

ENGINEERING PARTNERSHIP PROGRAM

ELECTRICAL AND COMPUTER ENGINEERING (BS)

2026 – 2027

coloradomesa.edu/engineering

The Bachelor of Science Degree in Electrical and Computer Engineering obtained through the Engineering Partnership Program is conferred by the University of Colorado Boulder. Lower-division coursework is completed through Colorado Mesa University before applying for admission to the University of Colorado Boulder. The entire program is completed on the campus of Colorado Mesa University. A student may apply for admission to the University of Colorado Boulder through the Engineering Partnership Program when they have satisfied all criteria of one of the following scenarios:

Scenario 1

- Complete a college-level, two-course sequence in calculus with a grade of B- or higher
- Complete one college-level physical science course (calculus-based physics and/or college-level chemistry) with a grade of B- or higher
- Maintain a college-level cumulative GPA of 3.0 or higher

Scenario 2

- Complete the first- and second-year course sequence listed on the current Program Sheet or Degree Plan for the Engineering Partnership Program
- Maintain a college-level cumulative GPA of 3.0 or higher

Student Outcomes. Graduates of this program will have...

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Program Objectives

Within the first three years after graduation, our alumni will have built on the educational foundation gained through our program by establishing themselves in professional careers and/or pursuing a graduate degree. In addition, within these three years, our alumni should have begun to generate new knowledge and/or exercise leadership in their positions.

ENGINEERING PARTNERSHIP PROGRAM

ELECTRICAL AND COMPUTER ENGINEERING (BS)

2026 – 2027

coloradomesa.edu/engineering

The Bachelor of Science Degree in Electrical and Computer Engineering requires:

- [Transfer](#) to the University of Colorado Boulder of all coursework listed on the plan of study
- At least 45 credits earned from the University of Colorado Boulder ([residency requirement](#))
- A minimum of 128 credits earned to graduate
- A cumulative and major [GPA of at least 2.000](#) (from entirely CU Boulder coursework as a student's GPA does not transfer from non-CU institutions)

AP & IB Credit

Engineering Partnership students must achieve [scores required of CU Boulder](#) for AP and IB credit. An AP score of 5 is required on Physics C: Mechanics to receive credit for PHYS 131 & 131L. This score is higher than the score required for credit at CMU.

English Language and Composition Scores of 4 or 5, despite transferring to CMU as ENGL 111 and 112, do not count toward CEAS humanities and social science requirements (as it is not under the arts and humanities distribution). However, a score of 3, 4, or 5 on the English Literature and Composition exam will count towards CEAS humanities and social science requirement (as it is under the arts and humanities distribution).

Academic Calendar

The Engineering Partnership Program follows the calendar of Colorado Mesa University for semester start and end dates as well as breaks. Add, drop, and withdrawal dates may differ and can be found on the [CU Boulder Registrar's Website](#).

Petitions

Students seeking an exception to a [policy or practice](#) (including transfer coursework policies) should first talk to the Partnership Program Director and then [submit a petition](#).

ENGINEERING PARTNERSHIP PROGRAM

ELECTRICAL AND COMPUTER ENGINEERING (BS)

2026 – 2027

coloradomesa.edu/engineering

Coursework Not Accepted for Transfer Credit

All courses not taken through the University of Colorado will undergo a transfer evaluation and credit will be transferred to CU Boulder as applicable. The following coursework will not be accepted for transfer credit and will not count toward a degree at CU Boulder, as described in the [Campus Transfer Credit Policy](#):

- any courses in which the grade earned is below a C- (1.70)
- courses identified by CU Boulder as remedial, such as remedial English, mathematics, science and developmental reading
- vocational-technical courses that are offered at two-year and proprietary institutions (exceptions may be granted only by the CU Boulder dean responsible for the student's curriculum)
- courses in religion that constitute specialized religious training or that are doctrinal in nature
- credits earned for work experience or through a cooperative education program
- outdoor leadership education coursework
- credits earned in physical education activity courses
- courses or programs identified as college orientation

Credit hours required for graduation that were earned more than ten years prior to transferring into an undergraduate degree program at CU Boulder may not apply to the completion of a student's graduation requirements.

Students are responsible for making up any difference in credit hours between the transfer credit received and the CU Boulder course. This can happen, for example, when students transfer coursework from an institution on a quarter-system. Furthermore, students must have their Academic Advisor approve how a credit shortfall is made up (based on ABET and other program requirements). Students must have a minimum of 128 unique non-duplicative, degree applicable credit hours, along with meeting the specified course and other requirements for a specific bachelor's degree program per [CEAS Transfer Credit Policy](#).

