OPPORTUNITIES FOR LIFELONG LEARNING

SUMMER 2016 CATALOG

NON-CREDIT COURSES, SUMMER CAMPS AND CREDIT COURSES DESIGNED FOR PERSONAL ENRICHMENT

INCLUDES 2016 SUMMER CAMPS

wccc.coloradomesa.edu/cec
Greetings from Western Colorado Community College (WCCC) and welcome to the Lifelong Learning Program brought to you by the Community Education Center.

Inside this Summer 2016 edition of WCCC’s Community Education Center brochure we have a large selection of classes/workshops for personal and professional growth that are designed for lifelong learning around many fun topics, middle school and high school student summer camps and WCCC Summer credit classes.

We invite you to experience the fun and excitement of exploring something new or enhancing your existing skills.

Whether your motivations are for personal enrichment, advanced skill training, or professional development, the Community Education Center at WCCC is here for you.

Local companies have found the Community Education Center to be a great place to find solutions for leadership training needs, safety and compliance responsibilities, and LEAN manufacturing classes for their employees. If you are a business leader and have specific training requests, let us know and we will find a way to help.

We are committed to providing opportunities for lifelong learning in the community we share.

Many of the Community Education Center courses are developed from your input and ideas. If you have an idea for a new class or would like to propose teaching a new class for us, let us know and we will happily try to make it happen.

If earning a technical certificate or associate degree from WCCC is more suited to you, a member of our Student Services staff is standing by and ready to help. We have a number of exciting programs to help get you into a career quickly.

Visit us online, call or stop in today.

Kurtis Armstrong
Community Education Director

WCCC CUSTOMIZED BUSINESS SERVICES

Western Colorado Community College offers custom and ongoing classes to help make businesses safer and more profitable. Would you like to get more from your workforce and increase your competitiveness? Training brings direct benefits to you and has an immediate return on investment. Our tailor-made training solutions can rapidly help increase employee performance. Whether you are a small business venture or the community’s largest employer, we’ll work with you to create the best programs and services in the market today. Our goal is to be your training education partner of choice to create positive change.

CONFERENCES AND SEMINARS

Let us help you host a conference here in Grand Junction. Western Colorado Community College has wonderful facilities that we can coordinate for your own conference or seminar.

Reserve a training room or computer lab for your upcoming meeting, training or workshop. Video conferencing and presentation equipment is available. Catering also available!

ARTS AND CRAFTS

ACRYLIC PAINTING: LEVEL ONE

In this course you will learn the fundamentals of acrylic painting and become familiar with your materials. Learn how to mix colors, paint in layers and use texture to create exciting and colorful compositions. Regardless of your skill level, this class is a great way to sharpen your skills and just have fun!

Materials list provided online.

Instructor: ............................................. Mulder Fee:.......................................................... $79

OPTION
Date: ........................................... July 11, 13, 18, 20
Day: .......................................... Monday, Wednesday
Time: ..................................................... 6-8pm

BASIC DRAWING: LEVEL ONE

For fun, relaxation, and technique, pencil drawing has it all. This course explores the use of drawing pencils, charcoal, blenders and other basic tools that can add exciting touches to your drawing experience. We will cover simple techniques to create complex compositions using still life projects and figure drawing. You will learn different ways to use shading and texture to add to the realism of your drawing.

Materials list provided online.

Instructor: ............................................. Mulder Fee:.......................................................... $79

OPTION
Date: ........................................... July 11, 13, 18, 20
Day: .......................................... Monday, Wednesday
Time: ..................................................... 6-8pm

CALLIGRAPHY: INTRODUCTION

This introductory course into calligraphy will teach you how to write beautifully from A-to-Z. With a focus on how to properly handle your tools and steady your hand, you will learn the ins and outs of becoming a script master.

Materials list provided online.

Instructor: ........................................... Hoffman Fee:.......................................................... $79

OPTION
Date: ........................................... June 6, 8, 13, 15
Day: .......................................... Monday, Wednesday
Time: ..................................................... 6-8pm

SOAPSTONE CARVING

Stone carving doesn’t have to be hard. Soapstone is made of talc, one of the softest stones known, and can be carved with basic tools and a minimum of physical effort. This class will provide the knowledge, tools and supplies to make basic carvings.

Instructor: ............................................. Hartter Fee:.......................................................... $79

Materials:  .............. $40 (payable to instructor on first day of class)

OPTION
Date: ............................................. July 5, 7, 12, 14
Day: ............................................ Tuesday, Thursday
Time: ................................................ 5:30-7:30pm

THE BUSINESS OF ART

This three hour session will give you some insight into the art market in the Grand Valley. Instructor Kristian Hartter owned and operated galleries in Grand Junction from 2011—2014, currently sources and manages the art in a few local venues, and maintains connections in the art community. The class will cover some suggestions and relay the experiences of both successful and starving local artists in order to help you create a plan for your own artistic ventures.

Instructor: ............................................ Hartter Fee:.......................................................... $39

OPTION 1
Date: ................................................... June 23
Day: ................................................... Thursday
Time: ................................................... 5:30-8:30pm

OPTION 2
Date: ................................................... August 11
Day: ................................................... Thursday
Time: ................................................... 5:30-8:30pm
OPPORTUNITIES FOR LIFELONG LEARNING

WATERCOLORS: LEVEL ONE

Watercolor is a beautiful, fun medium. In this class, you will learn which paints, papers and brushes to choose (and yes, it does make a difference). Students will have a fun, hands-on experience getting comfortable handling the brush, applying washes and learning tips for clean, vibrant paintings.

Materials list provided online.

Instructor: ............................................ Herrera
Fee: .................................................... $79

OPTION
Date: ........................................... July 12, 14, 19, 21
Day: ............................................ Tuesday, Thursday
Time: ................................................ 6-8pm

BEEKEEPING

INTRODUCTION TO BEEKEEPING: LEVEL ONE

Participants are encouraged to explore the basics of keeping honeybees. Class materials will focus on the interactions of bees and humans historically, the current state of beekeeping, the interaction of workers, drones, and the queen, hive health, exposure to the various kinds of beekeeping equipment, bee species, and beekeeping cost. We will cover bee culture, beekeeping culture, obtaining equipment, obtaining bees, techniques for installing package bees, nucleus, and swarms. Two classes will be at a working apiary.

Instructor: ............................................. Moore
Fee: .................................................... $79

OPTION 1
Date: ........................................... June 7, 14, 21, 28
Day: ................................................ Tuesday
Time: ................................................ 6:30-8:30pm

OPTION 2
Date: ........................................... June 9, 16, 23, 30
Day: ................................................ Thursday
Time: ................................................ 6:30-8:30pm

INTRODUCTION TO BEEKEEPING: LEVEL TWO

Participants are encouraged to continue their exploration of the basics of keeping honeybees. Class materials will focus on the interactions of workers, drones, queen and health of the colony as it progresses through the bee season. The objectives of this course are interpreting bee culture and the collaboration between the colony’s inhabitants. Colony stress is the colony queen, right? Are pests creating mayhem weakening the hive and causing the bees to be aggressive or have they given up their struggle to survive? Over-wintering, have the bees prepared for winter, has the beekeeper done his or her part to prepare? We will discuss the techniques to increase the bee’s survivability. Two classes will be at a working apiary.

Instructor: ............................................. Moore
Fee: .................................................... $89

OPTION
Date: ........................................... July 12, 19, 26, August 2
Day: ................................................ Tuesday
Time: ................................................ 6:30-8:30pm

ADobe DREAMWEaver: BASIC WEB DESIGN

Learn how to make a simple web design using Adobe Dreamweaver CC, HTML, and more. Dreamweaver is a web page editor and web site management application used by most professional designers. Topics will include the Dreamweaver screen/interface, Web page and Web site creation, inserting text, text layout using HTML, adding tables, images, and hyperlinks, creating style sheets, and publishing a web site to a web host.

Instructor: ............................................. Gibson
Fee: ................................................... $109

OPTION
Date: ........................................... June 20, 22, 27, 29
Day: ............................................. Monday, Wednesday
Time: ................................................ 6-8pm

BEEKEEPING: BEYOND THE BASICS

This class is for the participant who has completed a successful beekeeping season with the desire to continue beekeeping as a hobby or is seeking to expand into the commercial market. The materials presented can provide the beekeeper with the competence to maintain and/or expand their apiary. The challenges of both are similar, but the direction chosen determines a different course of action. We will cover reproduction, swarm management, equipment use, location, pests, and diseases, options, and the size of an apiary to differentiate the hobbyist from the commercial beekeeper. Four of six classes meet in an apiary with an emphasis towards hands-on techniques. Protective equipment is required.

Instructor: ............................................. Moore
Fee: ................................................... $159

OPTION
Date: ........................................... July 14, 21, 28, August 4, 11, 18
Day: ................................................ Thursday
Time: ................................................ 6:30-8:30pm

COMPUTERS AND OFFICE

ADOBE DREAMWEaver: BASIC WEB DESIGN
**ADOBE ILLUSTRATOR: BASIC**

A hands-on introduction to the basic tools that make Adobe Illustrator one of the most unique and powerful graphics programs today. Exercises, techniques, and the tools that accomplish them will be taught in a step-by-step manner, with some exercises mirroring real-world problem solving related to projects like logo design, flyers and other aspects of computer art. The class will utilize Adobe Illustrator CC.

