

Guide to the William H. Nelson Colorado Water collection

Collection Identifier: CMU-SCA-007

Preferred Citation: [description of item, including box and folder], William H. Nelson Colorado Water collection, Tomlinson Library Special Collections and Archives, Colorado Mesa University.

Abstract: The collection contains correspondence, articles, brochures, press releases, government documents, newsletters, photographs, and other material related to the Colorado River and the management of its waters from the 1860s to the 1990s.

Creator: Nelson, William H.

Dates (inclusive): 1860-1993

Dates (bulk): 1940-1985

Extent: 30 linear feet; 30 record boxes

Repository: Special Collections and Archives
Tomlinson Library
Colorado Mesa University
1100 North Avenue
Grand Junction, CO 81504

Historical Note: William H. Nelson was born May 2, 1917 in Grand Junction, Colorado. Nelson attended Grand Junction State Junior College (now Colorado Mesa University). He transferred to the University of Colorado to complete his Bachelor's degree, graduating in 1940. Nelson began working for *The Daily Sentinel* in June 1935, writing on a variety of topics with the subject of Colorado water a major interest. He married Edith Liley in 1946 and had two sons. Governor Edward C. Johnson appointed Nelson to the Colorado Water Conservation Board where he served ten years through the governorship of Stephen McNichols. He retired in May 1982, ending a forty-seven-year career with *The Daily Sentinel*. He died in Grand Junction, Colorado in 1994.

Scope and Contents: The William H. Nelson Colorado Water Collection covers issues dealing with Colorado water, with an emphasis on the Upper Colorado River. Materials include correspondence, photographs, government documents, press releases, brochures, publications, newsletters, and other documents related to the management of water in the Colorado River basin from the 1860s to the 1990s with the majority of the content focused on the 1940s into the 1980s. Content focuses heavily on water projects of the Bureau of Reclamation, especially the Colorado River Storage Project (CRSP) and the Fryingpan-Arkansas Project. Legal battles over water rights between the Eastern slope and the Western Slope of Colorado as well as between the

TOMLINSON LIBRARY

Federal government and the states figure heavily as well. Other topics covered include water quality, stream salinity, and hydrological forecasting using snowpack.

Arrangement: Materials are in original order.

Access: Open for research in Special Collections and Archives

Use: It is the responsibility of the user to obtain permission to publish from the owner of the copyright (the institution, the creator of the record, the author or his/her transferees, heirs, legates, or literary executors). The user agrees to indemnify and hold harmless Colorado Mesa University, Tomlinson Library, its administrators, employees, and agents from and against all claims made by any person asserting that he or she is an owner of copyright.

Subjects: Water resources development -- Colorado River Watershed (Colo.-Mexico); Water resources development -- Colorado; Water rights -- Colorado River Watershed (Colo.-Mexico); Western Slope (Colo.); Colorado River Storage Project (U.S.); Fryingpan-Arkansas Project (U.S.); Stream salinity -- Colorado River Watershed (Colo.-Mexico)

Names: Aspinall, Wayne N.; Kennedy, John F. (John Fitzgerald), 1917-1963; Johnson, Lyndon B. (Lyndon Baines), 1908-1973; Sparks, Felix L.

Finding Aid Author: Kathy Tower; revised by James Coburn (2014); revision by Amber J. D'Ambrosio (2021)
