

ENGINEERING PARTNERSHIP PROGRAM

MECHANICAL ENGINEERING (BS)

2023 – 2024

coloradomesa.edu/engineering

The Bachelor of Science Degree in Mechanical Engineering obtained through the Engineering Partnership Program is conferred by the University of Colorado Boulder. Lower-division coursework is completed through Colorado Mesa University before applying for admission to the University of Colorado Boulder. The entire program is completed on the campus of Colorado Mesa University. A student may apply for admission to the University of Colorado Boulder through the Engineering Partnership Program when they have satisfied all criteria of one of the following scenarios:

Scenario 1

- Complete a college-level, two-course sequence in calculus with a grade of B– or higher
- Complete one college-level physical science course (calculus-based physics and/or college-level chemistry) with a grade of B– or higher
- Maintain a college-level cumulative GPA of 3.0 or higher

Scenario 2

- Complete the first- and second-year course sequence listed on the current Program Sheet or Degree Plan for the Engineering Partnership Program
- Maintain a college-level cumulative GPA of 3.0 or higher

Student Outcomes. Graduates of this program will have...

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Program Objectives

Mechanical engineering is a broad engineering discipline that incorporates skills and expertise in the areas of design, manufacturing, mechanics and thermal sciences that are essential to most sectors of industry.

Within the first three years after graduation, our alumni will have built on the educational foundation gained through our program by establishing themselves in professional careers and/or pursuing a graduate degree. In addition, within these three years, our alumni should have begun to generate new knowledge and/or exercise leadership in their positions.

ENGINEERING PARTNERSHIP PROGRAM

MECHANICAL ENGINEERING (BS)

2023 – 2024

coloradomesa.edu/engineering

The Bachelor of Science Degree in Mechanical Engineering requires:

- [Transfer](#) to the University of Colorado Boulder of all coursework listed on the plan of study
- At least 45 credits earned from the University of Colorado Boulder ([residency requirement](#))
- A minimum of 128 credits earned to graduate
- A cumulative and major [GPA of at least 2.000](#) (from entirely CU Boulder coursework as a student's GPA does not transfer from non-CU institutions)
- Taking the [FE Exam](#)

AP & IB Credit

Engineering Partnership students must achieve [scores required of CU Boulder](#) for AP and IB credit. An AP score of 5 is required on Physics C: Mechanics to receive credit for PHYS 131 & 131L. This score is higher than the score required for credit at CMU.

English Language and Composition Scores of 4 or 5, despite transferring to CMU as ENGL 111 and 112, do not count toward CEAS humanities and social science requirements (as it is not under the arts and humanities distribution).

However, a score of 3, 4, or 5 on the English Literature and Composition exam will count towards CEAS humanities and social science requirement (as it is under the arts and humanities distribution).

Academic Calendar

The Engineering Partnership Program follows the calendar of Colorado Mesa University for semester start and end dates as well as breaks. Add, drop, and withdrawal dates may differ and can be found on the [CU Boulder Registrar's Website](#).

Petitions

Students seeking an exception to a [policy or practice](#) (including transfer coursework policies) should first talk to the Partnership Program Director and then [submit a petition](#).

ENGINEERING PARTNERSHIP PROGRAM

MECHANICAL ENGINEERING (BS)

2023 – 2024

coloradomesa.edu/engineering

COURSES

Mathematics & Basic Sciences: 34 semester hours

MATH 135	Engineering Calculus I	4
MATH 136	Engineering Calculus II	4
MATH 253	Calculus III	4
MATH 236	Differential Equations & Linear Algebra	4
PHYS 131	Fundamental Mechanics	4
PHYS 131L	Fundamental Mechanics Lab	1
PHYS 132	Electromagnetism & Optics	4
PHYS 132L	Electromagnetism & Optics Lab	1
CHEM 151	Engineering Chemistry	4
CHEM 151L	Engineering Chemistry Lab	1
	Math/Science Foundations	3
	(see list on next page)	

Computer Science: 4 semester hours

CSCI 130	Introduction to Engineering Computing	4
----------	---------------------------------------	---

