visiting artists and/or lecturers. (Fall/Spring, on demand)

MUSA 440  Teaching Vocal Music K-12: Methods, Principles, and Materials  
Training in concepts and materials necessary to teach standards-based vocal music in the public schools. Prerequisites: MUSA 137, MUSL 137, or MUSP 150. (Alternate Spring)

MUSA 441  Teaching Instrumental Music K-12: Methods, Principles and Materials  
Designed for standards-based music curriculum for teaching instrumental music in the public schools. Activity will be centered on developing teaching competencies, administration of the music program, and methods, materials, equipment and technology needed for the instrumental music program. (Alternate Fall)

MUSA 450  Beginning Conducting  
Basic concepts and techniques necessary to conduct music competently. Students will be expected to master patterns, fermatas, dynamics, etc. Observation of other conductors and score study is included. Required of all music majors. Prerequisites: MUSA 327. (Alternate Fall)

MUSA 451A  Advanced Conducting, Instrumental  
(2)

MUSA 451B  Advanced Conducting, Choral  
(2)

More difficult techniques such as advanced meters, advanced score study, interpretive conducting and ensemble rehearsal techniques. Required of all music education majors. Prerequisites: MUSA 450. (Alternate Spring)

MUSA 495  Independent Study  
(1-3)

MUSA 496  Topics  
(1-3)
APPLIED MUSIC LESSONS

Applied music lessons may be taken for credit. Students meet weekly with an individual instructor assigned by the music department. An instructional fee is required, and lessons may be taken twice at each level. Music majors required to attend and perform at weekly recitals.

Applied music lessons are offered in the following:

MUSL 130, 230, 330, 430 Keyboard (Fall/Spring) (1-2)
MUSL 131, 231, 331, 431 Guitar (Fall/Spring) (1-2)
MUSL 132, 232, 332, 432 Strings (Fall/Spring) (1-2)
MUSL 133, 233, 333, 433 Woodwind (Fall/Spring) (1-2)
MUSL 134, 234, 334, 434 Brass (Fall/Spring) (1-2)
MUSL 135, 235, 335, 435 Percussion (Fall/Spring) (1-2)
MUSL 136, 236, 336, 436 Electronic Instruments (Fall/Spring) (1-2)
MUSL 137, 237, 337, 437 Voice (Fall/Spring) (1-2)
MUSL 138, 238, 338, 438 Composition (Fall/Spring) (1-2)

PERFORMING

Performance ensembles may be taken twice at each level for credit.

MUSP 101, 201 Music Performance Experience (1)

For students wishing to participate in instrumental and vocal ensembles for fine arts credit toward general education requirements. See music faculty for assignment to appropriate group based on interest and ability. May be taken twice at each level; three semesters are needed to satisfy the fine arts requirement.

MUSP 140, 240, 340, 440 Symphonic Band (1)

An ensemble of music students and students from other disciplines who perform a wide variety of literature selected from standard and current concert band repertoire. (Fall/Spring)

MUSP 141, 241, 341, 441 Symphony Orchestra (1)

Students who demonstrate proficiency on orchestra instruments, through audition with the conductor, may become members of the Grand Junction Symphony and receive credit. (Fall/Spring)

MUSP 144, 244, 344, 444 Jazz Ensemble (1)

A group utilizing stage band instrumentation and performing many local and required concert engagements. By audition; preference given to members of Symphonic Band. (Spring)

MUSP 145, 245, 345, 445 (Section A) Instrumental Ensemble-Woodwinds (1)
(Section B) Instrumental Ensemble-Brass (1)
(Section C) Instrumental Ensemble-Strings (1)
(Section D) Instrumental Ensemble-Percussion (1)
(Section E) Instrumental Ensemble-Guitar (1)
(Section F) Instrumental Ensemble-Piano (1)

Groups organized upon the talents and interests of the members. Specified ensembles may be offered from time to time in the format of String Quartets, Woodwind, and Brass Choirs, etc. A minimum of one public performance per each term of enrollment is required. Prerequisite: MUSP 145E, 245B, 345B, 445B require audition by the band director. (Fall/Spring)

MUSP 146, 246, 346, 446 Community Performance Organizations (1)

Students and other musicians in the community who desire college credit are allowed to demonstrate ability in their medium and to become, by audition, members of various musical groups and receive credit. Each level may be repeated once for credit.

MUSP 148, 248, 348, 448 Chamber Strings (1)

Violin, viola, cello and bass students are led by local professional strings players rehearsing and performing standard string orchestra repertoire. One rehearsal per week and one performance per semester. Prerequisite: entrance by audition. (Fall)
MUSP 149, 249, 349, 449  **Young Artists Orchestra**  
Instruments music students are provided the opportunity to perform baroque, classical, romantic and 20th century full orchestra repertoire. One rehearsal per week and at least one formal concert per semester featuring a talented soloist. Membership is by audition. (Spring)

MUSP 150, 250, 350, 450  **Concert Choir**  
The major large choir, open to all students and staff who enjoy singing, with final membership approved by the director. Concert Choir performs great choral literature of all types representing Mesa State College in formal concerts both on and off campus including concert tours, performing large-scale masterworks with orchestra. (Fall/Spring)

MUSP 156, 256, 356, 456  **Chamber Choir**  
An advanced smaller choral ensemble which performs vocal literature from Renaissance to Contemporary art music including jazz. Chamber Choir performs on and off campus, on concert tours, and at the annual Madrigal Dinners. Staff and students are eligible by audition; membership in Concert Choir generally a prerequisite. (Fall/Spring)

MUSP 157, 257, 357, 457  **Men's Chorus**  
Campus-wide chorus open to all interested students and faculty. Performs all types of music written for combined men's voices. Concertizes in conjunction with other college choral ensembles and in separate performances on-off campus. Prerequisites: Taken in sequence or with consent of instructor. (Fall/Spring)

MUSP 158, 258, 358, 458  **Women's Chorus**  
Performances include the complete range of music written for combined women's voices, both on and off campus, and in conjunction with the other college choral ensembles in Music Department concerts. Prerequisites: consent of director. (Fall/Spring)

MUSP 159, 259, 359, 459  **Vocal Jazz Ensemble**  
Exploration of wide range of vocal literature. Performances given, both on and off campus. Prerequisites: consent of instructor. (Spring)

MUSP 162, 262, 362, 462  **Combo**  
Interested students team up with a rhythm section in learning tunes and "head" charts, improving skills and making practical application of improvisation. (Fall/Spring)

MUSP 164, 264, 364, 464  **Commercial Big Band**  
A laboratory band which focuses on the swing styles of the 1940s big bands. Instruction in phrasing, interpretation, improvisation, tone production, and reading. Enrollment by audition; preference given to those enrolled in Symphonic Band. (Fall)

MUSP 395  **Independent Study**  
(1-3)

MUSP 396  **Topics**  
(1-3)

MUSP 420  **Senior Recital**  
Preparation for senior level recital in student's performance medium with recital program approved by music faculty and recital given during the semester in which student is registered for this course. A paper covering historical aspects and performance considerations of the recital repertoire is required. (Fall/Spring)

MUSP 495  **Independent Study**  
(1-3)

MUSP 496  **Topics**  
(1-3)
## NURSING

**School of Professional Studies**

Students may be required to purchase additional supplies and uniforms. Approximate cost is between $300.00-500.00.

Designed to facilitate the transition of the diploma and associate degree graduate to the professional practice of nursing at the baccalaureate level. Introduces selected concepts related to care of the adult client, the childbearing and childbearing families. Credit for previous completed nursing courses (with grades of C or better) will be held in escrow until this course has been successfully completed. Corequisites: NURS 335, 335L. (Fall)
NURS 325  Pharmacology in Nursing  (3)
Modern drug therapy with the study of specific classifications, terminology, theories, and techniques of safe administration. Prerequisite: concurrent enrollment in NURS 345, 345L or all of the following: 355, 355L and 365, 365L. (Fall)

NURS 335  Health Assessment  (3)
NURS 335L  Health Assessment Laboratory  (1)
Assessment of the health status, history taking, and physical examination of adults and children. Prerequisite: concurrent enrollment in NURS 345, 345L or all of the following: 355, 355L and 365, 365L. (NURS 335L for RNs only - on demand) (Fall/Spring)

NURS 345  Nursing Process I: The Adult  (4)
NURS 345L  Nursing Process I: The Adult Laboratory  (4)
Application of the nursing process in the care of individuals. Pathophysiological problems of moderate intensity and relative stability are explored. (Fall/Spring)

NURS 355  Nursing Process II: Expanding Family  (3)
NURS 355L  Nursing Process II: Expanding Family Laboratory  (2)
Study of cognitive, psychomotor and affective skills essential to the care of the expanding family. This includes nursing care of the woman and newborn and covers health care issues of women across the life span. (Fall/Spring)

NURS 361  Living with Loss  (2)
Theories of attachment and loss applied to situational and maturational losses. (Alternate Spring)

NURS 362  Spiritual Aspects of Caring  (2)
Theoretical approaches to man's spiritual nature and the application of theories to the helping relationship. (Alternate Spring)

NURS 363  Women's Health Issues  (2)
Topics and issues that influence women's health in contemporary society. Foundations of alternative health services are discussed. (Alternate Fall)

NURS 364  Ethics for Health Care Providers  (2)
Discusses ethical dilemmas that occur in the provision of health care including Informed Consent, Quality of Life, Euthanasia, Allocation of Resources, the Right to Health Care, Genetic Engineering and Research on Human Subjects. Prerequisite: junior standing or consent of instructor. (Alternate Spring)

NURS 365  Nursing Process III: The Child  (2)
NURS 365L  Nursing Process III: The Child Laboratory  (2)
Health and illness needs of the child within the developing family. Pathophysiological and psychosocial dysfunctions of children and adolescents are explored. (Fall/Spring)

NURS 395  Independent Study  (1-3)

NURS 396  Topics  (1-3)

NURS 425  Nursing Process IV: Community Health  (3)
NURS 425L  Nursing Process IV: Community Health Laboratory  (2)
Orientation to community public health including a study of background, development and trends. Students apply community health principles in the care for individuals, families, and groups in a community setting. Prerequisites: completion of 300 level nursing courses. (Fall/Spring)
NURS 435  Nursing Process V: Mental Health (3)
NURS 435L Nursing Process V: Mental Health Laboratory (2)
In-depth examination of psychosocial adaptive modes in relation to mental health maintenance and restoration; emphasis on psychosocial developmental theories, principles of communication and relationship development. Includes assessment of emotional disorders and psycho-therapeutic interventions. Prerequisite: completion of 300 level nursing courses. (Fall/Spring)

NURS 443  Power and Political Dynamics in Nursing (2)
Political influences and social forces in history which impact nursing. The utilization of power and politics are analyzed as methods to further the potential of nursing. Topics include role conflict of the working woman, attitudes toward masculinity and femininity, finances and economy, networking, and keys of career success. (Alternate Spring)

NURS 445  Nursing Process VI: Advanced Nursing Process (3)
NURS 445L Nursing Process VI: Advanced Nursing Process Laboratory (4)
Advanced concepts essential for nursing care of clients requiring intervention in relation to complex multisystem illness or injury. Provides opportunities for direct patient care in both structured and unstructured settings. Prerequisite: completion of required 300 level nursing courses. (Fall/Spring)

NURS 455  Leadership Process: Theory and Practice (4)
NURS 455L Leadership Process: Theory and Practice Laboratory (2)
Focuses on the role of the nurse in leadership and management. The components of management as applied to the delivery of nursing care and the role of the professional nurse in shaping health care for the future are explored. Trends and issues impacting nursing and health care are examined. Prerequisite: completion of required 300 level nursing courses. (Fall/Spring)

NURS 462  Psychosocial Issues (2)
Current psychosocial issues which affect individual, family and community systems. Behavior is viewed in the context in which it occurs, with emphasis on interactions between the client and his environment. Assessment of dysfunctions and facilitation of health promoting or restorative behaviors are discussed. Prerequisite: consent of instructor. (Alternate Fall)

NURS 464  The Older Adult (2)
Theories of aging with emphasis on the age normal changes as well as social influences affect the older adult. Ethical and legal considerations of the elderly as well as resources are identified. Prerequisite: senior standing or instructor consent. (Alternate Spring)

NURS 475  Research Process (2)
The relationship between nursing research and the system of nursing are examined; processes and methodology of scientific investigation involving consent relevant to the use of research studies in nursing are presented. Prerequisite: STAT 200 or other acceptable statistic course. (Fall/Spring)

NURS 495  Independent Study (1-3)
NURS 496  Topics (1-3)

OFFICE ADMINISTRATION  School of Professional Studies

OFAD 101  Bookkeeping for Small Business (3)
For persons keeping accounting records in a legal, medical, or other professional office or those who will work in the accounting department of a small retail firm. Fundamental accounting principles including opening through closing a set of books. Not advised for four-year accounting majors. No credit allowed if credit already established in ACCT 201. (Fall/Spring)
OFAD 147 Medical Terminology (4)
Basic medical terminology as applied to major systems of the body and related diseases. Includes special applications related to medical practice with emphasis on spelling. (Fall)

OFAD 151 Keyboarding (3)
Keyboard, basic word processing commands, minimum skill with instruction and practice on letters, reports, and tables. (Fall/Spring)

OFAD 153 Beginning Word/Information Processing (3)
Introduces word/information processing concepts, functions, and terminology; provides an overview of the document production cycle with related hardware and software; provides in-depth, hands-on experience with a leading microcomputer word processor. Such features as creating a document, revising, formatting, paginating, merging, document assembly, disk management, and other relevant features will be covered. Two to three hours per week of arranged laboratory is required in addition to regularly scheduled classes. Prerequisites: OFAD 151 or knowledge of keyboard. (Fall/Spring)

OFAD 201 Office Management (3)
Office organization including work in the office, office layout, equipment, supplies and forms, personnel problems, costs, control of office work, methods of recognizing and solving office communication problems, awareness of successful human relations, changing technologies and philosophies of business, and technical terminology used in business. (Spring)

OFAD 202 Records Management (3)
Institutional and legal requirements for developing, storing and maintaining business and personnel information systems. Management of computerized and non-computerized systems emphasized including storage and retrieval using alphabetic, geographic, numeric and subject methods for manual, micro-records, and computerized systems; and control of records management programs. (Fall)

OFAD 215 Document Format/Skill Development (3)
Emphasizes skill development and formatting of mailable letters, manuscripts, and business forms to a level required in the average office on electronic typewriters and microcomputers. Prerequisite: OFAD 153 or consent of instructor. (Fall/Spring)

OFAD 221 Transcription Machines/Business and Medical (3)
Fundamental skills, speed, and accuracy of business or medical transcription on electronic equipment. Prerequisites: OFAD 215 or consent of instructor. (Fall/Spring)

OFAD 244 Legal Procedures (3)
American court systems, branches of civil and criminal law, and secretarial procedures relating to ethical behavior and office management techniques in a law office. Includes practice in preparing legal forms and documents with emphasis on speed, accuracy, and neatness, and procedures to help develop confidence and poise necessary in a professional office. Prerequisites: OFAD 215, sophomore standing. (Fall)

OFAD 247 Laboratory Techniques (2)
Basic lab procedures such as blood counts, urinalysis, EKG, etc. Actual lab experience. Prerequisites: BIOL 141, 141L, OFAD 147, and sophomore standing. (Spring)

OFAD 249 Medical Office Procedures (3)
Medical office management, patient reception, record keeping, care of equipment and supplies, communication skills, and assisting the physician and patient including examination room techniques. Prerequisites: OFAD 147, 215, sophomore standing or consent of instructor. (Spring)
OFAD 253 Intermediate Word/Information Processing (3)
Continuation of OFAD 153. Provides hands-on experience with the more advanced features of word processing, including graphics and desktop publishing. Prerequisite: OFAD 153. (Fall/Spring)

OFAD 266 Word/Information Processing: Document Production (4)
Office standards examined and applied to the production of business documents on microcomputers and electronic typewriters; document analysis procedures and productivity measurement techniques presented with emphasis on decision-making and problem-solving. Prerequisites: OFAD 215, 253. (Spring)

OFAD 270 Office Automation: Microcomputer Applications (3)
Microcomputer applications used in the office automation environment, including accounting applications, integrated software (word processing, spreadsheets, data base, graphs), desktop managers, graphics, telecommunication, electronic mail; hands-on experience according to student's major and software availability. Arranged laboratory is required in addition to regularly scheduled classes. Prerequisite: CISB 101. (Fall)

OFAD 271 Office Automation: Procedures and Technology (2)
Concepts of office automation through the integration of technology, procedures, and people; procedures of the traditional office contrasted with those of the evolving automated office in relation to both document production skills and administrative support functions; emphasis on decision-making and problem-solving skills needed in the evolving automated office environment. Prerequisites: OFAD 215. (Spring)

OFAD 295 Independent Study (1,2)
OFAD 296 Topics (1,2,3)

PHILOSOPHY

School of Humanities and Social Sciences

PHIL 110 Introduction to Philosophy (3)
Includes an orientation to the discipline's concerns, branches, major schools of thought, and its relationship to other disciplines; a selection of readings from philosophers of all historical periods concerning major philosophical issues; practice in the process of philosophical reasoning, the critical analysis of philosophical writings, and the most basic rules of logic. (Fall/Spring)

PHIL 275 Introduction to Logic (3)
Forms of reasoning, valid versus fallacious inferences, strong versus weak arguments. Designed to increase the ability to reason clearly and correctly and follow and critically evaluate the reasoning of others. (Fall/Spring)

PHIL 352 Ethics (3)
Introduction to theoretical and applied Ethics. Major moral philosophers and moral theories are surveyed; a general approach to moral reasoning is developed. This is then applied to the discussion of recent writings on such issues as euthanasia, abortion, war, capital punishment, affirmative action, etc. Prerequisites: PHIL 110, or 275 or consent of instructor.