ENGINEERING PARTNERSHIP PROGRAM

ELECTRICAL AND COMPUTER ENGINEERING (BS)

2026 – 2027

coloradomesa.edu/engineering

COURSES

Mathematics & Basic Sciences: 32 semester hours

| | | |
|-----------|---------------------------------|---|
| MATH 135 | Engineering Calculus I | 4 |
| MATH 136 | Engineering Calculus II | 4 |
| MATH 253 | Calculus III | 4 |
| MATH 236 | Diff Equations & Linear Algebra | 4 |
| MATH 369 | Discrete Structures I | 3 |
| PHYS 131 | Fundamental Mechanics | 4 |
| PHYS 131L | Fundamental Mechanics Lab | 1 |
| PHYS 132 | Electromagnetism & Optics | 4 |
| PHYS 132L | Electromagnetism & Optics Lab | 1 |
| | General Science Elective | 3 |
| | (see list on next page) | |

Computer Science: 9 semester hours

| | | |
|----------|----------------------------------|---|
| CSCI 111 | CS1: Foundations of Computer Sci | 3 |
| CSCI 112 | CS2: Data Structures | 3 |
| CSCI 250 | CS3: Introduction to Algorithms | 3 |

Writing: 3 semester hours

| | | |
|----------|-----------------------|---|
| ENGL 325 | Writing for Engineers | 3 |
|----------|-----------------------|---|

Basic Engineering: 21 semester hours

| | | |
|-----------|--------------------------------------|---|
| EECE 225 | Intro to Circuits & Electronics | 3 |
| EECE 225L | Intro to Circuits & Electronics Lab | 1 |
| EECE 226 | Circuits as Systems | 3 |
| EECE 226L | Circuits as Systems Lab | 1 |
| EECE 235 | Digital Logic | 3 |
| EECE 244 | Applications of Embedded Software | 3 |
| EECE 337 | Embedded Software Engineering | 3 |
| ENGR 101 | Introduction to Engineering | 1 |
| ENGR 140 | Fundamentals of Engineering Projects | 3 |

Core Engineering: 25 semester hours

| | | |
|-----------|------------------------------------|---|
| ECEN 2000 | ECE as a Profession | 1 |
| ECEN 3250 | Microelectronics | 3 |
| ECEN 3300 | Linear Systems | 3 |
| ECEN 3350 | Programming of Digital Systems | 3 |
| ECEN 3593 | Computer Organization | 3 |
| ECEN 3753 | Real-Time Operating Systems | 3 |
| ECEN 3810 | Introduction to Probability Theory | 3 |
| ECEN 4610 | Capstone Laboratory (Part 1) | 3 |
| ECEN 4620 | Capstone Laboratory (Part 2) | 3 |

Advanced Concentration Elect: 6 semester hours

| | | |
|------------|------------------------------|---|
| ECEN ????? | See explanation on next page | 6 |
|------------|------------------------------|---|

Technical Electives: 12 semester hours

See explanation on next page 12

Software Elective*: 3 semester hours

| | | |
|------------|---|---|
| CSCI ????? | Software Elective | 3 |
| | (Can be an approved upper-division CMU course or a CU Boulder course) | |

Humanities & Social Science: 15 semester hours

| | |
|---|---|
| Humanities & Social Sciences | 9 |
| Upper-Division Humanities & Social Sciences | 6 |

Free Electives*: 2 semester hours

TOTAL CREDITS 128

* Students must take 45 credits of CU Boulder coursework. For most students to meet this requirement the software elective or the free elective must be taken from CU Boulder.

ENGINEERING PARTNERSHIP PROGRAM

ELECTRICAL AND COMPUTER ENGINEERING (BS)

2026 – 2027

coloradomesa.edu/engineering

Acceptable Course Substitutions

MATH 151 Calculus I (5-credits) for MATH 135 Engineering Calculus I (4-credits)

MATH 152 Calculus II (5-credits) for MATH 136 Engineering Calculus II (4-credits)

CSCI 130 Intro to Engineering Computer Science (4-credits) for CSCI 111 Computer Science 1 (4-credits)

MATH 240 Discrete Mathematics Introduction to Advanced Mathematics (4-credits) for ECEN 2703 Discrete Mathematics for Computer Engineers*

CSCI 470 Operating Systems Design (3-credits) for ECEN 3753 Real Time Operating Systems (3-credits)*

*Students must ensure they complete 45 credits of CU Boulder coursework if they choose to take a CMU course instead of CU Boulder course in these instances.

To investigate additional course substitutions from CMU or another institution, check www.transferology.com to verify how applicable courses will transfer to CU Boulder and discuss options with an Academic Advisor.

