

## 2018 STUDENT WATER FIELD CONFERENCE

Participants in the 2016 Student Water Field Conference will be staying in cabins at Vega Lodge (<http://vegalodge.com/>).

Cabins have various combinations of queen and double beds and futons. Depending on how many people participate, some participants may need to double up in the beds or sleep in sleeping bags on camping pads.

The tour will involve significant walking, and weather could range from quite hot and dry to cool and rainy. Please keep this in mind while you are packing.

The following is a list of recommended items to bring. **If you need to borrow any of these items, let us know and we can rent them for you.** Email Hannah Holm, Hutchins Water Center Coordinator, at [hholm@coloradomesa.edu](mailto:hholm@coloradomesa.edu) or call 970-683-1133.