PHIL 373 History of Philosophy I (3)
Philosophical problems including relation of the individual to the state, death and the afterlife, the physical universe, and existence of God, as seen through Greek and Medieval thinkers such as Plato, Aristotle, Augustine, and Thomas Aquinas. Prerequisites: PHIL 110, or 275, or consent of instructor. (Every third semester)
PHIL 374  History of Philosophy II  (3)
Continuation of PHIL 373, with topics as seen through thinkers of the modern period, such as
Hobbes, Berkeley, Kant, Nietzsche, and the Existentialists. Prerequisites: PHIL 110, or 275, or
consent of instructor. (Every third semester)

PHIL 375  Twentieth-Century Philosophy  (3)
The main philosophical themes and schools of recent philosophy. Characteristic methods and
positions of such schools as Pragmatism, Phenomenology, Existentialism, and various Analytic
Movements—especially as they bear on central philosophical problems regarding truth, mean-
ing, knowledge of the external world, and the relationship between language and reality. Prereq-
uisites: PHIL 110, or 275, or consent of instructor. (Every third semester)

PHIL 395  Independent Study  (1-3)

PHIL 396  Topics  (1-3)

PHIL 495  Independent Study  (1-3)

PHIL 496  Topics  (1-3)

PHYSICS  School of Natural Sciences and Mathematics

PHYS 100  Concepts of Physics  (3)
A non-mathematical survey of fundamental concepts in physics. Particular attention is given to
the cultural development of these ideas. The roots of physics are traced from early Greek thought
through the Renaissance. Next, the Newtonian revolution of the seventeenth and eighteenth cen-
turies is studied, followed by the nineteenth-century rise of field theory and thermodynamics.
The course concludes with a discussion of the simple ideas underlying relativity and modern
quantum theory. These latter topics include the elementary building blocks of matter and the
unification of force. Lecture demonstrations are used throughout the course. (Fall)

PHYS 101  Elementary Astronomy  (3)
A nonmathematical introduction to modern stellar and extragalactic astronomy. Topics include
planetary exploration, stellar evolution, galaxies, and the big-bang cosmology. Current research
results are discussed. Evening observing will be scheduled when possible. (Spring)

PHYS 111, 112  General Physics  (4,4)
PHYS 111L, 112L  General Physics Laboratory  (1,1)
A survey of physics fundamentals. Topics include mechanics, electricity, magnetism, thermody-
namics, sound, optics, and modern physics. Problem solving is emphasized. Prerequisite: a mas-
tery of algebra and trigonometry. PHYS 111, 111L is a prerequisite for PHYS 112, 112L. Four
lectures and one two-hour laboratory per week. (Fall/Spring)

PHYS 121  Classical Physics I  (4)
First of a series of foundation physics courses for scientists and engineers. Newtonian mechanics
is used to model the behavior of matter. Principles of particle motion are discussed in the context
of momentum and energy conservation laws. Specific force laws are used to analyze problems
drawn from engineering, biology, astronomy and atomic physics. Galilean relativity is discussed
and special relativity introduced. Cultural as well as philosophical and practical aspects of phys-
ics are examined. The language of calculus and vector spaces is used throughout. Corequisite:
MATH 151. (Fall/Spring)
PHYS 122  Classical Physics II  (4)
PHYS 122L Experimental Mechanics Laboratory  (1)
A continuation of PHYS 121 primarily concentrating on many-particle systems and matter in bulk. General conservation laws are developed and used to analyze collisions. Further applications are made to rigid body dynamics, oscillations, and wave motion. Elastic solids and fluids are discussed. Special relativity is studied. The course concludes with an introduction to thermodynamics and statistical mechanics. Corequisite: MATH 152. Prerequisite: PHYS 121. Four lectures and one two-hour laboratory per week. (Fall/Spring)

PHYS 223  Classical Physics III  (3)
PHYS 223L  Experimental Electromagnetism Laboratory  (1)
A foundation course in electromagnetic theory. The field concept is introduced with static electric and magnetic fields, both in free space and in matter. Electrodynamics is developed, including a discussion of Kirchhoff’s laws and circuit concepts. The course concludes with Maxwell’s equations and a study of optics. Laboratory work concentrates on the properties of fields and charged matter and on the experimental foundations of optics. Elementary electronic circuit design is included. Three lectures and one two-hour laboratory per week. Corequisite: MATH 253. Prerequisite: PHYS 122. (Fall/Spring)

PHYS 311  Electromagnetic Theory I  (3)
A mature study of electromagnetic fields. The course begins with a review of Maxwell’s equations. Static fields are analyzed and multipole expansion techniques exploited. Fields in dielectric and magnetic materials are then examined, and capacitance and inductance introduced. Electrodynamics is developed, along with concepts of field momentum and energy. Prerequisites: PHYS 223, PHYS 223L, MATH 260, Corequisite: MATH 360. (Fall)

PHYS 312  Electromagnetic Theory II  (3)
A continuation of PHYS 311. Electromagnetic waves were studied. Wave propagation in conducting and nonconducting media is examined, along with dispersion phenomena. Waveguides are examined. Electromagnetic field radiation is studied, both for point charges and for arbitrary charge distributions. The course concludes with a reformulation of electromagnetism in the language of special relativity. Prerequisites: PHYS 311, 320. (Spring)

PHYS 320  Modern Physics  (3)
An introduction to relativity and quantum theory. Applications of the theory are chosen from atomic and nuclear physics and from solid-state physics. The course concludes with a discussion of quarks, leptons, and the unification of force. Prerequisite: PHYS 122. (Fall)

PHYS 321  Quantum Theory I  (3)
A foundation course in quantum physics. No prior background in modern physics is assumed of students. The failure of classical physics is first discussed, with particular attention given to thermal radiation, photons, the Rutherford-Bohr atom, and the de Broglie wave hypothesis. The Schroedinger wave theory for single particles is then used to introduce modern concepts. Measurement theory, wave packets, square-well potentials and harmonic oscillators are examined in a one-dimensional context. The time-dependent and stationary-state formalism are both developed. The entire subject is set in the framework of Hilbert space, and operator algebra is used throughout. Prerequisites: PHYS 223 and MATH 260. (Spring)

PHYS 322  Quantum Theory II  (3)
A continuation of PHYS 321. Quantum theory is extended to three dimensions. Symmetry principles are introduced. Angular momentum conservation is discussed and particle spin defined. The quantum theory of many-particle systems is then studied, with particular attention given to simple atoms. Fermi-Dirac and Bose-Einstein statistics are introduced. Perturbation theory is developed and applied to the study of atoms and their interaction with radiation. A brief discussion of quantum field theory concludes the course. Prerequisite: PHYS 321. (Fall)
PHYS 331, 332  **Junior Laboratory I, II**  (2,2)
A course in experiment design and technique. Laboratory investigations provide experience in instrumental methods, planning of laboratory experiments, data analysis, preparation of reports according to professional standards, and training in the use of microprocessors for data acquisition and processing. The experiments to be performed are selected from electromagnetism, atomic, nuclear, solid-state, and high-energy physics. Prerequisites: PHYS 223 and 223L. Two two-hour laboratories per week. (Fall/Spring)

PHYS 352  **History and Philosophy of Physics**  (3)
Material varies from year-to-year. The course addresses problems in the interpretation and development of physics. Case studies of crucial experiments are analyzed. The interaction of physics with other philosophical and cultural pursuits is discussed. Prerequisite: one year of physics or consent of instructor. (Fall/Spring, on demand)

PHYS 362  **Statistical and Thermal Physics**  (3)
A study of the physics of bulk matter. Beginning with fundamental principles of quantum mechanics, statistical methods are employed to explain the macroscopic laws of thermodynamics and to make detailed predictions about the large-scale behavior of solids, liquids, and gases. Applications include the specific heat of solids, thermal radiation, magnetic susceptibilities, stellar equilibrium and chemical reactions. Corequisite: MATH 260. Prerequisite: PHYS 122. (Spring)

PHYS 395  **Independent Study**  (1-3)

PHYS 396  **Topics**  (1-3)

PHYS 421  **Advanced Dynamics**  (3)
A survey of analytical methods in classical physics. The Lagrangian formulation of mechanics is used to examine various applications, including rigid-body motion, celestial mechanics, and collision theory. Symmetry principles and accompanying conservation laws are introduced. The course concludes with an introduction to Hamilton's equations and field theory. Prerequisites: PHYS 223 and MATH 260. (Fall, alternate years)

PHYS 432  **Nuclear and High-Energy Physics**  (3)
An introduction to the structures and interactions of nuclear and subnuclear particles. Topics include a survey of the intrinsic properties of nuclei, descriptions of various nuclear models, studies of radioactivity and nuclear reactions, and an overview of the technologies of high-energy accelerators and detectors. The course concludes with an introduction to the properties and structures of elementary particles and discussions of current developments in unified theories of force. Prerequisite: PHYS 322. (Spring, alternate years)

PHYS 441  **Solid State Physics**  (3)
The structure and properties of solids. This course is a study of the crystalline state of matter, including crystal classifications, vibrational specific heats, electronic structures and conductivities, cohesive energies, magnetic susceptibility, and optical properties. Prerequisite: PHYS 322. (Spring, alternate years)

PHYS 482  **Senior Research**  (1)
An individual research project, supervised by a faculty advisor. The project may be selected from experimental or theoretical physics. The research concludes with a formal report written in accordance with the American Institute of Physics Style Manual. Normally taken in the second semester of the senior year. Prerequisite: senior standing and consent of instructor. One one-hour consultation per week. (Fall/Spring)
PHYS 494  Seminar  (1)
A forum for topical physics. In this seminar, faculty and students of physics participate in both informal discussions and formal oral presentations of selected topics of scientific interest, including significant current advances and crucial historical developments. The course may be repeated for a maximum of four semester hours of credit. Prerequisite: upper division standing and consent of instructor. (Fall/Spring)

PHYS 495  Independent Study  (1-3)

PHYS 496  Topics  (1-3)

POLITICAL SCIENCE

School of Humanities and Social Sciences

POLS 101  American Government  (3)
Structures and functions of the American political system and the constitutional development of federalism and separation of powers. Also, citizen participation and influence in politics, the congress, presidency and the supreme court, and public policy including civil rights and liberties. (Fall/Spring)

POLS 236  State and Local Government  (3)
Theories of state formation and constitutional development; city charters, county government, and intergovernmental relations with emphasis on Colorado. (Fall/Spring)

POLS 240  Parliamentary Procedure  (2)
A study of parliametary procedure based on Robert's Rules of Order. The course includes the study of the process, history, development, and limited practice of parliamentary procedure. (Fall/Spring)

POLS 251  Comparative Politics  (3)
Introduction to conceptual models and approaches utilized in the comparative study of nations and their politics. Application of these theories to selected democratic, communist, and developing political systems. Prerequisite: sophomore standing. (Fall)

POLS 310  Development of the American Constitution  (3)
A study of the historical development of the U. S. Constitution. Particular emphasis will be placed on the ideological and political origins of the constitution and constitutional change through formal amendments, judicial interpretation, and the political process. Prerequisite: POLS 101. (Alternate Spring)

POLS 325  The American Presidency  (3)
A study of the American chief executive, emphasizing the historical development of the office, the various functions of the modern chief executive and a brief comparison with the executive officer of other national states. Prerequisites: POLS 101 or consent of instructor. (Fall)

POLS 338  Colorado Government and Politics  (3)
A study of Colorado's state and local government institutions, politics, and policy. Prerequisite: POLS 101. (Alternate Spring)

POLS 342  Public Administration  (3)
Historical development of public administration including organizational structure and theory, management, personnel administration, fiscal administration, and administrative responsibility. Prerequisites: POLS 101. (Fall)
POLS 345 Political Parties and Interest Groups (3)
Development of political parties and interest groups in the United States and their role in contemporary politics. Includes focus on elections, voting behavior, and the dynamics of public opinion. Prerequisites: POLS 101 or consent of instructor. (Fall)

POLS 350 American Political Thought (3)
Political ideas, theories, and concepts that have shaped American political institutions. Prerequisites: POLS 101, or equivalent, or consent of instructor. (Spring)

POLS 365 European Government and Politics (3)
Study of the political systems of Great Britain, France, Federal Republic of Germany, Soviet Union and other European nations. Emphasizes political development, the sources, processes and evaluation of policy making, and contemporary challenges facing these countries. (Alternate Spring)

POLS 370 World Politics (3)
Introduction to the structures, processes, and behaviors shaping the world political configuration. Emphasis on states and their interactions as well as non-state actors and the cultural, economic and environmental forces, issues, and resources influencing an emerging world community. Prerequisites: POLS 101 or HIST 102. (Spring)

POLS 395 Independent Study (1-3)

POLS 396 Topics (1-3)

POLS 412 Constitutional Law (3)
An analysis of American constitutional theory as articulated by the U.S. Supreme Court. Specific topics include the nature of judicial review, the powers of the President and Congress, federalism, the regulation of commerce and the development of substantive due process. Prerequisite: six hours of political science. (Fall)

POLS 413 Civil Liberties (3)
A study of the constitutional relationship between the individual and the state. Particular emphasis will be placed on First Amendment freedoms of speech, press, and religious belief, as well as theories of due process and equal protection. Prerequisite: POLS 101. (Alternate Spring)

POLS 424 The Legislative Process (3)
A study of the legislative process emphasizing the U.S. Congress. Attention will be given to the development of legislative systems, the operation of legislatures, the election of legislators, and a comparison with legislatures in other national states. Prerequisites: POLS 101 or consent of instructor. (Spring)

POLS 428 The American Court System (3)
The American court system; local, state, and national, including consideration of the impact of prosecutors, defense personnel, judges, and other factors on court decisions and the criminal justice system. (Spring, alternate years)

POLS 452 Political Theory: Classical and Medieval (3)

POLS 453 Political Theory: Modern (3)
Study of the development of political theory in the Western tradition. Emphasizes the teaching of main thinkers: Socrates, Plato, Aristotle, Augustine, Aquinas, More, Machiavelli, Hobbes, Locke, Rousseau, Mill, and Marx. Develops ideas in relation to historical and cultural contexts, textual consistency, and the evolving tradition of political discourse in Western civilization. (Fall/Spring)
POLS 475  American Foreign and National Security Policy  (3)
American foreign and national security policy with emphasis on 1945 to the present and beyond.
Foreign and domestic factors shaping policy, the mechanisms and dynamics of policy making,
the role of perception and motives underlying decision and action, and case studies of historical
crises and contemporary debates are examined. (Spring, alternate years)

POLS 485  Public Policy Analysis  (3)
A study of the public policy process examining topics such as agenda setting, policy implementa-
tion, policy evaluation and policy change. Prerequisite: POLS 101. (Fall)

POLS 490  Senior Seminar for Political Science  (3)
Arranged tutorials and seminars with political science faculty and students, design and execution
of a research project, and submission of a senior thesis. Prerequisites: senior standing. (Fall/Spring)

POLS 495  Independent Study  (1-3)

POLS 496  Topics  (1-3)

POLS 499  Internship  (1-15)
May be performed in areas relating to Political Science, such as civic, political, or legal.
Internships will be conducted in Mesa County, the Denver legislature, or in Washington, D.C.
Prerequisites: junior or senior standing. (Summer/Fall/Spring)

PARKS AND RECREATION RESOURCE MANAGEMENT

School of Professional Studies

PRRM 200  Cultural Foundations of Play, Recreation, Leisure  (3)
Psychological, physiological, and sociological influences which impact the technological, eco-
nomic, and political significance of play, recreation, and leisure in American society. (Fall)

PRRM 210  The Parks and Recreation Professions  (3)
History and development of formalized park and recreation professions including specialized
professional competencies, agency duties, professional development, organizational structure,
and ethics. (Spring)

PRRM 220  Professional Foundations of Therapeutic Recreation  (3)
Introduction to content and service of therapeutic recreation. Includes public and clinical role
and mission, credentialed, professional competency, performance standards, and the understand-
ing of the psychological, sociological, and historical significance of therapeutic recreation. (On
demand)

PRRM 300  Recreation Programming: Designing Experiences  (3)
Comprehensive program methodology with topics on development of program mission state-
ments, assessment of patrons' needs, preparation of program plans, registration systems, pricing,
promotion, and development of evaluation models. Prerequisite: PRRM 200. (Fall)

PRRM 305  Therapeutic Recreation Program Design  (3)
Principles and procedures for a comprehensive systems approach to therapeutic program plan-
ing. Topics include program design, implementation, evaluation, activity analysis, and assess-
ment. Prerequisite: PRRM 220. (On demand)

PRRM 310  Resource Planning: National and State Parks  (3)
Application of design process and procedures for planning design and construction of national
and state park systems. Prerequisite: PRRM 300. (Spring)
PRRM 311 Resource Planning: Community Recreation Systems (3)
Application of design process and procedures for the planning, design, and construction of public and semi-public indoor special use facilities. Prerequisites: PRRM 300. (Spring)

PRRM 312 Resource Planning: Resort Development (3)
Special planning and design considerations applicable to effective management and operation of private for profit resort businesses. Prerequisite: PRRM 300. (Fall)

PRRM 313 Resource Planning: Outdoor Play Settings/Children (3)
Planning, design, and management of outdoor play settings for all children. Topics include site plan and design, setting design and management, play programming, risk management, and the integration of the disabled. Prerequisite: PRRM 300. (Fall)

PRRM 314 Resource Planning: Therapeutic Systems (3)
Comprehensive process of planning, evaluating, and adapting areas and facilities for public and private therapeutic service agencies. Prerequisite: PRRM 300, PRRM 320. (On demand)

PRRM 350 Private and Commercial Recreation Systems (3)
Profit-based recreation industry, including managing the recreation enterprise, economic feasibility studies, small business entrepreneurship, market characteristics, professional opportunities, and trade association research and publications. Prerequisites: PRRM 210, MANG 201. (Fall)

PRRM 351 Community Tourism Systems (3)
Community as a tourist destination area with concentration on identification of linkages between tourism industries and local economies, and the process of developing and managing park and recreation resources to serve the tourist. Prerequisites: PRRM 200 and 210, MANG 201. (Spring)

PRRM 352 National and State Park Systems (3)
National and state outdoor recreation resource management systems including a variety of administrative tools applicable to operation and maintenance as well as comprehensive discussion of legislation, land use policy, forest recreation planning, and governmental designation programs. Prerequisites: PRRM 200, 210, MANG 201. (Fall)

PRRM 353 Public and Municipal Parks and Recreation Systems (3)
Agency management applicable to municipal and special recreation and park districts, including topics on fiscal policies and practices, community development, maintenance systems management, revenue resources and budget formulation. Prerequisites: PRRM 200, 210, MANG 201. (Spring)

PRRM 354 Therapeutic Recreation Systems (3)
Interpretation, conceptualization, application and development of professional skills and knowledge necessary for supervising, assessing, and managing therapeutic agency service. Prerequisite: PRRM 220, MANG 201. (On demand)

PRRM 395 Independent Study (1-3)

PRRM 396 Topics (1-3)

