Definition of Interactive and On-line Enrollments:

Interactive televised course is a course that is delivered live using technology that allows the student to see the instructor and discuss issues the televised sessions (I.e., the student at the remote site can immediately respond to a question posed by the instructor at the host site during the class). To be eligible for FTE funding, 51% of the scheduled course meetings must be interactive.

Internet courses is a course in which the student actively participates in a course using computer software to view demonstrations, hear lectures, participate in threaded conversations, and respond to assignments on the web. To qualify for FTE funding, all class meetings must be delivered on the web, excluding the midterm and the final examination.

All other distance education courses are reported in the right column -- Not claimed for state support.

Commission approved off-campus state-funded programs to provide access to high priority programs beyond a four-year institution's geographical campus. Institutions may claim no more FTE for each off-campus state-funded program than the maximum number approved by the Commission.

Complete the table above for all FTE generated in a term for all state approved off-campus degree programs. List the programs and location in table below.

Include only headcount and hours generated by students who are enrolled at your institution. Do not include students who enroll at other institutions under inter-institutional agreements.

Institutions with a two-year role and mission and area vocational schools may claim state FTE for credits generated in Remedial courses. Community colleges may claim state FTE for academic skills and vestibule laboratory courses.

* Summer term enrollment is not included under the provisions of Postsecondary Enrollment Options Act. Therefore, no fast track or pseo enrollment may be claimed for summer term enrollment.

The Postsecondary Enrollment Options Act (see 4.02.03 H and 22-35-101 C.R.S.) specifies conditions under which high school students may take classes at a higher education institution and receive credit at both the high school and the institution. High school students participating in this program should be reported on this form. The head count columns should report the total number of high school students enrolled under the program in each term. Since credit hours taken by these students may or may not be reportable for resident instruction funding, both the total credit hours and the number of resident instruction credit hours should be reported. The total credit hours column should include the resident instruction credit hours. Must have signed contract on file to be claimable.

The Fast Track Act (C.R.S. 22-35-) specifies conditions under which high school students may take classes at a higher education institution and receive credit at both the high school and the institution. High school students participating in this program should be reported on this form. The head count columns should report the total number of high school students enrolled under the program in each term. Must have signed contract on file to be claimed for state support.

Home school students are ineligible to participate in the PSEO or Fastrack Programs. However, the same tuition classification applies to Colorado home school high school students as PSEO and fast track.

High school concurrent students are reported as special, non-degree seeking.
