Course News

The course news section is available on the course homepage of every shell. The primary use of this tool is to post course related announcements for students. Since this is located on the first page when students log in to the course, announcements draw attention and have a high impact. Creating a news item is very simple. You can customize the news item to appear and disappear on set dates and times, add attachments, or even add release conditions.

Create an Announcement

1. From the course homepage, click on Course News.

2. On the Announcements page, click New Announcement.
3. Enter a **Headline** and **Content** for your new announcement.

4. If you want to hide your headline's date and time, clear the **Always show start date** check box. By default, the start date and time appears below the headline when displayed in the Course News section.
5. In the **Start Date** and **End Date** fields, select the posting availability date. Announcement items publish immediately, unless you specify an alternate start date.

7. In the **Attachments** section, add attachments, audio recordings, and video recordings as part of your announcement item. To include additional release conditions, click **Attach Existing** or **Create and Attach**.

8. To continue editing the announcement item, click **Save as Draft**. Students cannot see draft announcement items. To release an announcement item to users, click **Publish**.

---

**Delete an Announcement**

To delete an announcement, do one of the following:

1. From the drop down menu of the announcement item you want to delete, click **Delete**.
2. To delete multiple postings, click **Course News** to view all announcement items and check boxes beside the items you want to delete. Click **Delete** at the top of the list.
