

# WANT TO WORK ON CAMPUS?

WORK  
STUDY

Work-study is a student employment program utilizing Federal and State funds that allows eligible students to work on campus. In order to be eligible for work-study funds, students must complete the FAFSA and be enrolled full-time. It is very important that students apply for the FAFSA as early as possible due to limited funding for federal and state work-study programs. **You will need either your Social Security card or passport in order to work on campus.** Not all jobs offered on campus require work study.

MAVworks is a work-study program funded by Colorado Mesa University. You must be making satisfactory academic progress with preference to those with a 3.00 GPA or higher, and be enrolled full-time. There is an advertised application period at the beginning of each fall and spring semester for these funds. The application period runs from the first day of school to census date. The application is available online. If you are interested, please visit [coloradomesa.edu/mavworks](http://coloradomesa.edu/mavworks).
