

## **Saul Ramirez**

*Brigham Young University*

Saul Ramirez is currently a civil engineering graduate student. After receiving his Bachelor's degree in Civil Engineering, Saul's love for the 'true blue' inspired the decision stay at Brigham Young University and pursue a Master's degree. The Arizona native has worked in the public and private sectors gaining experience in construction and engineering design. Saul's love for water resources springs from his experiences during the 2013 hurricane in southern Mexico, of which he says, "You can live without a lot of things, but you can't live without water". Saul's current work has the end goal of providing people with clean and sustainable sources of water.
