

**Randi Kim**

*City of Grand Junction*

Randi Kim serves as the Utilities Director for the City of Grand Junction overseeing 71 full-time employees encompassing Water, Wastewater, Laboratory, Environmental Compliance, and Utility Billing. Randi is a registered professional engineer with over 30 years of progressively responsible experience in utilities administration and infrastructure management. She previously served as the Utilities Director for Pinellas County, Florida where she had oversight of a 400-person organization providing water, wastewater, and reclaimed water service. Prior to Pinellas County, Randi served as the Director of Technical Services for Hillsborough County, Florida overseeing engineering, planning, design, capital project management, and environmental compliance. Prior to joining the public sector, she held a variety of leadership and technical roles over her career in the engineering and construction industry in water, wastewater, and environmental management. Randi holds a Bachelor's degree in Chemical Engineering from Illinois Institute of Technology.