Instructor: ..............................................Szeredey
Fee: .......................................................... $109

**OPTION**

Date: ................................................. July 11, 13, 18, 20
Day: ..................................................... Monday, Wednesday
Time: .................................................. 6-8pm

**ADOBE LIGHTROOM FOR BEGINNERS**

Do you want outdoor photographs that reflect the beauty and mood of the landscape that you see with your naked eye? Ready for a whole new approach to your post-production workflow? In this class you'll learn the latest techniques that give those beautiful places the same color, atmosphere, detail, and feeling that they had when you took the photo. You'll learn efficient editing techniques and everything you need to know about working with Adobe Lightroom to make your workflow efficient. You'll learn a basic, seamless Lightroom workflow, and also how to customize that workflow to fit your specific needs – whether you're outsourcing, taking pictures on the go, or working in a studio setting. We will cover ways to select and retouch images more productively. You'll also learn about automating settings that will help you work more efficiently. Please bring some pictures on a flash drive.

Instructor: ..............................................Szeredy
Fee: .......................................................... $109

**OPTION 1**

Date: ..................................................... June 1, 8, 15, 22
Day: ..................................................... Wednesday
Time: .................................................. 6-8:30pm

**OPTION 2**

Date: ..................................................... August 10, 17, 24, 31
Day: ..................................................... Wednesday
Time: .................................................. 6-8:30pm

**ADOBE LIGHTROOM: ADVANCED**

This course is a continuation from the Adobe Lightroom for Beginners class. We will cover more in-depth topics in this course. Ready for a whole new approach to your post-production workflow? You'll learn efficient editing techniques and everything you need to know about working with Adobe Lightroom to make your workflow efficient. Please bring some pictures on a flash drive.

Instructor: ..............................................Szeredey
Fee: .......................................................... $109

**OPTION**

Date: ..................................................... July 6, 13, 20
Day: ..................................................... Wednesday
Time: .................................................. 6-9pm

**ADOBE PHOTOSHOP FOR DESIGNERS: INTRODUCTION**

Using the very latest version of Adobe Photoshop (CC 2014), this class will offer an intensive introduction to the premier design software of our time. You'll learn how to navigate Photoshop's interface like a pro; how to use layers, selections, channels and blending modes to create sophisticated art and effects; how to tailor your Photoshop project for print, video or web graphics; various techniques for compositing different images together; and how Photoshop can fit into a workflow with other software such as Illustrator, InDesign, After Effects and 3D animation software.

Instructor: ..................................................McConnell
Fee: .......................................................... $109

**OPTION**

Date: ..................................................... June 18, 25
Day: ..................................................... Saturday
Time: .................................................. 9am-1pm

**ADOBE PHOTOSHOP FOR DESIGNERS: ADVANCED**

Take your Photoshop skills to the next level! Building on knowledge from the Photoshop for Designers: Introduction course, you'll learn advanced techniques including advanced type techniques, smart objects and vector shapes, layer management, color correction and the integration of Photoshop into web design. The class will focus on real world compositing and design examples.

Instructor: ..................................................McConnell
Fee: .......................................................... $109

**OPTION**

Date: ..................................................... June 4, 11
Day: ..................................................... Saturday
Time: .................................................. 9am-1pm

**ADOBE PHOTOSHOP: ADVANCED PHOTO RETOUCHING**

Photoshop can be overwhelming. Optimizing images, sharpening, retouching, black and white conversion, directing the viewer’s eye, HDR, panorama-stitching, and more – all the things photographers do with Photoshop. You won’t be wasting any time and energy learning effects you’ll never use, leaving you struggling to find the tools you need. This course is geared to tricks and techniques photographers use on a daily basis. Please bring pictures on a flash drive to retouch.

Instructor: ..................................................Szeredey
Fee: .......................................................... $89

**OPTION**

Date: ..................................................... July 28, August 4, 11
Day: ..................................................... Thursday
Time: .................................................. 6-8:30pm

Date: .............................................. June 6, 8, 13, 15, 20, 22
Day: .................................................... Monday, Wednesday
Time: .................................................. 5:30-8pm

Instructor: ............................................... Hoffman
Fee: .......................................................... $59 (includes workbook)

OPTION 1
Date: .............................................. June 2, 7, 9
Day: .................................................... Tuesday, Thursday
Time: .................................................. 5:30-8pm

OPTION 2
Date: .............................................. July 11, 13, 18
Day: .................................................... Monday, Wednesday
Time: .................................................. 5:30-8pm

COMPUTER FUNDAMENTALS
If you have never turned on a computer or are struggling to make one work, this is the course for you. Enjoy yourself while you learn basic computer operation and terminology. This course teaches you how to use a mouse, create and store files, open programs, and use email using Windows 7.

Instructor: ............................................... Hoffman
Fee: .......................................................... $59 (includes workbook)

OPTION
Date: .............................................. June 6, 13, 25
Day: .................................................... Monday, Wednesday
Time: .................................................. 5:30-8pm

OPTION
Date: .............................................. July 11, 18, 25
Day: .................................................... Monday, Wednesday
Time: .................................................. 5:30-8pm

COMPUTERS BEYOND THE FUNDAMENTALS
So you’ve mastered turning the computer on and off and using the mouse! But there’s still so much more to enjoy about your computer beyond the fundamentals. This class focuses on all the fun things we do on our computers after we’ve mastered the basics: the Internet, e-mail, online shopping, computer safety, anti-virus, quick-fixes for common problems, and a few other tricks. We will go over broad topics and discuss specific issues that you have encountered.

Instructor: ............................................... Hoffman
Fee: .......................................................... $59 (includes workbook)

OPTION
Date: .............................................. July 20, 25, 27
Day: .................................................... Wednesday, Monday
Time: .................................................. 5:30-8pm

FACEBOOK BASICS
This course will provide participants with an introduction to the new, evolving world of Facebook! We will explore Facebook as a social media platform for personal use.

Instructor: ............................................... Kay
Fee: .......................................................... $69

OPTION
Date: .............................................. June 8, 15, 22
Day: .................................................... Wednesday
Time: .................................................. 5:30-8pm

MICROSOFT ACCESS: BEGINNING
This course is for those interested in learning the basics of Access database solutions. You will learn how to create queries, forms and reports, layout fields, set formats, and much more. Basic computer knowledge/ability is recommended.

Instructor: ............................................... Kay
Fee: .......................................................... $95 (includes workbook)

OPTION
Date: .......................................................... June 6, 13, 20
Day: .................................................... Monday
Time: .................................................. 5:30-8pm

MICROSOFT ACCESS: INTERMEDIATE
This course will take a look at creating and enforcing database relationships as well as a deeper examination of tables, queries, forms and reports. We will create advanced queries including Parameter queries, Find Duplicates queries and Find Unmatched queries. More advanced formatting of reports and forms will be covered as well.

Instructor: ............................................... Kay
Fee: .......................................................... $95 (includes workbook)

OPTION
Date: .......................................................... July 11, 18, 25
Day: .................................................... Monday
Time: .................................................. 5:30-8pm

MICROSOFT ACCESS: ADVANCED
This course will explore working with macros, and creating action queries such as a make table query, an update query, an append query, etc. We will also learn how to import and export data, create a menu system, and work with forms and reports. Finally, we will explore database tools and maintenance.

Instructor: ............................................... Kay
Fee: .......................................................... $95 (includes workbook)

OPTION
Date: .......................................................... August 1, 8, 15
Day: .................................................... Monday
Time: .................................................. 5:30-8pm

MICROSOFT EXCEL: BEGINNING
Currently, it’s hard to find or advance in a job without knowledge of spreadsheets. Home users will also find spreadsheets handy for everything from creating budgets to soccer schedules! Create, modify, format, and print worksheets, work with basic functions, and create simple calculation formulas using Excel.

Instructor: ............................................... Kay
Fee: .......................................................... $95 (includes workbook)

OPTION
Date: .......................................................... May 18, 25, June 1
Day: .................................................... Wednesday
Time: .................................................. 5:30-8pm
**MICROSOFT EXCEL: INTERMEDIATE**

Create more advanced formulas and functions using absolute cell references and work with advanced formatting features using Excel.

- **Instructor:** Shammo
- **Fee:** $95 (includes workbook)

**OPTION**
- **Date:** June 13, 15, 20
- **Day:** Monday, Wednesday
- **Time:** 5:30-8pm

**MICROSOFT EXCEL: ADVANCED**

Covered in this course is importing and exporting data, advanced number formatting, working with ranges, creating basic macros, summarizing and analyzing data and workgroup collaboration using Excel.

- **Instructor:** Shammo
- **Fee:** $95 (includes workbook)

**OPTION**
- **Date:** July 12, 14, 19
- **Day:** Tuesday, Thursday
- **Time:** 5:30-8pm

**MICROSOFT OUTLOOK**

This class will introduce students to Microsoft Outlook and the amazing organization tool it can be. Students will learn how to manage their mailboxes and archive their mail, create a personalized email signature, create and work with notes and journal entries, build contact lists, share Outlook calendars and contacts, create e-mail templates and use mail merge to send personalized messages to groups of contacts and more.

- **Instructor:** Shammo
- **Fee:** $95 (includes workbook)

**OPTION**
- **Date:** May 12, 17, 19
- **Day:** Tuesday, Thursday
- **Time:** 5:30-8pm

**MICROSOFT PUBLISHER**

This course will introduce students to the world of Microsoft Publisher. Students will learn how to create their own print material, letterhead, logos, calendars, newsletters and reports. Microsoft’s easy-to-learn publishing software is a great tool to help businesses and individuals save money by creating their own publications and flyers.

