

Richard Koehler

NOAA/National Weather Service

Dr. Richard Koehler is the NOAA/National Weather Service's National Hydrologic and Geospatial Sciences Training Coordinator within the Office of the Chief Learning Officer. He has previously worked at the Colorado Basin River Forecast Center and the Northwest River Forecasts Center. After retiring as a lieutenant commander (NOAA Corps), he became the water resources hydrologist for Cochise, County, AZ and later the Director of Water Resources for a consulting firm in Tucson, AZ. He graduated from the US Naval Postgraduate School (MS Hydrographic Sciences) and from the University of Arizona (PhD, Watershed Hydrology, Tucson, AZ) with research focused on hydrologic data visualization and raster-based analysis. He works in Boulder, CO and has been with NOAA/NWS as a civilian since 2004.