PRRM 430 Computer Applications for Parks, Recreation, and Physical Education (3)
Practical application of computer software for management, design, and operation of public and commercial recreation and fitness industries. Content includes packaged scheduling programs, membership systems, elementary CAD, advanced spreadsheet applications, graphics, advanced DBM systems, and assessment programs. Prerequisite: PRRM 200, 210 and 300. (Spring)
PRRM 450  Legal Liabilities & Legislative Foundations  (2)
Legal foundations affecting the professional responsibilities of athletic, physical education and
recreation resource managers. Topics include legal liabilities, legislative procedures, incident
management, rationale for lawsuits, liability immunity, and risk management planning. Prerequi-
sites: PRRM 210, and two courses chosen from 310, 311, 312 or 313. (Spring)

PRRM 491  Field Experience  (1-3)
Placement of upper division students within public and private recreation and park agencies.
Selected agencies must meet Mesa State College Supervisory Guidelines. Prerequisite: consent
of instructor. (Fall/Spring)

PRRM 494  Senior Seminar: Issues and Trends  (3)
Students review, discuss and apply skills and knowledge for the effective solving of contempo-
rary leisure service problems. Students will identify contemporary issues and trends and apply
problem solving models and techniques, and leisure research methodology. Comprehensive exam
required. Prerequisites: PRRM 200, 210, 20 hours of upper division PRRM course work. (Spring)

PRRM 495  Independent Study  (1-3)

PRRM 496  Topics  (1-3)

PRRM 499  Internship  (12)
A full-time continuing experience in a public or private leisure service agency. A minimum of
400 clock hours must be completed in not less than a ten-week period. Prerequisites: 2.5 GPA in
major and application requirements as stated in the Published Handbook for Professional Intern-
ship (note: for NTRC certification this requirement must be completed under the direct supervi-
sion of a certified therapist). PRRM 410, 420, 430, 440. See additional Internship Handbook
requirements. (Summer)

PSYCHOLOGY

School of Humanities and Social Sciences

PSYC 150  General Psychology  (3)
Examines the fundamental principles of psychology. (Fall/Spring)

PSYC 200  Psychology of Human Adjustment  (3)
Problems of mental health and the strategies useful in the pursuit of effective living in today’s
society. Introduces abnormal psychology, emphasizing prevention of serious problems through
understanding change and growth in the modern world. (Spring)

PSYC 210  Environmental Psychology  (3)
Principles and findings of general psychology applied to the challenge of mankind’s living in the
environment. Prerequisites: PSYC 150 or consent of instructor. (Fall)

PSYC 233  Human Growth and Development  (3)
Developmental principles, ages and stages of the life span, and adjustment techniques. Not in-
tended for behavioral science majors. (Fall/Spring)

PSYC 310  Child Psychology  (3)
A study of the principles of human development and psychology from conception to puberty.
Prerequisites: PSYC 150. (Spring)

PSYC 311  Quantitative Research Methods  (3)
Application of statistics in psychological research with an emphasis on the selection of appropriate
quantitative techniques, computer analysis of data, and interpretation of statistical results within
the context of the research endeavor. Topics to be covered include descriptive statistics, hypot
thesis testing, parametric and non-parametric statistics. Prerequisites: PSYC 150, STAT 200. (Spring)

<td></td>
</tr>
</tbody>
</table>
PSYC 414 Systems and Theories of Psychology (3)
Systems and theories of modern psychology and the development of scientific psychology since 1879. Prerequisites: PSYC 150, or at least 12 semester hours upper division psychology course work or consent of instructor. (Spring)

PSYC 416 Memory and Cognition (3)
Study of the mental processes that underlie our abilities to recognize stimuli, think, remember, learn language, and solve problems. Current research in each of these areas will be discussed. Includes a research paper written in APA style. Prerequisites: PSYC 150 or consent of instructor. (Spring)

PSYC 420 Personality (3)
Personality theories from the time of Freud through the present emphasizing the development and functioning of the normal personality. Prerequisites: PSYC 150. (Spring)

PSYC 422 Sensation and Perception (3)
Visual and auditory information processing systems. Includes frequent classroom demonstrations and occasional experiments. Prerequisites: PSYC 150, STAT 200. (On demand)

PSYC 430 Biopsychology (3)
The biological bases of the behaviors of the organism, emphasizing the structure and function of the nervous system. The role of biological factors in such behaviors as sleep, sexual behavior, drug addiction, emotion, etc. will be examined. Prerequisites: PSYC 150; biology course recommended. (Spring)

PSYC 495 Independent Study (1-3)

PSYC 496 Topics (1-3)

PSYCHOLOGY—COUNSELING

School of Humanities and Social Sciences

PSYP 320 Career Development (3)
Theories of, and factors influencing, career development such as assessment, career maturity, decision making, problem solving, and planning. Current developments in adult career and life development will be discussed including life stages, transitions, midlife crisis, stress, and adjustments necessary for career development effectiveness. Prerequisites: PSYC 150 or consent of instructor. (Fall)

PSYP 324 Career Counseling (3)
Types and sources of career information and its various uses in career counseling with special emphasis on decision making theories and processes. Prerequisites: PSYC 150 or consent of instructor. (Fall)

PSYP 396 Topics (1-3)

PSYP 420 Counseling Processes and Techniques (3)
Counseling principles and practices which facilitate interpersonal communication and effective personal and social development. Counseling skills in attending behavior, listening, problem exploration, responding, understanding, and modes of action are examined, discussed and applied in classroom counseling situations. Prerequisites: PSYC 150, or consent of instructor. (Spring)

PSYP 422 Psychological Interviewing (3)
Psychological interviewing techniques, methods, and interpretation will be examined using the DSM-IV. Interview types will include counseling, intake, assessment, and diagnosis. Prerequisites: PSYC 150 and PSYC 340. (Spring)
PSYP 424  Group Processes  (3)
Dynamics, procedures and processes of the group. Focus will be on understanding self and learning how to help others develop self-understanding as well as personal and social skill. Prerequisites: PSYC 150, PSYC 420 and SPCH 101 recommended. (Fall)

PSYP 496  Topics  (1-3)

PSYP 497  Practicum  (4)
Interpersonal training and counseling practice under professional supervision. A typed paper/journal must be submitted for approval and course credit. Prerequisite: senior status and consent of instructor. Practicum must be arranged for the semester prior to enrollment. (Fall/Spring)

PSYP 499  Internship  (4)
Counseling experience in external field locations according to needs and career goals of the student. A typed paper/journal must be submitted for approval and course credit. Prerequisite: consent of instructor. Internship must be arranged for the semester prior to enrollment. (Fall/Spring)

RADIOLOGIC TECHNOLOGY

RADT 110  Radiologic Introduction  (3)
Overview of radiologic technology with emphasis on history, the health-care delivery system, ethics, professional conduct, organization and development. Introduction to medical terminology, communications, body mechanics, asepsis, vital signs, and emergencies. This course also presents an introduction to the educational program and basic radiation protection. Prerequisite: acceptance into the Radiology Program.

RADT 121  Radiologic Technology I  (2)
RADT 121L  Radiologic Technology I Laboratory  (1)
Instruction in every phase of radiologic technology in an integrated coverage of appendicular skeletal system, abdomen, thoracic viscera, and body systems. Radiographic anatomy and positioning are discussed and applied in the energized laboratory. Prerequisite: RADT 110.

RADT 122  Radiologic Principles I  (2)
RADT 122L  Radiologic Principles I Laboratory  (1)
Fundamentals of factors which govern and influence the radiographic image receptor, equipment, accessory devices, exposure mathematics, manual and automatic processing, Technical and prime exposure factors are discussed and applied in the energized laboratory. Prerequisite: RADT 110.

RADT 123  Clinical Experience I  (4)
Areas covered in RADT 121 and 122 emphasized. Includes one hour of film critique provided by the clinical instructor. Prerequisite: RADT 110.

RADT 125  Radiologic Science I  (2)
Basic physics, fundamentals of x-ray generating equipment, x-ray production and interaction, beam characteristics, and units of measurement. Prerequisite: RADT 110.

RADT 131  Radiologic Technology II  (2)
RADT 131L  Radiologic Technology II Laboratory  (1)
Continuation of RADT 121 with instruction in every phase of radiography of the axial skeleton, digestive system, urinary system, cranium, spinal column, and facial bones. Prerequisites: RADT 121, 121L, 122, 122L, 125.

RADT 132  Radiologic Principles II  (2)
RADT 132L  Radiologic Principles II Laboratory  (1)
Continuation of RADT 122 including equipment utilized to produce diagnostic images, recording media and techniques, quality assurance and computer applications in diagnostic radiology. Prerequisites: RADT 121, 121L, 122, 122L, 125.
RADT 133  Clinical Experience II  (4)
Continuation of RADT 123 in all phases of radiology. Includes one hour a week of film critique provided by the clinical instructor. Prerequisite: RADT 123 or consent of instructor.

RADT 135  Radiologic Science II  (2)
Principles of radiation interaction in cells and the effect and factors affecting cell response to radiation, acute and chronic effects of radiation, maximum permissible dose, regulatory involvement, and radiation protection responsibilities by the radiographer to patients, personnel, and the public. Prerequisites: RADT 121, 121L, 122, 122L, 125.

RADT 243  Clinical Experience III  (8)
Continuation of RADT 133 in all phases of radiology. Emphasis on material presented in RADT 121, 122, 131 and 132. Includes film critique provided by the clinical instructor or radiologist. Prerequisite: completion of all 100 level radiology courses.

RADT 251  Radiologic Technology III  (3)
Special equipment, opaque media, radiographic anatomy, and pathology involved in specialized and highly technical procedures. Pharmacology is also covered. Prerequisite: all RADT 100 level lecture and laboratory courses.

RADT 253  Clinical Experience IV  (10)
Continuation of RADT 243 in all phases of radiology. Includes film critique provided by the clinical instructor or radiologist. Prerequisites: RADT 243 or consent of instructor.

RADT 261  Radiologic Technology IV  (3)
Departmental administration, radiologic records, and job-seeking skills. The last few weeks of this course are devoted to a review and preparation for the national registry examination. Prerequisites: all RADT 100 level lecture and laboratory courses.

RADT 263  Clinical Experience V  (10)
Continuation of RADT 253 in all phases of radiology. Includes film critique provided by the clinical instructor or radiologist. Prerequisites: RADT 253 or consent of instructor.

SOCIAL SCIENCE

School of Humanities and Social Sciences

SOCl 199  Internship  (1,2)
Social science students explore areas of interest through work experience in schools, public offices, human services agencies, etc. (Fall/Spring)

SOCl 310  Methods of Social Research  (3)
Research methods and their application to the social sciences. Prerequisites: PSYC 150 or SOCO 260 and STAT 200. (Spring)

SOCl 340  Methods of Teaching Social Studies: Secondary Schools  (3)
Examination and comparison of the social studies, exploring both new and traditional curricula, philosophies, and teaching methods. Prerequisites: upper division status and 21 semester hours of social sciences. (On demand)

SOCl 351  History of Ideas: Ancient and Medieval Periods  (3)
The major ideas of man and society in ancient Greece and Rome with attention to social conditions influencing their development and transmission into the social thought of Medieval Europe. (On demand)
SOCI 352  History of Ideas: Modern Period  (3)
The emergence of the Idea of Progress, a set of ideas which underlie the social sciences, including history writing. Critiques the effectiveness of these ideas for a social science capable of meeting the problems of modern society. Prerequisites: SOCI 351 or PHIL 353 or consent of instructor. (On demand)

SOCI 395  Independent Study  (1-3)

SOCI 396  Topics  (1-3)

SOCI 495  Independent Study  (1-3)

SOCI 496  Topics  (1-3)

**SOCIIOLOGY**

**School of Humanities and Social Sciences**

SOCI 144  Marriage and the Family  (3)
Sociology of the marriage and family institutions in contemporary America. Includes an examination of important aspects of courtship and marriage, problems commonly experienced in contemporary man-woman relationships, parenting in modern America, and alternatives to traditional marriage. (Fall/Spring)

SOCI 260  General Sociology  (3)
Sociological concepts designed to acquaint students with terminology, basic principles, and important theories. Not open to freshmen. (Fall)

SOCI 264  Social Problems  (3)
Major contemporary social problems including crime, race relations, war, educational systems, unequal distribution of wealth, and political apathy. Prerequisite: Sophomore standing. (Spring)

SOCI 300  Political Sociology  (3)
The interactions and interrelationships between social and political forces. Prerequisite: SOCI 260, or POLS 101 or consent of instructor. (Spring)

SOCI 310  Sociology of Religion  (3)
The social and cultural manifestations of religion giving attention to the insights of sociologists, recent studies, and contemporary social movements. Prerequisite: SOCI 260 or consent of instructor. (Fall)

SOCI 312  Collective Behavior and Popular Culture  (3)
The dynamics of forming new social structures with emphasis on contrasting popular cultures and their structures with collective behavior models of the study areas. (On demand)

SOCI 314  Population Impact Problems and Urbanization  (3)
Surveys population problems and theories of population growth, industrialization, and urbanization. (On demand)

SOCI 316  Social Stratification  (3)
Major theories regarding the causes and effects of the differential distribution of desirables by race, social class, and other variables. Prerequisites: SOCI 260 or consent of instructor. (Spring)

SOCI 330  Crime and Delinquency  (3)
Crime, delinquency, and deviance including the social and psychological factors of such behavior, trends in theory, correctional procedures, control, prevention, and laws. Prerequisite: SOCI 260 or consent of instructor. (Fall)
SOCO 350 Sociology of Death and Dying  
A critical review of concepts and findings of social scientists and a semi-scientific review of literature dealing with death. (Fall)  

SOCO 360 Social Influences of Small Groups  
Small-group processes in schools, peer groups, industry, and other selected institutions; small groups as related to the larger social system; group structure, communications, and the dynamics of social interaction. (On demand)  

SOCO 395 Independent Study  
SOCO 396 Topics  

SOCO 400 History of Sociology  
The development of sociology as a discipline from early times to the present. Prerequisite: SOCO 260 or consent of instructor. (Fall)  

SOCO 410 Contemporary Social Theory  
Sociological theories emphasizing 20th century contributions and the relationships of sociology to allied fields such as anthropology, psychology, economics, and political science. Prerequisite: SOCO 250 or consent of instructor. (Spring)  

SOCO 495 Independent Study  
SOCO 496 Topics  

SPEECH  

School of Humanities and Social Sciences  

SPCH 101 Interpersonal Communications  
Language, listening, response, defense of statement, and nonverbal communication between two or more people. (Fall/Spring)  

SPCH 102 Speechmaking  
The preparation, organization, and delivery of a speech. (Fall/Spring)  

SPCH 112 Voice and Diction  
The use of the speaking voice emphasizing voice placement, speech sounds, breathe control, projection, and the phonetic alphabet. Recommended for theatre majors, teachers, pre-law, ministers and business majors. (Fall)  

SPCH 231 Debate  
Research and development of various types of debate formats using national and international topics of current interest. (On demand)  

SPCH 303 Nonverbal Communication  
The opportunity to observe, record and interpret the nonverbal dimensions of communication behavior and the opportunity to enhance awareness and skill in nonverbal communication behavior in mass media, law, theatre, group dynamics, etc. (Spring)  

SPCH 304 Communication and Conflict  
The nature of conflict, conflict structure, conflict styles, and the use of “power” in conflicts. Application of theories to analyze and set goals to plan strategies and tactics. Study of intervention principles and practices. Prerequisites: upper division standing. (Alternate Spring)  

SPCH 395 Independent Study  
SPCH 396 Topics  

(1-3)
STATISTICS

School of Natural Sciences and Mathematics

TI-82 or TI-85 (preferred) or equivalent calculator is recommended or required for statistics classes. Cost is approximately $70.00-125.00.

STAT 200 Probability and Statistics
Descriptive statistical methods, elementary probability, sample distribution, binomial, normal, t, and F distributions, parameter estimation, one and two sample tests of hypothesis, simple correlation and regression analysis, one-way analysis of variance, nonparametric inference, time permitting. Introduction to statistical software. Prerequisites: MATH 110 or 113 or consent of instructor. (Summer/Fall/Spring)

STAT 214 Business Statistics
Methods employed for the collection, description, and analysis of data for business decision making purposes including descriptive statistical methods, elementary probability, sampling distributions, binomial, normal, t and F distributions, estimation of parameters, one- and two-sample tests of hypothesis, simple linear correlation and regression analysis, one-way analysis of variance. Introduction to statistical software. Prerequisite: MATH 113 or consent of instructor. (Summer/Fall/Spring)

STAT 311 Statistical Methods
Power of statistical tests, categorical data techniques, inference about population means and variances, nonparametric methods, simple and multiple linear regression and correlation, analysis of variance, multiple comparisons, introduction to some experimental designs. Use of statistical software. Prerequisites: STAT 200 or 214. (Fall)

STAT 312 Correlation and Regression
Graphical, numerical, and theoretical least-squares analysis for simple and multiple regression and correlation, including inference methods, diagnostics and remedial measures, simultaneous inference methods, the matrix approach to regression and correlation analysis, stepwise regression procedures. Use of statistical software. Prerequisites: STAT 311 and MATH 265. (Spring)

STAT 313 Sampling Techniques
Methodology of simple random sampling, stratified, systematic cluster, and two-stage sampling is developed. Estimation of sample size determination, and minimized costs of sampling are discussed. Use of resampling statistical software. Prerequisite: STAT 200 or 214. (Spring)

STAT 325 Design and Analysis of Experiments
Design and analysis of single and multiple factor experiments, fixed, mixed and random effects designs including multiple comparison procedures, transformations, fixed, mixed and random effects designs, completely randomized designs, randomized block designs, Latin square designs, and nested designs. Prerequisite: STAT 311. (Alternate years)

</table>
THEA 317, 318  Play Production  (1,1)
See THEA 117, 118. Prerequisites: courses must be taken in sequence or by consent of the instructor. (Fall/Spring)

THEA 319, 320  Technical Performance  (1,1)
See THEA 119, 120. (Fall/Spring)

THEA 328, 329  Theatre Forums  (1,1)
See THEA 128, 129. (On demand)

THEA 331  History of Theatre  (3)
History of the theatre as an institution and its relationship to the other arts and to the social and economic environment. (Spring)

THEA 341  Musical Theatre History and Literature  (3)
In-depth study of the literature and styles of the master composers of music theatre from its beginnings through the present day. Course work is designed for the Musical Theatre major, utilizing lecture and listening lab format and a research paper on a subject of the student's choice. (Spring)

THEA 343  Scene Design  (3)
Experience in the designing of scenery and props for various types of productions with emphasis on research, acquisition, drafting, perspective, and rendering techniques. Prerequisite: THEA 243 or consent of instructor. (Spring)

THEA 344  Advanced Stage Lighting  (3)
Advanced training in the design and execution of lighting for the stage. Prerequisite: THEA 244 or consent of instructor. (Fall)

THEA 345  World Drama  (3)
Greek through Elizabethan drama. (Fall)

THEA 347, 348  Drama Performance  (1,1)
See THEA 147, 148. (Fall/Spring)

THEA 351  Acting III: Stage Dialects  (3)
The use of dialects in performances. Prerequisites: SPCH 112 or knowledge of the International Phonetic alphabet or consent of instructor. (Alternate Spring)

THEA 352  Acting IV: Styles in Acting  (3)
Various styles of acting used for the Classical, Elizabethan, Romantic, 19th Century Melodrama and Realistic periods. Prerequisites: THEA 151 and 152 or consent of instructor. (Alternate Fall)

THEA 370  Music Theatre Performance Workshop  (2)
Exploration of music theatre performance and performance. Meant specifically for students majoring in Fine and Performing Arts, Music Theatre Concentration. Corequisite: THEA 370L. Prerequisite: THEA 270 and 270L, or consent of instructor. (Fall)

THEA 370L  Music Theatre Performance Workshop Laboratory  (1)
Practical application of dance, music, and theatre for the individual or the ensemble. One two-hour laboratory per week. Corequisite: THEA 370. Prerequisites: THEA 270 and 270L, or consent of instructor. (Fall)

THEA 395  Independent Study  (1-3)

THEA 396  Topics  (1-3)
THEA 401 Performing Arts Management
The business aspects of music and dance concerts, plays and other forms of the performing arts. Included are public relations and advertising, box office, and fiscal control and house management. Practical experience gained from working with area arts organizations. Prerequisites: junior or senior standing or consent of instructor. (Fall)

THEA 411 American Drama
From the first American playwright to the plays of today. (Spring)

THEA 412 Contemporary Drama
A study of realistic and absurd contemporary playwrights of the world. (Fall)

THEA 414 Summer Theatre
See THEA 114.