- **Instructor:** Colbert
- **Fee:** $95 (includes workbook)

**OPTION**
- **Date:** July 7, 12, 14
- **Day:** Thursday, Tuesday
- **Time:** 5:30-8pm

**MICROSOFT WORD: BEGINNING**

This introductory hands-on class covers Word basics: creating, opening, closing, and printing documents; formatting and editing text; working with paragraphs and pages, lists and tabs, borders and shading; and headers and footers using Word.

- **Instructor:** Colbert
- **Fee:** $95 (includes workbook)

**OPTION**
- **Date:** June 7, 9, 14
- **Day:** Tuesday, Thursday
- **Time:** 5:30-8pm

**MICROSOFT WORD: INTERMEDIATE**

Learn to use Microsoft Word features beyond the introductory class, including mail merge, templates and macros, object linking and embedding, and online forms. Class is instructor-led in our computer lab where you’ll be able to utilize and practice what you learn as you are learning it.

- **Instructor:** Colbert
- **Fee:** $95 (includes workbook)

**OPTION**
- **Date:** June 16, 21, 23
- **Day:** Thursday, Tuesday
- **Time:** 5:30-8pm

**MICROSOFT WORD: ADVANCED**

This course includes creating and formatting charts; working with longer documents, footnotes and endnotes; indexes, tables of figures and table of contents; creating macros; graphics; and creating forms which include drop-down lists.

- **Instructor:** Colbert
- **Fee:** $95 (includes workbook)

**OPTION**
- **Date:** June 28, 30, July 5
- **Day:** Tuesday, Thursday
- **Time:** 5:30-8pm

**MICROSOFT VBA I: INTRO TO USING VISUAL BASIC FOR APPLICATIONS**

This course will begin to explore the power that VBA bring to the Microsoft Office products, starting with Microsoft Access. The class will program a small database using some of the features of VBA. We will discuss programming basics such as If...Then, Do Loops, counting calculations, variables, and more. Students should be familiar with and have experience with Microsoft Access.

- **Instructor:** Hays
- **Fee:** $89

**OPTION 1**
- **Date:** May 16, 18, 23, 25
- **Day:** Monday, Wednesday
- **Time:** 5:30-8pm

OPPORTUNITIES FOR LIFELONG LEARNING

MICROSOFT VBA II: CONTINUE USING VISUAL BASIC FOR APPLICATIONS

In this course, we will explore the power that VBA brings to other Microsoft Office products, particularly data manipulation and interactivity. Students should be familiar with Microsoft Access and VBA.

Instructor: .............................................. Hays
Fee: .................................................... $89

OPTION 1
Date: ................................................. June 28, 30, July 5, 7
Day: ............................................ Tuesday, Thursday
Time: ..................................................... 6-8pm

OPTION 2
Date: ..................................... September 12, 14, 19, 21
Day: .......................................... Monday, Wednesday
Time: ..................................................... 6-8pm

QUICKBOOKS INTRO AND ACCOUNTING BASICS

New to QuickBooks or just getting started? The smartest thing is to learn some basic accounting first! This fun class combines accounting and business concepts with active QuickBooks practice. We use a worksheet, then create a make-believe company file and work through typical transactions for hands-on learning. Included: the chart of accounts, the 5 account types, forms, items, sales receipts, invoices, customer payments, deposits and bank reconciliation. The class also features bills, A/P, credit card charges and basic financial reports. Requires basic computer knowledge but no QuickBooks experience.

Instructor: ......................................... Lichtenstein
Fee: ................................................... $189

OPTION
Date: ...................................... June 7, 9, 14, 16, 21, 23
Day: ............................................ Tuesday, Thursday
Time: ..................................................... 4-6pm

QUICKBOOKS POWER SESSION

Come for a fun two-evening class of bonus material. Students will work through sample problems and questions from all areas of QuickBooks. This is a chance to cover additional material and to supplement your QuickBooks skills. Come test your knowledge, ask your questions, and learn something new!

Instructor: .......................................... Lichtenstein
Fee: ................................................... $59

OPTION
Date: ................................................. May 17, 19
Day: .................................................... Tuesday, Thursday
Time: ..................................................... 5-7pm

WORDPRESS FOR ARTISTS

Are you an artist, photographer or creative writer who has wanted to create online portfolios or blogs to showcase your work? WordPress is the perfect vehicle for you! It is estimated that almost 20% of the internet now runs on WordPress, and the software’s success is owed chiefly to its combination of power and ease of use. If you have wanted to get your work out there in an attractive and relatively simple way, this class will show you how.

Instructor: .............................................. McConnell
Fee: .................................................... $109

OPTION
Date: .................................................. July 9, 16
Day: .................................................... Saturday
Time: .......................................................... 9am-1pm

WORDPRESS: CUSTOMIZATION

Part of the appeal of WordPress is that there are so many free and premium themes available with which you can get a new website up and running quickly. But some people just weren’t made for “cookie cutters.” This class will show you how to adapt a theme to meet your (or your business’) unique needs. Included in this class will be advice on how to modify the visual styling of your WordPress site; how to create “custom post types,” which (among other uses) can help in the creation of a simple online store; and how to more effectively incorporate plugins to further extend the power of your WordPress website.

Instructor: ......................................... McConnell
Fee: ................................................... $109

OPTION
Date: .................................................. July 23, 30
Day: .................................................... Saturday
Time: .................................................. 9am-1pm
CONCEALED CARRY AND PERSONAL PROTECTION

This course fulfills the Colorado Concealed Carry training requirements for your CCW permit and includes:

- 3 hours of firearms law
- 4 hours of personal protection
- 4 hours of coached shooting
- 4 hours of basic pistol operation

The first portion of the course teaches the basic knowledge, skills and attitude for owning and operating a pistol safely. We include classroom and range time for learning to shoot revolvers and semi-automatic pistols. Students learn NRA's rules for safe gun handling; pistol parts and operation; ammunition; cleaning; shooting fundamentals; and range rules. The second portion of the course teaches the basic knowledge, skills, and attitude essential to the safe and efficient use of a handgun for protection of self and family, and to provide information on the law-abiding individual's right to self-defense. This portion consists of basic defensive shooting skills and strategies for home safety; responding to a violent confrontation; firearms and Colorado law; and handgun selection criteria for self-defense.

Instructor: ............................................ NRA Certified Instructors
Fee: .................................................... $75
Materials: . . . $25 (payable to the instructor at the beginning of the class)

OPTION 1
Date: ................................. May 14, 15
Day: ................................. Saturday, Sunday
Time: ........................................ 12pm-8pm on Saturday, 7am-5pm on Sunday

OPTION 2
Date: ................................. June 4, 5
Day: ................................. Saturday, Sunday
Time: ........................................ 7am-5pm

OPTION 3
Date: ................................. June 13, 14, 16, 20, 21, 23
Day: ................................. Monday, Tuesday, Thursday
Time: ........................................ 6:30-9:30pm

OPTION 4
Date: ................................. July 11, 12, 14, 18, 19, 21
Day: ................................. Monday, Tuesday, Thursday
Time: ........................................ 6:30-9:30pm

AMMUNITION RELOADING: LEVEL ONE

Reloading rifle and pistol cartridges is an enjoyable and safe pastime. There are many good reasons why people reload their own ammunition. In this course, participants will learn the basics of reloading procedures; information about choosing powders, primers, and bullets; different types of reloading equipment and their proper setup and operation.

Instructor: ............................................ Barto
Fee: .................................................... $89
Materials: . . . $10 (payable to the instructor at the beginning of the class)
OPPORTUNITIES FOR LIFELONG LEARNING

AMMUNITION RELOADING: LEVEL TWO

This course will go beyond the Ammunition Reloading: Level One course to cover topics such as experimentation, using bullet comparators to get precise measurements of your rounds, measuring chamber, adjusting seating/crimping dies to your gun’s chamber, optimal bullet seating, necking up/down, minimizing runout, bullet concentricity, and powder coating cast bullets.

Instructor: ............................................. Barto  
Fee: .................................................. $79  
Materials: ........................................... $10 (payable to the instructor at the beginning of the class)

OPTION

Date: ............................................... August 11, 18
Day: .................................................. Thursday
Time: .............................................. 6:30-9:30pm

MATH FOR SHOOTERS

An excellent survey course of the mathematical foundations involved in the shooting sports. Whether we realize it or not, to shoot well, we depend on an understanding of physical laws and the equations they produce. Topics covered include: velocity, kinetic energy, trajectory, ballistic coefficient, angle of fire, mils, radians and others. Arithmetic and basic algebra are all that are needed. Emphasis will be placed on answering students’ questions. This is a discussion class more than a lecture class.

Instructor: ............................................. Barto  
Fee: .................................................. $79

OPTION

Date: ............................................... August 9, 16, 23
Day: .................................................. Tuesday
Time: .............................................. 6:30-9pm

WILDERNESS NAVIGATION WITH MAP AND COMPASS: LEVEL ONE

A fun and informative course which will teach you how to navigate the outdoors of Western Colorado with just a map and compass. GPS navigation is fine, as long as the geographical and environmental conditions allow for satellite communication. Map and compass works in snow, fog, rain, deep valleys, slot canyons and dense forests and their batteries never die. The ability to use a compass in the field will make you more self-reliant. For outdoor enthusiasts of all sorts the skills learned in this class will give you a sense of independence and freedom of travel. Topics covered will include: maps, declination, establishing and following a bearing, coordinate position, triangulation, use of GPS with map and compass. Part of the class time will be spent off-campus for “field practice”. Bring a compass to the first class if you have one. You will need one for the remainder of the class sessions. What type of compass you may want will be discussed in the first session.

