FOREWORD

MESA STATE COLLEGE is a comprehensive coeducational institution operated under the governance of the Trustees of the State Colleges in Colorado.

This catalog is intended for the guidance of students and faculty but does not constitute a guarantee that all courses listed will actually be offered during any particular academic year. Mesa State College reserves the right to withdraw or add courses prior to the beginning of any semester or summer term. In some programs certain courses may be offered on an alternate-year basis or as determined by apparent demand. All program offerings are contingent upon adequate appropriations by the Colorado General Assembly.
GENERAL INFORMATION

How to Use This Catalog:
The table of contents lists each section of the catalog and the information contained within each section. For information on a specific topic, refer to the table of contents or the subject index in the back of the catalog. For additional information, contact the College toll free in Colorado at 1-800-982-MESA (outside Colorado 970-248-1376).

This catalog is divided into several sections in the following order:

General Information about Mesa State College
Included is a brief list of degrees and programs offered, admission requirements, registration procedures, expenses, financial aid, student services, academic regulations and honors, and graduation requirements.

Instructional Programs
Academic programs offered by the College are listed separately for each of the three schools, followed by (1) the baccalaureate degrees and (2) the associate degrees and certificates offered. Both sub-sections are in alphabetical order, with the general requirements for earning each degree or certificate included. The next sub-sections are (3) Teacher Licensure and (4) Electives and/or Minors. Vocational degrees and certificates offered at the Tilman M. Bishop Unified Technical Education Campus (UTEC) can be found in supplemental form as the last section of the catalog.

Course Descriptions
A brief description of each course at Mesa State College is listed alphabetically by prefix. (Courses at UTEC are a part of the UTEC supplement.)

Class schedules are published before each semester and are available from the Records Office. Not all classes described in this catalog are offered every semester or every year.

Campus Personnel
The governing board, administrative staff, and faculty are listed.

UTEC
Program and course information at the Tilman M. Bishop Unified Technical Education Campus is provided in a supplement form, along with a UTEC index.

Index
This is the catalog index.

Policy Statement:
The programs, policies, statements, and procedures contained in this catalog are subject to change by the College without prior notice. Mesa State College reserves the right to, at any time, withdraw courses or modify the rules, calendar, curriculum, graduation procedures, and any other requirements affecting students. While the information contained in this catalog is current and correct insofar as possible at the time of printing, students are advised to check with appropriate College officials and current program sheets for up-to-date information.

Mesa State College Role and Mission
The threefold mission of the College is in accord with the statement of the Colorado Legislature C.R.S. 23-53-101:
There is hereby established a College at Grand Junction, to be known as Mesa State College, which shall be a general baccalaureate and specialized graduate institution with moderately selective admissions. Mesa State College shall offer liberal arts and sciences programs and a limited number of professional, technical, and graduate programs. Mesa State College shall also maintain a community college role and mission, including vocational and technical programs. Mesa State College shall receive resident credit for two-year course offerings in its commission-approved service area.

The Mesa State College community aspires to provide an environment which promotes a wellness lifestyle free of addictive behaviors. It shall be a goal of Mesa State College to maintain a healthy campus atmosphere conducive to learning and personal safety.

Background on Mesa State College
Mesa State College was founded in 1925 as Grand Junction State Junior College and on July 1, 1974, was authorized to offer baccalaureate degree programs as an institution under the State Colleges in Colorado. As of July 1, 1996, Mesa State was authorized to offer graduate courses in business and may also offer other graduate programs in the future. Enrollment, now over 4,700, provides a favorable student-faculty ratio and a high-quality learning environment.

Mesa State College is a democratic center of learning dedicated to the improvement of human capability. The College extends its services to anyone regardless of age, race, color, national origin, sex, or handicap. Committed first to instruction, as well as service and research, the College seeks to improve the unique talents and sense of social responsibility of each student.

By promoting the acquisition of skills as well as the discovery and application of knowledge, the College develops the intellectual, ethical, and aesthetic sensibilities that enable a student to pursue a rewarding career and assume a responsible and productive role in society.

The College seeks to liberate persons from narrow interests and prejudices, to help them observe reality precisely, to judge opinions and events critically, to think logically, and to communicate effectively.

The College offers programs of value in areas of civic and cultural life, research, and recreation and desires to play a constructive role in improving the quality of human life and the environment.

In order to implement this philosophy, the College shall offer:
1) Programs leading to baccalaureate degrees and associate degrees in liberal arts, sciences, business, and professional areas;
2) Vocational technical programs leading to certificates and associate degrees;
3) Continuing education programs directed toward personal, civic, vocational, and professional self-improvement;
4) A sufficiently wide range of lower division courses to assure smooth, successful transfer by students to other institutions with programs not offered by Mesa State College;
5) Community services, including intellectual, civic, and cultural activities, advisory services, and research programs;
6) Sufficient courses in all undergraduate degree programs in general education areas to insure that students can be conversant in areas of general knowledge.

Accreditation
Mesa State College is accredited by the North Central Association of Colleges and Schools. Accreditation by this agency places credits earned at Mesa State College on a par with those earned at other similarly accredited institutions throughout the United
States. Various programs at Mesa are approved by appropriate state and national agencies, including the Colorado Board of Nursing, National League for Nursing, and the Committee on Allied Health Education of the American Medical Association (Radiologic Sciences).

Location
The Mesa State College campus is located within the city limits of Grand Junction, the largest city in western Colorado with an area population of approximately 100,000. The campus is bordered by an attractive and modern residential neighborhood. Stores and other conveniences are located within walking distance of the campus. Mall shopping and the Main Street shopping district are both nearby.

Grand Junction has been noted for having more opportunities for outdoor recreation within a 100 mile radius of its boundaries than any other city in the Western U.S. The climate is one of the mildest in Colorado, with fewer days below 32 degrees than cities in the front and central ranges of Colorado. Powderhorn ski resort (1,600 feet vertical, 220 inches annual snowfall) is located 35 miles from campus and offers season passes at a discount to students in addition to instructional ski courses offered in conjunction with the Human Performance and Wellness department.

Lincoln Park, across from the campus, features a nine-hole golf course, swimming pool, tennis courts, track, football and baseball stadiums, and tennis courts. All are available to students.

College Community Relations
Located in the center for business, government, and medicine in western Colorado, Mesa State students have access to an outstanding variety of hands-on learning experiences offered through many academic departments in cooperation with community businesses and public agencies. Faculty members are available for lectures and discussions of interest to the community, and student groups appear before both public and private audiences for information or entertainment programs. The artistic, cultural, and athletic programs conducted by Mesa State College together with those devoted to public affairs and international relations enjoy broad community interest and support. Special programs of community-wide interest are presented in College facilities from time to time by community groups.

Wayne N. Aspinall Foundation
In cooperation with the Wayne N. Aspinall Foundation, Inc., Mesa State College students have an opportunity to participate in several cooperative programs. These include a course and public lecture offered by a distinguished visiting lecturer honored as the occupant of the Wayne N. Aspinall Chair of History, Political Science and Public Affairs; and a number of scholarships are awarded to students whose courses of study are directed toward careers in public affairs. Details of these programs may be obtained from the Dean, School of Humanities and Social Sciences.

The State Colleges in Colorado
The institutions governed by the Trustees of the Office of State Colleges in Colorado (OSC), Adams State College, Mesa State College, Metropolitan State College of Denver, and Western State College, are joined to identify and facilitate cooperative efforts among the institutions.

Mesa State College is also authorized to enter into consortium agreements with other public institutions of higher education in the state to make additional programs and services available to students. For details about these programs, contact the Continuing Education office at Mesa State College.
Inter-Institutional Students

One purpose of the OSC is to establish procedures for facilitating superior programs through shared resources—physical, professional, organizational, and curricular.

A student in good standing at any of the four OSC schools will be accepted as a student at any of the other three colleges. The Registrar's office at each college can provide a form for the student to use for inter-institutional registration. Before a student registers at another school, agreements must be reached by the home and host schools concerning the exact application of earned credits toward degrees, majors, and electives. A student should contact the home institution registrar to obtain further information on arrangements.

The terms “home institution” and “host institution” are defined as follows:

1. Each student shall have a “home institution,” which is defined as that institution at which the student has matriculated, has earned academic credit, and is classified as a student in good standing. The home institution shall maintain all educational records and administer all student services, including financial aid. The home institution shall have responsibility for academic advising.

2. A “host institution” is defined as any of the four institutions, other than the home institution, at which a student enrolls in courses.

Institutions of the OSC have agreed on the following:

1. Credit for inter-institutional courses as defined above shall be treated as resident course credit and not as transfer credit for purposes of fulfilling program requirements and for graduation.

2. Grades shall be awarded by host institution faculty in the normal manner. The host institution shall provide the grades of students to the home institution registrar for posting to students' educational records.

National Student Exchange

Mesa State College is a member of the National Student Exchange Program. NSE is a consortium of over 125 colleges and universities in the United States and its territories. Mesa State students participate in this program at in-state tuition rates and receive full credit for coursework completed while on exchange. For further information, contact the Coordinator of Academic Advising/NSE Coordinator in the Student Life Center or telephone (970) 248-1177.

Continuing Education and Extended Studies

The Extended Education program offered through the Mesa State College Continuing Education Center is part of a state-wide outreach education program sponsored by the Colorado Commission on Higher Education. The system, which consists of public colleges and universities, encourages development of instructional programs to meet the needs of Colorado citizens who cannot regularly enroll in classes on a college campus. Mesa State College's program currently offers both credit and non-credit classes and programs on campus and in several neighboring cities. The program is entirely self-funded by the fees charged for the classes.

Continuing Education is defined as "learning efforts undertaken by persons whose principal occupations are no longer as students, but who see learning as a means of developing their potential or resolving problems." The continuing education program addresses five areas of adult learning needs: (1) Basic and secondary educational skills required for high school equivalency for those lacking them, (2) Job-level entry and skill upgrading occupational and vocational courses for individuals seeking employment, upgrading their competencies, changing employment, or attempting to enter the workforce for the first time, (3) Workshops, teleconferences, and seminars for professionals who need to upgrade their knowledge and skills to remain in good standing in their professions, (4) Programs for adults seeking self-enrichment/liberal arts/leisure
time skills and activities. (5) Credit classes for working persons who cannot take classes at regular daytime hours.

Most of the Continuing Education classes are scheduled in the evenings and non-credit offerings are usually less than a semester in length. Registration is conducted through the Office of Continuing Education Center, phone (970) 248-1476 or FAX (970) 248-1923. The Continuing Education Center is open Monday through Thursday from 8:00 a.m. until 7:30 p.m. On Friday the office is open from 8:00 a.m. until 5:00 p.m.

The Continuing Education Center provides several special offerings. Among these are a summer dance program, Elderhostel, teleconferences, classes for children, graduate programs, the Mesa State College hot line school, and agricultural programs.

**Mesa State College Montrose Center**

Located at 234 South Cascade in Montrose, the Center houses classrooms, a microcomputer lab, a telecommunications room, a conference room, a reception area, and offices. The Center is open from 9:00 a.m. to 4:30 p.m. Monday through Thursday. The telephone number for the Center is (970) 249-7009. Due to the high demand for evening classes, some classes are held at Montrose High School and Centennial Junior High School. The Center offers credit, non-credit classes, and brokers graduate level classes.

The focus of the Center is on general education requirements that can be transferred to the main campus or another institution as a beginning toward a degree. Students can also work toward an associate or baccalaureate degree by taking classes at the Montrose Center.

**Academic Services**

For information about Academic Services, see the Student Services section of this catalog.

**Educational Access Services**

Information regarding Mesa State College services for the physically or learning disabled student is found in the Student Services section of this catalog.

**Summer Session**

Mesa State College offers a summer program based upon needs and wishes expressed by students and residents of the community. Typical offerings in previous summers have included courses in biology, business, data processing, engineering, fine arts, humanities, mathematics, physical education, physical science, social science, and occupational education.

**FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT OF 1974**

Mesa State College's practice in regard to student record keeping is based on the provisions of the Educational Privacy Act of 1974 (the Buckley Amendment). Intended to be a safeguard against the unauthorized release of information, this act applies to all enrolled students, former students, and alumni. For details, see the Mesa State College Student Handbook.
DEGREES AND PROGRAMS

Mesa State College grants the Bachelor of Business Administration, Bachelor of Science in Nursing, Bachelor of Arts and Bachelor of Science degrees. The College awards Associate of Arts and Associate of Science degrees as well as Associate of Applied Science degrees and certificates of proficiency in occupational (vocational-technical) areas. General requirements for each degree and certificate program are listed in the Graduation Requirements section as well as in the text devoted to each degree. While these general requirements are as correct and current as possible at the time of publication, some changes may occur. Each degree or certificate seeking student must obtain a program sheet from the appropriate School detailing specific and current requirements for the degree or certificate sought and is responsible for meeting these requirements.

The three academic schools at Mesa State College and their respective subject matter areas are:

School of Humanities and Social Sciences—Administration of Justice; Anthropology; Counseling Psychology; Criminology; English; Fine and Performing Arts: Art, Graphic Art, Music, Music Theatre, Theatre; Foreign Languages; General Social Science; History; Human Services; Liberal Arts; Mass Communications; Philosophy; Political Science; Psychology; Sociology; Speech.

School of Natural Sciences and Mathematics—Biology; Chemistry; Computer Science; Environmental Restoration Engineering Technology; Environmental Restoration and Waste Management; Geology; Mathematics; Pre-Engineering; Pre-Forestry; Pre-Health Professions (Pre-Dentistry, Pre-Medicine, Pre-Medical Technology, Pre-Optometry, Pre-Pharmacy, Pre-Physical Therapy, Pre-Veterinary Medicine); Physics; Statistics.

School of Professional Studies—Accounting; Administrative Office Management; Business Administration; Business Computer Information Systems; Business Economics; Early Childhood Education; Economics; Finance; Human Performance and Wellness; Human Resources Management; Management; Marketing; Nursing, Office Administration; Office Supervision and Management: Accounting Technician, Administrative Secretary, Legal Secretary, Medical Secretary; Parks and Recreation Management, Radiologic Technology, Teacher Education and Licensure; Travel, Recreation, and Hospitality Management.

Other Mesa State College service areas include:

Tilman M. Bishop Unified Technical Education Center (UTEC)—Coordinates various secondary, post-secondary and occupational programs. See Unified Technical Education Center (UTEC) section, page 235 in this catalog for further information.

Continuing Education—Coordinates credit and non-credit adult education classes, off-campus classes, and graduate courses/programs from other institutions which are delivered on the Mesa State College campus.

Degrees and Programs of Study

Studies undertaken by a student at Mesa State College depend upon career plans and educational objectives. The College offers baccalaureate degrees, associate degrees and certificates.

Baccalaureate degrees offered by Mesa State College are the listed B.A., B.B.A., B.S. and B.S.N. degrees below. Concentrations and options available within the baccalaureate degrees are indicated under the degrees.

Associate of Arts or Associate of Science (A.A., A.S.) degrees are available in a number of emphases at Mesa State College. Students enrolling in these degrees may be preparing for immediate employment upon graduation or they may expect the two-year
degree to be the first phase of their total educational goals. All A.A. and A.S. degrees include the state-wide common core of general education curriculum and, when completed successfully, will thus meet the lower-division general education requirements of most baccalaureate degree programs in Colorado.

Mesa State College also offers a variety of occupational education programs. These Associate of Applied Science (A.A.S.) degrees and certificates of occupational proficiency are of a terminal, technical, or semiprofessional nature and are normally chosen by students whose immediate plans do not include completion of a baccalaureate degree. They are designed to help students develop the specific skills required for employment in various technical occupations. Also see the section on UTEC in this catalog.

Degrees and Certificates offered at Mesa State College
(Degrees and certificates of occupational proficiency are in bold print; concentrations, options and emphases are not in bold print)

General Admission Procedures

How to Apply
To be considered for admission, applicants should submit the application attached at the back of this catalog along with a $30 non-refundable application fee. The application deadline is one month prior to the beginning of the fall semester and two weeks prior to the spring semester or summer term. Upon receipt, the application will be processed immediately, and the applicant will be notified of his or her admission status, once all credentials have been received. Applications may also be obtained from the Office of Admission at Mesa State College or from any Colorado high school counselor. To request an application from Mesa State, call toll free 1-800-982-MESA (in Colorado) or 970 248-1376 (outside Colorado).

High school students may apply as early as the completion of their junior year. In general, applicants applying for a baccalaureate program having earned a minimum grade point average of 2.60, a composite score of 21 on the ACT, or 940 combined on the SAT, may be admitted to Mesa State.

Admission does not assure acceptance of an individual student in a particular course or program. Admission to the College does not, therefore, imply entry into any program which has selective admission standards. Some students may be requested to enroll in special courses for correction of scholastic or other deficiencies. Minimum skill levels are required for admission to even basic courses.

Students not accepted into a baccalaureate program may be admitted into a Mesa State associate degree or certificate program for which they qualify. Students may reapply for admission into a baccalaureate degree program after completing 12 semester hours of college level course work with a cumulative grade point average of 2.00 or better or after earning an associate degree.

Students who are not accepted into a baccalaureate program may be conditionally accepted into MAAP (Mesa Academic Achievement Program). If selected for MAAP, students will be registered in specific courses designed to promote academic success. This program is not optional and students who elect not to enter MAAP will not be eligible to register/attend Mesa State College. Please contact the Office of Admission for further information.

Probationary Status
Any student admitted to Mesa State College on probationary status must earn a minimum 2.0 GPA his/her first semester or he/she will be placed on academic suspension and will not be eligible to return to Mesa State College as stated under the academic suspension guidelines.

Orientation and Registration for Classes
New students are required to meet with an adviser in the Academic Advising Center, who will register the new student for classes. This may be done with an individual appointment or at a scheduled orientation session. Information on both will be mailed to students when they are admitted to Mesa State College, along with step-by-step procedures. See section on Academic Advising.

New students are encouraged to attend the orientation program. The orientation program is held prior to the beginning of both fall and spring semester.

A $75 non-refundable confirmation deposit must be received, by the published deadline, for the student's schedule to be retained. (The deposit applies in full towards tuition costs.)

Degree-seeking students who have not completed the admission process will not be allowed to register for classes. (To be considered for admission students must, before
the published deadline, complete an application for admission, submit the application fee, and have all credentials on file, including transcripts and test scores.) Non-degree status is not an option for degree seeking students. First-time freshman students and students transferring to Mesa State with fewer than 30 semester credit hours are required to have ACT or SAT scores and high school transcripts on file before their file is considered complete.

All new freshmen students will take the COMPASS placement examination before registering for classes. COMPASS is a self-paced, computerized placement examination designed to provide additional information about the students academic skill level. Results are used for placement only and do not affect admission decisions. Please contact the Academic Advising Center for information on COMPASS.

Admission Procedures by Student Classifications
Specific admission procedures for high school students, GED certificate students, home school students, transfer students, and other student classifications are as follows:

High school students
1. Obtain and complete an application for admission to Mesa State College.
2. Request that a high school counselor complete and sign the high school information section of the application.
3. Submit the completed application along with a non-refundable $30 application fee.
4. Request that the high school counselor forward official transcripts directly to the Mesa State College Office of Admission. Mesa State College requires a final high school transcript showing a graduation date.
5. Take either the American College Test (ACT) (preferred) or Scholastic Aptitude Test (SAT) and have the results sent directly to Mesa State College.

General Educational Development (GED) Certificate Students
1. Obtain and complete an application for admission to Mesa State College.
2. Submit the application along with a non-refundable $30 application fee.
3. Submit a copy of the GED test scores.
4. Take the American College Test (ACT) or Scholastic Aptitude Test (SAT) and have the results sent directly to Mesa State College.

Applicants who successfully complete the GED with a minimum score of 45 and appropriate ACT or SAT test scores may be admitted to Mesa State College. Admission to particular programs is contingent on meeting specific admission requirements for those programs.

Home School Students
1. Obtain and complete an application for admission to Mesa State College.
2. Submit the application and non-refundable $30 application fee.
3. Submit copies of all nationally standardized test results (achievement test).
4. Provide outline or transcripts evaluation form, available in the Office of Admission, of all courses taken at the high school level. If any courses are taken at a traditional high school, submit all transcripts.
5. Take either the American College Test (ACT) (preferred) or Scholastic Aptitude Test (SAT) and have the results sent directly to Mesa State College.

Transfer Students
1. Obtain and complete an application for admission to Mesa State College.
2. Submit the application along with a non-refundable $30 application fee.
3. Request that each previously attended college or university send official tran-
scripts to the Mesa State College Office of Admission. Mesa State College will not accept any transcripts from applicants under any circumstance. All transcripts must be sent from the issuing institution to Mesa State College.

4. If transferring fewer than 30 semester hours of college course work,
   (a) request that the high school send official transcripts directly to the Mesa State College Office of Admission. (GED scores will be required if applicant did not graduate from high school.)
   (b) ACT or SAT test scores must be on file before the admission process is complete.

Transfer students may be admitted into most baccalaureate degree programs if they are in good standing at another regionally accredited college or university and have a minimum cumulative grade point average of 2.00 for 12 or more semester credit hours or an associate degree.

Transfer students who are on probation or suspension from another college or university will not be admitted into a baccalaureate degree program. Transfer students who are on probation or suspension from another college will automatically be placed on probation at Mesa State College, if admitted.

Students may request an evaluation of transfer courses to determine applicability toward their degree program. General education evaluations are completed in the Records Office; specific degree requirements are determined by the faculty adviser.

It is Mesa State College’s policy to accept academic credits from:

1. All public colleges and universities in the state of Colorado, provided they are currently accredited. This applies regardless of the institution’s accreditation status at the time the credit was earned.

2. Private and out-of-state colleges and universities, provided the institution is currently accredited and was accredited or was a candidate for accreditation at the time the credit was earned.

3. Accredited two-year community or junior colleges.

4. Institutions that award “S” or “P” grades, if the granting institution states that such grade is equal to a grade of “C” or better.

Only credits with a grade of “C” or better are eligible to be used toward a degree or certificate.

Mesa State College reserves the right to evaluate, on a course-by-course basis, any credits earned 15 years prior to enrollment. Initially only courses used to fulfill general education requirements will be accepted in transfer. Other courses will be transferred upon acceptance by the adviser or dean.

Returning Students

A returning student (any student who has previously attended Mesa State College and has been out for at least one semester, summer term excluded, is a returning student) must complete a returning student application form along with a $30 application fee. The form may be obtained at the Mesa State College Office of Admission. If the student has attended another institution since last attending Mesa State College, official transcripts of all work must be sent directly to Mesa State College from each institution attended. See “Catalog Under Which a Student Graduates” section to determine the catalog to be followed for graduation.

Students wishing to return after being on suspension must file an appeal with the Director of Admission at Mesa State College to be considered for re-admission.

Academic Renewal

A student who re-enrolls at Mesa State College following an absence of at least five years may be eligible for “academic renewal.” If “academic renewal” is approved, none of the course credits and grades earned at Mesa State College prior to the five-year minimum absence will be used for meeting graduation requirements or in determining the student’s grade point average.
Among the requirements to be eligible to apply/petition for "academic renewal" is that the student must have completed 24 academic course credits at Mesa State College, excluding PE activity courses and remedial courses below the 100 level, with a minimum grade point average of 3.0. The student must apply/petition no later than the semester following the completion of these 24 credit hours. Matriculation and/or course completion at other institutions during the five year period of absence has no bearing on the application/petition.

Non-Degree Seeking Students
Students who do not wish to pursue a degree or certificate at Mesa State College may register without being formally admitted to the College. Students wishing to enter Mesa State College as non-degree seeking must be at least 20 years of age and cannot have been enrolled at Mesa State College previously as a degree seeking student. Non-degree seeking students must consistently earn a minimum semester grade point average of 2.00. Students who fail to achieve the minimum must apply for admission as a degree seeking student to continue taking classes. Non-degree seeking students working to become degree seeking or non-degree seeking students who earn thirty semester hours must apply for admission to Mesa State College. A non-degree seeking student must complete the Non-Degree Seeking Student application along with a $30 application fee.

Non-degree seeking students have not been admitted to Mesa State College and are not guaranteed admission should they later make formal application. Once non-degree seeking students apply for formal admission to Mesa State College, the admission policies in effect at the time of application will be used to determine admissibility to the College in general and specific academic programs. This includes satisfying all requirements for Admission Assessment tests such as the ACT or SAT or, for certificate students, the alternative assessment test. Non-degree seeking students are not eligible for financial aid and will not be assigned an adviser. Degree seeking students will have priority over non-degree seeking students regarding registration.

Concurrent Students
High school students in the eleventh or twelfth grades who attend a high school within commuting distance to Mesa State College may be eligible to take one or more classes at Mesa State College. High school students interested in enrolling for classes at Mesa State College must first contact their individual high school counselors. Concurrent students must submit the following before they will be allowed to register for classes:
1. A Concurrent enrollment form.
2. A $30 non-refundable application fee.
3. An official high school transcript. (ACT or SAT scores are preferred at this time, but not required), sent directly from the high school.

Concurrent students are not admitted to Mesa State College. When concurrent students wish to become degree seeking students at Mesa State College, they must complete the admission process and will be subject to the admission policies in effect at the time of application. Students seeking concurrent student status and seeking financial support from their school district must begin the procedure 60 days prior to the term in which they wish to enroll.

Home school students seeking to enroll as a concurrent student must contact the Office of Admission for more information.

International Students
To be considered for admission, students who are not U.S. citizens or Resident Aliens must complete and submit the following to the Admission Office at Mesa State College prior to May 1 for fall semester and at least by September 1 prior to spring semester:
1. Application form with $30 non-refundable application fee.
2. Copy of their American College Test (ACT) scores or Scholastic Aptitude Test (SAT) scores and results from the Test of English as a Foreign Language (TOEFL).
3. High school transcript (must be translated into English).
4. Transcripts from all other colleges or universities (must be translated into English).
5. Affidavit of financial support.
6. Evidence of medical insurance. Students who do not have proof of medical insurance will be required to purchase Mesa State College student health and accident insurance.
7. For registration purposes, all international students are required to comply with the Colorado law on measles, mumps and rubella. A Mesa State College official form must be completed and returned to the Office of Admission.

Prospective international students whose primary language is not English, seeking regular admission to Mesa State College, must provide documented evidence of ability to read, write, speak, and understand the English language. This requirement may be fulfilled in one of the following ways:
1. Submission of scores of Test of English as a Foreign Language (TOEFL) with an average of 525 or higher.
2. Submission of results of Michigan Test of English Language with a minimum score of 80.
3. An international student who has been enrolled as a full-time student at another college or university in the United States may request consideration of fulfillment of this requirement on an individual basis.
4. Successful completion of an intensive English program (signature of director required).
5. Other evidence will be considered on an individual basis.

Before admission is granted, an international student must provide proof of financial ability to meet cost of tuition, fees, books, living accommodations, and incidental expenses for at least one full year. The total cost per student is approximately $13,000 per calendar year (12 months).

Additional information and forms may be obtained from the Admission Office.

Admission to Specific Programs

Certain baccalaureate, associate, and certificate programs may have specific entrance requirements in addition to general college admittance. Prospective students should check with the Dean of the School in which the desired program is offered for special requirements or call 1-800-982-MESA in Colorado or (970) 248-1376 outside Colorado. Two examples follow:

Nursing and Radiologic Science Programs

Students applying to the Nursing and Radiologic Sciences programs must submit additional material. ACT or SAT scores are required for all Nursing and Radiologic Sciences applicants. The only students for whom the ACT/SAT requirement is waived are those applying to the B.S.N. program who have earned 60 or more college level credit hours. Students applying for admission into the programs of Nursing and Radiologic Sciences must be admitted into the general College. Admission to Mesa State College does not guarantee admission into the Nursing or Radiologic Science program, which requires a separate application. Please contact Nursing and Radiologic Sciences for additional information by calling toll free 1-800-982-MESA in Colorado or 970-248-1398 outside Colorado.
Accounting Program

Entering freshmen are not eligible for admission to the Accounting Program but students wishing to major in accounting must be admitted into the general College. Admission to Mesa State College does not guarantee admission into the Accounting program.

Once a student has completed forty-five credit hours with a 2.75 GPA or higher and has met the other specific criteria for admittance, he or she may apply to the Accounting Program Admissions Committee. Specific admission information may be obtained from the Department of Accounting and Information Technology in the School of Professional Studies. More information is also available in this catalog under Accounting in the Baccalaureate Programs section.

Selective Service

Any male student born on or after January 1, 1960 wishing to attend classes at Mesa State College must attest to his registration or exemption from registration with the Selective Service. This attestation must be done prior to initial registration.

Immunization Policy for Measles, Mumps, and Rubella

Colorado State Immunization Law states that after July 1, 1995 all college students (now including those students over twenty) born since January 1, 1957 must have two (2) measles, two (2) mumps, and two (2) rubella doses. If the student received a second measles dose prior to July 1, 1992 the second mumps and rubella are not required.

Written evidence of titers (blood test) showing immunity to measles, mumps, and rubella is acceptable. If the student completes an exemption form and an outbreak occurs, the student will be subject to exclusion from school.

Students must prove compliance within 60 days from the beginning of classes the first term they attend or they will not be allowed to register for the next term.

Veterans

Programs offered by Mesa State College, with certain exceptions, are approved by the Community College and Occupational Education System for the education and training of veterans and dependents of veterans eligible under applicable public laws. A veteran or dependent planning a course of training in a special program not described in the College catalog or identified as approved for veterans’ benefits should check with the veterans certification officer before enrolling in such a program, if benefit assistance is desired.

Veterans and dependents who plan to apply for VA benefits while attending Mesa State College should contact the Office of Veterans Affairs as soon as the decision to enroll is made. Application for benefit assistance must be made at least two months prior to initial registration if the advance benefit check is to be received on the first day of class. Without this advance application, the student must make other financial arrangements and be prepared to finance tuition and fees, books, supplies, and living expenses for at least two months. Six weeks is the normal processing time required for Veteran’s Administration to establish an applicant’s file. Further information may be obtained from the Office of Veterans Affairs in the Office of the Director of Academic Records.

Credit may be granted for experience and training gained during active duty in the armed forces. Students must submit appropriate discharge papers and certificates of completion to the Office of the Director of Academic Records. All credit granted will be lower division credit.
Admission Assessment and Counseling Tests

ACT or SAT

Scores from either the ACT (preferred) or the SAT are required of all degree-seeking students attending Mesa State College. Test scores must be on file in the Admission office before official acceptance is granted. Certificate seeking students are required to have ACT or SAT scores on file or to have taken the alternative assessment test (see "Alternative Admission Assessment Device" section). A student's attainment of a certain ACT composite score, or SAT combined score is one of several criteria considered for admission. Certain other programs, including programs offered in Nursing and Radiologic Sciences, have a minimum ACT or SAT score requirement. For specific requirements, inquire of the Dean of the appropriate school. ACT and SAT test results also are used by the student and adviser as the basis for planning a course of study and as an aid in academic placement. Supplemental academic assistance is provided on a limited basis for those whose test scores indicate weaknesses or deficiencies in certain areas such as English and mathematics. ACT and SAT scores also may be used for scholarship consideration and institutional research.

The only exemptions to this admission requirement are for:

1. Students enrolled only in non-credit classes offered through Continuing Education.

2. Transfer students to Mesa State College from other accredited colleges or universities with 30 or more semester hours of credit. This does not apply to applicants to the Nursing and Radiologic Sciences programs and any other programs that may require a specified ACT or SAT score as an entrance requirement.

3. Students who have already earned an associate or baccalaureate degree at another accredited institution.

4. Non-degree seeking students.

Prospective students are encouraged to take the ACT or SAT during their high school senior year. Transfer students (unless exempt) are required to have their ACT or SAT scores on file in the Office of Admission prior to registration. ACT or SAT scores from a previous college or university are acceptable. Students are required to retake the ACT/SAT test if their scores are three or more years old.

A special residual ACT test is scheduled prior to registration each semester for applicants seeking admission to Mesa State College who did not take the ACT on one of the national test dates. A testing fee of approximately $40.00 will be collected from the student immediately prior to taking the test. Test results will be available to the student's adviser during registration. Contact the Testing office for further details (970) 248-1215.

Alternative Admission Assessment Device

Assessment tests are required of students before they may enroll: (1) in certificate programs of one year or less or (2) as non-degree seeking students. These students may choose:

1. The ACT or SAT.

2. An alternative assessment device. Certificate and non-degree seeking students who wish to use this alternative must contact UTEC for details and cost information.

Should a certificate-seeking student want to become a degree-seeking student, he or she must comply with all entrance requirements for the new program. This will include taking the ACT or SAT if the student has not done so.
Assessment and Evaluation after Enrollment

Students are required to participate in testing and other programs necessary for evaluation and assessment purposes. Please see the “Evaluation” section of “General Academic Requirements” in this catalog.

Non-Traditional Credit

Non-traditional credit can be earned from sources such as the following:

Advanced Placement/Credit Program

Students wishing academic credit or advanced placement for college level work done while in high school should take the appropriate College Board Advanced Placement examination. These examinations are administered several times each year at numerous locations throughout the United States. College Board Advanced Placement examination scores currently accepted at Mesa State are American history; art: history; art: studio; biology; chemistry; computer science; English language and composition; English literature and composition; European history; French language*; French literature; German literature*; mathematics: calculus AB; mathematics: calculus BC; music listening and literature; music theory; physics B; physics C: mechanics; physics C: electricity and magnetism; Spanish language*; Spanish literature*. The Admission Office will supply information concerning the scores required for earning academic credit or advanced placement in the various subject areas.

College Board Advanced Placement credit will not be entered on a student’s transcript until the student has achieved 12 hours of credit at Mesa State College.

* Level 3

College Credit by Examination and Department Challenge Examinations

Students attending Mesa State College may earn college credit by examination in certain subject areas on the College Level Examination Program (CLEP). Credit may also be earned by subject matter tests offered through various departments at Mesa State College (Department Challenge examinations). Students must have completed 12 credit hours of course work at Mesa State College before challenge credits will be recorded on a transcript.

Registered Nurse (RN) students seeking credit for prior nursing learning experiences see the Bachelor of Science in Nursing in the “Programs of Study” section of this catalog.

For more information contact the appropriate Dean or the College Testing office at (970) 248-1215.

Limitation on Non-Traditional Credit

The faculty and dean of each school determine if and under what conditions non-traditional credit is allowed. If allowed, the following limits apply:

1. Military credits—maximum of 20 lower division credit hours.
2. CLEP and credit by examination/department challenge examinations—maximum of 20 credit hours for a baccalaureate degree or an Associate of Applied Science degree, a maximum of 12 credit hours for an Associate of Arts or an Associate of Science degree and a maximum of six credit hours for a certificate of occupational proficiency. Students may not earn CLEP credit in a class in which they have been previously enrolled including a class from which the student withdrew, so the transcript shows a “W,” “WP,” or “WF.” Students must receive approval and follow the procedure to challenge a course, including enrolling in that course. See the Records Office for a copy of the procedure.
3. Advanced placement—maximum of 30 credit hours for a baccalaureate degree,
15 credit hours for an associate degree or a maximum of six credit hours for a certificate of occupational proficiency.

4. Competency credit—maximum of 30 credit hours towards a baccalaureate degree or 25 percent of the total credits required for the program towards an associate degree or a certificate of occupational proficiency at the prerogative of the Dean of the School. Further restrictions apply. See the Director of Academic Records for details and guidelines.

5. Cooperative Education, Internships, Practicums, etc.—non-classroom oriented courses such as cooperative education, internships, practicums and other courses determined to be of this type are subject to the following limits: a maximum of 12 semester hours of credit may be used to satisfy the required academic semester credits for a baccalaureate degree. A maximum of 6 semester hours may be used to satisfy the academic semester hours for an A.S. or A.A. degree. The maximum of 12 semester hours may apply toward the 40 upper division hour requirement. No restriction on the maximum number of credits above and beyond any degree requirement is intended. These restrictions do not apply to the A.A.S. degree or certificate programs.

The total combination of any non-traditional credit cannot exceed:
1. Baccalaureate - 30 credits
2. Associate of Science or Associate of Arts - 15 credits
3. Associate of Applied Science - 20 credits
4. Certificate - twenty-five percent of the credits required in the program

Acceleration of College Study
It is possible for students to satisfy requirements for baccalaureate degrees in less than the traditional four years (eight regular academic year semesters). Ways of accomplishing this include: enrolling in college classes while a senior in high school; exceeding the normal course load at Mesa State College or elsewhere; challenging by examination courses in which competence has previously been attained; earning credit by testing through the College Level Examination Program (CLEP); obtaining credit for work experience (competency credit). Additional information may be obtained from faculty advisers and the Testing office.

No-Credit-Desired/Audit Courses
A student who desires to attend certain classes regularly, but does not wish to receive grades or credit, should register for "no credit desired" in these classes.

Tuition charges for classes taken under the "no-credit desired" category are the same as for classes taken for credit. Exceptions to this policy will be made for senior citizens.

The deadline for a student to change from "no-credit desired/audit," to credit is the same as the deadline to add a class. The last day for a student to change from credit to "no-credit desired/audit" is the same as the deadline to drop a class.

Senior Passport to Education Program
Mesa State College provides individualized support, including academic and scheduling decisions, for persons 60 years and older.

Classes for No Credit
Persons 60 years of age or older who do not wish to earn college credit may attend resident instruction classes, on a space-available, instructor-approved basis, at Mesa State College without paying tuition or fees. (This policy does not apply to laboratory, Continuing Education and certain other courses for which special charges normally are assessed.)

Interested persons should obtain a registration form from the Continuing Education Center at 1170 Elm Avenue or telephone (970) 248-1476 or (970) 248-1847. The reg-
Registration form must be signed by the instructor granting approval and returned to the Coordinator of Non-Traditional Adult Students. No Mesa State College records of participation will be maintained.

Classes for Credit
Person 60 years or older who wish to enroll for credit must submit required admission and registration materials to the Office of Admission. The same deadlines, costs, etc., as for other students will apply.
EXPENSES AT MESA STATE COLLEGE

Mesa State College reserves the right to adjust any and all charges, including fees, tuition, and room and board, at any time deemed necessary by the Trustees.

Determination of Residence Status for Tuition Purposes

A person moving to Colorado must be domiciled in the state for 12 continuous months before being eligible to apply for in-state resident status. To qualify for in-state tuition, however, a person must do more than merely reside in Colorado for the preceding 12 months. "Residency" in this context means legal "domicile" which requires intent to remain in Colorado indefinitely, regardless of enrollment at Mesa State College. For a student under the age of 21, the residency classification is based on the parents' residency unless the student can prove emancipation. Students 21 years of age or under, if emancipated, must demonstrate that they themselves have met the residency requirements.

Examples of actions which can establish residency intent are: payment of Colorado state income tax, registration of a vehicle in Colorado, and possession of a Colorado driver's license. The final decision regarding tuition status rests with Mesa State College. Questions regarding residence (tuition) status should be referred only to the Director of Admission. Opinions of other persons are not official or binding upon the College.

Tuition and fees for the 1997-98 academic year had not been determined when this catalog was printed. The following estimated rates are presented for planning purposes only. Students are invited to write for the most current rates, available in July each year.

</table>

*Student services fees are $20.81 per credit hour and include a 50 cent per semester per student charge. Refer to the Mesa State College Student Handbook for a complete breakdown of the student fees.

A surcharge equal to the appropriate credit hour tuition rate will be assessed per semester for each credit hour over 21.
Non-Refundable Confirmation Deposit
A $75 confirmation deposit is required prior to the beginning of fall and spring semesters in order for the registered student’s class schedule to be retained. The deposit applies, in full, to tuition and fees. It is not refundable.

Summer Session
Students confirm their class schedules upon registration. No confirmation fee is required for summer session and tuition and fees are due in full on the first day of class. Tuition charges equal those for the regular fall or spring semesters; however, student services fees are $13.97 per semester hour regardless of the number of hours taken. The computer lab fee is $1.30 per semester hour up to a maximum of $13.00. Please note that summer terms follow a separate policy regarding refunds. Pre-registration is held at the same time as pre-registration for fall term.

Payment of Tuition and Fees
Students, by the act of registration and confirmation, automatically incur a financial obligation to the College. This means that students who register for one or more classes (unless they officially withdraw from the College within the time specified for a partial refund), are obligated to pay the full amount of their tuition and fees, whether or not they attend class. Tuition and fees are due in full on or before the 12th day of classes. A late fee of $50 will be assessed if this payment is not made. No student having unpaid financial obligations of any nature due Mesa State College will be allowed to register for classes, graduate, or receive a transcript of credits.

In addition, students are liable for reasonable collection costs, including attorney fees and other charges necessary for collections of any financial obligation not paid when due. Billing statements are processed the 15th of every month. An interest rate of 1% per month is charged on all unpaid balances.

Refunds of Tuition and Fees
If a student registers and officially withdraws at the Records Office on or before the first day of classes, all tuition and fees will be refunded (the $75 confirmation fee is non-refundable).

If a student officially withdraws during the refund period an additional administration fee will be deducted from the refund. The fee will not exceed 5% of institutional charges or $75, which ever is less.

Beginning with the first day of classes, if a student officially withdraws from all classes, the College will refund the student’s payment of tuition and fees as follows based on the date the student completes the official withdrawal form at the Records Office.

Institutional/Federal Policy
100% - the first day of the semester
90% - the first week of the semester
50% - the 2nd week through the 4th week of the semester
25% - the 5th week through the 8th week of the semester

Prorata Refund Policy
Applied to all first time students at Mesa State College who receive Title IV financial aid funds and withdraw from Mesa State College:
90% the first week of the semester
80% 2nd through 3rd week of the semester
70% the 4th week of the semester
60% 5th through the 6th week of the semester
50% 7th through the 8th week of the semester
40% the 9th week of the semester
30% the 10th week of the semester

Continuing Education credit classes follow the Federal/Institutional Refund Policy.
Federal/Institutional Refund Schedule for summer term
100% first day of classes
90% through week 1
50% through week 2
25% through week 4
0% after week 4

Summer term prorata refund details available in the Office of Financial Aid.
Continuing Education operates under a different refund policy for non-credit courses.
Please contact that office for specific information.

If a student has unpaid charges and a cash refund is due the student, the refund will
be applied to the student’s unpaid charges, and either a check will be issued for any
credit balance or the student will be billed for any remaining charges.

Housing and Meal Plans
Freshman and sophomore students who are under 21 years of age and not residing
with their parents in Mesa County are required to live on campus. However, space is
limited and priority is based on the date the complete housing application and de-
posit are received in the Housing Office. A student may qualify for exemption from
the on-campus requirement for definite reasons expressed in writing and approved by
the Director of Housing and Residence Life if he or she is:
1. Married; or
2. 21 years of age or older; or
3. A part-time student (enrolled for less than 12 hours per semester); or
4. Residing at the permanent address of his/her parent or stepparents; or
5. Of junior class standing as of the beginning of the semester; or
6. Not of junior standing, but has resided in the Mesa State College residence halls
   for four semesters; or
7. Medically excused (with written documentation from a medical doctor); or
8. Placed on a waiting list due to limited space on campus.

On-campus living offers many advantages. Its location, just steps away from class-
rooms, student services, and the library, makes on-campus living very convenient for
Mesa State students. In addition, living on campus relieves the students of many time-
consuming chores such as preparing meals, washing dishes, and driving to and from
the campus. With this extra time, students are able to devote more energy to their stud-
ies, to recreational activities, and to making new friends.

Upon acceptance to Mesa State College, a packet of information, which will include
a Student Housing Contract and Application Card, will be mailed to all students who
are under 21 as of November 1, 1997 and who live outside of Mesa County. Students
who do not meet the above criteria must call or write the Housing and Residence Life
Office to request that a packet be sent to them.

Each residence hall and apartment complex is staffed with a resident director, assistant
director, and resident assistants who are trained to assist students. These staff mem-
bers aid residents in adjusting to residence life, explaining policies, answering
questions, solving problems and anything else associated with college life.

The Housing and Residence Life Office is available to help students make arrange-
ments for residency and meal plans, answer questions, receive suggestions, and assist
students with any housing-related concerns or interests.

The Facilities
There are two types of on-campus housing available: (1) residence halls which re-
quire a meal plan (most rooms are designed for double occupancy, although there are
a limited number of single rooms); (2) apartments, available for sophomores, juniors,
and seniors.
Student Housing Contract

Students who wish to apply for accommodations on campus are required to submit a $150 deposit with their signed contracts and completed application cards. On-campus housing is not guaranteed, as availability is limited to 923 students. The deposit includes a $25 non-refundable application fee. Housing assignments will be made by July 1st.

The Student Housing Contract is a legal agreement between the student and Mesa State College regarding residency and meal plans on campus. Both parties assume the rights and responsibilities outlined in the Student Housing Contract and all supporting documents upon acceptance of the contract by Mesa State College.

Questions concerning housing on campus should be directed to Housing and Residence Life located in the Student Life Center at 1152 Elm, across from the W.W. Campbell College Center.

Off-Campus Housing

The College has no jurisdiction over off-campus housing but attempts to assist students in locating housing.

Food Service

Marriott Corporation offers food service to students at Mesa State College which includes a choice of two meal plans: Plan A, unlimited meals between 6:45 a.m. and 6:45 p.m., or Plan B, unlimited meals between 10:30 a.m. and 6:45 p.m. Multiple entrees are served with unlimited seconds. Only two meals are served on Saturday and Sunday (brunch and dinner). Both meal plans have full access to brunch and dinner 11:00 a.m. to 1:00 p.m. and 5:00 p.m. to 6:45 p.m. Meals are planned with special needs in mind also, such as for the weight conscious or vegetarian.

Students living in the residence halls may select the meal plan of their choice but are required to choose one. Students not living in the residence halls may, if they wish, purchase meal plans and/or munch money (prepaid coupon books with savings on snacks and various meals on campus). Meals are served seven days a week during the academic year but are not served during Thanksgiving, Christmas and spring break when classes are not in session.

Call (970) 248-1742 for more information on dining services at Mesa State College.

Payment of Housing and Meal Plans

The Student Housing Contract is in effect for the entire year; however, these services are billed and payable by semester. The total charge for the academic year for the residence hall or apartment is divided into 60% for the fall semester, or the first term of attendance within an academic year, and 40% for the spring semester (if it is the second semester of attendance within an academic year). Housing and meal plan rates for the 1997-98 academic year had not been determined when this catalog was published. The following schedule reflects estimated rates for 1997-98.

*A $40 per semester/per person charge will be added for phone service for the residence halls; a $30 per semester/per person charge will be added for phone service for the apartments. A $15 charge per semester will be added to all residents' accounts for housing activity fee. The phone and activity fees are NON-REFUNDABLE.

Room Refunds
The schedule for room refunds is outlined in the Student Housing Contract.

Meal Plan Refunds
Students withdrawing from Mesa State College are charged thirty (30) percent of the cost of the total meal plan plus meals through the week in which formal check-out occurs. Students leaving the last four weeks of the semester are charged the full semester rate for meals.

Other Fees and Expenses

Books and Supplies
Required text books and supplies are sold at the College Bookstore, located in the W. W. Campbell Center. Other items sold at the bookstore include general books, art and engineering supplies, basic school supplies, calculators, imprinted and non-imprinted clothing, magazines, non-prescription medicine, and gift items.

The approximate cost of textbooks for a single semester is $280 but varies with the program of study. Supply costs vary depending upon student preference and course requirements.

Textbooks may be returned during the first four weeks of the fall semester and the first three weeks of spring semester, provided the cash register receipt is shown as proof of purchase and the books have not been defaced.

The bookstore sponsors a book buy-back program which is conducted during the final examination week of fall and spring semesters only. Used books may be available for some classes.

The College bookstore hours are:

- Monday, Tuesday and Thursday: 7:45 a.m. to 4:30 p.m.
- Wednesday: 7:45 a.m. to 6:30 p.m.
- Friday: 7:45 a.m. to 4:00 p.m.
- Saturday and Sunday: Closed

Personal Computer Recommendation
Mesa State College recognizes the importance of computers as educational tools to be used in the pursuit of higher education. Students are strongly encouraged, to the extent possible, to have a personal computer for their use while attending Mesa State College.

Students who will be purchasing a personal computer should consider the following specifications. By doing so, students will be able to complete most course work in the privacy of their own room/home.

Suggested specifications: (These specifications and costs could be different for 1998 and beyond. Please direct questions regarding the computer specifications to the Management Information Service Office prior to purchasing a computer).
486 dx4 or better; 100 MHZ; 16 meg of RAM; 1 gigabyte hard drive; 2 3½ inch floppy drives; 0.28 pitch SVGA 14" color monitor; 1 Mb Bus video card; 101 keyboard; 2 serial, 1 parallel and 1 joystick ports; DOS (latest version); modem; Windows (latest version); two year warranty; laser jet or good letter quality printer. Approximate cost for system: $1000-$1400. (Does not include printer)

Software: students may be required to purchase specific software for specific courses. In some cases, students will purchase software along with the textbook used for the class at a nominal cost. Students should not purchase software until advised by individual faculty.

Private and Special Instructional Fees
When certain private and special instructional services are required, additional charges will be incurred by the student. Fees vary with the nature of the instruction. Private instruction in applied music is available from instructors approved by the College. Cost of this instruction is $140 per semester for one thirty minute lesson each week and is offered through Continuing Education. Other special instructional services available to students for extra fees may include lab and transportation fees, human performance and wellness classes with locker and towel facilities and classes such as bowling, skiing and golf.

Application and Evaluation Fees
Application and Evaluation Fee (non-refundable) $30.00
Valid only for the semester for which the student makes application.

Add/Drop Fees $5.00 per add or drop
Students processing schedule changes after classes begin will be charged a $5 add/drop fee for each add or drop transaction processed.

Miscellaneous Fees
Graduation (diploma, application processing) $20.00
Non-refundable housing application fee $25.00
Room reservation deposit $125.00
Parking permit, non-reserved (per year) $25.00
Student health insurance per semester (subject to change) $235.00
I.D. card (Gold card) fee $15.00

Student Health Insurance
Student health insurance (major medical) is available each semester. Students must complete an enrollment form and submit it with payment to the Accounting Office by the established deadline each semester. Additional coverage is available for spouse and children.
FINANCIAL AID

Financial aid at Mesa State College consists of a balanced program of scholarships and grants-in-aid awarded for outstanding academic achievement or outstanding performance in special skill areas including vocational skills, athletics, drama, music, etc. Mesa State College also participates in federal and state programs of grants, loans, and student employment, the awarding of which is based primarily on need as determined by a needs analysis system approved by the federal government. The application used to determine need is the Free Application for Federal Student Aid.

Financial aid awards that are based on the needs analysis system consider family resources as the primary source of funding for education, with federal and state sources considered secondary and supplemental. Because prospective students always apply for more financial aid than there is money available, the following priority order is used:

1. As stated in federal law, a parent is primarily responsible for payment of educational expenses of a child. Thus, parents of students attending college are expected to make every effort to assist the student financially.
2. The student, as the benefactor of the educational experience, is the next most responsible person for payment of educational expenses.
3. The third level of responsibility is from outside sources such as communities, clubs, corporations, etc.
4. The last resort is federal and state financial aid programs. There has never been enough funding to assist all needy students. Therefore, students should make every effort to obtain assistance at one of the three levels listed above.

Accurate and timely information from the student and parents is the responsibility of the student. Failure on the part of the student to supply all required information on the application may result in reduction or total loss of aid.

Colorado Student-Aid Programs
(Available to full-time, half-time and part-time students. Part-time students will be considered for assistance if funds are available and only for the amount of tuition and fees.)

1. Colorado Grants - Grants, usually amounting to $1,000, are awarded to Colorado resident students on the basis of documented financial need. Financial aid packages which include Colorado Grants may not exceed the documented financial need of the student.
2. Colorado Work-Study - The Work-Study program is designed to provide employment on campus, for students with documented need and who meet the residency requirement for tuition purposes.
3. Colorado Student Incentive Grant (CSIG) - This is a program wherein half of the grant to a student is provided by the state of Colorado and the other half by the federal government. Awards are made only to Colorado resident students with extreme need, and the average CSIG awarded is $1000.
4. Diversity Grant - Mesa State College will consider a student for this grant if the student meets at least one of the following five criteria: first generation student, handicapped student, ethnic minority student, dependent student from low income family, or single parent. The recipients must be Colorado residents, accepted for enrollment under a degree-seeking program, and be enrolled full-time. A cumulative GPA of 2.00 or better is required. Financial need is also used as a consideration and the average Diversity Grant awarded is $1000.

Mesa State College Foundation Programs
The Mesa State College Foundation is a non-profit organization comprised of prominent citizens of the area who wish to aid deserving students at Mesa State College. This
group, which functions independently of the College, conducts an annual drive to raise funds for scholarships and student loans. The organization also serves as a receiving and clearing agency for many established scholarships and for those received from clubs and organizations. All scholarships are designed to apply toward tuition and fees.

1. **Community Clubs and Organizations Scholarships** - In addition to the institutional scholarships described above, many scholarships and awards have been established for students of the College by individuals and organizations in the Grand Junction area. The amounts of these awards vary but all are designed to be applied toward tuition and fees.

2. **Student Loans** - Mesa State College provides emergency short-term loan funds from which students may borrow to help meet obligations if an unforeseen situation may arise. By definition, short-term loans are repayable within 90 days or by the end of the semester, whichever comes first. Inquire at the Financial Aid Office for applications and additional information.

3. **Deferred Payment Plan** - Mesa State College will provide an alternative means of payment of tuition and fees for students. The payments can be made over four months and the balance of the account must be paid in full before the next term begins. Please contact the Financial Aid office for more details.

**Scholarships**

Scholarships represent an effort by the state of Colorado and Mesa State College to recognize resident and non-resident students for outstanding achievement in academic and talent areas. The awards will vary. Need is not a factor in determining recipients. However, students who receive scholarships are also encouraged to submit a financial aid application. For more detailed information on scholarships, please call (970) 248-1376.

**Non-Resident Scholarship**

In an effort to encourage outstanding students from states other than Colorado to attend Mesa State College, a non-resident scholarship equal to one-half the non-resident tuition may be available to students who have achieved a cumulative minimum grade point average of at least 3.00 and an additional $250 per semester if the minimum grade point average is 3.20 or higher. Students will be required to live in Mesa State College housing in order to qualify for one of these grants unless permission is granted to live off campus by the Housing and Auxiliaries Director.

The grade point average achieved while in high school will be used to determine eligibility if the applicant is a first time college student. If the applicant is a transfer student, the cumulative grade point average of all college hours completed will be used to determine eligibility. After the first semester, eligibility is determined by MSC cumulative grade point average.

**Federal Student-Aid Programs**

1. **Federal Pell Grant Program** - This is a grant program available to needy students enrolling in an eligible institution of post-secondary education. Application forms are available from high schools or the financial aid office at any eligible post-secondary institution. The student applies by completing a Free Application for Federal Student Aid (FAFSA) and submitting it to an approved analysis agency. The information is either electronically provided to the college or the student may submit a valid Student Aid Report (SAR) to the college for grant determination. The Pell Grant Program is the base program for financial aid at Mesa State College.

2. **College Based Programs** - Mesa State College participates in many other federal student aid programs. These include the: (1) Federal Perkins Loan Program, (2) Federal Supplemental Educational Opportunity Grant Program, (3) Federal Col-
lege Work Study Program, (4) Federal Family Educational Loan Program (formerly the Guaranteed Student Loan Program) consisting of the Federal Stafford Student Loan Program, the Unsubsidized Federal Stafford Student Loan Program, and the Federal Parent Loan for Undergraduate Students (PLUS). Details concerning these programs may be obtained from the Financial Aid office.

**General Guidelines**

Financial need for educational expenses is an essential requirement to qualify for assistance from most programs. Students who must have financial aid in order to secure a college education are encouraged to contact the Financial Aid Office of the College for necessary information and application forms. Both full-time and less than full-time students will receive consideration.

Since financial need is the primary requirement for determining eligibility for assistance under any of the federal student aid programs, Mesa State College requires that the student applicant **submit the proper application to the federal processor as soon as possible after January 1**. This form should be available at either the high school principal's or counselor's office, or may be obtained by writing the Office of Financial Aid at Mesa State College.

Stafford Student Loans are obtained in the same manner as other campus-based aid and require a separate application which is available from participating banks, savings and loan associations, credit unions, and the Office of Financial Aid.
STUDENT SERVICES

Mesa State College has an environment that encourages and allows students to develop socially as well as educationally. Learning is not confined to the classroom and the library. Student Services provides quality opportunities for students to increase skills and competencies in academic and vocational areas as well as areas related to developing and improving self-understanding, interpersonal relations, realistic decision-making, value clarification abilities, and the establishment of life goals.

Orientation

New students to Mesa State may participate in one of the college orientation programs offered at the beginning of fall and spring semester. The program is designed to introduce new students to the campus, fellow classmates, and the College's programs and facilities. Students attending an orientation program are permitted to register for classes during their orientation. Parents of graduating high school students are encouraged to attend the orientation program. Upon acceptance to Mesa State College, students will receive further details of the orientation being held for them. For more information contact the Office of Admission.

Academic Advising

The Academic Advising Center is staffed primarily with student advisers. The Center's purpose is to assist new freshmen, returning and transfer students plan their class schedules for their first semester of classes and register for classes.

The Academic Advising Center is located in the Student Life Center and is open Monday through Friday from 8:00 am - 4:00 pm by appointment only. Phone (970) 248-1177 for an appointment.

Faculty advisers are assigned to students on the basis of their program interest. Students who know what major they wish to pursue are assigned a faculty adviser in the spring of their freshman year. Faculty advisers provide each student with a program sheet which details requirements of the degree or certificate program the student is working towards. The student should work closely with the faculty adviser throughout enrollment at Mesa State, keeping the program sheet up to date as the student progresses toward graduation.

Adult Re-entry Program

This program, coordinated by the Continuing Education Center, provides adults a one-stop center for coordinating all the necessary steps to enroll at Mesa State College including academic advising, financial aid, and course registration. For more information, contact the Continuing Education Center at (970) 248-1847.

John U. Tomlinson Library

The John U. Tomlinson Library supports the educational mission of the College by providing a diverse collection of materials for use by the students and faculty.

The library collection contains over 200,000 volumes which includes books, periodicals, nonprint materials, maps, newspapers, audio and video cassettes, slides, records, CD ROM discs, films, software and other items. The library is a selected depository for federal government documents and also contains special collections which include the College archives, manuscripts and papers, and book collections in the areas of western Colorado history and other subjects.

Services provided by the library include reference and information desk assistance, quiet group study rooms, photocopy and microform machines, and library instruction to classes. The Media Center provides a TV studio, instruction materials consultation, equipment distribution, and media production services to students and faculty.

Access to the collection is through the MARMOT on-line catalog which is com-
posed of the holdings of the Tomlinson Library, and includes holdings in other libraries throughout Colorado and the United States. Should materials not be available locally, the Interlibrary Loan Department obtains needed materials for students and faculty from other libraries.