THEA 417, 418 Play Production
See THEA 117, 118. Prerequisites: courses must be taken in sequence or by consent of the instructor. (Fall/Spring)

THEA 419, 420 Technical Performance
See THEA 119, 120. (Fall/Spring)

THEA 428, 429 Theatre Forums
See THEA 128, 129. (On demand)

THEA 445, 446 Projects in Theatre
Work experience in various aspects of theatre such as scene/prop design and/or construction, lighting/sound design, sound, costume/makeup design or projects involving acting/directing, music theatre, theatre management, playwriting or other projects deemed worthwhile and vital by the instructor. Prerequisites: senior standing or consent of instructor. (On demand)

THEA 447, 448 Drama Performance
See THEA 147, 148. (Fall/Spring)

THEA 451 Beginning Directing
The fundamentals of directing applied to the direction of a scene for public viewing. Prerequisites: THEA 151, 152 and at least one upper division acting course or consent of instructor. (Fall)

THEA 455 Acting V: Advanced Acting
For the Acting/Directing option student interested in polishing and refining the acting art through various techniques in the approach to a role. Prerequisites: THEA 151 and 152 or consent of instructor. (Alternate Spring)

THEA 456 Acting VI: Acting for the Camera
The transition from stage acting techniques to camera acting techniques. Students will have the opportunity to work on camera with simplified sets and properties. Prerequisites: THEA 151 and 152 or consent of instructor. (Alternate Fall)

THEA 457 Acting VII: Auditions
Writing of resume, how to look for an acting job, and the preparation of materials to be used in auditions. Students will be required to prepare for auditioning on a regional level. Prerequisites: THEA 151 and 152 or consent of instructor. (On demand)

THEA 470 Music Theatre Performance Workshop
Exploration of an advanced level the theories and elements of music theatre presentation and performance. Meant specifically for the students majoring in Fine and Performing Arts, Music Theatre concentration. Corequisites: THEA 470L. Prerequisites: THEA 370 and 370L or consent of instructor. (Fall)
THEA 470L  Music Theatre Performance Workshop Laboratory  (2)
Practical application of dance, music and theatre for the individual or ensemble. One two-hour laboratory per week. Corequisite: THEA 470. Prerequisites: THEA 370 and 370L or consent of instructor. (Fall)

THEA 492  Senior Directing Project: Acting/Directing Capstone  (3)
Advanced directing techniques and production of a one-act play for public viewing. Prerequisite: THEA 451 or consent of instructor. (Spring)

THEA 495  Independent Study  (1-3)

THEA 496  Topics  (1-3)

THEA 499  Internship  (3,6,9)
Work in acting/directing, design/tech, music theatre and theatre management, or other situations that meet the instructor's approval. Prerequisites: senior standing and consent of the instructors. (On demand)

TRAVEL & RECREATION MANAGEMENT
School of Professional Studies

TRAV 101  Travel Industry I  (3)
Introduction to tourism and its relationship to the business world, an overview of all sectors of business and the components of the travel, tourism, and hospitality industry. Travel methods, destination resorts, and other businesses which serve the traveler are evaluated. A requirement for all Travel, Recreation, and Hospitality Management students. (Fall)

TRAV 102  Travel Industry II  (3)
Evaluation of job opportunities in the travel, recreation, and hospitality fields. Travel trends, feasibility studies, and marketing techniques are analyzed. Students are provided an opportunity to make preparations and acquire skill instructions for work in the student's career objective. Field trips and visiting lecturers are included. Prerequisite: TRAV 101 or consent of instructor. (Spring)

TRAV 103  Travel and Tourism Marketing Techniques  (3)
Interpretation of marketing problems, strategies, and techniques of industries engaged in serving the traveler, methods of identifying potential markets, preferences, and likely responses to promotional programs of private and governmental travel entities. Required of all Travel, Recreation, and Hospitality Management students. MKT 231 recommended for baccalaureate students. Prerequisite: TRAV 101 or consent of instructor. (Spring)

TRAV 199  Employment Concepts  (1)
Introduction of the concepts of employment in conjunction with the internship experience. It will provide students with an opportunity to share their concerns with the instructor and other students, allow employers to discuss the internship with students and assist the student in developing his or her career goals. The student will enroll in this course the spring semester immediately preceding the summer they intend to do their TRAV 299 Internship. Prerequisites: TRAV 101. (Spring)

TRAV 201  Management in the Travel Industry I  (3)
An opportunity to explore operating techniques and problems of the major industries involved in tourism, travel, and hospitality through the eyes of the operating manager. Specific skills used within various industries are developed. Prerequisite: TRAV 102 or consent of instructor. (Spring)
TRAV 211  Travel Destinations  (3)  
For the individual who plans to work, study, or travel internationally including the professional who is, or plans to be, part of the travel industry. Life styles and current local aspects in foreign destinations are considered and guest lecturers are included. Open to all students but strongly recommended for Travel, Recreation, and Hospitality Management students. (Spring/on demand)

TRAV 215  Computerized Reservations  (3)  
An introductory course providing an overview of operation of a computerized reservations system. Prerequisites: TRAV 101 and 102. (Spring)

TRAV 217  Hotel Operations  (3)  
Introductory course providing an overview of the operation of a hotel front office. This will include the use of the personal computer and state-of-the-art software for reservations, check-in, check-out and creating the daily report. Prerequisite: TRAV 101. (Fall)

TRAV 295  Independent Study  (1,2)  

TRAV 296  Topics  (1,2,3)  

TRAV 299  Internship  (12)  
Classroom studies combined with salaried work in an experience which relates to the student's career goal. Only for and required of Travel, Recreation, and Hospitality students. Credit not available through competency or challenge. Prerequisite: TRAV 102, GPA of 2.00 or higher, or consent of instructor. (Summer)

MESA STATE COLLEGE ADMINISTRATIVE PERSONNEL
ROBERT E. ANTHONY (1984), Director of Intramural Sports; B.S., M.S., Southern Illinois University.
RICHARD E. BACCA (1972), Director of Student Services; B.S., University of Colorado; M.A., Ed.D., University of Northern Colorado.
VELDA M. BAILEY (1982), Director of Continuing Education; A.A., Mesa Junior College; B.A., M.A., University of Northern Colorado.
PIERRE G. BETTELEI (1985), Director of Management Information Services; Associate Professor of Business Computer Information Systems; B.S., Southern Colorado State College; M.S., Colorado State University.
TINA BRENNAN (1992), Assistant Controller; B.A., Mesa State College.
ELIZABETH BRODAK (1988), Head, Library Reference; B.A., Carthage College; M.L.S., University of Hawaii.
LARRY D. CACKLER (1993), Assistant Controller; B.S., Mesa State College.
JOYCE CORNELLE (1995), Acting Assistant Coordinator of Testing; B.A., Mesa State College.
RUSTY L. CRICK (1979), Head Volleyball Coach; NCAA Compliance Officer; Assistant Athletic Director; B.S., M.A., Western State College.
NITA S. CURRY (1991), Director, M.S.C. Monroese Center; B.A., University of Northern Colorado; M.A., University of Oklahoma; Ph.D., Colorado State University.
MISTY CURTIN (1995), Admission Counselor; B.A., Mesa State College.
MARIUS G. DEGABRIELE (1990), Coordinator of Non-Traditional Adult Students; B.S., Northern Michigan University; M.Ed., Lesley College.
LINDA DU (1995), Assistant Director, Administrative Computer Services; B.A., Beijing College of Economics; M.B.A., State University of New York-Buffalo.
KAREN EDGINGTON (1995), Coordinator, Center for Executive Development; B.B.A., Mesa State College.
PATRICIA ELLIOTT (1995), Head Women’s Tennis Coach; B.S., University of Nevada Las Vegas.
TAMMY L. ERIKSON (1990), Assistant Director of Housing and Residential Life; B.B.A., Mesa State College.
DARRELL FUNK (1993), Assistant Football Coach; B.A., Colorado State University; M.S., University of Illinois.
JAY P. GASS (1991), Controller; B.A., Mesa State College.
JOSEPH A. GIARRATANO (1994), Head Baseball Coach; B.A., University of Northern Colorado; M.S., City University Los Angeles.
RONALD GRAY (1988), Assistant Vice President for Financial and Administrative Services; Director of Physical Plant; B.S., South Dakota School of Mines and Technology.

RICHARD HAHN (1995), Admission Counselor; B.B.A., Mesa State College.

CHRIS HANKS, (1993), Assistant Football/Baseball Coach; A.A., College of Southern Idaho; B.S., Mesa State College.

THOMAS HARRIS (1991), Assistant Reference Librarian; B.S. M.L.I.S., University of Wisconsin.

JIM HEAPS (1991), Assistant Men's Basketball Coach; B.S., Mesa State College; M.S., Southern Illinois University.

JAY W. HOOD (1994), Head Football Coach; B.A., Ohio Wesleyan University; M.Ed., Bowling Green State University.

M. KATHLEEN JEFFERSON (1974), Associate Director of Housing.

PAUL A. JONES (1994), Director of Admission; B.S., M.S.S., Utah State University.

SYLVIA M. JONES (1994), Director of Financial Aid; B.S., Utah State University; M.B.A., Western State College.

JANEE KAMMERER (1990), Vice President for Financial and Administrative Services; B.S., University of Colorado.

ROBERT KALLINA (1995), Director, Student Recreation Center; B.S., University of Texas-Austin; M.A., Washington State University.

MARK R. KASSELHUT (1994), Head of Media Services; B.S., M.A., Central Missouri State University.

KATRINE KAUFMANIS (1992), Director of Public Information; B.A., Mesa State College; M.P.A., Arizona State University.

BENJAMIN R. KEEFER (1991), Acting Assistant Director of Continuing Education; Acting Director of Lathrop Center for Continuing Education in Agriculture; A.A.S., Northeastern Junior College; B.S., M.Ed., Ph.D., Colorado State University.

FRANK KELLER (1973), Director of Academic Records; B.A., Adams State College; M.A., University of Northern Colorado.

RAYMOND N. KIEFT (1989), President; Professor of Mathematics; B.S., Calvin College; M.S., Colorado State University; Ed.D., University of Northern Colorado.

STEVE KIRKHAM (1992), Head Women's Basketball Coach; B.A., University of Northern Colorado; M.S., Ft. Hays State University.

ANNE KINPE (1995), Acting Assistant Reference Librarian; B.A., Lawrence University; M.A., University of Wisconsin-Madison.

NANCY KOSMICKE (1992), Tutorial Training Coordinator; B.A., McCallie College.

BRYAN MARING (1995), Acting Assistant Football Coach; B.A., M.S., Fort Hays State University.

CURT MARTIN (1995), Assistant Director, Financial Aid; B.A., University of Nebraska-Kearney.

BEVERLY J. MONDRAONG (1989), Professional Staff Assistant to the President.

KATE MONTEITH (1995), Publicity/Box Office Manager.

SUSAN M. MOORE (1982), Bookstore Manager; B.A., Chestnut Hill College.

KRISTEN MORT (1995), Head Softball Coach; B.A., Mesa State College.

CLIFFORD NANCARROW (1995), Acting Associate Vice President for Financial and Administrative Services; B.A., Stanford University; M.B.A., Cornell University.

JULIE NERI (1993), Gender Equity Specialist; B.S., Cornell University.

GERALD N. NOLAN (1984), Assistant Director, Academic Computer Services; B.A., Northern Illinois University; M.A., University of Oregon.

JAMES PARONTO (1990), Director of Intercollegiate Athletics; B.A., M.A., Adams State College; Ed.D., Brigham Young University.

SHERILL PE'L (1983), Vice President for Student Services; B.A., University of Hawaii, M.A., Adams State College.

PATRICIA PICH (1995), Assistant Director of College Center; B.A., Central Washington University; M.E., Western Washington University.

MICHAEL POLL (1995), Assistant Director of Admission and Recruitment; B.S., Menlo College; M.A., San Jose State University.

ANDREW J. RODRIGUEZ (1989), Director of Purchasing; B.S., University of Northern Colorado.

ROBERT RYAN (1992), Athletic Trainer; B.A., Colorado University; M.A., University of Northern Colorado.
JAMES P. RYBAK, Professional Engineer (1972), Vice President for Academic Affairs; Professor of Engineering and Mathematics; B.S.E.E., Case Western Reserve University; M.S., University of New Mexico; Ph.D., Colorado State University.

P. DOUGLAS SChAKEL (1978), Head Basketball Coach; Instructor of Physical Education; B.A., Central College; M.A., Adams State College.

PATRICK SCHUTZ (1992), Acting Director of Tutorial and Learning Center; B.S., Eastern Michigan University; M.S., University of Utah.

RICHARD SCOTT (1995), Electronic Resource Librarian; B.A., Union College; M.S., University of Kentucky.

ELEANOR SMITH (1995), Assistant, Educational Access Services; B.A., San Diego State University; M.A., California State University-Fullerton.

NGRMA SMITH (1991), Director of Teacher Education; B.A., University of California; M.Ed., College of Notre Dame, Belmont, CA; Ph.D., University of Denver.

KERRY TURNER (1994), Coordinator, Academic Advising Center; B.S., Mesa State College.

KATHLEEN R. TOWER (1972), Special Collections/Government Documents Librarian; Assistant Professor of Library Science; B.M.E., M.A., University of Denver.

DOUGLAS G. TUCKER (1975), Assistant Vice President Financial and Administrative Services/Director for Human Resources; B.A., M.B.A., Western State College.

KRISTEN UDEN (1995), Admission Counselor; B.S., Northern Arizona University; M.S., Colorado State University.

SHANNON VESSUP (1995), Assistant Women's Volleyball Coach; B.A., University of New Mexico; M.A., Azusa Pacific University.

DANIEL C. WALKER (1994), Assistant Director of Physical Plant; B.S., Mesa State College.

BERNADETTE WEBER (1989), Assistant Director of Admission, Denver Office; B.A., Mesa State College.

Teresa M. WILKERSHO (1990), Data Information Specialist; B.S., Mesa State College.

JAN WILLIAMS (1990), Director of Budget and College Services; B.S., Colorado State University.

SANDRA WYMORE (1986), Coordinator, Educational Access Services; B.A., University of Denver.

KIM ZAHNISER (1993), Program Coordinator for Math Mentorship Lab; A.A.S., B.A., Mesa State College; M.E., Lesley College.

MESA STATE COLLEGE FACULTY

(Figures in parentheses indicate year of tenure track appointment to Mesa State College professional staff. Prior temporary or part-time service is not indicated.)

DANIEL J. AROSTEUGY (1976), Professor of Economics; B.S., M.S., University of Nevada-Reno; Ph.D., Colorado State University.

MONTIE ATKINSON (1985), Associate Professor of Music; A.S., Snow College, Utah; B.F.A., Utah State University; M.M., D.M.A., University of Illinois.

CHARLES W. BAILEY (1965), Professor of Mathematics; B.A., M.A., University of Northern Colorado.

RICHARD BALLARD (1985), Associate Professor of Biology; B.A., M.S., California State University; Ph.D., Utah State University.

MICHAEL BARON (1993), Assistant Professor of Music; B.A., Beloit College; M.A., University of Wisconsin-Madison; D.M.A., Ohio State University.

CATHY BARKLEY (1995), Associate Professor of Mathematics; B.S., Southern Nazarene University; M.S., Purdue University; Ph.D., Denver University.

BRUCE A. BAUERLE (1972), Professor of Biology; B.A., University of Kansas; M.S., University of Missouri-Kansas City; D.A., University of Northern Colorado.

VIRGINIA L. BEEMER (1968), Professor of Early Childhood Ed; Director of Early Childhood Education Program; B.S., M.A., Northern Arizona University.

RICHARD L. BERKEY (1967), Associate Professor of English; B.A., Fort Lewis College; M.A., Eastern New Mexico University.

PIERREG. BETTENLI (1985), Associate Professor of Business Computer Information Systems; B.S., Southern Colorado State College; M.S., Colorado State University.

KENNETH BLAIR (1992), Professor of Business Administration; B.S., M.S., Colorado State University; Ph.D., Arizona State University.

CLAIRE BOULANGER (1993), Assistant Professor of Anthropology; State University of N.Y.-Plattsburgh; M.A., Ph.D., University of Minnesota.

MORGAN K. BRIDGE (1995), Assistant Professor of Business Administration; B.B.A., M.B.A, Chadron State; Ph.D. University of Wyoming.

JEFF BRIGHAM (1991), Professor of Teacher Certification; B.A., M.A., University of Wisconsin; Ed.D., University of Wyoming.

CLIFFORD C. BRITTON (1964), Professor of Mathematics; B.A., Adams State College; M.A., University of San Diego.