Writing: 3 semester hours

ENGL 325	Writing for Engineers	3
----------	-----------------------	---

Machining: 1 semester hour

MAMT 102	Machining Fundamentals	1
----------	------------------------	---

Basic Engineering: 19 semester hours

ENGR 101	Introduction to Engineering	1
ENGR 125	CAD and Fabrication	3
ENGR 140	1st-Year Engineering Projects	3
ENGR 224	Materials Science	2
ENGR 224L	Materials Science Lab	1
ENGR 261	Statics & Structures	3
ENGR 263	Mechanics of Solids	3
ENGR 343	Dynamics	3

Core Engineering: 38 semester hours

MCEN 2000	Mechanical Engineering as a Profession	1
MCEN 3012	Thermodynamics	3
MCEN 3017	Circuits & Electronics	3
MCEN 3021	Fluid Mechanics	3
MCEN 3022	Heat Transfer	3
MCEN 3025	Component Design	3
MCEN 3030	Computational Methods	3
MCEN 3032	Thermodynamics 2	3
MCEN 3047	Data Analysis & Experimental Methods	4
MCEN 4026	Manufacturing Processes & Systems	3
MCEN 4043	System Dynamics	3
MCEN 4045	ME Design Project 1	3
MCEN 4085	ME Design Project 2	3

Technical Electives: 12 semester hours

Gen Tech	Upper-Division Engineering, Computer Science, Math, and Science	6
MCEN ????	Mechanical Engineering Electives (one EMEN course may count as an MCEN technical elective)	6

Humanities & Social Science Elect: 15 semester hours

	Humanities & Social Sciences	9
	Upper-Division Humanities & Social Sciences	6

Free Elective: 2 semester hours

One credit must be from CU Boulder

TOTAL CREDITS 128

ENGINEERING PARTNERSHIP PROGRAM

MECHANICAL ENGINEERING (BS)

2023 – 2024

coloradomesa.edu/engineering

Acceptable Course Substitutions

MAMT 115 Introduction to Machine Shop (3-credits) for MAMT 102 Machining Fundamentals (1-credit)
MATH 151 Calculus I (5-credits) for MATH 135 Engineering Calculus I (4-credits)
MATH 152 Calculus II (5-credits) for MATH 136 Engineering Calculus II (4-credits)
CHEM 131 General Chemistry I (4-credits) for CHEM 151 Engineering Chemistry (4-credits)
CHEM 131L General Chemistry Laboratory I (1-credit) for CHEM 151L Engineering Chemistry Laboratory (1-credit)

Humanities & Social Science Electives

See: <https://www.coloradomesa.edu/engineering/documents/hssacceptableclasses20230328.pdf>

Math/Science Foundations

The following CMU courses are approved as math/science foundations electives:

BIOL 105 & BIOL 105L Attributes of Living Systems and Lab (4-cr)
BIOL 209 & 209L Human Anatomy and Physiology (4-cr)
CHEM 132 General Chemistry II (4-cr)
CHEM 311 Organic Chemistry I (4-cr)
CSCI 112 CS2: Data Structures (4-cr) or CSCI 250 CS3: Introduction to Algorithms (3-cr)
PHYS 230 Intermediate Dynamics (3-cr)
PHYS 231 Modern Physics (3-cr)
EECE 226 & 226L Circuits as Systems and Lab (4-cr)
GEOL 111 & 111L Principles of Physical Geology and Lab (4-cr)
GEOL 105 Geology of Colorado (3-cr)
GEOL 107 Natural Hazards and Environmental Geology (3-cr)
MATH 240 Introduction to Advanced Mathematics (4-cr)
STAT 200 Probability and Statistics (3-cr) or STAT 311 Statistical Methods (3-cr)

Refer to the [Math/Science Foundations list](#) for a complete list of CU Boulder courses that have been pre-approved as math/science foundations electives.

General Technical Electives

CMU 300- and 400-level courses in the following subjects are considered General Technical Electives: CHEM, CSCI, ENGR, MATH, and PHYS. CU Boulder 3000- and 4000-level courses in the following subjects are considered General Technical Electives: CVEN, ECEN, EMEN, and MCEN.