Instructor: ............................................. Barto  
Fee: .................................................. $89

OPTION

Date: .............................................. June 16, 23, 25
Day: .............................................. Thursday, Saturday
Time: .............................................. 6:30-9pm (June 16, 23), 10am-12:30pm (June 25)

WILDERNESS NAVIGATION WITH MAP AND COMPASS: LEVEL TWO

One of the most essential skills required by any outdoor traveler whether Hiker, Hunter, Fisherman, Climber or Skier, etc. is to know how to navigate with a map and compass! This course expands upon the fundamentals learned in level One. More difficult problems and scenarios will be addressed. The use of clinometers and altimeters will be included as will the construction and use of field expedient instruments.

What you can do to navigate without any instruments, derivation of a terrain cross section from topo map, grid reference systems other than UTM, winter navigation, fog/rain/snow navigation, and navigation at night will be taught.

The third meeting will be a field exercise to put “book learning” into practice.

Instructor: ............................................. Barto  
Fee: .................................................. $89

OPTION

Date: ............................................... July 5, 12, 16
Day: .............................................. Tuesday, Saturday
Time: .............................................. 6:30-9pm (July 5, 12), 10am-12:30pm (July16)

COOKING

BAKING ARTISAN BREADS

Learn to make sourdough bread and bagels in this fun and easy 3-hour baking class. Students will participate in hands-on activities. Make sure to bring a bag to take goodies home!

## SUMMER 2016 NON-CREDIT COURSES

### FACEBOOK FOR BUSINESS

This class is designed to provide participants with an introduction to the new, evolving world of social media tools and strategies of Facebook. We will explore the marketing potential in Facebook as well as the rules that go along with using Facebook in a business setting.

- **Instructor:** Kay
- **Fee:** $69

### FACEBOOK ADVERTISING

Learn how to drive clients from your Facebook business account to your website or business. We will focus on creating advertising, posting, and creating community.

- **Instructor:** Gallegos
- **Fee:** $89

### MAKING LINKEDIN WORK FOR YOU

Learn how to use LinkedIn to find jobs, find employees, and extend your networking circle to benefit your success goals. Join me to grasp this tool and use it in your business and personal goals.

- **Instructor:** Gallegos
- **Fee:** $89

### MARKETING MATERIALS I

Take control over your marketing! Learn principles of visual communication that can provide a solid framework for effectively marketing your business. In this first of two classes, students will develop a corporate identity, design logos, business cards, and direct mail pieces, as a means to learning Adobe Photoshop. Please bring an 8.5” x 11” pad of tracing paper, and large and fine-tipped Sharpie markers.

- **Instructor:** Sonmor
- **Fee:** $159

### MARKETING MATERIALS II

In this continuation of Marketing Materials I, students will learn more in-depth understanding of software used to create marketing materials. Students will create signs, magazine ads, brochures, and websites using Adobe Illustrator, InDesign, and Muse. Emphasis will be placed on employing design principles, writing effective copy, and learning ways to make the most of your marketing dollars. Please bring an 8.5” x 11” pad of tracing paper, and large and fine-tipped Sharpie markers.

- **Instructor:** Sonmor
- **Fee:** $159

### WHY DID THIS ACCIDENT HAPPEN?

Topics include purpose investigation; investigative tools; documentation, measurements; other information (e.g., documents to review); preserving of evidence; drawings and sketches; photography and videotaping; notes and reports; obtaining injured and witness statements; determining the root cause; and identifying corrective actions to prevent re-occurrence. Class manual provided.

- **Instructor:** Pavelka
- **Fee:** $99
MUSIC

BASIC IMPROVISATION AND PLAYING TOGETHER CLASS FOR MANDOLIN, UKULELE, AND GUITAR
An all ages class for basic improvisation and learning to play with others. Open to guitar, mandolin, and ukulele players. There will be no pressure to perform in front of the group. Please bring your instrument, tuner, paper, and pencil.

Instructor: .......................................................... Chillino
Fee: ............................................................... $79

OPTION
Date: .............................................................. July 11, 18, 25, August 1
Day: ................................................................. Monday
Time: .............................................................. 7-8pm

BEGINNING FIVE STRING BANJO I
This class is intended for those who have never played banjo or who have been frustrated trying to learn. In this class we will learn the basics of banjo, concentrating on rhythm and learning a few simple songs. We will cover topics including relaxing, tuning, beginning chords, basic banjo rolls and technique, rhythm and playing in time, how to listen and what to listen for, a simple song or two and how to practice. Students should have access to a 5 string banjo to use in class and for practice, and an electric tuner. Students will receive a copy of the book: Banjo Primer Deluxe Edition, which comes with a DVD and jam CD. The book can be purchased online at Amazon.com or purchased locally at Hart's Music. While not required, a music stand can be helpful.

Instructor: .......................................................... Newport
Fee: ............................................................... $109

OPTION
Date: .............................................................. June 16, 23, 30, July 7
Day: ................................................................. Thursday
Time: .............................................................. 6-8:30pm

BEGINNING FIVE STRING BANJO II
This course is a continuation of Beginning Banjo I. It is intended to be for players with some experience looking to grow skill sets and begin preparing to play with other instruments in jamming situations. This is for players who know a few chords and rolls, can play along with a few songs, and can perhaps play a few melodies. There are no prerequisite songs and you don’t need to be able to read music. We’ll look at a few standard songs and work on switching back and forth between lead and back up as one would in a jam situation. Students should have access to a 5 string banjo to use in class and for practice, and an electric tuner. Students will receive a copy of the book: Banjo Primer Deluxe Edition, which comes with a DVD and jam CD. The book can be purchased online at Amazon.com or purchased locally at Hart’s Music. While not required, a music stand can be helpful.

Instructor: .......................................................... Newport
Fee: ............................................................... $109

OPTION
Date: .............................................................. May 19, 26, June 2, 9
Day: ................................................................. Thursday
Time: .............................................................. 6-8:30pm

GUITAR: BEGINNING I
This class is intended for those who have never played guitar or who have been frustrated trying to learn. In this class we will learn the basics of guitar, concentrating on rhythm and learning a few simple songs. We will cover topics including relaxing, holding the pick and pick direction, tuning, beginning chords, rhythm and playing in time, how to listen and what to listen for, a simple song or two, and how to practice. Students should have access to a guitar to use in class and for practice, a 3-ring binder, and an electronic tuner - all other materials will be supplied.

Instructor: .......................................................... Quesenberry
Fee: ............................................................... $79

OPTION
Date: .............................................................. July 14, 21, 28, August 4
Day: ................................................................. Thursday
Time: .............................................................. 6-8pm

GUITAR: BEGINNING II
For players with some experience looking to grow skill sets and become comfortable playing with other instruments in jamming situations. This is for players who know a few chords, can strum along with a few songs and can maybe play a few melodies. There are no prerequisite songs, and you don’t need to be able to read music. We’ll look at a few standard songs, and work on switching back and forth between lead and back up as one would in a jam situation. Students should have access to a guitar to use in class and for practice, a 3-ring binder, and an electronic tuner - all other materials will be supplied.

Instructor: .......................................................... Quesenberry
Fee: ............................................................... $79

OPTION
Date: .............................................................. August 18, 25, September 1, 8
Day: ................................................................. Thursday
Time: .............................................................. 6-8pm

MANDOLIN: BEGINNING I
This class is intended for those who have never played mandolin, or who have been frustrated trying to learn. In this class we will learn the basics of mandolin, concentrating on rhythm and learning a few simple songs. We will cover topics including relaxing, holding the pick and pick direction, tuning, finger friendly chords, and rhythm and playing in time, how to listen and what to listen for, left and right hand technique and coordination, a simple song or two and how to practice. Students should have access to a mandolin to use in class and for practice, 3-ring binder and an electronic tuner – all other materials will be supplied.

Instructor: .......................................................... Quesenberry
Fee: ............................................................... $79

THE ANATOMY OF HAPPINESS

We all deserve to be happy and this class will provide direction how to find happiness. We’ll discuss expectations of happiness, “rules” of happiness, and deterrents to happiness. We’ll practice looking for things that make us happy and develop a portfolio of same, including a “Feel Good File.” We will also help you find your style of humor and how that can become part of a happier you.

Instructor: .................................................. Kyker
Fee: .......................................................... $79

OPTION
Date: .......................................................... July 11, 18, 25, August 1
Day: ........................................................... Monday
Time: .......................................................... 6-8pm

MANDOLIN: BEGINNING II

For players with some experience looking to grow skill sets to becoming comfortable playing with other instruments in jamming situations. This class is for players who know a few chords, can strum along with a few songs and can maybe play a few melodies. There are no prerequisite songs, and you don’t need to be able to read music. We’ll look at a few standard tunes, and work on switching back and forth between lead and back up as one would in a jam situation. In this course we will concentrate on increasing chord knowledge, including how to use chords that economize on movement, apply tremolos to lead playing, incorporating double stops, building scale patterns for use, playing leads in a variety of styles, new songs, soloing ideas and licks. Students should have access to a mandolin to use in class and for practice, 3-ring binder, and an electronic tuner – all other materials will be supplied.

Instructor: .................................................. Quesenberry

Day: ........................................................... Monday
Time: .......................................................... 6-8pm

BIBLE 101: HOW TO KNOW FOR YOURSELF WHAT THE BIBLE REALLY SAYS

Discover how you can know what the Bible really says about any topic. Tired of confusing and contradictory messages from different groups? This class will introduce the student to a non-sectarian, non-denominational methodology which will yield consistent results for any Bible topic. We will study this methodology and practically apply it by using the Bible and simple Bible tools to answer the questions: “Are we living in the last days?” Upon completion of this class the student, believer, or sceptic will have the basic skills to verify almost any Biblical claim. So the time someone claims “the Bible says…” you will be able to test that claim for yourself. Please bring a Bible in any translation or form and a notebook.

