Addendum #2

September 2, 2024

1. The solicitation states the contractor's response submittal is limited to (20) double sided 8 1/2" x 11" sized pages. Please clarify this equates to (40) single sided pages. Additionally in section IV.A.3 under project management approach, 1-2 page excerpts of actual products are requested (estimates, progress reports, schedules, constructability reviews, value engineering studies, forms, general conditions budgets, organizational structures, etc.). Do these excerpts count against the total page count?

Response: Correct, the submittal shall be no more than 40 pages, when printed double sided that is 20 pages. Yes, the excerpts are included in that page count.