**Academic Services**

The Academic Services Department (ASD) houses a variety of programs that are designed to assist students in their academic endeavors. The Peer Tutoring program provides peer tutoring in an open study session format for students who need extra help in a course that is difficult for them. Qualified tutors, recommended by faculty, are trained to work with groups of students in a particular course or general subject area. Tutors operate open study sessions (such as a Math Lab) where students can attend as often as they wish. The sessions are available at varying times and locations.

**College Success Strategies** (DEV 090) is a preparatory course offered by ASD, for three credit hours, that teaches academic skills needed by college students. Learning successful techniques such as note taking, time management, and mnemonics help the student in the achievement of his/her immediate academic goals, as well as emphasizing skills necessary for lifelong learning. This course consists of three classes per week, and the hours and grades are factored into overall GPA; these hours, however, do not count toward degree or graduation requirements.

**Testing and Assessment** services include examinations required for admission to graduate and professional schools, examinations for proficiency and certification in nursing and teaching, and the credit by examination program. Assessment of academic skills in college level English, mathematics, and writing are provided through the Testing Center for potential students, as well as those who have already been admitted.

The **Academic Improvement Series (AIMS)** is offered at the start of each semester. These free, one hour study skills workshops and seminars help students with goal setting, time management, note taking, and other skills necessary for academic success.

**Educational Access Services**

Support services for students with documented physical or learning disabilities are available through Educational Access Services, an Academic Services Program. Several services are available, depending upon the documented disability. Services can include volunteer note takers, monitored testing, and taped textbooks (eight weeks notice required). Prospective students are encouraged to contact the office of the Coordinator of Educational Access Services to discuss special needs.

**Writing Center**

Students can improve their writing skills through one-on-one assistance from the staff of the Writing Center.

**Career Counseling Services**

Staff is available to provide counseling and referral services to students seeking personal, career or substance abuse counseling and resources (248-1366), and is located in the Campbell College Center.

1. **Counseling.** Psychological counseling services and academic supportive counseling is available to all students. Assessment and referral to the PsychHealth Center is provided for those students requiring more extensive counseling.

2. **Career Placement.** Career development services are provided for those students needing assistance in choosing a career. Various career inventories are used to help the student assess his/her job-related strengths. Skill development workshops are available to help students wanting assistance with resume writing, interviewing and job application procedures. A job placement file service is available for graduates. Listings for part-time job employment, summer employ-
ment and full-time employment are available for all enrolled students seeking employment.

3. Alcohol/Drug Education (AWARE Program). Counseling services, in partnership with PsychHealth Center, provides alcohol and drug education presentations for staff, faculty and students. The AWARE program staff is available to make presentations to student groups, classes, and faculty or departments, on topics related to substance abuse.

Little Mavericks Learning Center/Toddler Tech
Day care is available for children of Mesa State College students on a limited basis. A minimum fee is charged by the hour or by the day for children ages 12 months and walking to five years. For further information, contact the Center Director at (970) 248-1318.

Student Activities
To broaden students’ educational experience and to enrich the campus environment, the College offers a wide variety of student activities available for student involvement.

Over fifty student organizations exist at Mesa State College. The student activities brochure, available at the College Center Information Desk, contains a detailed listing of student organizations at Mesa State.

Student organizations include professional and academic clubs (e.g., accounting club, math club, geology club, Phi Beta Lambda) which allow students to explore their interests beyond the classroom as well as to interact with their professors and other professionals in their fields of interests.

There are over twenty special interest student organizations at Mesa State, including sports clubs (such as soccer, rugby, and rodeo), support groups, and religious organizations which allow students to meet other students who share similar interests.

A number of funded campus organizations are administered by Mesa State students including the following:

Student Body Association (SBA)—SBA is the representative body and official voice of the students. The SBA operates through the General Assembly, a legislative body composed of students elected by the student body. Students involved in SBA have an opportunity to gain leadership skills by representing student opinion and organizing student services such as reviewing student fee requests, printing the student handbook, and assisting in student orientation programs.

Mesa State Activities Council (MSAC)—MSAC is responsible for organizing entertainment activities including concerts, films, speakers and dances. Events have included musicians, comedians, hypnotists, and speakers.

Fine Arts Organizations—All Mesa State College students are encouraged to audition to join a musical group, participate in theatre or be a part of a dance performance. Performances in the arts are highly regarded at Mesa State and are well-attended by students and the community.

Media Organizations—These organizations include the student newspaper, The Criterion, the student radio station, KMSA 91.3 FM, and the literary and art publication, Literary Review and The Journal of the Western Slope. Each of these groups is professionally advised by campus faculty members and utilizes the latest equipment employed in their fields.

Outdoor Program—This student group organizes trips and classes including white-water rafting, rock climbing, and skiing. The rental center, located in the College Center, rents mountain bikes, canoes, kayaks, cross-country skis, backpacks and other gear.

Cultural Diversity Board—This student organization offers leadership experiences for students and organizes programs to educate students regarding multi-cultural concerns and issues. Member groups include the African American Collegiate Alliance, La Raza of Mesa State and the Native American Council.
Intramural-Recreation Services

The Intramural-Recreational Sports program at Mesa State College offers the student a variety of organized activities ranging from competitive and non-competitive team and individual sports (including indoor and outdoor soccer, flag football, tennis, basket- ball, softball, racquetball, ultimate frisbee, disc golf, team handball, and volleyball) to group and individual fitness activities (including aerobics and fitness program design). Many other activities are offered and students are encouraged to suggest new activities.

Participation in the program is a key to positive growth experiences at Mesa State College and to acquiring skills and knowledge that will be of value throughout life. In addition to opportunities for physical activity and fitness, other benefits include social interaction with friends and fellow students of both sexes as well as work-study job opportunities for those with experience in recreation. All students who are currently enrolled in credit courses at Mesa State College are eligible for all activities within the Intramural-Recreational Sports program.

A yearly calendar of intramural and recreational sports activities is available at the Intramural Office located in the Student Recreation Center (248-1592).

Student Health Center

Good health, both physical and emotional, is an important factor in successful college work. It is the goal of the Mesa State College Student Health Center to provide competent, accessible medical care. Similar to the family physician, the Student Health Center provides a source of basic medical assistance for the student who is away from home.

Out-patient health services are provided for registered fee-paying students who have a valid student I.D. card regardless of the number of credit hours carried or insurance status. Students are required to pay a $5.00 co-pay for all services received at the Student Health Center. The primary services provided are: first aid, dispensing of simple medications, assessment and referral to specialty physicians and dentists, providing counsel for personal health problems, simple physicals, and limited lab tests for a nominal fee.

Services include a full-time registered nurse, with a part-time physician and practitioner providing a complement of health care. Monday-Friday. The physician/practitioner provides students with an initial health assessment and evaluation, treats minor illnesses, and refers students for hospitalization or specialized treatment as needed. A registered nurse is available to answer questions and provide medical information. The Student Health Center is a contracted service with an off-campus provider. The Center is located within easy walking distance, across Orchard Avenue, from Mesa State College.

For emergency illnesses or accidents which occur after the Center's hours, or on weekends, students should report to the Emergency Care Center at Community Hospital. For immediate emergency, help should be obtained by dialing 911.

The College Center

Located in the main artery of the campus, and recently remodeled, the W. W. Campbell College Center serves as a meeting place for students, faculty, and staff members.

The College Center houses the bookstore, art gallery, outdoor program, student government offices, radio station, school paper, game room, snack bar, information desk, dining hall, student lounges, and meeting rooms. The game room includes pool tables and video games. Lill Auditorium is the center of many of the entertainment programs organized by the student-run Activities Council.

Student organizations may arrange for the use of the College Center meeting room facilities through the College Center Scheduling Office.
Campus Parking

Students and College staff members who wish to park on campus may purchase parking permits for designated areas. A parking sticker does not guarantee a parking space, but permits on-campus parking when such space is available.
GENERAL ACADEMIC REGULATIONS

System of Grades
Grades at Mesa State College are as follows: A, excellent to superior; B, good to excellent; C, satisfactory; D, passing but not satisfactory; F, failed; I, incomplete; IP in progress; W, withdrawn; NC, no credit.

Academic Standards
The scholastic standing of a student at Mesa State College is computed on the basis of all courses attempted (unless Academic Renewal has been approved—see “Admission Information”) at Mesa State College. Grades awarded from any other institution will not be utilized in the grade point average calculation. A student must achieve a cumulative grade-point average of 2.00 (C) or higher, to graduate at the certificate, associate or baccalaureate level.

Mesa State College uses the four point system in computing the grade point average (GPA) of its students. Under this system, a student receives four quality points for each semester hour of A; three points for each semester hour of B; two points for each semester hour of C; one point for each semester hour of D; and no quality points for an F. An example follows:

3 Semester Hours of A = 12 points
3 Semester Hours of B = 9 points
3 Semester Hours of C = 6 points
3 Semester Hours of D = 3 points
3 Semester Hours of F = 0 points
15 Semester Hours = 30 points
30 points divided by 15 semester hours = 2.00 GPA

Minimum GPA
Students are considered to be making “satisfactory progress” toward a degree if they attain a cumulative GPA consistent with the table listed below. Incomplete (‘I’) and In Progress (‘IP’) grades are tentative grades and until changed are not considered in computing either the cumulative grade-point average or the grade-point average for the particular semester concerned. “W” hours do not count as hours attempted in the GPA.

Students failing to achieve the minimum GPAs listed above will be placed on academic probation. The student will remain on probation until the minimum GPA is achieved, providing the student earns a minimum semester GPA of 2.00. If a student already on academic probation fails to earn a semester GPA of 2.00, the student will be placed on academic suspension. The student will be prohibited from further attendance at Mesa State College for a minimum of one semester; i.e., those suspended following fall semester may not attend Mesa State College until the subsequent fall; those suspended following spring semester will not be allowed to attend Mesa State College until the subsequent spring. (See “Academic Probation and Suspension”)

A student must achieve a cumulative grade point average of 2.00 (C) or higher to graduate at the certificate, associate, or baccalaureate level. Some programs have additional GPA requirements to remain in and graduate from that program. See “Programs of Study” section and Program sheet for specifics.
Grade Improvement

Any course which is taken more than once for academic credit at Mesa State College is done so only for "grade improvement" (i.e., academic credit is awarded only once and the last grade received is that used to compute the student's cumulative grade point average and to fulfill requirements for the degree). The only exceptions to this policy are MUSL (music lessons) and MUSP (performing music) classes, each of which may be taken twice for academic credit; Independent Studies (a maximum of six credit hours may be taken for credit—see "Independent Study" in the "Program" section of this catalog); and in some cases Topics, Practicums, Seminars, Internships, and Cooperative Education (see program sheets and the appropriate dean for these exceptions).

The option of repeating a course for grade improvement is available to a student only if the course he or she wishes to repeat is still offered at Mesa State and is scheduled to be offered in the semester in which the student wishes to take it. If a student wishes to repeat a course for grade improvement, a "Grade Improvement" form must be filed with the Director of Academic Records after repeating the class. The last grade earned will be the grade used [whether better or worse than the earlier grade(s)].

Courses taken at Mesa State College may not be repeated at another college for improvement of the original grade and courses taken at another college may not be repeated at Mesa State College for improvement of the original grade.

Incomplete and In-Progress Grades

Incomplete ("I") grades are temporary grades given to a student only in an emergency case and at the discretion of the instructor. In Progress ("IP") grades are temporary grades given to a student in the case of a course which, because of its nature, cannot be completed by the end of the semester of enrollment (some internships and cooperative education classes are examples).

At the end of the semester following the one in which an "I" is given, the "I" becomes the grade that is submitted by the instructor to the Records Office. If the instructor does not submit a grade by the deadline for that semester, the grade becomes an "F". An "I" grade given spring semester becomes a permanent grade at the end of the following fall term.

At the end of two semesters following the one in which the "IP" grade is given, the grade that is submitted by the instructor to the Records Office replaces the "IP". If the instructor does not submit a grade by the deadline for that semester, the grade becomes an "F". An "IP" grade given spring semester becomes a permanent grade at the end of the following spring semester.

Extension of the time to complete work may be made in exceptional circumstances at the discretion of the instructor. A student with an "I" or "IP" grade, however, may not change the "I" or "IP" by enrolling in the same course another semester.

Honor Lists

The President's List is made up of those students who earn a GPA of 4.00 while enrolled in a minimum of 12 semester hours for a particular fall or spring semester.

The Dean's List includes students who achieve a grade point average of between 3.50 and 3.99 while enrolled in a minimum of 12 semester hours for a particular fall or spring semester.

The lists are based on semester grades, not cumulative grade point averages. Regardless of grade point average, a student who receives a failing grade (F) in any course is not eligible for the Dean's List.

Honor Societies

Membership in Alpha Chi is the highest academic honor which Mesa State College can bestow upon its scholars. To be eligible for election, students must have completed at least 75 semester hours toward the baccalaureate degree with
a GPA of 3.75 or better and be fully recognized by their faculty and deans as having the qualities of character pertaining to the true scholar. Alpha Chi is the second oldest and second largest of those national scholastic honoraries which elect from all fields.

The National Honor Society in Biology at Mesa State College is Beta Beta Beta. For full membership in Beta Beta Beta, a biology major must have completed at least three classes in biology and have a minimum GPA of 3.00. With these qualifications, a student may be nominated to membership.

**Kappa Mu Epsilon** is an honor society for students of mathematics. Its chapters are located in colleges and universities of recognized standing which offer a strong mathematics major. The nominated and inducted members are selected from students of mathematics and other closely related fields who have maintained high standards of scholarship, have professional merit, and have attained academic distinction. The local chapter, Colorado Delta, is a working organization throughout the academic year. It functions as an integral part of the Computer Science, Mathematics, and Statistics Department of Mesa State College.

**Nu Kappa Chapter, Sigma Theta Tau International**, recognizes achievement in nursing. The purposes of the society are to recognize superior achievement and leadership qualities, foster high professional standards, encourage creative work and strengthen commitment to the ideals and purposes of the profession. Students must have a minimum GPA of 3.00 and rank in the upper 35 percent of their class to be eligible for membership. Nurses from the community may also be nominated for membership if they have demonstrated marked achievement in nursing education, practice, research or publication.

**Phi Alpha Theta** is the International Honor Society in History. The objective of this professional honor society is the promotion of the study of history through the encouragement of research, good teaching, publication, and the exchange of learning and thought among historians. To be eligible for membership, a student must have completed twelve or more hours of history with a minimum GPA in history of 3.10 and a minimum overall GPA of 3.00. The Mesa State Phi Alpha Theta Chapter is a co-sponsor of the *Journal of the Western Slope*.

**Psi Chi**, the National Honor Society in Psychology, is open for membership to students with either a major or minor in psychology. Minimum qualifications for membership are as follows: rank in the top 35 percent of one's class; minimum 3.00 overall GPA; 3.25 Psychology GPA; completion of 9 semester hours in psychology; and completion of at least three semesters of college coursework. The purpose of Psi Chi is to promote and maintain excellence in scholarship in the field of psychology and to advance the science of psychology.

**Sigma Gamma Epsilon**, a National Honor Society for the Earth Sciences, has for its objectives the scholastic and scientific advancement of its members and the extension of friendship and assistance among colleges, universities, and scientific schools for the advancement of the Earth Sciences. Membership in Zeta Nu Chapter of Sigma Gamma Epsilon is open to continuing Earth Science majors with a minimum GPA of 3.00. Qualified students are reviewed and may be nominated each semester.

The National Honor Society in Physics is Sigma Pi Sigma. For membership in Sigma Pi Sigma, a physics major or other student who has completed at least three classes in physics must maintain an overall GPA of 3.00 and a 3.25 GPA in physics. A qualifying student may then be nominated for membership by the combined physics faculty.

**Sigma Tau Delta**, the National English Honor Society, endeavors to encourage, promote, and recognize scholarship and achievement in English language and literature. Membership is open to sophomore, junior, and senior English majors with a minimum GPA of 3.00 in English.
Graduation with Honors

To graduate with Honors or Distinction, a student must be awarded credit hours from Mesa State College that amount to at least 51 percent of the credits used for meeting degree requirements. Only Mesa State College credits will be used for calculation of the grade point average used in the recognition of honors. Each year during formal commencement ceremonies Mesa State College recognizes the following categories of academic achievement:

With Distinction - Associate degree graduates with cumulative grade point averages of 3.50 to 3.74.
With High Distinction - Associate degree graduates with cumulative grade point averages of 3.75 to 4.00.
Cum Laude - Baccalaureate degree graduates with cumulative grade point averages of 3.50 to 3.74.
Magna Cum Laude - Baccalaureate degree graduates with cumulative grade point averages of 3.75 to 3.89.
Summa Cum Laude - Baccalaureate degree graduates with cumulative grade point averages of 3.90 to 4.00.

Registration Procedure

Once admitted to Mesa State College, a student will meet with a registration adviser (see Academic Advising section). Not all courses available in this catalog are offered every semester or every year. Schedules of course offerings for the upcoming semester are available in the Records Office, along with step-by-step registration procedures.

Each student must obtain, from his or her faculty adviser or from the Dean of the School, a program sheet detailing requirements of the program of study the student is beginning. The program sheet is used throughout the student's enrollment by the faculty adviser and student to track the student's progress towards the degree or certificate the student is pursuing. The student is responsible for fulfilling all requirements of the program sought.

Schedule Adjustments—Add/Drops

Students may make adjustments to their schedules according to specified deadlines and procedures as announced in each semester's published course schedule. Students dropping all of their courses should refer to the “Withdrawal” section of this catalog.

Student Load and Limitations

The normal student load is 15 semester hours (some disciplines require a higher number). The minimum load required for a student to be recognized as a full-time student is 12 semester hours. If students register for fewer than 12 semester hours, they are classified as part-time students.

Students receiving scholarships and/or financial aid are generally expected to complete 12 hours of credit courses each semester. In order to receive full Veteran's Administration financial benefits, veterans must be enrolled in 12 or more semester hours each semester of attendance.

It is recommended that students limit their academic load to 21 semester hours or less. Students should consult with their advisers before attempting an overload of more than 21 semester hours in a regular semester or more than 9 semester hours in summer term. A surcharge, equal to the appropriate credit hour rate per semester, will be assessed for each credit hour over 21.

Grade Reports

Individual grade reports are mailed to the permanent home address of every student at the end of each semester. Special reports may be obtained at any time upon request.
by the student to the Records Office. An official grade report is withheld, however, until all fees owed the College are paid.

**Evaluation**

The evaluation of a student’s learning progress in a course is considered to be a planned and continuous process and consists of a variety of activities including judgment, observation, testing, etc. Final examinations are a part of the evaluation process.

Article 13 of House Bill 1187, enacted in July of 1985 by the Colorado General Assembly, established that institutions of higher education in Colorado are to be held accountable for demonstrable improvements in student knowledge, capacities, and skills between entrance and graduation.

Students are required by Mesa State College to take part in testing and other programs deemed necessary for compliance with this legislation. Students who do not abide by these requirements may be denied registration and/or graduation privileges. Portions of the assessment process may require time outside the normal class periods.

**Attendance**

Students are expected to attend all sessions of each course in which they are enrolled. Failure to do so may result in a lowered grade or exclusion from class at the discretion of the instructor. At any time during a semester, a student who fails to attend regularly may be dropped from class rolls. An instructor may initiate a drop or withdrawal for a student who fails to attend classes regularly. ("Drops" are up to 15% of class elapsed; "withdrawals" are up to the mid-point of the class.)

Attendance during the first two class periods is required. Any instructor has the option of dis-enrolling from class any student who fails to attend the first two class meetings so that other students may enroll. Not all instructors will exercise this option; therefore, a student should not assume that non-attendance will result in automatic dis-enrollment from a class.

It is the responsibility of the student to arrange in advance with instructors for the making up of missed classwork, assignments or tests incurred because of a student’s participation in required field trips, intercollegiate sports, or other trips. The coach, instructor, or other official whose activities require students to be absent from classes should give each participating student an “official” roster and schedule of events for the semester or other appropriate time span which may result in classes being missed. The student is responsible for contacting the instructor of each of his/her classes affected at least 24 hours in advance of each class that will be missed.

Absences due to serious illness or strictly unavoidable circumstances may be excused if the instructor in charge of the course is satisfied as to the cause. In the case of an emergency, the student may contact the Dean of Students and that office will contact the student’s instructors to let them know of the emergency.

Being excused for an absence in no way relieves the student of responsibility for completing all work associated with the course to the satisfaction of the instructor in charge.

Being late to a class or leaving a class early is disruptive and is not acceptable except in extreme circumstances or with prior approval of the instructor. Prior approval is also required of the instructor if a student wishes to bring a guest (or a child) to class.

**Late Registration**

Late registering students must check with the Accounting Office for their Statement of Account before registration is considered to be complete. Late fees will be charged on the same schedule as for all other students.

Students who register late (after classes begin) must complete all work missed. Students who register after the first week of classes are advised to enroll for less than a normal 15 semester-hour load.
Student Conduct

Mesa State College is a community consisting of students, faculty, support staff, and administrators. The College does not attempt to define all “student conduct.” It relies on students to assume the responsibility and obligation of conducting themselves in a manner compatible with the purpose of the College as an educational institution and the community as a place of residence. In addition to College rules and regulations, all students are subject to the same local, state, and federal laws as non-students and are beneficiaries of the same safeguards of rights as non-students.

The academic community has a long and cherished tradition of expecting its members to conduct themselves in accordance with the highest standards of personal behavior. The following are among those acts of misconduct which are not consistent with the educational goals of Mesa State College or with the traditions of the academic community.

1. Academic dishonesty, such as cheating, plagiarism, or knowingly furnishing false information to the College.
2. Forging, alteration, misuse or mutilation of College documents, records, identification materials, or educational materials.
3. Obstruction or disruption of teaching, research, administrative, or public service functions of the College.
4. Intentional interference with an individual’s rights to free speech, freedom to make academic inquiry, or freedom of conscience.
5. Aiding, abetting or inciting others to commit any act of misconduct set forth in 1 through 4 above.

Penalties for acts of misconduct including, but not limited to, those set forth above can range from official warning to expulsion from College, depending upon the seriousness of the misconduct. Detailed disciplinary procedures are available from the Office of the Vice President of Student Services.

Withdrawal Procedures

Withdrawal from One or More Classes

Withdrawal from classes (full semester duration, modular, and summer) is permitted up to the mid-point of those classes. Proper forms and signatures are required and must be submitted to the Academic Records Office. Forms are available at the Office of the Director of Academic Records or the Deans’ Offices. Students who officially withdraw from class(es), in which they are passing, by the deadline receive a “W” grade (withdrawn). Withdrawals after the deadline are automatically “F.”

In addition to regular withdrawal from class(es) by the student, an instructor may initiate a withdrawal from his or her class for failure to attend class, failure to turn in assignments over an extended period of time, or for disciplinary reasons. In such cases, the instructor must observe regular withdrawal deadlines.

Withdrawal from the College

Students who desire to withdraw totally from Mesa State College should notify their faculty advisers and report to the Records Office. (See refund policy.) The necessary withdrawal papers must be filled out by the student and officially signed by the appropriate staff. Such withdrawal may be made up to the mid-point of the term of classes being taken. Grades of “W” will be given if all withdrawal procedures have been satisfied for courses in which the student has not already received a grade (including F). Students totally withdrawing after the deadline will receive grades of “F.” Exceptions to the withdrawal deadline are possible only in the case of true, documented emergencies, presented to the Director of Academic Records.
Academic Probation and Suspension

"Good Standing" signifies that the student is making satisfactory academic progress (see "Academic Standards") and is eligible to continue studies at Mesa State College.

"Academic Probation" indicates a student is not in good standing and constitutes a warning to the student that the student's scholastic achievement needs improvement or suspension will result. Students will be placed on academic probation if their cumulative grade point averages at Mesa State fall below the minimums listed under "Academic Standards" in this catalog.

Upon being placed on academic probation, students are permitted to continue studies for one term, during which time they are expected to improve their cumulative grade point averages to the minimum required levels. Those who succeed will be removed from academic probation.

Students on academic probation will remain on academic probation until they raise their cumulative grade point averages to the required level. Once on probation, a student must maintain a minimum semester grade point average of 2.00 to avoid being placed on academic suspension.

"Academic Suspension" indicates the student is not in good standing and represents a temporary, involuntary separation of the student from the College for a minimum of one semester for failure to meet minimum academic standards.

Following an Academic Suspension, a student must apply for readmission to Mesa State College. For degree programs that do not have separate admission policies, the readmission to Mesa State College is also readmission to the degree program. For degree programs having admission policies over and above admission to Mesa State College, the student must also reapply to the degree program.

A student may be suspended from and readmitted to Mesa State College a maximum of two times. Academic suspension, when imposed, becomes effective immediately upon the recording of grades at the end of the semester or summer term.

The first suspension shall be for a period of one semester; i.e., a student suspended at the end of fall semester may not attend the following spring semester; a student suspended at the end of spring semester may not attend the following fall semester. A student suspended at the end of summer term may not attend the following fall semester.

The second suspension shall be for a period of two semesters; i.e., a student suspended at the end of fall semester may not attend the next spring or fall semester; a student suspended at the end of spring semester may not attend the following fall or spring semester. A student suspended at the end of summer term may not attend the following fall or spring semester.

Students may not enroll in any credit classes whatsoever (including Continuing Education and summer term) during the period of suspension.
GRADUATION REQUIREMENTS

Students are expected to assume responsibility for planning their academic programs in accordance with College and department policy. Each student is responsible for obtaining a program sheet, available from the appropriate School, at the beginning of his or her work detailing the exact requirements for the degree or certificate being pursued. Students are urged to consult with their advisors. The College assumes no responsibility for difficulties arising when a student fails to establish and maintain contact with his or her faculty advisor and department chairperson.

THE STUDENT IS ULTIMATELY AND SOLELY RESPONSIBLE FOR KNOWING THE REQUIREMENTS FOR A PARTICULAR DEGREE AND FOR FULFILLING THOSE REQUIREMENTS.

Requirements for All Degrees

Some requirements may vary with the program and School. Each student must abide by the rules set forth in the program sheet which may be obtained from the School offering the degree he or she is seeking. Candidates for all degrees must accomplish or be governed by, as appropriate, the following:

Petition

A completed petition to graduate and the program sheet with appropriate signatures must be filed with the Director of Academic Records before the beginning of the semester in which final requirements are to be met.

Deficiencies

All academic and financial deficiencies must be removed (i.e., incomplete grades and/or unpaid financial obligations).

Transferring in Final Credit Requirements from Another College

Mesa State College generally accepts academic credits from regionally accredited colleges and universities. When a student intends to earn a Mesa State College degree and the final credits for completing that degree program are earned at another institution, the following restrictions apply:

1. No more than 15 semester hours of credit will be accepted in transfer.
2. Credit must be earned in no more than one calendar year immediately following final enrollment at Mesa State College.
3. Specific approval of the proposed institution and courses must be given by the appropriate Dean and the Director of Academic Records at Mesa State College during the time of the student’s last enrollment at Mesa State College, and the student must receive a grade of “C” or higher in each course.

Human Performance and Wellness

Classes with “HPWE” prefix are human performance and wellness activity classes. Each course is scheduled for an 8-week module and includes lectures on the history, rules, techniques and strategies of the activity and participation in the activity. Students are examined both on knowledge of the activity and proficiency in the activity. Prerequisites for all “Intermediate” or Part II classes: the corresponding beginning course or consent of instructor.

1. To graduate with a baccalaureate degree, a student must earn three semester credit hours in Human Performance and Wellness. Each student must take HPWA 100 together with two activity courses: one course from the list entitled “Aerobic/Fitness Activity” and one additional course either from the list entitled “Aerobic/Fitness Activity” or “Lifetime Activity.”

   To graduate with an associate degree, a student must earn two semester credit
hours in Human Performance and Wellness. Each student must take HPWA 100 together with one activity course from the list entitled "Aerobic/Fitness Activity." The only exception to taking HPWA 100 will be for those who request and pass a proficiency test at least at the 75 percent level. Contact the Department Chair for additional information.

2. A course may be taken for credit only once, except for "grade improvement."

3. No more than a total of eight HPWE classes of any kind may be taken for credit. Any HPWE classes taken beyond the eight for which credit is received must be taken for no credit. There is no limit to the number of HPWE classes a student may take for "no credit." Should a student take more than eight HPWE classes for credit, at the time he/she petitions to graduate, all HPWE courses taken after the eighth course will be excluded to calculate the student's graduation GPA.

4. HPWE classes may not be used to satisfy elective course requirements for any degree program.

See the next pages for the lists of courses from which to choose for the HPWE Aerobic/Fitness Activity courses and the HPWE Lifetime Activity courses.

**Varsity Athletics**

HPWE 180-189 designates the first year of varsity athletics; 280-289, the second; 380-389, the third; and 480-489, the fourth. These courses must be taken in sequence. In addition to the rules above for all HPWE courses, the following apply:

Only one varsity sport activity course, numbered HPWE 180-189, may be used to meet the baccalaureate HPWE Aerobic/Fitness activity requirement.

A student may elect to register for a particular varsity sports class for credit as many as four times (once at each level).

Varsity sports activity credit at the 300 and 400 level may not be counted towards the 40 credit hour upper division requirement for graduation unless they are a required part of a degree program.

**HPWE Aerobic/Fitness Activity Courses**

- HPWE 101 Beginning Swimming

Preparatory Courses

Preparatory courses are available in several subjects at Mesa State. Numbers of such courses are below the 100 level (e.g., DEVL 090). These courses are designed for students needing to strengthen their backgrounds before entering college level classes, and are not intended for transfer purposes. They will not usually fulfill degree requirements. Students are urged to consult their advisers about the need to register in these classes.
Students who have passed any ENGL class numbered 100 or above will not be permitted to register for credit in any ENGL class numbered below 100.

Students who have passed any MATH class numbered 100 or above will not be permitted to register for credit in any MATH class numbered below 100.

Catalog under which Student Graduates

Anyone admitted to a baccalaureate major at Mesa State College after fall semester of 1992 must choose a program beginning with 1993-94 or from a current catalog. Because of a change in baccalaureate degree structure, the degrees offered in previous years are not available to new students or continuing students changing majors. A student currently declared in and working on a baccalaureate degree offered prior to 1993-94 may complete that degree provided he or she remains "continuously enrolled" (excluding summer session) until graduation and completes all requirements for graduation by May of 1999. A student shall be considered to be "continuously enrolled" if he or she does not have an interruption in enrollment of more than one contiguous semester (excluding summers).

The requirements for graduation with an associate degree or certificate are those stated in the Mesa State College catalog which was in effect at the time the student first registered at a Colorado public institution of higher education. This is true provided (1) a student remains continuously enrolled (as defined above) until graduation, and (2) the associate degree, emphasis or certificate area is still accepting students into the program. If an interruption in enrollment occurs so that the student is no longer "continuously enrolled" as described above, all requirements applicable at the time of re-enrollment shall apply and the student will be governed by the then current catalog. If any requirements change while a student is enrolled, the student may elect to meet the new requirements. However, the old and the new requirements cannot be combined; one complete set or the other must be elected.

If a candidate for a degree is unable to meet requirements because of an event such as the removal of a required course from the offerings of the College or some other unforeseen academic change, it shall be the candidate’s responsibility to arrange an exception or understanding approved by the Director of Academic Records and the appropriate dean.

Calculation of Grade Point Average for Graduation

Only the grades and credits awarded at Mesa State College will be used in calculating the student’s grade point average for graduation. Grades awarded from any other institution will not be utilized in the grade point average calculation.

Baccalaureate Degree Requirements

Mesa State College offers baccalaureate degrees in the traditional liberal arts and sciences disciplines, professional fields of study, and interdisciplinary fields. Candidates for baccalaureate degrees must accomplish or be governed by, as appropriate, the following:

Credit Hour Requirements

A minimum of 123 semester credit hours is required in every baccalaureate degree program. The distribution of the 123 minimum credit hour requirement is:

- General Education: 33 credit hours
- Degree Distinction: 6 credit hours
- Human Performance and Wellness: 3 credit hours
- Major Requirements: 36-60 credit hours*
- Unrestricted Electives: 21-45 credit hours

*Some professional programs may exceed 60 hours.
Students need to work closely with their faculty advisers and obtain a program sheet from that faculty adviser or the dean at the time they begin their baccalaureate degree program at Mesa State College. The student is ultimately and solely responsible for knowing the requirements for a particular degree and for fulfilling those requirements.

The program sheet lists all requirements for the degree program for the catalog under which the student is working. It is to be kept up-to-date by the student and adviser as the student progresses in meeting requirements.

At least 40 semester hours must be earned in courses numbered 300 or higher. A cumulative grade point average of 2.00 or higher for all courses taken and for the courses which comprise the area of the major field of study must be achieved. Each student who receives a baccalaureate degree from Mesa State College must have at least one college mathematics course on his or her transcript with a grade earned of “C” or higher. Some baccalaureate degree programs have additional GPA and other requirements. See a faculty adviser for a program sheet listing specific requirements for the degree and major sought.

Degree Distinctions

The six semester credit hour degree distinction for the B.A. and the B.S./B.B.A. degrees MUST be outside the general education requirements.

Bachelor of Arts Distinction. Candidates for the B.A. degree shall complete at least six semester hours of one classical or modern foreign language which may include:
- FLAF 111, FLAF 112
- FLAG 111, FLAG 112
- FLAS 111, FLAS 112
- FLAS 117, FLAS 118
- FLAV 290 (Ancient Greek or Latin)
  (FLAS 114 AND 115 will not fulfill this requirement)

Students may not satisfy this requirement by taking two beginning level courses in the same language (e.g., FLAS 111 and FLAS 117).

The chair of the department of Language, Literature, and Communications may approve courses in other classical or modern languages than those listed. Students must complete the courses with a grade of “C” or higher. At the discretion of the foreign language faculty, the requirement may be satisfied by demonstration of equivalent competency. Students who have completed four semesters of a single high school language with a grade of “C” or higher may have their language requirement waived by the Dean of the School of Humanities and Social Sciences.

Bachelor of Science/Bachelor of Business Administration Distinction. Candidates for the B.S. and B.B.A degrees shall complete at least six semester hours of the following: any college mathematics (MATH) course at or above the college algebra (MATH 113) level and one additional course chosen from any computer science (CSCI) course, any statistics (STAT) course or another college mathematics (MATH) course considered higher level than college algebra (MATH 113). The candidate must complete each of these courses with a grade of “C” or higher. At the discretion of the mathematics and computer science faculty, the requirement may be satisfied by a demonstration of equivalent competency.

The above requirements are separate from and in addition to the General Education requirements (i.e., the same course cannot be used for general education, degree distinction and/or major requirements.)

Major

The specific discipline area program requirements must be completed as required by the appropriate academic school with a cumulative grade point average of 2.00 or higher.
English and Mathematics Requirement

Mesa State College students are required to satisfy the following English and mathematics courses before they exceed sixty semester credit hours. Students should take the courses as freshmen. Those who need preparatory courses before they are ready to enroll in the required courses should enroll in the preparatory courses their first semester at Mesa State. Students who are completing sixty hours of course work will not be permitted to enroll in any additional courses until they have passed the required courses. Exceptions to the policy for a student requires the written permission of the Department Chairperson.

English Requirement

Mesa State College requires that English Composition (ENGL 111 and ENGL 112) or approved substitutes be completed successfully before a student can exceed sixty accumulated credit hours. The courses must be taken in sequence, and students are encouraged to take them in consecutive semesters. A “C” or higher must be earned in ENGL 111 before a student can take ENGL 112 and a “C” or higher must be earned in ENGL 112 to satisfy this requirement.

Mathematics Requirement

Mesa State College requires that the mathematics competency/requirement be completed before students accumulate more than sixty credit hours. Students working towards a baccalaureate degree in nursing are exempt from satisfying this requirement before they reach sixty credit hours.

Students seeking the B.A. degree must complete MATH 110 or a higher level mathematics course with a grade of “C” or better to fulfill their mathematics competency under general education; students seeking the B.S. or B.B.A degree must complete MATH 113 or a higher level mathematics course with a grade of “C” or better to fulfill their degree distinction.

Residency

A minimum of 28 semester hours credit must be earned in no fewer than two semesters of study at Mesa State College with at least 15 semester hours in major discipline courses numbered 300 or higher taken at Mesa State College.

Diversity Statement

Following is the statement of philosophy on diversity which has been adopted by the faculty at Mesa State College:

“Mesa State College is a community of scholars in the liberal arts tradition. As faculty we believe that all people, regardless of origin, gender, religion, or linguistic heritage, have something worthwhile to contribute and that these contributions benefit us all. Therefore, we intend that within our academic community all cultural differences will be treated with equal respect and tolerance. We desire that our students have the opportunity to appreciate the diversity of our modern world, and we encourage them to partake of the resources available within our community. As faculty we pledge ourselves to provide as many divergent cultural experiences for our students as the resources of the college and the needs of our disciplines allow.

“To further tolerance and appreciation of our society’s diversity, Mesa State requires that all graduates fulfill the following General Education requirements. In doing so we honor the validity of a liberal education. We hope that the experience will help our students understand how to appreciate the true diversity of the world. Because diversity promotes multiple opinions, techniques, viewpoints and approaches, it is not the individual courses within the General Education program which we believe will further the above-stated goals, but the whole experience of the program itself.”
Statement of Philosophy and Goals of Baccalaureate Education

The avowed hope of institutions of higher learning is that students will emerge with well-developed faculties for critical judgment, analytical thought, and an awareness of their world. In the college environment, students are expected to embrace some of the great ideas and expressions of creative energy which characterize the human condition. Specifically, a baccalaureate education emphasizes four areas of cultural achievement:

1. The origins and structure of modern society,
2. The enduring ideas which have inspired mankind through the ages,
3. The scientific world view and its impact on technology, and
4. The expression of the creative spirit in literature and fine arts.

Mesa State College reaffirms these ideals. They are ancient goals tested through the centuries in a tradition which harks back to the earliest universities. Their contemporary expression at Mesa State College will strengthen the foundation of all academic programs.

Educated men and women share a basic body of perception and knowledge. This heritage is at the core of the mission of a baccalaureate college. Other aspects of a student's curriculum reflect particular talents and career aspirations, but this statement builds upon universals—the acknowledged foundations of the arts, letters, social and natural sciences in our civilization.

The design of general education has been guided by a ninefold set of objectives. A Mesa State College baccalaureate graduate should:

1. Be able to communicate effectively in the English language;
2. Possess mathematical skills;
3. Be aware of the great moral, ethical, and philosophical questions which have endured through the ages;
4. Have some knowledge of the origins of our own culture and the existence of others;
5. Be able to think critically and recognize issues across a broad spectrum of subjects;
6. Understand the complexities of our social, economic and political environment;
7. Have a familiarity with the scientific approach to the biological, psychological, and physical universe;
8. Appreciate the contributions of literature to our perception of ourselves and our world;
9. Appreciate the aesthetic spirit of mankind through a study of some aspect of the performing and visual arts.

General Education

Each student must complete the 33 semester credit hour general education requirement of lower division credit as specified by the Mesa State College faculty. See the following for specific course requirements and choices.

The only exceptions are for (1) students who have already earned a baccalaureate degree from a regionally accredited institution and (2) students who have an associate of arts (A.A.) or associate of science (A.S.) degree from a college in Colorado and whose transcript contains the "Common Core" stamp indicating completion of the Colorado Core Transfer Consortium general education curriculum. In both of these cases, the student's general education is completed and no further general education course work is required at Mesa State College.

Any college-wide general education course required in a student's major will be replaced with a general education course from some other discipline. The same course may not be counted to satisfy both requirements. Students may select their general education courses from the designated list according to their own preference. The following are guidelines for General Education:
1. Those students who qualify may substitute Honors English (ENGL 129) for ENGL 111 and ENGL 112. When Honors English is substituted for the ENGL 111 and ENGL 112, only ten General Education courses would be required (30 credit hours).

2. The math competency is required of B.A. students only. It may be satisfied by completing any college mathematics course at or above the MATH 110 level with a grade of "C" or higher. Students may challenge MATH 110 for the purpose of proving competency. Also, students will be deemed mathematically competent if they receive at least a "4" on the Advanced Placement examination in calculus given by the College Entrance Examination Board.

3. Each student who receives a baccalaureate degree from Mesa State College must have at least one college level mathematics course on his or her transcript with a grade of "C" or higher. (B.A. students, see no. 2 above; B.S. and B.B.A. students, see "Degree Distinctions").

4. A student may satisfy a General Education requirement with an appropriate CLEP test, if a CLEP is available for the course and the department at Mesa State approves.

5. No General Education course, except sequential courses, can have a specific course as a prerequisite or co-requisite, unless the prerequisite or co-requisite is in a different discipline.

**General Education Requirements for Baccalaureate Students**

<table>
<thead>
<tr>
<th>Category</th>
<th>Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>6 semester hours</td>
</tr>
<tr>
<td>Mathematics</td>
<td>3 semester hours (for B.A. students - B.S., and B.B.A. students, see &quot;Degree Distinction&quot;)</td>
</tr>
<tr>
<td>Humanities</td>
<td>6 semester hours chosen from history, literature, philosophy</td>
</tr>
<tr>
<td>Social and Behavioral</td>
<td>6 semesters hours chosen from anthropology, economics</td>
</tr>
<tr>
<td>Science</td>
<td>geography, political science, sociology, psychology</td>
</tr>
<tr>
<td>Fine Arts</td>
<td>3 semester hours chosen from art, dance, music, theatre</td>
</tr>
<tr>
<td>Natural Sciences</td>
<td>6 semester hours chosen from biology, chemistry, geology, physics. (At least one of the two courses must have an associated lab or field component and both the lecture and laboratory must be taken in all courses listed which have both if general education credit is to be received. Courses which fit this lecture and laboratory requirement are marked with an asterisk in the Natural Sciences general education list.)</td>
</tr>
<tr>
<td>Applied Studies</td>
<td>3 semester hours chosen from foreign language, computer science, business, applied fine arts, speech, occupational courses.</td>
</tr>
</tbody>
</table>

Minimum number of general education credit hours: 33 (except when Honors English is taken) However, at the present time, each science class with a laboratory totals at least 4 credit hours. Since any combination of classes that satisfy the natural sciences
requirement will total at least 7 credit hours, the baccalaureate general education requirement is, in effect, 34 credit hours.

Courses Approved for General Education Baccalaureate General Requirements

**English**
ENGL 111  English Composition and
ENGL 112  English Composition
 or
ENGL 129  Honors English

**Mathematics**
MATH 110*  College Mathematics

*NOTE: This requirement is for B.A. students only. All B.A. students must complete MATH 110 or a higher level math class with a grade of "C" or better. Students may challenge MATH 110 for the purpose of proving competency. Also, students will be deemed mathematically competent if they receive at least a "4" on the Advanced Placement examination in calculus given by the College Entrance Examination Board. Each student who receives a baccalaureate degree from Mesa State College will have at least one college level mathematics course with a grade of "C" or higher on his or her transcript (for B.S./B.B.A. degrees, see Degree Distinction).

**Humanities**

In addition, the Human Performance and Wellness requirement must be met—see “Human Performance and Wellness” under this “Graduation Requirements” section.

Second Baccalaureate Degrees and Concentrations Within One Degree

Mesa State College offers 19 baccalaureate degrees. Students who meet the requirements may earn any one or more of these baccalaureate degrees. (See “Second Baccalaureate Degree” below.)

Under several of the 19 baccalaureate degrees, concentrations and options are available. Before graduating with a baccalaureate degree offering concentrations and options, a student may complete requirements for one or several of the concentrations and options as desired. However, after a degree has been granted, if courses are taken that would have satisfied requirements for an additional concentration or option, the additional concentration or option cannot be added to the degree already granted. The course work will, of course, show on the student’s transcript. (See “Double Concentration within a Degree” below.)

Second Baccalaureate Degree

A student seeking a second baccalaureate degree at Mesa State College must earn a minimum of 30 additional semester hours of credit, at least 18 of which must be in courses numbered 300 and higher (none of these 30 credits may have been used toward another baccalaureate degree, and all must be earned at Mesa State College). In addition, the student must satisfy all specific program requirements of the new degree and concentration as well as any graduation requirements not previously met (e.g., the degree distinction).

Double Concentration Within a Degree

Students wishing to receive a double concentration or option within one degree must satisfy all the requirements for each concentration or option. Only one degree will be awarded. All concentrations and options desired must be declared on the petition to graduate.

All 30 hours must be earned after first bacc degree

[Signature]
9/30/78
Requirements for all Associate Degree Programs:
Associate of Arts (A.A.), Associate of Science (A.S.),
Associate of Applied Science (A.A.S.)

Credit
A minimum of 60 semester credit hours in approved course work plus HFWE 100 and one HFWE class from the Aerobic/Fitness list must be earned. Only the one required HFWE class may be counted toward an associate degree. A cumulative grade point average of 2.00 or higher for all courses taken and for the courses which comprise the area of emphasis or specialization must be achieved. Some programs have additional GPA requirements.

Residency
A minimum of 16 semester hours credit must be earned in no fewer than two semesters of study at Mesa State College.

Double Emphasis Within a Degree
Students wishing to receive a double emphasis within one degree must satisfy all the requirements for each emphasis. Only one degree will be awarded. All emphases desired must be declared on the petition to graduate.

Second Associate Degree
A minimum of 15 semester hours of credit beyond that required for the first associate degree must be earned by a student seeking a second associate degree at Mesa State College. A minimum of one semester of residency at Mesa State College is also necessary. In addition, the student must satisfy all specific requirements for the new degree. Only one A.A. and only one A.S. degree may be granted to any student, according to state guidelines.

Associate of Arts (A.A.) and Associate of Science (A.S.),
General Degree Requirements
A.A. and A.S. degree programs are designed to prepare students for upper division collegiate work (junior level) in colleges and universities granting the Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree. All A.A. and A.S. degree programs include the Colorado Core Transfer Consortium Program which is the state-wide common core of general education curriculum and will thus meet the lower-division general education requirements of most baccalaureate degree programs in Colorado. A grade of "C" or higher is required in EACH core course in order to be accepted for transfer under the Core Transfer agreements. Course work for the A.A. or A.S. degree, then, includes:
1. General Education Core Transfer Curriculum
2. Discipline area classes (emphasis), as detailed in the "Program of Study" section of this catalog or as developed in consultation with a faculty adviser and indicated on the program sheet.
3. Human Performance and Wellness requirement
4. Electives
The A.A. degree is designed for transfer into a baccalaureate degree program, with junior standing, in the arts, humanities, social or behavioral sciences, or one of the professional fields with such disciplines as its base. The A.S. degree is designed for transfer into a baccalaureate degree program, with junior standing, in one of the mathematical, biological, or physical sciences, or in one of the professional fields with such disciplines as its base.
Students should consult with their faculty advisers to assure that the emphasis and electives chosen will satisfy requirements of the particular baccalaureate programs to which they plan to transfer. A.A. and A.S. degrees in emphases not described in this
catalog may be developed in consultation with the faculty adviser. An A.A. or A.S. degree indicates that the holder has developed proficiencies sufficient to prepare for upper-division collegiate work and is awarded only for completion of a coherent program of study designed for a specific purpose.

Once a student has decided upon a program of study, he or she needs to obtain a program sheet from the faculty adviser. All degree requirements, as agreed upon, will be included on the program sheet.

ENGL 150  Introduction to Literature  3

Music
MUSA 220  Music Appreciation  3

Philosophy
PHIL 110  Introduction to Philosophy  3
PHIL 275  Introduction to Logic  3

In addition, the Human Performance and Wellness requirements must be met—see
"Human Performance and Wellness" under this "Graduation Requirements" section.
Non-Degree Transfer Programs

In addition to programs of study leading to the A.A. and A.S. degrees, other one- and two-year programs of study specifically tailored to meet students' needs in transferring to another institution may be developed through consultation with a faculty adviser.

Associate of Applied Science (A.A.S.) Degree Requirements

A.A.S. degree programs are intended to prepare individuals to enter skilled and/or para-professional occupations or to upgrade/stabilize their employment. These programs are not intended for transfer to baccalaureate degree programs; however, certain courses may be accepted toward a baccalaureate degree at some institutions. Under the "Programs of Study" section of this catalog, and in the UTEC section, the A.A.S. degrees available at Mesa State College are listed, along with the courses required to complete each degree.

Students are urged to consult with a faculty adviser and to obtain from the adviser a program sheet for the degree sought. Requirements for each A.A.S. degree will include:

1. General Education: Social and Behavioral Science or Literature - six semester hours.
   See the General Education lists in this catalog for baccalaureate degrees, and for the Associate of Arts degree and Associate of Science degree. The six hours required here may be chosen from Social or Behavioral Science or Literature from any of the three lists, unless specified under the degree.

2. English - six semester hours, as set forth in the specific A.A.S. program requirements.

3. Human Performance and Wellness requirement.

4. The remaining requirements and electives found under the specific program in the "Programs of Study" section of this catalog.

5. Additional requirements apply for some degrees. See specific program requirements and the program sheet.

Certificate of Occupational Proficiency Requirements

Candidates for the Mesa State College Certificate of Occupational Proficiency must satisfy all requirements specified for the certificate with a cumulative grade point average of 2.00 or higher for all courses. A grade lower than "C" in the discipline field will not be counted toward satisfying certificate requirements.

Teacher Licensure

Students preparing to teach in the public schools (elementary, secondary, K-12) must contact the Mesa State College Department of Teacher Education and Licensure regarding state licensure requirements and with the chair of the appropriate department regarding program requirements for the major. It is imperative that students seeking teacher licensure plan their schedules with the advisers mentioned early in their academic careers, preferably the first semester of their work at Mesa State College.

Teacher licensure is a separate process and must be pursued in addition to a baccalaureate degree. See Teacher Licensure in the "Programs of Study" section of this catalog.
PROGRAMS OF STUDY

Organization of this Section
This section consists of:
1. General information
2. Schools
   Programs of study are offered by three Schools at Mesa State College. These Schools, along with their personnel and programs of study offered, are described herein.
3. Degrees and Certificates
   All degrees and certificates offered by Mesa State College, (except those at UTEC) are shown in this portion, with a brief summary of course and other requirements to earn each degree. (See UTEC section for degrees and certificates offered at the Unified Technical Education Center.)
   This portion of the section is divided into (1) baccalaureate degrees offered and (2) associate degrees and certificates offered. Each of the two portions is alphabetical by degree name.
4. Teacher Licensure
5. Electives and/or Minors

General Information

Program Sheet
A program sheet has been prepared for each degree major, concentration, minor or certificate offered at Mesa State College specifying in detail the exact course requirements for each. Individual schools maintain program sheets for the degrees, minors and certificates offered in their school. Each student is urged to consult his or her adviser to obtain a program sheet for the major chosen (and minor, if applicable), upon enrolling at Mesa State College. It is the student’s responsibility to maintain the program sheet(s) demonstrating compliance with the degree and minor requirements. The completed program sheet(s), with appropriate signatures, must accompany the petition to graduate and be filed with the Director of Academic Records in order for a student to be considered for graduation. Refer to the Graduation Requirements section of this catalog for further details.

Overload
Occasionally students desire to take more than 21 credit hours during a semester. Students wishing to take such an overload are strongly encouraged to consult with their advisers prior to registration.

Independent Study
Independent study permits the motivated student an opportunity to expand his or her body of knowledge beyond the scope of the standard curriculum. It endeavors to foster qualities of self initiative, organizational skills, self discipline and independent thinking. It is expected that the student will engage in intensive study and research of the topic.

Independent study satisfies neither general education requirements nor specific course requirements. Independent study hours may be taken as elective hours only.
Independent study is available only to students at the junior and senior levels except in certain certificate and AAS programs and only in those disciplines listed in the “Course Descriptions” section of this catalog.
To be eligible for Independent Study, a student must have a minimum of eight semester credit hours in the discipline of the Independent Study area, as well as a minimum GPA of 2.75 within that discipline area. The work is to be completed within one
semester from the initiation date and is limited to a total of six or fewer semester credit hours taken at Mesa State College. The Dean of the School issuing credit must approve any exceptions.

A written contract is to be initiated by the student desiring Independent Study and approved by appropriate faculty and chairperson. The contract must include justification, description, monitoring, and evaluation procedures.

Students may take regular classes and do the work independently (with permission of the instructor). This is not the same as "Independent Study," and in such cases the student should not sign up for Independent Study but should register for the regular course, by prior arrangement with the instructor.

Further restrictions apply in some disciplines. One example is the requirement that an application for Independent Study be completed in advance—in some cases six weeks prior to the end of the semester preceding the one in which the student wishes to take the Independent Study. Students wishing to take an Independent Study should check with the appropriate instructor and/or dean well in advance.

Special Topics
Topics courses are offered from time to time and contain material of special interest within a specific discipline not considered elsewhere in the curriculum. Prerequisites vary with course material, and enrollment requires consent of the instructor.

Cooperative Education
According to the National Commission for Cooperative Education, "Cooperative Education is a working partnership in which an educational institution joins with an employer in a structured relationship. The basic purpose is that of providing a means whereby a student can combine study at the institution with a work experience which is under the supervision of the employer in order to fulfill the total requirements of a particular educational program."

Cooperative Education is a three-way partnership involving the student, the employer, and the college. There is a great deal of difference between Cooperative Education and simply holding a job. Cooperative Education is based on learning objectives which are related to the student's academic discipline and are established in cooperation with the student, the employer, the faculty adviser, and others at Mesa State College.

Typically, Cooperative Education is open to junior and senior students. Interested students should consult with their faculty adviser and dean. There are limits in the amount of credit which will apply towards a degree. See "Non-Traditional Credits" in this catalog.

Preparatory Courses
Preparatory courses are available in several subjects at Mesa State College. Numbers of such courses are below the 100 level (e.g., DEV 100, College Success Strategies). These courses are designed for students needing to strengthen their backgrounds before entering college level classes. All courses numbered 001-099 are preparatory in nature, not intended for transfer purposes, and will not usually fulfill degree requirements. Students are encouraged to consult with their advisers about the need to register into these classes.

Students who have passed any ENGL class numbered 100 or above will not be permitted to register for credit in any ENGL class numbered below 100. Students who have passed any MATH class numbered 100 or above will not be permitted to register for credit in any MATH class numbered below 100.
SCHOOL OF HUMANITIES AND SOCIAL SCIENCES

Janine Rider, Acting Dean

Departments and Faculty

Fine and Performing Arts
M. Atkinson, M. Baron, T. Capps (Chair), S. Claffey, V. Carmichael, D. Cox, J. Delmore, S. Garner, M. Gerlach, K. Gustafson, C. Hardy, P. Ivanov, L. Mosher, M. Robb, A. Sanders, P. Schneider, E. Schueers, B. Vernon, H. Waggoner, M. Woodbury, R. Woodbury, S. Woodworth, M. Wounded Head

Languages, Literature and Communications

Social and Behavioral Sciences

Each student seeking a degree or certificate must obtain a program sheet from his or her faculty adviser or from the Office of the Dean of the School of Humanities and Social Sciences listing specific requirements for the degree or certificate sought. The School of Humanities and Social Sciences offers academic programs leading to the listed baccalaureate (4-year) degrees, and associate (2-year) degrees, with the majors or areas of study indicated.

BACHELOR OF ARTS IN ENGLISH
Areas of Concentrations:
Literature
Writing
English with Teaching (Elementary or Secondary)

BACHELOR OF ARTS IN FINE AND PERFORMING ARTS
Areas of Concentrations:
Art
Art Education (K-12)
Graphic Art
Music
Performance
Music with Teaching (K-12)
Music Theatre
Theatre
Acting (Directing)
Design/Technical
BACHELOR OF ARTS IN HISTORY

BACHELOR OF ARTS IN LIBERAL ARTS

BACHELOR OF ARTS IN MASS COMMUNICATION
Area of Concentrations: Broadcasting
                      News/Editorial
                      Public Relations

BACHELOR OF ARTS IN POLITICAL SCIENCE
Area of Concentration: Administration of Justice

BACHELOR OF ARTS IN PSYCHOLOGY
Area of Concentration: Counseling Psychology

BACHELOR OF ARTS IN SOCIAL SCIENCE

BACHELOR OF ARTS IN SOCIOLOGY
Areas of Concentration: Anthropology
                      Criminology
                      Human Services

ASSOCIATE OF ARTS
Areas of Emphasis:  Art
                  English
                  Humanities
                  Music
                  Social Science — General
                  Theatre

For more details, see "Degrees" in the following section of this catalog. The baccalaureate degrees are alphabetical by title within the baccalaureate section and the associate degrees are alphabetical within that section.
SCHOOL OF NATURAL SCIENCES AND
MATHEMATICS

Robert Kribel, Dean

Departments and
Faculty

Biological Sciences
McCallister (Chair), D. McKenney, C. McVean
Waring, S. Slaughter, S. Werman

Computer Science, Mathematics and Statistics
C. Bailey, C. Barkley, C. Bonan-Hamada, E. Bonan-
Hamada, L. Bornmann, J. Brock, C. Darby, W.
Davenport, K. Davis, G. De Young, A. Ektate, D.
Fuquay, D. Hafner, E. Hawkins (Chair), M. Intermont,
J. Kavanagh, C. Kerns, M. Littlefield, D. Lorhammer,
W. MacEvoy, D. Mottrim, T. Novotny, E. Packard, L.
Payne, J. Qaddour, G. Rader, J. Rybak, M. Willis, Z.
Wu

Physical and Environmental Sciences
K. Beran, J. Brock, R. Cole, C. Dodson, G. Gilbert, H.
Hase, J. Johnson (Chair), V. Johnson, R. Kribel, D.
Lorhammer, L. Madzen, P. Misra, J. Qaddour, J.
Richards, W. Tiernan, K. Topper, R. Walker, R. Wang

Each student seeking a degree or certificate must obtain a program sheet from his or her faculty adviser or from the Office of the Dean of the School of Natural Sciences and Mathematics listing specific requirements for the degree sought. In some courses in the School of Natural Sciences and Mathematics, a grade of “D” is unacceptable. The program sheet for each program specifies such requirements and restrictions.

The School of Natural Sciences and Mathematics offers academic programs leading to baccalaureate (4-year) degrees, and associate (2-year) degrees in areas of study as indicated below. It should be noted that some of the areas of emphasis listed for study are the first two years of baccalaureate degree studies and require transfer to other institutions for completion. A student wishing to receive a double concentration or emphasis must satisfy all of the requirements for each concentration or emphasis.

BACHELOR OF SCIENCE IN BIOLOGICAL SCIENCES
Areas of Concentration: Biology
Biology with Teaching (Elementary or Secondary)

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

BACHELOR OF SCIENCE IN ENVIRONMENTAL RESTORATION AND WASTE MANAGEMENT

BACHELOR OF SCIENCE IN MATHEMATICS
Areas of Concentration: Mathematics with Teaching (Elementary or Secondary)
Statistics
BACHELOR OF SCIENCE IN PHYSICAL SCIENCE

Areas of Concentration:  Applied Physics
                       Chemistry
                       Geology
                       Geology with Teaching (Elementary or Secondary)
                       Environmental Geology
                       Physics
                       Physics with Teaching (Elementary or Secondary)

ASSOCIATE OF SCIENCE

Associate of Science (A.S.) degrees are available in most disciplines in the School of Natural Sciences and Mathematics. Completion of these degrees requires close coordination with an adviser and attention to the general education core curriculum requirements previously described. In most cases the number of hours that are required for completion of the Associate of Science degree will exceed the minimum of 60 semester hours.

