DEGREE WORKS
STUDENT MANUAL

By
Registrar’s Office
**DEGREE WORKS – WHAT IS IT?**

DegreeWorks is a web-based degree audit tool. It allows you to see where you are in your degree program and what requirements remain for you to finish your degree.

Degree Works should be used as a tool for educational and planning purposes only. You need to meet with your academic advisor to review degree progress and verify the accuracy of a Degree Works audit.

**WHAT IS AN AUDIT?**

An audit is an evaluation of past, current and planned coursework with reference to Colorado Mesa University's catalog requirements for a student's declared degree.

The audit is divided into block requirements such as Degree, General Education, Foundation, Major, etc. Each block has a checklist of requirements for that area. The boxes are checked with:

- ✔ when a requirement/course has been met.
- ✗ when a requirement/course is not yet complete.
- ☐ when a requirement/course is in-progress.

**DO I STILL NEED TO MEET WITH MY ACADEMIC ADVISOR?**

Yes, you definitely need to meet with your academic advisor on a regular basis. Your advisor will offer advice on which courses would be best to take next and will help keep you on track. They will make sure you are up to date on pertinent information related to graduating on time and help confirm that the interpretation of your degree audit is correct.

**HOW TO ACCESS DEGREE WORKS**

1. You access Degree Works through MAVzone. Once you log into your MAVzone account, click on the Applications tab on the left side of the page. (Note: On a mobile device, the tab is labeled as Apps and is on the bottom of the page.)

2. Once on the Applications page, you will find a link to the Degree Works application. Applications are listed alphabetically or you can use the applications search bar to find Degree Works.

3. Click on the Degree Works application link and it will take you to the web page. From there your student information will populate automatically and you are ready to go.
1. **Student View**: Overview of your personal and degree information.

2. **Disclaimer and Progress Bars**: Gives you a percentage of your degree progress based on the information in your audit.

   Degree Works evaluates completed and in-progress coursework against major requirements to determine progress toward the completion of a degree. Changing your registration or completing a course with an unsatisfactory grade may impact your degree progress. You should meet regularly with your academic advisor to review degree progress and verify the accuracy of the Degree Works audit. It does not constitute an official degree audit or an official transcript.

   | Requirements | 31% |
   | Credits      | 73% |

   The percentages above are calculated from the number of check boxes completed not actual degree completion. Completing 100% of the credits and/or requirements is not official notification of degree completion. You must meet with your advisor to determine if all degree requirements have been met. Click on the Help link in the top bar for more details.

3. **Degree Block**: Summary of the requirements for your degree.

   **Upper Degree Requirements**: Students seeking a baccalaureate degree must earn a minimum number of upper-division semester credit hours (numbered between 300 and 499), depending on the degree and major. For most degrees, a minimum of 40 semester credit hours is required.

   **Credit Hours Required**: If you are pursuing an associate’s degree you will need a minimum of 60 semester credit hours and if you are pursuing a baccalaureate degree you will need a minimum of 120 semester credit hours. The requirements can vary depending on the degree, so make sure to check with your academic advisor.
4. **General Education/Essential Learning Requirements**: Summary of your basic courses that form the foundation of all undergraduate degree programs needed for graduation. *(Associate and Bachelor Degree Seeking Students only)*

Unmet conditions for this set of requirements:
- A minimum of 31 semester credit hours are required. You currently have 28 earned or in progress, you still need a minimum of 3 more credit hours.

If a course has a lab, both the course and the lab must be passed to count for General Education. This includes one course in the Social Sciences (POAN 180 with lab) and all Natural Sciences with lab (those with an attribute of GENL). See the Advising Center General Education Requirements web page by clicking this link for more information on General Education Requirements and the number of credits required for each general education category.