Instructor: ................................................... Hays
Fee: .......................................................... $79

OPTION
Date: .......................................................... June 8, 15, 22, 29
Day: ........................................................... Wednesday
Time: .......................................................... 6-8pm

BIBLE 102: HOW TO KNOW FOR YOURSELF WHAT THE BIBLE REALLY SAYS — A CLOSER LOOK

Discover how you can know what the Bible really says about any topic. Building on the previous class, we will deepen the methodology to include researching Biblical languages and historical development of ideas. We will practically apply the method, ‘the Bible is its own best interpreter’ at a deeper level. Time permitting we will look at your specific questions. Please bring a Bible in any translation or form and a notebook.

Instructor: ................................................... Hays
Fee: .......................................................... $79

OPTION
Date: .......................................................... July 13, 20, 27, August 3
Day: ........................................................... Wednesday
Time: .......................................................... 6-8pm

FILM MAKING

Do you want to be a filmmaker? Programs like Adobe Premiere make the process easier. Students will also learn basic fundamentals on their way to producing their own short movie. Understanding effective story writing, creating a meaningful sequence, and the “hows” and “whys” of editing are just some of the keys that can turn simple footage into a compelling narrative. While learning storyboarding, lighting, sound, special effects, and more, students will begin to speak a new creative language – the language of film.

MUSIC — PERSONAL GROWTH AND ENRICHMENT
ABILITY PART ONE: TAKING THE DIS OUT OF DISABILITY

When you experience a decrease in what you can do, this is a loss. There is a grief process and a change in roles. Become aware of your changes and those around you in your respective roles in the family and community. Understand the emotions you are experiencing (anger, frustration, hopelessness, acceptance, adaptation, determination). Know yourself, your beliefs and thoughts, and the actions and reactions created. These are the times of challenges, growth, lessons, and joy! Come explore for yourself and with others the process of grief and disability. Please bring a pen and paper for notes.

Instructor: ................................................... Johnston
Fee: .............................................................. $25, or $20 each if you register for all four parts

OPTION
Date: ........................................................ May 21
Day: ............................................................ Saturday
Time: ............................................................ 9-10:30am

ABILITY PART TWO: PHYSICAL MANAGEMENT

You have been working with your physician to gain the greatest comfort and continue your daily routine. Learn a few more tools to use to manage the physical aspects of disability. Movement is important and breathing is the basics of all movement. Discuss and explore what method of movement is most advantageous for you (swimming, yoga, Tai Chi, bicycling, walking, etc.). Learn the importance of relaxation exercises, meditation, and pacing yourself to increase the ability to move. Finally, let’s look at alternatives for symptom management such as acupressure, massage, heat, magnets, and other alternatives. Please bring a pen and paper for notes.

Instructor: ................................................... Johnston
Fee: .............................................................. $25, or $20 each if you register for all four parts

OPTION
Date: ........................................................ May 21
Day: ............................................................ Saturday
Time: ............................................................ 11-12:30pm

ABILITY PART THREE: THE “HOW TO” OF DISABILITY

Do you need to stop doing what you are accustomed to doing every day and on special occasions? No! Look at and develop a process of setting realistic expectations for how you can do what you want to do. Let’s look at adaptations (in method and mechanical). What about support from others? What is available in the community? Also, let’s look at the question of work or continuing to generate an income. What resources are available for cash flow? Explore the “how to” of living with a disability. Please bring a pen and paper for notes.

Instructor: ................................................... Johnston
Fee: .............................................................. $25, or $20 each if you register for all four parts

OPTION
Date: ........................................................ May 21
Day: ............................................................ Saturday
Time: ............................................................ 3:30-5pm

ABILITY PART FOUR: PERSONAL BALANCE

In this session we will explore emotional tools to help deal with the stress of the ups and downs of daily living with a disability. Explore how to grow through the experience of the disability. Look at tools such as journaling, flower essences, core transformation, acupressure, meditation, healing mandalas, counseling/coaching, biblio-therapy (reading), music, fun, and joy. The focus is to have a personal balance for experiencing life and the disability part of you. Please bring a pen and paper for notes.

Instructor: ................................................... Johnston
Fee: .............................................................. $25, or $20 each if you register for all four parts

OPTION
Date: ........................................................ May 21
Day: ............................................................ Saturday
Time: ............................................................ 1:30-3pm

INTRODUCTION TO VOICEOVER

Take an in-depth look at the world of voiceover. You’ll gain insight into what it takes to become a working voice actor. We’ll explore a variety of genres, necessary equipment and studio setups, training/coaching, online casting, agents, demos and websites and where your voice fits into the big picture. We’ll also explore reading scripts and interpreting copy. Your voice can make you money if you know how to use it.

Instructor: ..................................................... Phillips
Fee: .............................................................. $89

OPTION
Date: .......................................................... June 7, 9, 14, 16
Day: ............................................................. Tuesday, Thursday
Time: ............................................................. 5:30-7:30pm

PHOTOGRAPHY

Using your individual computer, you will learn the basics of photo editing and manipulation including files, resolution, printing, layers, sharpening, color and tonal adjustment, cropping, correcting red-eye, and filters. It is recommended that you have a version of Elements or Photoshop on your computer at home so you can practice between classes.

Instructor: ..................................................... Butler
Fee: .............................................................. $99

OPTION
Date: .......................................................... September 26, 28, 30
Day: ............................................................. Monday, Wednesday, Friday
Time: ............................................................. 6-8pm

THE ART OF COMPOSITION

This three–session class will show you how to take pictures that are balanced, and help tell stories. The instructor will emphasize basic and advanced techniques of composition, time of day and how to get the most from your camera, whether it is a 35mm SLR, “point and shoot” or a digital camera. Learn how to use lighting to get great photos of landscapes, gardens and/ or wildflowers, night photos, panoramic photos and more. Students learn tips on how to take great people, sports and animal pictures. This class is perfect for the person who wants to go beyond the basics of photography to a level of taking better and fun pictures.

Instructor: .................................................... Butler
Fee:  ........................................................... $129

OPTION

Date: ................................................... September 19, 21, 23
Day: ........................................................ Monday, Wednesday, Friday
Time: ......................................................... 6-9pm

HOW TO BUILD A PHOTOGRAPHY BUSINESS

This class will cover the basics of how to make money as a hobby photographer, with emphasis on marketing and promotion. We will go over web presence such as social media by addressing problems and solutions and how to use this web presence to sell more work and get more photoshoot bookings.

Instructor: .................................................... Szeredy
Fee:  ........................................................... $79

OPTION

Date: ..................................................... June 6, 13
Day: ........................................................ Monday
Time: ......................................................... 6-9pm

OUTDOOR PHOTOGRAPHY

You will learn how to take pictures outdoor of just landscapes or people in landscapes. Please bring a camera, flash card, and card reader and if possible a tripod. The class will be covering evening and morning photography.

Instructor: .................................................... Szeredy
Fee:  ........................................................... $109

OPTION

Date: ..................................................... July 18, 23, 25
Day: ........................................................ Monday, Saturday
Time: ......................................................... 6-9pm on Monday and 8-11am on Saturday

POINT AND SHOOT PHOTOGRAPHY

This four-hour course is divided into two, two-hour, hands-on sessions for typical point and shoot cameras. This is for anyone who has a new camera or needs a basic understanding of digital. We will discuss how you can get the most from your camera by shooting in different scene modes and using your flash. We will talk about how to transfer and save your images to a computer, and discuss programs for making some adjustments to enhance your images. We will also discuss printing and how to enlarge or crop your images. Bring your camera with a fully charged battery or spare, and owner’s manual. This class is for point-and-shoot cameras. If you have a Single Lens Reflex Camera (SLR), please take the Using Your Digital SLR Camera class.

Instructor: .................................................... Hartter
Fee:  ........................................................... $69

OPTION

Date: ........................................................ October 8, 15, 22
Day: ........................................................ Saturday
Time: ......................................................... 9am-12pm

CREATIVE EXPRESSIONS IN PHOTOGRAPHY

You will learn how to look at photographs differently and start to learn how to express your intent, not just vision itself. In the spoken language we use grammar to communicate our thoughts and feelings. Grammar is the basic element all communication is built on. We will explore the grammar of the photographic language, the technical foundation that leads us to the basic elements that allow us to communicate our vision and intent. We will review these basic tools, like our choice of lens, the angle, distance, viewpoint focusing, composition, framing, and light. All these elements are the foundation through which “the world in front of the camera is transformed into the photograph,” (Shore, 1998, p. 17). Learning to use these elements to make your viewer care about your images is the ultimate goal. Please bring a camera, flash card, and card reader.

Instructor: .................................................... Szeredy
Fee:  ........................................................... $109

OPTION

Date: ........................................................ October 8, 15, 22
Day: ........................................................ Saturday
Time: ......................................................... 9am-12pm
WRITING

BUSINESS AND PROFESSIONAL WRITING
Class will focus on technical and business formats of writing including business and professional letters, writing clear effective e-mail, and basic business grammar and formatting. This class builds on the Top Twenty Grammar Errors and Punctuation Made Simple class.

Instructor: ........................................... Mourning
Fee: ................................................... $39

OPTION
Date: ............................................. June 27, 29
Day: ...................................... Monday, Wednesday
Time: .............................................. 5:30-7pm

CORRECTING THE TOP TWENTY GRAMMAR ERRORS AND PUNCTUATION MADE SIMPLE
In four interactive classes, you will sharpen your writing skills by recognizing and correcting the most commonly occurring grammar errors as well as sharpen your use of five punctuation marks: colon, semicolon, comma, dash, and apostrophe.

