**Proposal to Faculty Senate:**

**Proposal to request changes for WCCC Curriculum Committee:**
The requested changes are being proposed to streamline the program/course adoption and revision process for the WCCC Curriculum Committee. We feel strongly that it will allow us to move more quickly and efficiently in response to the changing landscape of vocations, community need, and the marketplace.

**Why are these changes needed and requested?**
As mentioned above, we would like to increase our ability to be more nimble and responsive to student and community needs than we are now under the current processes and procedures. This is due in large part because WCCC CC goes through its own process, prior to going to UCC, which only adds to the timeline of completion. WCCC Curriculum Committee process is extensive and seeks to perform many of the same tasks performed by the UCC to address the same issues and concerns that the UCC process addresses. It is our feeling that this duplication of the process may not be needed.

**What is our plan to make sure that documents are clean and correct?**
We will carefully examine each of our processes for the WCCC Curriculum Committee to make sure that all are followed and refined to ensure the comprehensive vetting of all changes. Curricular changes are brought forward by faculty in conjunction with the WCCC Director of Instruction. The Director of Instruction will ensure comprehensively vetting of all changes as the document are prepared. The Director of Instruction, along with the VP of Community College Affairs and the WCCC CC vice-chair, will carefully review all documents before they are forwarded to the WCCC Curriculum Committee.

After these initial WCCC reviews, the UCC Chair will review all documents before final submission to Faculty Senate. We will insure that the chair receives all documents in a timely manner to facilitate that review. Finally, a staff member from Academic Affairs and from the Registrar’s office will review all documents, as they do for all curriculum committees’ proposals before WCCC CC.

**How we assure the courses and or programs are not duplicates of courses or programs offered on CMU campus?**
We will follow the procedures carefully articulated in the Faculty Senate’s Curriculum and Procedures Manual and will review all changes with the appropriate department heads for degrees, or courses of study, at CMU to eliminate any possibility of duplication. In addition, the Vice Chair of the UCC will continue to serve on the WCCC CC and will continue review of documents to make sure there is no duplication or crossover. Finally, the WCCC CC will provide the UCC with its meeting minutes so that the UCC is aware of the courses and programs being proposed.
### Changes Proposed by WCCC to the Curriculum Adoption Manuals and Process:

<td>“The WCCC Curriculum Committee of Faculty Senate is charged with the responsibility for technical certificates, AAS, AA, and AS degrees offered solely by WCCC, and certificate courses within those programs.”</td>
<td>We strongly believe this will allow the WCCC curriculum committee, which meets once each month during the academic year, to move more quickly and efficiently in response to the changing landscape of vocations, community need, and the marketplace. It will also reduce the duplication of effort by both committees since they are evaluating the same issue and requirements.</td>
