

Ryan Shepler

WestWater Research

Ryan Shepler is a Research Associate in the Rocky Mountain office of WestWater Research located in Fort Collins, Colorado. His work with WestWater has focused primarily on water market research, economic and financial modeling to help inform optimal management decisions for non-profits, and water rights valuations.

Prior to joining WestWater, Ryan conducted academic research utilizing econometric techniques to analyze socio-economic factors that influence groundwater depletion in the western United States. His previous experience has included policy analysis, identifying trends in both water and energy markets, and cost-benefit analysis of energy infrastructure projects. Ryan holds a Master's Degree in Agricultural and Resource Economics from Colorado State University, where he also completed his undergraduate degree in Environmental Economics.