Instructor: ........................................... Mourning
Fee: ................................................... $59

OPTION
Date: ............................................. June 20, 21, 22
Day: ...................................... Monday, Tuesday, Wednesday
Time: .............................................. 5-7pm

CREATIVE WRITING
Learn how to craft a story, novel, or essay with techniques that published writers use. Create believable settings, vibrant characters, gripping plots, and more. This class is an expanded version of “Show, Don’t Tell: How Do They Do That?” Please bring a laptop or a notebook to take notes and something to write with.

**BUSINESS AND INDUSTRY SAFETY COMPLIANCE TRAINING**

**8-HOUR HAZWOPER — FIRST RESPONDERS OPERATIONS**

This course is designed for all employees who respond to releases or potential releases of hazardous substances as part of the initial response to the site for the purpose of protecting nearby persons, property, or the environment from the effects of the release. They are trained to respond in a defensive fashion without actually trying to stop the release. Their function is to contain the release from a safe distance, keep it from spreading, and prevent exposures. Course instruction includes case studies. The course content meets the requirements established by OSHA (29 CFR 1910.120(q)). Certificates issued upon successful completion of class activities.

**Instructor:** ........................................... Pavelka  
**Fee:** .................................................. $150

**OPTION 1**

**Date:** ..................................................... June 6  
**Day:** ..................................................... Monday  
**Time:** ..................................................... 8am-5pm

**Course description continues on next page.**
24-HOUR HAZWOPER

This course is specifically designed for employees who work with hazardous materials or respond to hazardous spills in their work location, but are not likely to be exposed to substances at or above threshold limits. They assume a more aggressive role than a first responder at the operations level in that they will approach the point of release in order to plug, patch or otherwise stop the release of a hazardous substance. Course instruction includes case studies and group activities. The course content meets the requirements established by OSHA (29 CFR 1910.102(q)). Certificates issued upon successful completion of class activities.

First Aid/CPR/AED and Bloodborne Pathogens (HSI)

This two part training provides participants with two certification cards. The cards are issued on day of the training upon completion of class activities. This class combines instructor interaction and hands-on practice for the first aid, CPR, and AED segments. The HSI Medic First curriculum meets the OSHA guidelines.

BBP ONLY (BLOODBORNE PATHOGENS)

One hour training, with certification cards issued on day of class upon completion. Medic First is internationally recognized and is equivalent to American Red Cross and American Heart Association programs. The HSI Medic First curriculum meets OSHA guidelines.

Confined Space Awareness

Participants will learn about applicable OSHA standards (29 CFR 1910 and1926), responsibilities, key terminology and identifying permit-required versus non-permit required spaces, personal protective equipment, physical and atmospheric hazards, air monitoring and permits. Class manual provided. Certificate will be awarded to participants after successful completion of class activities.

OSHA 10-HOUR, CONSTRUCTION

This ten-hour course provides an excellent introductory course introduction for all employees working in construction industries. It also provides a safety review for experienced personnel and supervisors of OSHA regulations, including recent or upcoming changes. The course content meets the OSHA requirements and includes the following topics: OSHA Act, Focus Four (falls, electrocution, struck-by and caught-between), PPE, health hazards/hazardous materials in construction, hand and power tools, stairs and ladders excavation and ergonomics plus other topics. An OSHA 10 completion card will be issued by OSHA after the conclusion of class activities.

Course description continues on next page.
OPTION 1
Date: ............................................. June 14, 15
Day: ........................................... Tuesday, Wednesday
Time: ........................................... 8am-5pm on the first day and 8am-Noon the second day

OPTION 2
Date: ............................................. August 1, 2
Day: ........................................... Monday, Tuesday
Time: ........................................... 8am-5pm on the first day and 8am-Noon the second day

OSHA 10-HOUR, GENERAL INDUSTRY
This ten-hour course provides an excellent introductory course introduction for all employees working in general industry including oil and gas. It also provides a safety review for experienced personnel and supervisors of OSHA regulations, including recent or upcoming changes. The course content meets the OSHA requirements and includes the following topics: OSHA Act, HAZCOM/GHS, PPE, general safety provisions (e.g., tools and working surfaces), health hazards, fall protection, fire prevention, electrical safety, plus other topics. An OSHA 10 completion card will be issued by OSHA after the conclusion of class activities.

Instructor: ............................................ Pavelka
Fee: ................................................... $150

OPTION 1
Date: ............................................. July 11, 12
Day: ........................................... Monday, Tuesday
Time: ........................................... 8am-5pm on the first day and 8am-Noon the second day

970.255.2800

WCCC Community Education Center
2508 Blichmann Avenue, Building B
Grand Junction, CO 81505
Western Colorado Community College and Colorado Mesa University support the growth and development of the youth in Western Colorado through offering many experiential hands-on learning experiences during the summer break for middle and high schools students. These interactive camp experiences explore many future career options for students, give them a jumpstart in learning technical programs, develop strong personal growth skills and are a lot of fun!

Through the generous support of the El Pomar Foundation, we are able to support these camps and make them affordable to all kids in the area. Through the Reach Your Peak grant program more camps are being offered in 2016 than in any other year. We have a wide variety of camps that are fun and interesting. Be sure to review all of the different descriptions of camps in this catalog as you might find something you never thought about exploring before. Most of the camps are a week in length and in most weeks you can attend a camp in the morning hours and then a different one each afternoon! Camps fill quickly so please register as early as possible.

A limited amount of financial scholarships are available to help pay for these camps. Please give us a call at 970.255.2800 to discuss those options prior to registration and we can discuss what is available.

Financial Aid for Camps and Future College Study
Scholarships and financial assistance are available, enabling students to experience new career paths and follow their passions. Please call 970.255.2800 to discuss options available. Students who complete one or more summer camps and one or more concurrent courses may be eligible for a $2,000 scholarship each year for their first two years of college at CMU, WCCC, CMC and CNCC.

Reach Your Peak is a partnership between colleges in northwestern Colorado with the goal of creating excitement about learning that motivates students toward a bright future and further education. Partners include Colorado Mesa University, Colorado Mountain College, Colorado Northwestern Community College and Western Colorado Community College. The program is also supported by the Northwest Regional Council of El Pomar Foundation.

ART AND DESIGN

3D ANIMATION AND THE VIRTUAL WORLD

Jump into a world of your own creation using a professional 3D animation program. You will model, texture and bring your own computer-generated creations to life.

Instructor: Hoffman
Fee: $100

Session One

Age Group: Middle School
Date: June 13-17
Time: 8:30am - 12:30pm

Session Two

Age Group: High School
Date: June 27 - July 1
Time: 1-5pm

BEING A SPECIAL EFFECTS GURU

Discover how the special effects seen in motion pictures and on television are created. Learn the essentials of compositing, how to add people into animated environments with green-screen keying, how to blow up a car the legal and safe way and much, much more!

Instructor: McConnell
Fee: $100

Date: June 20-24
Time: 1-5pm

COMIC BOOK CREATION

This camp will cover fundamental skills and techniques required to design and complete a hand-drawn comic book. Western, Japanese and alternative styles will be explored as students learn the process of transforming a script into storyboards and final inked product. Technical elements include framing and panel layout, shading techniques, inking with micron pen and dip pens and digital lettering.

Instructor: Hoffman
Fee: $110

Date: May 23-27
Time: 8:30am - 12:30pm

CREATIVE WRITING

This camp will cover setting, character development, plot structure, creating scene from narrative and revision. Students will create and revise a short story/novel chapter to share with the class on the last day.

Instructor: Weeks
Fee: $100

Date: July 11-15
Time: 1-5pm

DIGITAL PHOTOGRAPHY

FROM CLICK TO COMPUTER

Explore and share your vision from behind the lens. This camp will use DSLR cameras and Adobe Photoshop to produce pictures like a pro. We will experiment with artistic and technical tricks of the trade and host an end-of-session gallery opening to highlight your favorite pieces. You will be able to take home the start of your very own professional portfolio.

Instructor: Meuwly
Fee: $100

Date: May 23-27
Time: 1-5pm

FINDING THE VOICE ACTOR IN YOU

Have you ever wondered how you can become a voice in the next big cartoon? Would you like to add the world of animation, video games and commercials to your acting resume? This workshop is for you! Students will develop characters and find comedy with their voice, all while creating a dynamic performance.

Instructor: Hoffman
Fee: $100

Date: July 11-15
Time: 8:30am - 12:30pm

SCREENWRITING

FROM CONCEPT TO CLAPBOARD

Think you can write a better movie or TV series? Here is a chance to find out. During the week-long camp you'll find out how a screenplay is structured, you'll generate strong characters and discover the importance of how they interact with their world. Best of all, you'll learn the importance of writing from personal belief.

Instructor: Meuwly
Fee: $100

Date: June 6-10
Time: 1-5pm
2016 SUMMER CAMPS

WESTERN COLORADO COMMUNITY COLLEGE AND COLORADO MESA UNIVERSITY RESERVE THE RIGHT TO CANCEL COURSES, CHANGE SUBJECT MATTER, ALTER TIME SCHEDULES OR MAKE OTHER CHANGES DEEMED NECESSARY.

**STOP MOTION ANIMATION MAGIC**

Animation is not only fun to watch, it’s fun to make! With stop motion animation, everything around you can come alive. In this camp we’ll explore the basics of animation and work together and in small groups to develop stories, build props and characters, animate them, create soundtracks and present to the world the amazing things we can do through the powers of stop motion.