Areas of Emphasis:  Biology
                   Computer Science
                   Engineering
                   Geology
                   Mathematics
                   Physics

It is strongly recommended that students planning careers in Forestry, Medical Technology, or Pharmacy complete an associate's degree in one of the areas of emphasis listed above. Two additional years of study must be completed at another university, but the courses from Mesa State College are readily transferable when the applicant holds an Associate of Science degree.

ASSOCIATE OF APPLIED SCIENCE

                       Environmental Restoration Engineering Technology

For more details, see "Degrees" in the following section of this catalog. The baccalaureate degrees are alphabetical by title within the baccalaureate section and the associate degrees are alphabetical within that section.

General Information

Pre-Health Science Preparation

Admission to the study of dentistry, medicine, optometry, physical therapy, and veterinary medicine usually requires the completion of a bachelor's degree in an appropriate discipline. Pre-health science is not a major at Mesa State College. Students preparing to enter the fields listed above must declare a major in one of the sciences or another appropriate area. Since admission to the medical, dental and other professional schools is very competitive, students are encouraged to carefully select majors and/or minors which will prepare them for other career alternatives in the event that they are unable to gain admission to the professional school of their choice.

Engineering and Forestry

A student can profitably begin the baccalaureate study of engineering or forestry with two years at Mesa State College. The subsequent transfer to other appropriate state institutions is facilitated by one of the various transfer agreements between Mesa State
College and these institutions. Programs should be carefully designed in consultation with an adviser.

Teacher Licensure
Licensure to teach mathematics or science in the secondary schools and licensure to teach in elementary schools is available through Mesta State College. This can be done by earning a baccalaureate degree with an appropriate major or concentration while also earning credit in prescribed professional courses. Interested students should contact the Teacher Education and Licensure Department.

Licensure to teach mathematics is obtained with a Bachelor of Science in Mathematics with a concentration in teacher licensure degree as described in this catalog and the program sheet. Licensure to teach science, however, is somewhat complicated by the fact that science is not an academic emphasis in itself. A student wishing such licensure should plan to earn a Bachelor of Science in Biological Sciences degree with a concentration in Teacher Licensure or a Bachelor of Science in Physical Sciences degree with a concentration in chemistry, geology or physics with teacher licensure as described in the appropriate sections of this catalog. For information about elementary and secondary teacher licensure the student should contact the Teacher Education and Licensure Department.

Laboratories
Many courses in the School of Natural Sciences and Mathematics include laboratory work. The class and laboratory portions of them are technically treated as different courses with distinctive numbers and individual grades. A student is usually required to be concurrently enrolled in both class and laboratory. Credit toward graduation cannot be earned for a class or laboratory unless credit is earned in both.
SCHOOL OF PROFESSIONAL STUDIES

Departments and Faculty

Accounting and Information Technology
S. Arosteguy, J. Buckley, C. Grabow, M. Green, D. McGinnis, B. McMachen, D. Rogers (Chair), G. Slauson, M. Zimmerer

Business Administration
D. Arosteguy, M. Bridge, K. Blair, D. Dickson, T. Hatten, J. Knappenberger, B. Mayer, J. Moorman, H. Polson (Chair), D. Rees, M. Slauson, K. Tan

Education and Teacher Licensure
V. Beemer (Early Childhood Education), J. Brigham, A. Bullen, A. Gonzales, D. Mottram (Acting Director), N. Smith, K. Tuinstra

Human Performance and Wellness and Recreation

Nursing and Radiologic Sciences
D. Bailey, H. Covington, S. Forrest (Chair), J. Goodhart (BSN Director), P. Feely, C. Hines, J. Mayfield, B. Hoffman, A. Lambeth, K. Reuss, C. Roy, B. Schans (Radiologic Technology Director), M. Sueckum, S. White

Each student seeking a degree or certificate must obtain a program sheet from his or her faculty adviser or from the Office of the Dean of the School of Professional Studies listing specific requirements for the degree or certificate sought.

Nursing and Radiologic Sciences
Each program requires a separate admission application; deadlines vary according to the degree sought. For more specific information, see the following or contact the Department of Nursing and Radiologic Sciences. Each new applicant must obtain from Nursing and Radiologic Sciences written guidelines explaining specific program requirements. All programs are fully accredited by the appropriate source including the National League for Nursing, and the Joint Review Committee on Education in Radiologic Technology.

Students in most programs offered through the Department of Nursing and Radiologic Sciences will be required to participate in clinical situations, etc., at hospitals and other facilities in the community as a part of their program of study. It is understood that these experiences are an integral and essential part of the programs and that all students must participate in them as required by their programs of study. Therefore, should a hospital or other facility deny permission to any student to work or participate in a required experience at such hospital or other facility, that student may not be allowed to continue his or her program of study. It is the student’s responsibility to obtain and maintain the permission of the clinical facilities utilized.

The School of Professional Studies offers academic programs leading to the following baccalaureate (4-year) degrees, associate (2-year) degrees, and certificate programs with the majors or areas of study indicated:
BACHELOR OF BUSINESS ADMINISTRATION
Areas of Concentrations:
- Administrative Office Management
- Business Economics
- Business Computer Information Systems
- Finance
- Human Resources Management
- Management
- Marketing
- Parks and Recreation Management

BACHELOR OF ARTS IN ECONOMICS
Area of Concentration: Applied Economics: Administration

BACHELOR OF ARTS IN HUMAN PERFORMANCE AND WELLNESS
Areas of Concentration:
- Adapted Physical Education
- Corporate Fitness
- Exercise Science
- Human Performance and Wellness with Teaching

BACHELOR OF SCIENCE IN ACCOUNTING
Areas of Concentration:
- Governmental and Not-For-Profit Accounting
- Information Technology
- Managerial Accounting
- Public Accounting

BACHELOR OF SCIENCE IN NURSING (BSN)

ASSOCIATE OF APPLIED SCIENCE
- Office Supervision and Management
- Accounting Technician
- Administrative Secretary
- Legal Secretary
- Medical Secretary
- Radiologic Sciences
- Travel, Recreation and Hospitality Management

ASSOCIATE OF ARTS
Areas of Emphasis:
- Business Computer Information Systems
- Business Administration
- Early Childhood Education
- Office Administration

CERTIFICATE OF COMPLETION

*Legal Assistant
*Check with Office of Continuing Education for details.

For more details, see "Degrees" in the following section of this catalog. The baccalaureate degrees are alphabetical by title within the baccalaureate section and the associate degrees are alphabetical within that section.
BACCALAUREATE DEGREES OFFERED AT MESA STATE COLLEGE

Baccalaureate degrees offered at Mesa State College are the Bachelor of Arts (B.A.), Bachelor of Business Administration (B.B.A.), Bachelor of Science (B.S.) and Bachelor of Science Nursing (B.S.N.) degrees as listed below. Concentrations and options available within the baccalaureate degrees are indicated under the degrees. Degrees are in bold print; concentrations and options are indented and are not in bold print.

Accounting (B.S.)
  Governmental and Not-For-Profit Accounting
  Information Technology
  Managerial Accounting
  Public Accounting

Biological Sciences (B.S.)
  Biology with Teaching (Elementary or Secondary)

Business Administration (B.B.A.)
  Administrative Office Management
  Business/Economics
  Business Computer Information Systems
  Finance
  Human Resource Management
  Management
  Marketing
  Parks and Recreation Management

Computer Science (B.S.)

Economics (B.A.)

School of Professional Studies

Bachelor of Science

1. Baccalaureate graduation requirements (for further information, see section of "Degree Requirements" in this catalog)

   a. General Education
      Cr. Hrs. 33
   b. B.S. Distinction (Math/Computer Science)
      MATH 113 College Algebra or higher level math
      STAT 214 Business Statistics
      6
   c. Human Performance and Wellness
      3

2. Requirements specific to this degree—An application for admission should be submitted to the Accounting Program Admission Committee the semester when all requirements have been met.

   a. Core courses
      ACCT 201 Principles of Financial Accounting (3)
      ACCT 202 Principles of Managerial Accounting (3)
      ACCT 321 Intermediate Accounting I (4)
      ACCT 322 Intermediate Accounting II (4)
      ACCT 331 Cost Accounting I (3)
      ACCT 441 Individual Income Tax (5)
      ACCT 442 Advanced Tax and Tax Research (5)
      BUOB 351 Business Law I or (3)
      BUGB 349 Legal Environment of Business (3)
      BUGB 352 Business Law II (3)
      CISB 101 Business Information Technology (2)
      CISB 105 Introduction to Business Software (1)
      CISB 205 Advanced Business Software (3)
      ECON 201 Principles of Macroeconomics (3)
      ECON 202 Principles of Microeconomics (3)
      FINA 339 Managerial Finance (3)
      MANG 201 Principles of Management (3)
      MANG 491 Business Policies and Management (3)
      MARK 231 Principles of Marketing (3)

   b. Concentrations—see below
   c. Electives (must be non-business)
   d. See faculty adviser for a program sheet detailing exact and complete requirements for the major.

3. Special requirements:

   a. In order to be admitted to the accounting emphasis, certain prerequisites must be satisfied. To be eligible for admission, a student must have successfully completed the following:
      (1) 45 credit hours with a 2.75 GPA or higher,
      (2) ACCT 201 and ACCT 202 with a 2.5 minimum GPA and ACCT 321 with at least a grade of "C",
      (3) MATH 113 or higher numbered MATH class,
      (4) STAT 200 or STAT 214,
      (5) CISB 101 and CISB 105,
      (6) MANG 201,
      (7) ENGL 111 and 112 or ENGL 129,
      (8) 15 credit hours of general education requirements.
b. Applications for admission to the accounting emphasis should be submitted to the Department Admission Committee the semester all requirements have been met.

c. Only students admitted to the accounting major may take any upper division ACCT classes, except they will be allowed to take Intermediate Accounting and/or cost Accounting.

d. A grade of "D" is not acceptable in any of the courses identified in this requirement.

e. Only the Department Admissions Committee may make exceptions to any of these requirements.

BIOL 321, 321L  Taxonomy of Grasses and Lab  (4)
BIOL 403  Evolution  (3)
BIOL 414, 414L  Aquatic Biology and Lab  (4)
BIOL 415  Tropical Ecosystems  (2)

(5) At least fifty percent of the total BIOL credit hours must be at the 300 level or above.

(6) With prior departmental approval, courses such as special topics, senior research, independent research, and/or independent study may be substituted for course work in the four areas listed above or for the thesis requirement. These substitutions cannot exceed six credit hours.

b. Concentrations - see below
c. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.
d. Electives (unrestricted)
   If desired, a student may use electives towards satisfying requirements for a minor.

3. Special requirements and recommendations
   a. Biological Sciences majors are encouraged to choose a minor from among those offered within the School of Natural Sciences and Mathematics. Minors most closely associated with the Biological Sciences are chemistry, physics, mathematics, statistics, computer sciences, and geology.
   b. At least ten hours of chemistry courses and one physics course must be taken. Students planning to attend professional schools and some graduate schools are advised to take one year of physics and at least two years of chemistry courses. Mathematics, statistics, and/or computer science courses are requirements for the Bachelor of Science Degree Distinction. It is recommended that courses be taken in all these areas. Students planning to complete graduate or professional degrees are strongly encouraged to work closely with their adviser in planning their curriculum.
   c. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.

CONCENTRATION
Bachelor of Science
BIOLOGICAL SCIENCES

Biology with Teaching (Elementary or Secondary)
Requirements may vary if a concentration is selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.

Students seeking a degree in Biology with Teaching should see their faculty advisers in both Biology and Teacher Licensure.
BUSINESS ADMINISTRATION
School of Professional Studies

Bachelor of Business Administration

1. Baccalaureate graduation requirements (for further information, see section on “Degree Requirements” in this catalog)

   a. General Education
   b. B.B.A. Distinction (Math/Computer Science)
      MATH 121 Calculus for Business
      (or a higher level math as approved by adviser)
      STAT 214 Business Statistics
   c. Human Performance and Wellness

   2. Requirements specific to this degree
      a. Required courses
         ACCT 201 Principles of Financial Accounting
         ACCT 202 Principles of Managerial Accounting
         BUIG 211 Business Communications
         BUIG 349 Legal Environment of Business
         CISB 101 Business Information Technology
         CISB 105 Introduction to Business Software
         ECON 201 Principles of Macroeconomics
         ECON 202 Principles of Microeconomics
         FINA 339 Managerial Finance
         MANG 201 Principles of Management
         MANG 331 Quantitative Decision Making
         MANG 491 Business Policies and Management
         MARK 231 Principles of Marketing

      b. Concentrations — see below
      c. Electives (must be non-business)
      
      If desired, a student may use electives to satisfy requirements for a minor.

d. Concentrations

There are no concentrations currently available under this degree.
e. Electives (unrestricted)

ERWM majors will be encouraged to concentrate on a focused area of study, with at least 10 credits in upper division courses. Each student will be required to submit a plan of study within their electives to his/her adviser before the end of their sophomore year. By taking a few additional courses, students may choose to receive a formal minor in the area of specialization.

3. Special Requirements
   a. Grades of less than "C" are not accepted in required courses.
   b. Students must pass a comprehensive/practical exercise within ENGS 492 as a partial graduation requirement.

4. See faculty advisor for a program sheet detailing exact and complete requirements for this degree.
FINE AND PERFORMING ARTS
School of Humanities and Social Sciences

Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)
   a. General Education
   b. B.A. Distinction (Foreign Language)
   c. Human Performance and Wellness

2. Requirements specific to this degree
   a. Required courses (all concentrations except Music with Teaching)
      FINE 494 Seminar in Critical Analysis of the Arts (all concentrations except Music with Teaching) (3)
    Fine and Performing Arts course(s) outside the concentration. (Music Theatre Concentration students are exempt from this requirement and take only FINE 494) (3)
   b. Concentrations — see below (students must choose one)
   c. Electives (unrestricted)
      If desired, a student may use electives towards satisfying requirements for a minor.

3. Special Requirements and Recommendations
   a. Students must receive a grade of "C" or better in Fine and Performing Arts Core Requirements, particular emphasis core requirements, and courses in the specific options. General Education, support courses, and electives are excluded from the minimum "C" requirements.
   b. It is recommended that students who are interested in pursuing graduate programs and/or teaching licensure programs maintain at least an overall 3.2 GPA with "A's" in the major courses.
   c. Fine and Performing Arts students should see their adviser each semester before registering for classes.
   d. It is advisable for each student to choose a minor in consultation with his/her adviser.

   Approximately $100.00 is required for materials and equipment in addition to the cost of textbooks.

Music

Required courses:  45
MUSA 114  Theory I-Introduction            (3)
MUSA 115  Theory II-Diatonic Concepts       (3)
MUSA 116  Ear Training and Sight Singing I  (2)
MUSA 117  Ear Training and Sight Singing II (2)
MUSA 214  Theory III                        (2)
MUSA 215  Theory IV                         (2)
MUSA 302  Keyboard Literature, or          
          Symphonic Literature or             
MUSA 303  Vocal Literature                 (3)
MUSA 318  Orchestration                    (2)
MUSA 326  Music History and Literature I    (3)
MUSA 327  Music History and Literature II   (3)
MUSA 450  Beginning Conducting              (2)
MUSL XXX  Music Lessons                     (8)
MUSP 420  Senior Recital                    (2)
MUSP XXX  Performance Ensembles             (8)

Options:
Each music student must choose one of the following options and take specific courses required for that option in:
Music Performance (Instrumental, Keyboard, Vocal)  (8-10)
Music with Teaching (K-12)                         (8-25)

Students who want the option in Music with Teaching should see their faculty advisers in both Music and in Teacher Licensure and refer to the program sheets detailing requirements.

1. Special Requirements
Each music student must attend weekly recitals and required concerts and pass basic proficiencies, undergo a sophomore review, and successfully complete a public senior recital after completing all other required music lessons and courses.

2. Additional expenses
Approximately $100.00 is required for materials and equipment in addition to the cost of textbooks.
Music Theatre

Required Courses:
DANC 170  Theory and Practice Modern Dance (1)
DANC 175  Theory and Practice Modern Jazz Dance or Tap Dance (1)
HPWE 178  Theory and Practice Ballet (1)
DANC 176  Methods of Ballroom Dancing (2)
DANC 253  Beginning Improvisation and Composition in Dance (3)
DANC 271  Fundamentals of Modern Dance or Fundamentals of Ballet (2)
DANC 277  Theory and Practice Ballet (1)
DANC 372  Theory and Practice Modern Dance or Theory and Practice Ballet (1)
DANC 376  Theory I - Introduction* (3)
MUSA 114  Ear Training and Sight Singing I (2)
MUSA 130  Class Piano I (2)
MUSA 131  Class Piano II (2)
MUSL 237  Private Lessons: Voice (2)
THEA 151  Acting I: Beginning Acting (3)
THEA 270  Music Theatre Performance Workshop (2)
THEA 270L  Music Theatre Performance Workshop Lab (1)
THEA 341  Music Theatre History and Literature (3)
THEA 351  Acting III: Stage Dialects (3)
THEA 352  Acting IV: Styles in Acting (3)
THEA 370  Music Theatre Performance Workshop (2)
THEA 370L  Music Theatre Performance Workshop Lab (1)
THEA 401  Performing Arts Management (3)
THEA 470  Music Theatre Performance Workshop (2)
THEA 470L  Music Theatre Performance Workshop Lab (1)

* MUSA 110 (Notation) required first if deficiency occurs

Special Requirements and Recommendations:
Each Music Theatre student must audition for and if cast, appear in two musicals during the regular academic year. See adviser for additional recommendations.

Theatre

Required courses:
THEA 117, 118  Play Production (2)
THEA 217, 218  Play Production (2)
THEA 151  Acting I: Beginning Acting (3)
THEA 160  Theatre Studies (1)
THEA 401  Performing Arts Management (3)
THEA 451  Beginning Directing (3)
THEA 492  Senior Directing Project: Acting/Directing Capstone (3)

All Theatre students must complete THEA 160, Theatre Studies, their first year.

Options
Specific courses are required for options available under this degree
Acting/Directing
Design/Technical
Choose three hours from courses listed in Acting/Directing Program Sheets
Requirements may vary with the concentration and option selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major, concentration and option chosen.

1. Additional expenses
   Approximately $100.00 in addition to the cost of textbooks may be required for purchase of supplies and materials.

      | HIST 346 | History of Modern America       | (3)      |
      | HIST 420 | Civil War and Reconstruction    | (3)      |

   Third World History, select one course from:

      | Course   | Title                           | Cr. Hrs. |
      |----------|---------------------------------|----------|
      | HIST 306 | History of South and Southeast Asia | (3)     |
      | HIST 310 | Latin American Civilization     | (3)      |
      | HIST 340 | History of the Islamic World    | (3)      |
      | HIST 401 | East Asia: The Formative Period | (3)      |
      | HIST 403 | East Asia and the Modern World  | (3)      |

   Topical History, select one course from:

      | Course   | Title                           | Cr. Hrs. |
      |----------|---------------------------------|----------|
      | HIST 304 | History of Colorado             | (3)      |
      | HIST 315 | American Indian History         | (3)      |
      | HIST 320 | The American West               | (3)      |
      | HIST 332 | History of Modern Warfare       | (3)      |
      | HIST 405 | Public History                  | (3)      |
      | HIST 410 | Environmental History           | (3)      |
      | HIST 435 | Classical Archeology            | (3)      |
      | ECON 312 | Economic History of the U.S.    | (3)      |

      Three additional courses must be selected from the four areas listed above.

      Total: 9 Cr. Hrs.
9 upper division credit hours selected from the following disciplines: 
   Anthropology, Economics, English, Literature, Philosophy, Political Science, Psychology, and Sociology
b. Concentrations
   There are no concentrations currently available under this degree.
c. See faculty adviser for a program sheet detailing exact and complete requirements for the major.
d. Electives
   If desired, a student may use electives to satisfy requirements for a minor.

3. Special recommendations
   All history majors are encouraged to take an additional six hours of a language beyond the six required for the B.A. degree distinction.
HUMAN PERFORMANCE AND WELLNESS
School of Professional Studies

Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on “Degree Requirements” in this catalog)

  a. General Education
     Cr. Hrs. 33
  b. B.A. Distinction (Foreign Language)
     Cr. Hrs. 6
  c. Human Performance and Wellness
     Cr. Hrs. 3

2. Requirements specific to this degree

   a. Required courses
      Cr. Hrs. 35
      - BIOL 141 Human Anatomy and Physiology (3)
      - BIOL 141L Human Anatomy and Physiology Lab (2)
      - HPWA 200 Introduction to Human Performance and Wellness (2)
      - HPWA 213 Methods of Physical Fitness (2)
      - HPWA 233 Methods of Weight Training (1)
      - HPWA 234 Prevention and Care of Athletic Injuries (2)
      - HPWA 260 School and Personal Health (3)
      - HPWA 301 Tests and Measurements (2)
      - HPWA 309 Anatomical Kinesiology (2)
      - HPWA 350 Motor Development (3)
      - HPWA 370 Biomechanics (2)
      - HPWA 370L Biomechanics Lab (1)
      - HPWA 380 Adapted Physical Education (3)
      - HPWA 401 Legal Considerations (2)
      - HPWA 403 Exercise Physiology (3)
      - HPWA 403L Exercise Physiology Lab (1)
      - HPWA 494 Senior Seminar (Capstone) (1)

   b. Concentrations — see below (students must choose one)
      23-28

   c. Electives (unrestricted)
      23-18

      If desired, a student may use electives to satisfy requirements for a minor.

   d. Special requirements

      Red Cross Standard First Aid/CPR certification is required.

CONCENTRATIONS

HUMAN PERFORMANCE AND WELLNESS

Adapted Physical Education
Corporate Fitness
Exercise Science

Human Performance and Wellness with Teaching (K-12)

Requirements vary, depending upon the concentration selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.

Students seeking a degree in Human Performance and Wellness with Teaching should see their faculty advisers in both Human Performance and Wellness and Teacher Licensure.
LIBERAL ARTS (Interdisciplinary Major) ________
School of Humanities and Social Sciences

Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on “Degree Requirements” in this catalog)

   Cr. Hrs.
   a. General Education 33
   b. B.A. Distinction (Foreign Language) 6
   c. Human Performance and Wellness 3

2. Requirements specific to this degree
   a. Required courses 18
      ARTE 115 Art Appreciation (3)
      ENGL 150 Introduction to Literature (3)
      MUSA 220 Music Appreciation (3)
      THEA 141 Theatre Appreciation (3)

      One of the following sequences
      (1) Select two courses from:
          ENGL 131 World Literature I (3)
          ENGL 132 World Literature II (3)
          ENGL 133 World Literature III (3)
      (2) ENGL 254 English Literature I (3)
          ENGL 255 English Literature II (3)
      (3) ENGL 261 United States Literature I (3)
          ENGL 262 United States Literature II (3)
      (4)*ARTE 211 Art History, Ancient-1300 (3)
          ARTE 212 Art History, Europe 1300-1900 (3)

      *Students choosing the Art primary area may not make this selection.
      (5) MUSA 266 History of Popular Music (3)
          THEA 145 Introduction to Dramatic Literature (3)

   b. Required Primary and Secondary Areas of Study
      (1) Students select one Primary Area of Study from among the following and choose courses from a list for that Primary area (15 credit hours must be upper division):
          (a) Art (18)
          (b) English (18)
          (c) Music (21)
          (d) Philosophy (18)
          (e) Theatre (18)

      *In philosophy only twelve hours must be upper division.
      (2) Students select one Secondary Area of Study (different from the Primary Area) from among the following and choose courses from a list for that Secondary area (9 credit hours must be upper division):
          (a) Art (12)
          (b) English (12)
          (c) Music (15)
          (d) Philosophy (12)
          (e) Theatre (12)

   c. Concentrations
      There are no concentrations currently available under this degree.
d. See faculty adviser for a program sheet detailing exact and complete requirements for the major.

e. Electives (unrestricted) 30-33

3. Special requirements

Students will select both a Primary and a Secondary area of study from the lists shown; these areas may not be from the same discipline.
MASS COMMUNICATION
School of Humanities and Social Sciences
Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)

   a. General Education
   b. B.A. Distinction (Foreign Language)
   c. Human Performance and Wellness

2. Requirements specific to this degree

   a. Required courses
      - MASS 101 Mass Media in America (3)
      - MASS 231 News Writing and Reporting (3)
      - MASS 397 Practicum (1)
      - MASS 421 Journalism Law and Ethics (3)
      - MASS 494 Senior Seminar (3)
      - MASS 499 Internship (8)

   b. Concentrations—see below (students must choose one)

   c. Electives (unrestricted)

   If desired, a student may use electives to satisfy requirements for a minor.

3. Special requirements

   (1) Continuance in the program after the sophomore year will be contingent upon the student's satisfying the following requirements:
      (a) Completion of the English Composition sequence, with at least a 2.5 GPA average and no grade of “D” or “F”.
      (b) Completion of the two introductory courses (MASS 101 and MASS 231) in Mass Communications, with at least a 2.5 average and no grade of “D” or “F”.
      (c) Maintenance of at least a 2.5 GPA in MASS courses, in addition to at least a 2.0 GPA overall, is necessary for Mass Communications majors to proceed to graduation.

   NURS 425, 425L Nursing Process IV: Community Health and Lab (5)
   NURS 435, 435L Nursing Process V: Mental Health and Lab (5)
   NURS 445, 445L Nursing Process VI: Advanced Nursing Process Lab (7)
   NURS 455, 455L Leadership Process: Theory and Practice and Lab (6)
   NURS 475 Research Process (2)
   b. There are no concentrations available under this major.
   c. See faculty adviser for a program sheet detailing exact and complete requirements for the major.
   d. Electives (upper division)
   (1) Any upper division courses (6)
   (2) Upper division NURS courses (4)
   (3) Additional Nursing Courses Required for Advanced Placements: for RN's and LPN's (consult adviser for requirements)
   NURS 314 Professional Transitions (3)
   NURS 335L Health Assessment Laboratory (1)
   (4) If desired, a student may use electives towards satisfying requirements for a minor.
3. Special requirements

The BSN program is designed for individuals who desire a professional degree in nursing. The four-year program provides educational experiences to prepare a professional nurse generalist to practice in a variety of health care settings. Advanced placement is available for RN's and LPN's. Contact the Nursing Department for specific information and curriculum plan.

a. Admission requirements include: satisfactory scores on the Scholastic Aptitude Test (SAT), 850 or above, or a composite American College Testing (ACT) score of 21 or better (scores of SAT 810 and ACT 19 will be accepted if the test was taken before October, 1989). High school courses in biology, chemistry and algebra are recommended. All first year college courses must be completed or in progress before a student can be admitted to the BSN program. An admissions committee selects students from applicants who best meet requirements. In addition, anatomy and physiology and microbiology, each with the lab, and a math course at least at college algebra level are required for admission into the program. All admission materials must be on file in the office of the Nursing Department prior to October 1 for consideration for admission into the following spring semester. Application for advanced placement must be on file in the office of the Nursing Department prior to March 1.

b. Registered Nurse students seeking credit for prior nursing learning experiences will follow "The Colorado Nursing Articulation Model" and will be required to take and successfully complete a nursing course specifically designed for RNs entering the program for degree completion.

c. Students transferring in credit for Human Anatomy and Physiology and/or Microbiology courses taken at out-of-state accredited colleges/universities must provide evidence that these courses had separate laboratory components before the course can be accepted to fulfill program requirements. This will not necessarily appear on the transcript.

d. Any RN who desires to enroll in a nursing course for personal enrichment only, must secure permission from the course instructor and must register for "No Credit Desired". If credit is desired, students must be officially accepted into the nursing program prior to enrolling in the nursing courses to receive credit.

e. Progression requirements: All nursing courses must be completed in sequence. All required 200 level courses (with the exception of BIOL 241 and STAT 200) must be completed before 300 level nursing courses may be taken. BIOL 241 must be successfully completed by the end of the semester when the first 300 level nursing courses are taken. The student may not continue the nursing courses until BIOL 241 is successfully completed. All required 300 level courses must be completed before 400 level nursing courses may be taken. Students must complete all 200 level nursing courses or be an (RN) advanced placement student to enroll in the nursing elective courses. (Students may take any two nursing elective topics in any sequence.)

f. Students must have a 2.0 ("C") on a 4.0 scale or higher grade for all courses required for completion of the Baccalaureate Degree in nursing. This policy applies regardless of when the course was taken. A "D" grade or lower in any required course is not acceptable.

g. Students enrolled in nursing courses having both theory and clinical components must take these components concurrently. If a student receives a grade of less than "C", 2.0 on a 4.0 scale, in either component (theory and/or clinical) both components must be repeated. Certain courses have separate sections, each with theory and clinical, so all sections of the course must be successfully completed to pass the course. The student may not progress to the next nursing course and will have to retake both components the next semester that the course is offered as space is available.
h. Faculty members of a program may withdraw a student due to unsafe clinical practice or behavior jeopardizing professional practice at any time during the semester.

i. Any basic science courses required by the program must have been taken within the last five (5) years to fulfill graduation requirements. These include BIOL 141 and 141L, BIOL 241, BIOL 250 and 250L. If the course was not taken within the last five (5) years, the course must be re-taken or competency proven by a challenge examination. The challenge examination process may only be accomplished if a college-level course has been successfully completed previously with a letter grade of “C” or higher awarded. The five year requirement is waived for RN’s who have been working in the Nursing field since taking courses. The final approval for all accepted support course requirements and/or challenge examination will be made by the Department of Nursing and Radiologic Sciences.

4. Additional expenses

Students will be required to purchase additional supplies and material (i.e., medical equipment and uniforms). Approximate cost will be $300-$500. See adviser for specific requirements.
PHYSICAL SCIENCES
School of Natural Science and Mathematics

Bachelor of Science

1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)
   a. General Education
   b. B.S. Distinction (Math/Computer Science)
      (1) In Chemistry, the degree distinction should be satisfied by taking Calculus I and II (MATH 151, 152) for 10 credit hours.
      (2) In Geology, the degree distinction should be satisfied by taking Calculus I (MATH 151) and Probability and Statistics (STAT 200) for 8 credit hours.
      (3) In Applied Physics and Physics, the degree distinction should be satisfied by taking Calculus I and II (MATH 151 and 152) for 10 credit hours.
   c. Human Performance and Wellness

   Cr. Hrs.
   a. General Education
   b. B.S. Distinction (Math/Computer Science) 33
   c. Human Performance and Wellness

2. Requirements specific to this degree
   a. Concentrations—see below (students must choose one)
   b. Electives (unrestricted) 50-58

   If desired, a student may use electives to satisfy requirements for a minor. Minors which complement a student’s professional studies are mathematics, computer science, chemistry, biology and geology. Some minors which broaden a student’s cultural perspective are history, literature, and fine arts.

3. Special requirements
   Grades of less than "C" are not accepted in required courses in the major.

CONCENTRATIONS
Bachelor of Science
PHYSICAL SCIENCES

Chemistry

Required courses:
CHEM 131, 131L General Chemistry & Lab (5)
CHEM 132, 132L General Chemistry & Lab (5)
CHEM 211, 211L Quantitative Analysis & Lab (4)
CHEM 311, 311L Organic Chemistry & Lab (5)
CHEM 312, 312L Organic Chemistry & Lab (5)
CHEM 321 Physical Chemistry I (3)
CHEM 322 Physical Chemistry II (3)
CHEM 341 Advanced Laboratory I (2)
CHEM 342 Advanced Laboratory II (2)
CHEM 482 Senior Research (2)
CHEM 483 Senior Research (2)
CHEM 494 Seminar (1)
MATH 253 Calculus III (4)
PHYS 121, 122 Classical Physics I & II (4,4)
PHYS 122L Experimental Mechanics Lab (1)

In addition, one semester of one of the following is required as a senior elective.
CHEM 315, 315L Biochemistry & Lab (4)
CHEM 396 Topics (3)
CHEM 411  Main Group Elements  (3)  
CHEM 412  Transition Elements  (3)  
CHEM 421  Advanced Organic Chemistry I  (3)  
CHEM 422  Advanced Organic Chemistry II  (3)  
CHEM 496  Topics  (3)  

Geology  
Required courses:  
GEOL 111, 111L  Principles of Physical Geology and Lab  (4)  
GEOL 112, 112L  Principles of Historical Geology and Lab  (4)  
GEOL 203  Introduction to Environmental Geology  (3)  
GEOL 301, 301L  Earth Tectonics and Lab  (4)  
GEOL 331, 331L  Mineral Studies and Lab  (4)  
GEOL 340, 340L  Petrology and Lab  (4)  
GEOL 380  Field Studies  (6)  
GEOL 390  Computer Applications in Geology  (3)  
GEOL 402, 402L  Applications of Geomorphology and Lab  (4)  
GEOL 444, 444L  Stratigraphy and Sedimentation and Lab  (4)  
GEOL 490  Seminar  (3)  
BIOL 105, 105L  Attributes of Living Systems and Lab  (5)  
CHEM 131, 131L  General Chemistry and Lab  (5)  
PHYS 111, 111L  General Physics and Lab  (5)  

Options:  
Specific courses are required if the following options available under this degree are chosen:  
Environmental Geology  
Geology with Teaching (Elementary or Secondary)  
Students who want an option in Geology with Teaching should see their faculty advisors, both in Geology and Teacher Licensure.  

Applied Physics  
Required courses:  
ENGR 105  Engineering Drawing  (3)  
ENGR 251  Electronic Circuit Analysis  (3)  
ENGR 251L  Electronics Lab  (1)  
ENGR 255  Thermodynamics  (3)  
ENGR 261  Statics and Dynamics I  (3)  
ENGR 262  Statics and Dynamics II  (3)  
PHYS 131  Fundamental Mechanics  (4)  
PHYS 131L  Fundamental Mechanics Lab  (1)  
PHYS 132  Electromagnetism and Optics  (4)  
PHYS 132L  Electromagnetism and Optics Lab  (1)  
PHYS 231  Modern Physics  (3)  
PHYS 311  Electromagnetic Theory I  (3)  
PHYS 321  Quantum Theory I  (3)  
PHYS 331  Advanced Laboratory I  (2)  
PHYS 332  Advanced Laboratory II  (2)  
PHYS 362  Statistical and Thermal Physics  (3)  
PHYS 421  Advanced Dynamics  (3)  
PHYS 482  Senior Research (taken twice)  (2)  
PHYS 494  Seminar (taken twice)  (2)

American Government: 2 courses selected from:

- POLS 310 Development of U.S. Constitution (3)
- POLS 325 The American Presidency (3)
- POLS 338 Colorado Government and Politics (3)
- POLS 412 Constitutional Law (3)
- POLS 424 The Legislative Process (3)
- POLS 428 The American Court System (3)

American Politics and Policy: 2 courses selected from:

- POLS 342 Public Administration (3)
- POLS 345 Political Parties and Interest Groups (3)
- POLS 355 Politics in the Information Age (3)
- POLS 413 Civil Liberties (3)
- POLS 485 Public Policy (3)
- POLS 488 Environmental Politics and Policy (3)
- POLS 499 Political Science Internship (3)

World Politics and Political Theory: 2 courses selected from:

- POLS 350 American Political Thought (3)
- POLS 365 European Government and Politics (3)
- POLS 370 World Politics (3)
- POLS 452 Political Theory: Classical and Medieval or (3)
- POLS 453 Political Theory: Modern* (3)
- POLS 475 American/Foreign National Security (3)

9 upper division credit hours selected from the following disciplines: Anthropology, Economics, History, Philosophy, Psychology, or Sociology.

b. Concentrations—see below

c. See faculty adviser for a program sheet detailing exact and complete requirements for the major.

d. Electives

If desired, a student may use electives to satisfy requirements for a minor.
3. Special recommendations:
   Students are encouraged to complete an internship as part of the program. See
   "Course Description" section for a description of the internships offered.

* The course used to fulfill the core requirement in political science cannot be used as
  an elective in World Politics and Political Theory.

CONCENTRATIONS
Bachelor of Arts
POLITICAL SCIENCE

Administration of Justice
Requirements may vary if a concentration is selected. See faculty adviser for a program
sheet detailing exact and complete requirements for the major and concentration
chosen.
PSYCHOLOGY
School of Humanities and Social Sciences

Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)
   a. General Education 33
   b. B.A. Distinction (Foreign Language) 6
   c. Human Performance and Wellness 3

2. Requirements specific to this degree
   a. Required courses 47
      - PSYC 150 General Psychology (3)
      - PSYC 311 Quantitative Research or
      - SOCI 310 Methods of Social Research (3)
      - PSYC 312, 312L Experimental Psychology and Lab (4)
      - PSYC 314, 314L Psychology of Learning and Lab (4)
      - PSYC 320 Social Psychology (3)
      - PSYC 414 Systems and Theories of Psychology (3)
      - STAT 200 Probability and Statistics (3)

   24 upper division credit hours selected from the following:
      - ANTH 340 Ethnopsychology (3)
      - PSYC 310 Child Psychology (3)
      - PSYC 322 Motivation (3)
      - PSYC 330 Psychology of Adolescents and Young Adults (3)
      - PSYC 335 Psychology of Women (3)
      - PSYC 340 Abnormal Psychology (3)
      - PSYC 350 Psychology of Adulthood (3)
      - PSYC 395 Independent Study (1-3)
      - PSYC 396 Topics (1-3)
      - PSYC 400 Psychological Testing (3)
      - PSYC 410 Drugs and Human Behavior (3)
      - PSYC 412 Industrial and Organizational Psychology (3)
      - PSYC 416 Memory and Cognition (3)
      - PSYC 420 Personality (3)
      - PSYC 422 Sensation and Perception (3)
      - PSYC 430 Biopsychology (3)
      - PSYC 495 Independent Study (1-3)
      - PSYC 496 Topics (1-3)

   b. Concentrations—see below
   c. Electives 34
      If desired, a student may use electives to satisfy requirements for a minor.

3. Special requirements
   To pursue the Psychology major a student must have completed with at least a "C" grade the following:
      - ENGL 111 and 112, English Composition (or the equivalent)
      - MATH 110, College Mathematics, or MATH 113, College Algebra
      - or have established mathematics competency
      - PSYC 150, General Psychology
      - STAT 200, Probability and Statistics
CONCENTRATIONS
Bachelor of Arts
PSYCHOLOGY

Counseling Psychology
Requirements may vary if a concentration is selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.

The courses required for the concentration in Counseling Psychology can be found in the course listings and descriptions in the back of this catalog under the heading Psychology—Counseling (PSYP).
**SOCIOLOGY**

School of Humanities and Social Sciences

Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on "Degree Requirements" in this catalog)  
   a. General Education  
      - Cultural Anthropology (3)  
   b. B.A. Distinction (Foreign Language)  
      - Methods of Social Research (3)  
   c. Human Performance and Wellness  
      - General Sociology (3)  

2. Requirements specific to this degree  
   a. Required courses  
      - Social Problems (3)  
      - History of Sociology (3)  
      - Contemporary Social Theory (3)  
      - Probability and Statistics (3)  
   b. 15 upper division hours selected from the following:  
      - Political Sociology (3)  
      - Sociology of Religion (3)  
      - Collective Behavior and Popular Culture (3)  
      - Population Impact Problems and Urbanization (3)  
      - Social Stratification (3)  
      - Crime and Delinquency (3)  
      - Sociology of Death and Dying (3)  
      - Social Influences of Small Groups (3)  
   c. 12 upper division hours selected from the following:  
      - Ethnographic Methods (3)  
      - Introduction to Human Services (3)  
      - Sex Role Identification (3)  
      - Social Psychology (3)  
   d. Or any upper division course from the following disciplines:  
      - Economics, History, or Political Science

b. Concentrations—see below  
c. Electives  
   If desired, a student may use electives to satisfy requirements for a minor.

**CONCENTRATIONS**

Bachelor of Arts  
SOCIOLOGY

- Anthropology  
- Criminology  
- Human Services

Requirements may vary if a concentration is selected. See faculty adviser for a program sheet detailing exact and complete requirements for the major and concentration chosen.
SOCIAL SCIENCE (Interdisciplinary Major)

School of Humanities and Social Sciences

Bachelor of Arts

1. Baccalaureate graduation requirements (for further information, see section on “Degree Requirements” in this catalog) Cr. Hrs.
   a. General Education 33
   b. B.A. Distinction (Foreign Language) 6
   c. Human Performance and Wellness 3

2. Requirements specific to this degree
   a. Required courses for all majors
      ANTH 201 Cultural Anthropology (3)
      ECON 201 Principles of Macroeconomics or
      ECON 202 Principles of Microeconomics (3)
      GEOG 103 World Regional Geography (3)
      HIST 101 Western Civilization (3)
      HIST 102 Western Civilization (3)
      HIST 131 United States History (3)
      HIST 132 United States History (3)
      POLS 101 American Government (3)
      FSYC 150 General Psychology (3)
      SOCO 260 General Sociology or
      SOCO 264 Social Problems (3)
      International subject to be selected from:
      ANTH 330, ANTH 410, ECON 320, ECON 420,
      HIST 331, HIST 332, POLS 365, POLS 370
   b. Required Primary and Secondary Areas of Study 27
      (1) Primary and Secondary Requirements
          Complete the Primary Area and Secondary Area requirements by selecting two academic disciplines from the following: Anthropology, Economics, History, Political Science, Psychology, Sociology
      (2) Primary Area Requirements
          18 credit hours, 15 of which are upper division. Any courses offered under the selected discipline may be chosen.
      (3) Secondary Area Requirements
          9 upper division credit hours in the discipline selected. Any courses offered under the selected discipline may be chosen.
   c. See faculty adviser for a program sheet detailing exact and complete requirements for the major.
   d. Electives 21
      If desired, a student may use electives towards satisfying requirements for a minor.
ASSOCIATE DEGREES OFFERED AT MESA STATE COLLEGE

Associate degrees offered at Mesa State College are the Associate of Arts (A.A.), Associate of Science (A.S.), and Associate of Applied Science (A.A.S.) degrees. As prescribed by the state, only one A.A. and one A.S. degree may be earned by a student. The various emphases currently defined and available for the student to choose under the A.A. and the A.S. degrees are listed below. A.A.S. degrees are also listed, as well as a certificate of completion. Other associate degrees and certificates are available through UTEC and may be found in the last section of this catalog.

Associate of Arts (A.A.)
- Art
- Business Administration
- Business Computer Information Systems
- Early Childhood Education
- English
- Humanities
- Music
- Office Administration
- Social Science
- Theatre

Associate of Science (A.S.)
- Biology
- Computer Science
- Engineering
- Geology
- Mathematics
- Physics

Environmental Restoration Engineering Technology (A.A.S.)
Legal Assistant (Certificate of Completion) Program requirements not listed:
- offered through Continuing Education—contact that office with questions.
Office Supervision and Management (A.A.S.)
- Accounting Technician
- Administrative Secretary
- Legal Secretary
- Medical Secretary

Radiologic Technology (A.A.S.)
Travel, Recreation, and Hospitality Management (A.A.S.)
ART
School of Humanities and Social Sciences

Associate of Arts

1. Associate of Arts graduation requirements (for further information, see section on "Degree Requirements" in this catalog).
   Minimum semester hours required: 63-66

   a. General Education  
      Cr. Hrs.
      34

   b. Human Performance and Wellness  
      2

2. Course requirements specific to this degree
   a. Required courses  
      Cr. Hrs.
      (3)
      ARTE 101 Two-Dimensional Design
      ARTE 102 Three-Dimensional Design
      ARTE 151 Basic Drawing
      ARTE 211, 212 Art History
      ARTE 2XX 200 level studios
      (6)
      (6)

   b. Electives  
      9

   Nine hours of electives chosen in consultation with art adviser.
   c. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
BIOLOGY
School of Natural Science and Mathematics

Associate of Science

Emphasis Requirements:
Study directed toward the Associate of Science degree will serve as a basis for the Bachelor of Science degree with the same discipline and also for other programs at Mesa State College and at other colleges. Faculty advisers will assist students in planning programs to meet requirements. Programs of study in the sciences are very sequential and advanced planning for the transition from an associate program to a baccalaureate program is imperative for economy of time and effort.

Minimum semester hours required: 62

1. Associate of Science graduation requirements (for further information, see section on "Degree Requirements" in this catalog)
   a. General Education
   b. Human Performance and Wellness

2. Course requirements specific to this degree
   a. Required courses
      BIOL 105, 105L Attributes of Living Systems and Laboratory (5)
      BIOL 106, 106L Principles of Animal Biology and Laboratory (5)
      BIOL 107, 107L Principles of Plant Biology and Laboratory (5)
      b. Additional courses in biology specialization should be selected in consultation with adviser.

3. Special requirements
   General Education and course requirements in discipline area plus electives chosen in consultation with the student's adviser up to the minimum of 62 credit hours comprise the requirements for this emphasis.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
BUSINESS ADMINISTRATION
School of Professional Studies

Associate of Arts

1. Associate of Arts graduation requirements (for further information, see section on “Degree Requirements” in this catalog)

   a. General Education
      ENGL 111 and 112 ...................................................... (6)
      SPCH 102 .................................................................... (3)
      Mathematics ................................................................... (3)
      Science ........................................................................ (4)
      Social and Behavioral Sciences (2 disciplines) .......... (9)
      Humanities .................................................................... (9)

   b. Human Performance and Wellness .................................................. 2

2. Course requirements specific to this degree

   a. Required courses

COMPUTER SCIENCE
School of Natural Sciences and Mathematics

Associate of Science

Study directed toward the Associate of Science degree will serve as a basis for the Bachelor of Science degree with the same discipline and also for other programs at Mesa State College and at other colleges. Faculty advisers will assist students in planning programs to meet requirements. Programs of study in the sciences are very sequential and advanced planning for the transition from an associate program to a baccalaureate program is imperative for economy of time and effort.

Minimum semester hours required: 65

1. Associate of Science graduation requirements (for further information, see section on “Degree Requirements” in this catalog)

   a. General Education                                      Cr. Hrs.
      33
   b. Human Performance and Wellness                        2

2. Course requirements specific to this degree

   a. Required courses

      CSCI 111    Computer Science I      (4)
      CSCI 112    Computer Science II     (4)
      CSCI 241    Computer Architecture I (3)
      CSCI 242    Computer Architecture II (3)
      CSCI 250    Data Structures         (3)

   17

3. Special requirements and recommendations

   a. It is recommended that a strong background in mathematics (at least Calculus sequence) be completed simultaneously.

   b. General Education and course requirements in discipline area plus electives chosen in consultation with the student’s adviser up to the minimum of 65 credit hours comprise the requirements for this emphasis.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
EARLY CHILDHOOD EDUCATION

School of Professional Studies

Associate of Arts

This curriculum will meet the needs of those presently employed in nursery schools or daycare centers and/or those contemplating work in early childhood education. Students will increase their understanding of the education and care of children. Successful students may find employment in private and cooperative daycare centers, nursery schools, children's homes, hospitals, etc. Students will have laboratory experience in the campus Early Childhood Education Center and other similar community facilities.

1. Associate of Arts graduation requirements (for further information, see section on “Degree Requirements” in this catalog)

   a. General Education

   The following courses satisfy those requirements and meet the needs of the Early Childhood Education program. Where no course is specified, students may select from the list of Associate of Arts general education requirements.

   ENGL 111 and 112
   SPCH 102
   Mathematics (*MATH 113 recommended; only courses listed under general education for the Associate of Arts degree satisfy the requirement) Science with lab
   Social and Behavioral Sciences
   Humanities

   *PSYC 150 and *SOCC 260 or *ANTH 201

   b. Human Performance and Wellness

2. Course requirements specific to this degree

   a. Required courses

   BIOL 203  Human Nutrition
   EDEC 110  Infant and Toddler Development and Curriculum
   EDEC 211  Curriculum in Early Education
   EDEC 220  Foundations and Legal Aspects of Early Education
   EDEC 299  Student Teaching in Early Ed
   ENGL 240  Children’s Literature
   PSYC 233  Human Growth and Development
   EDEC 250  Exceptionalities in Early Education

   b. Selected possibilities

   Choose 6 hours from the following:

   HPWA 256  Creative Play Activities—Dance
   THEA 213  Creative Play Activities—Drama
   ARTE 210  Early Childhood Art
   MUSA 241  Music & Methods in Early Ed

   First Aid/CPR must be taken through the Red Cross or Mesa State College

3. Electives

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

*These courses need to be taken by students seeking licensing for a preschool directorship and when taken as a general education, will fulfill both requirements.
ENGINEERING

2. Special requirements and recommendations

a. Application must be made for admission into the program. Admissions are limited. Students are selected on the basis of academic preparation, ACT/SAT scores, aptitude for service within the field, and the number of positions available in the program.

b. BIOL 141 and BIOL 141L are required courses that must be completed prior to admission into Radiologic Technology Program. Credit hours earned are not applied toward the degree requirements. A program applicant will have completed these prerequisite courses (or a program approved transfer equivalent) or may be enrolled in these courses when making application. If program admission is granted, it is contingent upon completion of BIOL 141 and BIOL 141L prior to beginning the program. Failure to complete these prerequisite course with a 2.0 or higher will terminate acceptance into the program.

c. RADT classes must be completed in sequence and may only be taken after acceptance into the program. General education requirements may be taken previously or simultaneously with program courses.

d. BIOL 141, BIOL 141L, and CSCI 100 must be completed before admission into the program. Any of the above courses not completed within the preceding 5 year period, must be repeated or competency proven by a challenge examination. Final approval of transfer and challenge examination courses is at the discretion of the Department of Nursing and Radiologic Sciences.

e. In order to continue in the program, students must have a 2.0 ("C") on a 4.0 scale or higher for all courses required for completion of the Radiologic Technology Program.
Recommendations
a. High school coursework in biology, physics, chemistry, algebra, geometry, or their college equivalent is recommended.
b. A pre-admission interview with a Radiologic Technology adviser is recommended.

3. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
SOCIAL SCIENCE (GENERAL)

Associate of Arts

Study directed toward the Associate of Arts degree will serve as a basis for the Bachelor of Arts in Social and Behavioral Sciences and also for programs offered in other schools at Mesa State College. Students should consult faculty advisers to plan specific programs that will prepare them for further study in disciplines of their choice.

Minimum semester hours required: 62

1. Associate of Arts graduation requirements (for further information, see section on "Degree Requirements" in this catalog)

   a. General Education 34 Cr. Hrs.
   b. Human Performance and Wellness 2

2. Course requirements specific to this degree

   a. Students must take a minimum of 18 hours of lower-division courses from one or more of the following disciplines:

      Anthropology  Economics
      History  Human Performance and Wellness
      Political Science  Psychology
      Sociology

   b. Those students wishing to concentrate in a specific discipline should consult with an adviser in that discipline or the Chairperson of the Department of Social Sciences.

3. Electives 8

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
THEATRE
School of Humanities and Social Sciences

Associate of Arts

1. Associate of Arts graduation requirements (for further information, see section “Degree Requirements” in this catalog).

   Minimum semester hours required: 65

   a. General Education 34
   b. Human Performance and Wellness 2

2. Course requirements specific to this degree
   a. Required courses
      THEA 141 Theatre Appreciation (3)
      THEA 142 Makeup (3)
      THEA 143 Costuming (3)
      THEA 151 Acting I: Beginning Acting or
      THEA 152 Stage Movement (3)
      THEA 243 Scene Construction, Painting, and Design or
      THEA 244 Beginning Lighting (3)
      Four credits from: Drama Performance 147, 148, 247, 248 and/or Play Production 117, 118, 217, 218 (4)
   b. Electives 10
      Ten hours of electives also must be chosen in consultation with the adviser.
   c. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
TRAVEL, RECREATION AND HOSPITALITY MANAGEMENT
School of Professional Studies
Associate of Applied Science

Minimum semester hours: 72

1. Course requirements for this degree

   a. ENGL 111 and 112 or 115

2. Electives
   Suggested courses:
   ACCT 202 Principles of Managerial Accounting (3)
   ECON 202 Principles of Microeconomics (3)
   Cr. Hrs.
   9

3. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
TEACHER EDUCATION AND EDUCATOR LICENSURE

Licensure to teach in public schools in the state of Colorado requires that a baccalaureate degree be earned and, additionally, that licensure be obtained. At Mesa State College, a student may prepare for licensure by earning a baccalaureate degree from among the discipline areas specified below for elementary, secondary, or K-12 licensure. In addition, a series of education courses must be completed, along with certain requirements of the state and the Mesa State College Teacher Education and Licensure Program. Students seeking licensure must:

1. Contact the secretary in the Teacher Education and Licensure Office, Albers Hall, to obtain an education information packet and to arrange for an initial interview with an education adviser. During the initial interview students will receive an overview program which must be signed by all advisers and students.

Teacher licensure is a separate process from the degree, although both may be pursued at the same time. The assistance of an adviser in the Teacher Education and Licensure Program is vital and the student needs to contact the department the first semester in his or her degree work. Following semesters require frequent visits to an education adviser to assure that requirements are being met, and/or to be registered for education courses.

2. Visit an academic adviser and obtain a program sheet for their academic baccalaureate degree from the appropriate School or department adviser. (Examples: B.S. in Mathematics with Elementary Teacher Licensure or B.A. in English with Teacher Licensure.) This program sheet should be obtained before the student begins work on his or her degree. The requirements on the program sheet must be met for the degree to be granted.

Information concerning requirements and courses of study are based upon current requirements of the State of Colorado and Mesa State College. Requirements are subject to frequent modification, therefore, students are advised to consistently maintain contact with the Teacher Education and Licensure Office.

ELEMENTARY EDUCATOR LICENSURE PROGRAM

Colorado Teacher Licensure and Elementary Education Endorsement (Kindergarten through Sixth Grade)

Following are the four components of the Mesa State College elementary teacher licensure program:

1. Professional Sequence of Coursework for Elementary Teacher Licensure

<table>

II. Academic Disciplines Approved for Elementary Teacher Licensure

- English
- Liberal Arts: Refer to specific program sheets and consult with the appropriate major adviser and with the Teacher Licensure Department.
- Mathematics
- Psychology
- Science
- Social Science

III. Requirements Specific to Elementary Teacher Licensure

All students are required to complete the general education requirements of Mesa State College. Following are specific courses necessary to satisfy requirements for teacher licensure:

- ENGL 111  English Composition
- ENGL 112  English Composition
- MATH 105  Elements of Mathematics I
- MATH 205  Elements of Mathematics II
- HPWA 260  School and Personal Health
- PSYC 233  Human Growth and Development
- SPCH 102  Speechmaking

IV. Additional Requirements for Teacher Licensure

Eligibility requirements for entry and formal admission to the Mesa State College Teacher Licensure Program are prescribed by the Colorado Department of Education and Mesa State College. Such requirements are generic in that all students seeking licensure and endorsement must complete them regardless of major, program area or chosen specialty. Examples of such requirements include a minimum grade point for English Composition and Speech, taking and passing the PLACE assessments experience, with youth, and a letter of reference. Each interested student should consult with advisors in both Teacher Licensure and his or her major area.
SECONDARY EDUCATOR LICENSURE PROGRAM
Colorado Teacher Licensure at the Secondary Level (Grades Seven through Twelve)

Students may seek licensure at the secondary level in the following endorsement areas: English, mathematics, science, and social studies. Consultation with advisers in both Teacher Licensure and in the major area is required to establish a comprehensive program.

| SPCH 102 Speechmaking                              | 3 |
ELECTIVES AND/OR MINORS

The unrestricted elective hours within the degree are selected by the student from the academic courses at or above the 100 level. These elective hours may be used to fulfill or partially fulfill requirements for a minor. Minors consist of 15-24 semester hours.

There may be prerequisites for the courses required for the minor which will increase the total number of credit hours for a student who has not already taken those prerequisites. It is required that a minor, if selected, be outside the major so as to encourage a secondary focus to broaden the scope of the educational experience.

A course taken to satisfy either a general education requirement or a major requirement can be counted toward the minor. (Double counting may not occur between general education and course requirements specific to a major). The number of minors a student may receive at Mesa State College shall not exceed two.

At least 33 percent of the credit hours required for the minor must be in courses numbered 300 or above. A GPA of 2.0 or higher in the minor is required.

Program sheets detailing requirements for the approved minors at Mesa State College are available from the office of the dean of the school in which the minor is offered.

Minors currently approved, along with the school in which they are offered, are:

**MINOR**

Accounting  
Administration of Justice  
Anthropology

COURSE DESCRIPTIONS

The course descriptions in this catalog indicate the content of the course and the prerequisites when applicable. Courses are listed in alphabetical order, by their four-letter prefix code, followed by a number and title. The number in parentheses at the end of the course title indicates the credit granted, in terms of semester hours, for each course. Generally, the number of semester hours is the number of hours a class will meet each week. Exceptions are noted in individual course descriptions and, in most cases, prerequisites and/or corequisites stated. In the detailed course descriptions, the course number after the prefix indicates the college year in which the courses should ordinarily be taken.

100-199 Freshman year
200-299 Sophomore year
300-399 Junior year
400-499 Senior year

Courses numbered 001-099 are preparatory in nature, not intended for transfer purposes, and may not be used to fulfill baccalaureate, associate of arts or associate of science degree requirements or electives. Preparatory courses may not be used to meet elective requirements in Associate of Applied Science or Certificate programs.

Many courses in the School of Natural Sciences and Mathematics include laboratory work. The class and laboratory portions of them are technically treated as different courses with distinctive numbers and individual grades. A student is usually required to be concurrently enrolled in both class and laboratory. Credit toward graduation cannot be earned for a class or laboratory unless credit is earned in both.

Courses identified as "Independent Study" are those beyond the scope of the required curriculum. General restrictions and regulations may be found under the Program section of this catalog (see "Independent Study" in the index). Specific regulations apply in certain disciplines, as well. Arrangements and permission must be obtained from the appropriate instructor and dean well in advance.

"Topics" courses are offered from time to time and contain material of special interest within a specific discipline not considered elsewhere in the curriculum. Prerequisites vary with course materials, and enrollment requires consent of the instructor.

Some courses/programs have additional expenses (i.e., calculator, medical equipment, etc.) above the standard cost of tuition, fees, and textbooks. Courses or programs with additional expenses will show the approximate cost in the program description or above the course description. Courses/programs with additional expenses less than $25.00 will not be included.

Mesa State College reserves the right to withdraw any program or course which is not justified due to lack of enrollment or availability of instructors. Other courses may be added if there is sufficient demand. In some programs, certain courses may be offered on an alternate year basis or as determined by demand.

Discipline Index

Subjects (disciplines) offered by Mesa State College are listed below alphabetically followed by the current course prefix, the page number of the individual course descriptions, and the school holding academic responsibility for the subject.