MCEN Technical Electives

4000-level MCEN courses not otherwise required for the major are considered MCEN Technical Electives. One EMEN 3000- or 4000-level course can apply towards an MCEN Technical Elective.

Free Electives

One credit of free electives must be taken as a CU Boulder course. College-level coursework accepted by CU Boulder not used otherwise to satisfy BSME degree requirements. Mechanical engineering does allow courses counting as free electives to be taken on a pass/fail basis ([however the college limits use to 6 per semester and 16 cumulative](#) and a student must first [submit a petition](#) prior to choosing this option). Use www.transferology.com to verify that courses will transfer to CU Boulder as appropriate equivalencies.

ENGINEERING PARTNERSHIP PROGRAM

MECHANICAL ENGINEERING (BS)

2023 – 2024

coloradomesa.edu/engineering

Grade Requirements

The minimum passing grade for prerequisite and co-requisite classes is a C-. This includes courses completed outside the program. The minimum passing grade for standalone classes is a D-. [College of Engineering and Applied Science Academic Expectations and Policies](#) state that if a minimum required grade in a prerequisite course is not achieved, a student is required to repeat a course until the minimum acceptable grade has been earned (maximum of 3 attempts total). If a student takes the advanced (post-requisite) course, this does not remove the obligation to meet the prerequisite course minimum grade requirement, even if the grade earned in the advanced course is acceptable.

Academic Standing

To remain in good academic standing with the College of Engineering and Applied Science, a student must maintain satisfactory academic performance as measured by GPA and progress toward completion of a Bachelor of Science degree. Students must maintain both a cumulative and major CU Boulder GPA of at least 2.000 based entirely on CU Boulder coursework. Courses taken at CMU do not count toward CU Boulder GPA. Failure to meet these requirements results in a student being placed on Academic Alert, Academic Recovery, and/or Academic Suspension. Students in this situation should consult the Partnership Program Director and review the Academic Standing Policies:

<https://www.colorado.edu/engineering-advising/academic-standing>

Fundamentals of Engineering (FE) Exam

Taking the [Fundamentals of Engineering \(FE\) Examination](#), fall or spring of the student's senior year (including both the general portion in the morning and the Mechanical Engineering Subject-Specific Section in the afternoon) is required for this catalog year. Graduation is not contingent upon passing. However, it is beneficial to pass because this exam is the first step toward a Professional Engineer's certification.

ENGINEERING PARTNERSHIP PROGRAM

MECHANICAL ENGINEERING (BS)

2023 – 2024

coloradomesa.edu/engineering

Coursework Not Accepted for Transfer Credit

All courses not taken through the University of Colorado will undergo a transfer evaluation and credit will be transferred to CU Boulder as applicable. The following coursework will not be accepted for transfer credit and will not count toward a degree at CU Boulder, as described in the [Campus Transfer Credit Policy](#):

- any courses in which the grade earned is below a C- (1.70)
- courses identified by CU Boulder as remedial, such as remedial English, mathematics, science and developmental reading
- vocational-technical courses that are offered at two-year and proprietary institutions (exceptions may be granted only by the CU Boulder dean responsible for the student's curriculum)
- courses in religion that constitute specialized religious training or that are doctrinal in nature
- credits earned for work experience or through a cooperative education program
- outdoor leadership education coursework
- credits earned in physical education activity courses
- courses or programs identified as college orientation

Credit hours required for graduation that were earned more than ten years prior to transferring into an undergraduate degree program at CU Boulder may not apply to the completion of a student's graduation requirements.

Students are responsible for making up any difference in credit hours between the transfer credit received and the CU Boulder course. This can happen when students transfer in coursework from an institution on a quarter-system, for example. Furthermore, students must have their Academic Advisor approve how the credit shortfall is made up (based on ABET and other program requirements). Students must have a minimum of 128 unique non-duplicative, degree applicable credit hours, along with meeting the specified course and other requirements for a specific bachelor's degree program per [CEAS Transfer Credit Policy](#).
