

Program Requirements for CMU Tech

Qualifications to Enroll:

In addition to admission to CMU Tech, all students:

- Must be at least 18 years of age prior to enrolling for PHTE 170- Pharmacy Clinicals I
- **May** need to provide proof of all immunizations one semester before enrolling in clinical rotation courses - *See below for details
- Must pass a background check
- <https://www.coloradomesa.edu/tech/admissions/index.html>

Vaccines/Immunization Record – Including:

- Hepatitis B- series of 3
- Influenza
- MMR (measles, mumps, rubella)- 2 doses
- Tdap (tetanus, diphtheria, pertussis)- within past 10 years
- Varicella (chicken pox)- positive history of chickenpox or 2 dose vaccine
- Meningococcal (varies by site, not required for Community Hospital)
- TB Test- TB PPD 2-step
- COVID: prior to clinical rotations, students will be required to either 1) show proof of a Covid vaccine, or 2) provide a medical or religious exemption. If you have questions regarding vaccine requirements, contact Allison Vogel, Pharmacy Technician Program Director

Background Check & Drug Screen Requirements

The clinical sites used in the pharmacy technician program require background checks of all potential interns, in addition to drug screens. The purpose is to maintain a safe and productive educational and clinical environment. Additionally, this is a standard requirement for all employment in the pharmacy career field and will be essential to obtaining a job. New students who refuse to comply with the background investigation will not be allowed to enter the CMU Tech Pharmacy Technician Program

All Pharmacy Technician Program students will be expected to pass a 10-panel drug screen and criminal background check to receive full acceptance to the Pharmacy Technician Program at CMU Tech. A second set of screenings will be required before enrolling for clinical internships. Both screens are required. This screening will count towards the Colorado state requirement when applying for a CO State PHT Certification.

All testing is at the student's expense, including any repeat or additional necessary testing. Students will have the opportunity to discuss the results of their drug test with the pharmacy technician and allied

health program directors. Students who fail testing will not be admitted to the Pharmacy Technician Program. All background check and drug testing information are kept confidential. ****Refer to program application packet for instructions on how to complete your screenings.**

An applicant will be disqualified from the pharmacy program based on the following guidelines:

- Felony convictions for violent felonies, including but not limited to homicide or sexual offense. (No time limit)
- Felony convictions for drug use, possession, or distribution in the seven (7) years immediately preceding enrollment in the program.
- Other felony convictions with seven (7) years.
- Violent misdemeanor convictions in the five (5) years immediately preceding enrollment in the program.
- Nonviolent misdemeanor convictions in the five (5) years immediately preceding enrollment in the program.
- The following crimes will result in automatic disqualification:
 - Any offense involving unlawful sexual behavior.
 - Any crime of child abuse, as defined in C.R.S. 18-6-401
 - Crimes of moral turpitude (prostitution, public lewdness/exposure, etc)
 - Any offense in another state, the elements of which are substantially similar to the elements of any of the above offenses.
- Any offense involving unlawful sexual behavior.
- Any crime of child abuse, as defined in C.R.S. 18-6-401
- Crimes of moral turpitude (prostitution, public lewdness/exposure, etc)
- Any offense in another state, the elements of which are substantially similar to the elements of any of the above offenses.

If the investigation reveals information that could be relevant to the application, the designated individual responsible for background checks may request additional information from the applicant. The offense shall be reviewed on a case-by-case basis.

In addition to the current Drug Screen & Criminal Record Check policies:

Although possession and use of marijuana both recreationally and for certain medical conditions consistent with the requirements of the Colorado Constitution is no longer a crime in the State of Colorado, the possession and use of marijuana remains illegal under federal law. Consistent with federal law, including the Controlled Substances Act and the Drug-Free Schools and Communities Act, the use and/or possession of marijuana continue to be prohibited while a student is on campus, including any time the student is in a clinical experience or representing the College.

Licensure Requirements:

Effective March 2020, all pharmacy technicians will be required to be state certified to practice in the pharmacy. This applies to enrolled students while completing their clinical rotations as well. Students must obtain a Provisional Certificate from the State Board of Pharmacy before being eligible for clinical

placement. The fee for this is \$57 and must be paid for at the time of application. Visit <https://dpo.colorado.gov/Pharmacy> for a complete list of requirements for eligibility. Students who are determined ineligible for a state certificate will be ineligible for program completion and graduation.

Once students graduate from the program, they are eligible to take the national pharmacy technician certification exam through PTCB. This exam must be passed to qualify for a Colorado state license to practice. National certification must be renewed every 2 years by completing 20 hours of continuing education. www.ptcb.org