</tbody>
</table>
ACCT 421  CPA Review and Professional Preparation I  (1)
Professional résumé preparation and job interviewing skills through mock interviews performed by community professionals utilizing the media studio to videotape and critique the interview and résumé. Prerequisite: senior standing. (Fall)

ACCT 422  CPA Review and Professional Preparation II  (2)
Concentrated review of accounting subjects in preparation for the CPA exam. Utilizing self-study techniques. Prerequisite: ACCT 322 and 332. (Spring)

ACCT 441  Individual Income Tax  (5)
Individual Income Tax designed for BS in accounting degree candidates. Covers the Federal Income Tax Law in-depth as it relates to individual taxpayers. Introduction to various tax reference resources that deal with the subject. Limited enrollment. Prerequisite: ACCT 402, senior standing or consent of instructor. (Fall)

ACCT 442  Advanced Tax and Tax Research  (5)
Federal Income Tax Law for corporations, partnerships, estates, trusts, and gifts. In-depth experience with tax research resources, research methodologies and related projects. The student will be required to participate in the Volunteer Income Tax Assistance (VITA) program in order to acquire practical experience in communication with taxpayers and preparation of tax returns. Prerequisite: ACCT 441. (Spring)

ACCT 493  Cooperative Education  (3-12)
See description of ACCT 393.

ACCT 495  Independent Study  (1-3)

ACCT 496  Topics  (1-3)

ADMINISTRATION OF JUSTICE

School of Humanities and Social Sciences

ADJU 201  Introduction to the Administration of Justice  (3)
Philosophy, history and development of the American criminal justice system. Survey of the role of law enforcement agencies, the courts, jails, prisons, probation and parole in both juvenile and adult systems. Prerequisites: sophomore standing. (Fall)

ADJU 301  Justice Procedures  (3)
Analysis of landmark U.S. Supreme Court cases and their impact on operating procedures of law enforcement, the courts, jails, prisons, and allied agencies. Prerequisites: ADJU 201 and junior standing, and/or consent of instructor. (Spring)

ADJU 310  The Police Process  (3)
Basic features of policing in the United States. Police work, police organizations, police officers, and the critical problems facing policing today are examined in social and political context. Prerequisite: ADJU 201. (Spring)

ADJU 320  Corrections  (3)
The role of corrections in the criminal justice system: history, guiding philosophies and theories, treatment approaches, custody issues, and supervision of offenders on probation and parole. Prerequisite: ADJU 201, junior standing and/or consent of instructor. (Spring)

ADJU 395  Independent Study  (1-3)

ADJU 396  Topics  (1-3)

ADJU 420  Criminal Law  (3)
Philosophy, history and current state of criminal law with emphasis on analysis and application of Colorado statutes and the American Law Institute Model Penal Code. Prerequisite: ADJU 201, and junior standing. (Spring)
ADJU 495 Independent Study (1-3)
ADJU 496 Topics (1-3)
ADJU 499 Internship (1-4)

Provides the student with opportunities to apply theoretical principles in a structured organizational or work environment. Student must have prior instructor and site approval at least one semester in advance of the internship. The student must complete 45 clock hours for each one hour of credit. Prerequisites: senior status in Criminal Justice, GPA in Criminal Justice of 3.0, overall GPA of 2.75 and consent of instructor. (Fall)

ANTHROPOLOGY

School of Humanities and Social Sciences

ANTH 201 Cultural Anthropology (3)
Basic concepts of cultural anthropology including the theoretical perspectives, social and political institutions, ceremonies, and linguistics. Cultural change and cultural destruction are also included. (Fall/Spring)

ANTH 222 Prehistory (3)
Basic theory and methods will be described. Prehistory includes human origins, Stone Age hunters, domestication of animals, the rise of agriculture and the emergence of civilizations. (Fall)

ANTH 301 The North American Indian (3)
Cultural systems of the North American Indian including ideology, revitalization political history, and contemporary conditions. Case studies of selected groups will be emphasized. Prerequisites: ANTH 201. (Fall)

ANTH 310 Ethnographic Methods (3)
Theoretical, descriptive, and instructive aspects of qualitative social research including theoretical perspectives, field journalism, participant observation, interviewing, ethics, and research design. Students will conduct and discuss brief fieldwork in the community. Prerequisite: ANTH 201. (Spring)

ANTH 320 The U.S. as a Foreign Culture (3)
Study of the U.S. from an outsider's perspective, understanding and intellectually building upon foreign views of the U.S. Students will learn how to objectify and analyze U.S. culture in its many forms. Prerequisite: ANTH 201. (Alternate Fall)

ANTH 330 Religion and Culture (3)
Comparison of organized beliefs in the spiritual world and their relationship to the cultures in which they are practiced. Several theoretical perspectives will be emphasized. Prerequisite: ANTH 201. (Alternate Spring)

ANTH 340 Ethnopsychology (3)
Study of indigenous theories about emotions and cognition and a functionalist analysis relating traditional healing methods to the social and psychological aspects of illness. Prerequisites: ANTH 201 and PSYC 150. (Alternate Fall)

ANTH 350 Regional Study (3)
Specific geographical region will be described. History, politics, economics, ideologies, cultural traditions, and contemporary conditions will be discussed. Prerequisites: ANTH 201. (Alternate Fall)

ANTH 360 Gender and Culture (3)
Study of culturally ascribed roles based on sex, their symbolic basis, and the functionalist and conflict theory explanations for the forces giving rise to them. Prerequisites: ANTH 201. (Alternate Spring)

ANTH 370 Applied Anthropology (3)
Study of the application of anthropological principles in a holistic approach to technological development in other cultures. Topics include sustainable development, cultural preservation, advocacy, ethical and epistemological issues. Prerequisites: ANTH 201, 310. (Alternate Fall)
ANTH 380 Language and Culture (3)
Social, psychological, and epistemological aspects of language. Critical assessment of the use of language in writing about anthropology. Prerequisites: ANTH 201. (Alternate Fall)

ANTH 395 Independent Study (1-3)

ANTH 396 Topics (1-3)

ANTH 405 Global Systems (3)
Analyses from several perspectives of the effect of global systems on cultural change, particularly in non-state cultures. It emphasizes the significance of economy, polity, and ideology in both the global system and the non-state societies. Prerequisites: ANTH 201. (Spring)

ANTH 410 World Cultures (3)
Study of bard, tribal, chiefdom, and state societies from a variety of theoretical perspectives, also includes the study of contemporary cultural change in non-state societies. Prerequisites: ANTH 201. (Alternate Spring)

ANTH 495 Independent Study (1-3)

ANTH 496 Topics (1-3)

ART

School of Humanities and Social Sciences

The Most State College Art Department maintains and periodically displays a collection of student art work and reserves the right to retain one piece of work from each student enrolled in a studio class.

ARTE 101 Two Dimensional Design (3)
The principles of form and function in two dimensional design with emphasis on color theory and use. (Fee charged for some of the materials used.) One and one-half hours of lecture and three hours of studio per week. (Fall/Spring)

ARTE 102 Three Dimensional Design (3)
The principles of form and function in sculpture and other three dimensional design areas. (Fee charged for some of the materials used.) One and one-half hours of lecture and three hours of studio per week. (Fall/Spring)

ARTE 115 Art Appreciation (3)
Some of the hows, whys, and whos of painting, sculpture, and functional design in selected periods and places. (Fall/Spring)

ART SAMPLER COURSES These courses offer brief (sometimes on modular scheduling) introductions to one art medium. (2 hours studio)

ARTE 130 Fibers (On demand) (1)
ARTE 154 Ink Drawing (1)
Prerequisite: ARTE 151 or consent of instructor. (Spring)

ARTE 170 Printmaking (On demand) (1)
ARTE 192 Pastels (1)
Prerequisite: ARTE 151 or consent of instructor. (On demand)

ARTE 193 Airbrush (2)
Prerequisite: ARTE 151 or consent of instructor. (Fall/Spring)

ARTE 151 Basic Drawing (3)
Freehand drawing of figural and environmental subjects through perceptual exercises and common drawing media. (A model fee may be charged) Six hours of studio. (Fall/Spring)

ARTE 190 Mixed Media (2)
Water based media, such as ink, dye, watercolor (both transparent and opaque), acrylic and tempera are used in the creative process. Prerequisite: ARTE 151. (Fall)
ARTE 210  Early Childhood Art  (2)  Theory and practice of art education for young children through lecture, laboratory and practice teaching culminating in resources for teaching. One hour of lecture and two hours of laboratory per week. (Fall)

ARTE 211  Art History: Ancient-1300  (3)  A chronological study of the art and architecture of the prehistoric, ancient, and medieval worlds. (Fall)

ARTE 212  Art History: Europe 1300-1900  (3)  Chronological study of European painting, sculpture, and architecture from the Italian Renaissance to the beginning of the Modernist Period. (Spring)

ART PROCESSES AND MEDIA

These courses introduce traditional materials of the visual arts through studio experiences with lectures on theory and history of the media. (Fee charged for some materials.) One hour of lecture and four hours of studio per week.

ARTE 221  Metalsmithing  (3)  Prerequisite: ARTE 102 or consent of instructor. (On demand)

ARTE 231  Fibers  (3)  Prerequisite: ARTE 101 or consent of instructor. (On demand)

ARTE 241  Ceramics, Handbuilding  (3)  Prerequisite: consent of instructor. (Fall/Spring)

ARTE 242  Ceramics, Potter's Wheel  (3)  Prerequisite: ARTE 241 or consent of instructor. (Fall/Spring)

ARTE 271  Printmaking—Relief and Intaglio  (3)  Prerequisite: ARTE 101, 151 or consent of instructor. (Fall)

ARTE 272  Printmaking—Lithography  (3)  Prerequisite: ARTE 101, 151 or consent of instructor. (Spring)

ARTE 281  Sculpture—Modeling and Mold Making  (3)  Prerequisite: ARTE 102 or consent of instructor. (On demand)

ARTE 282  Sculpture—Foundry  (3)  Prerequisite: ARTE 102 or consent of instructor. (Fall)

ARTE 283  Sculpture—Carving and Construction  (3)  Prerequisite: ARTE 102 or consent of instructor.

ARTE 284  Ceramic Sculpture  (3)  Prerequisite: ARTE 102 or consent of instructor.

ARTE 291  Painting  (3)  Prerequisites: ARTE 101, 151, or consent of instructor. (Fall/Spring)

ARTE 292  Watercolor Painting  (3)  Prerequisites: ARTE 101, 151, or consent of instructor.

ARTE 251  Figure Drawing  (3)  Emphasis on the tradition of the human figure using contemporary concepts of composition and techniques, quality drawing tools, and surfaces. Nude models, bones, and anatomy charts as well as reproductions of the work of figurative artists are utilized. (A model fee will be charged.) One hour of lecture and four hours of studio per week. Prerequisite: ARTE 151 or consent of instructor.

ARTE 255  Visual Art Workshop  (1)  Intensive study of a selected art medium. Thirty hours of studio work. (Summer)

ARTE 261  Introduction to Computer Art  (3)  Basic concepts of computers as a Fine Art tool utilizing the Commodore Amiga computer. History, terminology, hardware, and hands on experience with emphasis on the creative process. Two hours lecture and two hours studio per week. Prerequisites: ARTE 101, 151 or consent of instructor. (Fall)

ARTE 300  Exhibitions and Management  (2)  The business of art including art law, studio management, sales practices, presentation of art work, conservation practices, and gallery design. One hour of lecture and two hours of laboratory per week. Prerequisite: junior or senior standing. (Fall)
ARTE 315  Modernist Art History (3)
Sequence of movements and schools of art from 1850 to 1950 including conditions and influences affecting art and the work of major artists, surveyed through slides and reading. Prerequisites: ARTE 211, 212 or consent of instructor. (Fall)

ARTE 316  Post Modern Art History (3)
Art of the second half of the 20th century including conditions and influences affecting art and the work of major artists, surveyed through slides and reading. Prerequisites: ARTE 211, 212, 315 or consent of instructor. (Spring)

ADVANCED STUDIOS
Specific media to be studied in a structured class, or a general studio including a variety of media and individually contracted work. One hour of lecture and four hours of studio per week. Prerequisites: ARTE 101, 102, 151, 211, 212, and at least three hours of the same Processes and Media at the 200 level.

ARTE 321  Metalsmithing (3)
Prerequisites: ARTE 151, 221. (On demand)

ARTE 341  Pottery Production (3)
Prerequisites: ARTE 241 or 102 and 242. (Fall/Spring)

ARTE 342  Intermediate Ceramics (3)
Prerequisites: ARTE 241, 242. (Fall/Spring)

ARTE 352  Drawing (3)
Prerequisites: ARTE 101, 251.

ARTE 371  Printmaking (3)
Prerequisites: ARTE 271. (Fall)

ARTE 372  Printmaking (3)
Prerequisites: ARTE 272. (Spring)

ARTE 381  Sculpture—Modeling and Moldmaking (3)
Prerequisites: ARTE 281. (On demand)

ARTE 382  Sculpture—Foundry (3)
Prerequisites: ARTE 282. (Fall)

ARTE 383  Sculpture—Carving and Construction (3)
Prerequisites: ARTE 283.

ARTE 384  Ceramic Sculpture (3)
Prerequisites: ARTE 284.

ARTE 391, 392  Painting (3-3)
Prerequisites: ARTE 291. (Fall/Spring)

ARTE 395  Independent Study (1-3)

ARTE 396  Topics (1-3)

ADVANCED STUDIOS
Specialized studio problems contracted by senior-level students preparing for graduate schools, culminating in a faculty examination of each student's portfolio and an exhibition of the student's work. Prerequisite: at least three hours in the same Advanced Studios at the 200 level. (6 hours studio)

ARTE 421  Metalsmithing (3)
Prerequisite: ARTE 321. (On demand)

ARTE 441  Glaze Calculation (3)
Prerequisite: ARTE 341. (On demand)

ARTE 442  Kiln Construction (3)
Prerequisites: ARTE 341 or 342. (On demand)

ARTE 452  Drawing (3)
Prerequisites: ARTE 352

ARTE 471  Printmaking (3)
Prerequisites: ARTE 371. (Fall)

ARTE 472  Printmaking (3)
Prerequisites: ARTE 372. (Spring)

ARTE 481  Sculpture—Modeling and Moldmaking (3)
Prerequisites: ARTE 381. (On demand)

ARTE 482  Sculpture—Foundry (3)
Prerequisites: ARTE 382. (Fall)

Ecology, pollution, drugs, sex education, disease problems, body structure and function, phylum relationships, plant growth and development. A student with a biology major will not receive graduation or general education credit for any of these courses. Three lectures and one two-hour laboratory per week. (Fall/Spring)

Cell structure and function, cell energetics and biochemistry genetics, ecology and evolution. Four lectures and one two-hour laboratory per week. High school chemistry recommended. (Fall/Spring)

Broad morphological, physiological, and ecological features of principal phyla of animals and relationships between them. Three lectures and two two-hour laboratories per week. Prerequisite: BIOL 103 or consent of instructor. (Spring)

Organisms traditionally assigned to the plant kingdom: bacteria, fungi, green-protoists, algae, and true plants. Morphology, reproductive biology, anatomy, and phylogeny of each group. Three lectures and two two-hour laboratories per week. Prerequisite: BIOL 108 or consent of instructor. (Fall)

Involves vigorous physical activity relating to survival in diverse situations including wilderness survival and survival of biological, nuclear, and chemical warfare. Excellent attendance is required. Three one-hour lectures per week, three overnight weekend field trips and several Saturday trips. (Fall)

Introduction to form and function of the human body. For students in human performance and wellness, nursing, paramedical students, and biology majors. Three lectures and two two-hour laboratories per week. (Fall)
BIOL 202  Cellular Biology
BIOL 202L  Cellular Biology Laboratory
Form, function, and bioenergetics of the cell. Three lectures and one two-hour laboratory per week. Prerequisites: BIOL 106, 107, or consent of instructor. (Spring)

BIOL 203  Human Nutrition
Introduction to the science of the effects of food on the body and the body's need for and utilization of essential nutrients. (Fall/Spring)

BIOL 211  Ecosystem Biology
BIOL 211L  Ecosystem Biology Laboratory
Ecological studies utilizing the concepts of population biology: energetics, dynamics, distribution, and sociology. Over-night and/or weekend field trips may be required. Four lectures and one three-hour laboratory per week. (Fall)

BIOL 221  Plant Identification
BIOL 221L  Plant Identification Laboratory
Identification of flowering plants through the use of regional floras and recognition of common plant families. Plant collection and herbarium techniques. Two lectures and two two-hour laboratories per week. Prerequisites: BIOL 107. (Fall)

BIOL 231  Invertebrate Zoology
BIOL 231L  Invertebrate Zoology Laboratory
Invertebrate phyla structure, physiology, classification, and life history. Work on an independent project is required. Three lectures and one two-hour laboratory per week. (Alternate Spring)

BIOL 241  Pathophysiology
Function of the human body with emphasis on interpretation of those functions in relation to disease processes. Prerequisite: BIOL 141 or 341. (Fall)

BIOL 250  General Microbiology
BIOL 250L  General Microbiology Laboratory
Microorganisms, especially the procaryotic bacteria: culture techniques, biochemical identification, and infectious human diseases. Three lectures and two two-hour laboratories per week. (Spring)

BIOL 301  Principles of Genetics
BIOL 301L  Principles of Genetics Laboratory
Principles of genetics at the organismal, cellular, and molecular level dealing with the genetics of prokaryotic and eukaryotic organisms and viruses. Three lectures and two two-hour laboratories per week. Prerequisites: BIOL 105 and MATH 113; BIOL 202 recommended. (Fall)

BIOL 310  Developmental Biology
BIOL 310L  Developmental Biology Laboratory
Embryonic growth and development of plants and animals. Also errors in normal development, cancer, aging, and related topics. Three lectures and two two-hour laboratories per week. (Alternate Spring).

BIOL 315  Epidemiology
Characteristic patterns of communicable disease occurrence as related to individuals, geographic location, and time; factors affecting disease occurrence, the nature of vital statistics, sampling procedures, and study design. An independent project is required. (Alternate Fall)

BIOL 320  Plant Systematics
Systematic botany encompassing principles of classification, nomenclature, and evaluation of current classifications of angiosperms. Prerequisites: BIOL 221. (Alternate Spring)

BIOL 321  Taxonomy of Grasses
BIOL 321L  Taxonomy of Grasses Laboratory
A study of the grass family and grass-like plants (sedges and rushes) dealing with the evolution, classification, and identification of these plants. Two lectures and two two-hour laboratories per week. Prerequisite: BIOL 107 or consent of instructor. (Alternate Spring)
BIOL 331  Insect Biology  (3)
BIOL 331L  Insect Biology Laboratory  (1)
Insect taxonomy, structure and function, relationships, ecology, physiology, and reproduction with emphasis placed on the role of insects in the biosphere. Insect collection required. Three lectures and one two-hour laboratory per week. Prerequisite: BIOL 106. (Alternate Fall)

BIOL 341  General Physiology  (3)
BIOL 341L  General Physiology Laboratory  (1)
Function of the circulatory, nervous, respiratory, digestive, urinary, reproductive, and endocrine systems of the human body. Three lectures and one two-hour laboratory per week. Prerequisite: BIOL 106 or consent of instructor. (Alternate Fall)

BIOL 342  Histology  (2)
BIOL 342L  Histology Laboratory  (2)
Microscopic study of tissues and organs. Two lectures and two two-hour laboratories per week. Prerequisites: BIOL 106 or BIOL 107 and consent of instructor. (Alternate Fall)

BIOL 343  Immunology  (3)
BIOL 343L  Immunology Laboratory  (1)
Immune system of animals with emphasis on human immune response. Includes the immune organs and both cellular and humoral responses. An independent research project is required. Three lectures and one two-hour laboratory per week. (Alternate Spring)

BIOL 387  Structured Research  (1-2)
Independent research beyond the scope of the published curriculum. Designed for advanced sophomore and junior level students to participate in research activities under the direction of a specific faculty member. Prerequisites: sophomore or junior standing, or consent of instructor. (Fall/Spring)

BIOL 388  Teaching Science in the Secondary School  (3)
Methods of teaching and construction of lessons and curricula. To be taken no more than two semesters before student teaching. Lesson presentation and numerous papers required. Required for secondary certification. (Spring)

BIOL 395  Independent Study  (1-3)

BIOL 396  Topics  (1-3)

BIOL 403  Evolution  (3)
Organismal and molecular evolution emphasizing its importance as the unifying theory in biology. Evolution of natural selection on genetic structure of populations. Prerequisites: BIOL 106, 107, 391, and junior standing. (Spring on demand)

BIOL 405  Advanced Ecological Methods  (3)
BIOL 405L  Advanced Ecological Methods Laboratory  (2)
Examination of quantitative methods in population, community, and ecosystems ecology. Extensive writing, computer work and field trips are required. Three lectures and two two-hour laboratories each week. Prerequisites: BIOL 105, 106, 107; STAT 311 is recommended. (Alternate Spring)

BIOL 406  Plant-Animal Interactions  (3)
Ecological, evolutionary, and applied approaches to the studies of herbivory, ant-plant interactions, pollination, and seed dispersal. Prerequisites: BIOL 105, 106, 107; BIOL 333 is recommended. (Alternate Spring)

BIOL 411  Mammalogy  (2)
BIOL 411L  Mammalogy Laboratory  (1)
Classification, life histories, and ecology of mammals. Overnight and/or weekend field trips may be required. Two lectures and one two-hour laboratory or three-hour field trip per week. Prerequisites: upper division standing or consent of instructor. (Alternate Fall)

BIOL 412  Ornithology  (3)
BIOL 412L  Ornithology Laboratory  (1)
Classification and life history of birds, including field identification. Overnight and/or weekend field trips required. Three lectures and one two-hour laboratory or three-hour field trip per week. Prerequisite: upper division standing or permission of instructor. (Alternate Spring)
### Course Descriptions

**BIOL 413**  
Herpetology  
(Classification, evolution, morphology and ecology of amphibians and reptiles. Overnight or weekend field trips may be required. Three lectures and one two-hour laboratory per week. Prerequisites: upper division standing or consent of instructor. (Alternate Spring))

**BIOL 414**  
Aquatic Biology  
(Classification, life history, and ecology of aquatic animals. Overnight or weekend field trips may be required. Three lectures and one two-hour laboratory or three-hour field trip per week. Prerequisite: upper division standing or permission of instructor. (Alternate Spring))

**BIOL 415**  
Tropical Ecosystems  
(Coral reef, rain forest, and arid desert ecosystems on Caribbean islands. Ten two-hour lectures, ten two-hour laboratories, and ten six-hour field trips conducted at the marine station and primate colony of the University of Puerto Rico. Prerequisites: one year of biological sciences and consent of instructor. (Semester break on demand))

**BIOL 416**  
Ethology  
(Mechanisms and evolution of behavior utilizing captive animals and field trips. Overnight field trips may be required. Three lectures and one two-hour laboratory per week and several field trips, possibly overnight. Prerequisites: BIOL 106, 107, and consent of instructor. (Alternate Spring))

**BIOL 421**  
Plant Physiology  
(Plant-water relationships, plant mineral nutrition, photosynthesis, plant growth and development at the molecular and cellular level to account for plant growth at the organizational level. Three lectures and two two-hour laboratories per week. Prerequisites: BIOL 107, CHEM 121 and also recommended CHEM 122. (Alternate Spring))

**BIOL 423**  
Plant Anatomy  
(Form, variability, and structure of the tissues comprising the body of the higher plant. Three lectures and two two-hour laboratories per week. Prerequisites: BIOL 107, 107L. (Alternate Spring))

**BIOL 425**  
Molecular Genetics  
(Nature and expression of genetic information at the molecular level in prokaryotic and eukaryotic organisms. Prerequisite: BIOL 301. (Alternate Spring))

**BIOL 431**  
Animal Parasitology  
(Principles of common and important parasites of domestic animals and man. Ecology, epidemiology, diagnosis, and control are discussed with examples from the Protozoa, Trematoda, Cestoda, Nematoda, and Arthropoda. A required laboratory project is required. Three lectures and one two-hour laboratory per week. (Alternate Fall))

**BIOL 441**  
Endocrinology  
(Anatomy and physiology of the endocrine system of vertebrates. Laboratory: emphasis on normal and abnormal endocrine functions. Three lectures and one two-hour laboratory per week. Prerequisite: BIOL 106 or consent of instructor. (Alternate Fall))

**BIOL 442**  
Pharmacology  
(Principles underlying absorption, distribution, metabolism, and excretion of drugs with emphasis on mechanisms of action and physiological responses. Prerequisite: BIOL 141 or consent of instructor. (Alternate Spring))

**BIOL 450**  
Mycology  
(Fungi, with emphasis on comparative morphology and development, classification, physiology, genetics, and ecological relationships. Emphasis will also be placed on the importance of fungi in industry, agriculture, and medicine. Two lectures and two two-hour laboratories per week. Prerequisites: BIOL 107 or consent of instructor. (Fall))
BIOL 482 Senior Research (2)
Designed to introduce students to appropriate procedures for conducting literature reviews, designing experiments, collecting and analyzing data, and preparing written and oral presentations of such experiments. Two lectures per week or equivalent. Prerequisites: senior standing, 2.80 GPA, and consent of instructor. (Fall)

BIOL 483 Senior Thesis (2)
Students prepare an in-depth thesis elaborating on a major conceptual issue(s) in biology. The purpose of the thesis is to ascertain the student's ability to collect a broad array of information and integrate this into a logical conceptual framework that traverses organizational levels of living systems. The thesis topic must be approved by the instructor. Prerequisites: senior standing and consent of instructor. (Spring)

BIOL 487 Independent Research (2)
Designed to provide students with research experience on a topic of their choice that can be completed in one semester. A detailed report in the form of a scientific journal article must be provided to the instructor. Topic must be approved and directed by a specific faculty member. Corequisites: BIOL 387 highly recommended. Prerequisites: BIOL 482 and consent of instructor. (Spring)

BIOL 495 Independent Study (1-3)
BIOL 496 Topics (1-3)
BIOL 494 Seminar (1)
Current problems, topics, and research procedures in biological sciences and medicine. Topics announced each semester. Prerequisites: sophomore standing and consent of instructor. (Alternate Fall)

BIOL 499 Internship (2,4,6,8,10)
Work experience obtained on a job where assignments are primarily biological projects. The amount of credit awarded is determined by the school based on the nature of the assignment. Prerequisites: biology major, senior standing with either a 2.80 GPA in major courses, completion of BIOL 482, or consent of instructor. (Fall/Spring/Summer)

American business system operations in the economy, business functions, and interrelations between the businessman and his environment. Prerequisites: Can be taken for credit only by students who have completed fewer than 15 credit hours of BUGB, ACCT, MANG, MARK, OFAD, TRAV, CISB, or FINA courses. (Fall/Spring)

Fundamental review of whole numbers, decimals, and fractions. Emphasis is placed on percentage applications to solving various business problems in the areas of buying and selling merchandise, inventory computations, interest computations on notes and savings, consumer credit and installment computation, home mortgage loans, and business depreciation computations. (Fall/Spring)

Development of a non-defensive, supportive, communication system effectively applied to interpersonal and written transactions within the business organization. Prerequisite: ENGL 111. (Fall/Spring)

Common types of protection offered by insurance, including fire, theft, comprehensive, life, automobile, accident, and health. Emphasis on application of insurance to individuals and small business firms. (Spring)
BUGB 231  Survey of Business Law  (3)
Application of law as it applies to employees and individuals not dealing with legal matters of organizations. Topics include contracts, agency law, personal property, business organizations and form, and commercial paper. Especially suited for non-business majors. Students contemplating or enrolled in a four year degree program should take BUGB 349. No credit allowed if credit already established in BUGB 351. (Spring)

BUGB 241  Income Tax  (3)
Personal income tax, including filling out personal tax returns, exemptions, determining taxable income, adjustments to gross income, itemized deductions, rental income, depreciation, capital gains and losses. Not for students with an accounting emphasis. (Spring)

BUGB 249  Personal Finance  (3)
Personal finance management, including income, personal budgeting, taxes, securing loans, consumer credit, insurance, buying a home, and an introduction to investment. (Spring)

BUGB 349  Legal Environment of Business  (3)
Legal framework of business including foundations of the American legal system, anti-trust law, property law, contracts and sales, negotiable instruments, agency relationships, torts, labor law, international business law and the social environment of business. Prerequisites: junior or senior standing or consent of instructor. (Fall)

BUGB 351  Business Law I  (3)
Contracts (formation, requirements, interpretation, discharge, and enforcement), agency law, and other contracting parties. Includes analysis of the concept of personal property and an introduction to the partnership form of ownership. Prerequisites: junior or senior standing or consent of instructor. (Fall)

BUGB 352  Business Law II  (3)
Corporate form of ownership, artificial persons doing business; Uniform Commercial Code as the primary law covering sales (terms of sales contracts, product liability, performance, and breach); commercial paper (instruments used as a monetary substitute, such as checks, drafts, and promissory notes); credit (security interests in real and personal property); and real property. Prerequisite: BUGB 351 or consent of instructor. (Spring)

BUGB 393  Cooperative Education  (3-12)
Cooperative Education provides students an opportunity to put their education to practical use in the workplace under the joint supervision of an employer participating in the Cooperative Education program and a faculty member designated by the institution. (See “Cooperative Education” in this catalog.)

BUGB 395  Independent Study  (1-3)
BUGB 396  Topics  (1-3)

BUGB 401  International Business  (3)
Current international topics in the disciplines of finance, management, and marketing. Concepts, analytical tools, and models are introduced to help explain the diversity and complexity of the international business environment. Prerequisites: senior standing. (Spring)

BUGB 493  Cooperative Education  (3-12)
See description of BUGB 393.

BUGB 495  Independent Study  (1-3)
BUGB 496  Topics  (1-3)

CHEMISTRY

School of Natural Sciences and Mathematics

CHEM 100  Chemistry and Society  (3)
Introduction to selected topics in chemistry. Nonmathematical approach with frequent lecture demonstrations and particular attention to chemical technology and its impact on society. (On demand)
CHEM 121 Principles of Chemistry (4)
CHEM 121L Principles of Chemistry Laboratory (1)
Introduction to fundamental principles of chemistry. Designed for students planning a major in science as well as students with a non-science major. Topics include atomic structure, bonding, periodic table, gas laws, mass relationships, solution theory, oxidation-reduction, electrochemistry, and ionic equilibrium. Four lectures and one three-hour lab per week. Prerequisite: mastery of high school algebra. (Fall/Spring)

CHEM 122 Principles of Organic Chemistry (4)
CHEM 122L Principles of Organic Chemistry Laboratory (1)
Introduction to the chemical and physical properties of selected classes of organic compounds. Four lectures and one three-hour laboratory per week. Prerequisite: CHEM 121 or 131 or one year of high school chemistry and consent of instructor. (Spring)

CHEM 131, 132 General Chemistry (4,4)
CHEM 131L, 132L General Chemistry Laboratory (1,1)
Fundamental principles of chemistry. Designed for students majoring in science. Topics include atomic structure, bonding, periodic law, kinetic theory, gas laws, stoichiometry, phase relationships, solutions, oxidation-reduction, electrochemistry, and equilibrium. Four lectures and one three-hour laboratory per week. Prerequisite: one year of high school chemistry and mastery of high school algebra. (Fall/Spring)

CHEM 151 Engineering Chemistry (4)
CHEM 151L Engineering Chemistry Laboratory (1)
Selected fundamentals of inorganic chemistry. Topics include stoichiometry, periodic law, bonding, gas laws, phase relations, solutions, electrochemistry, and equilibrium. Designed for students of physics and engineering (except chemical engineering). Four lectures and one three-hour laboratory per week. Prerequisite: MATH 113. Corequisite: CHEM 122 or 132. (Alternate Spring)

CHEM 211 Quantitative Analysis (3)
CHEM 211L Quantitative Analysis Laboratory (1)
Classical methods of analysis, treatment of experimental data, and the underlying logic of quantitative methods. Topics include gravimetric, volumetric, and potentiometric methods. Three lectures and one three-hour laboratory per week. Prerequisite: CHEM 132. (Fall)

CHEM 300 Environmental Chemistry (4)
Aquatic and atmospheric chemistry. Basic chemical, physical and biological properties of organic pollutants. Topics include smog formation, stratospheric ozone depletion, greenhouse gases, acid mine waste formation, biogeochemistry, and bioaccumulation of halogenated organics. Prerequisites: CHEM 122 or 132. (Alternate Spring)

CHEM 311, 312 Organic Chemistry (4,4)
CHEM 311L, 312L Organic Chemistry Laboratory (1,1)
Chemical and physical properties of the major classes of organic compounds. Three lectures and two three-hour laboratories per week. Prerequisite: CHEM 132 or consent of instructor. (Fall/Spring)

CHEM 315 Biochemistry (3)
CHEM 315L Biochemistry Laboratory (1)
Classical biochemistry concerned with the control of metabolism, the production of energy, the relationship of structure to function, carbohydrates, lipids, proteins, and nucleic acids. Three lectures and one three-hour laboratory per week. Prerequisite: CHEM 312/312L. (Spring)

CHEM 321 Physical Chemistry I (3)
CHEM 322 Physical Chemistry II (3)
Application of methods of physics to chemistry. Study of equilibrium properties of bulk matter, quantum theory with applications to molecular structure. Statistical mechanics used to understand the microscopic origin of thermodynamic laws. Calculations of macroscopic thermodynamic properties made from molecular properties. Connection made in kinetics between thermodynamics, quantum theory and statistical mechanics for study of time-dependent processes. Prerequisites: CHEM 132, PHYS 122 and MATH 152. (Fall/Spring)
CHEM 341  Advanced Laboratory I  (2)
CHEM 342  Advanced Laboratory II  (2)
Experiments from analytical, inorganic, organic, physical, and biological chemistry designed to show the application of theory to chemical problems. In addition to a list of possible core experiments, each student chooses other experiments according to individual interests. Two three-hour laboratories per week. Prerequisites: CHEM 211/211L; 312/312L; and 321. (Spring)
CHEM 395  Independent Study  (1-3)
CHEM 396  Topics  (1-3)
CHEM 411  Main Group Elements  (3)
A study of the periodic trends in non-transition elements. Topics include atomic and molecular structure, periodicity, acid-base relationships, and the descriptive chemistry of non-transition elements. Prerequisite: CHEM 322. (Alternate Fall)
CHEM 412  Transition Elements  (3)
A study of the periodic trends in transition elements. Topics include coordination compounds, symmetry and group theory, spectroscopy, and the descriptive chemistry of the transition elements. Prerequisite: CHEM 411. (Alternate Fall)
CHEM 421  Advanced Organic Chemistry I  (3)
Selected topics in organic chemistry are discussed in detail. Prerequisites: CHEM 312, 322. (Fall)
CHEM 422  Advanced Organic Chemistry II  (3)
Similar in content to CHEM 421, but without overlap in topics. CHEM 421 is not a prerequisite for 422. Prerequisites: CHEM 312, 322. (Spring)
CHEM 482  Senior Research I  (2)
CHEM 483  Senior Research II  (2)
A formal research project undertaken with the guidance of a faculty member. The results will be presented as a formal scientific paper in a format suitable for publication. (Fall/Spring)
CHEM 494  Seminar  (1)
Student, faculty, and other speakers present a variety of topics in chemistry and related fields. Prerequisites: Chemistry major with senior standing or consent of instructor. (Fall/Spring)
CHEM 495  Independent Study  (1-3)
CHEM 496  Topics  (3)

COMPUTER INFORMATION SYSTEMS

School of Professional Studies

CISB 101  Business Information Technology  (2)
Basic concepts of computers with focus on terminology, hardware, software, and implications of computers in today's world. Business use of computers including discussion of computer security, privacy of information, future implications, purchasing computers and software, and business application. (Fall/Spring)
CISB 104  BASIC Programming  (1)
Basic concepts of programming through use of BASIC language. Several BASIC programs will be written. Prerequisite: CISB 101 or equivalent. (Fall/Spring)
CISB 105  Introduction to Business Software  (1)
Current business software. Electronic spreadsheet, word processing, and database software at a beginning level. (Fall/Spring)
CISB 131  COBOL Programming  (3)
Writing programs in COBOL using modern methods of top-down, structured design. Emphasis placed on traditional business applications such as payroll, accounts receivable, and inventory control. Students learn to debug and document programs. Prerequisite: CISB 104 or consent of instructor. (Fall)
CISB 205  Advanced Business Software  (3)
Students become proficient through a combination of lecture, demonstration, and projects in the advanced use of electronic spreadsheets, word processing, and data base management software. Prerequisite: CISB 105, ACCT 202. (Fall/Spring)

CISB 295  Independent Study  (1-3)

CISB 321  Assembler Language  (3)
See CIS 321 for course description.

CISB 392  Management Information Systems  (3)
Use of computers by management as a tool to run businesses more effectively with particular attention to the advantages of using computers in each functional area of a business, problems associated with computerization of processing, and the systems approach to problem solution. An in-depth look at various types of information systems as well as the latest concepts, such as database management, decision support and end-user programming, allows the student to see the practical application of a computer based information system. Appropriate for all business majors. Prerequisites: ACCT 202. (Fall/Spring)

CISB 395  Independent Study  (1-3)

CISB 396  Topics  (1-3)

CISB 400  Data Communications and Network Management  (3)
Current technology in data communications and networks used in a business organization, including management of data communications and networks; hardware, media, and software; LANs; distributed data processing, telecommunications, current issues and future trends. Prerequisite: CISB 392 or consent of instructor. (Spring)

CISB 442  Systems Analysis and Design  (3)
Basic systems analysis tools and the procedures for conducting a systems analysis, including systems requirements, initial analysis, general feasibility study, structured analysis, detailed analysis, logical design, and the general systems proposal. Students gain practical experience through projects and/or case studies. Prerequisite: ACCT 202 and at least two programming courses or consent of instructor. (Fall)

CISB 451  Database Administration  (3)
Covers design and implementation of a Database Management System from a non-technical viewpoint. Recommended for business students with focus on business users in the design of the DBMS, control integrity, and security. DBMS implementation will be through hands-on use of an actual DBMS. Prerequisites: CISB 105, 442, ACCT 202. (Spring)

CISB 471  Advanced Information Systems  (3)
Follows CISB 442 and will integrate management information needs, decision making criteria, and design of manager/computer interactive systems. Computerized management control systems for all major functional modules of an organization will be investigated as well as computer simulations, data base management systems, distributed processing, and structured systems development. Prerequisites: ACCT 202. (Spring)

CISB 495  Independent Study  (1-3)

CISB 496  Topics  (1-3)

**COMPUTER SCIENCE**

School of Natural Sciences and Mathematics

CSCI 100  Computers in Our Society  (3)
The impact of computers on society and individuals; purpose and use of software integrated systems. Intended for students in disciplines outside the natural sciences and mathematics. (Fall/Spring)
CSCI 110  Beginning Programming:  (4)
Introduction to computer programming. Includes syntax and semantics for sequential, selection, and repetition structures, program design and modularization simple and structured data types, and file I/O. Designed for majors outside the scientific disciplines. "Subtitle" indicates language of implementation. Prerequisites: MATH 113 or consent of instructor. (Fall/Spring)

CSCI 111  Computer Science I  (4)
Introduction to problem solving techniques with emphasis on modularity, abstraction, analysis, and correctness of algorithm design. Using C/C++ language as a tool, topics covered include the full range of data types and control structures: text and binary file I/O; procedures and functions; units; and trees stacks and lists as abstract data types. Corequisite: MATH 119 or consent of instructor. (Fall/Spring)

CSCI 112  Computer Science II  (4)
Continuation of CSCI 111 with emphasis on algorithm design and analysis, procedural abstraction, data abstraction, and quality programming style. Topics covered include distinction between dynamic and static variables; various implementations of elementary stacks, queues, trees and lists; comparison of recursive and iterative algorithms; program correctness; and hierarchical design principles. Programming exercises will focus on modularity of design and data abstraction. Prerequisites: CSCI 111. (Fall/Spring)

CSCI 120  Technical Software  (3)
Microcomputer software used primarily for engineering. Introduction to symbolic mathematics language, word processing, spreadsheet, database management, and graphics. Prerequisite: MATH 113. (Fall/Spring)

CSCI 133  PASCAL Programming  (3)
CSCI 133L  PASCAL Programming Laboratory  (1)
PASCAL and the concepts of structured programming. Includes programming topics and techniques such as character manipulation, arrays, modular programming, searching and sorting techniques, files and records, and data structures. Three lectures and two one-hour laboratories per week. Prerequisite: MATH 113. (Fall/Spring)

CSCI 180  C as a Second Language  (4)
An introduction to the C programming language for students who are already experienced with another programming language. Basic syntax and semantics of C data types, control structures, file I/O, and library routines. Prerequisites: CSCI 111 or CSCI 133/133L or consent of the instructor. (Spring)

CSCI 241  Computer Architecture I  (3)
Architecture of a representative processor and its assembly language, introduction to hardware description language, register transfers and sequence control, realization of fetch, address, branch and execute cycles, start, stop and reset the computer, interrupt and memory mapped input-output, peripherals and interfacing. Prerequisite: CSCI 112. (Fall)

CSCI 242  Computer Architecture II  (3)
Computer classes and description using PMS or ISPS, description of a few commercial computers, computer arithmetic, binary/octal/hexadecimal number system, hardware for arithmetic operations including floating-point type, processor management, memory organization and schemes, input-output management, control unit and microprogramming, multi- and parallel processors. Prerequisite: CSCI 241. (Spring)

CSCI 250  Data Structures  (3)
Information representation, relationships between forms of representations and processing techniques, transformation between storage media, referencing of information as related to the structure of its representation, concepts of arrays, records, files, trees, list and list structure, sorting and search techniques. Prerequisite: CSCI 112. (Fall)

CSCI 321  Assembly Language Programming  (3)
Introduction to assembler, creating and executing assembly language program, organization of machine under study, data definition, addressing techniques, data movement instruction, branching instructions, flag and FSW registers, arithmetic instructions, macros and their implementation, hardware and software interrupts, storing instructions, typical applications. Prerequisites: CSCI 112. (Fall)
CSCI 330  Programming Languages
Algorithmic languages, declarations, storage allocation, subroutines, co-routines, and tasks. The principles and concepts which characterize various classes of high-level, computer-programming languages are covered as well as list-processing language development and use. Analyzes strengths and weaknesses of list processors: SNOBOL, IPLV, LISP, etc. Prerequisites: CSCI 250, 321. (Fall/Spring)

CSCI 333  UNIX Operating Systems
Introduction to systems programming with UNIX. Topics covered include elementary and advanced user commands, file handling, processes control, library routines, device drivers, shell programming, and UNIX utilities. Shell programming is a major part of the course. Prerequisites: CSCI 112 or knowledge of C++/C. (Spring)

CSCI 337  Advanced Applications and User Interface Design
Advanced program language constructs such as information hiding, operator and function overloading, and exception handling. Emphasis will be on applying these concepts to representation of graphical images and effective user interfaces in a Windows environment. Prerequisite: CSCI 112. (Fall/Spring)

CSCI 350  Software Engineering
Covers philosophy of software engineering, software project planning, requirement analysis, software system design and strategies, software design tools, program and system testing, system maintenance, and economics. Prerequisite: CSCI 111, 112, 250. (Spring)

CSCI 375  Object Oriented Programming
Advanced programming techniques using the object-oriented paradigm, with emphasis on abstraction of design, encapsulation, inheritance, and polymorphism. Additional topics include design tools and methodologies for determining classes, responsibilities, collaborations, and hierarchies. Prerequisite: CSCI 350, 337. (Spring)

CSCI 380  Operations Research
Methods of linear and dynamic programming, inventory and replacement models, queuing theory, game theory, PERT, CPM, and simulation. Prerequisites: MATH 152, STAT 200, CSCI 111. (Spring, odd years only)

CSCI 395  Independent Study
(1-3)

CSCI 396  Topics
(1-3)

CSCI 445  Computer Graphics
Use of the computer to produce images: one, two, and three-dimensional graphics; algorithms and data structures for hidden lines and surfaces; shading; and reflections. Prerequisites: MATH 265 and CSCI 250. (Fall)

CSCI 450  Compiler Structure
Structures and techniques used in compiler writing are discussed with emphasis on scanners, symbol tables, parsers and code generation. The front end of a recursive descent parser is written for the semester project. Error analysis and code optimization are discussed as time permits. Prerequisites: CSCI 241, 330. (Fall/Spring)

CSCI 460  Data Base Design
Design and implementation of data base systems. The network, hierarchical, and relational approaches to design, and the problems of security and integrity will be discussed. Prerequisite: CSCI 250. (Spring)

CSCI 470  Operating Systems Design
Aspects of computer operating system design and implementation including memory management, processor management, device management, information management and performance evaluation methods. Some knowledge of C is required. Prerequisite: CSCI 250, 321. (Spring)

CSCI 480  Theory of Algorithms
Techniques for analyzing time and space requirements of computer algorithms. Models are set up for analysis and techniques are applied to algorithms related to sorting and searching, pattern-matching, graph problems and other selected problems. The notion of NP-hard problems is introduced and related problems are discussed. Prerequisites: MATH 152, CSCI 250. (On demand)
CSCI 482   Theory of Computation (3)
Computation and automata theory introduced. Regular expressions, finite and pushdown
automata, Turing machines, grammars and their relationship to automata, Church-Turing hypothe-
sis, incomputable and undecidable functions and equivalence of computability models are
covered. Prerequisites: MATH 369, CSCI 250. (On demand)

CSCI 484   Computer Networks (3)
Topics include: computer technology for local and long haul networks, circuit and packet switch-
ing, interface between computer and network hardware, network architectures and protocols, rout-
ing, congestion and flow problems, queueing theory, and reliability issues. Instructors may choose
to implement a sample network in which case the contents may be particularized to that network.
(On demand)

CSCI 486   Artificial Intelligence (3)
Introduction to artificial intelligence programming with study of topics such as knowledge repre-
sentation, expert systems, solution space search, non-deterministic algorithms (neural nets, ge-
etic algorithms), etc. Programs will be written in a selected AI programming language such as
Lisp or Prolog. Prerequisites: CSCI 250, MATH 369. (Alternate Spring)

CSCI 494   Seminar (1-2)
Discussions of specialized topics by students, faculty, or visiting professors. One or two one-hour
meetings per week. (Fall/Spring)

CSCI 495   Independent Study (1-3)

CSCI 496   Topics (1-3)

DANCE

School of Humanities and Social Sciences

Academic

DANC 165   Dance Appreciation (3)
Exploration of the roots and trends of the art of dance from the primitive to the contemporary. In-
troduction of esthetic guidelines for looking at dance as it relates to America and the world.
(Spring)

DANC 170   Theory and Practice Modern Dance (1)
Theory and practice of modern dance. Prerequisites: HPWE 170 or consent of instructor.
(Fall/Spring)

DANC 175   Theory and Practice Modern Jazz Dance (1)
Intermediate principles of modern jazz dance including theory and technique. Prerequisite: HPWE
175 or consent of instructor. (Spring)

DANC 176   Theory and Practice Ballet (1)
Theory and practice of ballet. Prerequisite: HPWE 176 or consent of instructor. (Fall)

DANC 178   Theory and Practice Tap Dance (1)
Theory and practice of tap. (Fall/Spring)

DANC 253   Beginning Improvisation and Composition in Dance (3)
Theory and practice in basic principles of dance composition. (Alternate spring)

DANC 270   Theory and Practice Modern Dance (1)
Intermediate work in theory and practice of modern dance. Prerequisite: DANC 170 or consent of
instructor. (Fall)

DANC 271   Fundamentals of Modern Dance (2)
Exploration of the elementary principles of modern dance through the technical and academic
process. Prerequisite: DANC 170 or consent of instructor. (Fall)

DANC 275   Theory and Practice of Jazz Dance (1)
Intermediate theory and practice of jazz dance. Prerequisites: DANC 175 or consent of instructor.

DANP 470  Modern Dance Technique  
Intermediate/advanced modern dance technique. Prerequisite: DANP 370 or consent of instructor.  
(Spring, on demand)

DANP 475  Jazz Dance Technique  
Intermediate to advanced jazz dance technique. Prerequisite: DANP 375 or consent of instructor.  
(Spring, on demand)

DANP 497  Choreography Practicum  
Student practice in choreography and producing an original dance work. May be repeated once  
for credit. Prerequisite: DANP 397 or consent of instructor.  
(Spring, on demand)

DEVELOPMENTAL COURSES

DEVIL 090  College Success Strategies  
Instruction in effective study strategies for college such as note taking, test taking, critical reading,  
memorization, time management, controlling math anxiety, examining individual learning styles, and goal setting.  
For students who need and/or desire strategies and techniques designed to foster and promote successful independent college level learning.  
(Fall/Spring).

ECONOMICS

ECON 201  Principles of Macroeconomics  
3

ECON 202  Principles of Microeconomics  
basic concepts of economics. Courses must be taken in sequence and are not open to freshmen.  
(Fall/Spring)

ECON 301  Labor-Management Relations  
Organized labor movement, employer labor policies, collective bargaining, wages and wage regulation,  
employment and labor policy. Counts as management course for BBA candidates. Prerequisites: ECON 201, 202, or equivalent.  
(Spring)

ECON 310  Money and Banking  
Money, credit, and banking systems in the United States. Counts as management course for  
BBA candidates. Prerequisites: ECON 201, 202, or equivalent.  
(Fall)

ECON 312  Economic History of the United States  
Economic development of the United States and the nation's economic institutions from the colonial  
period to the present. Prerequisites: ECON 201, 202 or HIST 131, 132, or consent of instructor.  
(On demand)

ECON 320  History of Economic Ideas  
Development of economic analysis, thought, theories, and doctrines from the ancient world to  
recent times. Prerequisites: ECON 201, 202, or equivalent.  
(Fall)

ECON 342  Intermediate Macroeconomic Theory  
Factors determining the level and rate of growth of GNP, the inflation rate, and the employment  
rate. Policies that have been (or may be) used to influence these variables, and empirical evidences  
on the relationships among variables are studied also. Prerequisite: ECON 201, 202, or equivalent.  
(or consent of instructor.  
(Fall)

ECON 343  Intermediate Microeconomic Theory  
Problems of resource scarcity in a market economy. Emphasis is placed on analysis of resource  
allocation under different forms of competition. Covers theory of the firm, theories of market  
structure, efficiency, equity, and the application of public policy. Prerequisite: ECON 201, 202, or  
equivalent, or consent of instructor.  
(Spring)

ECON 395  Independent Study  
1-3

ECON 396  Topics  
1-3
ECON 491 Economic Organization and Public Policy (3)
Political economy of economic organization and public policy including analysis of the structure/conduct dimensions of industry and government institutions and their effects on resource allocation, income distribution, and economic performance. Antitrust, regulation, and other policies are treated concurrently. Counts as a management course for BBA candidates. Prerequisites: ECON 201, 202 or equivalent. (Spring)

ECON 410 Public Sector Economics (3)
Political economy of government finance including analysis of the effects of government revenue and expenditure policies on resource allocation, income distribution, and economic performance. Counts as a management course for BBA candidates. Prerequisite: ECON 201, 202, or equivalent. (Fall)

ECON 420 International Economics (3)
International trade theory and policy such as balance of payments analysis, international investment flows, and the position of the dollar in foreign exchange transactions. Prerequisites: ECON 201, 202, or equivalent. (On demand)

ECON 495 Independent Study (1-3)

ECON 496 Topics (1-3)

<td>An overall view of management concepts applicable in a variety of early childhood settings, as well as issues involving parents and parent involvement in the early childhood program. Course content focuses on management of programs and personnel, program development, fiscal administration, and current concepts of parent education and involvement. Prerequisites: EDEC 110, 211, 220. (Spring)</td>
<td></td>
</tr>
</tbody>
</table>
EDEC 297 Practicum (1,2)
Supervised experience working with children in child-care and day-care settings or in the Early Childhood Education Center. Accepted by the State Department of Social Services for licensing purposes. Scheduling is flexible. Prerequisite: consent of instructor. (Fall/Spring)

EDEC 299 Student Teaching in Early Education (5)
A full-time supervised teaching experience which allows the Early Education student the opportunity to apply previous course work, observations, and philosophies already gained. The student assumes the responsibility of teaching young children in a college lab setting. Daily evaluation and twice weekly seminars are required. Prerequisites: ARTE 210, EDEC 211, 220, 261, ENGL 240, HPWA 256, MUSA 241, THEA 213. (Fall/Spring)

EDUCATION—TEACHER LICENSURE
School of Professional Studies

EDUC 300 Foundations and Legal Aspects of Education (3)
A standards-based overview of history, philosophy, finance, organizational and curriculum patterns, and current and legal issues appropriate for the beginning education student. Three hours lecture per week plus three to four hours field experience for 15 weeks during semester. Prerequisites: PSYC 233, SPCH 102. (Fall/Spring)

EDUC 310 Teaching Diverse Populations (2)
Interdisciplinary, standards-based curriculum course focused on the socialization processes in pre-K-12 classrooms. Multicultural likenesses/differences which affect learning are explored through the use of multicultural teaching strategies and group discussions. Clinical observations as well as research investigations are expected for upper division credit, as are investigations into the educational components of public school teaching. Prerequisites: consent of an education adviser may be taken concurrently with EDUC 300. (Fall/Spring)

EDUC 311 Creative and Physical Expression for Children (3)
Facilitation of children’s creative and physical expression and problem solving in music, art, drama, games, movement and dance. Prerequisites: EDUC 300; with consent of an education adviser may be taken with EDUC 310. (Fall/Spring)

EDUC 320 The Developing Child in the School (3)
Standards-based applied educational psychology, preprimary through 12th grade. Prerequisites: EDUC 300; with consent of an education adviser may be taken concurrently with EDUC 310 and 311. (Fall/Spring)

EDUC 325 Orientation to Educational Technology (3)
Study of the role of technology in standards-based classrooms. Through active participation in lab and field-based activities, students will understand the integration of appropriate technology into the learning environment. Prerequisites: EDUC 300; with consent of an education adviser may be taken concurrently with EDUC 310, 311, 320, or 350. (Fall/Spring)

EDUC 350 Exceptionality in the Classroom (3)
Coursework providing information about various exceptionalities which include gifted and talented, abused children, ethnicity as it relates to exceptionalities. Prerequisites: EDUC 300; with consent of an education adviser may be taken concurrently with EDUC 310, 311, 320, or 325. (Fall/Spring)

EDUC 360 Teaching and Learning in the Secondary School (4)
Comprehensive coursework in secondary (middle school and high school) standards-based curriculum and classroom management. Provides the opportunity to associate theoretical approaches in teaching through reflective teaching, cooperative learning, case studies, modeling and/or microteaching. Prerequisites: EDUC 300, 310, 320, 325, 350 or consent of an education adviser. (Fall/Spring)

EDUC 380 Current Issues in Curriculum Development (3)
Interdisciplinary, standards-based curriculum course focused on the primary components of elementary level teaching. Prerequisites: EDUC 300, 310, 311, 320, 325, 350 or consent of an education adviser. (Fall/Spring)
EDUC 390  The Comprehensive Elementary Language Program  (4)
A broad, in-depth view of the reading-language program in a standards-based curriculum. Three
hours lecture per week and five hours field experience per week for ten weeks during semester.
Corequisites: EDUC 400, 401, and 404. Prerequisites: EDUC 300, 310, 311, 320, 325, 350 or con-
sent of an education adviser. (Fall/Spring)
EDUC 395  Independent Study  (1-3)
EDUC 396  Topics  (1-3)
EDUC 400  Learning Theories and Teaching Strategies in the Disciplines  (3)
Exposure to standards-based education and learning theories and their applications which are per-
tinent to social studies and science. Corequisite: EDUC 390, 401, 494. Prerequisites: EDUC 300,
310, 320, 325, 350, 380, 390 or consent of an education adviser. (Fall/Spring)
EDUC 401  Methods for Teaching Elementary Mathematics  (1)
Exploration of attitudes, communication, content, delivery, and assessment in the standards-based
classroom. Major emphasis will be on critical thinking, problem solving, patterns, and the use of
collaborative groups, thematic planning, and technology in math education. Prerequisites: MATH
105, 205. (Fall/Spring)
EDUC 405  Reading and Writing in the Content Area  (4)
Focus on teaching developmental writing and reading at the secondary level (middle school and
high school) within the content areas. Special emphasis is placed upon preparing lesson plans in
areas which expand reading and writing skills. Emphasis on which bring meaning to the printed
word and the logical connection between reading and writing within a standards-based curricu-
lum. Prerequisites: EDUC 300, 310, 320, 325, 350, 360 or consent of education adviser.
(Fall/Spring)
EDUC 494  Pre-Internship Seminar  (2)
Opportunity to research and study teaching and standards-based education in normal school set-
tings. One hundred hours internship. Corequisites: for elementary licensure only, EDUC 390, 400,
401. Prerequisites: completion of all requirements in the professional education sequence. Must
be taken one semester prior to EDUC 499. Consent of Director of Teacher Licensure Program.
(Fall/Spring)
EDUC 495  Independent Study  (1-3)
EDUC 496  Topics  (1-3)
EDUC 497  Practicum for Professional Educators: Elem/Sec/K-12  (1-6)
Designed for the practical application of previously studied theory. Credit is variable based on
complexity of study agreed upon with the education adviser. Prerequisites: consent of Director of
Teacher Education. (Fall/Spring)
EDUC 499A  Teaching Internship and Colloquium: K-2  (6)
Available for students who are pursuing ECE/ELED licensure and standards-based education: an
eight week experience. Colloquiums are included and required. Prerequisites: completion of all
coursework and requirements in the professional education sequence, all general education re-
quirements, all academically required coursework and the approval of the Director of Teacher Ed-
ucation. All PLACE assessments must be complete. (Fall/Spring)
EDUC 499B  Teaching Internship and Colloquium: 3-6  (6)
Available for students who are pursuing ECE/ELED licensure and standards-based education: an
eight week experience. Colloquiums are included and required. Prerequisites: completion of all
coursework and requirements in the professional education sequence, all general education re-
quirements, all academically required coursework and the approval of the Director of Teacher Ed-
ucation. All PLACE assessments must be complete. (Fall/Spring)
EDUC 499C  Teaching Internship and Colloquium: Elementary  (12)
A full-time supervised teaching experience designed to allow the intern the opportunity to apply
standards-based curriculum, and the theories and philosophies acquired in the professional edu-
cation coursework. Five colloquiums are included during this 15-week experience. Prerequisites:
completion of all requirements in the professional education sequence, all general education re-
quirements, all academic requirement coursework and the approval of the Director of Teacher Ed-
ucation. All PLACE assessments must be completed. (Fall/Spring)
EDUC 499D  Teaching Internship and Colloquium: Elementary  (6)
A supervised teaching experience available for students who are pursuing K-12 licensure and standards-based education: an eight-week experience. Five colloquia are included in the eight-week experience. Prerequisites: completion of all coursework and requirements in the professional education sequence, all general education requirements, all academic requirement coursework and the approval of the Director of Teacher Education. All PLACE assessments must be completed. (Fall/Spring)

EDUC 499G  Teaching Internship and Colloquium: Secondary  (12)
A full-time supervised teaching experience designed to allow the intern the opportunity to apply standards-based education and the theories and philosophies acquired in the professional education coursework. Five colloquia are included during this 15-week experience. Prerequisites: completion of all coursework and requirements in the professional education sequence, all general education requirements, all academic coursework and the approval of the Director of Teacher Education. All PLACE assessments must be completed. (Fall/Spring)

EDUC 499H  Teaching Internship and Colloquium: Secondary  (6)
A supervised teaching experience available for students who are pursuing K-12 licensure and standards-based education: an eight-week experience. Prerequisites: completion of all coursework and requirements in the professional education sequence, all general education requirements, all academic requirement coursework and the approval of the Director of Teacher Education. All PLACE assessments must be completed. (Fall/Spring)

ENGLISH
School of Humanities and Social Sciences

ENGL 090  Basic Writing  (3)
Basic writing skills for students who need more background for formal college writing or whose ACT score is lower than that required for admission to ENGL 111. (Fall/Spring)

ENGL 091, 092, 093  English Skills (Modular Concept)
For students who have specific deficiencies in one or more of the following: (On demand)

<table>
<thead>
<tr>

ENGL 111  English Composition  (3)
Effective communication through writing. Prerequisite: Students who do not meet placement criteria will be assigned to ENGL 090 and must pass that class with a "C" or higher to enroll in ENGL 111. (Fall/Spring)

ENGL 112  English Composition  (3)
Critical writing about literature, race. Prerequisite: ENGL 111 with a grade of "C" or higher to fulfill English competency requirement under General Education. (Fall/Spring)

ENGL 115  Technical Writing  (3)
Writing and research in business, science, and the professions. Prerequisite: ENGL 111 or consent of the instructor. (Fall/Spring)

ENGL 121  English Spelling/Vocabulary  (3)
Spelling improvement based on 600 most commonly misspelled words. Basic rules, pronunciation, and vocabulary with particular attention given to Greek and Latin roots, prefixes, and suffixes. (Spring)

ENGL 129  Honors English  (3)
Examination of readings and creation of persuasive essays, research papers, and critical analyses. This course fulfills the composition requirements (ENGL 111 and ENGL 112) for baccalaureate students whose ACT or SAT scores are high and whose writing skills are strong. Permission to enroll is required. Students must pass ENGL 129 with a grade of "C" or higher to fulfill English competency requirement under General Education. (Fall/Spring)

ENGL 131  Survey of Western World Literature I  (3)
Major works of Western literature from Classical periods. (Fall)

</tr>
</tbody>
</table>
ENGL 440  History of the English Language  (3)
Historical development of the English language; its internal formation as shaped by external political, social, and intellectual forces. Prerequisite: Junior or senior status or consent of instructor. (Fall)

ENGL 451  Structure of the English Language  (3)
Study of modern English through the use of structural techniques and linguistic principles. Prerequisite: Junior or senior standing or consent of the instructor. (Fall)

ENGL 455  Methods of Teaching English  (3)
Theory and practice of teaching English in the junior and senior high schools; current techniques, materials, and media for the teaching of composition, literature, and the English language. Prerequisite: senior standing in the teacher certification program. (Spring)

ENGL 470  18th Century British Literature  (3)
Conceptual framework of the Enlightenment in England's representative writers. Prerequisite: ENGL 254 or consent of instructor. (Alternate Fall)

ENGL 471  British Romanticism  (3)
Representative works of writers attempting to discover a higher reality than that offered by materialism or rationalism. Prerequisite: ENGL 255 or consent of instructor. (Alternate Spring)

ENGL 475  Victorian Literature  (3)
Representative works of post-Romantic British literature. Prerequisite: ENGL 255 or consent of instructor. (Alternate Fall)

ENGL 478  20th Century British Literature  (3)
Major works from 20th Century British writers. Prerequisites: ENGL 255 or consent of instructor. (Alternate Spring)

ENGL 492  Advanced Writing  (3)
Theory and practice of writing in a variety of genres and for a variety of audiences. (Fall/Spring)

ENGL 494  Seminar in Literature  (3)
Analysis of an important literary work or works, requiring students to interpret, criticize, and present research. Prerequisite: Senior standing or consent of instructor. (Fall/Spring)

ENGL 495  Independent Study  (1-3)

ENGL 496  Topics  (1-3)

ENGINEERING

School of Natural Sciences and Mathematics

TI-82 or TI-85 (preferred) or equivalent calculator is recommended or required for engineering classes. Cost is approximately $70.00-125.00.

