

**Sherri Pucherelli**

*Bureau of Reclamation*

Sherri Pucherelli has worked for the United States Department of the Interior, Bureau of Reclamation for 10 years as a biologist and is the Invasive Species Research Coordinator for Reclamation's Research and Development Office. She works in the Ecological Research Lab at the Reclamation Technical Service Center in Denver, CO, where invasive mussel early detection samples are collected and analyzed for the Western United States. Sherri also conducts research and development of invasive mussel control technologies at hydropower facilities. Sherri graduated from Colorado State University with a Master of Science degree in Bioagricultural Sciences and Pest Management.