Age Groups: Middle and High School  
Instructor: Hoffman  
Fee: $100

Date: June 6-10  
Time: 8:30am - 12:30pm

**THE MOVING ART OF 2D ANIMATION**

Now’s the chance to take your drawing skills to a whole new level — making them move. Discover the fun of basic 2D animation with the latest computer software and experience the joy of seeing your creations come to life.

Age Groups: Middle and High School  
Instructor: Hoffman  
Fee: $100

Date: June 20-24  
Time: 8:30am - 12:30pm

**VIDEO STORYTELLING**

Everybody is shooting digital video these days. Make the most of it in video editing summer camp! We will spend a week in a digital moviemaking environment and learn the tricks of the trade. You’ll write a script, shoot it and finally put your production together in a video editor. Lights, camera, action!

Age Groups: Middle and High School  
Instructor: Meuwly  
Fee: $100

Date: June 13-17  
Time: 1-5pm

**BABYSITTING CAMP**

Be the best babysitter in your neighborhood! You will learn how to properly care for a child in case of emergencies, how to build your babysitting business, fun activities for the kids you’ll be babysitting and much more! You will walk away from this camp with newfound confidence, a Heartsmart First Aid and CPR Certification and Babysitters Certification from the Mesa County Health Department. This is a great opportunity to build your leadership skills, make new friends and gain some knowledge that will make you the first choice among babysitters this summer.

Age Group: 11-18 years old  
Instructors: Heartsmart and Mesa County Health Depart.  
Fee: $89

Session One  
Date: May 23-27  
Time: 8:30am - 12:30pm

Session Two  
Date: May 23-27  
Time: 1-5pm

Session Three  
Date: June 6-10  
Time: 8:30am - 12:30pm

Session Four  
Date: June 6-10  
Time: 1-5pm

Session Five  
Date: June 13-17  
Time: 8:30am - 12:30pm

Session Six  
Date: June 13-17  
Time: 1-5pm

Western Colorado Community College and Colorado Mesa University reserve the right to cancel courses, change subject matter, alter time schedules or make other changes deemed necessary.
CRIMINAL JUSTICE

CSI @ CMU
Experience crime scene investigation and forensic science with actual experts in the field as you discover the secrets of how crime scene investigators uncover hidden evidence. Learn about careful observation and collection of evidence, detection and interpretation of fingerprints, blood stain patterns, firearms identification, criminal investigation and court testimony in this four-day, hands-on intensive camp at CMU.

Age Group: ........................................... 10th - 12th Grade
Instructor: ..................................................... Quimby
Fee: ............................................................... $120

Date: ............................................................... June 21-24
Times: ............................................................ 9am - 4pm (Tuesday - Thursday)
............................................................ 9am - 12pm (Friday)

CULINARY ARTS

THE LOVE OF THE EGG: LEVEL 1
Eggs dishes are, of course, mostly associated with breakfast or brunch. This week we want to explore the egg and all the dishes you can make with it. The chefs will teach techniques for boiling, poaching, sautéing and scrambling whole eggs properly. In the baking lab, we will make English muffins for the poached egg, angel food cake, breads and baked custard dishes. We’ll tackle dishes like Quiche Lorraine, frittatas, deviled eggs, French toast and crepes. Students will also make dishes to accompany the egg dishes, such as hash browns, salsa and pasta dishes. Come have some fun working with the egg.

Age Group: ........................................... Middle School
Instructors: ................................................ Henderson, McLennan
Fee: ............................................................... $120

Date: ............................................................... June 13-17
Time: ............................................................. 8:30am - 12:30pm

I LOVE THE EGG: LEVEL 1
The love of the egg is our theme for this week. Students will learn how to poach, sauté, scramble, make sauces and eggs benedict. Chefs McLennan and Henderson will put a little spin on the week by creating a kitchen black box where students will have a pantry of fresh vegetables, dried goods, spices and herbs. This camp teaches the basics of culinary and baking, such as knife skills, sanitation, use of large mixers and hearth ovens for breads. Student create a dish or dishes involving the egg. Come explore the possibility of culinary as a career choice and have some fun as we tackle the egg.

Age Group: ........................................... High School
Instructors: ................................................ Henderson, McLennan
Fee: ............................................................... $120

Date: ............................................................... June 20-24
Time: ............................................................. 8:30am - 12:30pm

COOKING AROUND THE WORLD: LEVEL 2
Chef Camp Level II will be a week filled with different dishes from Italy, France, China and Mexico. Students will concentrate on Italy with different homemade pasta dishes, (lasagna and angel hair with creamed chicken and for dessert, lady finger tiramisu). Students will concentrate on France and make sweet and savory crepes, stuffed puff pastries with meat and veggies, French baguettes and a dessert of lace cookies with homemade ice cream. Students will concentrate on China making wontons with creamed crab, egg rolls, sweet and sour chicken and for dessert, almond cookies. Students will concentrate on Mexico making homemade corn tortillas for fish and meat tacos, guacamole with chips, chili rellenos and for dessert, tres leche cake. At the end of the week, students will choose a country to prepare and serve for their family.

Instructors: ................................................ Henderson, McLennan
Fee: ............................................................... $140

Session One

Age Group: ........................................... Middle School
Date: ............................................................. July 11-15
Time: ............................................................. 8:30am - 12:30pm

Session Two

Age Group: ........................................... High School
Date: ............................................................. July 11-15
Time: ............................................................. 1:30-5:30pm

SWEET FOODS AND DECORATING CAMP
How much fun would it be to decorate your own cookies, cupcakes and cake pops? This week we will work on techniques that build your creativity in design and art. We’ll make delicious cookies with tie-dye accents and hand-painted scenes and cupcake warriors with buttercream piping. We’ll sculpt characters and play with fondant flowers. Learn to be fancy with edible designs!

Instructors: ................................................ Henderson
Fee: ............................................................... $120

Session One

Age Group: ........................................... Middle School
Date: ............................................................. June 27 - July 1
Time: ............................................................. 8:30am - 12:30pm

Session Two

Age Group: ........................................... Middle School
Date: ............................................................. June 27 - July 1
Time: ............................................................. 1:30-5:30pm
**HEALTH SCIENCES**

**M*A*S*H CAMP**

Our M*A*S*H Camp for middle school students was created to interest young adolescents in health careers and build basic skills common to all health careers (CPR, First Aid, Infection Control, etc.). There are four levels of M*A*S*H Camp, which enables students to advance their learning over four summers. This exciting, week-long day camp utilizes nursing faculty, students and many community members from various health professions to provide fun, hands-on learning. Students are exposed to a campus life, eating in the college dining hall and utilizing the recreation center.

Age Groups: Middle and High School  
Instructors: Reuss and other health sciences faculty  
Fee: $150  
Call Renae Phillips at 970.248.1235 to register for this camp.

---

**PERSONAL DEVELOPMENT**

**HIRE ME FIRST: BUSINESS ETHIC AND CAREER TRAINING**

Designed to take students on a journey of career exploration, workplace skill development and job place immersion that will put them first when it comes to applying with an employer. It is one thing to get a job, it is another thing to keep that job and excel in the work environment. Learn what it takes to be successful at work. Students today will need special, important skills to be successful in the 21st century. Are you prepared to cultivate these skills and step into your own unique role of leadership? Students may receive one high school elective credit for the class and up to three high school elective credits for WorkKeys (with a higher level score).

Age Group: High School  
Instructor: Smatla  
Fee: $40 (includes all three weeks)

---

**STEM: COMPUTERS**

**BECOME A MASTER OF “WEB FU”**

Learn the secrets of creating your own extra-special website. You’ll get hands-on experience with the tools of web development, including programming in HTML and CSS. Discover how to create a website that will stand out and learn skills that you’ll continue to use for years to come!

Age Group: Middle and High School  
Instructor: McConnell  
Fee: $100

---

**YOU THINK DIFFERENTLY: UNDERSTANDING AND DEVELOPING MULTI-TALENTS**

This is an opportunity to explore and understand what it its like to be a high ability, multi-talented individual. Discover what makes you tick, how you think differently, why things have you on edge. Learn what your talents are and how to make it all work. Potential students are self-identified, high ability multi-talents with or without learning disabilities or emotional/behavioral challenges. Prerequisites: Complete self-screening assessment for multi-talents prior to admission to class.

Age Group: High School  
Instructor: Johnson  
Fee: $100

---

**REGISTER NOW! SUMMER CAMPS FILL FAST.**

Click on the green “Summer Camp” button, pick a camp.
CCNA ROUTING AND SWITCHING
This camp is a gateway to entry-level networking jobs and IT careers. The curriculum consists of Introduction to Networks, Routing and Switching Essentials, Scaling Networks and Connecting Networks.

Age Group: High School
Instructor: McGraw
Fee: $100

Date: July 18-22
Time: 1-5pm

INTRO TO ARDUINOS
Arduinos are inexpensive, easy to program micro-computers that have spawned thousands of new inventions. In this course, you will learn how to build and program a simple robotic car that uses an Arduino for its “brain.” At the end of the five-day camp, you will compete with other participants to see whose car can finish an obstacle course in the shortest amount of time. You get to keep your robot! No prior programming or electronics experience is necessary.

Age Group: Middle School
Instructors: Williams and Williams
Fee: $140

Date: June 6-10
Time: 8am - 12pm

INTRO TO VIDEO GAME DESIGN: LEVEL 1
Power up and find out what it takes to create a unique video game universe. Explore the basics of gameplay and game mechanics. Take on the role of interaction designer, graphic lead, software engineer or creative director. Build a game from paper prototype to playable demo. Beta test your original game and share it at an end-of-session game expo.

