

PHYSICS SEMINAR

The Most Precise Experiment in All of Science!

Dr. James Mangan, Colorado Mesa University

Thursday, March 5, 2026

12:30 – 1:30 p.m.

WS 160

Introductory physics labs are plagued by friction and air resistance, but physics is the fable of the tortoise and the hare. By the time we reach modern experiments, no science can touch the precision of physics. But which physics experiment is the most precise? What is the most precise theoretical prediction? Come find out!

Refreshments!