ENGLISH (a grade of C or better is required)
- ENGL 111: English Composition-GTC01
- ENGL 112: English Composition-GTC02

MATHEMATICS (a grade of C or better is required)
- MATH 113: College Algebra-GTM1

HISTORY
- HIST 132: United States History-GTH1

HUMANITIES
- PHIL 110: Intro to Philosophy-GTAH

SOCIAL & BEHAVIORAL SCIENCES
- ECON 201: Principles of Macroeconomics-GTSS1
- ECON 202: Principles of Microeconomics-GTSS1

FINE ARTS
- THEA 141: Theatre Appreciation-GTAH

NATURAL SCIENCES WITH LAB
- Approved Natural Science Course with Corresponding Lab
- PHYS 100: Concepts of Physics-GTSC2

Still Needed:
- (2 Classes in @ with Attribute GENL and @ with Attribute GENL)

Note: The course(s) that still need to be met will have a link labeled “@@ with Attribute…” as showed above with the arrow. This allows you to click on the link for a list of courses available to fulfill that specific requirement.

5. **Lower Division Requirements**: Summary of lower division requirements (courses that carry a 100-299 number) needed for graduation. *(Associate and Bachelor Degree Seeking Students only)*

6. **Foundation**: This section only appears if you are a Bachelor seeking student. The information will vary depending on what degree you are pursuing. *(Bachelor Degree Seeking Students only)*
7. **Major Requirements**: A set of required courses within your major. *(Associate and Bachelor Degree Seeking Students only)*

8. **Electives**: Summary of classes that do not fulfill any of the specific course requirements. Most majors require some electives to reach the total required credits and some bachelor’s degrees may require upper division credits in the electives. Electives may be partially restricted (to fulfill a particular requirement) or they may be “free” (you choose what you want to take). Refer to the Degree Block to verify the requirements for your degree. *(All degree seeking students)*

9. **Insufficient**: If relevant, this is a list of courses which do not count towards your declared major. *(All degree seeking students)*

10. **Legend**: Explanation of symbols used throughout Degree Works
HOW DOES THE **WHAT IF** FEATURE WORK?

The *What If* feature listed under the *Worksheets* tab, displays the results when a current proposed program change is considered using your current course history. Select the *What If* criteria for the scenario to be examined, then click the *Process What If* button to view the results of the audit.

HOW DOES THE **LOOK AHEAD** FEATURE WORK?

To see an audit showing courses for which you plan to register in future terms, use the *Look Ahead* feature listed under the *Worksheets* tab. Enter the Subject code and Number of each anticipated course, and once you have created your list of courses, click on the *Process New* button.

HOW TO USE THE **PLANS** FEATURE

You are encouraged to use the *Plans* feature as a guide for tracking your future progress. Please refer to the video on the Colorado Mesa University Registrar’s Office website labeled *Plans* to further understand and proceed with this step. The Registrar’s Office may be contacted for assistance in interpreting this report.
Use the *Graduation Calculator* to help estimate what GPA you need to maintain with your remaining credits to graduate with your desired GPA. Use the audit on the Worksheets tab to determine credits remaining and credits required for your degree.

Use the *Term Calculator* to estimate what your GPA will be at the end of the term. Repeated classes are not factored into the GPA calculation. The grades you enter are your estimations only. The final grade for each course will be determined by the instructor.

Use the *Advice Calculator* to estimate how many more credits and what average GPA you need in order to achieve your desired GPA with credits earned. If your credits earned is zero, please use the *Term Calculator* to estimate what your GPA will be at the end of the term.
1. How do I know what classes I need to take?
   Refer to the gray boxes on your Degree Works audit and any unchecked boxes to understand which course(s) and/or requirements that still need to be fulfilled. You may then use this information to discuss your registration plan with your academic advisor.

2. How does Degree Works decide where to place courses that I’ve completed?
   Degree Works uses a 'best fit' approach to apply courses to requirements. The 'best fit' approach will not always be perfect, especially when multiple possibilities exist. Classes may apply to different sections as you take more courses. If you have a course that does not appear in the area in which you expected, please contact your academic advisor for assistance.

