

## Overall Factor Performance when compared to other institutions

In comparing CMU factor performance to other institutions, overall, CMU performs very well. The only areas in which CMU performs less than comparison groups are in the “Sexual Assault” factor and in the factor regarding “Visibility”. This may indicate that the training and communication currently in place regarding sexual assault protocol needs to be examined further. In terms of visibility, CMU students are less satisfied with visible faculty and staff diversity and speaks to continued examination of recruitment initiatives. In all other factors, CMU performs at least as well, if not better, than the comparison groups examined.

### Overall

Population: Colorado Mesa University (Number Responding = 1895)

Factor Description	Peer Institutions ?	All Institutions ?
Perceptions of the Institution - 6th Predictor		
Visibility - 9th Predictor		
Personal Attitudes and Behaviors - 7th Predictor		
Co-Curricular Environment - 2nd Predictor