ENGR 105  Basic Engineering Drawing  (3)
Fundamentals of computer-aided drafting and design. This is a foundation course for engineering-oriented students. Current engineering practice is emphasized, and computers are introduced as a tool for modern engineering design and drawing. (Fall/Spring)

ENGR 111  Engineering Graphics and Design  (3)
Basic problem-solving techniques used in engineering and the sciences. Topics include graphics, modeling, experimental methods, data analysis, value judgments, design processes, and decision making in realistic engineering situations. Prerequisites: MATH 130 and ENGR 105 or equivalents. (Spring)

ENGR 131  Mapping and Technical Graphics  (2)
ENGR 131L  Mapping and Technical Graphics Laboratory  (2)
Introduction to reading and interpreting maps and graphic documents used in technical fields. Also, students are provided with an introduction to modern concepts of surveying and data gathering methods. Two lectures and two two-hour laboratories per week. Prerequisites: MATH 091 or three years high school mathematics. (Fall)
Environmental Restoration

ENGR 251 Electronic Circuit Analysis (4)
ENGR 251L Electronics Laboratory (1)
Circuit analysis and modern electronics practice. Fundamental principles are applied to linear, time-invariant, lumped-parameter circuits. Electromechanical, thermal, and optical sensors are used with operational amplifiers in a variety of analog processing and wave shaping applications. Four lectures and one two-hour laboratory per week. Prerequisites: PHYS 132, 132L. Corequisite: MATH 260. (Spring)

ENGR 252 Circuit Analysis II (3)
ENGR 252L Circuit Analysis II Laboratory (1)
A continuation of ENGR 251. Time-domain analysis of RL, RC, and RLC networks is first examined, with particular attention given to their natural and step responses. Mutual inductance and transformers are studied. Finally, the Laplace transform is used in circuit analysis, along with frequency domain techniques for networks. Three lectures and one two-hour laboratory per week. Prerequisite: ENGR 251, 251L. (Fall)

ENGR 255 Thermodynamics (3)
The laws of thermodynamics applied to bulk matter. Examples are drawn from engineering, chemistry, biology, and physics. The role of the Second Law is emphasized, and applications range from engine performance to chemical reactions and phase changes. Free energy concepts are introduced and used throughout the course. Prerequisites: PHYS 131, 131L, MATH 152. (Fall)

ENGR 261 Statics and Dynamics I (3)
ENGR 262 Statics and Dynamics II (3)
A two-semester introduction to statics and dynamics for scientists and engineers. Newtonian mechanics is first used to study the static equilibrium of solids. The vector principles of statics are used to study forces, couples, and force systems. These principles are applied to the structural analysis of trusses, cables, joints, and frames. Frictional forces are examined. Centers of gravity, centroids, radii of gyration, and moments of inertia are utilized. The principle of virtual work is introduced. The kinematics and kinetics of particles, systems, and rigid bodies are investigated, along with the concept of impulse and the principles of momentum and energy conservation. Applications to rigid-body motion are emphasized. Vibrations of solid bodies are studied, along with resonance phenomena. Finally, the propagation of waves in simple mechanical systems is investigated. Prerequisites: PHYS 131, 131L for ENGR 261; ENGR 261 for ENGR 262. Corequisites: MATH 253 for ENGR 261. (Fall/Spring)

ENVIRONMENTAL RESTORATION

School of Natural Sciences and Mathematics

ENGS 101 Introduction to Environmental Science (3)
Impact of pollution on the earth's environment and biota. The basic scientific approach to solving environmental problems and the impact of politics upon this approach will be examined. General environmental awareness and literacy will also be emphasized. (Spring)

ENGS 110 Introduction to Environmental Restoration/Waste Management (3)
Introduction to the source, characteristics, and concerns of hazardous and radioactive materials in environmental systems. Examination of general approaches toward site assessment, risk analysis, site remediation, mine-land reclamation, and other issues pertinent to hazardous waste management. Development of environmental literacy is emphasized. Prerequisites: One year of high school chemistry and high school algebra or equivalent. (Fall)

ENGS 211 Hazardous/Radioactive Waste Management (3)
Handling, treatment, storage, disposal, and minimization of hazardous/radioactive wastes. Also, provides an overview of the environmental fate of contaminants along with their potential impact on ecosystems and human health via risk assessment. Prerequisites: ENGS 110 and CHEM 121 or consent of instructor. (Fall)
ENGS 212  Environmental Health and Safety (2)
ENGS 212L Environmental Health and Safety Laboratory (1)
Examination of environmental health and safety issues, risk assessment, control strategies, and implementation. Includes basic toxicology, personal risk assessment, and meets 40-hour OSHA training requirements for working on hazardous waste sites. Requires development of a site safety plan and use of personal protective equipment. Two lectures and one two-hour laboratory per week. Prerequisites: ENGS 110; sophomore standing (AAS degree); senior standing (BS degree) or consent of instructor. (Spring)

ENGS 213 Site Characterization (4)
ENGS 213L Site Characterization Laboratory (1)
Develop knowledge and understanding of the site characterization process, field and laboratory instrumentation, sampling procedures, data interpretation, and analytical laboratory operation and methods. Requires hands-on experience and characterization of an environmental system. Three 70-minute lectures and one three-hour laboratory per week. Prerequisites: ENGS 110, STAT 200. (Fall)

ENGS 214L OSHA Health and Safety Update (1)
Update of the 40-hour OSHA hazardous waste site certification and includes the OSHA supervisor training certification for hazardous waste sites. Prerequisites: ENGS 212L. (On demand)

ENGS 216 Risk Assessment and Site Remediation (3)
Examination of the overall remediation process. Topics include relationship of risk assessment to remediation, the overall approach towards selection and implementation of remedial technologies, available technologies and their effectiveness, and regulatory impact. Prerequisite: ENGS 211. (Spring)

ENGS 217 Environmental Law and Regulations (3)
A comprehensive course in environmental law and regulations, regulatory agencies, and how they influence the approaches to environmental restoration and waste management. Prerequisite: ENGS 110. (Spring)

ENGS 220 Environmental Field Instrumentation (2)
ENGS 220L Environmental Field Instrumentation Laboratory (1)
Practical aspects concerning the proper use of instrumentation commonly used in environmental assessments and for personal protection with emphasis on correct calibration procedures, routine maintenance and trouble-shooting, limitation and capabilities of instruments, applied theory of operation, quality control and data interpretation. Brief introduction to analytical methods and selection criteria. Two lectures and one three-hour laboratory per week. Prerequisites: ENGS 110, CHEM 121, and STAT 200 or consent of instructor. (Spring)

ENGS 250 Environmental Compliance (3)
Identification of specific and detailed environmental regulatory requirements for a variety of real-world situations including industrial production facilities, waste management facilities, release site cleanups, and federally funded activities. Administrative and technical aspects of achieving and maintaining environmental compliance examined. Roles played by regulators and private sector discussed. Case studies examined. Prerequisites: ENGS 217. (Fall)

ENGS 292 Capstone in Environmental Restoration (2)
Designed to evaluate and strengthen the student's knowledge of environmental restoration/waste management issues and refine communication skills. Major presentation required on a real environmental project. Employment opportunities also explored. Prerequisites: Sophomore standing (AAS) and one term prior to graduation. (Spring)

ENGS 296 Topics (1-3)

ENGS 312 Soil Properties and Characterization (3)
ENGS 312L Soil Properties and Characterization Laboratory (1)
General physical, chemical and biological properties of soils. The formation, characterization, and classification of soils will be presented. Applied discussions concerning environmental problems. Prerequisites: CHEM 132 and one semester of biology or consent of instructor. (Alternate Fall)
ENGS 315  Disturbed Land Rehabilitation  (2)
Mining techniques, other sources of land disturbances, reclamation legislation, reclamation techniques, and other practical considerations. The interface of hazardous waste sites and land rehabilitation will be discussed. Prerequisites: GEOL 111 and ENGS 312 or consent of instructor. (Alternate Spring)

ENGS 331  Water Quality  (3)
ENGS 331L  Water Quality Laboratory  (1)
Examination of physical, chemical, and biological properties of aquatic systems and the effects of common pollutants. Prerequisites: BIOL 105/105L, CHEM 132/132L, STAT 200, or consent of instructor. (Fall)

ENGS 340  Air Quality and Pollution Control  (3)
Examination of the fundamental principles that govern air quality, its pollution, and its management. Students develop an air emissions inventory using mass balance and emission factors methodologies. Prerequisites: CSCI 120, ENGS 217, MATH 113, or consent of instructor. (Fall)

ENGS 395  Independent Study  (1-3)

ENGS 396  Topics  (1-3)

ENGS 413  Environmental Fate and Transport of Contaminants  (4)
Factors influencing the transport of contaminants in the environment. How to predict its partitioning, and important parameters which can be used to diagnose its fate. Overview of environmental chemistry, physical influence, and waste properties. Usability and limitations of predictive models examined, along with simulation experiments. Requires use of computers. Prerequisites: ENGS 312, 312L, CSCI 120, MATH 119 or higher. (Alternate Spring)

ENGS 420  Environmental Instrumentation and Analytical Methods  (3)

ENGS 420L  Environmental Instrumentation and Analytical Methods Laboratory  (1)
Examination of analytical instrumentation and methods used to characterize environmental systems; fundamental theory of operation, limitations, and applicability of analytical instrumentation and methods. Emphasizes on data interpretation, regulatory implications, and QA/QC concepts. Three lectures and one-three hour laboratory per week. Prerequisites: CHEM 132, 311, STAT 200 or consent of instructor. (Spring)

ENGS 431  Water and Wastewater Treatment  (3)
Examination of water and wastewater treatment processes including physical, chemical, and biological treatment technologies. Emphasis on unit process design and modeling. Prerequisite: ENGS 331. (Spring)

ENGS 492  Capstone in Environmental Restoration/Waste Management  (2)
Current environmental restoration/waste management issues. Refinement of students' communication skills. Intended to broaden students' perspectives and knowledge using guest speakers and class discussions. Requires independent study to be presented in class. Prerequisites: senior standing or consent of instructor. (Spring)

ENGS 495  Independent Study  (1-3)

ENGS 496  Topics  (1-3)

ENGS 499  Internship  (3-9)
Work experience on a job directly related to environmental restoration projects or hazardous waste management. Requires a term paper, oral presentation describing the experience and at least 225 contact hours. Prerequisites: junior or senior standing in the Environmental Restoration/Waste Management program or consent of instructor. (On demand)

FINANCE

FINA 338  Fundamentals of Investments  (3)
Analytical approach to the investment environment, valuation of equity securities, portfolio theory and the analysis of investments other than equity securities. Prerequisite: MATH 121; junior standing or consent of instructor. (Fall)
FINA 339  Managerial Finance  (3)
Acquisition, allocation, and management of funds within the business enterprise. Financial goals, funds flow, valuation, capital budgeting, and financing strategies. Prerequisite: ACCT 202, MATH 121, STAT 214. (Fall)
FINA 395  Independent Study  (1-3)
FINA 396  Topics  (1-3)
FINA 439  Problems in Managerial Finance  (3)
Case studies and readings in financial management involving concepts, practices and techniques introduced and developed in FINA 339. Prerequisite: FINA 339. (Spring)
FINA 441  Theory of Financial Management  (3)
Financial theory pertaining to capital structure, dividend policy, valuation, cost of capital, and capital budgeting. Prerequisite: FINA 339. (Spring)
FINA 495  Independent Study  (1-3)
FINA 496  Topics  (1-3)

FINE ARTS

FINA 101  Man Creates  (3)
An interdisciplinary survey of human creative efforts as they relate to each other. Art, drama, and music are compared with similarities stressed. (Fall/Spring)
FINA 395  Independent Study  (1-3)
FINA 396  Topics  (1-3)
FINA 494  Seminar in Critical Analysis of the Arts  (3)
Theory and practice of arts criticism. (Fall)
FINA 495  Independent Study  (1-3)
FINA 496  Topics  (1-3)
FINA 499  Internship (8, 15)
Part or full-time work in various aspects of arts management. Sites may include galleries, musical, theatrical or other performing organizations, arts centers, or other situations that meet the instructor's approval. Half-time equals eight semester hours credit; full-time equals 15 semester hours credit. Prerequisite: junior standing in visual or performing arts. May also require selected courses in business, social science, etc. as appropriate to the internship sought. (Summer/Fall/Spring)

FOREIGN LANGUAGES

FRENCH

FLAF 111  First-Year French I  (3)
Introduction to the French language and culture. (Fall/Spring)
FLAF 112  First-Year French II  (3)
FLAF 251  Second-Year French I  (3)
Grammar review, vocabulary distinction, and readings in the French language. Prerequisites: two years of high school French, FLAF 111 and 112, or consent of instructor. (On demand)
GERMAN

FLAG 111  First-Year German I  (3)
FLAG 112  First-Year German II  (3)
Introduction to the German language. (Fall/Spring)

FLAG 251  Second-Year German I  (3)
FLAG 252  Second-Year German II  (3)
Grammar review, vocabulary distinction, and readings in the German language. Prerequisites: two years of high school German, FLAG 111 and 112, or consent of instructor. (On demand)

FLAG 290  Special Studies: German  (1.2)
Study beyond the scope of the existing curriculum.

SPANISH

FLAS 111  First-Year Spanish I  (3)
FLAS 112  First-Year Spanish II  (3)
Basic competency in understanding, speaking, reading, and writing. (Fall/Spring)

FLAS 114  Conversational Spanish I  (3)
FLAS 115  Conversational Spanish II  (3)
A beginning level class for adult students who wish to develop a basic vocabulary for speaking and understanding Spanish socially, on the job or south of the border. (Fall/Spring)

FLAS 117  Career Spanish I  (3)
FLAS 118  Career Spanish II  (3)
For students with or without prior knowledge of Spanish who wish to speak and understand the vocabulary and phrases most frequently encountered in the fields of air transportation, agriculture, automotive services, business, child care, education, engineering, geology, hotel, motel, restaurant and resort management, law enforcement, pre-dentistry, nursing, pre-medicine, ranching, retail sales, social work, and travel, recreation, and hospitality management. (Fall/Spring)

FLAS 251  Second-Year Spanish I  (3)
FLAS 252  Second-Year Spanish II  (3)
Reinforces and expands the four basic language skills developed in the first-year course and provides exposure to a wider variety of cultural materials and situations. Prerequisites: two years of high school Spanish, FLAS 111 and 112, or consent of instructor. (Fall/Spring)

FLAS 311  Third-Year Spanish I  (3)
FLAS 312  Third-Year Spanish II  (3)
Continuation of the study of Spanish with emphasis on improving speaking, reading, and writing skills. Reading content will include the literature, culture and history of Spain. Prerequisites: FLAS 251 and 252 or consent of instructor.

FLAS 336  Introduction to Hispanic Literature  (3)
An introduction to the concepts and principles found in Hispanic literature with an emphasis on culture, linguistic, and literary differences. Prerequisites: FLAS 252. (Alternate Spring)

FLAS 385  Advanced Grammar and Composition  (3)
A study of the specific components of Spanish grammar with particular emphasis on editing skills, stressing the actual writing of compositions, journals, letters, and some creative writing. Prerequisites: FLAS 252. (Alternate Fall)

OTHER LANGUAGES

FLAV 290, 290  Special Studies In Foreign Languages  (1-3)
These courses are currently offered through Outreach: Ancient Greek, Latin, Advanced French, German, Spanish and other Classical and Modern Languages as permitted by interest and instructor availability.

FLAV 395  Independent Study  (1-3)

FLAV 396  Topics  (1-3)

FLAV 495  Independent Study  (1-3)

FLAV 496  Topics  (1-3)
GEOGRAPHY

School of Humanities and Social Sciences

GEOG 103 World Regional Geography (3)
Survey of world geography by major world regions including an analysis of the physical elements, the inhabitants, and human occupancy patterns and an evaluation of the potential of each region for sustaining human populations. (Fall/Spring)

GEOLOGY

School of Natural Sciences and Mathematics

GEOL 100 Survey of Earth Science (3)
Physical makeup of the earth, its history, and geology. One field trip is required. Intended for students with majors other than one of the sciences. (Fall/Spring)

GEOL 103 Weather and Climate (3)
Non-mathematical introduction to elements of local and global weather: the atmosphere, cloud formation, precipitation, seasons, optical phenomena and violent storms. Students practice making 24-hour weather forecasts. (Fall/Spring)

GEOL 105 Geology of Colorado (3)
Introduction to minerals, rocks, geologic time scale and basic geologic terms, followed by geology of Colorado taught with the aid of movies and slides. A one-day field trip is required. (Fall/Spring)

GEOL 111 Principles of Physical Geology (3)
GEOL 111L Principles of Physical Geology Laboratory (1)
Materials that make up the earth and surface and interior processes that interact to produce the present features of the earth. Laboratory: minerals, rocks, topographic maps, earthquakes, and landforms. Three lectures and one two-hour laboratory per week. (Fall/Spring)

GEOL 112 Principles of Historical Geology (3)
GEOL 112L Principles of Historical Geology Laboratory (1)
Origin of the earth and life, changes recorded in rocks and fossils using the geologic time scale and techniques of dating to place events in sequence. Laboratory: topographic and geologic maps, hand samples of rocks, reconstruction exercises, and fossils to interpret regional and general geologic history. One all-day field trip is required. Four lectures and one two-hour laboratory per week. Prerequisite: GEOL 111 or consent of instructor. (Spring)

GEOL 202 Introduction to Field Studies (3)
Mapping of several small areas using plumb table and alidade, transit, and pace and compass methods. Profiles, cross-sections, and maps are prepared. Three lectures per week and some unscheduled time is required to do mapping projects. Prerequisite: consent of instructor. (Spring)

GEOL 203 Introduction to Environmental Geology (3)
Relationship of man to the geological environment through consideration of population, pollution, waste disposal, resource depletion, land use, governmental policy and natural hazards. One field trip required. (Fall/Spring)

GEOL 301 Earth Tectonics (3)
GEOL 301L Earth Tectonic Laboratory (1)
Descriptive geometry, occurrences of rock structures, principles of rock deformation, and origin of stresses. Laboratory: stereographic and graphical solution of structural problems, the study of maps and cross sections, and some field problems. Three lectures and one two-hour laboratory per week. Prerequisites: GEOL 111 and Math 130. (Fall)

GEOL 325 Introduction to Engineering Geology (3)
Geologic principles applied to construction problems; case histories of major projects. Field trips and term project required. Prerequisite: GEOL 111 or consent of instructor. (On demand)
GEOL 331 Mineral Studies (3)
GEOL 331L Mineral Studies Laboratory (1)
Morphology and classification of crystals; chemistry and genesis of minerals. Laboratory: identification of minerals and crystals by spectroscope, X-ray diffraction, and hand specimens. Three lectures and one two-hour laboratory per week. Prerequisite: CHEM 131 or consent of instructor. (Fall)

GEOL 333 Geology of the Grand Canyon (1)
Three two-hour evening lectures with films and slides used to preview the Grand Canyon and surrounding area. A strenuous backpacking trip is required to the bottom and out of the canyon. Prerequisites: GEOL 100, 105 or 112. (Spring break/on demand)

GEOL 340 Petrology (3)
GEOL 340L Petrology Laboratory (1)
Origin, composition, and classification of igneous, sedimentary, and metamorphic rocks. Laboratory: identification of rocks in hand specimens and some thin sections, and some analytical techniques. Three lectures and one two-hour laboratory per week. Prerequisite: GEOL 331. (Spring)

GEOL 351 Applied Geochemistry (3)
Geochemistry and its relationship to weathering and soils, geochemical surveys and prospecting techniques, reactions of contaminants with earth materials, and methods of reducing environmental degradation. Prerequisites: GEOL 111, 111L, CHEM 121, 121L, 122 and 122L. (On demand)

GEOL 359 Non-Metallic Mineral Deposits (3)
Origin, location, and economics of non-metallic geologic commodities, including phosphates, evaporites, oil, gas, coal, and sedimentary uranium deposits. Students give oral and written reports on two localities. Prerequisites: CHEM 131, 131L, 132, 132L or consent of instructor. (Alternate Spring)

GEOL 361 Metallic Mineral Deposits (3)
 Ore genesis, mineral associations, alterations, residual deposits, and placers deposits of minerals. Students give oral and written reports on two deposits. Prerequisites: GEOL 331, 331L, CHEM 131, 131L, 132, 132L or consent of instructor. (Alternate Spring)

GEOL 380 Field Studies (6)
Techniques used by the field geologist including section measuring, use of aerial photographs, plane table and alidade, and collection of samples. Data used to prepare geologic maps and reports. Students will camp out approximately three weeks during this course. Five-eight hour days per week. Prerequisites: GEOL 111, 112, 301, 331, 340. (Summer, alternate years)

GEOL 390 Computer Applications in Geology (3)
Quantitative methods of geologic data analysis with the data manipulated on the computer. Methodical approach with limited theoretical emphasis; statistical concepts; special programs for graphical presentation and analysis. Three lectures per week and computer laboratory time to complete exercises are required. Prerequisite: GEOL 111, 111L, 112, 112L, STAT 200 or consent or instructor. (Fall)

GEOL 395 Independent Study (1-3)

GEOL 396 Topics (1-3)

GEOL 402 Applications of Geomorphology (3)
GEOL 402L Applications of Geomorphology Laboratory (1)
Knowledge of landform genesis and shaping processes is applied to solve modern problems with emphasis on local soils, slopes, rivers, erosional surfaces, and structural framework. Laboratory and field studies used to explore frost, running water, slope movement, ground water, wind, and glaciers which have affected the local environment. Practical techniques of measurement and interpretation, including statistical and computer techniques, used to produce models of landscape development. A term project must be completed. Two major field trips are required. Four lectures and one two-hour laboratory per week. Prerequisite: consent of instructor. (Fall)

<tbody>
<tr>
<td>GRAR 215</td>
<td>Fundamentals of Computer Graphics</td>
<td>(3)</td>
</tr>
<tr>
<td></td>
<td>Basic use and operation of graphics computer, exclusively Macintosh, with focus on terminology, hardware, peripheral devices, system management, and software (systems and applications). Including establishment of operation files, job information files, information capture and placement, and maintenance. Note: GRAR 221 shall be taken concurrently with GRAR 215. (Fall)</td>
<td></td>
</tr>
</tbody>
</table>
GRAR 221 Graphic Layout and Design (3)
Principles of design and layout techniques, including thumbnail, rough, and comprehensive layouts: work planning and preparation of artwork with focus on computer and hand generated images. Note: GRAR 215 shall be taken concurrently with GRAR 221. Prerequisite: ARTE 101, 102, 151. (Fall)

GRAR 301 Computer Illustration Technique (3)
Focus on developing knowledge and skills to produce computer generated artwork, both black/white and color, including color separation camera ready art using software application programs primarily on Macintosh computers. Prerequisite: GRAR 215. (Spring)

GRAR 320 Letterforms and Typography (3)
Study of letterforms and typography including terminology, type style identification and design, use of type within a design, composition, copyfitting, and basic principles of pattern and spatial design. Prerequisite: GRAR 221. (Fall)

GRAR 337 Applied Illustration (3)
Using both computer and hand generated images, the focus will be on creating images that will solve client communications problems, including story, advertising, and specialty illustrations. Prerequisite: GRAR 221. (Spring)

GRAR 338 Advertising Design I (3)
Advanced study and production of designs and layouts with emphasis on advertising art; including computer generated images, selection of design elements with focus on color choice, image choice, and copy choice; client presentations and camera-ready images. Prerequisite: GRAR 221. (Fall)

GRAR 339 Advertising Design II (3)
Advanced study and production of designs and layouts with emphasis on corporate art; including image, forms, and signage created with computer generated applications, selection of design elements with focus on color choice, image choice, and copy choice; client presentations and camera-ready images. Prerequisite: GRAR 338. (Spring)

GRAR 395 Independent Study (1-3)

GRAR 396 Topics (1-3)

GRAR 437 Applied Illustration II (3)
Advanced study using both computer and hand generated images, the focus will be on creating images that will solve client communications problems, advertising, and specialty illustrations. Prerequisite: GRAR 337. (Spring)

GRAR 439 Advertising Design III (3)
Further study of advanced design and layouts with emphasis on corporate art; including image, forms, and signage created with computer generated applications, selection of design elements with focus on color choice, image choice, and portfolio quality pieces. Prerequisite: GRAR 339. (Spring)

GRAR 493 Portfolio Construction (3)
Assigned designed problems and development of items for assembly into a portfolio to be used as employment material. Prerequisite: GRAR 337, GRAR 338, GRAR 339. (Spring)

GRAR 495 Independent Study (1-3)

GRAR 496 Topics (1-3)

GRAR 499 Internship (3)
Placement in an agency or corporate department to provide an enhanced transition from the classroom to the work setting through first-hand experience. The student is expected to complete 135 clock hours. (Fall/Spring)

HIST 495  Independent Study  (1-3)
HIST 496  Topics  (1-3)

HUMAN PERFORMANCE AND WELLNESS
School of Professional Studies

ACADEMIC

HPWA 100  Health and Wellness  (1)
The presentation of information concerning the benefits, positive effects, assessment, and implementation of healthy lifestyles. (Fall/Spring)

HPWA 110  SCUBA Rescue Diver  (2)
Development of knowledge and skills to effectively perform diver rescues and assists, manage diving accident situations, and render proper first-aid. Offered through Continuing Education only. Prerequisites: HPWE 106, 107 or equivalent. (Fall, on demand)

HPWA 200  Introduction to Human Performance and Wellness  (2)
An orientation to the breadth, scope, nature, and history of the professional program in human performance and wellness. (Fall)

The following series of courses is designed to acquaint prospective physical educators and recreators with the skills, instructional procedures, techniques, progressions and officiating of selected sports normally taught in the public schools and played in recreational facilities.

HPWA 210  Methods of Archery (On demand)  (1)
Prerequisite: HPWE 119 or consent of instructor.
HPWA 211  Methods of Physical Fitness (Spring)  (2)
Prerequisite: HPWA 100
HPWA 215  Methods of Softball (Alternate Spring)  (1)
Prerequisite: HPWE 152 or consent of instructor.
HPWA 216  Methods of Flag Football (Alternate Fall)  (1)
Prerequisite: HPWE 166 or consent of instructor.
HPWA 217  Methods of Handball and Racquetball (Alternate Fall)  (1)
Prerequisite: HPWE 125 or consent of instructor.
HPWA 219  Methods of Ballroom Dancing (Alternate Fall)  (2)
HPWA 220  Methods of Folk and Square Dance (Alternate Fall)  (2)
HPWA 222  Methods of Basketball (Alternate Fall)  (1)
Prerequisite: HPWE 164 or 165 or consent of instructor.
HPWA 223  Methods of Volleyball (Alternate Fall)  (1)
Prerequisite: HPWE 162 or 163 or consent of instructor.
HPWA 224  Methods of Golf (Alternate Spring)  (1)
Prerequisite: HPWE 113 or 116 or consent of instructor.
HPWA 225  Methods of Tennis (Alternate Fall)  (1)
Prerequisite: HPWE 121 or 122 or consent of instructor.
HPWA 226  Methods of Badminton (Alternate Spring)  (1)
Prerequisite: HPWE 117 or consent of instructor.
HPWA 227  Methods of Track and Field (Spring)  (2)
HPWA 228  Methods of Soccer (Alternate Spring)  (1)
HPWA 229  Methods of Gymnastics, Stunts, and Tumbling (Fall)  (2)
HPWA 230  Methods of Aerobics Training (Alternate Spring)  (1)
HPWA 231  Methods of Bowling (Alternate Fall)  (1)
Prerequisite: HPWE 113 or 114 or consent of instructor.
HPWA 232  Methods of Wrestling (On demand)  (1)
Prerequisite: HPWE 145 or consent of instructor.
HPWA 233  Methods of Weight Training (Spring)  (1)
Prerequisites: HPWE 129 or HPWE 128 or consent of instructor.
HPWA 234  Prevention and Care of Athletic Injuries  (2)
Procedures and techniques involved in preventing and treating common injuries associated with competitive athletics. (Fall)

HPWA 247  SCUBA—Divemaster  (2)
The training of qualified SCUBA Rescue Divers as supervisory personnel. The Divemaster may serve as an underwater guide, or a supervisor of general diving activities and an instructional assistant during training. Offered through Continuing Education only. Prerequisite: HPWA 110 or equivalent. (Fall, on demand).

HPWA 248  PADI Assistant Instructor Course  (2)
Additional training for PADI Divemasters (or equivalent) as instructional assistants, providing them the opportunity to grow as professional diving educators. Offered through Continuing Education only. Prerequisite: HPWA 247 or equivalent. (Fall, on demand)

HPWA 250  Lifeguard Training  (2)
An American Red Cross course leading to certification of qualified students. (Fall)

HPWA 251  Water Safety Instructors Course  (2)
An American Red Cross course leading to certification of qualified students. (Spring)

HPWA 256  Creative Play Activities in Dance  (2)
Emphasis on creative movement exploration for children in dance through the Laban theories of body, effort, space, and relationship. (Fall/Spring)

HPWA 260  School and Personal Health  (3)
School and personal health problems with emphasis on the development of proper health attitudes and practices, and application of health knowledge and practice in school situations. Prerequisites: HPWA 100. (Fall/Spring)

HPWA 265  Standard First Aid and Cardio-Pulmonary Resuscitation  (2)
Knowledge and skills required to meet the needs of most emergency first aid and CPR situations. (Fall/Spring)

HPWA 297  Practicum  (1,2)
Supervised assistance with physical educators or recreation practitioners. (Fall/Spring)

HPWA 301  Tests and Measurements in Physical Education  (2)
Modern testing and evaluation programs applied to physical education including biological, neuromuscular, personal, social, and interpretive development. Prerequisite: HPWA 200. (Spring)

HPWA 302  Advanced Athletic Training Principles  (3)
Lectures and laboratory presentations relative to physical aspects of Sports Training, rehabilitation, nutrition, prevention, evaluation and injury management. The medical aspects of sports are emphasized. Prerequisites: HPWA 234, and BIOL 141 or consent of instructor. (Spring)

HPWA 307  Philosophy and Psychology of Coaching  (2)
Fundamental philosophical and psychological principles related to coaching competitive athletic teams. (Alternate spring)

HPWA 309  Anatomical Kinesiology  (2)
The mechanics of sport-related human movement through a study of selected physical, anatomical, and physiological factors affecting human performance. Prerequisites: BIOL 141, 141L, HPWA 200. (Fall)
The following is a series of course designed to acquaint students with fundamental techniques, movements, strategies, patterns, officiating, and ethics of selected competitive athletics. Prerequisites: comparable methods course for each or consent of instructor.

HPWA 310  Sports Theory/Officiating—Football (Alternate fall)  (2)
HPWA 311  Sports Theory/Officiating—Basketball (Alternate fall)  (2)
HPWA 313  Sports Theory/Officiating—Baseball and Softball (Alternate spring)  (2)
HPWA 314  Sports Theory/Officiating—Track and Field Events (Alternate spring)  (2)
HPWA 315  Sports Theory/Officiating—Volleyball (Alternate fall)  (2)
HPWA 320 Elementary School Physical Education (3)
The selection and instruction of physical activities for children including movement exploration and fundamentals, rhythms, stunts and tumbling, creative dance, low key and classroom games, and physical fitness. (Fall)

HPWA 350 Motor Development (3)
Study of life span motor development, age changes, maturity, gender, and individual differences. Prerequisites: HPWA 200. (Fall)

HPWA 365 Advanced First Aid (3)
Advanced knowledge and skills required to meeting the needs of most emergency situations. Includes monitoring vital signs, CPR for professional rescuer, childbirth, triage, and transport of victims. (Alternate spring)

HPWA 370 Biomechanics (2)
HPWA 370L Biomechanics Laboratory (1)
Applications of the principles of mechanics, physics, and mathematics to the analysis of sport activities, and the selection and teaching of motor skills through the application of methods and concepts of motion analysis. Primarily for physical educators, recreation therapists, and athletic coaches. Prerequisites: BIOL 141, 141L, HPWA 309, and MATH 110 or higher. (Spring)

HPWA 375 Organization and Administration of Physical Education and Sports (2)
Organizational structures and administration techniques in physical education and sports. (Fall)

HPWA 380 Adapted Physical Education (3)
Study of physical activity, its modification and adaptation for the individuals with disabilities. Prerequisites: HPWA 200, 350, or consent of instructor. (Spring)

HPWA 395 Independent Study (1-3)

HPWA 396 Topics (1-3)

HPWA 401 Legal Considerations in P.E. and Sports (2)
Introduction for Physical Educators, Coaches, and those who teach in the recreational setting to their legal duties and responsibilities. (Spring)

HPWA 403 Physiology of Exercise (3)
HPWA 403L Physiology of Exercise Laboratory (3)
The effects of various types of exercise upon human body structure and function. Prerequisite: HPWA 213 and BIOL 141, 141L. (Fall)

HPWA 404 Preparation for ACSM Health Fitness Instructor Certification (3)
Emphasis in fitness testing, designing and executing an exercise program, leading exercise, organizing and assisting with operation of fitness facilities. In addition, consultation practices for lifestyle change through multiple intervention strategies will be covered. Prerequisites: HPWA 403, 403L. (Alternate Spring)

HPWA 407 Curriculum Development in Physical Education (2)
Curriculum planning, implementation and evaluation for K-12 physical education programs. Prerequisite: HPWA 200. (Fall)

HPWA 408 Methods of Teaching Physical Education in Secondary Schools (3)
Instructional strategies on a practical application level for prospective secondary physical education teachers preparatory to entry into student teaching. Field experiences are required to supplement lectures and discussions. Prerequisites: completion of at least half of all physical education course-work required for certification. (Fall)

HPWE 415 Physical Activity and Aging (3)
The study of the dynamic relationship between physical activity and the aging process. Course focuses on the impact of physical activity on physiological, psychological, and social well-being of older adults. Prerequisites: HPWA 403, 403L. (Alternate Fall)

HPWE 473 Motor Assessment for Exceptional Students (3)
Measurement concepts and appropriate instruments for use in determining current levels of performance among students with special needs. Development of appropriate physical education programs based on assessment results. Prerequisites: HPWA 350 and 380. (Alternate Spring)
HPWA 480  Special Populations—Psychomotor Disabilities and Implications (3)
Designed to provide student with advanced knowledge concerning the relationship between disabilities and physical activity. A multidisciplinary approach to the etiology and functional implications of psychomotor disabilities. Prerequisites: HPWA 350 and 380. (Alternate Spring)

HPWA 494  Senior Seminar (1)
Opportunity for senior students to contribute and participate in discussion and research of current issues. (Spring)

HPWA 495  Independent Study (1-3)

HPWA 496  Topics (1-3)

HPWA 499  Internship (3-12)
Work experience obtained on a job where assignments are related to the student’s specific concentration area within the Human Performance and Wellness degree. Prerequisites: Human Performance and Wellness major, senior standing. (Summer/Fall/Spring)

ACTIVITY

The following courses meet the physical education requirement for graduation. All students seeking a baccalaureate must take HPWA 100 along with one course from the Aerobic Fitness list below and one additional course from either the Aerobic Fitness list or the Lifetime Activity list. All students seeking an associate degree must take HPWA 100 plus one course from the Aerobic Fitness list. Each activity course is scheduled for an eight-week module and includes lectures on the history, rules, and techniques of the activity and participation in the activity. Students are examined both on knowledge of the activity and proficiency in the activity. No HPWE courses may be used as electives toward any degree or certificate.

HPWE 186, 286, 386, 486  Varsity Softball

Human Performance and Wellness 183
Physical education courses numbered 180-189 designate the first year of varsity athletics; 280-289, the second; 380-389, the third; and 480-489, the fourth. These courses must be taken in sequence. In addition to the rules above for HPWE courses, the following apply:

Only one varsity sport activity course, numbered HPWE 180-189, may be used to meet the College physical education activity requirement.

A student may elect to register for a particular varsity sport class for credit as many as four times (once at each level).

Varsity sports activity credit at the 300 and 400 level may not be counted towards the forty (40) credit hour upper division requirement for graduation unless they are a required part of a degree program.

School of Humanities and Social Sciences

**HSER 301 Introduction to Human Services** (3)  
Exploration of human services agencies, programs, funding, philosophies, history, and career opportunities. Prerequisites: PSYC 150 and SOCO 260, 264, or consent of instructor. (Fall)

**HSER 310 Sex Role Identification and Human Sexuality** (3)  
Interdisciplinary study of sex role differences (stereotypes), sexual biology, cross-cultural comparisons of attitudes toward sexuality, trends in sexual morailities, sexual deviancy, and sexual dysfunctions and their treatment. Prerequisites: six hours of social science or consent of instructor. (Spring)

**HSER 395 Independent Study** (1-3)  
**HSER 396 Topics** (1-3)  
**HSER 495 Independent Study** (1-3)  
**HSER 496 Topics** (1-3)  
**HSER 499 Internship** (4)  
Regular weekly meetings on campus with a faculty supervisor in addition to an off-campus internship. Prerequisites: senior standing in the Bachelor of Arts program in Social and Behavioral Sciences and consent of instructor. Internship must be arranged for the semester prior to enrollment. (Fall/Spring)
HUMANITIES

School of Humanities and Social Sciences

HUMA 200 History and Development of Books (3)
History and development of the book from hieroglyphic texts to the present viewed in the context of changing technologies and various social, cultural, and economic influences. (Spring)

HUMA 201 Field Studies in Humanities (1)
Study/travel tours of varying lengths in the United States and foreign countries to acquaint students in some depth with particular aspects of world culture (language, the arts, literature, etc.) both contemporary and historical. (On demand)

HUMA 301 Field Studies in Humanities (3)
Prerequisite: junior or above standing. (On demand)

HUMA 395 Independent Study (1-3)

HUMA 396 Topics (1-3)

HUMA 495 Independent Study (1-3)

HUMA 496 Topics (1-3)

HUMA 499 Internship (8)
See faculty adviser for details. (On demand)

INTERDISCIPLINARY STUDY

School of Humanities and Social Sciences

INTR 400 San Juan Symposium (6)
An interdisciplinary study of regional biology, geology, and history, combining classroom study on campus with field study in the San Juan Mountains of Colorado. Elective credit only; may not be used to meet requirements of a discipline in Mesa State College degree programs. Prerequisites: upper division standing and consent of instructors. Not open to freshmen and sophomores. (Summer/on demand)

LEGAL ASSISTANT

School of Professional Studies

LEGA 198 Introduction to Legal Assistant (3)
Techniques and procedures needed by Legal Assistants nationwide. Provides a perspective of the person in the profession, seeks to develop ethics, moral, and professional standards, and enthusiasm and loyalty between employer and employee. Prerequisite: admission to the Legal Assistant Program. (Fall)

LEGA 200 Real Property (3)
Ownership and interests in land, including security interests; methods of determining who has an interest in property, such as title examination; types of interests which may attach other than complete ownership; documents relating to property interests and their preparation; and pleading, practice, and procedure. Prerequisite: admission to the Legal Assistant Program.

LEGA 202 Business Organizations (2)
Basic types or forms of businesses and advantages and disadvantages of each, including the documents and forms necessary to form each type of business organization. Organizations studied include proprietorships, partnerships, and corporations. Prerequisite: admission to the Legal Assistant Program.

LEGA 204 Decedent Estates (2)
Passage of title to property at death, by will, or otherwise. Estate planning and preparation of the basic document of transfer—the will; intestate succession, planning of estates, tax matters, probate, will contests, and the necessary pleadings, practice, and procedure. Prerequisite: admission to the Legal Assistant Program.
LEGA 206  Creditor's Rights (3)
Methods of debt collection and enforcement of judgments and basic practice in Federal Bankruptcy Court. Areas covered: bills, notes, and other debts securing judgment; enforcement of money judgments, liens, garnishments, Federal Bankruptcy, and necessary pleadings, practice, and procedure. Prerequisite: admission to the Legal Assistant Program. (Fall)

LEGA 207  Introduction to Law and Legal Research (3)
Theories of constitutional law, civil and criminal, statutory, court systems, pleadings, and forms; methods of research to locate written laws and court decisions; theories of tort, agency, contracts, and personal property. Preparation and pleadings for court use; legal ethics, general practice, and procedure. Prerequisite: admission to the Legal Assistant Program. (On demand)

LEGA 210  Litigation (3)
Introduction to the adversary system of justice and preparation for the graduate to assist attorneys in all aspects of civil litigation, including family law, from the initial client interview through pretrial discovery and motion practice to trial and post-trial motions and appeals. Students taking this course must be in the Legal Assistant Program. (On demand)

MANAGEMENT

MANG 121  Human Relations in Business (3)
Human side of organizations: morale, motivation, human needs, minorities as working partners, leadership styles, organizational environment, and other human forces having an impact on business structures. (Fall/Spring)

MANG 201  Principles of Management (3)
Management as the process of achieving organizational goals or objectives by and through others. Emphasizes functions performed by managers and how they are influenced by forces both within and outside the organization. Managers' use of resources will be investigated. (Fall/Spring)

MANG 221  Supervisory Concepts and Practices (3)
For practicing or potential supervisors and managers who hold or will hold front-line to middle-level management positions. Focuses on the management functions of planning, organizing, staffing, directing, and controlling and their relation to the daily job of the supervisor. (On demand)

MANG 300  Small Business Management (3)
Aspects of management uniquely important to small business firms; the economic and social environment in which they function. Prerequisite: MANG 201 or consent of instructor. (Fall)

MANG 301  Organizational Behavior (3)
Human behavior, its causes and effects in organizational settings. Description of and development of an understanding of human behavior in such settings. Prerequisite: MANG 201 or consent of instructor. (Fall)

MANG 302  Problems in Small Business Operations (3)
Analysis of managerial problems of small business; preparing a business plan, case studies, outside speakers, and individual reports of local small business enterprises. Students must have an understanding of elementary accounting, finance, and business law. Prerequisites: MANG 201, 300, MARK 231, or consent of instructor, and three hours of ACCT courses beyond 202. (Spring)

MANG 331  Quantitative Decision-Making (3)
Application of inferential statistics to realistic business situations; use of quantitative tools to enhance business decision-making ability. Descriptive statistics for data summarization, probability theory, distributions, estimation, and index numbers with emphasis on hypothesis testing, analysis of variance, regression/correlation, time series, and introduction to operations research and linear programming. Prerequisites: MATH 121 or 127, STAT 214. (Spring)

MANG 371  Human Resource Management (3)
Effective use and adaptation to the human resources of an organization through the management of people-related activities including interface activities forming the core of personnel management: work, staffing, compensation, appraisal, training, development, organizational maintenance, and unions. Prerequisites: MANG 201, junior or senior standing, or consent of instructor. (Fall/Spring)

- MANG 372: Legal and ethical issues in the pre-employment assessment and screening process. Topics include developing the job profile, developing the application form, developing the structured interview, interviewing techniques, and questioning techniques. Prerequisite: MANG 372. (Fall)
- MANG 401: A Small Business Institute program sponsored by the School of Business and Small Business Administration enables students to furnish management assistance to members of the small business community. Practical training, supplementing academic theory by handling problems in a real business environment. Students must apply at least six weeks before the end of the semester preceding the semester in which they wish to participate. Credit not available through competency or challenge. Prerequisite: MANG 302 and/or consent of instructor. (Fall)
- MANG 421: Consumer and commercial credit in relationship to the management of credit by business firms, legal aspects of credit extension and current legislation. Information on credit operations of business for both students of business and practicing businesses. Prerequisites: ACCT 202, MANG 201 or consent of instructor. (Spring)
- MANG 431: Study of Total Quality Management as it is used in public and private organizations, including theory and practice, teamwork, continuous quality improvement, and statistical process control. Prerequisites: MANG 201, MANG 301, and senior standing. (Fall)
- MANG 451: Principles and techniques involved in a job search with emphasis on conducting career research, identification of goals, preparing a job campaign, and elements of a job interview. Preparation of a job kit including a prospect list, resume, cover letter, advertisements, prospect letters, and sales and follow-up letters which can be used in a job search. Prerequisite: senior standing or consent of instructor. (Fall/Spring)
- MANG 471: The use of resources in producing goods and services; concepts of planning, scheduling, and controlling productive activities and physical resources. Prerequisites: MANG 331, FINA 339. (Fall/Spring)
- MANG 491: Duties and responsibilities of top management in establishing policies, objectives, and future plans for business organizations. Includes complex cases taken from actual experiences in situations involving policy decisions. Required of all BBA and BS accounting students. Prerequisites: all required core and emphasis concentration courses must be completed or concurrently enrolled and senior standing. (Fall/Spring)
- MANG 499: Opportunity to learn more about management functions and activities through exposure to an actual business or agency environment. Observation and participation in management activities enable students to relate classroom theory to on-the-job experiences. Students must apply for this course at least six weeks prior to the end of the semester preceding the semester in which they wish to take the course. Credit not available through competency or challenge. Prerequisites: BBA major, second semester junior or senior, and consent of instructor. (Fall/Spring/Summer)
### MARKETING

**MARK 231 Principles of Marketing**  
(3)  
Use and development of marketing strategy and the effects of buyer motivation. Major functions of marketing, buying, selling, distribution, pricing, advertising, and storage are studied. A contrast is made between the two marketing institutions: wholesaling and retailing. (Fall)

**MARK 232 Advertising**  
(3)  
Modern advertising principles including advertising practices, terminology, the communication process, advertising agencies, media, and methods. Advertising from the business viewpoint, its importance to the consumer and the economy. (Spring)

**MARK 235 Principles of Selling**  
(3)  
The salesperson as a counselor whose role is to help buyers make better decisions. Professional salesmanship is recognized as an integral function in modern society with basic sales techniques studied and practiced in sales presentations. Prerequisite: MARK 231. (Fall/Spring)

**MARK 325 Retailing**  
(3)  
The retailing environment including retail opportunities, sales stimulation, operating policies and practices, control and service. Case studies and outside speakers supplement class lectures. Prerequisite: MARK 231. (Fall)

**MARK 395 Independent Study**  
(1-3)

**MARK 396 Topics**  
(1-3)

**MARK 432 Advanced Marketing**  
(3)  
In-depth complex marketing problems confronting modern business. Development of marketing strategy to allow the firm to progress toward its corporate objectives. Prerequisite: MARK 231. (Fall)

**MARK 433 Marketing Research**  
(3)  
Marketing research theory and techniques designed to educate the student in the use of the scientific method, develop analytical ability, present basic marketing research tools, and develop proficiency in the art of writing research reports. Cases and actual research projects will be utilized. Prerequisites: MANG 331, MARK 432. (Spring)

**MARK 495 Independent Study**  
(1-3)

**MARK 496 Topics**  
(1-3)

### MASS COMMUNICATIONS

**MASS 101 Mass Media in America**  
(3)  
The role played by media in the everyday lives of citizens, and the economic impact on society. (Fall)

**MASS 221 Radio Production and Announcing**  
(3)  
Theory and operation of all technical equipment in a radio control room and studio. Develops voice and reading for broadcasting. (On demand)

**MASS 231 News Writing and Reporting**  
(3)  
Fundamentals of news gathering and writing, interviewing, reporting and writing of newsworthy events and personalities. Work begins on computer VDTs. Stories are submitted for publication and broadcast. Prerequisite: MASS 101 or consent of instructor.

**MASS 302 Photojournalism**  
(3)  
Photojournalism techniques to develop skills, comparable to that of the professional in Mass Media. Each student will develop a portfolio demonstrating a variety of photojournalism skills and prepare pictures for a show. Student furnish 35mm single lens reflex camera and materials. Prerequisites: MASS 101 and 231. (Fall)
MASS 321  Broadcast Writing  (3)
Techniques and practice in writing broadcast scripts, including news, advertising and documentary. Prerequisite: MASS 231 or consent of instructor. (Spring)

MASS 335  Public Relations Concepts  (3)
Historical and theoretical approach to contemporary public relations with emphasis on the persuasion process and ethics, propaganda, and advertising techniques in the mass media. Prerequisites: MASS 231 or consent of instructor. (Fall)

MASS 341  Editing, Layout and Design  (3)
News evaluation, copy reading, headline writing, page make-up, and similar duties of a publication copy editor using computer editing and make-up. Prerequisite: MASS 231 or consent of instructor. (Fall)

MASS 351  Public Affairs and Feature Reporting  (3)
Reporting on governmental agencies, including courts, police, city and county governments, school boards, and legislatures with emphasis on interpretative skills. Includes feature reporting, sports, human interest, and series articles. Prerequisite: MASS 231 or consent of instructor. (Spring/alternate years)

MASS 361  Television Production  (3)
Studio and control room operation as well as out-of-studio production, emphasizing video console equipment, cameras, microphones, and video editing. Prerequisite: MASS 221 or consent of instructor. (Spring/alternate years)

MASS 371  Mass Media Advertising  (3)
Designed to acquaint students with principles of mass media advertising. Study of advertising in perspective, advertising barriers, propaganda techniques, layout and design, and actual production for major media: newspapers, radio, and television. Includes work on computers. Prerequisites: MASS 231, 335. (Alternate Spring)

MASS 395  Independent Study  (1-3)

MASS 396  Topics  (1-3)

MASS 397  Practicum  (1)
Experience with campus media including publications and/or radio station under faculty supervision. Prerequisite: MASS 121, or consent of instructor. (Fall/Spring)

MASS 421  Journalism Law and Ethics  (3)
Ethical principles and state and federal laws affecting the reporting of news, expression of opinion, news photos, advertising, and publication of newspapers. Prerequisite: upper class standing or consent of instructor. (Fall)

MASS 435  Public Relations Campaigns  (3)
Campaigns and case histories presenting the scope of PR, research methodology, and audience targeting. Practical application of PR theory. Prerequisite: MASS 335 or consent of instructor. (Spring)

MASS 461  Advanced Television Production  (3)
Advanced techniques in television production with an emphasis on using ENG/EFP cameras in out-of-studio situations and in video editing. Production of short videos as well as studio productions required. Prerequisites: MASS 221, 321, 361. (Fall, on demand)

MASS 462  Advanced Producing Techniques  (3)
Study of the techniques of the video and television producer with 'hands-on' experience in producing industry videos as well as programs for public and commercial television. Prerequisites: MASS 361, 461. (Spring, on demand)

MASS 494  Seminar  (3)
Major issues of the media in modern culture and media criticism. Prerequisite: Upper division standing. (Spring)

MASS 495  Independent Study  (1-3)

MASS 496  Topics  (1-3)
MASS 497  Practicum
See MASS 397 course description.

MASS 499  Internship
Work in newspapers, radio, television, advertising or public relations positions, or other situations that meet instructor's approval. Prerequisite: MASS 231 and 421, plus either MASS 341 and 351, or 361. (Fall/Spring/Summer)

MATHEMATICS
School of Natural Sciences and Mathematics

TI-82 or TI-85 (preferred) or equivalent calculator is recommended or required for mathematics classes. Cost is approximately $70.00—$125.00.

