Colorado Mesa University

Department of Health Sciences

AAS Nursing Program Application – Eligibility Criteria

1. Applicants are required to submit their Kaplan Pre-Nursing exam scores as part of their application. They can take the Kaplan once per application period.
2. All pre-requisite courses must be at least in-progress by the semester of application, and the applicant must receive a final grade of C or better.
3. The GPA of the required AAS Nursing pre-requisite courses must be at least 3.0.
4. Those applicants chosen for an interview are the top candidates among those who have applied for that application period and have scored the highest in #1, #2 and #3 above.
5. Those chosen for the cohort will have the top scores in the interview, in addition to the GPA and Kaplan requirements.
6. Incomplete applications are not considered; all application materials must be submitted by the posted deadline, or the application will be incomplete and not considered for that year's cohort.

The criteria above and the AAS Application Checklist are intended to help applicants plan their application and guide them through the application process.

This sheet is an informational guide about the eligibility requirements for AAS Nursing applicants. If you have questions after reviewing this sheet, please contact your nursing academic advisor.

Use this sheet for guidance when applying to the AAS cohort that begins in Fall 2024.