Age Groups: Middle and High School
Instructor: Cox
Fee: $110

Session One
Date: June 27 - July 1
Time: 8:30am - 12:30pm

Session Two
Date: June 27 - July 1
Time: 1-5pm

Session Three
Date: July 11-15
Time: 8:30am - 12:30pm

VIDEO GAME DESIGN: LEVEL 3
Continue building on the foundation you started with levels one and two. In this class, we will delve even deeper into the technical aspects of programming for video games, as well as some animation and sound design.

Age Groups: Middle and High School
Instructor: Cox
Fee: $110

Date: July 11-15
Time: 1-5pm

INTRODUCTION TO THE INTERNET OF EVERYTHING
Introduction to the Internet of Everything (IoE) provides an overview of the concepts and challenges of the IoE economy. The course discusses the Internet and its evolution to the interconnection of people, processes, data and things that forms the Internet of Everything.

Instructor: McGraw
Fee: $100

Session One
Age Group: Middle School
Date: June 20-24
Time: 1-5pm
Session Two
Age Group: ............................................. High School
Date: .............................................. July 11-15
Time: ................................................ 1-5pm

**IT ESSENTIALS**

IT Essentials covers fundamental computer and career skills for entry-level IT jobs. The IT Essentials curriculum includes hands-on labs that provide practical experience. Virtual tools help you hone your troubleshooting skills and practice what you learn.

Instructor: ............................................. McGraw
Fee: ..................................................... $100

**JAVA PROGRAMMING**

Java is one of the most popular programming languages due to its widespread use across a wide range of platforms, including mobile phones, PCs and robots. In this camp, you will learn the basics of the programming language, and learn how to write simple programs using a desktop or laptop. No previous programming experience is required.

Instructor: ........................................... Ness, Williams, Bradham
Fee: ..................................................... $100

Date: ............................................. June 20-24
Time: ........................................ 8am - 12pm

**NAVIGATING THE INFORMATION SUPERHIGHWAY: INTERNET 101**

Do you love Facebook, Instagram and Twitter? Do you spend a lot of time online? Do you ever wonder what’s going on behind the scenes? Road trip on the Information Superhighway. We will learn to read the map (search engine skills) and to navigate the road (browser information and comparison). We will explore familiar sites like social media platforms but we will also be sure to visit other less known destinations like Reddit. There will be lots of information about highway robbery and other dangers of the virtual world that we have created with the Internet, and we will discuss potential careers that utilize the internet and/or social media every day.

Instructor: ............................................. Kay
Fee: ..................................................... $100

Date: ............................................. June 6-10
Time: ........................................ 12-4pm

**STEM: MANUFACTURING**

3D PRINTING AND 3D MODELING WITH CAD

3D printing is a game changer. Learn how 3D printing is changing manufacturing and how you can make things for yourself. Using Autodesk Inventor the 3D Computer Aided Design software, you will learn how to draw 3D models, download them to the 3D printer and generate real parts from your drawings. No experience necessary! Join us and experience the world of 3D printing.

Instructor: ................................................. Mahoney
Fee: ......................................................... $100

**SESSION ONE**

Age Group: ........................................... Middle School
Date: .............................................. June 6-10
Time: ................................................ 1-5pm

**SESSION TWO**

Age Group: ........................................... High School
Date: ................................................ June 13-17
Time: ................................................ 1-5pm

**SESSION THREE**

Age Group: ........................................... High School
Date: .............................................. June 27 - July 1
Time: ................................................ 1-5pm

**SESSION THREE**

Age Group: ........................................... Middle School
Date: .............................................. July 18-22
Time: ................................................ 1-5pm

**REGISTER NOW!**

SUMMER CAMPS FILL FAST.

[Click on the green “Summer Camp” button, pick a camp.]
A SUMMER OF POSSIBILITIES

AUTO MECHANIC CAMP
Get a taste of what it's like to work on automobiles. Learn how engines work, work in shops with tools and automobiles and apply science and math skills in real work situations.

Age Groups: Middle and High School  
Instructor: Goetz  
Fee: $100

Date: June 20-24  
Time: 8:30am - 12:30pm

BUILD A 3D PRINTER!
3D printing has changed the way inventors take their ideas from thought to reality. In this camp, you will build and tune your very own 3D printer, capable of printing plastic parts. No experience required.

Age Groups: Middle and High School  
Instructors: Ness, Clark, Williams  
Fee: $300

Date: July 18-22  
Time: 8am - 12pm

LEGO ROBOTICS
Robots made from LEGOs can be fun and powerful. In this course, you will learn how to build a robot that can accomplish several tasks using motors, switches and sensors. You will learn how to program the robot using the LEGO EV3 programming software.

Age Group: Middle School  
Instructors: Clark, Williams, Williams  
Fee: $100

Date: June 13-17  
Time: 8am - 12pm

MODERN WELDING TECHNOLOGY
Explore welding processes using virtual reality simulators. Discuss and learn common processes, theory and applications for cutting, welding and fabrication in a safe environment. SMAW and GMAW virtual welding, demo welding processes in the lab and robotics demonstration will be covered. Learn about welding industries and career paths.

Instructor: Campbell

Session One
Age Group: Middle School  
Date: May 23-27  
Time: 8:30am - 12:30pm  
Fee: $125

Session Two
Age Group: High School  
Date: June 6-10  
Time: 8:30am - 12:30pm  
Fee: $145

PROTOCAMP
ProtoCamp is an exciting robotics building camp where students build two robots to enhance their knowledge in a STEM-specific curriculum. The camp is an all day camp, including lunch. The final day students compete with the robots they have created in a competition called Swept Away. Family members are encouraged to come and observe the competition. Students will also operate CNC machines, be introduced to 3D printing and work with measuring instruments used in engineering and manufacturing. Students will build a project they will take home.

Instructor: McCracken

Age Group: Middle School  
Date: June 6-10  
Time: 9am - 3pm  
Fee: $200

wccc.coloradomesa.edu/cec  970.255.2800
For an in-depth description of each course, call or visit Student Services (970.255.2670) in Building B on the WCCC Bishop Campus. Course descriptions are also available online in the CMU-WCCC catalog at coloradomesa.edu/catalog.

Some courses have fees in addition to tuition, which are included in the course information. Where there is a fee listed but no meeting time, the course is delivered online. The P designation following the course number means permission is required to register for the course, which may have participation requirements and/or course prerequisites for those who enroll. Please call Student Services for additional information.

### HOW TO READ THIS SCHEDULE

1. **Area of study**
2. **Area of study description**
3. **Course information**
   - Department, number, section and description. A ‘P’ indicates instructor permission is required to enroll.
4. **Time and day**
5. **Credit hours**
6. **Fees**
   - Any additional fees for the course
7. **Location**
   - Where the course is held. Please refer to the back page for a full legend of location codes and a campus map.
8. **Start and end dates**
   - Dates the course begins and ends.

### EDUCATION, EARLY CHILDHOOD

Educating the next generation and ensuring they get the best start possible falls to those who love working with children. Our Early Childhood Education program offers on-site and online courses, two technical certificates and an associate of arts degree. Learn more at wccc.coloradomesa.edu/eco.html.

IF YOU’RE INTERESTED IN IMPROVING YOUR LIFE — PROFESSIONALLY OR PERSONALLY — WESTERN COLORADO COMMUNITY COLLEGE HAS SOMETHING TO OFFER.

Whether you are just starting a career, considering a career switch, want to upgrade your skills, or looking for non-credit courses for personal enrichment, WCCC can help you do it your way. You can take a single course to check out a program or choose a certificate or degree path.

WCCC offers more than 20 career-oriented certificate and associate degree programs that can put you on the fast track to a better future. As a division of Colorado Mesa University, WCCC offers students a growing and vibrant environment while providing personalized attention on a smaller campus and expert skills training from instructors with extensive experience in their fields. See the following pages for credit-bearing courses available this fall, which may be applied to a certificate or associate degree program.

Hundreds of non-credit personal and professional enrichment courses are available each semester. See page 2 for the Summer 2016 Community Education Center course schedule.

Getting started on a new path is easy. Our Student Services staff is here to help guide you every step of the way. Our staff will help you select courses, complete the admissions process, obtain program information and help you develop a course schedule that fits your needs and academic goals. Staff members are available year-round by appointment or on a walk-in basis.

EMERGENCY MEDICAL SERVICES

The EMT - Basic is the first component of the emergency medical technician system. Students learn to care for patients at the scene of an accident and while transporting patients by ambulance to the hospital under medical direction. In addition, students learn to use and maintain common emergency equipment such as backboards, suction devices, splints, oxygen delivery systems, and stretchers. Learn more at wccc.coloradomesa.edu/programs/emt.

MEDICAL OFFICE ASSISTANT

WCCC’s medical office assistant program provides a solid administrative foundation and first-level clinical instruction. Learn to take medical histories and prepare patients for examinations and procedures. When you finish, take the national certification exam to become a Registered Medical Assistant. Learn from professionals and in internships. Learn more at wccc.coloradomesa.edu/programs/medical-office-assistant.

MACHINING AND MANUFACTURING TRADES

WCCC is the place to obtain a machine and manufacturing trade certificate or a machining technology associate of applied science degree. Learn the newest techniques on industry-standard equipment from in-the-field professionals. Apply these courses toward a bachelor of science degree in applied mechanical engineering or a bachelor of applied science in business administration degree. Local internships may lead to full-time employment. Learn more at wccc.coloradomesa.edu/programs/manufacturing.
