

Anthony Madrid

San Juan National Forest

Anthony Madrid is the Renewable Resources Staff Officer for the San Juan National Forest and has served the Agency for 18 years. Anthony manages the timber, fuels, watershed, wildlife and range programs across the Forest and works closely with partners to prioritize projects, leverage resources and manage our public lands. He is engaged with the various forest health collaborative groups across the San Juan National Forest and works closely with the various partners (CSFS, DFPC, NRCS, BLM, etc.) to implement forest health treatments across the landscape.
