

Rachel Lohse

Rachael Lohse is a Spring, 2018, graduate of CMU. After completing her B.S. degree in geology, she accepted an intern position with the U.S. Forest Service, acting as a cave guide among other duties. At the end of the internship she accepted a position as a mudlogger with Field Geoservices. Her current assignment has her working in the Permian Basin of West Texas and Eastern New Mexico.

William Hood

William (Bill) Hood received his B.A. degree from the University of Missouri and his PhD degree from the University of Montana, both in geology. He was a Professor of Geology at Southern Illinois University for many years before joining Amoco Production Company. At Amoco he held a variety of technical and supervisory management positions in the company's exploration department. Bill took an early retirement package from the company and moved to Grand Junction, where he became an Adjunct Professor in CMU's geology program. Bill manages the programs X-ray diffraction and fluorescence lab, conducts research projects and mentors students, but no longer teaches courses.