Humanities & Social Science Electives

A list of CMU courses approved for transfer to CU Boulder as humanities & social science electives can be found here: <https://www.coloradomesa.edu/engineering/degrees/hssacceptableclasses20260317.pdf>

General Science Elective

The following CMU courses are approved as general science electives:

BIOL 105 & BIOL 105L Attributes of Living Systems and Lab (4-cr)

BIOL 209 & 209L Human Anatomy and Physiology (4-cr)

CHEM 131 General Chemistry I (4-cr)

CHEM 132 General Chemistry II (4-cr)

CHEM 311 Organic Chemistry I (4-cr)

PHYS 230 Intermediate Dynamics (3-cr) OR PHYS 231 Modern Physics (3-cr)

GEOL 105 Geology of Colorado (3-cr)

STAT 200 Probability and Statistics (3-cr) or STAT 311 Statistical Methods (3-cr)

ENGR 312 or MCEN 3012 Thermodynamics (3-cr)

Refer to the [General Science Elective list](#) for a complete list of CU Boulder courses that have been pre-approved to meet this requirement.

Advanced Concentration Electives (ACE)

Must complete two approved upper division ECEN courses: ECEN 4138 Control System Analysis and ECEN 4638 Controls Lab, ECEN 4632 Intro to Power Electronics and ECEN 4532 Power Electronics Lab, or ECEN 4797 Intro to Digital Filtering and ECEN 4517 DSP Lab, for 6 total credits. There is no guarantee that these courses will be offered in a given, or upcoming, semester. As an alternative, students may take other 3000 or 4000 level ECEN courses not already applying elsewhere in the degree (excluding independent study), as listed on the [main campus ECEE website](#).

ENGINEERING PARTNERSHIP PROGRAM

ELECTRICAL AND COMPUTER ENGINEERING (BS)

2026 – 2027

coloradomesa.edu/engineering

Technical Electives

Students must complete 12 credits of Technical Electives to complete their degree. Technical Electives are 3000- and 4000-level courses that are generally in the fields of science, engineering, and mathematics. Students should not take ENGR 317/L, ENGR 225, ENGR 305, ENGR 312, ENGR 317, ENGR 321, ENGR 401, and ENGR 427 (please consult your Academic Advisor for details). In addition, students may count a combination of up to 6 credits of 3000- and 4000-level ECON, BUSM, and EMEN courses towards Technical Electives. Previous course offerings can be found at classes.colorado.edu (select “Colorado Mesa University” as the location). Technical Electives cannot ‘double count’ elsewhere in the degree.

Software Elective

Students must take an upper-division computer science course from either CMU or CU Boulder (as long as the student also meets the 45 CU Boulder residency hours). For CMU Special Topics courses (CSCI 396), please consult the Partnership Program Director for guidance prior to taking the course. The following CU Boulder courses are approved as software electives: ECEN 4033, ECEN 4313, ECEN 4322, CSCI 3002, CSCI 3104, CSCI 3287, CSCI 3302, CSCI 3308, CSCI 3753, CSCI 4446, and TLEN 5842.

Free Electives

College-level coursework accepted by CU Boulder not used otherwise to satisfy BSECE degree requirements. Electrical and computer engineering does allow courses counting as free electives to be taken on a pass/fail basis ([however the college limits use to 6 per semester and 16 cumulative](#) and a student must first [submit a petition](#) prior to choosing this option). Use www.transferology.com to verify that courses will transfer to CU Boulder as appropriate equivalencies.

Grade Requirements

The minimum passing grade for prerequisite and co-requisite courses is a C-. This includes courses completed outside the program. The minimum passing grade for standalone courses is a D-. [College of Engineering and Applied Science Academic Expectations and Policies](#) state that if a minimum required grade in a prerequisite course is not achieved, a student is required to repeat a course until the minimum acceptable grade has been earned (maximum of 3 attempts total). If a student takes the advanced (post-requisite) course, this does not remove the obligation to meet the prerequisite course minimum grade requirement, even if the grade earned in the advanced course is acceptable.

Academic Standing

To remain in good academic standing with the College of Engineering and Applied Science, a student must maintain satisfactory academic performance as measured by GPA and progress toward completion of a Bachelor of Science degree. Students must maintain both a cumulative and major CU Boulder GPA of at least 2.000 based entirely on CU Boulder coursework. Courses taken at CMU do not count toward CU Boulder GPA. Failure to meet these requirements results in a student being placed on Academic Alert, Academic Recovery, and/or Academic Suspension. Students in this situation should consult the Partnership Program Director and review the Academic Standing Policies: <https://www.colorado.edu/engineering-advising/academic-standing>