3. My major and/or catalog year are incorrect on my audit.
   Every student needs to officially declare their major and/or catalog year. To do that, contact the academic department for the major that you would like to declare. They will then change your major and catalog year if applicable.

4. How current is my information in Degree Works?
   Student Data is refreshed every 15 minutes in Degree Works. If you do not see your most recent course registration or grade information in Degree Works, hit the Process New button.

5. I think my audit is incorrect. What should I do?
   The first step is to clarify what information you believe is incorrect. Once you have that information decided, talk with your advisor or stop by the Registrar’s Office in Lowell Heiny Hall for assistance.

6. How do I change my advisor?
   Please contact your declared major’s academic department in order to change your advisor.

7. My academic advisor or department head approved a course substitution but it isn't showing on my audit.
   Talk with your advisor to see if a course substitution form has been submitted to the Registrar's Office. If the form has been submitted, please allow 1-2 weeks for the substitution to show on your audit.

8. What does the '@' symbol mean in the Degree Works audit?
   The '@' symbol is a wildcard. Depending on its placement, it means that any course subject and/or course number can be taken. For example, @ @ means any course subject and course number can be taken to fulfill the requirement; BIOL @ means that any Biology course number can be taken; ENGL 3@ means that any 300 level English course can be taken.

9. Can I save or print my audit?
   Yes, by selecting the Save as PDF button, you can save and print your audit. Degree Works will automatically store the three most recent audit.

10. How is my Degree Works audit different from my transcript?
    The Degree Works audit is a tool to provide you with academic information related to degree progress. It displays courses required and completed in your degree program. Your transcript is your official university academic record and provides a chronological list of courses completed and other academic information.
11. Does Degree Works include my AP/IB/CLEP credit and transfer work?
Yes, provided you have your scores and/or transfer work sent to Colorado Mesa University. Once the scores and/or transfer work have been evaluated by the Registrar's Office, they will show on the audit.

12. My transfer courses don't appear in the correct place.
Once you clarify which course(s), please contact your academic advisor or the Registrar’s Office to review where the transfer work should be applied.

13. Degree Works placed one or more of my courses in two different places. Is that okay?
In most cases, yes. Degree Works is programmed to recognize that some courses can fulfill more than one requirement. If you have any questions, please contact your academic advisor.

14. How do repeated courses appear on the degree audit?
Most courses can only be counted once toward degree requirements. The grade that is being included in your GPA will be included in the audit and applied to the appropriate requirement. The grade that is not being included will show in the Insufficient (W/F/Repeated/ or Excluded Courses) section of the audit.

15. My minor is missing from my audit.
You need to officially declare your minor. Contact the academic department for your minor to declare the minor.

16. The requirements for my major are incorrect.
Look at the catalog year that appears on the upper right hand side of the degree block. If the catalog year is incorrect, contact the academic department for your major to change your catalog year. If the catalog year is correct, please contact your academic advisor to review the error.

17. I am pursuing two degrees (i.e., an AA and a BA) but only one degree appears on the audit. How can I check the requirements for my other degree?
Look at the degree information next to your name at the top of the screen. You'll notice that the degree box has a drop-down arrow. Use this to select your second degree. Once you select the degree, an audit with other degree will display.

18. I have been approved for graduation, but my Degree Works audit says that I haven't completed all my requirements. Does this mean that I won't be able to graduate?
Not necessarily. This can be a timing issue such as posting grades for the current term. Please contact your academic advisor as soon as possible to verify that you are on track to graduate.

19. Who has access to my Degree Works report? Is it secure?
Your advisor and other authorized staff are able to view the information contained in Degree Works. Like other processes that you use through MAVzone, Degree Works is accessed through a secure login. Be sure however, to close your browser when you are finished with your session.

20. Who should I contact if I still have questions or disagree with the Degree Works audit?
Please contact your academic advisor. If your advisor determines that there is an error with your Degree Works audit, please complete a Degree Works Issues Report and turn it in to the Registrar's Office.