JAMES R. BROCK (1988), Associate Professor of Engineering Technology and Environmental Restoration Engineering Technology; B.S., M.S., University of Illinois.

ESTHER BROOTHON (1991), Associate Professor of English; B.A., Utah State University; M.S., University of Texas, Ph.D., Indiana University of Pennsylvania.

C. JAMES BUCKLEY, C.P.A. (1972), Professor of Accounting; B.A., Western State College, M.S., Colorado State University.

CHRISTIAN J. BUIJS (1983), Professor of Psychology; B.A., Hope College; Ph.D., University of Colorado.

SUZANNE CLAFFEY (1986), Associate Professor of Art; M.F.A., University of Denver.

LEWIS M. CHIERE (1980), Associate Professor of History; B.A., Wilkes College; M.A., University of North Carolina; Ph.D., Washington State University.

PHYLLIS L. CHOWDRY (1976), Professor of Biology; Department of Biology; B.S., University of Denver; M.N.S., Arizona State University; D.A., University of Northern Colorado.

REX D. COLE (1995), Associate Professor of Geology; B.S., Colorado State University; Ph.D., University of Utah.

HOLLY COVINGTON (1993), Assistant Professor of Nursing; A.D.N., B.S.N., Mesa College; M.S., University of Colorado.

DAVID M. COX (1981), Professor of Theatre; B.A., Mesa State College; M.F.A., University of Utah.

WILLIAM H. DAVENPORT (1988), Associate Professor of Mathematics; B.S., University of Tennessee; M.S., Texas A & M University; Ph.D., University of Alabama.

FORBES DAVIDSON (1995), Associate Professor of Biology; B.S., Oregon State; Ph.D., University of Texas-Austin.

KENNETH S. DAVIS (1995), Assistant Professor of Mathematics; B.S., Reed College; M.S., Portland State University; Ph.D., Washington State University.
ROBERT L. JOHNSON (1962), Professor of English; B.A., M.A., Western State College; Ph.D., University of Northern Colorado.

VERNE JOHNSON (1969), Professor of Geology; B.A., M.S., Southern Illinois University;
Ph.D., University of Tennessee.

J. PHILIP KAVANAGH (1994), Associate Professor of Mathematics; B.Sc., M. Sc., University College Dublin, National University of Ireland; Ph.D., University of Wisconsin.

WALTER A. KELLEY (1977), Professor of Biology; B.A., M.S., California State University-Northridge; Ph.D., Colorado State University.

CARL M. KERN (1969), Professor of Mathematics; B.A., Western State College; M.S.,
University of Oregon; Ed.D., University of Northern Colorado.

RAYMOND N. KIEFT (1989), Professor of Mathematics; B.S., Calvin College; M.S., Colorado State University; Ed.D., University of Northern Colorado.

JOHN KNAPPENBERGER (1992), Assistant Professor of Business Administration; B.A.,
University of Central Florida; M.B.A., University of Colorado-Denver; Ph.D. University of Colorado-Boulder.

JILL KRAUSS (1992), Assistant Professor of Physical Education; B.A., M.A., Humboldt State University, Arcata, CA; Ph.D., University of New Mexico.

ROBERT KRIBEL (1993), Professor of Physics; Dean, School of Natural Sciences and Mathematics; B.S., University of Notre Dame; M.S., Ph.D., University of California.

ANN LAMBETH (1993), Assistant Professor of Nursing; B.S.N., Columbia Union College, Maryland; M.S.N., Loma Linda University.

GUY LEADBETTER (1993), Assistant Professor of Physical Education; B.A., Bowdoin College, Brunswick; M.S., University of Montana; Ph.D. University of New Mexico.

DANIEL W. MACKENDRICK (1964), Professor of English; B.A., M.A., Western State College.

LAWRENCE J. MADSEN (1988), Associate Professor of Chemistry; B.S., Oregon State University; M.S., Ph.D., University of Washington.

ROBERT W. MAYER (1987), Assistant Professor of Travel, Recreation and Hospitality; B.A.,
M.S., University of Northern Colorado.

JEANNE MAYFIELD (1995), Assistant Professor of Nursing; B.S.N., Mesa College; M.S.,
University of Colorado.

GARY L. MCCALLISTER (1973), Professor of Biology; Chairperson, Department of Biological Sciences; B.S., M.S., Brigham Young University; D.A., University of Northern Colorado.

DENISE McGINNIS (1993), Associate Professor of Business Computer Information Systems;
B. Ed., M.B.A., Ph.D., University of Toledo.

HAROLD B. MCINTIRE (1987), Assistant Professor of Business Administration; M.B.A., Eastern New Mexico University.

BETTY McMECHEN, C.P.A. (1986), Associate Professor of Accounting; B.S. Ed., University of Arkansas; M.S., Colorado State University.

WAYNE MEEKER (1966), Professor of Sociology; B.A., M.A., Western State College; Ph.D.,
University of Colorado.

BARRY P. MICHRINA (1990), Associate Professor of Anthropology; B.S., St. Francis College;
M.S., Colorado State University; Ph.D., Pennsylvania State University.

FRASANTA K. MISRA (1988), Professor of Physics; B.S., M.S., Udal University, India; Ph.D.,
Tulsa University.

JERRY W. MOORMAN (1990), Professor of Business Administration; M.Ed., Delta State University; B.S., Ed.D., Missouri State University.

LAVONN MOSESHER (1990), Associate Professor of Art; B.A., University of Northern Colorado;
M.F.A., Arizona State University.

HONORA MAUREEN NEAL (1995), Assistant Professor of English; B.A., University of Denver;
M.A., Western State College; Ph.D., Texas A & M University.

TIMOTHY NOVOTNY (1989), Professor of Statistics; B.A., B.S., University of Notre Dame;
M.A., Creighton University; M.S.B.A., University of Denver; Ph.D., University of Wyoming.

DOUGLAS A. O’ROARK (1994), Assistant Professor of History; B.A., M.A., Ph.D., The Ohio State University.

CYNTHIA PATTON (1993), Assistant Professor of English; B.A., University of Kansas; M.A.,
Ph.D., Indiana University.

JOSE M. PEER (1988), Associate Professor of Political Science; B.A., M.A., University of Nevada; Ph.D., Washington State University.
KAREN M. PERRIN (1977), Associate Professor of Physical Education; Chairperson, Department of Human Performance and Wellness, B.S., Eastern New Mexico University; M.S., Kansas State University.

DONALD PETERSON (1993), Associate Professor of Recreation; B.S., University of South Dakota; M.S., Springfield College; Ph.D., University of Oregon.

RANDY PHILLIS (1993), Assistant Professor of English; Acting Chairperson, Department of Languages, Literature and Communications; B.A., M.A., Wichita State University; Ph.D., Oklahoma State University.

KURT PITLUGA (1995), Assistant Professor of Art; B.A., Edinboro University of Pennsylvania; M.A., Ph.D., Pennsylvania State University.

HOUSTON H. POLSON (1994), Associate Professor of Business Administration; Chairperson, Department of Business Administration; B.S., North Carolina State University; M.B.A., University of Montana; I.D., Creighton University.

JHAD QADDOUR (1993), Assistant Professor of Mathematics and Engineering, B.S., Damascus University, Syria; M.S., Ph.D., Wichita State University.

GARY M. RADER (1995), Associate Professor of Mathematics; B.A., M.A., Ph.D., University of Pennsylvania; M.B.A., University of Phoenix.

LYON O. RATHBUN, (1994) Assistant Professor of English; B.A., Ph.D., University of California, Berkeley; M.A., San Francisco State University.

PAUL L. REDDIN (1970), Professor of History; B.A., Adams State College; M.A., Ph.D., University of Missouri-Columbia.

JOHN D. REDIFER, (1994), Assistant Professor of Political Science; B.A., University of Maryland; M.A., Ph.D., Colorado State University.

DAVID M. REES (1983), Professor of Economics; B.S., Utah State University; M.S., Ph.D., University of Oregon.

KRISTINE L. RIESS, R.N. (1990), Associate Professor of Nursing; B.S., M.S.N., University of Colorado.

JOSEPH L. RICHARDS, (1995), Assistant Professor of Chemistry; B.A., University of San Diego; Ph.D., University of North Carolina.

JANINE RIDER (1991), Acting Dean, School of Humanities and Social Sciences; Associate Professor of English; B.A., Miami University; M.A., University of Michigan, Ph.D., Indiana University of Pennsylvania.

MARGARET S. ROBB (1976), Associate Professor of Speech and Drama; B.A., M.A., University of Michigan.

DAVID E. ROGERS, C.P.A. (1975), Acting Dean, School of Professional Studies; Professor of Accounting; B.A., University of New Mexico; M.B.A., Golden Gate University.

CHERYL ROY (1992), Assistant Professor of Nursing; University of Iowa; M.S.N., University of Colorado-Denver.

JAMES P. RYBAK, Professional Engineer, (1972), Professor of Engineering and Mathematics; Vice President for Academic Affairs; B.S.E.E., Case Western Reserve University; M.S., University of New Mexico; Ph.D., Colorado State University.

ANN J. SANDERS (1971), Associate Professor of Dance; B.A., Eastern Washington State College; M.A., University of Colorado.

P. DOUGLAS SCHAEFER (1978), Instructor, Physical Education; Head Basketball Coach; B.A., Central College; M.A., Adams State College.

BETTE A. SCHANS (1994), Assistant Professor of Radiologic Technology; Director of Radiologic Technology Program; B.S., Metropolitan State College; M.S., University of Colorado.

PAUL G. SCHNEIDER (1969), Associate Professor of Music; B.A., M.A., University of Northern Colorado.

STEVEN C. SCHULTE (1989), Associate Professor of History; Chairperson, Department of Social and Behavioral Sciences; B.A. University of Wisconsin-River Falls; M.A. Colorado State University; Ph.D., University of Wyoming.

GAYLA SLAUSON (1993), Instructor of Business Computer Information Systems; B.A., Mesa State College; M.B.A., University of Southern Colorado.

MICHAEL P. SLAUSON (1990), Assistant Professor of Business Administration; B.S., Utah State University; M.S., University of Wisconsin, M.B.A., University of Colorado.

ROBERT P. SOWADA (1986), Associate Professor of Foreign Languages; B.A., M.A., University of Wyoming.

LINDA STAHL (1993), Assistant Professor of Nursing; B.S.N., Union College-Denver; M.S.N., University of Colorado.
SUSAN STANTON (1992), Assistant Professor of Nursing, R.N.; B.S.N., Mesa State College; M.S., University of Arizona.
GEOFFREY STARR (1974), Professor of Sociology; B.A., M.A., Ph.D., University of Colorado.
THEODORE E. SWANSON (1974), Professor of Recreation; B.S., M.A., University of Northern Colorado; Ph.D., Colorado State University.
BARRY C. THARAUD (1976), Professor of English; B.A., M.A., Ph.D., University of California-Santa Barbara.
HARRY A. TIEMANN, JR. (1962), Professor of Psychology; B.A., M.A., University of Colorado; Ph.D., Colorado State University.
KARL F. TOPPER (1991), Associate Professor of Environmental Restoration; B.S., University of Florida; M.S., Colorado State University; Ph.D., Utah State University.
KAREN TUNSTRA (1990), Associate Professor of Teacher Certification; B.S., M.S., Drake University; Ph.D., Colorado State University.
BRIAN T. VERNON (1995), Assistant Professor of Dance; B.F.A., University of the Arts, Philadelphia, PA; M.F.A., University of California, Irvine.
ROBERT WANG (1994), Assistant Professor of Environmental Restoration Technology; B.S.E., M.S.E., University of Michigan.
GERALD WEAVER (1991), Associate Professor of Mass Communication; B.A., University of the Pacific; M.A., University of Mississippi.
RUSSELL WALKER (1993), Assistant Professor of Environmental Restoration; A.B., Oberlin College; Ph.D., Iowa State University.
STEVEN WERMAN (1990), Associate Professor of Biology; B.S., M.S., California State University; Ph.D., University of Miami.
BYRON E. WIEHE (1974), Associate Professor of Physical Education; B.A., M.A., Adams State College; Ph.D., University of New Mexico.
MARY L. WOODBURY (1994), Assistant Professor of Music; Director of the Band; B.M., University of Cincinnati; M.A., George Mason University; D.M.A., University of Cincinnati.
Marilyn Wounded Head (1993), Assistant Professor of Art; B.F.A., Minneapolis College of Art/Design; M.F.A., University of South Dakota.
ZHONG CHAO WU (1989), Professor of Mathematics; B.S., China University of Science and Technology; Ph.D., University of Cambridge.
SUSAN A. YEAGER (1988), Professor of Physical Education; B.A., Luther College; M.S., South Dakota State; P.E.D., Indiana University.
MARY E. ZIMMERMER (1988), Professor of Accounting; B.A., M.S., University of Wyoming; Ph.D., Colorado State University.
MESA STATE COLLEGE RECENT EMERITUS FACULTY *

(Figures in parentheses indicate year of retirement.)

ARLYNN D. ANDERSON, B.S., M.Ed., Ed.S., Professor of Applied Technology; Dean, School of Industry and Technology; Director of Vocational-Technical Education (1991).

ORVILLE L. BOGE, B.A., M.A., Professor of Chemistry; University of Northern Colorado (1993).

WILLIAM T. BRANTON, Assistant Professor of Applied Technology (1995).

JAMES C. CARSTENS, B.A., M.A., Ph.D., Professor of Business Administration; Dean, School of Business (1987).

DELL R. FOUTZ, B.S., M.S., Ph.D., Professor of Geology (1993).

BETTY GOFF, B.A., M.A., Assistant Professor of Library Science (1986).

MAEBETH GUYTON, B.F.A., Assistant Professor of Music (1989).

CHEO HUMPHRIES, B.S., Assistant Professor of Physical Education (1987).

BRUCE E. ISAACSON, Assistant Professor of Business (1987).

CALVIN J. LUKE, B.S., M.A.T., Associate Professor of Mathematics (1987).

DONALD A. MACKENDRICK, B.S., M.A., Professor of History; Dean, School of Social and Behavioral Sciences (1990).

ELIZABETH MUSTEE, R.N., B.S., M.S., Professor of Nursing (1990).

WAYNE W. NELSON, B.S., M.S., Professor of Physical Education (1987).

W. DAVID PILKENTON, B.A., M.A., Associate Professor of Foreign Language (1987).

WILLIAM E. PUTNAM, B.S., M.S., Ph.D., Professor of Chemistry (1992).

MAI N. ROBINSON, B.S., Assistant Professor of English (1989).

JACK E. ROADIER, B.S., M.S., Ph.D., Professor of Geology (1994).

CLARICE S. TAYLOR, B.S., M.S., Assistant Professor of Home Economics (1991).

JERRY D. WETHINGTON, B.S., M.S., Associate Professor of Computer Science (1991).

KENNETH L. WHITE, B.A., M.A., Assistant Professor of Chemistry (1988).

* In accord with Faculty Senate action, this list includes only faculty receiving emeritus status in the past ten years.
MESA STATE COLLEGE VISITING PROFESSORS

CARL ABBOTT (1985), Wayne N. Aspinall Professor of History; B.A., Swarthmore College; M.A., Ph.D., University of Chicago.

STEPHEN BENNET (1995), Wayne N. Aspinall Professor of History; B.S., M.S., Illinois State University, Normal; Ph.D., University of Illinois, Urbana-Champaign.

FÉTER G. BOYLE (1989), Wayne N. Aspinall Professor of History and American Studies; M.A., Glasgow University, Scotland; Ph.D., University of California, Los Angeles.

JOANNE CARLSON BROWN (1988), Cosmosis Professor of Religious Studies; A.B., Mount Holyoke College; M. Div., Garrett Theological Seminary; Ph.D., Boston University.

WALKER CONNOR (1992), Wayne N. Aspinall Professor of Political Science; John R. Reitmayer Professor of Political Science, Trinity College, Hartford, Connecticut.

ROGER DINGMAN (1991), Wayne N. Aspinall Professor of History; B.A., Stanford; M.A., Ph.D. Harvard.

ALLAN DUFFUS (1989), Professor of Accounting; Charles Sturt University, Australia.

EMMANUEL FELDMAN (1987 and 1991), Cosmosis Professor of Religious Studies; B.S., M.A., Johns Hopkins University; Ph.D., Emory University.

RICHARD FUNSTON (1987), Wayne N. Aspinall Professor of Political Science; B.A., M.A., Ph.D., University of California - Los Angeles; J.D., University of San Diego.

DAN McEVERT (1995), Cosmosis Professor of Religious Studies; B.A., Metropolitan State College; M.A., St. Thomas Seminary.

ROBERT A. MORTIMER (1986), Wayne N. Aspinall Professor of Political Science; B.A., Wesleyan University; M.A., Ph.D., Columbia University.

FR. THOMAS M. MUNSON (1990 AND 1992), Cosmosis Professor of Theology; A.B., Loyola University; Ph.L., S.T.L. West Baden College; Ph.D., University of Louvain, Belgium.

GLenda RILEY (1993), Wayne N. Aspinall Professor of History, Political Science and Public Affairs; Ph.D., University of Ohio.

WILLIAM G. ROBBINS (1990), Wayne N. Aspinall Professor of History; B.S. Western Connecticut; M.A., Ph.D., University of Oregon.

FRANK ROSENTHAL (1994), Cosmosis Professor of Theology; Ph.D., University of Pittsburgh.

ZACHARY A. SMITH (1994), Wayne N. Aspinall Professor of History, Political Science and Public Affairs; B.A., California State University, Fullerton; M.A., Ph.D., University of California, Santa Barbara.

JEROME O. STEFFEN (1988), Wayne N. Aspinall Professor of History; B.S., University of Wisconsin, Madison; M.A., Eastern Michigan University; Ph.D., University of Missouri.
BUILDINGS AND EQUIPMENT

Houston Hall (1940), the first permanent building on the present campus, includes classrooms and computer laboratories where a variety of subject areas are taught such as business, humanities, and social and behavioral sciences. This structure was totally remodeled in 1979-80.

Wubben Hall (1962), contains classrooms, laboratories, staff offices and storage areas for physical and life sciences, mathematics, computer sciences, and engineering. Special features of the building are an octagonal lecture hall which seats one hundred persons, an electron microscopy laboratory, and the only herbarium in western Colorado. An expansion to the existing science building is scheduled to be completed by the spring of 1998.

Walter Walker Fine Arts Center (1969), includes classroom and studio facilities for art, music, and drama together with a multi-purpose Little Theatre.

