General Technical Electives

300 and 400 level courses in the following subjects are considered General Technical Electives: CHEM, ENGR, MATH, PHYS

3000 and 4000 level courses in the following subjects are considered General Technical Electives: CVEN, MCEN. Also EMEN 4100 and EMEN 4800.

CVEN Technical Electives

4000 level CVEN courses not otherwise required for the major are considered CVEN Technical Electives.

Grade Requirements

The minimum passing grade for prerequisite and co-requisite classes in the BSCE curriculum is a C. This includes courses completed outside the program (MATH, PHYS, etc.). The minimum passing grade for standalone classes is a D-. In addition, students need to have a cumulative and major GPA of at least 2.25 in order to graduate from the CU Boulder College of Engineering.

Free Electives

College level coursework accepted by CU Boulder not used otherwise to satisfy BSME degree requirements. Use Transferology.com to verify that courses will transfer to CU Boulder.

Course Work Not Accepted for Transfer Credit

The following course work will not be accepted for transfer credit and will not count toward a degree at Boulder:

- any courses in which the grade earned is below a C- (1.70)
- courses identified by CU Boulder as remedial, such as remedial English, mathematics, science and developmental reading
- vocational-technical courses that are offered at two-year and proprietary institutions (exceptions may be granted only by the CU Boulder dean responsible for the student's curriculum—when exceptions appear to be warranted, appropriate department heads make recommendations to their respective deans regarding credit for such courses)
- courses in religion that constitute specialized religious training or that are doctrinal in nature
- credits earned for work experience or through a cooperative education program
- outdoor leadership education course work
- credits earned in physical education activity courses
- courses or programs identified as college orientation
