CMU Covid – 19 Lighting Shop Protocols

1. Before every shop time or work time, we will meet with a game plan.
2. Sanitize and prep
3. Masks should be worn properly at all times.
4. One person in the lighting shop setting things outside the door for pick up.
5. One person pick up and per position.
6. All hang, focus and cabling per position will be done by one person.
7. Post sanitization will be required for each work day and break. Sanitation will be required to happen again to start working after a break.
8. Do NOT interact with your face during the work time. If you do, re-sanitize yourself.
9. If you are alone, working in the shop, then you can retrieve your own lights, tools, or cabling.
10. If a second person is needed to complete your task, minimize the time of proximity as best you can.
11. The light board operator will be the only person to touch the console during the run of the production.
12. The spot operator(s) will be the only person(s) to touch their own spotlights during the run of the show.
