

Enrichment Course Descriptions

Choose two *different* courses

Singing Actor: Students will learn to sing while acting with repertoire from musical theater shows, movies, and more!

Percussion Ensemble: Students will explore drums and other percussion instruments with engaging activities and games to build better rhythm reading and a stronger beat.

Music Technology: Students will explore ways to create, edit, and manipulate music on the beautiful and updated Mac Lab. Each session is limited to the first 30 students to register for this course.

Guitars: Students without any experience on guitar will learn beginning guitar techniques and songs. Each session is limited to the first 30 students to register for this course.

Singing Games: Students will build strong singing technique and pitch without even realizing it – through singing games!