MATH 090  Introductory Algebra
Introduction to algebra with a review of basic arithmetic. Includes decimals, fraction, percentage, ratio, proportion, signed numbers, algebraic expressions, factoring, exponents and radicals, linear equations, functions and graphs. (Fall/Spring)

MATH 091  Intermediate Algebra
Further study in topics of algebra. Includes properties of real and complex numbers; laws of exponents and radicals; factoring polynomials; solving linear and quadratic equations and inequalities; rational expressions and complex fractions; introduction to functions and relations; applications. Prerequisite: one year high school algebra or MATH 090. (Fall/Spring)

MATH 105  Elements of Mathematics I
Problem solving, sets, numeration systems, integers, number theory and rational numbers. The underlying mathematical processes and mathematical reasoning are stressed. Designed for the prospective elementary teacher. Prerequisite: interview and consent of instructor. (Fall/Spring)

MATH 110  College Mathematics
Essential concepts of mathematics for students in social sciences, psychology, nursing, etc. Topics include solving equations, graphing, sets, calculators, counting, probability, logic, geometry, summations, interest, annuities, and descriptive statistics. Prerequisites: two years of high school math at the algebra level or higher, or MATH 091 or equivalent. (Fall/Spring)

MATH 113  College Algebra
Systems of integers, rational numbers, real numbers, complex numbers, conic sections, linear and quadratic relations, exponential and logarithmic functions, functions and their graphs, systems of equations, higher-degree equations, and inequalities. Prerequisite: MATH 091 or two years of high school algebra. (Fall/Spring)

MATH 119  Precalculus Mathematics
Polynomials, exponential and circular functions, inverse functions, conditional equations, matrices, determinants, systems of equations, complex numbers, vectors, theory of equations, binomial theorem, and trigonometric functions. Prerequisite: MATH 113 or three years of high school mathematics or consent of instructor. Trigonometry recommended. (Fall/Spring)

MATH 121  Calculus for Business
Current college algebra skills are required. Linear and quadratic functions, limits and continuity, differential calculus, exponential and logarithmic functions and their derivatives, integral calculus, and partial derivatives. Applications in business and economics are emphasized for each major topic. All students will be required to have a graphics calculator as approved by the Department. Mathematical software such as MAPLE will be used where applicable. Prerequisite: MATH 113. (Fall/Spring)

MATH 127  Mathematics of Finance
Simple interest, simple discount, compound interest, continuously compounded interest, annuities, perpetuities, capitalization, determining payment size, determining outstanding principle, and constructing amortization schedules, including the derivation of mathematical formulae and the methods for solving many financial problems. Prerequisites: MATH 113 or consent of instructor. (Fall)

</tbody>
</table>
MATH 360  Methods of Applied Mathematics  (3)
Selection of techniques in applied mathematics of particular use to scientists and engineers. Topics include vector analysis, partial differential equations and transform techniques. Applications are stresses. Prerequisite: MATH 260. (Fall)

MATH 361  Numerical Analysis  (4)
Elementary numerical analysis using the hand-held programmable calculator including Taylor's theorem, truncating errors, iteration processes, least squares methods, numerical solution of algebraic and transcendental equations, systems of equations, ordinary and partial differential equations, integral equations, interpolation, finite differences, eigenvalue problems, relaxation techniques, approximations, and error analysis. Prerequisites: MATH 152. (Fall)

MATH 365  Mathematical Modeling  (3)
A bridge between calculus and the application of mathematics. Investigation of meaningful and practical problems chosen from experiences, encompassing the disciplines of mathematical sciences, operations research, engineering, management sciences and life sciences. Prerequisites: MATH 325, STAT 200. (On demand)

MATH 369  Discrete Structures I  (3)
Elementary logic, induction, recursion, recurrence relations, sets, combinatorics, relations, functions, graphs, trees, and elementary abstract structures. Prerequisites: MATH 151, CSCI 111. (Fall)

MATH 370  Discrete Structures II  (3)
Applications of logic, Boolean algebra and computer logic, abstract structures, coding theory, finite-state machines, and computability. Prerequisites: MATH 240, MATH 369 or both MATH 240 and CSCI 111. (Spring)

MATH 380  History of Mathematics  (3)
History of mathematics from antiquity to the present with emphasis upon the development of mathematics concepts and the people involved. Prerequisite: MATH 152. (Spring)

MATH 385  Modern Geometry  (3)
Classical Euclidean geometry of polygons and circles, synthetic geometry, constructions, inver- sive geometry, finite geometry, geometric transformations, and convexity. Prerequisites: MATH 240, 253. (Spring)

MATH 390  Abstract Algebra I  (3)
Mathematical induction, equivalence relations, classical group theory—including quotient groups and group isomorphisms and homomorphisms—and an introduction to rings and fields. Prerequisite: MATH 240. (Alternate Fall)

MATH 391  Abstract Algebra II  (3)
Topics in algebraic structures on groups, rings, fields, and modules. Prerequisites: MATH 390. (Alternate Spring)

MATH 395  Independent Study  (1-3)

MATH 396  Topics  (1-3)

MATH 420  Introduction to Topology  (3)
Important as preparation for graduate work in many areas of mathematics and theoretical physics. Introduction to general topology, topics normally covered include: metric spaces, connectedness, compactness, the separation axioms and the Tychonoff theorem. Intended for mathematically mature students. Prerequisite: MATH 325 or consent of instructor. (On demand)

MATH 450  Complex Variables  (3)
Algebra of complex numbers, analyticity, differentiation and integration of complex functions, Cauchy's integral formulae, and series. Prerequisite: MATH 240. (Fall)

MATH 452  Advanced Calculus I  (3)
Sequences, Euclidean spaces, limits of functions, continuity, differentiation, and integration. Prerequisite: MATH 240, 253. (Alternate Fall)
MATH 453 Advanced Calculus II (3) Uniform continuity, topology in metric spaces, normed linear spaces, the differential and Rn, Stone-Weierstrass Theorem, connectedness, compactness, complete metric spaces. Prerequisite: MATH 452. (Alternate Fall)

MATH 460 Linear Algebra II (3) Characteristics and minimal polynomial, Cayley-Hamilton Theorem, invariant subspaces, bilinear forms, primary decomposition theorem, dual vector spaces. Prerequisite: MATH 325. (Spring)

MATH 495 Independent Study (1-3)

MATH 496 Topics (1-3)

**MUSIC**

School of Humanities and Social Sciences

**ACADEMIC**

MUSA 110 Standard Notation (2) Basic components of written music: note reading, scales, key signatures, intervals, and fundamental rhythm and chord structures. Open to all students. May be required of music majors as prerequisite to MUSA 114. (Fall/Spring)

MUSA 114 Theory I - Introduction (3) Harmonic principles of the "common-practice" period including scales, intervals, triads and 7th chords. Introduction to part writing and voice leading. Prerequisite: satisfactory score on theory placement examination; concurrent enrollment in MUSA 116; concurrent enrollment in MUSA 130 or prior knowledge of the keyboard. (Fall)

MUSA 115 Theory II - Diatonic Concepts (3) Continuation of MUSA 114, extending to all types of diatonic 7th chords, and their usages. Includes advanced rules of tonal harmonization. Prerequisite: MUSA 114 or consent of instructor; concurrent enrollment in MUSA 117. Concurrent enrollment in MUSA 131 or prior knowledge of the keyboard is required. (Spring)

MUSA 116 Ear Training and Sight Singing I (2) Skills developed in reading rhythms, sightsinging, and listening. Emphasis on beginning melodic, harmonic, and rhythmic dictation. To be taken concurrently with MUSA 114. (Fall)

MUSA 117 Ear Training and Sight Singing II (2) Further development of skills in sightsinging, rhythmic recognition, advanced listening abilities, including dictation of melodic and harmonic intervals, chord progressions, and two, three, and four-part chorales. To be taken concurrently with MUSA 115. Prerequisite: MUSA 116. (Spring)

MUSA 128 Workshop in Music (1-3) Consists of specialized workshops in various aspects of music made possible by visiting artists and/or lecturers. (Fall/Spring, on demand)

MUSA 130 Class Piano I (2) For major and non-major students. Application of scales, chords and elements of music at the keyboard and development of repertoire. Recommended for all elementary, early childhood majors and music theatre majors. Prerequisite: MUSA 110 (music majors only). (Fall/ Spring)

MUSA 131 Class Piano II (2) The student gains further expertise at the keyboard. Prerequisite: MUSA 130 or consent of instructor. (Fall/Spring)

MUSA 137 Class Voice I (2) Fundamentals of singing, interpretation and solo repertoire for beginning voice students. (Fall)

MUSA 138 Class Voice II (2) Concepts of phonetics, language (diction for singers), and solo repertoire. Prerequisite: MUSA 137. (Spring)
MUSA 214  Theory III—Chromatic Concepts  (2)
The full use of chromaticism through secondary dominants, altered chords, Neapolitan and augmented sixth chords, and modulation techniques. Continues into 20th Century including the use of advanced chromaticism, serialism, and atonality. Prerequisite: MUSA 115. (Fall)

MUSA 215  Theory IV—Twentieth Century Form and Analysis  (2)
Study of various compositional approaches and techniques of the 20th Century, and correlated with the study of musical form. (Spring)

MUSA 216  Keyboard Harmony  (2)
Keyboard and theory skills applied to perform harmonization of a given line, transposition at sight, and open score realization and sightreading at the keyboard. Prerequisite: MUSA 214 and 230. (Spring)

MUSA 220  Music Appreciation  (3)
Masterpieces of music, composers, and performers useful for the music student who has a weak background in the Masters. (Fall/Spring)

MUSA 228  Workshop in Music  (1-3)
Consists of specialized workshops in various aspects of music made possible by visiting artists and/or lecturers. (Fall/Spring, on demand)

MUSA 230  Class Piano III  (2)
A concentrated study of repertoire in preparation for the piano proficiency exam. Maximum keyboard time will develop coordination and flexibility. Prerequisites: MUSA 130, 131, or consent of instructor. (Fall)

MUSA 232  String Instrument Techniques and Materials  (2)
Study of violin, viola, cello, and string bass in a class situation. Emphasis is on fundamentals of playing techniques at an elementary level. (Alternate Fall)

MUSA 233  Woodwind Instrument Techniques and Materials  (2)
Study of flute, oboe, clarinet, bassoon, and saxophone in a class situation. Emphasis is on fundamentals of playing techniques at an elementary level. (Alternate Fall)

MUSA 234  Brass Instrument Techniques and Materials  (2)
A concentrated course to develop a knowledge of the brass instruments and to acquire sufficient skill to demonstrate good tone, technique, and breath control. (Alternate Spring)

MUSA 235  Percussion Instrument Techniques and Materials  (2)
The study of methods and materials for teaching beginning percussion in the public school. Includes practical instruction on the instruments utilized in the marching band, orchestra, and stage band. (Alternate Spring)

MUSA 236  Electronic Instrument Techniques and Materials  (2)
The study of methods and materials for the introduction to the use of electronic instruments, including the areas of sound reinforcement (microphones and amplification) and sound generation (synthesis) by electronic means. (Alternate Spring)

MUSA 241  Music and Methods in Early Childhood Education  (2)
For students who will be working with preschoolers and kindergarten-age students. Through the creative process students develop simple tunes and gain knowledge and appreciation of music. (Fall/Spring)

MUSA 266  History of Popular Music  (3)
Differences in style, musical elements, lyrical content, and outstanding artists/writers in the areas of popular, rock, Country Western, and jazz idioms. Evolutionary aspects and social significance are introduced as background references. Guest lectures, class listening sessions, film strips, and music video augment the lecture sessions. Open to all students. (Fall/Spring)

MUSA 268  Improvisation  (2)
Materials and techniques for improvisation, including chord and scale construction, modality, harmonic patterns, linear concepts, with emphasis on technique, style and idiomatic usage. (Fall)

</tbody>
</table>
MUSA 361  Songwriting (1)
Basic skills for the songwriter including correct notation techniques, phrasing, line and climax, standard forms, harmonic and rhythmic idioms, lyrics and content, and preparation of lead sheets. Recommended prerequisite: MUSA 114, 256. (Alternate Fall)

MUSA 362  Commercial Arranging (1)
Elementary arranging skills including instrumentation, basic problems and principles of orchestration for various groups and functions, standard musical textures, standard voicing techniques, special harmonic practices and analysis of professional arrangements. Prerequisites: MUSA 236, 256. (Alternate Spring)

MUSA 395  Independent Study (1-3)

MUSA 396  Topics (1-3)

MUSA 410  Vocal Pedagogy (3)
The physiology of the human vocal mechanism, various teaching styles, vocal problems related to various age groups, and vocal repertoire pertinent to all age groups and levels of development. Prerequisites: MUSA 137, 138 or previous or concurrent enrollment in private vocal studies. (Alternate Spring)

MUSA 428  Workshop in Music (1-3)
Consists of specialized workshops in various aspects of music made possible by visiting artists and/or lecturers. (Fall/Spring, on demand)

MUSA 440  Teaching Vocal Music K-12: Methods, Principles, and Materials (3)
Training in concepts and materials necessary to teach standards-based vocal music in the public schools. Prerequisites: MUSA 137, MUSL 137, or MUSP 150 (Alternate Spring)

MUSA 441  Teaching Instrumental Music K-12: Methods, Principles and Materials (3)
Designed for standards-based music curricula for teaching instrumental music in the public schools. Activity will be centered on developing teaching competencies, administration of the music program, and methods, materials, equipment and technology needed for the instrumental music program. (Alternate Fall)

MUSA 450  Beginning Conducting (2)
Basic concepts and techniques necessary to conduct music competently. Students will be expected to master patterns, fermatas, dynamics, etc. Observation of other conductors and score study is included. Required of all music majors. Prerequisites: MUSA 327. (Alternate Fall)

MUSA 451A  Advanced Conducting, Instrumental (2)

MUSA 451B  Advanced Conducting, Choral (2)
More difficult techniques such as advanced meters, advanced score study, interpretive conducting and ensemble rehearsal techniques. Required of all music education majors. Prerequisites: MUSA 450. (Alternate Spring)

MUSA 495  Independent Study (1-3)

MUSA 496  Topics (1-3)

APPLIED MUSIC LESSONS

Applied music lessons may be taken for credit. Students meet weekly with an individual instructor assigned by the music department. An instructional fee is required, and lessons may be taken twice at each level. Music majors required to attend and perform at weekly recitals.

Applied music lessons are offered in the following:

MUSL 130, 230, 330, 430  Keyboard (Fall/Spring) (1-2)
MUSL 131, 231, 331, 431  Guitar (Fall/Spring) (1-2)
MUSL 132, 232, 332, 432  Strings (Fall/Spring) (1-2)
MUSL 133, 233, 333, 433  Woodwind (Fall/Spring) (1-2)
MUSL 134, 234, 334, 434  Brass (Fall/Spring) (1-2)
MUSL 135, 235, 335, 435  Percussion (Fall/Spring) (1-2)
MUSL 136, 236, 336, 436  Electronic Instruments (Fall/Spring) (1-2)
### Performing Arts

#### Fine Arts General Education for Non-Music Majors

Any MUSP class at the 100 or 200 level may be taken by non-music majors to satisfy the fine arts credit toward general education requirements. Each ensemble may be taken twice at each level; three semesters (3 credit hours) are needed to satisfy the Fine Arts requirement.

Performance ensembles may be taken twice at each level for credit.

</tbody>
</table>

An advanced smaller choral ensemble which performs vocal literature from Renaissance to contemporary art music including jazz. Chamber Choir performs on and off campus, on concert tours, and at the annual Madrigal Dinners. Staff and students are eligible by audition; membership in Concert Choir generally a prerequisite. (Fall/Spring)
MUSP 157, 257, 357, 457  Men's Chorus (1)
Campus-wide chorus open to all interested students and faculty. Performs all types of music written for combined men's voices. Concertizes in conjunction with other college choral ensembles and in separate performances on/off campus. Prerequisites: Consent of instructor. (Fall/Spring)

MUSP 158, 258, 358, 458  Women's Chorus (1)
Performances include the complete range of music written for combined women's voices, both on and off-campus, and in conjunction with the other college choral ensembles in Music Department concerts. Prerequisites: Consent of director. (Fall/Spring)

MUSP 159, 259, 359, 459  Vocal Jazz Ensemble (1)
Exploration of wide range of vocal literature. Performances given, both on and off campus. Prerequisites: Consent of instructor. (Spring)

MUSP 162, 262, 362, 462  Combo (1)
Interested students team up with a rhythm section in learning tunes and "head" charts, improving skills and making practical application of improvisation. (Fall/Spring)

MUSP 164, 264, 364, 464  Commercial Big Band (1)
A laboratory band which focuses on the swing styles of the 1940's big bands. Instruction in phrasing, interpretation, improvisation, tone production, and reading. Enrollment by audition; preference given to those enrolled in Symphonic Band. (Fall)

MUSP 395  Independent Study (1-3)
MUSP 396  Topics (1-3)

MUSP 420  Senior Recital (2)
Preparation for senior level recital in the student's performance medium with recital approved by the music faculty and recital given during the semester in which the student is registered for this course. Scholarly program notes covering historical aspects, theoretical issues, and/or performance considerations of the recital repertoire are required for the official printed senior recital program. (Fall/Spring)

MUSP 495  Independent Study (1-3)
MUSP 496  Topics (1-3)

NURSING

School of Professional Studies

Students may be required to purchase additional supplies and uniforms. Approximate cost is between $300.00-$500.00.

NURS 113  Nursing Concepts I (7)
NURS 113L  Nursing Concepts I Laboratory (2)
The concept of man as a system with focus on the holistic approach to nursing. Blends theory and practice including the scientific principles for basic nursing procedures and skills. The nursing process provides the method for practice of basic skills to individuals undergoing medical and surgical interventions to correct dysfunctions. Prerequisite: Acceptance into the AND program. (Fall)

NURS 123  Nursing Concepts II (5)
NURS 123L  Nursing Concepts II Laboratory (4)
Evaluation of common mental and physical dysfunctions experienced by patients of all ages, including those experiencing childbirth, with focus on identifying the input, output, and throughput when using the nursing process in providing care to patients. (Spring)

NURS 123  LPN-AND Bridge Course (3)
Designed to ensure that the licensed practical nurse graduate possesses the knowledge and skill to succeed in upper level associate degree courses. Introduction to selected content related to care of adults and the childbearing family. Clinical laboratory allows students to apply content. Previous nursing course credit will be held in escrow until successful completion of the course. Prerequisites: Graduation from a state approved licensed practical nurse program with evidence of a current license. Corequisite: NURS 210, 210L. (On demand)
NURS 201  Nursing Fundamentals
NURS 201L Nursing Fundamentals Laboratory
Theoretical foundations of nursing in the areas of communication, nursing process, and health care needs. Legal, ethical, economic issues influencing the professional nurse within the health care delivery system are examined. The learner develops selected interpersonal and psychomotor skills to assist individual clients in meeting their health care needs in a variety of settings. Prerequisite: acceptance into program and CPR certification Corequisites: NURS 202/202L, 203, 204. (Fall/Spring)

NURS 202 Health Assessment/Promotion
NURS 202L Health Assessment/Promotion Laboratory
Development of the knowledge necessary for completing an adult health assessment. History taking and physical assessment skills are utilized to develop appropriate interventions designed to assist clients with health promotion and lifestyle changes. Students explore principles of health promotion through the life span in a variety of settings. Prerequisites: acceptance in BSN nursing program or current RN licensure. Corequisites: NURS 201/201L, 203, 204. (Fall/Spring)

NURS 203 Nursing Pharmacology
Knowledge of medication therapy with the study of specific classifications, terminology, and drug administration issues. Utilizing the nursing process, principles of pharmacokinetics, pharmacodynamics, pharmacotherapeutics and toxicity of selected classifications are investigated. Theoretical content will be applied within the clinical component of each course throughout the program. Prerequisites: Admission to the BSN program or current RN licensure. Corequisites: NURS 201/201L, 202/202L, 204. (Fall/Spring)

NURS 204 Theories and Research
Examination of the history of professional nursing as a scientific discipline. Critical thinking and reasoning are utilized to evaluate selected nursing theories. The language and process of nursing research are introduced as a framework for making sound clinical judgments and functioning as a political advocate. Prerequisites: acceptance in BSN nursing program or current RN licensure. Corequisites: NURS 201/201L, 202/202L, 203. (Fall/Spring)

NURS 210 Nursing Concepts III
NURS 210L Nursing Concepts III Laboratory
General systems theory in evaluation of dysfunctions of all ages including the human adaptive capabilities throughout the life span and utilization of the nursing process. The impact on the child and adolescent is emphasized. (Fall)

NURS 230 Nursing Concepts IV
NURS 230L Nursing Concepts IV Laboratory
General systems approaches to patients throughout the life span; dysfunction of various sub-systems with emphasis on the psychological components of pain and the use of the nursing process. (Spring)

NURS 273 Issues in Nursing
AND Exit course exploring the effect of recent trends and issues while examining historical components of nursing. Students are encouraged to become aware of potential problems experienced during the transition from student to practicing nurse. (Spring)

NURS 314 Professional Transitions
Designed to facilitate the transition of the diploma and associate degree graduate to the professional practice of nursing at the baccalaureate level. Introduces selected concepts related to care of the adult client, the childbearing and childbearing families. Credit for previous completed nursing courses (with grades of C or better) will be held in escrow until this course has been successfully completed. Corequisites: NURS 335, 335L. (Fall)

NURS 325 Pharmacology in Nursing
Modern drug therapy with the study of specific classifications, terminology, theories, and techniques of safe administration. Prerequisite: concurrent enrollment in NURS 345, 345L or all of the following: 355, 355L and 365, 365L. (Fall)
NURS 335  Health Assessment (3)
NURS 335L  Health Assessment Laboratory (3)
Assessment of the health status, history taking, and physical examination of adults and children. Prerequisite: concurrent enrollment in NURS 345, 345L or all of the following: 355, 355L and 365, 365L. (NURS 335L for RNs only—on demand) (Fall/Spring)

NURS 345  Nursing Process I: The Adult (4)
NURS 345L  Nursing Process I: The Adult Laboratory (4)
Application of the nursing process in the care of individuals. Pathophysiological problems of moderate intensity and relative stability are explored. (Fall/Spring)

NURS 355  Nursing Process II: Expanding Family (3)
NURS 355L  Nursing Process II: Expanding Family Laboratory (2)
Study of cognitive, psychomotor and affective skills essential to the care of the expanding family. This includes nursing care of the woman and newborn and covers health care issues of women across the life span. (Fall/Spring)

NURS 361  Living with Loss (2)
Theories of attachment and loss applied to situational and maturational losses. (Alternate Spring)

NURS 362  Spiritual Aspects of Caring (2)
Theoretical approaches to man’s spiritual nature and the application of theories to the helping relationship. (Alternate Spring)

NURS 363  Women’s Health Issues (2)
Topics and issues that influence women’s health in contemporary society. Foundations of alternative health services are discussed. (Alternate Fall)

NURS 364  Ethics for Health Care Providers (2)
Discusses ethical dilemmas that occur in the provision of health care including Informed Consent, Quality of Life, Euthanasia, Allocation of Resources, The Right to Health Care, Genetic Engineering and Research on Human Subjects. Prerequisite: junior standing or consent of instructor. (Alternate Spring)

NURS 365  Nursing Process III: The Child (2)
NURS 365L  Nursing Process III: The Child Laboratory (2)
Health and illness needs of the child within the developing family. Pathophysiological and psychosocial dysfunctions of children and adolescents are explored. (Fall/Spring)

NURS 395  Independent Study (1-3)
NURS 396  Topics (1-3)

NURS 425  Nursing Process IV: Community Health (3)
NURS 425L  Nursing Process IV: Community Health Laboratory (2)
Orientation to community public health including a study of background, development and trends. Students apply community health principles in the care for individuals, families, and groups in a community setting. Prerequisite: completion of 300 level nursing courses. (Fall/Spring)

NURS 435  Nursing Process V: Mental Health (3)
NURS 435L  Nursing Process V: Mental Health Laboratory (2)
In-depth examination of psychosocial adaptive modes in relation to mental health maintenance and restoration; emphasis on psychosocial developmental theories, principles of communication and relationship development. Includes assessment of emotional disorders and psychotherapeutic interventions. Prerequisite: completion of 300 level nursing courses. (Fall/Spring)

NURS 443  Power and Political Dynamics in Nursing (2)
Political influences and social forces in history which impact nursing. The utilization of power and politics are analyzed as methods to further the potential of nursing. Topics include role conflict of the working woman, attitudes toward masculinity and femininity, finances and economy, networking, and keys of career success. (Alternate Spring)

<tr>
<td>NURS 462</td>
<td>Psychosocial Issues</td>
<td>(2)</td>
</tr>
</tbody>
</table>

Current psychosocial issues which affect individual, family and community systems. Behavior is viewed in the context in which it occurs, with emphasis on interactions between the client and his environment. Assessment of dysfunctions and facilitation of health promoting or restorative behaviors are discussed. Prerequisite: consent of instructor. (Alternate Fall)

<tr>
<td>OFAD 101</td>
<td>Bookkeeping for Small Business</td>
<td>(3)</td>
</tr>
</tbody>
</table>

For persons keeping accounting records in a legal, medical, or other professional office or those who will work in the accounting department of a small retail firm. Fundamental accounting principles including opening through closing a set of books. Not advised for four-year accounting majors. No credit allowed if credit already established in ACCT 201. (Fall/Spring)

</tbody>
</table>

Introduces word/information processing concepts, functions, and terminology; provides an overview of the document production cycle with related hardware and software; provides in-depth, hands-on experience with a leading microcomputer word processor. Such features as creating a document, revising, formatting, paginating, merging, document assembly, disk management, and other relevant features will be covered. Two to three hours per week of arranged laboratory is required in addition to regularly scheduled classes. Prerequisites: OFAD 151 or knowledge of keyboard. (Fall/Spring)
OFAD 201  Office Management  
Office organization including work in the office, office layout, equipment, supplies and forms, personnel problems, costs, control of office work, methods of recognizing and solving office communication problems, awareness of successful human relations, changing technologies and philosophies of business, and technical terminology used in business. (Spring)

OFAD 202  Records Management  
Institutional and legal requirements for developing, storing and maintaining business and personnel information systems. Management of computerized and non-computerized systems emphasized including storage and retrieval using alphabetic, geographic, numeric and subject methods for manual, micro-records, and computerized systems; and control of records management programs. (Fall)

OFAD 215  Document Format/Skill Development  
Emphasizes skill development and formatting of mailable letters, manuscripts, and business forms to a level required in the average office on electronic typewriters and microcomputers. Prerequisite: OFAD 153 or consent of instructor. (Fall/Spring)

OFAD 221  Transcription Machines/Business and Medical  
Fundamental skills, speed, and accuracy of business or medical transcription on electronic equipment. Prerequisites: OFAD 215 or consent of instructor. (Fall/Spring)

OFAD 244  Legal Procedures  
American court systems, branches of civil and criminal law, and secretarial procedures relating to ethical behavior and office management techniques in a law office. Includes practice in preparing legal forms and documents with emphasis on speed, accuracy, and neatness, and procedures to help develop confidence and poise necessary in a professional office. Prerequisites: OFAD 215; sophomore standing. (Fall)

OFAD 247  Laboratory Techniques  
Basic lab procedures such as blood counts, urinalysis, EKG, etc. Actual lab experience. Prerequisite: BIOL 141, 141L, OFAD 147, and sophomore standing. (Spring)

OFAD 249  Medical Office Procedures  
Medical office management, patient reception, record keeping, care of equipment and supplies, communication skills, and assisting the physician and patient including examination room techniques. Prerequisites: OFAD 147, 215, sophomore standing or consent of instructor. (Spring)

OFAD 253  Intermediate Word/Information Processing  
Continuation of OFAD 153. Provides hands-on experience with the more advanced features of word processing, including graphics and desktop publishing. Prerequisite: OFAD 153. (Fall/Spring)

OFAD 266  Word/Information Processing: Document Production  
Office standards examined and applied to the production of business documents on microcomputers and electronic typewriters; document analysis procedures and productivity measurement techniques presented with emphasis on decision-making and problem-solving. Prerequisites: OFAD 215, 253. (Spring)

OFAD 270  Office Automation: Microcomputer Applications  
Microcomputer applications used in the office automation environment, including accounting applications, integrated software (word processing, spreadsheets, data base, graphics), desktop managers, graphics, telecommunication, electronic mail; hands-on experience according to student's major and software availability. Arranged laboratory is required in addition to regularly scheduled classes. Prerequisites: CISB 101. (Fall)

OFAD 295  Independent Study  
(1-2)

OFAD 296  Topics  
(1-3)
PHILOSOPHY

School of Humanities and Social Sciences

PHIL 110  Introduction to Philosophy  (3)
Includes an orientation to the discipline's concerns, branches, major schools of thought, and its relationship to other disciplines; a selection of readings from philosophers of all historical periods concerning major philosophical issues; practice in the process of philosophical reasoning, the critical analysis of philosophical writings, and the most basic rules of logic. (Fall/Spring)

PHIL 275  Introduction to Logic  (3)
Forms of reasoning, valid versus fallacious inferences, strong versus weak arguments. Designed to increase the ability to reason clearly and correctly and follow and critically evaluate the reasoning of others. (Fall/Spring)

PHIL 352  Ethics  (3)
Introduction to theoretical and applied Ethics. Major moral philosophers and moral theories are surveyed; a general approach to moral reasoning is developed. This is then applied to the discussion of recent writings on such issues as euthanasia, abortion, war, capital punishment, affirmative action, etc. Prerequisites: PHIL 110, or 275 or consent of instructor.

PHIL 373  History of Philosophy I  (3)
Philosophical problems including relation of the individual to the state, death and the afterlife, the physical universe, and existence of God, as seen through Greek and Medieval thinkers such as Plato, Aristotle, Augustine, and Thomas Aquinas. Prerequisites: PHIL 110, or 275, or consent of instructor. (Every third semester)

PHIL 374  History of Philosophy II  (3)
Continuation of PHIL 373, with topics as seen through thinkers of the modern period, such as Hobbes, Berkeley, Kant, Nietzsche, and the Existentialists. Prerequisites: PHIL 110, or 275, or consent of instructor. (Every third semester)

PHIL 375  Twentieth-Century Philosophy  (3)
The main philosophical themes and schools of recent philosophy. Characteristic methods and positions of such schools as Pragmatism, Phenomenology, Existentialism, and various Analytic Movements—especially as they bear on central philosophical problems regarding truth, meaning, knowledge of the external world, and the relationship between language and reality. Prerequisites: PHIL 110, or 275, or consent of instructor. (Every third semester)

PHIL 395  Independent Study  (1-3)

PHIL 396  Topics  (1-3)

PHIL 495  Independent Study  (1-3)

PHIL 496  Topics  (1-3)

PHYSICS

School of Natural Sciences and Mathematics

PHYS 100  Concepts of Physics  (3)
A non-mathematical survey of fundamental concepts in physics. Particular attention is given to the cultural development of these ideas. The roots of physics are traced from early Greek thought through the Renaissance. Next, the Newtonian revolution of the seventeenth and eighteenth centuries is studied, followed by the nineteenth-century rise of field theory and thermodynamics. The course concludes with a discussion of the simple ideas underlying relativity and modern quantum theory. These latter topics include the elementary building blocks of matter and the unification of force. Lecture demonstrations are used throughout the course. (Fall)

PHYS 101  Elementary Astronomy  (3)
A nonmathematical introduction to modern stellar and extragalactic astronomy. Topics include planetary exploration, stellar evolution, galaxies, and the big-bang cosmology. Current research results are discussed. Evening observing will be scheduled when possible. (Spring)
PHYS 111, 112  General Physics  
PHYS 111L, 112L  General Physics Laboratory  
A survey of physics fundamentals. Topics include mechanics, electricity, magnetism, thermodynamics, sound, optics, and modern physics. Problem solving is emphasized. Prerequisite: a mastery of algebra and trigonometry. PHYS 111, 111L is a prerequisite for PHYS 112, 112L. Four lectures and one two-hour laboratory per week. (Fall/Spring)

PHYS 121  Classical Physics I  
First of a series of foundation physics courses for students and engineers. Newtonian mechanics is used to model the behavior of matter. Principles of particle motion are discussed in the context of momentum and energy conservation laws. Specific force laws are used to analyze problems drawn from engineering, biology, astronomy and atomic physics. Galilean relativity is discussed and special relativity introduced. Cultural as well as philosophical and practical aspects of physics are examined. The language of calculus and vector spaces is used throughout. Corequisite: MATH 151. (Fall/Spring)

PHYS 131  Fundamental Mechanics  
PHYS 131L  Fundamental Mechanics Laboratory  
First of a foundation series of three physics courses for scientists and engineers. The Newtonian dynamics of matter is presented, along with the laws of momentum and energy conservation. Specific force laws are used to analyze problems drawn from engineering, biology, astronomy, and physics. Galilean relativity is discussed, and cultural as well as philosophical and practical aspects of physics are studied. The language of calculus and vector spaces is used throughout the course. Corequisite: MATH 151. Four lectures and one two-hour laboratory per week. (Fall)

PHYS 132  Electromagnetism and Optics  
PHYS 132L  Electromagnetism and Optics Laboratory  
The second foundation physics for scientists and engineers. The field is introduced with static electric and magnetic fields, both in free space and in matter. Electrodynamics is developed, including a discussion of Kirchhoff's laws and circuit concepts. Maxwell's equations are presented and electromagnetic radiation discussed. The course concludes with an introduction to optics. Both geometric and the wave model for light are studied. The associated laboratory course will include experiments on fields, circuits, and optical systems. Prerequisites: PHYS 131, 131L. Corequisite: MATH 152. Four lectures and one two-hour laboratory per week. (Spring)

PHYS 231  Modern Physics  
The third foundation physics course for scientists and engineers. Relativity and quantum theory are the themes of this course. Relativistic kinematics and dynamics are studied. Quantum theory is introduced in the examination of blackbody radiation, the photoelectric effect, and the energy quantization of atoms. The Schrodinger wave equation is used to analyze simple quantum systems. The course concludes with applications drawn from such topics as atomic and molecular physics, solid-state physics, nuclear and high-energy physics, and astrophysics. Prerequisites: PHYS 132, 132L. Corequisite: MATH 233. (Fall)

PHYS 300  New Directions in Science  
A survey of recent developments in science. This course is open to qualified students in liberal arts as well as the sciences. Faculty from various disciplines will participate. Topics will be drawn from astronomy, biology, chemistry, geology, physics, engineering, and applied mathematics. Permission of instructor required. (Fall)

PHYS 311  Electromagnetic Theory I  
A mature study of electromagnetic fields. The course begins with a review of Maxwell's equations. Static fields are analyzed and multipole expansion techniques explored. Fields in dielectric and magnetic materials are then examined, and capacitance and inductance introduced. Electrodynamics is developed, along with concepts of field momentum and energy. Prerequisites: PHYS 132, PHYS 132L, MATH 260. Corequisite: MATH 360. (Fall)

PHYS 312  Electromagnetic Theory II  
A continuation of PHYS 311. Electromagnetic waves were studied. Wave propagation in conducting and nonconducting media is examined, along with dispersion phenomena. Waveguides are considered. Electromagnetic field radiation is studied, both for point charges and for arbitrary charge distributions. The course concludes with a reformulation of electromagnetism in the language of special relativity. Prerequisites: PHYS 311, 320. (Spring)
PHYS 321 Quantum Theory I (3)
A foundation course in quantum physics. No prior background in modern physics is assumed of students. The failure of classical physics is first discussed, with particular attention given to thermal radiation, photons, the Rutherford-Bohr atom, and the de Broglie wave hypothesis. The Schrödinger wave theory for single particles is then used to introduce modern concepts. Measurement theory, wave packets, square-well potentials and harmonic oscillators are examined in a one-dimensional context. The time-dependent and stationary-state formalisms are both developed. The entire subject is set in the framework of Hilbert space, and operator algebra is used throughout. Prerequisites: PHYS 231. Corequisite: MATH 360. (Spring)

PHYS 322 Quantum Theory II (3)
A continuation of PHYS 321. Quantum theory is extended to three dimensions. Symmetry principles are introduced. Angular momentum conservation is discussed and particle spin defined. The quantum theory of many-particle systems is then studied, with particular attention given to simple atoms. Fermi-Dirac and Bose-Einstein statistics are introduced. Perturbation theory is developed and applied to the study of atoms and their interaction with radiation. A brief discussion of quantum field theory concludes the course. Prerequisite: PHYS 321. (Spring)

PHYS 331 Advanced Laboratory I (2)
PHYS 332 Advanced Laboratory II (2)
A course in experiment design and technique. Laboratory investigations provide experience in instrumental methods, planning of laboratory experiments, data analysis, preparation of reports according to professional standards, and training in the use of computers for data acquisition and processing. The experiments to be performed are selected from electromagnetism, atomic, nuclear, and solid-state physics. Prerequisite: PHYS 321. (Fall)

PHYS 352 History and Philosophy of Physics (3)
Material varies from year to year. The course addresses problems in the interpretation and development of physics. Case studies of crucial experiments are analyzed. The interaction of physics with other philosophical and cultural pursuits is discussed. Prerequisite: one year of physics or consent of instructor. (Fall/Spring, on demand)

PHYS 362 Statistical and Thermal Physics (3)
A study of the physics of bulk matter. Beginning with fundamental principles of quantum mechanics, statistical methods are employed to explain the macroscopic laws of thermodynamics and to make detailed predictions about the large-scale behavior of solids, liquids, and gases. Applications include the specific heat of solids, thermal radiation, magnetic susceptibilities, stellar equilibrium and chemical reactions. Prerequisite: PHYS 132, ENGR 262, MATH 360. (Fall)

PHYS 371 Linear Systems Analysis (3)
The analysis of lumped-parameter, time-invariant linear systems. After a review of the characterization of linear systems by differential equations, Fourier transforms are introduced for the description of signals. Laplace transforms are next employed for both the description of signals and for system transfer functions. Transient and steady-state behaviors are analyzed. Pole-zero analysis is introduced and system stability and feedback concepts studied. The course concludes with an introduction to state-variable techniques. Throughout the course, applications are drawn from both electrical and mechanical systems. Prerequisites: ENGR 251, 251L, and MATH 360. (Fall, alternate years)

PHYS 395 Independent Study (1-3)
PHYS 396 Topics (1-3)

PHYS 421 Advanced Dynamics (3)
A survey of analytical methods in classical physics. The Lagrangian formulation of mechanics is used to examine various applications, including rigid-body motion, celestial mechanics, and collision theory. Symmetry principles and accompanying conservation laws are introduced. The course concludes with an introduction to Hamilton’s equations and field theory. Prerequisites: PHYS 132, ENGR 262, MATH 360. (Spring)
PHYS 432 Nuclear and High-Energy Physics (3)
An introduction to the structure and interactions of nuclear and subnuclear particles. Topics include a survey of the intrinsic properties of nuclei, descriptions of various nuclear models, studies of radioactivity and nuclear reactions, and an overview of the technologies of high-energy accelerators and detectors. The course concludes with an introduction to the properties and structures of elementary particles and discussions of current developments in unified theories of force. Prerequisite: PHYS 322. (Spring, alternate years)

PHYS 441 Solid State Physics (3)
The structure and properties of solids. This course is a study of the crystalline state of matter, including crystal classifications, vibrational specific heats, electronic structures and conductivities, cohesive energies, magnetic susceptibility, and optical properties. Prerequisite: PHYS 322. (Fall)

PHYS 473 Modern Optics (3)
Modern principles and applications of optics. Models for light are reviewed and extended. Interferometry and coherence theory are studied. The Fourier transform description of images is introduced and optical systems analyzed. Diffraction theory is used in a number of applications. Anisotropic media and polarization phenomena are studied. Radiometry, light sources, and optical detectors are discussed. The course concludes with an introduction to quantum optics and a survey of optical processes in semiconductors. Prerequisite: PHYS 321. (Spring)

PHYS 475 Elasticity (3)
A study of the continuum model of solids, with an emphasis on applications. The stress tensor is introduced and used to write equations of motion. The conditions of static equilibrium are studied. Stress components are analyzed and principles of axes and stresses computed. Deformations are analyzed using the strain tensor, and constitutive relations used to relate stress and strain. Linear elasticity is emphasized, both in isotropic and anisotropic materials. Structural deformations are computed for a variety of mechanical systems. The course concludes with an introduction to nonlinear materials and to finite element techniques. Prerequisites: ENGR 261 and MATH 360. (Fall, alternate years)

PHYS 476 Fluid Dynamics (3)
A study of the continuum model for liquids and gases. The properties of fluids are discussed. The kinematics of the velocity flow field are introduced, and both Lagrangian and Eulerian pictures for flow are presented. The Navier-Stokes equations are derived and incompressible flow studied. The course concludes with a discussion of shock waves. Prerequisites: ENGR 255, and MATH 360. (Spring, alternate years)

PHYS 482 Senior Research (1)
An individual research project, supervised by a faculty adviser. The project may be selected from experimental or theoretical topics. The research concludes with a formal report written in accordance with The American Institute of Physics Style Manual. This course is normally taken twice in the senior year. (Fall/Spring)

PHYS 494 Seminar (1)
A forum for topical physics. In this seminar, faculty and students of physics participate in both informal discussions and formal oral presentations of selected topics of scientific interest, including significant current advances and crucial historical developments. The course may be repeated for a maximum of four semester hours of credit. Prerequisite: upper division standing and consent of instructor. (Fall/Spring)

PHYS 495 Independent Study (1-3)
PHYS 496 Topics (1-3)

POLITICAL SCIENCE

School of Humanities and Social Sciences

POLS 101 American Government (3)
Structures and functions of the American political system and the constitutional development of federalism and separation of powers. Also, citizen participation and influence in politics, the congress, presidency and the supreme court, and public policy including civil rights and liberties. (Fall/Spring)
POLS 236  State and Local Government  (3)
Theories of state formation and constitutional development, city charters, county government, and intergovernmental relations with emphasis on Colorado. Prerequisites: POLS 101 or consent of instructor. (Fall/Spring)

POLS 261  Comparative Politics  (3)
Introduction to conceptual models and approaches utilized in the comparative study of nations and their politics. Application of these theories to selected democratic, communist, and developing political systems. (Fall)

POLS 310  Development of the American Constitution  (3)
A study of the historical development of the U.S. Constitution. Particular emphasis will be placed on the ideological and political origins of the constitution and constitutional change through formal amendments, judicial interpretation, and the political process. Prerequisite: POLS 101 or consent of instructor. (Alternate Spring)

POLS 325  The American Presidency  (3)
A study of the American chief executive, emphasizing the historical development of the office, the various functions of the modern chief executive and a brief comparison with the executive officers of other national states. Prerequisites: POLS 101 or consent of instructor. (Alternate Fall)

POLS 338  Colorado Government and Politics  (3)
A study of Colorado's state and local government institutions, politics, and policy. Prerequisite: POLS 101 or consent of instructor. (Alternate Years)

POLS 342  Public Administration  (3)
Historical development of public administration including organizational structure and theory, management, personnel administration, fiscal administration, and administrative responsibility. Prerequisites: POLS 101 or consent of instructor. (Fall)

POLS 345  Political Parties and Interest Groups  (3)
Development of political parties and interest groups in the United States and their role in contemporary politics. Includes focus on elections, voting behavior, and the dynamics of public opinion. Prerequisites: POLS 101 or consent of instructor. (Alternate Fall)

POLS 350  American Political Thought  (3)
Political ideas, theories, and concepts that have shaped American political institutions. Prerequisites: POLS 101 or consent of instructor. (Spring)

POLS 355  Politics in the Information Age  (3)
Study of the impact of the "information age" on American politics and democracy. Prerequisites: POLS 101 or consent of instructor. (Alternate Spring)

POLS 365  European Government and Politics  (3)
Study of the political systems of Great Britain, France, Federal Republic of Germany, Soviet Union and other European nations. Emphasizes political development, the sources, processes and evaluation of policy making, and contemporary challenges facing these countries. Prerequisites: POLS 261 or HIST 102. (Fall)

POLS 370  World Politics  (3)
Introduction to the structures, processes, and behaviors shaping the world political configuration. Emphasis on states and their interactions as well as non-state actors and the cultural, economic and environmental forces, issues, and resources influencing an emerging world community. Prerequisites: POLS 261 or HIST 102. (Spring)

POLS 395  Independent Study  (1-3)

POLS 396  Topics  (1-3)

POLS 412  Constitutional Law  (3)
An analysis of American constitutional theory as articulated by the U.S. Supreme Court. Specific topics include the nature of judicial review, the powers of the President and Congress, federalism, the regulation of commerce and the development of substantive due process. Prerequisite: POLS 101 or consent of instructor. (Fall)
POLS 413  Civil Liberties  (3)
A study of the constitutional relationship between the individual and the state. Particular emphasis will be placed on First Amendment freedoms of speech, press, and religious belief, as well as theories of due process and equal protection. Prerequisite: POLS 101 or consent of instructor. (Alternate Spring)

POLS 424  The Legislative Process  (3)
A study of the legislative process emphasizing the U.S. Congress. Attention will be given to the development of legislative systems, the operation of legislatures, the election of legislators, and a comparison with legislatures in other national states. Prerequisite: POLS 101 or consent of instructor. (Alternate Fall)

POLS 428  The American Court System  (3)
The American court system; local, state, and national, including consideration of the impact of prosecutors, defense personnel, judges, and other factors on court decisions and the criminal justice system. Prerequisites: POLS 101 or ADJU 201. (Spring)

POLS 452  Political Theory: Classical and Medieval  (3)
POLS 453  Political Theory: Modern  (3)
Study of the development of political theory in the Western tradition. Emphasizes the teaching of main thinkers: Socrates, Plato, Aristotle, Augustine, Aquinas, More, Machiavelli, Hobbes, Locke, Rousseau, Mill, and Marx. Develops ideas in relation to historical and cultural contexts, textual consistency, and the evolving tradition of political discourse in Western civilization. (Fall for POLS 452/Spring for POLS 453)

POLS 475  American Foreign and National Security Policy  (3)
American foreign and national security policy with emphasis on 1945 to the present and beyond. Foreign and domestic factors shaping policy, the mechanisms and dynamics of policy making, the role of perception and motives underlying decision and action, and case studies of historical crises and contemporary debates are examined. (On demand)

POLS 485  Public Policy Analysis  (3)
A study of the public policy process examining topics such as agenda setting, policy implementation, policy evaluation and policy change. Prerequisite: POLS 101 or consent of instructor. (Alternate years)

POLS 488  Environmental Politics and Policy  (3)
An introduction to the political issues and problems associated with patterns of socio-economic growth and its environmental impact at both domestic and global levels of analysis. Prerequisites: POLS 101 or consent of instructor. (Alternate years)

POLS 490  Senior Seminar for Political Science  (3)
Arranged tutorials and seminars with political science faculty and students, design and execution of a research project, and submission of a senior thesis. Prerequisites: senior standing. (Spring)

POLS 495  Independent Study  (1-3)
POLS 496  Topics  (1-3)
POLS 499  Internship  (1-15)
May be performed in areas relating to Political Science, such as civic, political, or legal. Internships will be conducted in Mesa County, the Denver legislature, or in Washington, D.C. Prerequisites: junior or senior standing. (Summer/Fall/Spring)

PARKS AND RECREATION RESOURCE MANAGEMENT

PRSM 200  Cultural Foundations of Play, Recreation, Leisure  (3)
Psychological, physiological, and sociological influences which impact the technological, economic, and political significance of play, recreation, and leisure in American society. (Fall)
PRRM 210  The Parks and Recreation Professions  (3)
History and development of formalized park and recreation professions including specialized professional competencies, agency duties, professional development, organizational structure, and ethics. (Spring)

PRRM 220  Professional Foundations of Therapeutic Recreation  (3)
Introduction to content and service of therapeutic recreation. Includes public and clinical role and mission, credentialing, professional competency, performance standards, and the understanding of the psychological, sociological, and historical significance of therapeutic recreation. (On demand)

PRRM 300  Recreation Programming: Designing Experiences  (3)
Comprehensive program methodology with topics on development of program mission statements, assessment of patrons' needs, preparation of program plans, registration systems, pricing, promotion, and development of evaluation models. Prerequisites: PRRM 200. (Fall)

PRRM 305  Therapeutic Recreation Program Design  (3)
Principles and procedures for a comprehensive systems approach to therapeutic program planning. Topics include program design, implementation, evaluation, activity analysis, and assessment. Prerequisite: PRRM 220. (On demand)

PRRM 310  Resource Planning: National and State Parks  (3)
Application of design process and procedures for planning design and construction of national and state park systems. Prerequisite: PRRM 300. (Spring)

PRRM 311  Resource Planning: Community Recreation Systems  (3)
Application of design process and procedures for the planning, design, and construction of public and semi-public indoor special use facilities. Prerequisite: PRRM 300. (Spring)

PRRM 312  Resource Planning: Resort Development  (3)
Special planning and design considerations applicable to effective management and operation of private for-profit resort businesses. Prerequisite: PRRM 300. (Fall)

PRRM 313  Resource Planning: Outdoor Play Settings/Children  (3)
Planning, design, and management of outdoor play settings for all children. Topics include site plan and design, setting design and management, play programming, risk management, and the integration of the disabled. Prerequisite: PRRM 300. (Fall)

PRRM 314  Resource Planning: Therapeutic Systems  (3)
Comprehensive process of planning, evaluating, and adapting areas and facilities for public and private therapeutic service agencies. Prerequisite: PRRM 300, PRRM 320. (On demand)

PRRM 350  Private and Commercial Recreation Systems  (3)
Profit-based recreation industry, including managing the recreation enterprise, economic feasibility studies, small business entrepreneurship, market characteristics, professional opportunities, and trade association research and publications. Prerequisites: PRRM 210, MANG 201. (Fall)

PRRM 351  Community Tourism Systems  (3)
Community as a tourist destination area with concentration on identification of linkages between tourism industries and local economies, and the process of developing and managing park and recreation resources to serve the tourist. Prerequisites: PRRM 200 and 210, MANG 201. (Spring)

PRRM 352  National and State Park Systems  (3)
National and state outdoor recreation resource management systems including a variety of administrative tools applicable to operation and maintenance as well as comprehensive discussion of legislation, land use policy, forest recreation planning, and governmental designation programs. Prerequisites: PRRM 200, 210, MANG 201. (Fall)

PRRM 353  Public and Municipal Parks and Recreation Systems  (3)
Agency management applicable to municipal and special recreation and park districts, including topics on fiscal policies and practices, community development, maintenance systems management, revenue resources and budget formulation. Prerequisites: PRRM 200, 210, MANG 201. (Spring)

PRRM 354  Therapeutic Recreation Systems  (3)
Interpretation, conceptualization, application and development of professional skills and knowledge necessary for supervising, assessing, and managing therapeutic agency service. Prerequisite: PRRM 220, MANG 201. (On demand)
PRRM 395  Independent Study (1-3)
PRRM 396  Topics (1-3)
PRRM 430  Computer Applications for Parks, Recreation, and Physical Education (3)
Practical application of computer software for management, design, and operation of public and commercial recreation and fitness industries. Content includes packaged scheduling programs, membership systems, elementary CAD, advanced spreadsheet applications, graphics, advanced DBM systems, and assessment programs. Prerequisite: PRRM 200, 210 and 300. (Spring)
PRRM 450  Legal Liabilities & Legislative Foundations (2)
Legal foundations affecting the professional responsibilities of athletic, physical education and recreation resource managers. Topics include legal liabilities, legislative precedents, incident management, rationale for lawsuits, liability immunity, and risk management planning. Prerequisites: PRRM 210, and two courses chosen from 310, 311, 312 or 313. (Spring)
PRRM 491  Field Experience (1-3)
Placement of upper division students within public and private recreation and park agencies. Selected agencies must meet Mesa State College Supervisory Guidelines. Prerequisite: consent of instructor. (Fall/Spring)
PRRM 494  Senior Seminar: Issues and Trends (3)
Students review, discuss and apply skills and knowledge for the effective solving of contemporary leisure service problems. Students will identify contemporary issues and trends and apply problem solving models and techniques, and leisure research methodology. Comprehensive exam required. Prerequisites: PRRM 200, 210. 20 hours of upper division PRRM course work. (Spring)
PRRM 495  Independent Study (1-3)
PRRM 496  Topics (1-3)
PRRM 499  Internship (12)
A full-time continuing experience in a public or private leisure service agency. A minimum of 400 clock hours must be completed in not less than a ten-week period. Prerequisites: 2.5 GPA in major and application requirements as stated in the Published Handbook for Professional Internship (note: for NTRC certification this requirement must be completed under the direct supervision of a certified therapist). PRRM 410, 420, 450, 460. See additional Internship Handbook requirements. (Summer)

PSYCHOLOGY

School of Humanities and Social Sciences

PSYC 150  General Psychology (3)
Examines the fundamental principles of psychology. (Fall/Spring)
PSYC 200  Psychology of Human Adjustment (3)
Problems of mental health and the strategies useful in the pursuit of effective living in today's society. Introduces abnormal psychology, emphasizing prevention of serious problems through understanding change and growth in the modern world. (Spring)
PSYC 210  Environmental Psychology (3)
Principles and findings of general psychology applied to the challenge of mankind's living in the environment. Prerequisites: PSYC 150 or consent of instructor. (Fall)
PSYC 233  Human Growth and Development (3)
Developmental principles, ages and stages of the life span, and adjustment techniques. Not intended for behavioral science majors. (Fall/Spring)
PSYC 310  Child Psychology (3)
A study of the principles of human development and psychology from conception to puberty. Prerequisites: PSYC 150. (Spring)
PSYC 311  Quantitative Research Methods  (3)
Application of statistics in psychological research with an emphasis on the selection of appropriate quantitative techniques, computer analysis of data, and interpretation of statistical results within the context of the research endeavor. Topics to be covered include descriptive statistics, hypothesis testing, parametric and non-parametric statistics. Prerequisites: PSYC 150, STAT 200. (Spring)

PSYC 312  Experimental Psychology  (3)
PSYC 312L  Experimental Psychology Laboratory  (1)
Fundamentals of experimental methodology. Application of principles of laboratory research in areas of psychophysics, learning and memory, and biofeedback. Formal reports of projects required. Three lectures and one two-hour laboratory per week. Prerequisites: PSYC 150, STAT 200. (Spring)

PSYC 314  Psychology of Learning  (3)
PSYC 314L  Psychology of Learning Laboratory  (1)
Classic and modern explanations of the phenomena of learning in both lower animals and humans. Laboratory experiments in classical and operant conditioning with formal scientific reports required. Three lectures and one two-hour laboratory per week. Prerequisites: PSYC 150, STAT 200, consent of instructor. (Fall/Spring)

PSYC 320  Social Psychology  (3)
Social influences upon behavior with consideration given to topics such as: social perception, attitude formation and change, communication, and leadership. Prerequisites: PSYC 150. (Fall)

PSYC 322  Motivation  (3)
Classical and contemporary psychological explanations of forces that originate, direct, and sustain human behavior. Prerequisites: PSYC 150, 314. (Spring)

PSYC 330  Psychology of Adolescents and Young Adults  (3)
Study of principles of human development (biological, cognitive, and social/emotional) from puberty through young adulthood. Prerequisites: PSYC 150. (Fall)

PSYC 332  Individual and Group Differences  (3)
The ways and extent to which individuals and groups differ from one another and of the factors responsible for those differences. (On demand)

PSYC 335  Psychology of Women  (3)
A brief account of the role of women in mythology and history will be followed by coverage of women's heritage in psychology. Then gender specific aspects of physical, psychological and social development will be covered. Current areas of interest will be included, e.g., communication, work-related issues, relationships. Prerequisites: PSYC 150. (Fall)

PSYC 340  Abnormal Psychology  (3)
Concepts related to psychopathology and personality disorders including functional causation, general psychological theory, and behavior deviation patterns. Prerequisites: PSYC 150. (Fall/Spring)

PSYC 350  Psychology of Adulthood  (3)
Study of principles of human development (biological, cognitive, and social/emotional) from the latter part of young adulthood through late adulthood. Prerequisite: PSYC 150. (Spring)

PSYC 360  Sport Psychology  (3)
Introduction to the theories and research in Sport Psychology, including topics such as aggression and violence in sports, psychological characteristics of participants, sexual identity and motivation. Prerequisites: PSYC 150.

PSYC 395  Independent Study  (1-3)
PSYC 396  Topics  (1-3)
PSYC 400  Psychological Testing  (3)
Theory, problems, methods, and content of psychological measurement, including concepts of the purpose of testing, test administration and scoring, standardization, reliability, validity, test evaluation, and a survey of the major tests used in educational and psychological testing. Prerequisites: PSYC 150, STAT 200. (Fall)
PSYC 410  Drugs and Human Behavior (3)
Study of pharmacological effects and behavioral consequences of self-administered depressants, stimulants, and euphoriant drugs, of marijuana, alcohol, and tobacco, and of medicines. Prevention of drug-related problems is considered briefly. Prerequisite: PSYC 150. (Fall)

PSYC 412  Industrial and Organizational Psychology (3)
Psychological principles applied to formal, productive organizations such as businesses, governments, and schools. Personnel selection, placement, training, evaluation, motivation to work, job satisfaction, and morale are examined. Counts as a management course for BBA candidates. Prerequisites: PSYC 150, STAT 200, or consent of instructor. (Fall/Spring)

PSYC 414  Systems and Theories of Psychology (3)
Systems and theories of modern psychology and the development of scientific psychology since 1879. Prerequisites: 12 semester hours upper division psychology course work or consent of instructor. (Spring)

PSYC 416  Memory and Cognition (3)
Study of the mental processes that underlie our abilities to recognize stimuli, think, remember, learn language, and solve problems. Current research in each of these areas will be discussed. Includes a research paper written in APA style. Prerequisites: PSYC 150 or consent of instructor. (Spring)

PSYC 420  Personality (3)
Examination of personality psychology from the time of Freud through the present. Theories and various approaches to understanding the development and functioning of both the general and the unique in personality are emphasized. Prerequisite: PSYC 130, 400. (Spring)

PSYC 422  Sensation and Perception (3)
Study of the human senses, especially vision and hearing, and of people's meaningful organization of sensory information. Prerequisites: PSYC 150, STAT 201. (Spring)

PSYC 430  Biopsychology (3)
The biological bases of the behaviors of the organism, emphasizing the structure and function of the nervous system. The role of biological factors in such behaviors as sleep, sexual behavior, drug addiction, emotion, etc. will be examined. Prerequisites: PSYC 150; biology course recommended. (Spring)

PSYC 495  Independent Study (1-3)

PSYC 496  Topics (1-3)

PSYCHOLOGY—COUNSELING

School of Humanities and Social Sciences

PSYP 320  Career Development (3)
Theories of, and factors influencing, career development such as assessment, career maturity, decision making, problem solving, and planning. Current developments in adult career and life development will be discussed including life stages, transitions, midlife crisis, stress, and adjustments necessary for career development effectiveness. Prerequisites: PSYC 150 or consent of instructor. (Fall)

PSYP 324  Career Counseling (3)
Types and sources of career information and its various uses in career counseling with special emphasis on decision making theories and processes. Prerequisites: PSYC 150 or consent of instructor. (Fall)

PSYP 396  Topics (1-3)

PSYP 420  Counseling Processes and Techniques (3)
Counseling principles and practices which facilitate interpersonal communication and effective personal and social development. Counseling skills in attending behavior, listening, problem exploration, responding, understanding, and modes of action are examined, discussed and applied in classroom counseling situations. Prerequisites: PSYC 150 or 340. (Spring)
PSYP 422  Psychological Interviewing  (3)
Psychological interviewing techniques, methods, and interpretation will be examined using the
DSM-IV interview types will include counseling, intake, assessment, and diagnosis. Prerequi-
sites: PSYC 150, 340 and 400. (Spring)

PSYP 424  Group Processess  (3)
Dynamics, procedures and processes of the group. Focus will be on understanding self and learn-
ing how to help others develop self-understanding as well as personal and social skill. Prerequi-
sites: PSYC 150, 340. (Fall)

PSYP 496  Topics  (1-3)

PSYP 497  Practicum  (4)
Interpersonal training and counseling practice under professional supervision. A typed paper/jour-
nal must be submitted for approval and course credit. Prerequisite: senior status and consent of in-
structor. Practicum must be arranged for the semester prior to enrollment. (Fall/Spring)

PSYP 499  Internship  (4)
Counseling experience in external field locations according to needs and career goals of the stu-
dent. A typed paper/journal must be submitted for approval and course credit. Prerequisite: con-
sent of instructor. Internship must be arranged for the semester prior to enrollment. (Fall/Spring)

RADIOLOGIC TECHNOLOGY

School of Professional Studies

RADT 110  Radiologic Introduction  (3)
Overview of radiologic technology with emphasis on history, the health-care delivery system,
ethics, professional conduct, organization and development, introduction to medical terminology,
communications, body mechanics, asepsis, vital signs, and emergencies. This course also presents
an introduction to the educational program and basic radiation protection. Prerequisite: acceptance
into the Radiology Program.

RADT 121  Radiologic Technology I  (2)
RADT 121L  Radiologic Technology I Laboratory  (1)
Instruction in every phase of radiologic technology in an integrated coverage of appendicular
skeletal system, abdomen, thoracic viscera, and body systems. Radiographic anatomy and posi-
tioning are discussed and applied in the energized laboratory. Prerequisite: RADT 110.

RADT 122  Radiologic Principles I  (2)
RADT 122L  Radiologic Principles I Laboratory  (1)
Fundamentals of factors which govern and influence the radiographic image receptor, equipment,
accessory devices, exposure mathematics, manual and automatic processing. Technical and prime
exposure factors are discussed and applied in the energized laboratory. Prerequisite: RADT 110.

RADT 123  Clinical Experience I  (4)
Areas covered in RADT 121 and 122 emphasized. Includes one hour of film critique provided by
the clinical instructor. Prerequisite: RADT 110.

RADT 125  Radiologic Science I  (2)
Basic physics, fundamentals of x-ray generating equipment, x-ray production and interaction,
beam characteristics, and units of measurement. Prerequisite: RADT 110.

RADT 131  Radiologic Technology II  (2)
RADT 131L  Radiologic Technology II Laboratory  (1)
Continuation of RADT 121 with instruction in every phase of radiography of the axial skeleton,
digestive system, urinary system, cranium, spinal column, and facial bones. Prerequisites: RADT
121, 121L, 122, 122L, 125.

