How To: Clear Google Chrome Cache in Windows

This document explains how to clear the cache and cookies from Google Chrome in Windows.

1. Open Chrome.
2. At the top-right, click the Customize and control Google Chrome icon:  
3. In the menu that appears, click More tools. Click Clear browsing data.
4. In the dialog that appears, select the checkboxes for the types of information that you want to remove.
5. In the option labeled, “Obliterate the following items from:”, select the amount of data you want to delete. Select the beginning of time to delete everything.
6. Click Clear browsing data.

NOTE: Selecting the Passwords option will remove any passwords you have previously saved for web sites.