William A. Medesy Hall (1969, remodeled in 1992), houses offices, classrooms, and laboratories for the Nursing and Radiologic Science programs, and Early Childhood Education. The south end of Medesy is scheduled to be remodeled in 1996.

Roe F. Saunders Physical Education Center (1968), provides facilities for a variety of physical education and recreation activities. Major features include an all-purpose gymnasium, swimming and diving pools, locker and shower rooms, classrooms, and office space for the Department of Human Performance and Wellness faculty. Physical education and practice athletic fields are located immediately west of the Physical Education Center with tennis courts to the north of the facility. Saunders Fieldhouse is scheduled to be remodeled during 1996.

The W. W. Campbell College Center (1962, remodeled 1990-91), contains a bookstore, art gallery, outdoor program, student government offices, radio station, school paper, gameroom, snack bar, information desk, dining hall, outdoor cafe, student lounges, and meeting rooms. Career Counseling Services, also located in the Campbell College Center, offer counseling, career development, employment and placement services.

The Student Recreation Center opened in January of 1996. The recreational gymnasium complex consists of two basketball courts, volleyball, badminton, team handball and indoor soccer areas. A large fitness area is equipped with weights and cardiovascular machines. An indoor track and a 28-foot high climbing wall are also part of the 33,000 square-foot facility.

Three 200-student residence halls—Tolman, Rait, and Pinon Halls (1966, 1967), provide comfortable living quarters for students. Most of the rooms are doubles, but a few single rooms are available. All rooms are furnished with modern, wall-hung furniture. A new residence hall has been proposed and is scheduled for completion by the Fall of 1997.

Walnut Ridge Apartments (1978), are available to sophomores, juniors, and seniors. Forty-eight attractively furnished two- and three-bedroom units provide complete housekeeping facilities.

Both the Academic Advising Center and the Housing/Residence Life office are located in the Student Life Center.

The Auto-Tutorial Laboratory houses audio-visual, library aids, and simulated patient rooms for specialized training in Nursing and Radiologic Science programs.

Little Mavericks Learning Center is organized for the convenience of Mesa State College students who have small children.
Lowell Heiny Hall (1967), a four-level building housing faculty and administrative offices, was totally remodeled in 1986-87.

The John U. Tornblom Library (1986), expands the traditional library concept to include storage and circulation for all commonly used forms of information such as microfilm, microfiche, audio tapes, video tapes, slides, films, records and computer disks.

The Continuing Education Center is located at 1170 Elm Avenue. It houses offices for Continuing Education staff, Adult Basic Education and Agriculture personnel and the Coordinator for Non-traditional students. This facility was remodeled in 1995.

The Industrial Energy Training Center (1982), houses staff offices, training areas and classrooms. Additionally, the College experimental farm, Colorado Environmental Education and Training (CEET) Laboratory and the Lineworker program are at this site. Located at 29 and D Roads, this facility is approximately three miles from the main campus.

The Tilman M. Bishop Unified Technical Education Center (1992) houses staff offices, shops, a computer laboratory, training areas and classrooms. UTEC serves high school, college, and continuing education students. Additionally, the facility is available on a contract basis for use by area business and industry. UTEC is located on Blichmann Avenue in the Foresight Industrial Park.

The Mesa State College Montrose Center contains classrooms, a computer lab, and staff offices. It is a leased facility located on East Main Street in Montrose, Colorado. The facility was occupied in late summer 1991 and serves college and continuing education students.
TILMAN M. BISHOP  
UNIFIED TECHNICAL EDUCATION CAMPUS

This supplemental section to the Mesa State College catalog contains programs and course information for the Tilman M. Bishop Unified Technical Education Campus (UTEC) and is provided for the convenience of students pursuing degrees and taking courses at UTEC.

All of the rules, regulations, admission requirements, academic calendar, registrations, costs, graduation requirements, etc., as delineated in the main body of this catalog apply to students at UTEC.

The Unified Technical Education Campus, built in 1992, houses staff offices, shops, a computer lab, training areas and classrooms. Located in Grand Junction at 2508 Blichmann Avenue in the Foresight Industrial Park, UTEC serves high school, college, and continuing education students.

Program Sheet
A program sheet has been prepared for each degree or certificate offered, specifying in detail the exact course requirements for each. Faculty advisers maintain program sheets for the degrees and certificates offered at UTEC. Each student is urged to consult his/her adviser to obtain a program sheet upon enrollment. It is the student's responsibility to maintain the program sheet demonstrating compliance with the degree requirements. The completed program sheet must accompany the petition to graduate and be filed with the Director of Academic Records in order for a student to be considered for graduation. Refer to the “Graduation Requirements” section of the main catalog for further details.

Overload
Students desiring to take more than 21 credit hours during a semester are strongly encouraged to consult with their advisers prior to registration.

Independent Study
Independent study permits the motivated student an opportunity to expand his or her body of knowledge beyond the scope of the standard curriculum. In endeavors to foster qualities of self initiative, organizational skills, self discipline and independent thinking. It is expected that the student will engage in intensive study and research of the topic.

Independent Study satisfies neither general education requirements nor specific course requirements. Independent Study hours may be taken as elective hours only.

For further information on Independent Study, refer to the main section of the catalog.

Special Topics Courses
Topics courses offered to those students desiring material of special interest within a specific discipline not considered elsewhere in the curriculum. Prerequisites vary with course material and enrollment requires consent of instructor.

Internship
A component of the students educational program which is designed to provide experience with on-the-job activities or projects which are directly related to the students major field of study. An internship may be required as part of a specific discipline or may be used in place of a specific course in a program. Prerequisites vary with programs, and enrollment requires consent of instructor.
Cooperative Education

According to the National Commission for Cooperative Education, "Cooperative Education is a working partnership in which an educational institution joins with an employer in a structured relationship. The basic purpose is that of providing a means whereby a student can combine study at the institution with a work experience which is under the supervision of the employer in order to fulfill the total requirements of a particular educational program."

Cooperative Education is a three-way partnership involving the student, the employer, and the college. There is a great deal of difference between Cooperative Education and simply holding a job. Cooperative Education is based on learning objectives which are related to the student's academic discipline and are established in cooperation with the student, the employer, the faculty adviser, and others at Mesa State College.

Typically, Cooperative Education is open to junior and senior students. Interested students should consult with their faculty adviser and dean. There are limits in the amount of credit which will apply towards a degree. See "Non-Traditional Credits" in this catalog.

Preparatory Courses

Preparatory courses are available in several subjects at Mesa State College. Numbers of such courses are below the 100 level (e.g. DEV1 090, College Success Strategies). These courses are designed for students needing to strengthen their backgrounds before entering college level classes. All courses numbered 001-099 are preparatory in nature, not intended for transfer purposes and will not usually fulfill degree requirements. Students are encouraged to consult with their advisers about the need to register into these classes.

Students who have passed any ENGL class numbered 100 or above will not be permitted to register for credit in any ENGL class numbered below 100. Only the Director of UTEC may approve exceptions to this for students in vocational programs.

Students who have passed any MATH class numbered 100 or above will not be permitted to register for credit in any MATH class numbered below 100.

Area Vocational School

Recognizing the national need for better vocationally-trained persons, Mesa State College provides a variety of training opportunities for individuals.

Programs and course offerings are structured to provide job entry, retraining, or skill upgrading. The further the student progresses in a program area, the greater the degree of job skill development experienced.

Students who wish to earn a degree or a certificate must have a high school diploma or a General Education Development (GED) certificate and take the American College Test (ACT) or the Scholastic Aptitude Test (SAT) before enrollment in programs. They must also meet all general education requirements and follow the suggested curriculum for the skill training in which they enroll. Students not seeking a degree or certificate may enroll in individual courses with the consent of the instructors.

A minimum of 15 semester hours of credit beyond that required for the first associate degree must be earned by a student seeking a second associate degree at Mesa State College. A minimum of one semester of residency at Mesa State College is also necessary. In addition, the student must satisfy all specific requirements for the new degree. Only one A.A. and one A.S. degree may be granted to any student, according to state guidelines.
Degrees and Certificates Available through UTEC:

Auto Collision Repair Technology
   Associate of Applied Science (AAS)
   Certificate of Occupational Proficiency

Electric Lineworker
   Certificate of Occupational Proficiency

Electronics Technology
   Associate of Science in Electronic Engineering Technology (AS)
   Associate of Applied Science (AAS)
   Certificate of Occupational Proficiency

Manufacturing Technology (AS)
   Associate of Science (AS)

Manufacturing Technology Cluster
   Associate of Applied Science with an emphasis in:
      Machine Technology (AAS)
      Welding (AAS)
   Certificate of Occupational Proficiency with an emphasis in:
      Computer Drafting Technology
      Machining
      Welding

Transportation Services Cluster
   Associate of Applied Science with an emphasis in:
      Automotive Technology (AAS)
      Diesel Technology (AAS)
   Certificate of Occupational Proficiency with an emphasis in:
      Automotive Service
      Diesel Mechanics

IMPORTANT NOTE:
As indicated some of the AAS and Certificate programs above have emphases available under the degree or certificate from which a student may choose. Before graduating with a degree or certificate offering emphases, a student may complete requirements for more than one of the emphases and show this on the petition to graduate. However, after a degree or certificate has been granted, if courses are taken that would have satisfied requirements for an additional emphasis, the additional emphasis cannot be added to the degree already granted. The course work will, of course, show on the student’s transcript.

Courses designed to meet special employment needs are offered at various locations and times throughout Mesa County if minimum enrollment requirements can be met.

On the next pages, in alphabetical order, are the programs of study available at UTEC, followed by a description of each course specific to UTEC. General education course descriptions can be found in the “Course Description” section of the main catalog.
### AUTOMOTIVE COLLISION REPAIR

**Associate of Applied Science**

Practical application covers all phases of painting, metal working, and collision repair. The training includes learning necessary shop skills, theory, principles and related subjects needed to enter and then progress competitively in the collision repair career fields. The curriculum follows ICAR and ASE national competency standards. Students may enter the program any semester.

Minimum semester hours required: 74

1. Course requirements for this degree

   a. Six (6) semester hours of English satisfied by completing any one of the following sequences:
      - ENGL 090 and 111
      - or
      - ENGL 111 and 112, 115, 121, or 129

   b. Six (6) semester hours selected from the following:
      - ANTH 201, 222
      - HIST 101, 102, 131, 132
      - ECON 201, 202
      - 136, 137
      - ENGL 131 and 132 or 133
      - POLS 101, 261
      - 145, 150
      - PSYC 150
      - GEOG 103
      - SOCO 144, 260

   c. Mathematics

   d. Human Performance and Wellness

   e. All of the following courses:

3. Special requirements
   Students seeking an Associate of Applied Science degree must obtain a minimum of 2.00 ("C") in each required AUBF course and must satisfy all other graduation requirements.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

5. Additional expenses
   In addition to textbooks, students may be required to purchase safety glasses, tools, and materials costing approximately $450.00 for the program. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
AUTOMOTIVE COLLISION REPAIR

2. Special requirements
   a. Students seeking a Certificate of Occupational Proficiency must obtain a minimum of 2.00 ("C") in each AUBF course listed in their program sheet and must satisfy all other graduation requirements.
   b. Students may enroll in additional auto body repair courses and receive a Certificate of Occupational Proficiency as long as the above requirements are met. Veteran’s benefits will be based on the above only.

3. See faculty adviser for a program sheet detailing exact and complete requirements for this certificate.

4. Additional expenses
   In addition to textbooks, students may be required to purchase safety glasses, tools, and materials costing approximately $450.00 for the program. These costs may vary with student needs and or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
ELECTRIC LINEWORKER

Certificate of Occupational Proficiency

Students receive field training and practical theory in all phases of powerline installation and maintenance. An outdoor school laboratory covers climbing, setting and removing various sizes of poles; guy work; conductors; transformers; street lights; installation of services; and the use and care of safety equipment. Climbing and working on poles and towers is required. Prospective students are encouraged to contact the college about physical requirements. This program begins only in the fall semester of each year.

2. Special requirements and recommendations
   a. Students will be required to have current First Aid and CPR certification before they successfully complete the requirements of this program. This may be achieved by any of the following: (1) holding current cards; (2) obtaining American Red Cross "Standard" or "Advanced" rating and American Heart Association or equivalent certification, or (3) successfully completing HPWA 265 offered by Mesa State College.

   b. Summer and/or Fall Semester
      ELCL 199, Internship (6 semester hours, 640 contact hours) is required for any students selected to participate in the Western Area Power Administration (WAPA) on-the-job training program. This portion is not a part of the program approved for VA benefits.

   c. Students seeking a Certificate of Occupational Proficiency must obtain a minimum of 2.00 ("C") in each listed course, except ELCL 111 and ELCL 120, and must satisfy all other graduation requirements.

3. See faculty adviser for a program sheet detailing exact and complete requirements for this certificate.

4. Additional expenses
   Students will be required to purchase or have approximately $560.00 in tools and personal equipment. This does not include required textbooks or an adequate pair of workbooks. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
ELECTRONICS TECHNOLOGY

Associate of Applied Science

Electronic science and applied electronics with emphasis areas in computers (hardware/software concepts and applications), industrial control circuits (automation and robotics) and communications. With approval of an instructor, a student may enter the program at any time (open entry) and study at his own pace.

Minimum semester hours required: 68

1. Course requirements for this degree

   a. Six (6) semester hours of English satisfied by completing any one of the following sequences:
      ENGL 111 and 112, 115, 121, or 129

      ELCT 117, 117L   DC Passive Circuits and Lab
      ELCT 118, 118L   AC Passive Circuits and Lab
      ELCT 132, 132L   Personal Computers I and Lab
      ELCT 164, 164L   Electronic Circuits I and Lab
      ELCT 165, 165L   Applied Digital Circuits and Lab
      ELCT 230, 230L   Electronic Circuits II and Lab
      ELCT 254, 254L   Industrial Circuits and Lab
      ELCT 256, 256L   Electronic Communication and Lab
      ELCT 260, 260L   Personal Computers II and Lab
      ELCT 265, 265L   Personal Computers III and Lab
      ELCT 279, 279L   Electronic Troubleshooting and Lab
      ELCT 280, 280L   Project Design and Fabrication and Lab

      *Students may, with Electronics adviser approval, substitute the following courses for electronic courses except for ELCT 279/279L and ELCT 280/280L: ELCT 152, ELCT 262/262L, ELCT 267/267L and CSCI 120.

2. Special requirements and recommendations

   Students seeking an Associate of Applied Science degree must obtain a minimum of 2.00 ("C") in each ELCT course and must satisfy all other graduation requirements.

3. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

4. Additional expenses

   Student will be required to have an appropriate multi-meter (20,000 ohms/volts or more); hand tools, costing approximately $60.00; and a scientific calculator. A power supply kit for ELCT 117L for approximately $32.00. This does not include the cost of required textbooks. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
ELECTRONICS TECHNOLOGY
Certificate of Occupational Proficiency

*Students may, with Electronics advisor approval, substitute the following courses for electronic courses except ELCT 279/279L and 280/280L: ELCT 150; ELCT 152; ELCT 262/262L; ELCT 267/267L and CSCI 120.

2. Special requirements and recommendations
   a. Students should check with an Electronics instructor/adviser about various other possible certificate options.
   b. Students seeking a Certificate of Occupational Proficiency must obtain a minimum of 2.00 ("C") in each ELCT course and must satisfy all other graduation requirements.

3. See faculty adviser for a program sheet detailing exact and complete requirements for this certificate.

4. Additional expenses
   Student will be required to have an appropriate multi-meter (20,000 ohms/volts or more); hand tools, costing approximately $60.00; and a scientific calculator. A power supply kit for ELCT 117L for approximately $32.00. This does not include the cost of required textbooks. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
ELECTRONIC ENGINEERING TECHNOLOGY

Associate of Science

Engineering technology has become very important in the fields of electronics and computer hardware. The engineering technologist works closely with engineers and technicians to assure proper installation and optimum operation of electronic systems. The Associate of Science program is designed specifically to transfer to a four-year baccalaureate degree program in the same field. It, by itself, is not designed for specific employment preparation after only two years of study. Ten specified electronics courses are the same as would be taken as a part of the Certificate or A.A.S. degree program in Electronics Technology and will apply toward the completion of this degree. The curriculum is in compliance with State agency policy governing the subject matter content and purpose of Associate of Science degrees.

Minimum semester hours required: 66

1. Associate of Science graduation requirements (for further information, see section on "Degree Requirements" in this catalog)
   a. General Education 33
   b. Human Performance and Wellness 2

2. Course requirements specific to this degree
   a. Required courses
      CSCI XXX  Pascal, FORTRAN, or other approved language (consult with adviser) (3)
      ELCT 117, 117L  DC Passive Circuits and Lab (4)
      ELCT 118, 118L  AC Passive Circuits and Lab (4)
      ELCT 164, 164L  Electronic Circuits I and Lab (4)
      ELCL 165, 165L  Applied Digital Circuits and Lab (4)
      ELCT 230, 230L  Electronic Circuits II and Lab (4)
      MATH 130  Trigonometry (3)
      MATH 151  Calculus I (5)

3. Special recommendations
   It is recommended that the student take PHYS 111, 111L, 112 and 112L.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

5. Additional expenses
   Student will be required to have an appropriate multi-meter (20,000 ohms/volts or more), hand tools costing approximately $60.00 and a scientific calculator. A power supply kit for ELCT 117L, approximate cost is $32.00. This does not include the cost of required textbooks. These costs may vary with student need and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
MANUFACTURING TECHNOLOGY

Associate of Science

The Manufacturing Technology emphasis is designed primarily to transfer to a four-year Baccalaureate degree program in one of several manufacturing fields such as Manufacturing Engineering or Manufacturing Engineering Technology. It, by itself, is not designed for specific employment preparation after only two years of study. Six specified courses are the same as would be taken in the Certificate program in Machine Trades and will apply toward the completion of this degree. The curriculum is in compliance with State agency policy governing the subject matter content and purpose of Associate of Science degrees. Students seeking only fast track employment skills are referred to the Certificate or AAS degree programs.