RADT 132  Radiologic Principles II  (2)
RADT 132L  Radiologic Principles II Laboratory  (1)
Continuation of RADT 122 including equipment utilized to produce diagnostic images, recording
media and techniques, quality assurance and computer applications in diagnostic radiology. Pre-
erequisites: RADT 121, 121L, 122, 122L, 125.
RADT 133  Clinical Experience II  (4)
Continuation of RADT 123 in all phases of radiology. Includes one hour a week of film critique provided by the clinical instructor. Prerequisite: RADT 123 or consent of instructor.

RADT 135  Radiologic Science II  (2)
Principles of radiation interaction in cells and the effect and factors affecting cell response to radiation, acute and chronic effects of radiation, maximum permissible dose, regulatory involvement, and radiation protection responsibilities by the radiographer to patients, personnel, and the public. Prerequisites: RADT 121, 121L, 122, 122L, 125.

RADT 243  Clinical Experience III  (8)
Continuation of RADT 133 in all phases of radiology. Emphasis on material presented in RADT 121, 122, 131 and 132. Includes film critique provided by the clinical instructor or radiologist. Prerequisite: completion of all 100 level radiology courses.

RADT 251  Radiologic Technology III  (3)
Special equipment, opaque media, radiographic anatomy, and pathology involved in specialized and highly technical procedures. Pharmacology is also covered. Prerequisite: all RADT 100 level lecture and laboratory courses.

RADT 253  Clinical Experience IV  (10)
Continuation of RADT 243 in all phases of radiology. Includes film critique provided by the clinical instructor or radiologist. Prerequisites: RADT 243 or consent of instructor.

RADT 261  Radiologic Technology IV  (3)
Departmental administration, radiologic records, and job-seeking skills. The last few weeks of this course are devoted to a review and preparation for the national registry examination. Prerequisites: all RADT 100 level lecture and laboratory courses.

RADT 263  Clinical Experience V  (10)
Continuation of RADT 253 in all phases of radiology. Includes film critique provided by the clinical instructor or radiologist. Prerequisites: RADT 253 or consent of instructor.

SOCIAL SCIENCE
School of Humanities and Social Sciences

SOCI 310  Methods of Social Research  (3)
Research methods and their application to the social sciences. Prerequisites: PSYC 150 or SOCO 260 and STAT 200. (Spring)

SOCI 340  Methods of Teaching Social Studies: Secondary Schools  (3)
Examination and comparison of the social studies, exploring both new and traditional curricula, philosophies, and teaching methods. Prerequisites: upper division status and 21 semester hours of social sciences. (On demand)

SOCI 351  History of Ideas: Ancient and Medieval Periods  (3)
The major ideas of man and society in ancient Greece and Rome with attention to social conditions influencing their development and transmission into the social thought of Medieval Europe. (On demand)

SOCI 352  History of Ideas: Modern Period  (3)
The emergence of the Idea of Progress, a set of ideas which underlie the social sciences, including history writing. Critiques the effectiveness of these ideas for a social science capable of meting the problems of modern society. Prerequisites: SOCI 351 or PHIL 353 or consent of instructor. (On demand)

SOCI 395  Independent Study  (1-3)

SOCI 396  Topics  (1-3)

SOCI 495  Independent Study  (1-3)

SOCI 496  Topics  (1-3)
## SOCIOLOGY

**School of Humanities and Social Sciences**

**SOCO 144**  
*Marriage and the Family*  
3 credits  
Sociology of the marriage and family institutions in contemporary America. Includes an examination of important aspects of courtship and marriage, problems commonly experienced in contemporary man-woman relationships, parenting in modern America, and alternatives to traditional marriage. (Fall/Spring)

**SOCO 260**  
*General Sociology*  
3 credits  
Sociological concepts designed to acquaint students with terminology, basic principles, and important theories. Not open to freshmen. (Fall)

**SOCO 264**  
*Social Problems*  
3 credits  
Major contemporary social problems including crime, race relations, war, educational systems, unequal distribution of wealth, and political apathy. Prerequisite: Sophomore standing. (Spring)

**SOCO 300**  
*Political Sociology*  
3 credits  
The interactions and interrelationships between social and political forces. Prerequisite: SOCO 260, or POLS 101 or consent of instructor. (Spring)

**SOCO 310**  
*Sociology of Religion*  
3 credits  
The social and cultural manifestations of religion giving attention to the insights of sociologists, recent studies, and contemporary social movements. Prerequisite: SOCO 260 or consent of instructor. (Fall)

**SOCO 312**  
*Collective Behavior and Popular Culture*  
3 credits  
The dynamics of forming new social structures with emphasis on contrasting popular cultures and their structures with collective behavior models of the study areas. (On demand)

**SOCO 314**  
*Population Impact Problems and Urbanization*  
3 credits  
Surveys population problems and theories of population growth, industrialization, and urbanization. (On demand)

**SOCO 316**  
*Social Stratification*  
3 credits  
Major theories regarding the causes and effects of the differential distribution of desirables by race, social class, and other variables. Prerequisites: SOCO 260 or consent of instructor. (Spring)

**SOCO 330**  
*Crime and Delinquency*  
3 credits  
Crime, delinquency, and deviance including the social and psychological factors of such behavior, trends in theory, correctional procedures, control, prevention, and laws. Prerequisite: SOCO 260 or consent of instructor. (Fall)

**SOCO 350**  
*Sociology of Death and Dying*  
3 credits  
A critical review of concepts and findings of social scientists and a semi-scientific review of literature dealing with death. (Fall)

**SOCO 360**  
*Social Influences of Small Groups*  
3 credits  
Small-group processes in schools, peer groups, industry, and other selected institutions; small groups as related to the larger social system; group structure, communications, and the dynamics of social interaction. (On demand)

**SOCO 390**  
*Sociology of Law*  
3 credits  
The study of how human interaction produces law in societies. This endeavor will survey the particular processes that function to produce the structure of law. Prerequisites: SOCO 260. (Spring)

**SOCO 395**  
*Independent Study*  
1-3 credits  
(1-3)

**SOCO 396**  
*Topics*  
1-3 credits  
(1-3)

**SOCO 400**  
*History of Sociology*  
3 credits  
The development of sociology as a discipline from early times to the present. Prerequisite: SOCO 260 or consent of instructor. (Fall)
SOCO 410  Contemporary Social Theory  
Sociological theories emphasizing 20th century contributions and the relationships of sociology to allied fields such as anthropology, psychology, economics, and political science. Prerequisite: SOC0 260 or consent of instructor. (Spring)

SOCO 495  Independent Study  
(1-3)

SOCO 496  Topics  
(1-3)

SPEECH

School of Humanities and Social Sciences

SPCH 101  Interpersonal Communications  
Language, listening, response, defense of statement, and nonverbal communication between two or more people. (Fall/Spring)

SPCH 102  Speechmaking  
The preparation, organization, and delivery of a speech. (Fall/Spring)

SPCH 112  Voice and Diction  
The use of the speaking voice emphasizing voice placement, speech sounds, breath control, projection, and the phonetic alphabet. Recommended for theatre majors, teachers, pre-law, ministers and business majors. (Fall)

SPCH 203  Persuasion  
Open discussions on the ethics, process, and application of everyday use of persuasion; how it applies to our advertisements, politics, and friendships. A good class to prepare for debate. Prerequisite: SPCH 102. (Fall)

SPCH 303  Nonverbal Communication  
The opportunity to observe, record and interpret the nonverbal dimensions of communication behavior and the opportunity to enhance awareness and skill in nonverbal communication behavior in mass media, law, theatre, group dynamics, etc. (Spring)

SPCH 304  Communication and Conflict  
The nature of conflict, conflict structure, conflict styles, and the use of “power” in conflicts. Application of theories to analyze and set goals to plan strategies and tactics. Study of intervention principles and practices. Prerequisites: upper division standing. (Alternate Spring)

SPCH 305  Communication; Culture, Diversity and Gender  
Research and practical application to facilitate constructive relationships with individuals from other countries, with individuals from subcultures within our culture, and with individuals of the opposite sex. Prerequisite: SPCH 101. (Spring, on demand)

SPCH 306  Communication and Leadership  
Study of communication styles of great leaders from every field of endeavor to determine the sources of their influence over the behaviors, thoughts, and feelings of their followers. Included will be study of the historical environments that gave rise to each leader’s style. Prerequisite: SPCH 101. (Spring, on demand)

SPCH 308  Debate  
Research and development of various types of debate formats using national and international topics of current interest. Prerequisites: SPCH 102, 203 or consent of instructor. (Spring)

SPCH 395  Independent Study  
(1-3)

SPCH 396  Topics  
(1-3)

SPCH 403  Teaching of Speech and Drama  
Teaching communication, speechmaking, debate and discussion, creative drama, oral interpretation, play selection and direction in the public schools. Prerequisite: junior standing in English education or speech/theatre programs. (Fall)

SPCH 495  Independent Study  
(1-3)

SPCH 496  Topics  
(1-3)

SUPPLEMENTAL COURSES

SUPP 201  Theory and Practice of College Peer Tutoring  (3)
General and specific training for college level peer tutoring. Readings, discussion, experiential exercises expose students to contemporary learning theories, learning enhancement techniques, and effective applications to group and individual learning situations. Supervised tutoring practicum applies theories and concepts to actual tutoring sessions. Prerequisite: permission by instructor; 2.5 GPA; recommendation by instructor in subject area. (Fall/Spring)

THEATRE

School of Humanities and Social Sciences

THEA 114  Summer Theatre  (3)
Professional summer theatre experience. The student is expected to participate in all phases of the theatre operation including acting, technical work, directing, box office management, etc. It is advisable for a student enrolled in summer theatre not to enroll in any other class. Five plays are presented in a seven-week period.

THEA 117, 118  Play Production  (1,1)
A practical course in stagecraft concerned with the production of plays. The student works in all phases of production. Students will work six hours per week unless other arrangements are made with the instructor. (Fall/Spring)

THEA 119, 120  Technical Performance  (1,1)
Direct participation in the technical aspects of various productions. Grade will depend upon the preparatory work involved and upon the final technical production. Students must work a minimum of two productions in order to receive credit. (Fall/Spring)

THEA 128, 129  Theatre Forums  (1,1)
Specialized workshops in various aspects of theatre made possible by visiting artists and/or lecturers or by attending seminars or workshops. Papers and discussions are used for evaluation. (On demand)

THEA 141  Theatre Appreciation  (3)
Examination of basic presentation techniques of theatre, motion picture, television, and radio.

THEA 142  Make-Up  (3)
All types of make-up for the stage. Students examine straight and character make-up techniques and learn the use of crepe hair, prosthetics, and other materials. (Fall)

THEA 143  Costuming  (3)
Costume design, construction, and history of costume. (Spring)

THEA 145  Introduction to Dramatic Literature  (3)
Dramatic literature from the classical Greeks to the modern dramatists. (Spring)

THEA 147, 148  Drama Performance  (1,1)
Requires a student to appear in a major production on campus. The grade will depend upon the preparatory work on the play's character and upon the final performance. (Fall/Spring)

THEA 151  Acting I: Beginning Acting  (3)
Fundamentals of acting through the use of improvisation and study of scenes. Students perform in solo, duo and/or group scenes. (Laboratory includes participation in student-directed plays.) Prerequisite: SPCH 112 or consent of instructor. (Fall)

THEA 152  Acting II: Stage Movement  (3)
Basic techniques of gesture, movement styles and combat. Developing an awareness of the use of the body as a means of expression is emphasized. (Spring)

THEA 160  Theatre Studies  (1)
Introductory studies for the theatre major in resumes, portfolios, auditions, departmental policies and operations. Helps to prepare students for jury's and professional theatre work experiences. (Fall)
THEA 213 Creative Play Activities-Drama (2)
Creative dramatics in a learning situation. Includes subject matter of interest to anyone in early childhood education, general education, social work, religious education, and/or recreation. (Fall/Spring)

THEA 214 Summer Theatre (3)
See THEA 114.

THEA 217, 218 Play Production (1,1)
See THEA 117, 118. Prerequisites: courses must be taken in sequence or by consent of the instructor. (Fall/Spring)

THEA 219, 220 Technical Performance (1,1)
See THEA 119, 120. (Fall/Spring)

THEA 228, 229 Theatre Forums (1,1)
See THEA 128, 129. (On demand)

THEA 241 Oral Interpretation (3)
The reading aloud of prose, poetry, and essays with the intention of conveying the author’s ideas to a listening audience. (On demand)

THEA 243 Theatre Practice: Scene Construction, Painting, and Design (3)
Techniques of construction; painting of scenery; properties for the theatre and basic principles of scene design. (Fall)

THEA 244 Theatre Practice: Beginning Lighting (3)
A basic course in the use of light and instrumentation in various stage productions, including plays, dance concerts, and music programs. (Spring)

THEA 247, 248 Drama Performance (1,1)
See THEA 147, 148. (Fall/Spring)

THEA 270 Music Theatre Performance Workshop (2)
Exploration at the beginning level theories and elements of the audition, singing, dancing, and theatrical presentation inherent in the Musical Theatre. For students majoring in Fine and Performing Art, Music Theatre Concentration. Corequisite: THEA 270L. Prerequisites: audition or consent of instructor. (Fall)

THEA 270L Music Theatre Performance Workshop Laboratory (1)
Practical application of dance, music, and theatre for the individual or the ensemble at the beginning level. One two-hour laboratory per week. Corequisite: THEA 270. Prerequisites: consent of instructor. (Fall)

THEA 314 Summer Theatre (3)
See THEA 114.

THEA 317, 318 Play Production (1,1)
See THEA 117, 118. Prerequisites: courses must be taken in sequence or by consent of the instructor. (Fall/Spring)

THEA 319, 320 Technical Performance (1,1)
See THEA 119, 120. (Fall/Spring)

THEA 328, 329 Theatre Forums (1,1)
See THEA 128, 129. (On demand)

THEA 331 History of Theatre (3)
History of the theatre as an institution and its relationship to the other arts and to the social and economic environment. (Spring)

THEA 341 Musical Theatre History and Literature (3)
In-depth study of the literature and styles of the master composers of music theatre from its beginnings through the present day. Course work is designed for the Musical Theatre major, utilizing lecture and listening lab format and a research paper on a subject of the student's choice. (Spring)
THEA 343  Scene Design  (3)
Experience in the designing of scenery and props for various types of productions with emphasis on research, acquisition, drafting, perspective, and rendering techniques. Prerequisite: THEA 243 or consent of instructor. (Spring)

THEA 344  Advanced Stage Lighting  (3)
Advanced training in the design and execution of lighting for the stage. Prerequisite: THEA 244 or consent of instructor. (Fall)

THEA 345  World Drama  (3)
Greek through Elizabethan drama. (Fall)

THEA 347, 348  Drama Performance  (1,1)
See THEA 147, 148. (Fall/Spring)

THEA 351  Acting III: Stage Dialects  (3)
The use of dialects in performances. Prerequisites: SPCH 112 or knowledge of the International Phonetic alphabet or consent of instructor. (Alternate Spring)

THEA 352  Acting IV: Styles in Acting  (3)
Various styles of acting used for the Classical, Elizabethan, Romantic, 19th Century Melodrama and Realistic periods. Prerequisites: THEA 151 and 152 or consent of instructor. (Alternate Fall)

THEA 370  Music Theatre Performance Workshop  (2)
Exploration at an intermediate level theories and elements of music, theatre presentation and performance. Meant specifically for students majoring in Fine and Performing Arts, Music Theatre Concentration. Corequisite: THEA 370L. Prerequisite: THEA 270 and 270L, or consent of instructor. (Fall)

THEA 370L  Music Theatre Performance Workshop Laboratory  (1)
Practical application of dance, music, and theatre for the individual or the ensemble. One two-hour laboratory per week. Corequisite: THEA 370. Prerequisites: THEA 270 and 270L or consent of instructor. (Fall)

THEA 395  Independent Study  (1-3)

THEA 396  Topics  (1-3)

THEA 401  Performing Arts Management  (3)
The business aspects of music and dance concerts, plays and other forms of the performing arts. Includes public relations and advertising, box office, and fiscal control and house management. Practical experience gained from working with area arts organizations. Prerequisites: junior or senior standing or consent of instructor. (Fall)

THEA 411  American Drama  (3)
From the first American playwright to the plays of today. (Spring)

THEA 412  Contemporary Drama  (3)
A study of realistic and absurd contemporary playwrights of the world. (Fall)

THEA 414  Summer Theatre  (3)
See THEA 114.

THEA 417, 418  Play Production  (1,1)
See THEA 117, 118. Prerequisites: courses must be taken in sequence or by consent of the instructor. (Fall/Spring)

THEA 419, 420  Technical Performance  (1,1)
See THEA 119, 120. (Fall/Spring)

THEA 428, 429  Theatre Forums  (1,1)
See THEA 128, 129. (On demand)

THEA 445, 446  Projects in Theatre  (3,3)
Work experience in various aspects of theatre such as scene/prop design and/or construction, lighting/sound design, sound, costume/makeup design or projects involving acting/directing, music theatre, theatre management, playwriting or other projects deemed worthwhile and vital by the instructor. Prerequisites: senior standing or consent of instructor. (On demand)
THEA 447, 448  Drama Performance  
See THEA 147, 148. (Fall/Spring)

THEA 451  Beginning Directing  
The fundamentals of directing applied to the direction of a scene for public viewing. Prerequisites: THEA 151, 152 and at least one upper division acting course or consent of instructor. (Fall)

THEA 455  Acting V: Advanced Acting  
For the Acting/Directing option student interested in polishing and refining the acting art through various techniques in the approach to a role. Prerequisites: THEA 151 and 152 or consent of instructor. (Alternate Spring)

THEA 456  Acting VI: Acting for the Camera  
The transition from stage acting techniques to camera acting techniques. Students will have the opportunity to work on camera with simplified sets and properties. Prerequisites: THEA 151 and 152 or consent of instructor. (Alternate Fall)

THEA 457  Acting VII: Auditions  
Writing of resume, how to look for an acting job, and the preparation of materials to be used in auditions. Students will be required to prepare for auditioning on a regular level. Prerequisites: THEA 151 and 152 or consent of instructor. (On demand)

THEA 470  Music Theatre Performance Workshop  
Exploration on an advanced level the theories and elements of music theatre performance and performance. Meant specifically for the students majoring in Fine and Performing Arts, Music Theatre concentration. Corequisites: THEA 470L. Prerequisites: THEA 370 and 370L or consent of instructor. (Fall)

THEA 470L  Music Theatre Performance Workshop Laboratory  
Practical application of dance, music and theatre for the individual or ensemble. One two-hour laboratory per week. Corequisite: THEA 470. Prerequisites: THEA 370 and 370L or consent of instructor. (Fall)

THEA 492  Senior Directing Project: Acting/Directing Capstone  
Advanced directing techniques and production of a one-act play for public viewing. Prerequisite: THEA 431 or consent of instructor. (Spring)

THEA 495  Independent Study  
(1-3)

THEA 496  Topics  
(1-3)

THEA 499  Internship (3,6,9)  
Work in acting/directing, design/tech, music theatre and theatre management, or other situations that meet the instructor's approval. Prerequisites: senior standing and consent of the instructor. (On demand)

TRAV 101  Travel Industry I  
Introduction to tourism and its relationship to the business world, an overview of all sectors of business and the components of the travel, tourism, and hospitality industry. Travel methods, destination resorts, and other businesses which serve the traveler are evaluated. A requirement for all Travel, Recreation, and Hospitality Management students. (Fall)

TRAV 102  Travel Industry II  
Evaluation of job opportunities in the travel, recreation, and hospitality fields. Travel trends, feasibility studies, and marketing techniques are analyzed. Students are provided an opportunity to make preparations and acquire skill instructions for work in the student's career objective. Field trips and visiting lecturers are included. Prerequisite: TRAV 101 or consent of instructor. (Spring)
TRAV 103  Travel and Tourism Marketing Techniques  (3)
Interpretation of marketing problems, strategies, and techniques of industries engaged in serving the traveler, methods of identifying potential markets, preferences, and likely responses to promotional programs of private and governmental travel entities. Required of all Travel, Recreation, and Hospitality Management students. MARK 231 recommended for baccalaureate students. Pre-requisite: TRAV 101 or consent of instructor. (Spring)

TRAV 199  Employment Concepts  (1)
Introduction of the concepts of employment in conjunction with the internship experience. It will provide students with an opportunity to share their concerns with the instructor and other students, allow employers to discuss the internship with students and assist the student in developing his or her career goals. The student will enroll in this course the spring semester immediately preceding the summer they intend to do their TRAV 299 Internship. Prerequisites: TRAV 101. (Spring)

TRAV 201  Management in the Travel Industry I  (3)
An opportunity to explore operating techniques and problems of the major industries involved in tourism, travel, and hospitality through the eyes of the operating manager. Specific skills used within various industries are developed. Prerequisite: TRAV 102 or consent of instructor. (Spring)

TRAV 211  Travel Destinations  (3)
For the individual who plans to work, study, or travel internationally including the professional who is, or plans to be, part of the travel industry. Life styles and current local aspects in foreign destinations are considered and guest lecturers are included. Open to all students but strongly recommended for Travel, Recreation, and Hospitality Management students. (Spring/on demand)

TRAV 215  Computerized Reservations  (3)
An introductory course providing an overview of operation of a computerized reservations system. Prerequisites: TRAV 101 and 102. (Spring)

TRAV 217  Hotel Operations  (3)
Introductory course providing an overview of the operation of a hotel front office. This will include the use of the personal computer and state-of-the-art software for reservations, check-in, check-out and creating the daily report. Prerequisite: TRAV 101. (Fall)

TRAV 295  Independent Study  (1,2)

TRAV 296  Topics  (1,2,3)

TRAV 299  Internship  (12)
Classroom studies combined with salaried work in an experience which relates to the student's career goal. Only for, and required of, Travel, Recreation, and Hospitality students. Credit not available through competency or challenge. Prerequisite: TRAV 102, GPA of 2.00 or higher, or consent of instructor. (Summer)

MESA STATE COLLEGE ADMINISTRATIVE PERSONNEL

ROBERT E. ANTHONY (1984), Director of Intramural Sports; B.S., M.S., Southern Illinois University.

RICHARD E. BACA (1972), Dean of Students; B.S., University of Colorado; M.A., Ed.D., University of Northern Colorado.

VELDA M. BAILEY (1982), Director of Continuing Education; A.A., Mesa Junior College; B.A., M.A., University of Northern Colorado.

PIERRE G. BETTELHI (1985), Director of Management Information Services; Associate Professor of Business Computer Information Systems; B.S., Southern Colorado State College; M.S., Colorado State University.

TINA BRENNAN (1992), Assistant Controller; B.A., Mesa State College.

JAMES BUCHAN (1996), Head Coach Women's Soccer; B.S., St. Francis Xavier University; M.A., Pacific Lutheran University.

LARRY D. CACKLER (1993), Director of Human Resources; B.S., Mesa State College.

RUSTY L. CRICK (1979), Head Volleyball Coach; NCAA Compliance Officer; Assistant Athletic Director; B.S., M.A., Western State College.

LINDA DU (1995), Assistant Director, Administrative Computer Services; B.A., Beijing College of Economics; M.B.A., State University of New York-Buffalo.

JILL ECKARDT (1996), Director of Housing; B.S., University of Wisconsin-Whitewater; M.S., Western Illinois University.

PATRICIA ELLIOTT (1995), Head Women's Tennis Coach; B.S., University of Nevada-Las Vegas.

TAMMY L. ERICKSON-PIPER (1990), Assistant Director of Housing and Residential Life; B.B.A., Mesa State College.

MICHAEL GALLAGHER (1996), President; B.B.A., Southwest Texas State University; M.B.A., Ph.D., Texas A & M University.

MARGE GARNEAU (1992), UTEC, Business Manager; E.S., Colorado Christian University.

JAY P. GASS (1991), Controller; B.A., Mesa State College.

JOSEPH A. GIARRATANO (1994), Head Baseball Coach; B.A., University of Northern Colorado; M.S., City University Los Angeles.

RONALD GRAY (1988), Assistant Vice President for Financial and Administrative Services; Director of Physical Plant; B.S., South Dakota School of Mines and Technology.

A. RAY GREEB (1983), UTEC, Resource/Facilities Director, Professor of Applied Technology; B.A., M.A., University of Northern Colorado.

MARY GROVES (1996), Assistant Controller; B.S., Mesa State College.
JEFFREY M. HAMMER (1996), Assistant Director of Admissions (Denver); B.A., Heidelberg College.

THOMAS HARRIS (1991), Assistant Reference Librarian; B.S., M.L.I.S., University of Wisconsin.

JIM HEAPS (1991), Men’s Head Basketball Coach; B.S., Mesa State College; M.S., Southern Illinois University.

JAY W. HOOD (1994), Head Football Coach; B.A., Ohio Wesleyan University; M.Ed., Bowling Green State University.

PAUL A. JONES (1994), Dean of Enrollment Management; B.S., M.S.S., Utah State University.

SYLVIA M. JONES (1994), Director of Financial Aid; B.S., Utah State University; M.B.A., Western State College.

JANEEN KAMMERER (1990), Vice President for Financial and Administrative Services; B.S., University of Colorado.

ROBERT KALLINA (1995), Director, Student Recreation Center; B.S., University of Texas-Austin; M.A., Washington State University.

MARK R. KASSELHUT (1994), Head of Media Services; B.S., M.A., Central Missouri State University.

KATRINE KAUFMANIS (1992), Director of Public Information; B.A., Mesa State College; M.P.A., Arizona State University.

BENJAMIN R. KEEPER (1991), Assistant Director of Continuing Education; A.A.S., Northeastern Junior College; B.S., M.Ed., Ph.D., Colorado State University.

STEVE KIRKHAM (1992), Head Women’s Basketball Coach; B.A., University of Northern Colorado; M.S., Ph. Hays State University.

CURT MARTIN (1995), Assistant Director, Financial Aid; B.A., University of Nebraska-Kearney.

KATE MONTET (1995), Publicity/Box Office Manager.

SUSAN M. MOORE (1982), Bookstore Manager; B.A., Chestnut Hill College.

KRISTEN MORT (1995), Head Softball Coach; B.A., Mesa State College.

GERALD N. NOLAN (1984), Assistant Director, Academic Computer Services; B.A., Northern Illinois University; M.A., University of Oregon.

JAMES PARONTO (1990), Director of Intercollegiate Athletics, B.A., M.A., Adams State College; Ed.D., Brigham Young University.

SHERRI L. PEA (1983), Associate Vice President for Academic Services; B.A., University of Hawaii, M.A., Adams State College.

PATRICIA PICH (1995), Director of College Center; B.A., Central Washington University; M.E., Western Washington University.

MICHAEL POLL (1995), Assistant Director of Admission and Recruitment; B.S., Menlo College; M.A., San Jose State University.

ANDREW J. RODRIGUEZ (1989), Director of Purchasing; B.S., University of Northern Colorado.

ROBERT RYAN (1992), Athletic Trainer; B.A., Colorado University; M.A., University of Northern Colorado.

PATRICK SCHRUTZ (1992), Director of Tutorial and Learning Center; B.S., Eastern Michigan University; M.S., University of Utah.

LORI SLINN (1986), Director of MSC Montrose Center; B.S., Metropolitan State College; M.S., University of Colorado-Denver.

RICHARD THOMAS (1996), Associate Director of Housing; B.S., M.S., Colorado State University.

KERRY TURNER (1994), Coordinator, Academic Advising Center; B.S., Mesa State College.

KATHLEEN R. TOWER (1972), Special Collections/Government Documents Librarian; Assistant Professor of Library Science; B.M.E., M.A., University of Denver; Ph.D., Texas Woman’s University.

DANIEL C. WALKER (1994), Assistant Director of Physical Plant; B.S., Mesa State College.

ELIZABETH WASHBURN (1996), Acting Director of Alumni Relations.

JAN WILLIAMS (1990), Director of Budget and College Services; B.S., Colorado State University.

TEHRI WINDOLPH (1993), Coordinator of Testing Services & Assessment; A.A., Mesa State College.
SANDRA WYMORE (1986), Coordinator, Educational Access Services; B.A., University of Denver.
KERRY YOUNGBLOOD (1992), Director of UTEC; B.S., Oklahoma State University; M.Ed., Colorado State University.

+ Deans of Academic Schools

MESA STATE COLLEGE FACULTY
(Figures in parentheses indicate year of tenure track appointment to Mesa State College professional staff. Prior temporary or part-time service is not indicated.)

DANIEL J. AROSTEGUY (1976), Professor of Economics; B.S., M.S., University of Nevada-Reno; Ph.D., Colorado State University.

MONTE ATKINSON (1985), Associate Professor of Music; B.S., Snow College, Utah; B.F.A., Utah State University; M.M., D.M.A., University of Illinois.

ELIZABETH AUTRY (1995), UTEC, Lecturer of Marketing; B.A., Mesa State College; B.S., Colorado Christian University.

CHARLES W. BAILEY (1965), Professor of Mathematics; B.A., M.A., University of Northern Colorado.

RICHARD BALLARD (1985), Professor of Biology; B.A., M.S., California State University; Ph.D., Utah State University.

MICHAEL BARON (1993), Assistant Professor of Music; B.A., Beloit College; M.A., University of Wisconsin-Madison; D.M.A., Ohio State University.

CATHY BARKLEY (1995), Associate Professor of Mathematics; B.S., Southern Nazarene University; M.S., Purdue University; Ph.D., Denver University.

BRUCE A. BAUERLE (1972), Professor of Biology; B.A., University of Kansas; M.S., University of Missouri-Kansas City; D.A., University of Northern Colorado.

VIRGINIA L. BEEMER (1968), Professor of Early Childhood Ed; Director of Early Childhood Education Program; B.S., M.A., Northern Arizona University.

SUSAN BECKER (1996), Assistant Professor of Psychology; B.A. Reed College; M.A., University of Colorado-Colorado Springs.

RICHARD L. BERKEY (1967), Associate Professor of English; B.A., Fort Lewis College; M.A., Eastern New Mexico University.

LYNN BIRD (1994), Lecturer of Health Occupations; A.A.S., C.A., College of Health Services, Certification of Respiratory Therapy Technician; BSN, Mesa State College

KENNETH BLAIR (1992), Professor of Business Administration; B.S., M.S., Colorado State University; Ph.D., Arizona State University.

FRED BOLTON (1992), UTEC, Instructional Coordinator; B.A., M.A., Colorado Christian University; Administration License, Colorado State University.

CATHERINE BONAN-HAMADA (1996), Assistant Professor of Mathematics; B.S., M.S., Colorado State University; Ph.D., University of Colorado.

CLARE BOULANGER (1993), Assistant Professor of Anthropology, State University of N.Y.-Plattsburgh; M.A., Ph.D., University of Minnesota.
TERESA S. GARNER (1995), Assistant Professor of Graphic Art; B.F.A., M.A., Stephen F. Austin State University; M.F.A., West Texas A & M.

MICHAEL C. GERLACH (1988), Professor of Theatre; B.S., Fairleigh Dickinson University; M.A., Ph.D., University of Michigan.

GORDON GILBERT (1980), Professor of Physics; B.S., M.S., Ph.D., Massachusetts Institute of Technology.

MICHAEL C. GIZZI (1995), Assistant Professor of Political Science; B.A., St. Michael's College, VT; M.A., Ph.D., The University at Albany, State University of New York.

JUDY GOODHART, R.N. (1990), Associate Professor of Nursing; B.S., Loretto Heights; M.S.N., University of Colorado.

CHAD LEE C. GRABOW (1996), Associate Professor of Computer Information Systems; B.S., Mankato State University; M.S., The American University; M.A., Naval War College; Ph.D., Iowa State University.

THOMAS D. GRAVES (1966), Professor of Counseling and Psychology; B.A., M.A., Adams State College; Ed.D., University of Northern Colorado.

DONNA K. HAINER (1967), Associate Professor of Mathematics; B.A., University of Northern Colorado; M.A.T., Colorado State University.

CHARLES HARDY (1979), Professor of Art; B.A., Colorado State University; M.F.A., University of Arizona.

TIMOTHY S. HATTEN (1995), Assistant Professor of Business Administration; B.A., Western State College; M.S., Central Missouri State; Ph.D., University of Missouri-Columbia.

EDWIN C. HAWKINS (1963), Professor of Mathematics; Chairperson, Department of Computer Science, Mathematics, and Statistics; B.A., M.A., University of Northern Colorado.

MYRA D. HEINRICH (1985), Professor of Psychology; B.S., M.A., Ph.D., University of North Dakota-Grand Forks.

BETHANY R. HOFFMAN (1994), Assistant Professor of Nursing; B.S.N., University of Cincinnati; M.S., University of Colorado.

FORREST HOLGATE (1979), UTEC, Assistant Professor Applied Technology-Electric Lineman; B.A., Texas Tech University.

EDWARD C. HURLET (1976), Professor of Biology; B.A., Western State College; M.S., Purdue University; Ph.D., University of Missouri-Columbia.

MICHELLE INTERMONT (1995), Assistant Professor of Mathematics; B.A., College of the Holy Cross; M.S., Ph.D., University of Notre Dame.

PETER IVANOY (1995), Assistant Professor of Theatre; A.A., Manatee Community College; B.A., Western Illinois University; M.F.A., Florida State University.

STACI JENKS (1995), UTEC, Lecturer of Applied Math; B.S., University of Northern Colorado.

PATRICIA JOFFER (1996), Assistant Professor of Sociology; B.S., M.A., University of South Dakota; Ph.D., South Dakota State University.

JAMES B. JOHNSON (1967), Professor of Geology; Chairperson, Department of Physical and Environmental Sciences; B.A., University of Colorado; M.S., University of Utah; Ph.D., University of Colorado.

ROBERT L. JOHNSON (1962), Professor of English; B.A., M.A., Western State College; Ph.D., University of Northern Colorado.

VERNE JOHNSON (1989), Professor of Geology; B.A., M.S., Southern Illinois University; Ph.D., University of Tennessee.

J. PHILIP KAVANAGH (1994), Associate Professor of Mathematics; B.Sc., M.Sc., University College Dublin, National University of Ireland; Ph.D., University of Wisconsin.

WALTER A. KELLEY (1977), Professor of Biology; B.A., M.S., California State University-Northridge; Ph.D., Colorado State University.

CARL M. KERNS (1969), Professor of Mathematics; B.A., Western State College; M.S., University of Oregon; Ed.D., University of Northern Colorado.

JOHN KNAPPENBERGER (1992), Assistant Professor of Business Administration; B.A., University of Central Florida; M.B.A., University of Colorado-Denver; Ph.D., University of Colorado-Boulder.

ROBERT KRIEBEL (1993), Professor of Physics; Dean, School of Natural Sciences and Mathematics; B.S., University of Notre Dame; M.S., Ph.D., University of California.

ANN LAMBERTH (1993), Assistant Professor of Nursing; B.S.N., Columbia Union College; Maryland; M.S.N., Loma Linda University.

GUY LEADBETTER (1993), Assistant Professor of Physical Education; B.A., Bowdoin College; Brunswick; M.E., M.S., University of Montana; Ph.D., University of New Mexico.

DANIEL W. MacKENDRICK (1964), Professor of English; B.A., M.A., Western State College.

LAWRENCE J. MADSEN (1988), Associate Professor of Chemistry; B.S., Oregon State University; M.S., Ph.D., University of Washington.

BRUCE MANCHEER (1990), UTEC, Lecturer of Art; B.F.A., University of Houston.

STAN MARTINEAU (1993), UTEC, Lecturer of Applied Technology-Transportation.

ROBERT W. MAYER (1987), Assistant Professor of Travel, Recreation and Hospitality; B.A., M.S., University of Northern Colorado.

JEANNE MAYFIELD (1995), Assistant Professor of Nursing; B.S.N., Mesa College; M.S., University of Colorado.

JACKIE McANINCH (1986), UTEC, Lecturer of Applied Technology-CAD; A.A.S., Mesa State College; B.S., Colorado State University.

GARY L. MCCALLISTER (1973), Professor of Biology; Chairperson, Department of Biological Sciences; B.S., M.S., Brigham Young University; D.A., University of Northern Colorado.

DENISE McGINNIS (1993), Associate Professor of Business Computer Information Systems; B. Ed., M.B.A., Ph.D., University of Toledo.

DARREL MCKAY (1995), UTEC, Lecturer of Welding; Vocational Certificate, Colorado State University.

DENISE McKENNEY (1996), Associate Professor of Biology; B.S., New Mexico State University; Ph.D., North Carolina State University-Raleigh.

BETSY McLOUGHLIN (1995), Assistant Professor of Foreign Language; B.A., University of Kansas; M.A., University of Wisconsin; M.A.T., University of New Mexico; Ph.D., University of New Mexico.

BETTY McMECHEN, C.P.A. (1986), Professor of Accounting; B.S. Ed., University of Arkansas; M.S., Colorado State University.

CARRIE McYEOAN WARENG (1996), Assistant Professor of Biology; B.S., D.V.M., Colorado State University.

WAYNE MEUKER (1966), Professor of Sociology; B.A., M.A., Western State College; Ph.D., University of Colorado.

BARRY P. MICHRINA (1990), Associate Professor of Anthropology; B.S., St. Francis College; M.S., Colorado State University; Ph.D., Pennsylvania State University.

JESSICA MILLER (1996), Assistant Professor of Psychology; B.A., M.S., University of Wisconsin-Laramie.

PRASANTA K. MISRA (1988), Professor of Physics; B.S., M.S., Utkal University, India; Ph.D., Tufts University.

JERRY W. MOORMAN (1990), Professor of Business Administration; M.Ed., Delta State University; B.S., Ed.D., Mississippi State University.

LAVERNE MOSHER (1990), Associate Professor of Art; B.A., University of Northern Colorado; M.F.A., Arizona State University.

DELLA MOYTRAM (1996), Associate Professor of Mathematics; B.A., College of St. Teresa; M.S., Illinois Institute of Technology; Ph.D., University of Colorado.

HONORA MAUREEN NEAL (1995), Assistant Professor of English; B.A., University of Denver; M.A., Western State College; Ph.D., Texas A & M University.

TIMOTHY NOVOTNY (1989), Professor of Statistics; B.A., B.S., University of Notre Dame; M.A., Creighton University; M.S.B.A., University of Denver; Ph.D., University of Wyoming.

DOUGLAS A. O'ROARK (1994), Assistant Professor of History; B.A., M.A., Ph.D., The Ohio State University.

ERIK PACKARD (1996), Assistant Professor of Mathematics; B.S., M.S., Ph.D., Texas Tech University.

CYNTHIA PATTN (1993), Assistant Professor of English; B.A., University of Kansas, M.A., Ph.D., Indiana University.

LORI PAYNE (1996), Associate Professor of Mathematics and Computer Science; B.A., Mesa College; M.S., New Mexico Institute of Mining & Technology; Ph.D., University of Northern Colorado.

JOSE M. PEER (1988), Professor of Political Science; B.A., M.A., University of Nevada; Ph.D., Washington State University.

KAREN M. PERRIN (1977), Associate Professor of Physical Education; Chairperson, Department of Human Performance and Wellness; B.S., Eastern New Mexico University; M.S., Kansas State University.
DONALD PETERSON (1993), Associate Professor of Recreation; B.S., University of South Dakota; M.S., Springfield College; Ph.D., University of Oregon
RANDY PHILLIS (1993), Assistant Professor of English; Acting Chairperson, Department of Languages, Literature and Communications; B.A., M.A., Wichita State University; Ph.D., Oklahoma State University.
HOUSTON H. POLSON (1994), Associate Professor of Business Administration; Chairperson, Department of Business Administration; B.S., North Carolina State University; M.B.A., University of Montana; J.D., Creighton University
JIHAD QADDOUR (1993), Assistant Professor of Mathematics and Engineering; B.S., Damascus University; M.S., Ph.D., Wichita State University.
GARY M. RADER (1995), Associate Professor of Mathematics; B.A., M.A., Ph.D., University of Pennsylvania; M.B.A., University of Phoenix.
LYON G. RATHBUN (1994), Assistant Professor of English; B.A., Ph.D., University of California, Berkeley; M.A., San Francisco State University. PAUL L. REDDIN (1970), Professor of History; B.A., Adams State College; M.A., Ph.D., University of Missouri-Columbia.
JOHN D. REDIFER (1994), Assistant Professor of Political Science; B.A., University of Maryland; M.A., Ph.D., Colorado State University.
DAVID M. REES (1983), Professor of Economics; B.S., Utah State University; M.S., Ph.D., University of Oregon.
KRISTINE L. REUSS, R.N. (1990), Associate Professor of Nursing; B.S., M.S.N., University of Colorado.
JOSEPH L. RICHARDS (1995), Assistant Professor of Chemistry; B.A., University of San Diego; Ph.D., University of North Carolina.
JANINE RIDER (1991), Acting Dean, School of Humanities and Social Sciences; Associate Professor of English; B.A., Miami University; M.A., University of Michigan; Ph.D., Indiana University of Pennsylvania.
MARGARET S. ROBB (1976), Associate Professor of Speech and Drama; B.A., M.A., University of Michigan.
DAVID E. ROGERS, C.P.A. (1975), Acting Dean, School of Professional Studies; Professor of Accounting; B.A., University of New Mexico; M.B.A., Golden Gate University.
CHERYL ROY (1992), Assistant Professor of Nursing; University of Iowa; M.S.N., University of Colorado-Denver.
JAMES P. RYBAK, Professional Engineer, (1972), Professor of Engineering and Mathematics; B.S.E.E., Case Western Reserve University; M.S., University of New Mexico; Ph.D., Colorado State University.
ANN J. SANDERS (1971), Associate Professor of Dance; B.A., Eastern Washington State College; M.A., University of Colorado.
P. DOUGLAS SCHARLATE (1978), Assistant Professor of Physical Education; B.A., Central College; M.A., Adams State College.
BETTE A. SCHANS (1994), Assistant Professor of Radiologic Technology; Director of Radiologic Technology Program; B.S., Metropolitan State College; M.S., University of Colorado.
PAUL G. SCHNEIDER (1969), Associate Professor of Music; B.A., M.A., University of Northern Colorado.
LYLE SCHRADER (1992), UTEC, Lecturer of Applied Technology-Transportation; B.A., Emporia State University.
STEVEN C. SCHULTE (1989), Associate Professor of History; Chairperson, Department of Social and Behavioral Sciences; B.A. University of Wisconsin-River Falls; M.A. Colorado State University; Ph.D., University of Wyoming.
GAYLA SLAUSON (1993), Assistant Professor of Business Computer Information Systems; B.A., Mesa State College; M.B.A., University of Southern Colorado.
MICHAEL P. SLAUSON (1990), Assistant Professor of Business Administration; B.S., Utah State University; M.S., University of Wisconsin, M.B.A., University of So. Colorado.
ROBERT P. SOWADA (1966), Associate Professor of Foreign Languages; B.A., M.A., University of Wyoming.
GENE H. STARBUCK (1974), Professor of Sociology; B.A., M.A., Ph.D., University of Colorado.
THEODORE E. SWANSON (1974), Professor of Recreation; B.S., M.A., University of Northern Colorado; Ph.D., Colorado State University.
KEAH CHOON TAN (1996), B.S., M.B.A., University of South Alabama; Ph.D., Michigan State University.
BARRY C. THARAUD (1979), Professor of English; B.A., M.A., Ph.D., University of California-Santa Barbara.
HARRY A. TIEMANN, JR. (1962), Professor of Psychology; B.A., M.A., University of Colorado; Ph.D., Colorado State University.
KARL F. TOPPER (1991), Associate Professor of Environmental Restoration; B.S., University of Florida; M.S., Colorado State University; Ph.D., Utah State University.
KARENTUINSTRA (1990), Associate Professor of Teacher Certification; B.S., M.S., Drake University; Ph.D., Colorado State University.
BRIAN T. VERNON (1995), Assistant Professor of Dance; B.F.A., University of the Arts, Philadelphia, PA; M.F.A., University of California, Irvine.
ROBERT WANG (1994), Assistant Professor of Environmental Restoration Technology; B.S.E.E., M.S.E., University of Michigan.
GERALD WEAVER (1991), Associate Professor of Mass Communication; B.A., University of the Pacific; M.A., University of Mississippi.
RUSSELL, WALKER (1993), Assistant Professor of Environmental Restoration; A.B., Oberlin College; Ph.D., Iowa State University.
PAUL WELLS (1978), UTEC, Assistant Professor of Applied Technology-Auto Collision; A.S., Mt. San Jacinto College; B.A., University of Redlands.
STEVEN WERMAN (1990), Associate Professor of Biology; B.S., M.S., California State University; Ph.D., University of Miami.
SUSAN WHITE (1992), Assistant Professor of Nursing; R.N., B.S.N., Mesa State College; M.S., University of Arizona.
RON WILCOX (1990), UTEC, Assistant Professor of Applied Technology-Electronics; A.A.S., Mesa Junior College; B.S., Arizona State University; M.S., Houston Baptist University.
MARY L. WOODBURY (1994), Assistant Professor of Music; Director of the Band; B.M., University of Cincinnati; M.A., George Mason University; D.M.A., University of Cincinnati.
MARILYN WOUNDED HEAD (1993), Assistant Professor of Art; B.F.A., Minneapolis College of Art/Design; M.F.A., University of South Dakota.
ZHONG CHAO WU (1989), Professor of Mathematics; B.S., China University of Science and Technology; Ph.D., University of Cambridge.
SUSAN A. YEAGER (1988), Professor of Physical Education; B.A., Luther College; M.S., South Dakota State; P.E.D., Indiana University.
MARY E. ZIMMERER (1988), Professor of Accounting; B.A., M.S., University of Wyoming; Ph.D., Colorado State University.

MES A S T AT E COLLEGE VISITING PROFESSORS

CARL ABBOTT (1985), Wayne N. Aspinall Professor of History; B.A., Swarthmore College; M.A., Ph.D., University of Chicago.

STEPH EN BENNET (1995), Wayne N. Aspinall Professor of History; B.S., M.S., Illinois State University, Normal; Ph.D., University of Illinois, Urbana-Champaign.

ALAN A. BLOCK (1995), Wayne N. Aspinall Professor of History, Political Science, and Public Affairs; A.B., Ph.D., University of California-Los Angeles; M.A., California State University.

PETER G. BOYLE (1989), Wayne N. Aspinall Professor of History and American Studies; M.A., Glasgow University, Scotland; Ph.D., University of California, Los Angeles.

JO ANNE CARLSON BROWN (1988), Cosmosco Professor of Religious Studies; A.B., Mount Holyoke College; M.Div., Garrett Theological Seminary; Ph.D., Boston University.

WALKER CONNOR (1992), Wayne N. Aspinall Professor of Political Science; John R. Reitmayer Professor of Political Science, Trinity College, Hartford, Connecticut.

ROGER DINGMAN (1991), Wayne N. Aspinall Professor of History; B.A., Stanford; M.A., Ph.D. Harvard.

ALLAN DUFFUS (1989), Professor of Accounting; Charles Sturt University, Australia.

EMMANUEL FELDMAN (1987 and 1991), Cosmosco Professor of Religious Studies; B.S., M.A., Johns Hopkins University; Ph.D., Emory University.

RICHARD FUNSTON (1987), Wayne N. Aspinall Professor of Political Science; B.A., M.A., Ph.D., University of California-Los Angeles; J.D., University of San Diego.

DAN McCOIL (1995), Cosmosco Professor of Religious Studies; B.A., Metropolitan State College; M.A., St. Thomas Seminary.

ROBERT A. MORTIMER (1986), Wayne N. Aspinall Professor of Political Science; B.A., Wesleyan University; M.A., Ph.D., Columbia University.

FR. THOMAS N. MUNSON (1990 AND 1992), Cosmosco Professor of Theology; A.B., Lovola University; Ph.L., S.T.L. West Baden College; Ph.D., University of Louvain, Belgium.

MORT PERRY (1996), Cosmosco Professor of Religious Studies; B.A., Rutgers University; M.A., University of Wyoming; M. Phil., Syracuse University.

GLEND A RILEY (1993), Wayne N. Aspinall Professor of History, Political Science and Public Affairs; Ph.D., University of Ohio.

WILLIAM G. ROBBINS (1990), Wayne N. Aspinall Professor of History; B.S. Western Connecticut; M.A., Ph.D., University of Oregon.

FRANK ROSENTHAL (1994), Cosmosco Professor of Theology; Ph.D., University of Pittsburgh.

ZACHARY A. SMITH (1994), Wayne N. Aspinall Professor of History, Political Science and Public Affairs; B.A., California State University, Fullerton; M.A., Ph.D., University of California, Santa Barbara.

JEROME O. STEFFEN (1988), Wayne N. Aspinall Professor of History; B.S., University of Wisconsin, Madison; M.A., Eastern Michigan University; Ph.D., University of Missouri.
BUILDINGS AND EQUIPMENT

Houston Hall (1940), the first permanent building on the present campus, includes classrooms and computer laboratories where a variety of subject areas are taught such as business, humanities, and social and behavioral sciences. This structure was totally remodeled in 1979-80.

Wubben Hall (1962), contains classrooms, laboratories, staff offices and storage areas for physical and life sciences, mathematics, computer sciences, and engineering. Special features of the building are an octagonal lecture hall which seats one hundred persons, an electron microscopy laboratory, and the only herbarium in western Colorado. An expansion to the existing science building is scheduled to be completed by the spring of 1998.

Walter Walker Fine Arts Center (1969), includes classroom and studio facilities for art, music, and drama together with a multi-purpose Little Theatre.

William A. Medesy Hall (1969, remodeled in 1982), houses offices, classrooms, and laboratories for the Nursing and Radiologic Science programs, and Early Childhood Education. The south end of Medesy is scheduled to be remodeled in 1996.

Roe F. Saunders Physical Education Center (1968), provides facilities for a variety of physical education and recreation activities. Major features include an all-purpose gymnasium, swimming and diving pools, locker and shower rooms, classrooms, and office space for the Department of Human Performance and Wellness faculty. Physical education and practice athletic fields are located immediately west of the Physical Education Center with tennis courts to the north of the facility. Saunders Fieldhouse is scheduled to be remodeled during 1996.

The W. W. Campbell College Center (1962, remodeled 1990-91), contains a bookstore, art gallery, outdoor program, student government offices, radio station, school paper, game room, snack bar, information desk, dining hall, outdoor cafe, student lounges, and meeting rooms. Career Counseling Services, also located in the Campbell College Center, offer counseling, career development, employment and placement services.

The Student Recreation Center opened in January of 1996. The recreational gymnasium complex consists of two basketball courts, volleyball, badminton, team handball and indoor soccer areas. A large fitness area is equipped with weights and cardiovascular machines. An indoor track and a 28 foot high climbing wall are also part of the 33,000 square foot facility.

Three 200-student residence halls—Tolman, Rait, and Pinon Halls (1966, 1967), provide comfortable living quarters for students. Most of the rooms are doubles, but a few single rooms are available. All rooms are furnished with modern, wall-hung furniture. A new residence hall is scheduled for completion by the fall of 1997.

Walnut Ridge Apartments (1978), are available to sophomores, juniors, and seniors. Forty-eight attractively furnished two- and three-bedroom units provide complete housekeeping facilities.

Both the Academic Advising Center and the Housing/Residence Life office are located in the Student Life Center.

The Auto-Tutorial Laboratory houses audio-visual, library aids, and simulated patient rooms for specialized training in Nursing and Radiologic Science programs.

Little Mavericks Learning Center is organized for the convenience of Mesa State College students who have small children.
Lowell Heiny Hall (1967), a four-level building housing faculty and administrative offices, was totally remodeled in 1986-87.

The John U. Tomlinson Library (1986), expands the traditional library concept to include storage and circulation for all commonly used forms of information such as microfilm, microfiche, audio tapes, video tapes, slides, films, records and computer disks.

The Continuing Education Center is located at 1170 Elm Avenue. It houses offices for Continuing Education staff, Adult Basic Education and Agriculture personnel and the Coordinator for Non-traditional students.

The Industrial Energy Training Center (1982), houses staff offices, training areas and classrooms. Additionally, the College experimental farm, Colorado Environmental Education and Training (CEET) Laboratory and the Lineworker program are at this site. Located at 29 and D Roads, this facility is approximately three miles from the main campus.

The Tilman M. Bishop Unified Technical Education Center (1992) houses staff offices, shops, a computer laboratory, training areas and classrooms. UTEC serves high school, college, and continuing education students. Additionally, the facility is available on a contract basis for use by area business and industry. UTEC is located on Blichmann Avenue in the Foresight Industrial Park.

The Mesa State College Montrose Center contains classrooms, a computer lab, a telecommunications lab, and staff offices. It is a leased facility located at 234 S. Cascade in Montrose, Colorado. The facility was occupied in 1996 and serves college and continuing education students.

(UTEC)

MESA STATE COLLEGE
CATALOG SUPPLEMENT
1997-98
TILMAN M. BISHOP
UNIFIED TECHNICAL EDUCATION CAMPUS

This supplemental section to the Mesa State College catalog contains programs and course information for the Tilman M. Bishop Unified Technical Education Campus (UTECH) and is provided for the convenience of students pursuing degrees and taking courses at UTECH.

All of the rules, regulations, admission requirements, academic calendar, registrations, costs, graduation requirements, etc., as delineated in the main body of this catalog apply to students at UTECH.

The Unified Technical Education Campus, built in 1992, houses staff offices, shops, a computer lab, training areas and classrooms. Located in Grand Junction at 2508 Blichmann Avenue in the foresight Industrial Park, UTECH serves high school, college, and continuing education students.

Program Sheet
A program sheet has been prepared for each degree or certificate offered, specifying in detail the exact course requirements for each. Faculty advisers maintain program sheets for the degrees and certificates offered at UTECH. Each student is urged to consult his/her adviser to obtain a program sheet upon enrollment. It is the student's responsibility to maintain the program sheet demonstrating compliance with the degree requirements. The completed program sheet must accompany the petition to graduate and be filed with the Director of Academic Records in order for a student to be considered for graduation. Refer to the "Graduation Requirements" section of the main catalog for further details.

Overload
Students desiring to take more than 21 credit hours during a semester are strongly encouraged to consult with their advisers prior to registration.

Independent Study
Independent study permits the motivated student an opportunity to expand his or her body of knowledge beyond the scope of the standard curriculum. In endeavors to foster qualities of self initiative, organizational skills, self discipline and independent thinking. It is expected that the student will engage in intensive study and research of the topic.

Independent Study satisfies neither general education requirements nor specific course requirements. Independent Study hours may be taken as elective hours only.

For further information on Independent Study, refer to the main section of the catalog.

Special Topics Courses
Topics courses offered to those students desiring material of special interest within a specific discipline not considered elsewhere in the curriculum. Prerequisites vary with course material and enrollment requires consent of instructor.

Internship
A component of the students educational program which is designed to provide experience with on-the-job activities or projects which are directly related to the students major field of study. An internship may be required as part of a specific discipline or may be used in place of a specific course in a program. Prerequisites vary with programs, and enrollment requires consent of instructor.

Cooperative Education
According to the National Commission for Cooperative Education, "Cooperative Education is a working partnership in which an educational institution joins with an employer in a structured relationship. The basic purpose is that of providing a means whereby a student can combine study at the institution with a work experience which is under the supervision of the employer in order to fulfill the total requirements of a particular educational program."

Cooperative Education is a three-way partnership involving the student, the employer, and the college. There is a great deal of difference between Cooperative Education and simply holding a job. Cooperative Education is based on learning objectives which are related to the student's academic discipline and are established in cooperation with the student, the employer, the faculty adviser, and others at Mesa State College.

Typically, Cooperative Education is open to junior and senior students. Interested students
should consult with their faculty adviser and dean. There are limits in the amount of credit which will apply towards a degree. See ‘Non-Traditional Credits’ in this catalog.

**Preparatory Courses**

Preparatory courses are available in several subjects at Mesa State College. Numbers of such courses are below the 100 level (e.g. DEVL 090, College Success Strategies). These courses are designed for students needing to strengthen their backgrounds before entering college level classes. All courses numbered 001-099 are preparatory in nature, not intended for transfer purposes and will not usually fulfill degree requirements. Students are encouraged to consult with their advisers about the need to register into these classes.

Students who have passed any ENGL class numbered 100 or above will not be permitted to register for credit in any ENGL class numbered below 100. Only the Director of UTEC may approve exceptions to this for students in vocational programs.

Students who have passed any MATH class numbered 100 or above will not be permitted to register for credit in any MATH class numbered below 100.

**Area Vocational School**

Recognizing the national need for better vocationally-trained persons, Mesa State College provides a variety of training opportunities for individuals.

Programs and course offerings are structured to provide job entry, retraining, or skill upgrading. The further the student progresses in a program area, the greater the degree of job skill development experienced.

Students who wish to earn a degree or a certificate must have a high school diploma or a General Education Development (GED) certificate and take the American College Test (ACT) or the Scholastic Aptitude Test (SAT) before enrollment in programs. They must also meet all general education requirements and follow the suggested curriculum for the skill training in which they enroll. Students not seeking a degree or certificate may enroll in individual courses with the consent of the instructors.

A minimum of 15 semester hours of credit beyond that required for the first associate degree must be earned by a student seeking a second associate degree at Mesa State College. A minimum of one semester of residency at Mesa State College is also necessary. In addition, the student must satisfy all specific requirements for the new degree. Only one A.A. and one A.S. degree may be granted to any student, according to state guidelines.

**Degrees and Certificates Available through UTEC:**

**Auto Collision Repair Technology**
- Associate of Applied Science (AAS)
- Certificate of Occupational Proficiency

**Criminal Justice**
- Associate of Applied Science (AAS)—Program in conjunction with Delta Montrose Area Vocational Technical Center

**Electric Lineworker**
- Certificate of Occupational Proficiency

**Electronics Technology**
- Associate of Science in Electronic Engineering Technology (AS)
- Associate of Applied Science (AAS)
- Certificate of Occupational Proficiency

**Manufacturing Technology (AS)**

**Manufacturing Technology Cluster**
- Associate of Applied Science with an emphasis in:
  - Computer Aided Drafting (AAS)
  - Machine Technology (AAS)
  - Welding (AAS)
- Certificate of Occupational Proficiency with an emphasis in:
  - Computer Drafting Technology
  - Machining
  - Welding
Transportation Services Cluster

Associate of Applied Science with an emphasis in:
- Automotive Technology (AAS)
- Diesel Technology (AAS)
Certificate of Occupational Proficiency with an emphasis in:
- Automotive Service
- Diesel Mechanics

IMPORTANT NOTE:

As indicated some of the AAS and Certificate programs above have emphases available under the degree or certificate from which a student may choose. Before graduating with a degree or certificate offering emphases, a student may complete requirements for more than one of the emphases and show this on the petition to graduate. However, after a degree or certificate has been granted, if courses are taken that would have satisfied requirements for an additional emphasis, the additional emphasis cannot be added to the degree already granted. The coursework will, of course, show on the student's transcript.

Courses designed to meet special employment needs are offered at various locations and times throughout Mesa County if minimum enrollment requirements can be met.