Minimum semester hours required: 66-67

1. Associate of Science graduation requirements (for further information, see section on "Degree Requirements" in this catalog)
   a. General Education  
   b. Human Performance and Wellness

2. Course requirements specific to this degree
   a. Required courses
      
      | Course Code | Course Title                                      | Cr. Hrs |
      |-------------|--------------------------------------------------|---------|
      | CADT 101    | Introduction to CAD                              |         |
      | CADT 106, 106L| Basic Computer Aided Design and Lab              |         |
      | MAMT 105    | Print Reading/Sketching                          |         |
      | MAMT 115, 115L| Introduction to Machine Shop and Lab             |         |
      | MAMT 120, 120L| Machine Technology I and Lab                     |         |
      | MAMT 125, 125L| Machine Technology II and Lab                    |         |
      | MAMT' 151, 151L| Numerical Control Machining I and Lab         |         |
      | MAMT 165    | Manufacturing Processes                           |         |
      | MATH 130    | Trigonometry                                     |         |
      | MATH 151    | Calculus I (with MATH 113 above) or              |         |
      | MATH 152    | Calculus II (with MATH 113) above and            |         |
      | MATH 253    | Calculus III                                     |         |

   (1-4)

3. Special recommendations
   It is recommended that the student take CSCI 100, MATH 113 (prerequisite to MATH 130) and PHYS 111, 111L. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

4. Additional expenses
   Students in Machine Trades may be required to purchase approximately $375.00 in safety glasses, tools, and material. This does not include the cost of textbooks. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
MANUFACTURING TECHNOLOGY CLUSTER: MACHINING TECHNOLOGY

Associate of Applied Science

The Associate of Applied Science degree program includes many of the same technical courses as the Certificate of Occupational Proficiency. Also included are mathematics, science, electronics and management courses which are essential for job advancement to more technical levels after employment.

Minimum semester hours required: 75

1. Course requirements for this degree

   a. English (6 credit hours from the following)
      ENGL 111 and 112 or 115
      Cr. Hrs. 6

   b. Social and Behavioral Sciences (6 credit hours from the following)
      ANTH 201, 222
      HIST 101, 102, 131, 132
      ECON 201, 202
      POLS 101
      ENGL 131 and 132 or 133, 145, 150
      PSYC 150
      GEOG 103
      SOCO 144, 160, 164
      Cr. Hrs. 3

   c. Physics
      PHYS 100
      Cr. Hrs. 4

   d. Mathematics
      UTEC 107

   e. Human Performance and Wellness

   f. All of the following courses:
      CADT 101 Introduction to CAD
      CADT 106, 106L Basic Computer Aided Design and Lab
      ELC 110, 110L Basic Electronics and Lab
      MAMT 101 Intro to Manufacturing
      MAMT 105 Print Reading/Sketching
      MAMT 106 Geometric Tolerancing
      MAMT 115, 115L Introduction to Machine Shop and Lab
      MAMT 120, 120L Machine Technology I and Lab
      MAMT 125, 125L Machine Technology II and Lab
      MAMT 130, 130L Machine Technology III and Lab
      MAMT 140, 140L Job Shop Machining II and Lab or
      MAMT 170 Practical Applications
      MAMT 151, 151L Numerical Control Machining I and Lab
      MAMT 155, 155L Numerical Control Machining II and Lab
      MAMT 160, 160L Properties of Materials and Lab
      MAMT 165 Manufacturing Processes
      MAMT 207 Introduction to Statistical Process
      UTEC 150 Fluid Power
      UTEC 220 Shop Management
      WELD 151, 151L Industrial Welding and Lab

   Cr. Hrs. 54

2. Special requirements and recommendations

   Students seeking an Associate of Applied Science degree must obtain a minimum of 2.00 ("C") in each MAMT course and must satisfy all other graduation requirements.
3. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

4. Additional expenses
Students in the Manufacturing Technology Cluster may be required to purchase approximately $375.00 in safety glasses, tools, and material. This does not include the cost of textbooks. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet a minimum industry safety standard of Z-87 with side shields.
MANUFACTURING TECHNOLOGY CLUSTER: WELDING

Associate of Applied Science

Courses are designed to give students an adequate knowledge of metals, layout work, and welding processes, along with an opportunity to gain manipulative skills and the related information needed to enter and progress in various welding occupations. Instruction and shop practice is offered in SMAW, GMAW, FCAW, and GTAW of mild steel in all positions as well as pipe and specialty welding. Various cutting and fabrication methods are included. Students can arrange work experience as an elective part of the regular program after completing two semesters or more.

Minimum semester hours required: 74

3. Special requirements and recommendations
   Students seeking an Associate of Applied Science degree must obtain a minimum of 2.00 ("C") in each required WELD course and must satisfy all other graduation requirements.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

5. Additional expenses
   Students in Welding may be required to purchase approximately $200.00 in tools and personal safety and welding equipment. This amount does not include required textbooks. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standards of Z-87 with side shields.
MANUFACTURING TECHNOLOGY CLUSTER: COMPUTER DRAFTING TECHNOLOGY

Certificate of Occupational Proficiency

The program is designed to give the student a general approach to Computer Aided Drafting (CAD) with the use of computers and CAD software as a tool (some courses available only through Continuing Education).

Minimum semester hours required: 36

2. Electives
   Four semester hours of electives with approval of faculty adviser or CADT 100 Basic CAD/CAM

3. Special requirements and recommendations
   Students seeking a Certificate of Occupational Proficiency must obtain a minimum grade of 2.00 (C) in each course and must satisfy all other graduation requirements.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this certificate.
MANUFACTURING TECHNOLOGY CLUSTER: MACHINERY AND MANUFACTURING TRADES

Certificate of Occupational Proficiency

The Machine and Manufacturing Trades certificate program is designed to give students an opportunity to develop knowledge and competency considered essential for employment as entry level or "apprentice" level machinists. Persons not having an adequate background in mathematics or three dimensional perception skill will be encouraged to enroll in preparatory courses either as prerequisites or co-requisites. Open entry and flexible scheduling is possible in this program.

Minimum semester hours required: 44

2. Special requirements and recommendations
   a. Physical requirements on the job include ability to lift up to 50 pounds regularly and to stand for long periods of time while doing machine work. Average hearing and eyesight, natural or corrected is desirable.
   b. Students seeking a Certificate of Occupational Proficiency must obtain a minimum of 2.00 ("C") in each required MAMT course and must satisfy all other graduation requirements.
3. See faculty adviser for a program sheet detailing exact and complete requirements for this certificate.

4. Additional expenses
   Students in Machine Trades may be required to purchase approximately $375.00 in safety glasses, tools, and material. This does not include cost of textbooks. This costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet a minimum industry safety standard of Z-87 with side shields.
MANUFACTURING TECHNOLOGY CLUSTER: WELDING

Certificate of Occupational Proficiency

Certificate programs are designed to be employment directed for beginning level jobs. Students should check with a welding instructor/advisor about options for specialized employment training requiring a shorter period of training.

Minimum semester hours required: 48

2. See faculty adviser for a program sheet detailing exact and complete requirements for this certificate.

3. Additional expenses

Students in welding may be required to purchase approximately $200.00 in tools and personal safety and welding equipment. This does not include required textbooks. These costs may vary with student need and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
TRANSPORTATION SERVICES CLUSTER:
AUTOMOTIVE TECHNOLOGY

Associate of Applied Science

Automotive Technology covers general service and repair of vehicles in today’s society. Courses will cover theory, applications, maintenance, repair and diagnosis of vehicle systems using hand, power and specialty tools and equipment. Diagnostics and computer systems receive special emphasis. UTEC is a satellite training center for Ford, Chrysler, Toyota, and Subaru.

Minimum semester hours: 75

1. Course requirements for this degree

a. Six (6) semester hours of English satisfied by completing any one of the following sequences:
   ENGL 090 and 111
   OR
   ENGL 111 and 112, 115, 121, 129

b. Six (6) semester hours selected from the following:
   ANTH 201, 222
   HIST 101, 102, 131, 132, 136, 137
   ECON 201, 202
   POLS 101
   ENGL 131, and 132
   SOCO 144, 260
   or 133, 145, 150
   GEOG 103

c. Mathematics: UTEC 107

2. Human Performance and Wellness

d. Required related core courses:

   TSTC 100  Introduction to Transportation Services (1)
   TSTC 101  Vehicle Service and Inspection (2)
   TSTC 110  Engine Fundamentals (1)
   TSTC 130  Electrical Fundamentals (2)
   TSTC 140  Drive Train Fundamentals (2)
   TSTC 160  Electronic Control Systems (2)
   TSTC 170  Chassis Fundamentals (1)
   TSTC 171  Brake System Fundamentals (2)
   TSTC 180  Fuel System Fundamentals (1)
   TSTC 190  Climate Control Fundamentals (1)
   UTEC 120  Industrial Safety Practices (3)
   UTEC 150  Fluid Power (3)
   UTEC 220  Shop Management (3)
   WELD 151  Industrial Welding (3)

3. Technician courses:

   Twenty-eight credit hours minimum from the following:

   TSTA 245  Manual Drive Trains (5)
   TSTA 247  Automatic Drive Trains Service (4)
   TSTA 265  Engine Control Service (2)
   TSTA 267  Body and Chassis Controls (2)
   TSTA 275  Alignment and Suspension Service (3)
   TSTA 285  Gas Fuel Injection Service (3)
   TSTG 115  Gas Engine Recon (4)
   TSTG 135  Electrical Component Repair (2)
   TSTG 140  Job Shop (4)
   TSTG 170  Practical Applications (4)
TSTG 175  Hydraulic Brake Service  (2)
TSTG 185  Carbureted Fuel Service  (1)
TSTG 195  Climate Control Service  (2)

g. Electives  

h. The student seeking an Associate of Applied Science degree must obtain a minimum of 2.00 ("C") in each course entitled TSTC, TSTG, and TSTA.

i. See a faculty adviser for a program sheet with exact program requirements.

2. Additional expenses

Students entering the program may be required to purchase or have hand tools and appropriate personal clothing and safety gear with a total cost of approximately $1375.00. This does not include the cost of required textbooks. The above costs may vary with student need and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry standard of Z-87 with side shields.
TRANSPORTATION SERVICES CLUSTER:
DIESEL TECHNOLOGY

Associate of Applied Science

Diesel technology covers general service and repair of diesel powered vehicles in today's society. Course will cover theory, applications, maintenance, repair and diagnosis of vehicle systems using hand, power and speciality tools and equipment. Diagnostics and computer systems receive special emphasis.

COURSE DESCRIPTIONS

The course descriptions in this catalog indicate the content of the course and the prerequisites when applicable. Courses are listed in alphabetical order, with a four-letter prefix code, followed by a number and title. The number in parentheses at the end of the course title indicates the credit granted, in terms of semester hours, for each course. Generally, the number of semester hours is the number of hours a class will meet each week. Exceptions are noted in individual course descriptions and, in most cases, prerequisites and/or corequisites stated. In the detailed course descriptions, the course number after prefix indicates the college year in which the courses should ordinarily be taken.

100-199................................. Freshman year
200-299................................. Sophomore year

Courses numbered 001-099 are preparatory in nature, not intended for transfer purposes, and may not be used to fulfill associate of arts or associate of science degree requirements or electives. Preparatory courses may be used to meet elective requirements in Associate of Applied Science or Certificate programs.

Courses identified as "Independent Study" are those beyond the scope of the required curriculum. General restrictions and regulations may be found under the Program section of this catalog (see "Independent Study" in the index). Specific regulations apply in certain disciplines, as well. Arrangements and permission must be obtained from the appropriate instructor and Director of UTEC well in advance.

"Topics" courses are offered from time to time and contain material of special interest within a specific discipline not considered elsewhere in the curriculum. Prerequisites vary with course materials, and enrollment requires consent of the instructor.

Mesa State College reserves the right to withdraw any program or course which is not justified due to lack of enrollment or availability of instructors. Other courses may be added if there is sufficient demand. In some programs, certain courses may be offered on an alternate year basis or as determined by demand.

Discipline Index

Subjects (disciplines) offered by UTEC are listed below alphabetically followed by the current course prefix, the page number of the individual course descriptions.

</table>

Training in the use of spraying equipment, and auto body panel paint preparation, including cleaning, sanding, masking, and spraying techniques. Other acquired skills include using primers, sealers, acrylic lacquers, acrylic enamels, polyurethane, and polyoxythane enamels. Each student is required to prepare and spray paint a given number of practice panels before painting complete automobiles. Modular course—three lecture and 12 laboratory hours per week. Prerequisites: consent of instructor. (Fall)

The student will gain skills for proficiency in basic oxy-fuel welding, cutting and brazing, and metal inert gas (MIG) wire feed welding as is required in auto body repair. Emphasis will be on new, lighter weight and high strength steels. Plasma arc cutting and resistance spot welding also addressed. One hour lecture and four hours laboratory per week. (Fall)
AUBF 200  Panel and Spot Painting  (2)  
AUBF 200L Panel and Spot Painting Laboratory  (4)  
Paint composition, refinishing products and their correct usage, color matching, and procedures to be used in making lacquer or acrylic spot repairs. Two hours lecture and eight hours laboratory per week. (Fall)

AUBF 210  Unibody and Frame Repair  (2)  
AUBF 210L Unibody and Frame Repair Laboratory  (2)  
Inspection, measurement, and repair methods used to repair unitized and conventional frames. Instruction will include floor systems, drive on rack and bench system. Two hours lecture and four hours laboratory per week. (Fall)

AUBF 228  Bolt-on Body Service  (1)  
AUBF 228L Bolt-on Body Service Laboratory  (2)  
Instruction and practice of replacement parts and glass to proper manufacture specifications. Special attention to fit and structural integrity without leaks and rattles. Modular course—one hour lecture and eight hours laboratory per week. (Fall/Spring)

AUBF 229  Extensive Damage Repair  (1)  
AUBF 229L Extensive Damage Repair Laboratory  (2)  
Severe collision repair procedures. Emphasis on metal work, additional painting, corrosion protection, and special accents. Modular course—one hour lecture and eight hours laboratory per week. Prerequisites: AUBF 108, 108L. (Fall/Spring)

AUBF 238  Weld-on Body Service  (1)  
AUBF 238L Weld-on Body Service Laboratory  (3)  
Application of body sheet metal panels that are welded onto the vehicle. Other areas covered are body electrical, sectioning, and sheet molded compounds. One hour lecture and 13 hours laboratory per week. Prerequisites: AUBF 228, 228L, 229, 229L. (Fall/Spring)

AUBF 239  Complete Collision Repair  (1)  
AUBF 239L Complete Collision Repair Laboratory  (3)  
Provides experience with heavy damage along with production shop situations. This helps the student bring all the two years of instruction together before going to work. Modular course—one hour lecture and 13 hours laboratory per week. Prerequisites: AUBF 228, 228L, 229, 229L, 238, 238L. (Fall/Spring)

AUBF 250  Estimating  (3)  
Parts catalogs, flat rate, remove-and-replace procedures, insurance appraisals, and writing collision repair bids. Three hours per week. (Spring)

AUBF 295  Independent Study  (1,2)  
AUBF 296  Topics  (1,2)  

**COMPUTER DRAFTING TECHNOLOGY**

CADT 100  Basic CAD/CAM  (2)  
CADT 100L Basic CAD/CAM Laboratory  (2)  
Designed to give the student a basic working knowledge of CAD and how to apply a CAM package for production of machine parts. Prerequisites: computer and machining experience preferred or consent of instructor.

CADT 101  Introduction to Computers and CAD  (1)  
Introduction to the use of PC computers through the use of a simple computer-aided design software package. Course will be self-paced with the use of text materials.
CADT 106  Basic Computer Aided Design (1)
CADT 106L Basic Computer Aided Design Laboratory (2)
Basic principles of computer aided design through the development of practical drawing problems using a computer. Prerequisites: CADT 101 and MAMT 105 or consent of instructor. (On demand)

CADT 107  Computer Aided Drafting (2)
CADT 107L Computer Aided Drafting Laboratory (2)
Advanced work in computer aided drafting principles including 2-D, 3-D, shading, etc. Prerequisites: CADT 106, 106L or consent of instructor. (On demand)

CADT 108  Basic CAD - Micro Station (1)
CADT 108L Basic CAD - Micro Station Laboratory (2)
Offers the student basic principles of computer aided drafting through the development of practical drawing problems using micro station software on the computer. Prerequisites: CADT 101, MAMT 105 or consent of instructor. (On demand)

CADT 109  CAD - Micro Station (2)
CADT 109L CAD - Micro Station Laboratory (2)
Advanced work in computer aided drafting principles including 2-D, 3-D shading, etc, with the use of micro station software. Prerequisite: CADT 108/108L. (On demand)

CADT 110  CAD Application (2)
CADT 110L CAD Application Laboratory (2)
This course offers the student an opportunity to apply skills and knowledge gained in earlier courses. The student will work on computer aided drawings relating to their career field of interest and advice of faculty. Intern or Coop may be substituted with approval of adviser. Prerequisites: CADT 107, 107L or CADT 109, 109L. (On demand)

CADT 195  Independent Study (1-3)
CADT 196  Topics (1-3)

**ELECTRIC LINEMAN**

NOTE: Twenty-five hours scheduled instruction per week in ELCL courses scheduled in Fall and Spring semesters unless otherwise noted.

ELCL 111 Mathematical Basic Electricity (5)
Mathematical formulas used in voltage, amperage, resistance, and power determination, metering problems, power factor correction, and line design problems. (Fall)

ELCL 120 Fundamentals of Electricity (5)
Generation, transmission, and distribution of electricity beginning with the electron and its function of transporting electric power to homes and industry. (Fall)

ELCL 131 Electrical Distribution Theory I (4)
Pole setting techniques, framing methods and specifications, climbing, sagging and splicing of conductors, energizing and de-energizing of lines, and installation of protective grounds. (Fall)

ELCL 132 Electrical Distribution Theory II (4)
ELCL 132L Electrical Distribution Theory II Laboratory (2)
Installation and operation of protective equipment, transformer hookups, voltage regulation, hotstick maintenance, troubleshooting, and gloving from the pole. Four hours lecture, three hours laboratory per week. Prerequisite: ELCL 131. (Spring)
ELCL 136L
Related Fundamentals I Laboratory
Examination of National Electric Safety Code, truck maintenance, equipment operation, material
records, electrical test meters, and introduction to transformers. Twelve hours per week. (Fall)

ELCL 137
Related Fundamentals II
ELCL 137L
Related Fundamentals II Laboratory
Meter safety, connector installation, street lighting, rubber cover up, and public relations. Two
hours lecture, eight hours laboratory per week. Prerequisite: 136L. (Spring)

ELCL 140
Underground Procedure
ELCL 140L
Underground Procedure Laboratory
Safety practices, terminology, fault finding, cable locating, switching procedure, installation of
terminal devices, splicing, and transformer application. Five hours lecture, four hours laboratory
per week. (Spring)

ELCL 145
Hotline Procedures
ELCL 145L
Hotline Procedures Laboratory
Two weeks of training by outside specialists covering current hotline maintenance and under-
ground installation methods. Eight hours lecture, twenty-four hours laboratory per week. (Spring)

ELCL 196
Topics

ELCL 199
Internship
Opportunity for an individual to be employed for training by a utility company while maintaining his/her
status as a Mesa State College student. Provides excellent on-the-job training benefits. Students usually
selected for this course by formal interview. Prerequisite: consent of instructor. Eighteen hours per week,
two semesters (Summer and Fall) after completion of regular program.