On the next pages, in alphabetical order, are the programs of study available at UTEC, followed by a description of each course specific to UTEC. General education course descriptions can be found in the "Course Description" section of the main catalog.
AUTOMOTIVE COLLISION REPAIR

Associate of Applied Science

Practical application covers all phases of painting, metal working, and collision repair. The training includes learning necessary shop skills, theory, principles and related subjects needed to enter and then progress competitively in the collision repair career fields. The curriculum follows ICAR and ASE national competency standards. Students may enter the program any semester.

Minimum semester hours required: 74

1. Course requirements for this degree

   a. Six (6) semester hours of English satisfied by completing any one of the following sequences:
      ENGL 090 and 111
      or
      ENGL 111 and 112, 115, 121, or 129

   b. Six (6) semester hours selected from the following:
      ANTH 201, 222
      HIST 101, 102, 131, 132
      ECON 201, 202
      136, 137
      ENGL 131 and 132 or 133
      POLS 101, 261
      145, 150
      PSYC 150
      GEOG 103
      SOCO 144, 260

   c. Mathematics

   d. Human Performance and Wellness

   e. All of the following courses:
      AUBF 108 Intro to Auto Body Repair (1)
      AUBF 108L Intro to Auto Body Repair Lab (3)
      AUBF 109 Auto Body Repair & Preparation (1)
      AUBF 109L Auto Body Repair & Preparation Lab (3)
      AUBF 118 Intro to Painting/Preparation (1)
      AUBF 118L Intro to Painting/Preparation Lab (3)
      AUBF 119 Complete Auto Painting (1)
      AUBF 119L Complete Auto Painting Lab (3)
      AUBF 130 Auto Reconditioning (1)
      AUBF 130L Auto Reconditioning Lab (2)
      AUBF 140 Suspension and Mechanical Components (1)
      AUBF 140L Suspension/Mechanical Components Lab (1)
      AUBF 150 Auto Body Welding (1)
      AUBF 150L Auto Body Welding Lab (2)
      AUBF 200 Panel/Spot Painting (2)
      AUBF 200L Panel/Spot Painting Lab (4)
      AUBF 210 Unibody and Frame Repair (2)
      AUBF 210L Unibody and Frame Repair Lab (2)
      AUBF 228 Bolt-on Body Service (1)
      AUBF 228L Bolt-on Body Service Lab (2)
      AUBF 229 Extensive Damage Repair (1)
      AUBF 229L Extensive Damage Repair Lab (2)
      AUBF 238 Weld-on Body Service (1)
      AUBF 238L Weld-on Body Service Lab (3)
      AUBF 239 Complete Collision Repair (1)
      AUBF 239L Complete Collision Repair Lab (3)
      AUBF 250 Estimating (3)
      UTEC 220 Shop Management (3)
2. Electives

3. Special requirements
   Students seeking an Associate of Applied Science degree must obtain a minimum of 2.00 ("C") in each required AUBF course and must satisfy all other graduation requirements.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

5. Additional expenses
   In addition to textbooks, students may be required to purchase safety glasses, tools, and materials costing approximately $450.00 for the program. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
AUTOMOTIVE COLLISION REPAIR
Certificate of Occupational Proficiency

This program of study may begin in either fall or spring semester.
Minimum semester hours required: 34

CRIMINAL JUSTICE
UNIFIED TECHNICAL EDUCATION CAMPUS/DELTA MONTROSE
Associate of Applied Science

Through a cooperative program with the Unified Technical Education Campus (UTEC) and Mesa State College of Grand Junction, students at the Delta Montrose Area Vocational Technical Center may enroll in a AAS degree program.

Students seeking the AAS degree would enroll in the Criminal Justice Program and the Delta/Montrose Center and complete the required general education courses through Mesa State.

Programs for transfer students will be adjusted on an individual basis by both Delta/Montrose Area Vocational Technical Center, UTEC and Mesa State College. (Resident requirement and 16 credit hour minimum at Mesa State must be met to qualify for a degree).

Minimum semester hours required: 71

1) Criminal Justice core classes and Detentions/Corrections may be taken for a vocational certificate.

2) 24 units of the Police Science emphasis are applied toward the AAS degree.

3) A student must successfully complete all 30 semester credits of the Police Science (Academy) to receive a certificate.

*Optional—student may elect to take either CRJ 164 at DMAVTC or HPWE aerobic/activity class from Mesa State College.

** Or Police Academy

Special requirements: Contact the Delta-Montrose Area Vocational Technical Center 970-874-7671. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

Additional expenses: Contact Delta-Montrose Area Vocational Technical Center for fees and charges for CRJ courses.
ELECTRIC LINEWORKER
Certificate of Occupational Proficiency

Students receive field training and practical theory in all phases of powerline installation and maintenance. An outdoor school laboratory covers climbing, setting and removing various sizes of poles; guy work; conductors; transformers; street lights; installation of services; and the use and care of safety equipment. Climbing and working on poles and towers is required. Prospective students are encouraged to contact the college about physical requirements. This program begins **only** in the fall semester of each year.

Minimum semester hours required: 39

2. Special requirements and recommendations
   a. Students will be required to have current First Aid and CPR certification before they successfully complete the requirements of this program. This may be achieved by any of the following: (1) holding current cards; (2) obtaining American Red Cross "Standard" or "Advanced" rating and American Heart Association or equivalent certification, or (3) successfully completing HPWA 265 offered by Mesa State College.
   b. Summer and/or Fall Semester
      ELCL 199, Internship (6 semester hours, 640 contact hours) is required for any students selected to participate in the Western Area Power Administration (WAPA) on-the-job training program. This portion is not a part of the program approved for VA benefits.
   c. Students seeking a Certificate of Occupational Proficiency must obtain a minimum of 2.00 ("C") in each listed course, except ELCL 111 and ELCL 120, and must satisfy all other graduation requirements.

3. See faculty adviser for a program sheet detailing exact and complete requirements for this certificate.

4. Additional expenses
   Students will be required to purchase or have approximately $560.00 in tools and personal equipment. This does not include required textbooks or an adequate pair of workbooks. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
ELECTRONICS TECHNOLOGY
Associate of Applied Science

Electronic science and applied electronics with emphasis areas in computers (hardware/software concepts and applications), industrial control circuits (automation and robotics) and communications. With approval of an instructor, a student may enter the program at any time (open entry) and study at his own pace.

Minimum semester hours required: 68

1. Course requirements for this degree

a. Six (6) semester hours of English satisfied by completing any one of the following sequences:
   ENGL 111 and 112, 115, 121, or 129

b. Six (6) semester hours selected from the following:
   ANTH 201, 222
   HIST 101, 102, 131,
   ECON 201, 202
   132, 136, 137
   ENGL 131 and 132 or 133,
   POLS 101, 261

e. All of the following courses:*  
   ELCT 117, 117L DC Passive Circuits and Lab (4)
   ELCT 118, 118L AC Passive Circuits and Lab (4)
   ELCT 132, 132L Personal Computers I and Lab (4)
   ELCT 164, 164L Electronic Circuits I and Lab (4)
   ELCT 165, 165L Applied Digital Circuits and Lab (4)
   ELCT 230, 230L Electronic Circuits II and Lab (4)
   ELCT 254, 254L Industrial Circuits and Lab (5)
   ELCT 256, 256L Electronic Communication and Lab (4)
   ELCT 260, 260L Personal Computers II and Lab (5)
   ELCT 265, 265L Personal Computers III and Lab (4)
   ELCT 279, 279L Electronic Troubleshooting and Lab (4)
   ELCT 280, 280L Project Design and Fabrication and Lab (4)

*Students may, with Electronics adviser approval, substitute the following courses for electronic courses except for ELCT 279/279L and ELCT 280/280L: ELCT 152; ELCT 262/262L; ELCT 267/267L and CSCI 120.

2. Special requirements and recommendations
   Students seeking an Associate of Applied Science degree must obtain a minimum of 2.00 ("C") in each ELCT course and must satisfy all other graduation requirements.

3. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

4. Additional expenses
   Student will be required to have an appropriate multi-meter (20,000 ohms/volts or more); hand tools, costing approximately $60.00; and a scientific calculator. A power supply kit for ELCT 117L for approximately $32.00. This does not include the cost of required textbooks. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.

These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
ELECTRONIC ENGINEERING TECHNOLOGY

Associate of Science

Engineering technology has become very important in the fields of electronics and computer hardware. The engineering technologist works closely with engineers and technicians to assure proper installation and optimum operation of electronic systems. The Associate of Science program is designed specifically to transfer to a four-year baccalaureate degree program in the same field. It, by itself, is not designed for specific employment preparation after only two years of study. Ten specified electronics courses are the same as would be taken as a part of the Certificate or A.A.S. degree program in Electronics Technology and will apply toward the completion of this degree. The curriculum is in compliance with State agency policy governing the subject matter content and purpose of Associate of Science degrees.

Minimum semester hours required: 66

3. Special recommendations
   
   It is recommended that the student take PHYS 111, 111L, 112 and 112L.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

5. Additional expenses
   
   Student will be required to have an appropriate multi-meter (20,000 ohms/volts or more), hand tools costing approximately $60.00 and a scientific calculator. A power supply kit for ELCT 117L, approximate cost is $32.00. This does not include the cost of required textbooks. These costs may vary with student need and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
MANUFACTURING TECHNOLOGY
Associate of Science

The Manufacturing Technology emphasis is designed primarily to transfer to a four-year Baccalaureate degree program in one of several manufacturing fields such as Manufacturing Engineering or Manufacturing Engineering Technology. It, by itself, is not designed for specific employment preparation after only two years of study. Six specified courses are the same as would be taken in the Certificate program in Machine Trades and will apply toward the completion of this degree. The curriculum is in compliance with State agency policy governing the subject matter content and purpose of Associate of Science degrees. Students seeking only fast track employment skills are referred to the Certificate or AAS degree programs.

Minimum semester hours required: 66-67

1. Associate of Science graduation requirements (for further information, see section on “Degree Requirements” in this catalog)  
   a. General Education  
      33  
   b. Human Performance and Wellness  
      2

2. Course requirements specific to this degree
   a. Required courses  
      CADT 101 Introduction to CAD  
      CADT 106, 106L Basic Computer Aided Design and Lab  
      MAMT 105 Print Reading/Sketching  
      MAMT 115, 115L Introduction to Machine Shop and Lab  
      MAMT 120, 120L Machine Technology I and Lab  
      MAMT 125, 125L Machine Technology II and Lab  
      MAMT 151, 151L Numerical Control Machining I and Lab  
      MAMT 165 Manufacturing Processes  
      MATH 130 Trigonometry and  
      MATH 151 Calculus I (with MATH 113) or  
      MATH 152 Calculus II (with MATH 113) and  
      MATH 253 Calculus III  
      31-32

3. Special recommendations
   It is recommended that the student take CSCI 100, MATH 113 (prerequisite to MATH 130) and PHYS 111, 111L. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

4. Additional expenses
   Students in Machine Trades may be required to purchase approximately $375.00 in safety glasses, tools, and material. This does not include the cost of textbooks. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
MANUFACTURING TECHNOLOGY CLUSTER: COMPUTER AIDED DESIGN TECHNOLOGY  
Associate of Applied Science

The onset of computers has changed the look and working content of the drafting and design industry. Blueprints are being transformed into computer generated models, and the models into working parts. Changes and additions to a model are worked on the computer instead of in the shop, saving time and money. The purpose of this A.A.S. in Computer Aided Design Technology is to prepare students for this career. The program will incorporate the concept of CAD with the engineering fields of Machining, Architecture, Electronic and Civil design.

Minimum semester hours required: 73

1. Course requirements for this degree
   a. ENGL 111 and 112, 115, 121, or 129  
      Cr. Hrs. 6
   b. Six (6) semester hours selected from the following:
      ANTH 201, 222  
      ECON 201, 202  
      ENGL 131 and 132 or 133  
      145, 150  
      GEOG 103  
      Hist 101, 102, 131

      POLS 101, 261  
      PSYC 150  
      SOCG 144, 260  
      Cr. Hrs. 6
   c. Mathematics
      MATH 113  
      Cr. Hrs. 4
   d. Human Performance and Wellness
      Cr. Hrs. 2
   e. All of the following courses:*  
      CADD 101 Intro to Computer and CAD  
      CADD 106, 106L Basic Computer Aided Design & Lab  
      CADD 107, 107L Computer Aided Drafting & Lab  
      CADD 108, 108L Basic CAD—MicroStation & Lab  
      CADD 109, 109L CAD MicroStation & Lab  
      CADD 110, 110L CAD Application & Lab  
      CADD 120, 120L CAD—Mechanical/Electrical & Lab  
      CADD 130, 130L CAD—Civil and Lab  
      CADD 140 Architectural Theory  
      CADD 141 Structural Materials  
      CADD 142, 142L CAD—Residential Arch. & Lab  
      CADD 143, 143L CAD—Commercial Arch. & Lab  
      MAMT 101 Intro to Manufacturing  
      MAMT 105 Print Reading/Sketching  
      MAMT 106 Geometric Tolerancing  
      MAMT 115, 115L Intro to Machine Shop & Lab  
      ELCT 110, 110L Basic Electronics & Lab  
      UTEC 150 Fluid Power  
      CSCI 100 Computers in Our Society  
      Cr. Hrs. 52

   *Students may, with the CAD adviser's approval, substitute the following course for MAMT 115 and MAMT 115L: WELD 151 and WELD 151L Industrial Welding and Lab.

   f. Electives (With Advisor’s Approval)  
      Cr. Hrs. 3

2. Special requirements and recommendations:
   Students seeking an Associate of Applied Science degree must obtain a minimum of 2.00 ("C") in each course and must satisfy all other graduation requirements.

3. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
MANUFACTURING TECHNOLOGY CLUSTER: MACHINING TECHNOLOGY

Associate of Applied Science

The Associate of Applied Science degree program includes many of the same technical courses as the Certificate of Occupational Proficiency. Also included are mathematics, science, electronics and management courses which are essential for job advancement to more technical levels after employment.

Minimum semester hours required: 75

1. Course requirements for this degree

   a. English (6 credit hours from the following)
      ENGL 111 and 112 or 115
   b. Social and Behavioral Sciences (6 credit hours from the following)
      ANTH 201, 222 or HIST 101, 102, 131, 132
      ECON 201, 202 or POLS 101
      ENGL 131 and 132 or 133, 145, 150 or PSYC 150
      GEOG 103 or SOCO 144, 260
   c. Physics
      PHYS 100
   d. Mathematics
      UTEC 107
   e. Human Performance and Wellness
   f. All of the following courses:

   CADT 101      Introduction to CAD
   CADT 106, 106L Basic Computer Aided Design and Lab
   ELCT 110, 110L Basic Electronics and Lab
   MAMT 101      Intro to Manufacturing
   MAMT 105      Print Reading/Sketching
   MAMT 106      Geometric Tolerancing
   MAMT 115, 115L Introduction to Machine Shop and Lab
   MAMT 120, 120L Machine Technology I and Lab
   MAMT 125, 125L Machine Technology II and Lab
   MAMT 130, 130L Machine Technology III and Lab
   MAMT 140, 140L Job Shop Machining II and Lab or
   MAMT 170      Practical Applications
   MAMT 151, 151L Numerical Control Machining I and Lab
   MAMT 155, 155L Numerical Control Machining II and Lab
   MAMT 160, 160L Properties of Materials and Lab
   MAMT 165      Manufacturing Processes
   MAMT 207      Introduction to Statistical Process
   UTEC 150      Fluid Power
   UTEC 220      Shop Management
   WELD 151, 151L Industrial Welding and Lab

2. Special requirements and recommendations
   Students seeking an Associate of Applied Science degree must obtain a minimum of 2.00 (“C”) in each MAMT course and must satisfy all other graduation requirements.

3. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.
4. Additional expenses
Students in the Manufacturing Technology Cluster may be required to purchase approximately $375.00 in safety glasses, tools, and material. This does not include the cost of textbooks. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet a minimum industry safety standard of Z-87 with side shields.
MANUFACTURING TECHNOLOGY CLUSTER: WELDING

Associate of Applied Science

Courses are designed to give students an adequate knowledge of metals, layout work, and welding processes, along with an opportunity to gain manipulative skills and the related information needed to enter and progress in various welding occupations. Instruction and shop practice is offered in SMAW, GMAW, FCAW, and GTAW of mild steel in all positions as well as pipe and specialty welding. Various cutting and fabrication methods are included. Students can arrange work experience as an elective part of the regular program after completing two semesters or more.

Minimum semester hours required: 77

1. Course requirements for this degree

   a. English (six semester hours of English satisfied by completing any one of the following sequences):
      ENGL 111 and 112, 115, 121, or 129
      ENGL 131 and 132 or 133
   b. Six semester hours selected from the following:
      ANTH 201, 222
      ECON 201, 202
      ENGL 131 and 132 or 133
      GEOG 103
      HIST 101, 102, 131, 132

2. Electives

   3
3. Special requirements and recommendations
   Students seeking an Associate of Applied Science degree must obtain a minimum of 2.00 ("C") in each required WELD course and must satisfy all other graduation requirements.

4. See faculty adviser for a program sheet detailing exact and complete requirements for this degree.

5. Additional expenses
   Students in Welding may be required to purchase approximately $200.00 in tools and personal safety and welding equipment. This amount does not include required textbooks. These costs may vary with student needs and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standards of Z-87 with side shields.
MANUFACTURING TECHNOLOGY CLUSTER
COMPUTER DRAFTING TECHNOLOGY
Certificate of Occupational Proficiency

The program is designed to give the student a general approach to Computer Aided Drafting (CAD) with the use of computers and CAD software as a tool (some courses available only through Continuing Education).

Minimum semester hours required: 36

4. See faculty adviser for a program sheet detailing exact and complete requirements for this certificate.
MANUFACTURING TECHNOLOGY CLUSTER: MACHINE AND MANUFACTURING TRADES Certificate of Occupational Proficiency

The Machine and Manufacturing Trades certificate program is designed to give students an opportunity to develop knowledge and competency considered essential for employment as entry level or “apprentice” level machinists. Persons not having an adequate background in mathematics or three dimensional perception skill will be encouraged to enroll in preparatory courses either as prerequisites or co-requisites. Open entry and flexible scheduling is possible in this program.

Minimum semester hours required: 44

2. Special requirements and recommendations
   a. Physical requirements on the job include ability to lift up to 50 pounds regularly and to stand for long periods of time while doing machine work. Average hearing and eyesight, natural or corrected is desirable.
   b. Students seeking a Certificate of Occupational Proficiency must obtain a minimum of 2.00 ("C") in each required MAMT course and must satisfy all other graduation requirements.

3. See faculty adviser for a program sheet detailing exact and complete requirements for this certificate.
4. Additional expenses

Students in Machine Trades may be required to purchase approximately $375.00 in safety glasses, tools, and material. This does not include cost of textbooks. This costs may vary with student needs and brand or quality of tools of equipment purchased. All safety glasses must meet a minimum industry safety standard of Z-87 with side shields.
MANUFACTURING TECHNOLOGY CLUSTER:
WELDING

Certificate of Occupational Proficiency

Certificate programs are designed to be employment directed for beginning level jobs. Students should check with a welding instructor/adviser about options for specialized employment training requiring a shorter period of training.

Minimum semester hours required: 46

3. Additional expenses
   Students in welding may be required to purchase approximately $200.00 in tools and personal safety and welding equipment. This does not include required textbooks. These costs may vary with student need and brand or quality of tools or equipment purchased. All safety glasses must meet the minimum industry safety standard of Z-87 with side shields.
TRANSPORTATION SERVICES CLUSTER:
AUTOMOTIVE TECHNOLOGY

Associate of Applied Science

Automotive technology covers general service and repair of vehicles in today's society. Courses will cover theory, applications, maintenance, repair and diagnosis of vehicle systems using hand, power and specialty tools and equipment. Diagnostics and computer systems receive special emphasis. UTEC is a satellite training center for Ford, Chrysler, Toyota, and Subaru.

Minimum semester hours: 75

1. Course requirements for this degree

   a. Six (6) semester hours of English satisfied by completing any one of the following sequences:  
      ENGL 090 and 111  
      OR  
      ENGL 111 and 112, 115, 121, 129  
   
   b. Six (6) semester hours selected from the following:  
      ANTH 201, 222  
      HIST 101, 102, 131, 132, 136, 137  
      ECON 201, 202

   c. Students seeking a Certificate of Occupational Proficiency must obtain a mini-
      mum of 2.00 ("C") in each course.

   d. See a faculty adviser for a program sheet and exact program requirements.

2. Additional expenses

Students entering the program may be required to purchase or have hand tools and
appropriate personal clothing and safety gear with a total cost of approxi-
mately $1375.00. This does not include the cost of required textbooks. These costs
may vary with student need and brand or quality of tools or equipment purchased.
All safety glasses must meet the minimum industry safety standard of Z-87 with side
shields.
COURSE DESCRIPTIONS

The course descriptions in this catalog indicate the content of the course and the prerequisites when applicable. Courses are listed in alphabetical order, with a four-letter prefix code, followed by a number and title. The number in parentheses at the end of the course title indicates the credit granted, in terms of semester hours, for each course. Generally, the number of semester hours is the number of hours a class will meet each week. Exceptions are noted in individual course descriptions and, in most cases, prerequisites and/or corequisites stated. In the detailed course descriptions, the course number after prefix indicates the college year in which the courses should ordinarily be taken.

100-199 .............................................................. Freshman year
200-299 .............................................................. Sophomore year

Courses numbered 001-099 are preparatory in nature, not intended for transfer purposes, and may not be used to fulfill associate of arts or associate of science degree requirements or electives. Preparatory courses may be used to meet elective requirements in Associate of Applied Science or Certificate programs.

Courses identified as "Independent Study" are those beyond the scope of the required curriculum. General restrictions and regulations may be found under the Program section of this catalog (see "Independent Study" in the index). Specific regulations apply in certain disciplines, as well. Arrangements and permission must be obtained from the appropriate instructor and Director of UTEC well in advance.

"Topics" courses are offered from time to time and contain material of special interest within a specific discipline not considered elsewhere in the curriculum. Prerequisites vary with course materials, and enrollment requires consent of the instructor.

Mesa State College reserves the right to withdraw any program or course which is not justified due to lack of enrollment or availability of instructors. Other courses may be added if there is sufficient demand. In some programs, certain courses may be offered on an alternate year basis or as determined by demand.

Discipline Index

Subjects (disciplines) offered by UTEC are listed below alphabetically followed by the current course prefix, the page number of the individual course descriptions.

AUTOMOTIVE COLLISION REPAIR

AUBF 108 Introduction to Auto Body Repair
AUBF 108L Introduction to Auto Body Repair Laboratory
Designed to teach the use of auto body repair equipment and tools; skills, such as roughing and alignment, shrinking, grinding, and the use of body fillers. These skills will allow the student to become competent to repair auto body panels. Modular course—two hours lecture, 12 hours laboratory per week. Prerequisites: consent of instructor. (Fall)

AUBF 109 Auto Body Repair and Preparation
AUBF 109L Auto Body Repair and Preparation Laboratory
Designed to teach students panel repair with the use of tools, skills and techniques acquired in AUBF 108. A student is required to repair a given number of auto body panels, such as doors, fenders, hood panels, and quarter panels to complete this course. Modular course—two hours lecture, 14 hours laboratory per week. Prerequisites: AUBF 108, 108L. (Fall)

AUBF 118 Introduction to Painting/Preparation
AUBF 118L Introduction to Painting/Preparation Laboratory
Training in the use of spraying equipment, and auto body panel paint preparation, including cleaning, sanding, masking, and spraying techniques. Other acquired skills include using primers, sealers, acrylic lacquers, acrylic enamels, polyurethane, and polyoxyethylene enamels. Each student is required to prepare and spray paint a given number of practice panels before painting complete automobiles. Modular course—three lecture and 12 laboratory hours per week. Prerequisites: consent of instructor. (Fall)

AUBF 119 Complete Auto Painting
AUBF 119L Complete Auto Painting Laboratory
Painting skills acquired in AUBF 118 will be utilized by the student to prepare and spray paint complete paint jobs on approved vehicles. Preparation and painting consists of cleaning, sanding, masking, priming, guide-coating, sealing, spray painting and detailing of automobiles. Modular course—three lecture hours and 12 laboratory hours per week. Prerequisites: AUBF 118, 118L. (Fall)

AUBF 130 Auto Reconditioning
AUBF 130L Auto Reconditioning Laboratory
Instruction in new car preparation, glass removal and installation, minor panel repair and refinishing, spot painting, cleaning, dyeing and repair of vinyl and upholstery, airbrush painting, exterior finish buffing and polishing, and general automotive detail procedures. One lecture hour and four laboratory hours per week. (Fall)

AUBF 140 Suspension and Mechanical Components
AUBF 140L Suspension and Mechanical Components Laboratory
Instruction includes steering, suspension, engines, brakes, fuel systems, cooling, and air conditioning as applied to the collision repair trade. Lectures, demonstrations and laboratory. One hour lecture and two hours laboratory per week. (Spring)

AUBF 150 Auto Body Welding
AUBF 150L Auto Body Welding Laboratory
The student will gain skills for proficiency in basic oxy-fuel welding, cutting and brazing, and metal inert gas (MIG) wire feed welding as is required in auto body repair. Emphasis will be on new, lighter weight and high strength steels. Plasma arc cutting and resistance spot welding also addressed. One hour lecture and four hours laboratory per week. (Fall)

AUBF 200 Panel and Spot Painting
AUBF 200L Panel and Spot Painting Laboratory
Paint composition, refinishing products and their correct usage, color matching, and procedures to be used in making lacquer or acrylic spot repairs. Two hours lecture and eight hours laboratory per week. (Fall)
AUBF 210  Unibody and Frame Repair    (2)
AUBF 210L Unibody and Frame Repair Laboratory    (2)
Inspection, measurement, and repair methods used to repair unibodied and conventional frames. Instruction will include floor systems, drive on rack and bench system. Two hours lecture and four hours laboratory per week. (Fall)

AUBF 228  Bolt-on Body Service    (1)
AUBF 228L Bolt-on Body Service Laboratory    (2)
Instruction and practice of replacement parts and glass to proper manufacturer specifications. Special attention to fit and structural integrity without leaks and rattle. Modular course—one hour lecture and eight hours laboratory per week. (Fall/Spring)

AUBF 229  Extensive Damage Repair    (1)
AUBF 229L Extensive Damage Repair Laboratory    (2)
Severe collision repair procedures. Emphasis on metal work, additional painting, corrosion protection, and special accents. Modular course—one hour lecture and eight hours laboratory per week. Prerequisites: AUBF 108, 108L. (Fall/Spring)

AUBF 238  Weld-on Body Service    (1)
AUBF 238L Weld-on Body Service Laboratory    (2)
Application of body sheet metal panels that are welded onto the vehicle. Other areas covered are body electrical, sectioning, and sheet molded compounds. One hour lecture and 13 hours laboratory per week. Prerequisites: AUBF 228, 228L, 229, 229L. (Fall/Spring)

AUBF 239  Complete Collision Repair    (1)
AUBF 239L Complete Collision Repair Laboratory    (3)
Provides experience with heavy damage along with production shop situations. This helps the student bring all the two years of instruction together before going to work. Modular course—one hour lecture and 13 hours laboratory per week. Prerequisites: AUBF 228, 228L, 229, 229L, 238, 238L. (Fall/Spring)

AUBF 250  Estimating    (3)
Parts catalogs, flat rate, remove-and-replace procedures, insurance appraisals, and writing collision repair bids. Three hours per week. (Spring)

AUBF 295  Independent Study    (1,2)
AUBF 296  Topics    (1,2)

COMPUTER DRAFTING TECHNOLOGY

CADT 100  Basic CAD/CAM    (2)
CADT 100L Basic CAD/CAM Laboratory    (2)
Designed to give the student a basic working knowledge of CAD and how to apply a CAM package for production of machine parts. Prerequisites: computer and machining experience preferred or consent of instructor.

CADT 101  Introduction to Computers and CAD    (1)
Introduction to the use of PC computers through the use of a simple computer-aided design software package. Course will be self-paced with the use of text materials.

CADT 106  Basic Computer Aided Design    (1)
CADT 106L Basic Computer Aided Design Laboratory    (2)
Basic principles of computer aided design through the development of practical drawing problems using a computer. Prerequisites: CADT 101 and MANT 105 or consent of instructor. (On demand)

CADT 107  Computer Aided Drafting    (2)
CADT 107L Computer Aided Drafting Laboratory    (2)
Advanced work in computer aided drafting principles including 2-D, 3-D, shading, etc. Prerequisites: CADT 106, 106L or consent of instructor. (On demand)
CADT 108    Basic CAD—Micro Station

CADT 108L   Basic CAD—Micro Station Laboratory

Offers the student basic principles of computer aided drafting through the development of practical drawing problems using micro station software on the computer. Prerequisites: CADT 101, MAMT 105 or consent of instructor. (On demand)

CADT 109    CAD—Micro Station

CADT 109L   CAD—Micro Station Laboratory

Advanced work in computer aided drafting principles including 2-D, 3-D shading, etc, with the use of micro station software. Prerequisite: CADT 108/108L. (On demand)

CADT 110    CAD Application

CADT 110L   CAD Application Laboratory

This course offers the student an opportunity to apply skills and knowledge gained in earlier courses. The student will work on computer aided drawings relating to their career field of interest and advice of faculty. Intern or Coop may be substituted with approval of advisor. Prerequisites: CADT 107, 107L or CADT 109, 109L. (On demand)

CADT 120    CAD—Mechanical/Electrical

CADT 120L   CAD—Mechanical/Electrical Laboratory

This course will focus on the link between electronics and electro/mechanical components. Students will be introduced to the interpretation of electrical, hydraulic and pneumatic diagrams using proper symbols and JIC standards. Also covered will be materials, layout, symbols, voltage, and standards through practical application drawings. Prerequisites: CADT 107, 107L or CADT 109, 109L, and ELEC 110, 110L. (Fall)

CADT 130    CAD—Civil

CADT 130L   CAD—Civil Laboratory

Civil drafting will explore the aspects of current day mapping and topography, instruments, conventions and practices, contours, profiles, surveying, and photogrammetry through CAD drawings. Students will be introduced to GIS, graphical interface systems. Prerequisites: CADT 107, 107L and/or CADT 109/109L. (Spring)

CADT 140    CAD—Architectural Theory

Architectural theory will introduce the student to three major areas of architecture: basic structures and their design, building codes and career opportunities. (Fall)

CADT 141    Structural Materials

This course will identify the properties and applications of the materials of industry. Codes, standards and testing will be emphasized in the fields of architecture. There will be an introduction to mechanical, electrical, plumbing and systems requirements. (Fall)

CADT 142    CAD—Residential Architecture

CADT 142L   CAD—Residential Architecture Laboratory

Residential Architectural CAD will provide the student with a realistic residential project that will begin with schematic design and continue through to construction documents. Construction documents will include: site plan, floor plan, exterior elevations, foundation plan, floor framing plan, roof framing plan, building section, and a variety of construction details. Prerequisites: CADT 107, 107L and or CADT 109, 109L and CADT 140. (Fall)

CADT 143    CAD—Commercial Architecture

CADT 143L   CAD—Commercial Architecture

Commercial Architectural CAD will emphasize the creation of commercial project plans that will begin with schematic design and continue through to construction documents. Construction documents will include site plan, foundation floor slab plan, roof framing plan, building section and a variety of construction details. Prerequisites: CADT 107, 107L and/or CADT 109, 109L and CADT 140. (Spring)

CADT 195    Independent Study

CADT 196    Topics

CADT 206    Topics
ELECTRIC LINEMAN

NOTE: Twenty-five hours scheduled instruction per week in ELCL courses scheduled in Fall and Spring semesters unless otherwise noted.

ELCL 111 Mathematical Basic Electricity (5)
Mathematical formulas used in voltage, amperage, resistance, and power determination, metering problems, power factor correction, and line design problems. (Fall)

ELCL 120 Fundamentals of Electricity (5)
Generation, transmission, and distribution of electricity beginning with the electron and its function of transporting electric power to homes and industry. (Fall)

ELCL 131 Electrical Distribution Theory I (4)
Pole setting techniques, framing methods and specifications, climbing, sagging and splicing of conductors, energizing and de-energizing of lines, and installation of protective grounds. (Fall)

ELCL 132 Electrical Distribution Theory II (4)

ELCL 132L Electrical Distribution Theory II Laboratory (2)
Installation and operation of protective equipment, transformer hookups, voltage regulation, hotstick maintenance, troubleshooting, and gloving from the pole. Four hours lecture, three hours laboratory per week. Prerequisite: ELCL 131. (Spring)

ELCL 136L Related Fundamentals I Laboratory (4)
Examination of National Electric Safety Code, truck maintenance, equipment operation, material records, electrical test meters, and introduction to transformers. Twelve hours per week. (Fall)

ELCL 137 Related Fundamentals II (2)
ELCL 137L Related Fundamentals II Laboratory (4)
Meter safety, conductor installation, street lighting, rubber cover up, and public relations. Two hours lecture, eight hours laboratory per week. Prerequisite: 136L. (Spring)

ELCL 140 Underground Procedure (4)
ELCL 140L Underground Procedure Laboratory (2)
Safety practices, terminology, fault finding, cable locating, switching procedure, installation of terminal devices, splicing, and transformer application. Five hours lecture, four hours laboratory per week. (Spring)

ELCL 145 Hotline Procedures (1)
ELCL 145L Hotline Procedures Laboratory (2)
Two weeks of training by outside specialists covering current hotline maintenance and underground installation methods. Eight hours lecture, twenty-four hours laboratory per week. (Spring)

ELCL 195 Independent Study (1.2)
ELCL 196 Topics (1.2)
ELCL 199 Internship (6)
Opportunity for an individual to be employed for training by a utility company while maintaining his/her status as a Mesa State College student. Provides excellent on-the-job training benefits. Students usually selected for this course by formal interview. Prerequisite: consent of instructor. Eighteen hours per week, two semesters (Summer and Fall) after completion of regular program.

ELECTRONICS TECHNOLOGY

NOTE: Enrollment, with instructor approval, may occur at any time (open entry) for certain courses. Please check with the instructor.

ELCT 110 Basic Electronics (3)
ELCT 110L Basic Electronics Laboratory (1)
Principles of electricity/electronics. Applicable to entry level positions in areas requiring basic understanding of DC/AC, solid state, digital, and computer operation, repair and maintenance such as auto mechanics and machine trades. (Fall)
ELCT 117   DC Passive Circuits  
ELCT 117L  DC Passive Circuits Laboratory  
DC circuits including resistors, capacitors, inductors, applications of Ohm's and Kirchhoff's laws, and use of standard test equipment. (Summer/Fall/Spring)

ELCT 118   AC Passive Circuits  
ELCT 118L  AC Passive Circuits Laboratory  
Analysis of AC circuits including resistors, capacitors, inductors, and use of standard test equipment. (Summer/Fall/Spring)

ELCT 132   Personal Computers I  
ELCT 132L  Personal Computers I Laboratory  
Basic hardware and software of the personal computer, including use of the Internet and proficiency in the use of DOS, DOS, and Windows. (Summer/Fall/Spring)

ELCT 150   C Programming for Technology  
Introductory course in programming using the C language specifically directed toward the technology student solving technical problems. No mathematics beyond elementary algebra and right angle trigonometry are required. Prerequisites: ELCT 117 & ELCT 118. (Fall/Spring)

ELCT 152   UNIX Operating System  
Covers the software that the majority of UNIX users work with on a daily basis. Prerequisites: ELCT 132. (Fall/Spring)

ELCT 164   Electronic Circuits I  
ELCT 164L  Electronic Circuits I Laboratory  
Analysis of solid state diodes and bipolar transistor amplifier circuits. Prerequisites: ELCT 118 or consent of instructor. (Summer/Fall/Spring)

ELCT 165   Applied Digital Circuits  
ELCT 165L  Applied Digital Circuits Laboratory  
Logic gates, Boolean algebra, flip-flops, registers, memory, Karnaugh mapping, machine programming, and construction of a microcomputer using TTL devices. Prerequisites: ELCT 164, 164L. (Summer/Fall/Spring)

ELCT 230   Electronic Circuits II  
ELCT 230L  Electronic Circuits II Laboratory  
Differential and operational amplifier circuitry, feedback configurations, opamps, error, compensation, and applications. Prerequisite: consent of instructor. (Summer/Fall/Spring)

ELCT 254   Industrial Circuits  
ELCT 254L  Industrial Circuits Laboratory  
Solid state circuits in industrial control circuits. Three hours lecture, two hours laboratory per week. Prerequisite: ELCT 230 or consent of instructor. (Summer/Fall/Spring)

ELCT 256   Electronic Communication  
ELCT 256L  Electronic Communication Laboratory  
Introduction to the field of communications. Covers Am, FM, stereo, television, antennas, digital communication, radar, lasers, and fiber optics. Prerequisite: consent of instructor. (Summer/Fall/Spring)

ELCT 257   Laser Technology  
ELCT 257L  Laser Technology Laboratory  
Covers laser design, types and components, the effects and potential hazards of laser light and the effects of infrared radiation. Prerequisites: ELCT 118, 164, 230 or consent of instructor. (Summer/Fall/Spring)

ELCT 258   Fiber Optics  
Covers fiber types and the active devices used to generate and detect fiber optic transmission light. Prerequisites: ELCT 118, 164, and 165 or consent of instructor. (Summer/Fall/Spring)

ELCT 260   Personal Computers II  
ELCT 260L  Personal Computers II Laboratory  
Detailed theory of personal computers using the IBM PC family. Maintenance, troubleshooting and repair of these systems to the component level is taught. Hands-on experience diagnosing and repairing 8086, 80286, 80386 machines is stressed. Prerequisites: ELCT 132, 132L. (Fall)
ELCT 262  Personal Computer Networking  (2)
ELCT 262L Personal Computer Networking Laboratory  (2)
How to specify, install and maintain local area networks. Covers the basics and protocols of date communications and communication architectures. Prerequisites: ELCT 132/132L, ELCT 165/165, and ELCT 260/260L. (Fall/Spring)

ELCT 265  Personal Computers III  (2)
ELCT 265L Personal Computers III Laboratory  (2)
Theory, troubleshooting, and repairing computer peripherals to include floppy disk drives, dot-matrix and letter quality printers and RGB and Monochrome monitors to the component level. Prerequisites: ELCT 132/132L, 260/260L. (Fall/on demand)

ELCT 266  Microprocessors I  (3)
ELCT 266L Microprocessors I Laboratory  (1)
The use of the microprocessor to teach machine language programming, computer arithmetic, organization of microprocessors, interfacing, and input/output operations. Prerequisite: consent of instructor. (Summer/Fall/Spring)

ELCT 267  Microprocessors II  (3)
ELCT 267L Microprocessors II Laboratory  (1)
Using the microprocessor to do real world tasks of interfacing memory for program storage and I/O devices for systems communication. Prerequisites: ELCT 266/266L. (Fall/Spring)

ELCT 279  Electronic Troubleshooting  (3)
ELCT 279L Electronic Troubleshooting Laboratory  (1)
Analyze correct circuit operation and probable symptoms of component failures. Preparation for CET exam. Prerequisites: ELCT 117, 118, 164, 165, and 230. (Summer/Fall/Spring)

ELCT 280  Project Design and Fabrication  (2)
ELCT 280L Project Design and Fabrication Laboratory  (2)
Application of circuit theory and construction techniques in the design of electronic circuits. The student will design, build, test, and write the complete documentation of an approved project. Prerequisites: student must be in the 4th semester of the Electronics Technology Program. (Summer/Fall/Spring)

ELCT 293  Cooperative Education  (3-12)
Cooperative Education provides students an opportunity to put their education to practical use in the workplace under the joint supervision of an employer participateing in the Cooperative Education program and a faculty member designated by the institution. (See "Cooperative Education" in this catalog.)

ELCT 295  Independent Study  (1,2)
ELCT 296  Topics  (1,2)

MACHINING AND MANUFACTURING TRADES

NOTE: Full-time student schedule is a minimum of five hours per day in MAMT courses. Enrollment, with instructor approval, may occur at any time in certain courses. Please check with the instructor.

MAMT 100  Machine Shop Studies  (3)
Concentrated and condensed overview in the areas of calculate math, blueprint reading, geometric tolerancing, inspection, gauging, safety, and employee group skills. (On demand)

MAMT 101  Introduction to Manufacturing  (2)
The course is designed to give the student a broad overview of the world of manufacturing. The course will include people, materials, machines, design, organization, waste, quality, and other subjects which effect society and production of a product. (Fall)

MAMT 102  Machine Shop Theory  (3)
Concentrated unit dealing with speeds and feeds of machines, materials, tooling, tapping, boring, and manufacturing processes. (On demand)
MAMT 105  Print Reading/Sketching  (2)
Reading of blueprints and process sheets as used in industry, application of that information to various manufacturing processes. (On demand)

MAMT 106  Geometric Tolerancing  (1)
Identification, interpretation, and application of the blueprint symbols (referred to as Geometric Tolerancing symbols) in machining and inspection operations. Corequisite: MAMT 105 or consent of instructor. (On demand)

MAMT 110  Gauging and Measuring Tools  (1)
Uses and techniques of inspection including micrometers, Vernier scales, instruments, hole gauges in surface plate work, finish of parts and overall inspection techniques. Prerequisite: MAMT 106 or consent of instructor. (On demand)

MAMT 115  Introduction to Machine Shop  (1)
MAMT 115L  Introduction to Machine Shop Laboratory  (2)
Safety procedures; using bench tools, layout tools, power saws, and taps; sharpening general purpose drills, grinding lathe bits; and identifying and operating basic machines such as the bench grinder, drill press, band saw, and others. One hour lecture and three hours laboratory per week. Corequisite: MAMT 110 or consent of instructor. (Fall/Spring)

MAMT 120  Machine Technology I  (1)
MAMT 120L  Machine Technology I Laboratory  (3)
Operation of engine lathes, milling machines and surface grinders. One hour lecture and five hours laboratory per week. MAMT 115 or consent of instructor. (On demand)

MAMT 125  Machine Technology II  (1)
MAMT 125L  Machine Technology II Laboratory  (3)
Further development of skills acquired in MAMT 120. Emphasis will be placed on technical aspects of tooling and machining tolerances. One hour lecture and five hours laboratory per week. Prerequisite: MAMT 120. (On demand)

MAMT 130  Machine Technology III  (1)
MAMT 130L  Machine Technology III Laboratory  (3)
Advanced machine operations including O.D. grinding, cutter tool grinding, gear cutting, indexing, and rotary table work with emphasis on accuracy, inspection, and workmanship. One hour lecture and five hours laboratory per week. Prerequisite: MAMT 125. (Spring, on demand)

MAMT 135  Job Shop Machining I  (1)
MAMT 135L  Job Shop Machining I Laboratory  (2)
Production of machined parts from a shop blueprint, writing process sheets, and estimating machine time. Machining of parts may involve one or more machine operations. Machine time, paperwork, inspection, and accuracy will be emphasized. One hour lecture and three hours laboratory per week. Prerequisites: MAMT 130 or consent of instructor. (On demand)

MAMT 140  Job Shop Machining II  (1)
MAMT 140L  Job Shop Machining II Laboratory  (2)
Further development of writing process sheets, estimating machine time, performing final inspection of finished parts and using all machines in the shop including the numerical control machines. One hour lecture, three hours laboratory per week. Prerequisite: MAMT 130 or consent. (Spring, on demand)

MAMT 145  Machine Maintenance  (1)
MAMT 145L  Machine Maintenance Laboratory  (1)
Maintaining, lubricating, and repairing machinery including making gib adjustments, selecting and using proper lubricants and selecting or manufacturing parts of making repairs with emphasis on workmanship and inspection. One hour lecture, one and one-half hours laboratory per week. Prerequisite: consent of instructor. (On demand)

MAMT 150  Introduction to Numerical Control  (1)
Numerical control/computerized numerical control machining; its advantages and how it operates. The course is designed as an informational unit for customized pre-employment training. (On demand)
MAMT 151  Numerical Control Machining I (2)
MAMT 151L Numerical Control Machining I Laboratory (2)
Computerized and numerical control machining operations, including control of functions, programming format, machine setup, and operation. Two hours lecture and three hours laboratory per week. Prerequisite: consent of instructor. (On demand)

MAMT 155  Numerical Control Machining II (2)
MAMT 155L Numerical Control Machining II Laboratory (2)
Further development of concepts introduced in MAMT 151 with emphasis on setup and operation of N.C./C.N.C. machines. Two hours lecture and three hours laboratory per week. Prerequisite: MAMT 151 or consent of instructor. (Spring)

MAMT 160  Properties of Materials (1)
MAMT 160L Properties of Materials Laboratory (1)
Descriptions of smelting and refining various types of metals. Discussions and demonstrations on various methods of heat treating, hardness testing, and cutting tool theory. (Fall, on demand)

MAMT 165  Manufacturing Processes (2)
Manufacturing methods other than traditional machining methods: forming, stamping, extruding, casting, electrical discharge machining, powder metallurgy, welding and finishing of material. Economical and technical aspects of these processes are emphasized. (On demand)

MAMT 170  Practical Applications (3)
Students will gain a working knowledge in manufacturing through Coop, internship, work experience or required lab work in industrial study if outside work cannot be acquired. Prerequisite: Instructor permission. (On demand)

MAMT 207  Introduction to Statistical Process Control (2)
Introduction to the philosophical and economic bases for statistical process control and its use; mathematical and non-mathematical SPC techniques with emphasis on application. Prerequisites: MAMT 105, 106, 107, 110, and 151, or consent of instructor. (On demand)

MAMT 295  Independent Study (1,2,3)
MAMT 296  Topics (1,2,3)

TRANSPORTATION SERVICES CLUSTER-AUTOMOTIVE

TSTA 245  Manual Drive Trains (5)
Standard repair practices for drive train components to include: clutch, transmission, transaxle, drive axle, driveline, c-v and R & R procedures. Prerequisites: TSTC 100, 101, 140. (On demand)

TSTA 247  Automatic Drive Train Service (4)
Standard repair practices for automatic drive trains to include: diagnosis, testing, R & R, and servicing of transaxles/rear wheel drive transmissions. Prerequisites: TSTC 100, 101, 140. (On demand)

TSTA 265  Engine Control Services (2)
Repair and diagnosis of engine control systems with an emphasis on scan tool diagnosis and live hands on repair of systems. Prerequisites: TSTC 100, 101, 160. (On demand)

TSTA 267  Body and Chassis Controls (2)
Theory, repair, and diagnosis of body accessories including air bags, electronic monitors, power seats, windows and wipers. Prerequisites: TSTC 100, 101, 160. (On demand)

TSTA 275  Alignment and Suspension Service (3)
Repair of suspension systems to include: alignment (2 and 4 wheels), R & R component parts, and pre-alignment inspections. Prerequisites: TSTC 100, 101, 170. (On demand)
TSTA 285  Gas Fuel Injection Service  (3)
Diagnosis and repair of fuel injection systems. Emphasis on reading and interpretation of scan tool readings and practice in service of fuel pumps, injectors, sensors, and filters. Prerequisites: TSTC 100, 101, 180. (On demand)

TRANSPORTATION SERVICES CLUSTER—CORE

TSTC 100  Introduction to Transportation Services  (1)
Introduction to procedures, tool usage, basic shop safety, and equipment. (On demand)

TSTC 101  Vehicle Service and Inspection  (2)
Introduction to vehicle systems, maintenance, and inspection. Service of the vehicle stems with emphasis on inspection and observation. Prerequisite: TSTC 100. (On demand)

TSTC 110  Engine Fundamentals  (1)
Introduction to Internal Combustion Engine theory, systems diagnosis, fundamentals and evaluation. Prerequisites: TSTC 100, 101. (On demand)

TSTC 130  Electrical Fundamentals  (2)
Introduction to electrical theory, circuits, components, testing and use of test equipment. Prerequisites: TSTC 100, 101. (On demand)

TSTC 140  Drive Train Fundamentals  (2)
Introduction to drive train components, diagnosis, light repair, and adjustment. Prerequisites: TSTC 100, 101. (On demand)

TSTC 160  Electronic Control Systems  (2)
Study of electronic control systems applied to today's modern vehicles. Emphasis on sensors, actuators, and diagnostic techniques. Prerequisites: TSTC 100, 101. (On demand)

TSTC 170  Chassis Fundamentals  (1)
Theory and operation of front and rear suspension systems, including steering front end geometry and component nomenclature. Prerequisites: TSTC 100, 101. (On demand)

TSTC 171  Brake System Fundamentals  (1)
Theory, components, general repair practices and diagnosis of current brake systems. Prerequisites: TSTC 100, 101. (On demand)

TSTC 180  Fuel System Fundamentals  (1)
Theory of gas and diesel injection, combustion process, delivery systems and general service techniques. Prerequisites: TSTC 100, 101. (On demand)

TSTC 190  Climate Control Fundamentals  (1)
Theory of operation, nomenclature, identification, safety and environmental impact factors of air conditioning. Also covers heating and ventilation systems. Prerequisites: TSTC 100, 101. (On demand)

TRANSPORTATION SERVICES CLUSTER—DIESEL

TSTD 175  Air Brakes  (1)
Repair of air brake systems to include: shoes, pads, machining drums, diagnosis, R & R components, parking brakes, and anti-lock systems. Prerequisites: TSTC 100, 101, 171, and TSTG 175. (On demand)

TSTD 215  Diesel Engine Reconditioning  (5)
Industry standard rebuild practices for diesel engines. R & R of engine, complete disassembly, assembly and running of engine is covered. Tune-up and fuel system adjustment are covered. Prerequisites: TSTC 100, 101, 110 and TSTG 115. (On demand)
TSTD 245 Heavy Duty Drive Trains (4)
Standard repair practices for drive train components to include: clutch, transmission, rear axles, drive lines and R & R procedures. Prerequisites: TSTC 106, 101, 140. (On demand)

TSTD 255 Heavy Duty Fluid Power Repair (2)
Repair of hydraulic off-road systems to include powershift transmissions, cylinders, and vehicle hydraulic components. Prerequisites: TSTC 100, 101, 171 and UTEC 150. (On demand)

TSTD 265 Diesel Engine Controls (1)
Repair and diagnosis of engine control systems with an emphasis on scan tool diagnosis and live hands-on repair of systems. Prerequisites: TSTC 100, 101, 160. (On demand)

TSTD 275 Heavy Duty Suspension (2)
Types of on-road suspensions, tires, repair of components, diagnosis, measurements, and adjustments to front and rear suspensions. Prerequisites: TSTC 100, 101, 170. (On demand)

TSTD 277 Heavy Equipment Chassis (2)
Types of chassis, analysis and diagnosis, minor repair of undercarriages, brakes, steering systems and clutch adjustment. Prerequisites: TSTC 100, 101, 170. (On demand)

TSTD 285 Diesel Fuel Injection (4)
Theory, diagnosis, and repair of diesel fuel injection systems. Emphasis on the adjustment and repair of injectors, filters, governors, blowers and turbo. Electronic systems, pump timing and pump replacement will also be covered. Prerequisites: TSTC 100, 101, 180. (On demand)

TRANSPORTATION SERVICES CLUSTER—GENERAL

TSTG 115 Gas Engine Reconditioning (4)
Industry standard rebuild practices for gas engines. R & R of engine, complete disassembly, assembly and running of engine is covered. Prerequisites: TSTC 100, 101, 119. (On demand)

TSTG 135 Electrical Component Repair (2)
Electrical component repair to include: alternators, starters, wiring, and other electrical components. Prerequisites: TSTC 100, 101, 130. (On demand)

TSTG 140 Job Shop (4)
Designed to obtain a working knowledge of the industry job standards, through use of lab work projects performed in house, when internships or Coop cannot be found. Prerequisites: TSTC core courses and second year status.

TSTG 170 Practical Application (4)
Designed to gain a working knowledge of a particular field of study through Coop, internships, work experience or related lab work in industry. Prerequisites: TSTC core courses and second year status.

TSTG 175 Hydraulic Brake Service (2)
Repair of brake systems to include: shoes, pads, cylinder reconditioning, machining rotors and drums, diagnosis, bleeding, R & R components, parking brakes and anti-lock systems. Prerequisites: TSTC 100, 101, 171. (On demand)

TSTG 185 Carbureted Fuel Service (1)
Diagnosis and testing of carburetors still on vehicles. Hands-on testing and replacement of fuel pumps and filters. Prerequisites: TSTC 100, 101, 180. (On demand)

TSTG 195 Climate Control Service (2)
Repair, diagnosis, R & R of components, charging, recycling and testing of heating and air conditioning systems of over the road vehicles. Prerequisites: TSTC 100, 101, 130, 190. (On demand)

TSTG 296 Topics (1-2)
UTECH

UTECH 107 Mathematics for Technology (4)
Designed to provide students with a practical application to mathematics. Topics include common fractions and decimals, fundamentals of algebra, plane geometry, and introduction to trigonometric functions. (Hand held calculator required). (On demand)

UTECH 110 Applied Physics (3)
Instruction and application of physics in relation to technical education. One hour lecture and laboratory objectives. (Fall/Spring)

UTECH 120 Industrial Safety Practices (3)
Overview of current OSHA and EPA general industry regulations with an emphasis on hazardous materials, right-to-know, record keeping, and worker role in safety.

UTECH 150 Fluid Power (3)
Principles of hydraulics and pneumatics including the construction, application, repair, maintenance and troubleshooting of components and systems. (On demand)

UTECH 220 Shop Management (3)
Shop operation, expenditures, floor plan design, and equipment for the modern shop including management of employees. Three hours per week. (Spring)

WELDING

WELD 110 SMAW I (1)
WELD 110L SMAW I Laboratory (5)
Safe use of equipment in shop practice; covers shielded metal arc welding mild steel in all positions. One hour lecture, plus laboratory objectives. (On demand)

WELD 115 Welding and Structural Theory (4)
Classroom instruction in the core and use of welding equipment, selection of the proper rods and processes, and safety as it applies to welding and welding equipment. Four hours per week. (On demand)

WELD 117 OFW and C I (1)
WELD 117L OFW and C I Laboratory (1)
Shop practice and skill development in safe use of Oxy-Fuel Welding/Cutting equipment. Basic Oxy-Fuel welding on mild steel in flat and vertical positions is covered with some emphasis on oxy-fuel cutting of various thicknesses of mild steel plate. One hour lecture, one and one-half hours laboratory per week. (On demand)

WELD 118 OFW and C II (1)
WELD 118L OFW and C II Laboratory (1)
Continuation of WELD 117 with increased emphasis on shop practice in safe use of Oxy-Fuel Welding/Cutting equipment. Both ferrous and non-ferrous, on both pipe and plate in all practical thicknesses. One hour lecture, one and one-half hours laboratory per week. Prerequisites: WELD 117 or equivalent and consent of instructor. (On demand)

WELD 120 SMAW II (1)
WELD 120L SMAW II Laboratory (5)
Pipe welding in all positions utilizing mild steel and other alloys as necessary. One hour lecture plus laboratory objectives. Prerequisite: WELD 110 or consent of instructor. (On demand)

WELD 133 Fabrication Layout (3)
Basic layout techniques from shop drawings to fabrication of sheet metal, plate, structural shapes, and pipe. Six hours per week; seven and one-half weeks. (Spring)

WELD 140 Job Shop (3)
Development of written process sheets and prints, estimation of manufacturing time, completion of project to specifications including performance of final inspection. Utilization of all manufacturing processes required. Prerequisites: consent of instructor. Practical Applications may be substituted with consent of instructor. (On demand)

ADMISSION TO MESA STATE COLLEGE

To be considered for admission to Mesa State College all students are required to submit a completed application with a $30.00 non-refundable application fee. As indicated by the chart below, the following information is also needed to make an admission decision:

<table>
<thead>
<tr>
<th>H. S. Graduate</th>
<th>ACT or SAT Scores</th>
<th>G. E. D. Scores</th>
<th>College Trans.</th>
</tr>
</thead>
<tbody>
<tr>

<td></td>
<td>X</td>
</tr>
</tbody>
</table>

*Transfer students with less than 30 semester hours (45 quarter hours) of college credit must submit official high school transcripts and either the SAT or ACT results in addition to the official college transcripts.

To provide sufficient time to process an application, all required information must be received two weeks prior to the semester a student plans to attend.

Mesa State College will not offer financial aid to a student until he or she has been admitted to the college. To be considered for all funds available through need-based aid programs (grants, loans) and merit-based aid programs (scholarships) for the fall semester, a financial aid application should be submitted as soon as possible after January 1 and no later than March 15. For a financial aid application, please contact the Office of Financial Aid, P.O. Box 2657, Grand Junction, Colorado 81502 or call (970) 248-1396.

Students applying for program in Nursing and Radiologic Sciences must submit a separate application to that department in addition to the Mesa State College application. Please contact the Department of Nursing and Radiologic Sciences at (970) 248-1398 to receive the additional application. All students applying to Nursing and Radiologic Sciences programs must have either the ACT or SAT results.

An Official Transcript is one that is sent directly to the Office of Admission from the issuing institution(s) previously attended.

Hand delivered or facsimiles of transcripts will not be accepted.

Send the application and all other pertinent information directly to:
Office of Admission
Mesa State College
P.O. Box 2647
Grand Junction, CO 81502

High School Graduates: All high school graduates with no previous college level study are classified as a New Freshman. Contact the high school and request that an official high school transcript and SAT or ACT scores be sent directly to the Office of Admission.

G.E.D. Recipients: Anyone who received a G.E.D. but has no previous college level study is classified as a New Freshman. Students must contact the G.E.D. testing agency and request that G.E.D. scores be sent to the Office of Admission. The ACT or SAT test results are also required. Contact the appropriate testing agency and have the test results sent to the Office of Admission. Students who have not taken the ACT or SAT, please contact the Mesa State College Testing Center at (970) 248-1215 to receive information on the next available testing opportunity. All test results must be received prior to admission and registration.
Transfer Students: Any student who has been or is currently enrolled in any college or university is classified as a Transfer Student. Transfer Students are required to submit official transcripts for all the institutions previously attended. For those with less than 30 semester hours (45 quarter hours) of college credit, high school transcripts and ACT or SAT test scores are also required.

Transcripts will not be evaluated for transfer credit until a student has been admitted to Mesa State College.

All Applicants: Complete the attached application and pay close attention to all the information being requested. Failure to provide accurate or complete information may result in delay of admission, loss of credit, and/or dismissal. Any questions about the application procedure should be directed to the Office of Admission at 1-800-983-MESA (in Colorado) or (970) 248-1376.

Mesa State College is an equal opportunity educational institution and will not discriminate on the basis of race, color, national origin, sex, age and handicap in its activities, programs, or employment practices.

Mesa State College is a Drug-Free Workplace. All employees and students of the College agree to abide by the requirements in the Federal Drug-Free Workplace Act and the policies stated in the brochure entitled "Drug-Free Schools, Campuses and Workplaces, State Colleges in Colorado, Drug Use and Abuse Prevention Program." All employees and students are provided with copies.