ELECTRONICS TECHNOLOGY

NOTE: Enrollment, with instructor approval, may occur at any time (open entry) for certain
courses. Please check with the instructor.

ELCT 110
Basic Electronics
ELCT 110L
Basic Electronics Laboratory
Principles of electricity/electronics. Applicable to entry level positions in areas requiring basic
understanding of DC/AC, solid state, digital, and computer operation, repair and maintenance
such as auto mechanics and machine trades. (Fall)

ELCT 117
DC Passive Circuits
ELCT 117L
DC Passive Circuits Laboratory
DC circuits including resistors, capacitors, inductors, applications of Ohm’s and Kirchhoff’s
laws, and use of standard test equipment. (Summer/Fall/Spring)

ELCT 118
AC Passive Circuits
ELCT 118L
AC Passive Circuits Laboratory
Analysis of AC circuits including resistors, capacitors, inductors, and use of standard test equip-
ment. (Summer/Fall/Spring)

ELCT 132
Personal Computers I
ELCT 132L
Personal Computers I Laboratory
Basic hardware and software of the personal computer, including use of the Internet and profi-
ciency in the use of MOS, DOS, and Windows. (Summer/Fall/Spring)

ELCT 150
C Programming for Technology
Introductory course in programming using the C language specifically directed toward the tech-
nology student solving technical problems. No mathematics beyond elementary algebra and right
angle trigonometry are required. Prerequisites: ELCT 117 & ELCT 118. (Fall/Spring)
EECT 152  UNIX Operating System  (3)
Covers the software that the majority of UNIX users work with on a daily basis. Prerequisites: ELCT 132. (Fall/Spring)

EECT 164  Electronic Circuits I  (3)
EECT 164L  Electronic Circuits I Laboratory  (1)
Analysis of solid state diodes and bipolar transistor amplifier circuits. Prerequisites: ELCT 118 or consent of instructor. (Summer/Fall/Spring)

EECT 165  Applied Digital Circuits  (2)
EECT 165L  Applied Digital Circuits Laboratory  (2)
Logic gates, boolean algebra, flip-flops, registers, memory, karnaugh mapping, machine programming, and construction of a microcomputer using TTL devices. Prerequisites: ELCT 164, 164L. (Summer/Fall/Spring)

EECT 230  Electronic Circuits II  (3)
EECT 230L  Electronic Circuits II Laboratory  (1)
Differential and operational amplifier circuitry, feedback configurations, opamps errors, compensations, and applications. Prerequisite: consent of instructor. (Summer/Fall/Spring)

EECT 254  Industrial Circuits  (3)
EECT 254L  Industrial Circuits Laboratory  (2)
Solid state circuits in industrial control circuits. Three hours lecture, two hours laboratory per week. Prerequisite: EECT 250 or consent of instructor. (Summer/Fall/Spring)

EECT 256  Electronic Communication  (3)
EECT 256L  Electronic Communication Laboratory  (1)
Introduction to the field of communications. Covers am, fm, stereo, television, antennas, digital communication, radar, lasers, and fiber optics. Prerequisite: consent of instructor. (Summer/Fall/Spring)

EECT 257  Laser Technology  (2)
EECT 257L  Laser Technology Laboratory  (1)
Covers laser design, types and components, the effects and potential hazards of laser light and the effects of infrared radiation. Prerequisites: ELCT 118, 164, 230 or consent of instructor. (Summer/Fall/Spring)

EECT 258  Fiber Optics  (2)
Covers fiber types and the active devices used to generate and detect fiber optic transmission light. Prerequisites: ELCT 118, 164, and 165 or consent of instructor. (Summer/Fall/Spring)

EECT 260  Personal Computers II  (3)
EECT 260L  Personal Computers II Laboratory  (2)
Detailed theory of personal computers using the IBM PC family. Maintenance, troubleshooting and repair of these systems to the component level is taught. Hands-on experience diagnosing and repairing 8088, 80286, 80386 machines is stressed. Prerequisites: ELCT 132, 132L. (Fall)

EECT 262  Personal Computer Networking  (2)
EECT 262L  Personal Computer Networking Laboratory  (2)
How to specify, install and maintain local area networks. Covers the basics and protocols of data communications and communication architectures. Prerequisites: ELCT 132/132L, ELCT 165/165, and ELCT 260/260L. (Fall/Spring)

EECT 265  Personal Computers III  (2)
EECT 265L  Personal Computers III Laboratory  (2)
Theory, troubleshooting, and repairing computer peripherals to include floppy disk drives, dot-matrix and letter quality printers and RGB and Monochrome monitors to the component level. Prerequisites: ELCT 132/132L, 260/260L. (Fall/on demand)
ELCT 266  Microprocessors I  (3)
ELCT 266L  Microprocessors I Laboratory  (1)
Use of the microprocessor to teach machine language programming, computer arithmetic, organization of microprocessors, interfacing, and input/output operations. Prerequisite: consent of instructor. (Summer/Fall/Spring)

ELCT 267  Microprocessors II  (3)
ELCT 267L  Microprocessors II Laboratory  (1)
Using the microprocessor to do real world tasks of interfacing memory for program storage and I/O devices for systems communication. Prerequisites: ELCT 266/266L. (Fall/Spring)

ELCT 279  Electronic Troubleshooting  (3)
ELCT 279L  Electronic Troubleshooting Laboratory  (1)
Analyze correct circuit operation and probable symptoms of component failures. Preparation for CET exam. Prerequisites: ELCT 117, 118, 164, 165, and 230. (Summer/Fall/Spring)

ELCT 280  Project Design and Fabrication  (2)
ELCT 280L  Project Design and Fabrication Laboratory  (2)
Application of circuit theory and construction techniques in the design of electronic circuits. The student will design, build, test, and write the complete documentation of an approved project. Prerequisites: student must be in the 4th semester of the Electronics Technology Program. (Summer/Fall/Spring)

ELCT 293  Cooperative Education  (3-12)
Cooperative Education provides students an opportunity to put their education to practical use in the workplace under the joint supervision of an employer participating in the Cooperative Education program and a faculty member designated by the institution. (See Cooperative Education in this catalog.)

ELCT 295  Independent Study  (1,2)
ELCT 296  Topics  (1,2)

MACHINING AND MANUFACTURING TRADES

NOTE: Full-time student schedule is a minimum of five hours per day in MAMT courses. Enrollment, with instructor approval, may occur at any time in certain courses. Please check with the instructor.

MAMT 100  Machine Shop Studies  (3)
Concentrated and condensed overview in the areas of calculator math, blueprint reading, geometric tolerancing, inspection, gauging, safety, and employee group skills. (On demand)

MAMT 102  Machine Shop Theory  (3)
Concentrated unit dealing with speeds and feeds of machines, materials, tooling, tapping, boring, and manufacturing processes. (On demand)

MAMT 105  Print Reading/Sketching  (2)
Reading of blueprints and process sheets as used in industry, application of that information to various manufacturing processes. (On demand)

MAMT 106  Geometric Tolerancing  (1)
Identification, interpretation, and application of the blueprint symbols (referred to as Geometric Tolerancing symbols) in machining and inspection operations. Corequisite: MAMT 105 or consent of instructor. (On demand)

MAMT 110  Gauging and Measuring Tools  (1)
Uses and techniques of inspection including micrometers, Vernier scales, instruments, hole gauges in surface plate work, finish of parts and overall inspection techniques. Prerequisite: MAMT 106 or consent of instructor. (On demand)
MAMT 115 Introduction to Machine Shop (1)
MAMT 115L Introduction to Machine Shop Laboratory (2)
Safety procedures: using bench tools, layout tools, power saws, and taps; sharpening general purpose drills, grinding lathe bits; and identifying and operating basic machines such as the bench grinder, drill press, band saw, and others. One hour lecture and three hours laboratory per week. Corequisite: MAMT 110 or consent of instructor. (Fall/Spring)

MAMT 120 Machine Technology I (1)
MAMT 120L Machine Technology I Laboratory (3)
Operation of engine lathes, milling machines and surface grinders. One hour lecture and five hours laboratory per week. MAMT 115 or consent of instructor. (On demand)

MAMT 125 Machine Technology II (1)
MAMT 125L Machine Technology II Laboratory (3)
Further development of skills acquired in MAMT 120. Emphasis will be placed on technical aspects of tooling and machining tolerances. One hour lecture and five hours laboratory per week. Prerequisite: MAMT 120. (On demand)

MAMT 130 Machine Technology III (1)
MAMT 130L Machine Technology III Laboratory (3)
Advanced machine operations including O.D. grinding, cutter tool grinding, gear cutting, indexing, and rotary table work with emphasis on accuracy, inspection, and workmanship. One hour lecture and five hours laboratory per week. Prerequisite: MAMT 125. (Spring, on demand)

MAMT 135 Job Shop Machining I (1)
MAMT 135L Job Shop Machining I Laboratory (2)
Production of machined parts from a shop blueprint, writing process sheets, and estimating machine time. Machining of parts may involve one or more machine operations. Machine time, paperwork, inspection, and accuracy will be emphasized. One hour lecture and three hours laboratory per week. Prerequisites: MAMT 130 or consent of instructor. (On demand)

MAMT 140 Job Shop Machining II (1)
MAMT 140L Job Shop Machining II Laboratory (2)
Further development of writing process sheets, estimating machine time, performing final inspection of finished parts and using all machines in the shop including the numerical control machines. One hour lecture, three hours laboratory per week. Prerequisite: MAMT 130 or consent. (Spring, on demand)

MAMT 145 Machine Maintenance (1)
MAMT 145L Machine Maintenance Laboratory (1)
Maintaining, lubricating, and repairing machinery including making gib adjustments, selecting and using proper lubricants and selecting or manufacturing parts of making repairs with emphasis on workmanship and inspection. One hour lecture, one and one-half hours laboratory per week. Prerequisite: consent of instructor. (On demand)

MAMT 150 Introduction to Numerical Control (1)
Numerical control/computerized numerical control machining, its advantages and how it operates. The course is designed as an informational unit for customized pre-employment training. (On demand)

MAMT 151 Numerical Control Machining I (2)
MAMT 151L Numerical Control Machining I Laboratory (2)
Computerized and numerical control machining operations, including control of functions, programming format, machine setup, and operation. Two hours lecture and three hours laboratory per week. Prerequisite: consent of instructor. (On demand)

Diagnosis and repair of fuel injection systems. Emphasis on reading and interpretation of scan tool readings and practice in service of fuel pumps, injectors, sensors, and filters. Prerequisites: TSTC 100, 101, 180. (On demand)
TRANSPORTATION SERVICES CLUSTER—CORE

TSTD 100 Introduction to Transportation Services (1) Introduction to procedures, tool usage, basic shop safety, and equipment. (On demand)

TSTD 101 Vehicle Service and Inspection (2) Introduction to vehicle systems, maintenance, and inspection. Service of the vehicle stems with emphasis on inspection and observation. Prerequisite: TSTD 100. (On demand)

TSTD 110 Engine Fundamentals (1) Introduction to Internal Combustion Engine theory, systems diagnosis, fundamentals and evaluation. Prerequisites: TSTD 100, 101. (On demand)

TSTD 130 Electrical Fundamentals (2) Introduction to electrical theory, circuits, components, testing and use of test equipment. Prerequisites: TSTD 100, 101. (On demand)

TSTD 140 Drive Train Fundamentals (2) Introduction to drive train components, diagnosis, light repair, and adjustment. Prerequisites: TSTD 100, 101. (On demand)

TSTD 170 Chassis Fundamentals (1) Theory and operation of front and rear suspension systems, including steering front end geometry and component nomenclature. Prerequisites: TSTD 100, 101. (On demand)

TSTD 171 Brake System Fundamentals (1) Theory, components, general repair practices and diagnosis of current brake systems. Prerequisites: TSTD 100, 101. (On demand)

TSTD 180 Fuel System Fundamentals (1) Theory of gas and diesel injection, combustion process, delivery systems and general service techniques. Prerequisites: TSTD 100, 101. (On demand)

TSTD 190 Climate Control Fundamentals (1) Theory of operation, nomenclature, identification, safety and environmental impact factors of air conditioning. Also covers heating and ventilation systems. Prerequisites: TSTD 100, 101. (On demand)

TRANSPORTATION SERVICES CLUSTER—DIESEL

TSTD 175 Air Brakes (1) Repair of air brake systems to include: shoes, pads, machining drums, diagnosis, R & R components, parking brakes, and anti-lock systems. Prerequisites: TSTD 100, 101, 171, and TSTDG 175. (On demand)

TSTD 215 Diesel Engine Reconditioning (5) Industry standard rebuild practices for diesel engines. R & R of engine, complete disassembly, assembly and running of engine is covered. Tune-up and fuel system adjustment are covered. Prerequisites: TSTD 100, 101, 110 and TSTDG 115. (On demand)

TSTG 195 Climate Control Service
Repair, diagnosis, R & R of components, charging, recycling and testing of heating and air conditioning systems of over the road vehicles. Prerequisites: TSTC 100, 101, 136, 190. (On demand)

TSTG 296 Topics
(1-2)

UTEC

UTEC 107 Mathematics for Technology
Designed to provide students with a practical application to mathematics. Topics include common fractions and decimals, fundamentals of algebra, plane geometry, and introduction to trigonometric functions. (Hand held calculator required). (On demand)

UTEC 110 Applied Physics
Instruction and application of physics in relation to technical education. One hour lecture and laboratory objectives. (Fall/Spring)

UTEC 120 Industrial Safety Practices
Overview of current OSHA and EPA general industry regulations with an emphasis on hazardous materials, right-to-know, recordkeeping, and worker roles in safety.

UTEC 150 Fluid Power
Principles of hydraulics and pneumatic system including the construction, application, repair, maintenance and troubleshooting of components and systems. (On demand)

UTEC 220 Shop Management
Shop operation, expenditures, floor plan design, and equipment for the modern shop including management of employees. Three hours per week. (Spring)

WELDING

WELD 110 SMAW I
WELD 110L SMAW I Laboratory
Safe use of equipment in shop practice; covers shielded metal arc welding mild steel in all positions. One hour lecture, plus laboratory objectives. (On demand)

WELD 115 Welding and Structural Theory
Classroom instruction in the use of welding equipment, selection of the proper rods and processes, and safety as it applies to welding and welding equipment. Four hours per week. (On demand)

WELD 117 OFW and C I
WELD 117L OFW and C I Laboratory
Shop practice and skill development in safe use of Oxy-Fuel Welding/Cutting equipment. Basic Oxy-Fuel welding on mild steel in flat and vertical positions is covered with some emphasis on oxy-fuel cutting of various thicknesses of mild steel plate. One hour lecture, one and one-half hours laboratory per week. (On demand)

WELD 118 OFW and C II
WELD 118L OFW and C II Laboratory
Continuation of WELD 117 with increased emphasis on shop practice in safe use of Oxy-Fuel Welding/Cutting equipment. Oxy-fuel welding and brazing, both ferrous and non-ferrous, on both pipe and plate in all practical thicknesses. One hour lecture, one and one-half hours laboratory per week. Prerequisites: WELD 117 or equivalent and consent of instructor. (On demand)

H. S. Graduate

G.E.D. Recipient

Transfer Student

*Transfer students with less than 30 semester hours (45 quarter hours) of college credit must submit official high school transcripts and either the SAT or ACT results in addition to the official college transcripts.

To provide sufficient time to process an application, all required information must be received two weeks prior to the semester a student plans to attend.

Mesa State College will not offer financial aid to a student until he or she has been admitted to the college. To be considered for all funds available through need-based aid programs (grants, loans) and merit-based aid programs (scholarships) for the fall semester, a financial aid application should be submitted as soon as possible after January 1 and no later than March 15. For a financial aid application, please contact the Office of Financial Aid, P.O. Box 2657, Grand Junction, Colorado 81502 or call (303) 248-1396.

Students applying for program in Nursing and Radiologic Sciences must submit a separate application to that department in addition to the Mesa State College application. Please contact the Department of Nursing and Allied Health at (303) 248-1398 to receive the additional application. All students applying to Nursing and Radiologic Sciences programs must have either the ACT or SAT results.

An Official Transcript is one that is sent directly to the Office of Admission from the issuing institution(s) previously attended.

Hand delivered or facsimiles of transcripts will not be accepted.

Send the application and all other pertinent information directly to:
Office of Admission
Mesa State College
P.O. Box 2647
Grand Junction, CO 81502

**High School Graduates:** All high school graduates with no previous college level study are classified as a New Freshman. Contact the high school and request that an official high school transcript and SAT or ACT scores be sent directly to the Office of Admission.

**G.E.D. Recipients:** Anyone who received a G.E.D. but has no previous college level study is classified as a New Freshman. Students must contact the G.E.D. testing agency and request that G.E.D. scores be sent to the Office of Admission. The ACT or SAT test results are also required. Contact the appropriate testing agency and have the test results sent to the Office of Admission. Students who have not taken the ACT or SAT, please contact the Mesa State College Testing Center at (303) 248-1215 to receive information on the next available testing opportunity. All test results must be received prior to admission and registration.
Transfer Students: Any student who has been or is currently enrolled in any college or university is classified as a Transfer Student. Transfer Students are required to submit official transcripts for all the institutions previously attended. For those with less than 30 semester hours (45 quarter hours) of college credit, high school transcripts and ACT or SAT test scores are also required.

Transcripts will not be evaluated for transfer credit until a student has been admitted to Mesa State College.

All Applicants: Complete the attached application and pay close attention to all the information being requested. Failure to provide accurate or complete information may result in delay of admission, loss of credit, and/or dismissal. Any questions about the application procedures should be directed to the Office of Admission at 1-800-983-MESA (in Colorado) or (303) 248-1376.

Mesa State College is an equal opportunity educational institution and will not discriminate on the basis of race, color, national origin, sex, age and handicap in its activities, programs, or employment practices.

Mesa State College is a Drug-Free Workplace. All employees and students of the College agree to abide by the requirements in the Federal Drug-Free Workplace Act and the policies stated in the brochure entitled “Drug-Free Schools, Campuses and Workplaces, State Colleges in Colorado, Drug Use and Alcohol Abuse Prevention Program.” All employees and students are provided with copies.
